§ 182.620 *General.* Any manufacturer who manufactures medicines, preparations, compositions, perfumeries, cosmetics, cordials, and other liquors for export at a duly constituted customs manufacturing bonded warehouse established under section 3433, R.S. (26 U.S.C. 1381 (a)), may, under proper permit and bond, withdraw alcohol in approved containers from any industrial alcohol bonded warehouse free of tax for use in the manufacture of such products. Section 6, Act of March 8, 1902 (19 U.S.C., 152 (a)), provides that all articles manufactured in customs manufacturing bonded warehouses in whole or in part of imported materials or of materials subject to the internal revenue tax and intended for shipment from the United States to the Philippine Islands shall, when so shipped, under such regulations as the Secretary may prescribe, be exempt from such tax. Under section 311, Tariff Act of 1930, as amended (19 U.S.C., 1311), alcohol may be removed from industrial alcohol bonded warehouses under proper permit and bond without payment of tax and transported to customs manufacturing bonded warehouses, class 6, to be rectified, or reduced in proof and bottled, and exported or shipped to Puerto Rico or the Philippine Islands.* (Secs. 2891, 3177, 3179, I.R.C.; sec. 6, 32 Stat. 54 (19 U.S.C., 152 (a))

§ 182.621 *Application and entry, Form 1603.* When any manufacturer, who is the proprietor of a customs manufacturing bonded warehouse, desires to remove alcohol to such warehouse from an industrial alcohol bonded warehouse free of tax for use in the manufacture of medicines, preparations, compositions, perfumeries, cosmetics, cordials, and other liquors for export or for shipment to the Philippine Islands, or, in the case of alcohol rectified, or reduced in proof and bottled, for export or for shipment to Puerto Rico or the Philippine Islands, he shall execute Part I of Form 1603, "Application and Entry for Withdrawal Tax-Free," in quadruplicate, for permission so to do, and submit all copies thereof to the district supervisor. The provisions of §§ 182.585 to 182.619, inclusive, concerning the withdrawal of alcohol for export, so far as applicable shall apply to packages to be removed to customs manufacturing bonded warehouses.* (Sec. 2891 (a), I.R.C.)

§ 182.622 *Bond.* The manufacturer shall execute bond to cover the transportation of the alcohol from the industrial alcohol bonded warehouse from which withdrawn to the customs manufacturing bonded warehouse. If the bond is to cover a specific lot of alcohol, it shall be executed on Form 1459, in triplicate, and in a penal sum sufficient to cover the tax at the rate prescribed by law on the alcohol to be so transported. If it is desired to furnish bond under which alcohol may be withdrawn from time to time, it shall be executed on Form 1460, in a penal sum sufficient to cover the tax at the rate prescribed by law on the maximum quantity of alcohol which may be outstanding against the bond at any time. The bond will be forwarded with the application, Form 1603, to the district supervisor.* (Sec. 2891 (a), I.R.C.)

§ 182.623 *Approval of bond and issuance of permit.* The district supervisor will examine the bond and if it is properly executed, as provided in §§ 182.184–182.205, and in a sufficient penal sum, computed as described in § 182.622, to cover the tax at the distilled spirits rate on the alcohol contained in the packages, he shall note his approval thereon, retain one copy, forward one copy to the Commissioner, and deliver one copy to the principal. If the application is complete and the proprietor of the customs manufacturing bonded warehouse has complied with the law and regulations in all respects, and the district supervisor finds that he is entitled to a permit under section 3114, I.R.C., and these regulations, he will issue permit on Part II of all copies of Form 1603 for removal and transportation of the alcohol. The provisions of §§ 182.186 and 182.282 of these regulations are hereby made applicable to the issuance of permits on Form 1603 for the procurement of alcohol free of tax by proprietors of customs manufacturing bonded warehouses.* (Secs. 2891 (a), 3114 (a), I.R.C.)

§ 182.624 *Export stamps.* Alcohol to be transferred to customs manufacturing bonded warehouses must bear export stamps and the same shall be procured from the collector of internal revenue in the same manner as provided in §§ 182.596 to 182.602, inclusive.* (Secs. 2885, 2891 (a), I.R.C.)

§ 182.625 *Account with continuing bond, Form 1460.* The district supervisor will keep an account with each bond on Form 1460, in which account the principal will be charged with the tax on each lot of alcohol removed for transportation to a customs manufacturing bonded warehouse and will receive credit for the tax on each lot concerning which satisfactory proof of the deposit in such warehouse is received. If there has been a loss of alcohol in transit, the account may be credited with the quantity of alcohol deposited in the manufacturing warehouse upon receipt from the collector of customs on Form 3923 (Bureau of Customs) covering the deposit. However, the loss shall not be credited until advice has been received from the Commissioner that liability for tax due thereon has been terminated. When no further withdrawals are to be made under the bond, the district supervisor will, if there are no outstanding charges, cancel the bond in accordance with the provisions of § 182.314.* (Secs. 2891 (a), 3113, I.R.C.)

§ 182.626 *Marking and stamping; shipment; disposition of forms; records.* The packages must be stamped, marked, and shipped, and the forms disposed of, in accordance with the procedure prescribed for the exportation of alcohol in §§ 182.596 to 182.602, inclusive.* (Secs. 2891 (a), I.R.C.)

§ 182.627 *Consignment of alcohol.* The alcohol when withdrawn for shipment must in all cases be consigned to the proprietor of the customs manufacturing bonded warehouse, in care of the collector of customs of the district in which such warehouse is located.* (Sec. 2891 (a), I.R.C.)

§ 182.628 *Regauge and deposit in customs manufacturing bonded warehouse.* Upon receipt of Form 1603, the collector of customs will direct the proper officer to inspect and gauge the alcohol upon its arrival at the warehouse, and to supervise its deposit therein. The officer will make a report of his gauge on Form 696, in duplicate, scalp the export stamps and attach them to one copy of the form, supervise the deposit of the alcohol in the warehouse, execute his certificate on Form 3923 (Bureau of Customs), in duplicate, and forward the forms to the collector of customs, who will execute his certificate on Form 3923 and forward one copy of each form with the scalped stamps to the district supervisor of the district from which the alcohol was received.* (Sec. 2891 (a), I.R.C.)

§ 182.629 *Action by district supervisor.* Upon receipt of Form 3923, the district supervisor will ascertain whether there has been a loss of alcohol from the packages when in transit. If such a loss of alcohol has occurred, the district supervisor will proceed as provided in § 182.613, in the case of loss of alcohol from packages while in transit for exportation. If there has been no loss of alcohol in transit, the district supervisor will, if the withdrawal was made under bond on Form 1460, cancel such bond in accordance with the provisions of § 182.314, or if the alcohol was withdrawn on a continuing bond on Form 1460 enter appropriate credit in his account with such bond.* (Secs. 2891 (a), 3113, I.R.C.)

§ 182.630 *Allowance of loss in transit.* An allowance may be made for loss without fraud or negligence on the part of the proprietor of the industrial alcohol bonded warehouse, owner, exporter, carrier, or their agents or employees occurring during transportation from an industrial alcohol bonded warehouse to a customs manufacturing bonded warehouse. The provisions of these regulations governing the allowance of loss of alcohol in transit for exportation are hereby made applicable to leakage or loss of alcohol in transit from an industrial alcohol bonded warehouse to a customs manufacturing bonded warehouse.* (Sec. 3113, I.R.C.)

Supplies for Certain Vessels and Aircraft

§ 182.630a *General.* Alcohol may be withdrawn under proper permit and bond in approved containers from industrial alcohol bonded warehouses free of tax for use on vessels and aircraft as follows:

For supplies (not including equipment) of—

(1) Vessels of war, in ports of the United States, of any nation which may reciprocate such privilege toward the vessels of war of the United States in its ports;

(2) Vessels employed in the fisheries or in the whaling business or actually engaged in foreign trade or trade between the Atlantic and Pacific ports of the United States or between the United States and any of its possessions;

(3) Aircraft registered in the United States and actually engaged in foreign trade or trade between the United States and any of its possessions; and

For supplies (including equipment), maintenance, or repair of—

(4) Aircraft registered in any foreign country and actually engaged in foreign trade or trade between the United States and any of its possessions, where such trade by foreign aircraft is permitted, and where the Secretary of the Treasury shall have been advised by the Secretary of Commerce that he has found that such foreign country allows, or will allow, substantially reciprocal privileges in respect of aircraft registered in the United States.* (Sec. 3114 (a), I.R.C.; sec. 309 (a), Tariff Act of 1930; 19 U.S.C., Sup., 1309, as amended by sec. 3, Act of July 22, 1941 (Public law 187, 77th Cong.))

§ 182.630b *Reciprocating foreign countries.* The Commissioner will advise district supervisors by circular letter, from time to time, respecting the foreign countries which—

(1) in the case of vessels of war, reciprocate, or will reciprocate, the privilege of withdrawing alcohol free of tax to vessels of war of the United States in their ports, and

(2) in the case of aircraft, the Secretary of Commerce has found and advised the Secretary of the Treasury that such foreign countries allow, or will allow, privileges to aircraft registered in the United States engaged in foreign trade substantially reciprocal to the privileges allowed herein to aircraft of foreign registry.

District supervisors will approve applications to withdraw alcohol for use on foreign vessels of war and aircraft of only such countries.

(a) *Other countries.* If it is desired to withdraw alcohol free of tax for use on vessels of war or aircraft of other foreign countries, which it is claimed reciprocate similar privileges to vessels of war or aircraft of the United States, the applicant must first establish the right of such withdrawal. In such cases, the applicant should request the Secretary of State, in the case of vessels of war, or the Secretary of Commerce, in the case of aircraft, to find and advise the Secretary of the Treasury that such foreign country, or countries, allow, or will allow, substantially reciprocal privileges to vessels of war or aircraft, as the case may be, of the United States.*

§ 182.630c *Application, Form 1659.* Whenever it is desired to withdraw alcohol from an industrial alcohol bonded warehouse for use on vessels or aircraft in accordance with § 182.630a, application will be made on Part I of Form 1659, "Application and Entry for Withdrawal Tax Free," in quadruplicate. All of the information required by these regulations and called for by the form shall be furnished. The application must be subscribed and sworn to before a notary public or other officer authorized to administer oaths.* (Sec. 3114 (a), I.R.C.; sec. 309 (a), Tariff Act of 1930; 19 U.S.C., Sup., 1309, as amended by sec. 3, Act of July 22, 1941 (Public law 187, 77th Cong.))

§ 182.630d *Bond.* Bond covering the withdrawal of alcohol free of tax for use on vessels and aircraft, as provided in § 182.630a, shall be executed on one of the following forms in the penal sum indicated:

(a) *Continuing withdrawal bond, Form 1660.* If alcohol is to be withdrawn from time to time on one bond, a continuing bond on Form 1660 shall be filed, in triplicate. The penal sum of such bond shall be sufficient to cover the tax at the distilled spirits rate on the maximum quantity of alcohol that may remain unaccounted for at any one time, but in no case shall the penal sum be less than $1,000. Alcohol withdrawn for use on vessels and aircraft shall remain unaccounted for until satisfactory proof of use or loss has been filed with the district supervisor, as required by §§ 182.630l or 182.630n.

(b) *Specific withdrawal bond, Form 1661.* If the bond is intended to cover a specific lot of alcohol to be withdrawn, it shall be executed on Form 1661, in triplicate. The penal sum of such bond shall not be less than the tax at the distilled spirits rate on the quantity of alcohol to be withdrawn, as shown by Form 1440 and Form 1659, covering the same.* (Sec. 3114 (a), I.R.C.; sec. 309 (a), Tariff Act of 1930; 19 U.S.C., Sup., 1309, as amended by sec. 3, Act of July 22, 1941 (Public law 187, 77th Cong.))

§ 182.630e *Approval of bond and issuance of permit.* The district supervisor will examine the bond and if it is properly executed, as provided in §§ 182.184–182.205, and in a sufficient penal sum, computed as prescribed in § 182.630d, and the principal has complied with the law and regulations and the application is complete in all respects, the district supervisor will issue permit for withdrawal on Part II of all copies of Form 1659, and forward them to the storekeeper-gauger in charge of the warehouse. The district supervisor will note his approval on all copies of the bond, retain one copy, forward one copy to the Commissioner, and return one copy to the principal.* (Sec. 3114 (a), I.R.C.; sec. 309 (a), Tariff Act of 1930; 19 U.S.C., Sup., 1309, as amended by sec. 3, Act of July 22, 1941 (Public law 187, 77th Cong.))

§ 182.630f *Gauging of alcohol.* The proprietor shall gauge the containers in which the alcohol is to be withdrawn, unless withdrawn on the original gauge, and prepare Form 1440, in quadruplicate, giving the details of such gauge. One copy of Form 1440 will be attached to each copy of Form 1659.* (Sec. 3103, I.R.C.; sec. 309 (a), Tariff Act of 1930; 19 U.S.C., Sup., 1309, as amended by sec. 3, Act of July 22, 1941 (Public law 187, 77th Cong.))

§ 182.630g *Export stamps.* Packages of alcohol withdrawn for use on vessels and aircraft must bear export stamps. Such stamps shall be procured from the collector of internal revenue in the manner provided in §§ 182.590 to 182.592, inclusive.* (Sec. 2885, I.R.C.; sec. 309 (a), Tariff Act of 1930; 19 U.S.C., Sup., 1309, as amended by sec. 3, Act of July 22, 1941 (Public law 187, 77th Cong.))

§ 182.630h *Marking and stamping; shipment; disposition of forms; records.* The packages must be stamped, marked, and shipped, the forms disposed of, and the records prepared in accordance with the procedure prescribed for the exportation of alcohol in §§ 182.596 to 182.602, inclusive.* (Sec. 2885, I.R.C.; sec. 309 (a), Tariff Act of 1930; 19 U.S.C., Sup. 1309, as amended by sec. 3, Act of July 22, 1941 (Public law 187, 77th Cong.))

§ 182.630i *Consignment of alcohol.* Upon withdrawal from warehouse, the alcohol must be consigned to the collector of customs of the port of lading and must be properly described in the bill of lading by serial numbers and quantity.* (Sec. 2885, I.R.C.; sec. 309 (a), Tariff Act of 1930; 19 U.S.C., Sup., 1309, as amended by sec. 3, Act of July 22, 1941 (Public law 187, 77th Cong.))

§ 182.630j *Proceedings at port of lading.* When alcohol withdrawn for use on vessels and aircraft arrives at the port of lading, the principal on the bond shall file immediately with the collector of customs an export entry, Form 691, properly modified. The provisions of § 182.603 will then be observed by the collector of customs insofar as applicable.* (Secs. 2885, 3170, I.R.C.; sec. 309 (a), Tariff Act of 1930; 19 U.S.C., Sup., 1309, as amended by sec. 3, Act of July 22, 1941 (Public law 187, 77th Cong.))

§ 182.630k *Certificate of receipt.* The principal on the bond shall procure a receipt, in duplicate signed by the master or an authorized officer of the vessel or of the steamship company, in the case of withdrawals for use on vessels, or by an authorized officer of the aircraft or of the air line company, in the case of withdrawals for use on aircraft, certifying to the receipt of the alcohol and giv-

ing the numbers of the packages and the quantity received. The principal shall file one copy of the receipt with the collector of customs and one copy with the district supervisor.* (Sec. 309 (a), Tariff Act of 1930; 19 U.S.C., Sup., 1309, as amended by sec. 3, Act of July 22, 1941 (Public law 187, 77th Cong.))

§ 182.630l *Evidence of use on vessels and aircraft.* The principal on the bond shall also submit to the district supervisor, within six months (or such additional time as may be granted by the district supervisor or the Commissioner), an affidavit of the master or other officer of the vessel or aircraft on which the alcohol was laden, having knowledge of the facts, showing that the alcohol has been used on board the vessel or aircraft for supplies (or, in the case of aircraft of foreign registry, for supplies, equipment, maintenance, or repair), and that no portion thereof has been unladen in the United States or any of its possessions: *Provided*, That, in the case of any shipment, the amount of tax thereon does not exceed $25, such affidavit will not be required. In the case of vessels of war, such affidavit will not be required.* (Sec. 309 (a), Tariff Act of 1930; 19 U.S.C., Sup., 1309, as amended by sec. 3, Act of July 22, 1941 (Public law 187, 77th Cong.)

§ 182.630m *Account with continuing bonds, Form 1660.* The district supervisor will keep an account with each continuing bond, Form 1660, similar to that kept for alcohol exported free of tax (see § 182.611). Upon receipt of satisfactory evidence of use of the alcohol on board the vessel or aircraft for supplies (or, in the case of aircraft of foreign registry, for supplies, equipment, maintenance, or repair), the bond will be credited with the quantity so reported.* (Secs. 2885, 2886, 3170, I.R.C.; sec. 309 (a), Tariff Act of 1930; 19 U.S.C., Sup., 1309, as amended by sec. 3, Act of July 22, 1941 (Public law 187, 77th Cong.))

§ 182.630n *Loss of alcohol withdrawn for use on vessels and aircraft.* Where there is a loss of alcohol withdrawn free of tax for use on vessels and aircraft, the provisions of §§ 182.612 to 182.615, inclusive, will be followed insofar as applicable.* (Sec. 3113, I.R.C.; sec. 309 (a), Tariff Act of 1930; 19 U.S.C., Sup., 1309, as amended by sec. 3, Act of July 22, 1941 (Public law 187, 77th Cong.))

Losses of Alcohol

§ 182.631 *Remission of tax.* Under the law, the tax on alcohol lost by evaporation or other shrinkage, leakage, casualty, or unavoidable cause at an industrial alcohol plant or bonded warehouse, or in transit thereto, may be remitted by the Commissoiner, provided he is satisfied that such alcohol has not been diverted to any illegal use, and the proprietor is not indemnified against such loss by a valid claim of insurance.* (Sec. 3113, I.R.C.)

§ 182.632 *Losses from receiving tanks.* Losses sustained from receiving tanks will be determined by physical inventory of such tanks at the close of each month and the loss reported on Form 1444. Where the quantity lost from receiving tanks exceeds 1 per cent of the total quantity contained in such tanks during the month, claim for remission of tax on the entire quantity lost from the tanks will be made by the proprietor. If the loss does not exceed 1 per cent, so calculated, claim for remission of tax will not be required, provided there are no circumstances indicating that the alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

§ 182.633 *Losses from storage tanks.* Losses sustained from storage tanks will be determined by physical inventory of such tanks at the close of each month and the loss reported on Form 1443–A. Where the quantity lost from storage tanks exceeds 1 per cent of the total quantity contained in such tanks during the month, claim for remission of tax on the entire quantity lost from the tanks will be made by the proprietor. If the loss does not exceed 1 per cent, so calculated, claim for remission of tax will not be required, provided there are no circumstances indicating that the alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

§ 182.634 *Losses from packages.* Losses sustained from packages in bonded warehouses will be determined when the packages are withdrawn from warehouse, unless they are regauged for repackaging or other reason prior to withdraw, and the loss reported on Form 1440 and Form 1443–B. Where the quantity lost from any package exceeds 1 per cent in the case of metal packages, or 3 per cent in the case of wooden packages of the quantity originally contained therein, claim for remission of tax on the entire quantity lost from the package will be made by the proprietor. If the loss does not exceed 1 per cent, or 3 per cent, so calculated, claim for remission of tax will not be required, provided there are no circumstances indicating that the alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

§ 182.635 *Losses in transit.* Losses in transit to bonded warehouses must be determined at the time alcohol is received at the warehouse, and the loss reported on Form 1443–A, when received in tank cars, and on Form 1443–B, when received in packages. Where the quantity lost from any tank car or package exceeds 1 per cent (2 per cent on wooden packages) of the quantity shipped therein, claim for remission of tax on the entire quantity lost from the package will be made by the proprietor. If the loss does not exceed 1 per cent (2 per cent on wooden packages) so calculated, claim for remission of tax will not be required, provided there are no circumstances indicating that the alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

§ 182.636 *Losses by theft, casualty, etc.* Losses by theft or casualty, or any other extraordinary or unusual losses, will be determined at the time the loss occurs, or is discovered, and the loss will be entered on Form 1443–A or Form 1443–B, as the case may be. Report of the loss will be made by the proprietor to the district supervisor immediately. Claim for remission of tax on all such losses, regardless of the percentage of loss, will be made by the proprietor.* (Sec. 3113, I.R.C.)

§ 182.637 *Claims.* Claims for remission of tax should be subscribed and sworn to by the proprietor, and filed with the district supervisor within 30 days from the date the loss is ascertained. The claims must set out all the material facts surrounding the loss, and must state particularly the nature and cause thereof, the quantity lost and the quantity from which the loss was sustained, and the percentage of loss. It must be stated in the claim whether the claimant is indemnified against the loss by a valid claim of insurance. If the claimant is so indemnified, the market value of the alcohol, less the tax, and the amount of insurance must be specifically set forth in the claim, and certified copies of all policies of insurance must be submitted with the claim. Claims covering large losses by theft, casualty, or other unusual cause, should be supported, where possible, by affidavits of persons having knowledge of the loss.* (Sec. 3113, I.R.C.)

§ 182.638 *Report by storekeeper-gauger.* Whenever losses occur, which necessitate the filing of a claim for remission of tax by the proprietor, the storekeeper-gauger in charge will make a report of the loss to the district supervisor, giving all the known material facts and circumstances surrounding the loss.* (Sec. 3113, I.R.C.)

§ 182.639 *Investigation by district supervisor.* Where large losses from theft, casualty, or other cause are reported, the district supervisor will immediately make such investigation and require such evidence to be submitted as he may deem necessary, and will advise the Commissioner of his findings and recommendations relative to remission of the tax on the alcohol.* (Sec. 3113, I.R.C.)

§ 182.640 *Examination of claim.* When an application for remission of tax is received by the district supervisor he will carefully examine the same to see that all the required information has been furnished, and will cause such investigation to be made or require such additional evidence to be submitted as he may deem necessary. Upon completion of his investigation, if any, the district supervisor will forward one complete copy of the claim and accompanying papers, together with any pertinent reports and documentary evidence, to the Commissioner with his recommendation in respect to the allowance or disallowance of the claim.* (Sec. 3113, I.R.C.)

§ 182.641 *Losses indicating tampering.* Where the regauge of packages of alcohol indicates that the contents have been tampered with, as where a material deficiency is found and there is no evidence of loss by leakage or casualty, or where deterioration in proof not accountable for by variation in gauge is disclosed, the storekeeper-gauger will immediately notify the district supervisor of all the facts in the case and will not permit the packages to be removed pending receipt of instructions from the district supervisor.* (Sec. 3113, I.R.C.)

Records and Reports of Proprietor

§ 182.642 *General.* The proprietor of every industrial alcohol bonded warehouse shall keep monthly records and render daily reports as hereinafter provided. Entries shall be made as indicated by the headings of the various columns and lines, and in accordance with the instructions on the forms and as set forth in these regulations. The provisions of §§ 182.455, 182.459, and 182.461, relative to the keeping, signing, and filing of reports by proprietors of industrial alcohol plants are hereby made applicable to the keeping, signing, and filing of records and reports of the proprietor of a bonded warehouse: *Provided*, That daily reports need not be sworn to.* (Secs. 3101, 3171, I.R.C.)

§ 182.643 *Form 1440*—(a) *Deposit forms.* One copy of each Form 1440, covering the deposit of alcohol in the warehouse, shall be kept by the proprietor in bound form as a permanent record. The Forms 1440, covering the deposit in the warehouse of packages filled from receiving tanks in the industrial alcohol plant on the same premises or from storage tanks in the warehouse, or from other packages (where alcohol is repackaged or packages are re-marked, as provided in paragraph (h)), will be filed together in sequence to the serial number of the packages. The Forms 1440, covering packages received in bond from another bonded warehouse, will be filed in a separate file, according to the date of deposit of the packages in the warehouse. The Forms 1440, covering alcohol deposited in warehouse storage tanks, whether received by pipe line from the receiving tanks in the industrial alcohol plant on the same premises or in tank cars from another bonded warehouse, or dumped from packages (as provided in § 182.495), will be filed together in a separate file in chronological order, according to the date of deposit of the alcohol in storage tanks. Forms 1440, covering alcohol gauged for direct shipment or transfer from the receiving tanks in the industrial alcohol plant on the same premises or from the warehouse storage tanks, whether by pipe line or in tank cars or packages, will be filed in the file for withdrawal Forms 1440, as provided in paragraph (b), and will not be filed in the files required by this paragraph for deposit Forms 1440. When packages are withdrawn from warehouse, the date of withdrawal shall be entered on the Form 1440, covering the deposit of the packages in warehouse, in order that the packages in warehouse may be readily ascertained from the record and physical inventories of packages in the warehouse may be checked therewith.

(b) *Withdrawal forms.* The proprietor shall also keep in bound form as a separate permanent record a copy of each Form 1440 covering the withdrawal of alcohol from the warehouse. The Forms 1440 will be arranged in the file in chronological order, according to the date of withdrawal.

(c) *Fractional parts of a gallon.* All fractional parts of a gallon less than one-tenth shown in the Gauging Manual shall be disregarded in reporting the gauge of alcohol. For example, a package of 190 proof alcohol weighing 326 pounds net shall be reported on Form 1440 as containing 47.90 wine gallons, 91.10 proof gallons. A package of 190 proof alcohol weighing 340 pounds net shall be reported as containing 50 wine gallons, 95 proof gallons. The packages will be marked similarly.

(d) *Other details.* Details of all alcohol gauged shall be reported by the proprietor on Form 1440 as indicated by the headings of the various columns, the instructions on the form, and these regulations. The number of copies to be executed and the disposition thereof will be made in accordance with these regulations.

(e) *Gauge for entry.* When alcohol is gauged for deposit in the warehouse, Form 1440 shall be made in duplicate, one copy of which shall be retained by the proprietor and filed as a permanent record as provided in these regulations. The remaining copy shall be delivered to the storekeeper-gauger in charge in order that he may forward the same at the close of the day to the district supervisor with the Form 1441 recording the entry of the alcohol into the warehouse. When packages are filled from receiving tanks in an industrial alcohol plant for deposit in the warehouse on the same premises, the Form 1440 will bear the notation "Entry." When packages are filled from storage tanks and are not to be immediately withdrawn the following notation will be made: "Filled from storage tank in warehouse for storage."

(f) *Gauge for entry and withdrawal.* Alcohol gauged for immediate shipment from receiving tanks will be reported on Form 1440 as gauged for "Entry and Withdrawal," and the purpose of the withdrawal will be stated.

(g) *Gauge for withdrawal.* Where the packages are filled from storage tanks in the warehouse for immediate shipment, the words "Filled from storage tank in warehouse" shall be written in the heading of Form 1440.

(1) *If withdrawn on original gauge.* When alcohol is to be withdrawn without regauge, a transcription of the original gauge shall be made, in triplicate, appropriately headed to show the purpose for which withdrawn or transferred. Notation will be made to the effect that withdrawal is made on entry gauge.

(2) *Details of regauge, if made.* If a regauge is made, the serial number, tare, and proof gallons shown on entry Form 1440 shall be carried to the respective columns of the withdrawal Form 1440, which will also show the details of the regauge: *Provided*, That if wooden packages are regauged and actual tare is taken, the actual tare, instead of the original tare, will be stated on Form 1440. The difference, if any, between the proof gallons shown in the entry gauge and on withdrawal shall be set out as the proof gallons lost.

(h) *Repackaging and re-marking*—(1) *Repackaging.* Where packages on deposit in a bonded warehouse are repackaged, notation should be made on Form 1440, covering the entry gauge of the original packages, that their contents have been recasked into other packages, giving the serial numbers of the recasked packages and the date of recasking. The recasked packages shall be gauged and notation made on the Form 1440, in duplicate, covering such gauge that they were filled from other packages, giving the serial numbers of the original packages. Where it is desired to recask only a portion of the contents of the package, the package should be dumped into a storage tank and a notation thereof made on Form 1440.

(2) *Re-marking.* Where packages received from another warehouse are re-marked, as provided in § 182.523 (b), notations shall be made on Form 1440, covering the receipt and deposit of the packages in the warehouse, that the packages have been re-marked, giving the serial numbers of the re-marked packages and the date of re-marking. A new set of Forms 1440 shall be prepared, covering the re-marked packages, and notation made thereon that the packages were re-marked, giving the serial numbers and warehouse of the original packages.

(i) *Tax-free withdrawals.* When alcohol is withdrawn for scientific purposes, etc., or for the use of the United States or governmental agency thereof, Form 1440 will be executed in duplicate, and the purpose for the withdrawal will be entered as "For hospital use," "Laboratory use," or "Use of United States," etc., as the case may be.

(j) *Statement of materials from which produced.* Notation shall be made on Form 1440 covering all alcohol withdrawn from bonded warehouses tax-paid for other than industrial or tax-free use showing the material from which produced or an abbreviation thereof, such as "Alcohol—Grain," "Alcohol—Cane," "Alcohol—Fruit," "Alcohol—Distilled from grain," "Alcohol—Distilled from cane," or "Alcohol—Distilled from fruit."

(k) *Application for withdrawal.* When the proprietor desires to withdraw alcohol from the bonded warehouse for any lawful purpose and has complied with all the requirements of the law and these regulations respecting the particular withdrawal, he will make application on the back of each copy of Form 1440, covering the withdrawal, to the storekeeper-gauger in charge for permission to withdraw the alcohol. If withdrawal is to be made upon tax-payment, the proprietor shall present to the storekeeper-gauger the prescribed tax-paid stamps or certificate of tax-payment covering the alcohol to be withdrawn. If the alcohol is to be transferred in bond to another bonded warehouse or shipped to a denaturing plant or withdrawn for export or other lawful tax-free purpose, the proprietor will present to the storekeeper-gauger the necessary permit authorizing such

withdrawal. The storekeeper-gauger will examine the tax-paid stamps or certificate of tax-payment, or permit authorizing transfer in bond or tax-free withdrawal, and if he finds that the tax has been paid or, in the case of transfer in bond or tax-free withdrawal, that proper withdrawal permit is held by the proprietor, the storekeeper-gauger will sign the authorization on Form 1440 for the withdrawal of the alcohol.

(l) *Notation of differences by consignee.* When alcohol is received in bond from a bonded warehouse, the proprietor shall note on Form 1440, covering the transfer, any loss or deficiency on the shipment, as provided in § 182.494.* (Secs. 3101, 3171, I.R.C.)

§ 182.644 *Form 1441.* The proprietor of each bonded warehouse shall, at the close of each business day, prepare and deliver to the storekeeper-gauger in charge Form 1441, "Daily Report of Transactions," summarizing the production, receipt, and disposal of all alcohol in such bonded warehouse. The form shall be made in duplicate, one copy to be retained by the proprietor and one copy delivered to the storekeeper-gauger in charge, who will forward the same to the district supervisor. All items of alcohol entered in this return on Form 1441 must be carried into the monthly warehouse account, Forms 1442–A and 1443–B, under the same date for which the Form 1441 is rendered.

(a) *Entries from industrial alcohol plant.* In the column headed "Produced and deposited in warehouse" will be entered all alcohol drawn from the receiving tanks of the industrial alcohol plant on the same premises during the day for which the return is rendered. Entry must be made in this column of all alcohol removed from the receiving tanks, whether removed for storage in warehouse in tanks or packages, or whether removed for shipment in tank cars, cases, packages, or by pipe line to a denaturing plant.

(b) *Entries from other warehouses.* The serial numbers and proof-gallon content of packages or tank cars of alcohol received from other bonded warehouses will be entered in the proper columns under the heading "Received from other bonded warehouses." If there is a difference in the quantity of alcohol thus received from the quantity shipped, special notation shall be made on the Form 1441.

(c) *Packages filled.* The serial numbers and proof-gallons of packages of alcohol filled from receiving tanks in the industrial alcohol plant on the same premises and from storage tanks in the warehouse must be stated separately in the proper columns.

(d) *Withdrawals.* Entry must be made of alcohol withdrawn for shipment on the day for which the Form 1441 is rendered, whether such alcohol is drawn directly from receiving tanks or removed from the bonded warehouse. The purpose for which withdrawal is made must in each case be stated in the column headed "Withdrawal for." The following abbreviations should be used: "Tr" for tax-payment; "Ex." for export; "Den." for denaturation; "US" for use of United States or governmental agency; "TF" for tax-free use of States, hospitals, colleges, etc.; "MW" for tranfer to customs manufacturing bonded warehouses; and "Trans." for transfers to other bonded warehouses.

(e) *Special entries*—(1) *Repackaging and re-marking.* When the contents of packages in warehouses are repacked, or packages received from other warehouses are re-marked, memorandum entry will be made in the statement of "Packages Filled" on Form 1441, showing the serial numbers used on the new packages.

(2) *Return of alcohol for redistillation.* Special permission of the Commissioner must be procured for the transfer of alcohol to an industrial alcohol plant on the same premises for redistillation, in accordance with § 182.355. Special entry in the statement of "Withdrawals" will be made of the quantity so transferred and the date of the Commissioner's approval of the application.* (Secs. 3101, 3171, I.R.C.)

§ 182.645 *Form 1443–A.* The proprietor of every bonded warehouse shall keep a monthly record, Form 1443–A, "Report of Uncoopered Alcohol," and render monthly reports thereon, in triplicate, of all uncoopered alcohol produced, received, and disposed of. Entries shall be made daily in the respective columns of the quantity of alcohol produced and deposited in the warehouse, or received in bond at the bonded warehouse, packages filled, and the quantities withdrawn for shipment uncoopered.

(a) *Received from or produced by.* All alcohol drawn from receiving tanks in the industrial alcohol plant located on the same premises, whether for shipment direct from such receiving tanks or for storage in the warehouse, will be entered on the form. When alcohol is received from other bonded warehouses in tank cars, the symbol and serial number of the tank car and the quantity of alcohol received will be reported. The amount of alcohol lost in each tank car in transit to the warehouse will be entered on the same line with the quantity stated as received in such tank car. Losses in transit will not be included with the losses reported in the summary.

(b) *Packages filled.* Under the heading "Packages filled" will be entered the details of all packages filled, whether from receiving tanks in the industrial alcohol plant on the same premises or from storage tanks in the warehouse. Tank cars are not considered packages and will not be reported under this heading.

(c) *Withdrawals.* Under the heading "Withdrawal for shipment" will be entered daily the quantity of alcohol shipped in tank cars, or removed by pipe line to a denaturing plant on the same premises.

(d) *Special entries*—(1) *Repackaging and re-marking.* When the contents of packages in warehouse are repackaged, or packages received from other warehouses are re-marked, memorandum entry will be made in the statement of Packages Filled on Form 1443–A, showing the serial numbers used on the new packages.

(2) *Dumping.* Where the contents of packages are dumped into storage tanks for storage or repackaging of a portion thereof, the quantity dumped will be entered on Form 1443–A in the statement of "Uncoopered Alcohol Received or Produced," with proper explanatory note, and any new packages therefrom will be entered in the statement of "Packages Filled" on the form in the usual manner.

(3) *Other entries.* If alcohol is returned to an industrial alcohol plant for redistillation, appropriate entries will be made on Form 1443–A.

(e) *Summary.* In the appropriate space on Form 1443–A there must be entered at the end of the month a summary of the transactions reported thereon. The actual quantity of alcohol remaining in the storage tanks in the warehouse at the end of the month will be recorded and the losses from the storage tanks must be recorded.* (Secs. 3101, 3171, I.R.C.)

§ 182.646 *Form 1443–B.* The proprietor shall keep monthly record on Form 1443–B, "Report of Alcohol in Packages," in triplicate. There shall be entered daily the quantity of alcohol transferred at the warehouse to packages or received in packages from other bonded warehouses and the quantities withdrawn for shipment in packages from the warehouse. Entries of withdrawals of alcohol for tax-payment and deposit in the tax-paid storeroom (if any) should show the disposition of such alcohol to the proprietor of the warehouse for such purpose. When alcohol is withdrawn in packages directly from receiving tanks in an industrial alcohol plant on the same premises, it shall be regarded, for accounting purposes, as having been constructively warehoused and all records of production, depositing, and withdrawal of such alcohol shall be made as for alcohol actually entered into the warehouse in original packages or in storage tanks.

(a) *Packages received from other warehouses.* The actual contents of the packages received from other warehouses will be entered in the proper column and the losses in transit from such packages will be entered on the same line. Such losses will not be included in the losses reported in the summary.

(b) *Withdrawals.* All packages withdrawn from the warehouse for shipment, either filled in the warehouse or received from other warehouses, will be entered daily and the losses in warehouse on such packages will be entered on the same line. The total of losses will be stated on the line entitled "Losses in the warehouse" in the summary. The actual date of withdrawal from the warehouse as recorded on Form 1441 will be stated.

(c) *Special entries*—(1) *Dumping.* Where the contents of packages are dumped into storage tanks for storage or repackaging of a portion thereof, the quantity dumped will be entered on Form 1443–B in the statement of "Alcohol Withdrawn for Shipment," with proper explanatory note.

(2) *Return of unused alcohol withdrawn free of tax.* Where alcohol previously removed from the bonded warehouse tax-free is returned in packages pursuant to special permission, in accordance with § 182.496, all entries relative to such transactions should be noted on this form. The quantity represented thereby should be taken up in the summary as a special entry.

(d) *Summary.* At the end of the month there shall be entered in the appropriate spaces provided therefor a summary of the transactions recorded on the Form 1443–B.* (Secs. 3101, 3171, I.R.C.)

§ 182.647 *Disposition of Forms 1443–A and 1443–B.* On or before the 5th day of the month succeeding that for which Forms 1443–A and 1443–B cover, the proprietor shall deliver three copies of each form, duly subscribed and sworn to, to the storekeeper-gauger in charge. The storekeeper-gauger shall examine the forms carefully, and, if they are complete in all respects, and the quantities shown on hand at the end of the month are correct, he will initial all copies of the forms, forward two copies of each form to the district supervisor, and return one copy of each form to the proprietor who shall file the same in bound form as a permanent record available for inspection by Government officers at all times.*

§ 182.648 *Record at tax-paid premises, Record 52, and Forms 52–A, 52–B, 52–E, and 338.* Every proprietor of an industrial alcohol bonded warehouse who maintains a tax-paid storeroom in connection with such warehouse, as provided in § 182.42, shall keep Form 52–E, "Monthly Record and Report of Importer or Proprietor of Tax-Paid Premises," of all alcohol, both bulk (packaged) and bottled, received and disposed of at his tax-paid premises: *Provided*, That if such proprietor so desires, he may keep Form 52–E for bulk spirits only and Record 52, "Wholesale Liquor Dealer's Record," for bottled alcohol only. Where only bottled alcohol is received, stored, and sold at such tax-paid premises the proprietor shall keep Record 52 of all such alcohol received and disposed of at his tax-paid premises. By tax-paid premises is meant the "tax-paid storeroom" maintained as a part of the bonded warehouse or premises maintained at other locations for the receipt, storage, and disposition of tax-paid alcohol. Separate records must be kept at each of such premises.

(a) *Time of making entries.* Daily entries shall be made on Record 52 and Form 52–E, as indicated by the headings of the various columns and in accordance with instructions printed on the forms not later than the close of business of the day on which the transactions occurred: *Provided*, That where the proprietor keeps a separate record, such as invoices, of the removals of alcohol, showing the removal data required to be entered on Record 52 or Form 52–E, daily entries of removals of alcohol from the premises may be made on the respective records not later than the close of business of the following day provided such separate record is approved by the district supervisor.

(b) *Separate record of serial numbers of cases.* Serial numbers of cases of alcohol disposed of need not be entered on Record 52 or Form 52–E provided the proprietor keeps in his place of business a separate record approved by the district supervisor showing such serial numbers with necessary identifying data, including the date of removal and the name and address of the consignee. Such separate record may be kept in book form (including loose leaf books) or may consist of commercial papers, such as invoices or bills. Such books, invoices, or bills shall be preserved for a period of four years and in such a manner that the required information may be ascertained readily therefrom and during such period shall be available during business hours for inspection and the taking of abstracts therefrom by revenue officers. Entries shall be made on such separate approved record not later than the close of business of the day on which the transactions occurred. The proprietor whose separate record has been approved by the district supervisor shall make a notation on Record 52 or Form 52–E in the column for reporting serial numbers as follows: "Serial numbers shown on commercial records per authority dated ----------".

(c) *Monthly reports.* A full and complete transcription of the required records shall be rendered on the respective monthly reports, Forms 52–A, 52–B, and 52–E, and forwarded to the district supervisor on or before the 10th day of the succeeding month. Where Record 52 is kept, a monthly summary report shall be prepared on Form 338, in duplicate, one copy of which will be retained on file and the original forwarded to the district supervisor on or before the 10th day of the succeeding month. Where the proprietor keeps Record 52, and there are no receipts and disposals of bottled alcohol during any month, Forms 52–A and 52–B need not be submitted, but Form 338 must be rendered to the district supervisor, showing the quantity of bottled alcohol on hand the first and last of the month and marked "No transactions during month." Records kept on Record 52 and Form 52–E shall be preserved for a period of four years and during such period shall be available during business hours for inspection and the taking of abstracts therefrom by the Commissioner or any internal revenue officer.

(d) *Discontinuance of tax-paid storeroom.* Upon permanent discontinuance of the tax-paid storeroom, the reports for the month in which the storeroom is discontinued shall be marked "Final" by the proprietor.

(e) *Forms to be provided by users.* Record 52 and Forms 52–A, 52–B, 52–E, and 338, will be provided by users at their own expense, but must be in the form prescribed by the Commissioner: *Provided*, That with the approval of the Commissioner they may be modified to adapt their use to tabulating or other mechanical equipment: *Provided further*, That where the form is printed in book form, including loose leaf books, the instructions may be printed on the cover or the fly leaf of the book instead of on the individual form.* (Secs. 3101, 3171, I.R.C.)

Audit of Reports

§ 182.649 *Audit by district supervisor.* After audit, and not later than the last day of the month succeeding that for which the Forms 1443–A and 1443–B are rendered, the district supervisor will transmit to the Commissioner copies of such reports with his monthly report, Form 1487, as provided in § 182.964.*

Change in Proprietorship, Trade Name, Etc.

§ 182.650 *Change in proprietorship.* When there is a change of the proprietorship, and the successor has complied with the applicable provisions of §§ 182.262 to 182.264, inclusive, the procedure covering change of persons interested in the business as outlined in §§ 182.447 to 182.451, inclusive, must be complied with, insofar as applicable. The successor's name must be substituted on withdrawal permits in accordance with § 182.652.*

§ 182.651 *Changes in name.* Where there has been a change in the individual, firm, or corporate name, trade name or style in accordance with the provisions of §§ 182.260 and 182.261, the proprietor must make appropriate notation of such change on Forms 1442–A and 1443–B and thereafter submit reports in such new name. The new name must be substituted for the old name on withdrawal permits in which the proprietor is named as vendor in accordance with § 182.652.*

§ 182.652 *Changes in permits.* If a successor is to continue the business of his predecessor and he desires to supply alcohol to permittees in whose withdrawal permits the predecessor is named as vendor, he may, upon written request, be authorized by the district supervisor to make shipments on such withdrawal permits, pending the amendment of the permits by the district supervisor issuing the same, pursuant to application for such amendment by the permittees to whom the withdrawal permits were issued. When there is a change in the name, firm name, corporate name, trade name or style of the proprietor of the warehouse, similar action will be taken.*

OPERATIONS BY USERS OF TAX-FREE ALCOHOL

Procurement of Tax-free Alcohol

§ 182.653 *Application and withdrawal permit, Form 1450*—(a) *Application.* Where a university, college, laboratory, hospital, sanatorium, or clinic, or State, Territory, or municipal subdivision thereof, or the District of Columbia, holding basic permit, Form 1447, to use alcohol free of tax desires to procure tax-free alcohol under said permit, it shall file application on Part I of Form 1450, "Application for Permit to Procure Alcohol Free of Tax," in duplicate, with the district supervisor for withdrawal permit to procure tax-free alcohol. There shall be stated in the application the names, registry numbers, and addresses of the bonded warehouses from which it is proposed to purchase tax-free alcohol. The applicant shall also specify the total

quantity in proof gallons of alcohol to be withdrawn during the term of the withdrawal permit and the quantity to be withdrawn during the calendar month, which amount shall not be in excess of one-twelfth (or similar proportionate quantity where the withdrawal permit is for a period of other than one year) of the total quantity to be withdrawn during the term of the withdrawal permit. Such quantities shall in no case exceed those specified in the applicant's basic permit, Form 1447, and where the withdrawal permit is for a period less than that covered by the applicant's basic permit, the total quantity shall be in proportion to the unexpired term of the basic permit. The district supervisor may approve or disapprove the application in whole or in part according to his findings as to the legitimate needs of the applicant.

(b) *Withdrawal permit.* If the application is approved by the district supervisor, he shall issue withdrawal permit on Part II of Form 1450. The permit shall specify the quantity that may be procured during any calendar month and the total quantity that may be procured during the period for which the withdrawal permit is issued. The total quantity authorized by the withdrawal permit shall not exceed that fixed in the basic permit, Form 1447, and the quantity that may be withdrawn during any calendar month shall not exceed one-twelfth of such quantity: *Provided*, That if the withdrawal permit, Form 1450, is issued for a period of less than 12 months, the quantity authorized to be withdrawn in any calendar month shall be in proportion to the period for which the withdrawal permit is issued; for example, if the withdrawal permit is issued for a period of six months, not over one-sixth of the total quantity specified therein may be withdrawn during a calendar month: *And provided further*, That where the withdrawal permit is issued for a period less than that covered by the applicant's basic permit, the total quantity authorized in the withdrawal permit shall be in proportion to the unexpired term of the basic permit. The withdrawal permit shall specify the date when the same shall be available for withdrawal purposes. The district supervisor will forward the original copy of the withdrawal permit to the permittee and will retain the duplicate copy for his files. If any warehouseman named as vendor in the withdrawal permit is located in another supervisory district, a copy of the withdrawal permit and any renewals or amendments thereof will be prepared on the prescribed form and transmitted by the district supervisor issuing the same to the district supervisor of the district from which shipments are to be made.

(1) *Withdrawals under permit.* When the permittee desires to procure alcohol, he will forward the original of the withdrawal permit to the warehouseman named therein from whom he desires to procure the alcohol. Upon shipment, the warehouseman will enter the shipment on the withdrawal permit and return it to the permittee, unless he has been authorized by the permittee to retain the permit for the purpose of making future shipments. No alcohol may be shipped by a vendor named in the withdrawal permit until such permit is in his possession. Except as provided in paragraph (e), further like shipments may be made under such permit during the term for which it is issued.

(2) *Excessive withdrawals.* Withdrawals must be so regulated by the permittee that he will not have on hand, in transit, and unaccounted for during any calendar month more than the quantity of alcohol so authorized by his basic permit, Form 1447.

(c) *Special permit.* Where a new permittee qualifies within a calendar month a special withdrawal permit, Form 1450, should be issued for the proportionate quantity of alcohol to which the permittee may be entitled for the balance of the month, which permit shall be void at the end of such month and must be at once returned by the permittee to the district supervisor.

(d) *Carrier to be furnished copy of Form 1450.* Where the alcohol is to be delivered to the permittee by a person other than the vendor, the permittee shall procure from the district supervisor a certified copy (or copies, if delivery is to be made by more than one carrier), on the prescribed form, of the withdrawal permit, Form 1450, issued to him, and file same with the delivering carrier's agent at destination. Application for such certified copy or copies shall be made by the permittee to the district supervisor by letter, specifying the name of the delivering carrier. Where such delivering carrier is known at the time Form 1450 is filed, the application should accompany such form.

(e) *Expiration or termination of permit.* Upon expiration of a withdrawal permit, it shall be returned to the district supervisor for cancellation. Where the withdrawal permit is in the possession of a vendor on the date of expiration, such vendor shall return it to the permittee for surrender to the district supervisor. Should a basic permit, Form 1447, held by a permittee to whom withdrawal permit, Form 1450, was issued, be terminated, surrendered, or revoked, each warehouseman named as vendor in such withdrawal permit shall, upon notice from the district supervisor, make no further shipments thereunder, and if such withdrawal permit is in his possession, he shall return it to the district supervisor for cancellation.* (Secs. 3108, 3114 (a), I.R.C.)

§ 182.654 *Application for renewal of withdrawal permit, Form 1450.* Application, on Part I of Form 1450, for renewal of withdrawal permits must be submitted by the applicant to the district supervisor not less than one month prior to the date of expiration of the permit to be renewed, in order that the renewal permit may be issued and become available for withdrawals by the first day of the calendar month following the date of expiration of the permit to be renewed. Application for renewal of withdrawal permits shall be executed in conformity with § 182.653 (a).* (Sec. 3114 (a), I.R.C.)

§ 182.655 *Renewal of withdrawal permit, Form 1450.* Withdrawal permits on Part II of Form 1450 shall remain in force for the calendar year or for the term of the basic permit, Form 1447. A renewal permit must be procured for each year commencing with January 1 after the expiration of the original permit. The provisions of § 182.653 (b) shall be applicable to the issuance of renewal permits.* (Sec. 3114 (a), I.R.C.)

§ 182.656 *Quantity procurable under withdrawal permits.* In procuring alcohol the permittee shall deduct the quantity of alcohol on hand, in transit, and unaccounted for from the quantity procurable under the withdrawal permit during the calendar month, and give his order for an amount not exceeding the available balance. For this purpose, alcohol shall be deemed to be unaccounted for when used or disposed of otherwise than as provided in these regulations. Failure on the part of permittees to observe the foregoing requirements concerning withdrawals will be regarded as sufficient ground for citation for revocation of their basic permits.* (Secs. 3108, 3114 (a), I.R.C.)

Receipt of Tax-free Alcohol

§ 182.657 *Deposit in storeroom.* Tax-free alcohol received pursuant to withdrawal permit, Form 1450, shall be placed in the locked storeroom or compartment, required to be provided in accordance with § 182.61. Such alcohol shall remain in the original packages in the storeroom or compartment until withdrawn for use. The room or compartment for the storage of tax-free alcohol must be used exclusively for the purpose of storing such alcohol in the original containers.* (Secs. 3108, 3114 (a), I.R.C.)

§ 182.658 *Destruction of marks and brands.* The marks and brands required to be placed on packages containing tax-free alcohol must not be destroyed or in anywise altered or disturbed until all of the alcohol has been removed from the package. When the packages have been emptied of their contents, the marks and brands must be at once completely effaced or obliterated, as required by law, by painting, scraping, or otherwise. The provisions of §§ 182.533 to 182.536, inclusive, insofar as applicable, shall apply to empty tax-free alcohol packages.* (Sec. 2866, I.R.C.)

Use of Tax-free Alcohol

§ 182.659 *General.* In no case shall alcohol withdrawn tax-free be used in the preparation of condiments, culinary extracts, flavoring, or other preparations used in food products, or in food products in any manner, and under no circumstances shall such alcohol be used for beverage purposes or in any product which may be so used.* (Secs. 3108, 3114 (a), I.R.C.)

§ 182.660 *States, Territories, etc., or the District of Columbia.* Tax-free alcohol when withdrawn by the several States and Territories, or municipal subdivisions thereof, or the District of Columbia, must be used solely for mechanical and scientific purposes, or for hospitals and clinics, as hereinafter provided, and, except upon approval of the Commissioner, such use, or the use of any resulting product, must be confined to the premises under the control of the State or Territory, or municipal subdivision thereof, or the District of Columbia: *Provided*, That bona fide medicines compounded with such alcohol, withdrawn for the use of clinics operated for charity and not for profit, may be used outside of such clinics for the treatment of the patients thereof, but such medicines may not be sold.* (Secs. 3108, 3114 (a), I.R.C.)

§ 182.661 *Hospitals, sanitariums, or clinics.* Tax-free alcohol withdrawn by hospitals, sanitariums, or clinics operated for charity and not for profit, may be used only for medicinal, mechanical, and scientific purposes and in the treatment of patients. The use of the alcohol and the resultant products shall be confined strictly to the premises of the institution withdrawing the alcohol: *Provided*, That bona fide medicines compounded with alcohol for clinics operated for charity and not for profit may be used outside of such clinics for treatment of patients thereof, but such medicines may not be sold.* (Secs. 3108, 3114 (a), I.R.C.)

§ 182.662 *Scientific universities and colleges of learning.* Scientific universities and colleges of learning shall use tax-free alcohol only for scientific, mechanical, and medicinal purposes and use thereof shall in all instances be confined strictly to the premises of the institution.* (Secs. 3108, 3114 (a), I.R.C.)

§ 182.663 *Laboratories.* Any laboratory withdrawing alcohol free of tax must use such alcohol exclusively in scientific research, and the use thereof shall be confined strictly to the premises covered by the basic permit, Form 1447.* (Secs. 3108, 0114 (a) I.R.C.)

§ 182.664 *Return of tax-free alcohol to bonded warehouse.* Where tax-free alcohol, lawfully in the possession of a tax-free permittee, is found to be unsuitable for use, or where such permittee discontinues the use thereof, or where for any other legitimate reason such permittee desires so to do, such alcohol may be returned to the bonded warehouse for lawful disposition: *Provided*, That (1) consent of surety is filed on the bond (if any) of the tax-free permittee extending the terms thereof to cover the transportation of the alcohol to the bonded warehouse, (2) the proprietor of such bonded warehouse assents to such return, and (3) permission for such return is in each instance first obtained from the district supervisor of the district in which the permittee is located. If the bonded warehouse is situated in another district, the district supervisor authorizing the return will forward a copy of his letter of authority to the district supervisor of such other district. Should the alcohol not be reported received by the warehouseman in due time, the district supervisor will make appropriate investigation in respect thereto. Report of the return of the alcohol to the bonded warehouse will be made by the tax-free permittee on his monthly report, Form 1451, and by the warehouseman on his warehouse report, Form 1443–B. The return will also be shown in the district supervisor's report, Form 1487.*

Losses of Tax-free Alcohol

§ 182.665 *Losses in transit.* Losses in transit to tax-free permittee's premises must be ascertained at the time the alcohol is received by the permittee. Accordingly, when packages are received showing evidence of having sustained a loss in transit, the permittee should determine the extent of the loss at that time. The quantity ascertained to have been lost will be noted on Form 1451 immediately below the line on which receipt of the shipment is reported. Where the quantity lost from any package exceeds 1 percent of the quantity originally contained therein, claim for allowance of the entire quantity lost from the package will be made by the permittee. If the loss does not exceed 1 percent, so calculated, claim for allowance will not be required, provided there are no circumstances indicating that the alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

§ 182.666 *Losses at permittee's premises.* Losses of tax-free alcohol at permittee's premises will be reported on Form 1451 for the month in which the loss is ascertained. If the loss of alcohol at a permittee's premises during any month exceeds 1 per cent of the quantity on hand during the month, claim for allowance of the entire quantity lost will be made by the permittee. If the loss does not exceed 1 per cent, so calculated, claim for allowance will not be required, provided there are no circumstances indicating that the alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

§ 182.667 *Claims.* Claim for allowance for losses of alcohol in transit to or at a tax-free permittee's premises will be made in accordance with the procedure prescribed in §§ 182.637 to 182.640, inclusive, relative to losses at bonded warehouses.* (Sec. 3113, I.R.C.)

Records and Reports of Permittee

§ 182.668 *General.* Every person holding basic permit, Form 1447, shall keep records and render reports as hereinafter provided. Entries shall be made as indicated by the headings of the various columns and lines and in accordance with the instructions on the form and as set forth in these regulations. The provisions of §§ 182.455 and 182.461, relative to the keeping and filing of reports by proprietors of industrial alcohol plants, are hereby made applicable to the keeping and filing of reports by persons holding basic permit, Form 1447.* (Sec. 3108, I.R.C.)

§ 182.669 *Report, Form 1451.* Every person holding permit to use tax-free alcohol must keep Form 1451, "Report of Tax-free Alcohol," in duplicate, covering transactions for each month. There shall be entered on the form in the appropriate spaces provided therefor, the date of shipment of alcohol from the bonded warehouse, name of the proprietor of the warehouse from which the alcohol is withdrawn, the warehouse number, state in which located, the serial numbers of the packages, and the wine gallons, proof, and proof gallons received. The total quantity received during the month and the total quantity used during the month shall be reported in the summary and there shall also be reported any shortage in packages received and any loss of alcohol after receipt. Any discrepancy between the amount of alcohol actually on hand at the end of the month and the amount which should be on hand shall be reported in the summary. The permittee will forward the original copy of the form to the district supervisor not later than the 10th day of the month succeeding that for which rendered, and will retain the duplicate copy at his premises available for inspection by Government officers.* (Sec. 3108, I.R.C.)

§ 182.670 *Signing of Form 1451*—(a) *State, Territory, etc., and the District of Columbia.* Reports on Form 1451 rendered by a State or Territory or a municipal subdivision thereof or the District of Columbia shall be signed by the person in charge of the institution or branch of the department having custody of the alcohol and under whose supervision the same was actually received and used.

(b) *Scientific university, college, laboratory, etc.* Where tax-free alcohol has been withdrawn pursuant to permit issued to a scientific university, college of learning, laboratory for scientific research exclusively, hospital, or sanatorium, or clinic operated for charity but not for profit, the Form 1451 shall be signed by the holder of the basic permit or a duly authorized agent of such holder.* (Sec. 3108, I.R.C.)

§ 182.671 *Audit of reports.* Upon receipt of Form 1451 from the permittee, the district supervisor shall have the same audited and checked against Forms 1439, covering alcohol shipped to the permittee, to determine that all alcohol withdrawn by the permittee has been duly received and accounted for.*

Change in Proprietorship, Name, etc.; Discontinuance of Use

§ 182.672 *Procedure*—(a) *Change in proprietorship, name, etc.* Where there is a change in proprietorship, or in the persons interested in the business, or in the individual, firm, or corporate name, trade name or style, or in the location of the premises, etc., procedure similar to that prescribed in §§ 182.650 to 182.652, inclusive, will be followed insofar as applicable.

(b) *Discontinuance of use.* When the use of tax-free alcohol is discontinued, the permittee shall give notice thereof in writing, in triplicate, to the district supervisor and shall surrender to the district supervisor his basic and withdrawal permits. Any tax-free alcohol remaining on hand at the time of such discontinuance may be returned to the bonded warehouse in accordance with § 182.664, or when authorized by the district supervisor, the alcohol may be disposed of to another person holding permit to use

tax-free alcohol, upon the filing of a consent of surety, Form 1533, on the bond (if any), of the purchaser extending the terms of his bond to cover the transportation to, and use by, him of the alcohol."

DENATURED ALCOHOL

§ 182.673 *Denatured alcohol defined.* Denatured alcohol is ethyl alcohol to which has been added such denaturing materials as render the alcohol unfit for use as an intoxicating beverage. Denatured alcohol is divided into two classes, namely, completely denatured alcohol and specially denatured alcohol, prepared in accordance with approved formulas prescribed in the "Appendix to Regulations 3." (Secs. 3070, 3108, I.R.C.)

§ 182.674 *Formulas prescribed.* Alcohol may be denatured in accordance with the formulas prescribed in the "Appendix to Regulations 3." The Commissioner shall prescribe the specifications for the denaturants authorized for denaturing the alcohol and may at any time revise the same if he deems it necessary. (Secs. 3070, 3102, 3170, I.R.C.)

§ 182.675 *Completely denatured alcohol.* The materials added to produce completely denatured alcohol are of such a nature that after denaturation it may be sold and used within certain limitations without permit and bond.

(a) *Addition of other substances.* Producers of completely denatured alcohol may be authorized to add a small portion of an odorant, rust inhibitor, or dye to completely denatured alcohol. Any such additions may be made only under authority of the Commissioner. Request for such authorization must be submitted to the Commissioner, in triplicate. The Commissioner will note his approval or disapproval on all copies of the request and forward two copies to the district supervisor who will return one copy to the applicant.

(b) *Addition of odorants to denaturants.* Producers of denaturants authorized for completely denatured alcohol may add odorants or perfume materials in amounts not greater than 1 part to 250 by weight to denaturants now authorized for completely denatured alcohol: *Provided*, That such addition does not decrease the denaturing value nor change the chemical or physical constants beyond the limits of the present specifications for these denaturants, except as to odor. Producers of denaturants shall inform the Commissioner of the names and properties of the odorant or perfume materials so used.

(c) *Containers of products made with completely denatured alcohol.* Containers of products manufactured with completely denatured alcohol, such as proprietary anti-freeze preparations, solvents, thinners, lacquers, etc., shall not be branded as completely denatured alcohol nor may any such products be advertised, shipped, sold or offered for sale as completely denatured alcohol.* (Secs. 3070, 3102, I.R.C.)

§ 182.676 *Specially denatured alcohol.* Specially denatured alcohol is intended for use in a greater number of specified arts and industries than completely denatured alcohol and the character of the denaturant or denaturants used is such that specially denatured alcohol may be sold, possessed and used only pursuant to basic permit and bond, except as otherwise provided in these regulations.* (Secs. 3070, 3102, I.R.C.)

§ 182.677 *Transportation*—(a) *Completely denatured alcohol.* Completely denatured alcohol shall be transported to the premises of the purchaser by the vendor denaturer or dealer; or by a railroad or steamship company, or an express company operating thereon; or by a motor carrier who holds a permit to transport tax-free or specially denatured alcohol or who has qualified with the Interstate Commerce Commission as a "self-insurer"; or by other carriers, including motor and barge lines, who are actively and regularly engaged in the legitimate business of transportation and who possess adequate facilities to insure safe delivery at destination of any completely denatured alcohol transported by them, and who are approved by the district supervisor: *Provided*, That consignees may transport completely denatured alcohol from the premises of the delivering carrier at the place of destination to their own premises.

(b) *Specially denatured alcohol.* Specially denatured alcohol must be transported to the premises of the specially denatured alcohol permittee by the vendor denaturer or dealer or by a carrier holding permit on Form 145 to transport specially denatured alcohol: *Provided*, That specially denatured alcohol permittees may transport specially denatured alcohol from the premises of the delivering carrier at the place of destination to their own premises, or, in the case of export, to the point of lading.

(c) *Method of transportation.* When completely or specially denatured alcohol is transported by the vendor or an authorized carrier, the transportation must be by such vendor or carrier personally or by some person regularly and exclusively in his employ, and the right to the possession of any vehicle used for such transportation must be vested in the vendor or carrier.

(d) *Responsibility for delivery.* The consignor will be responsible for proper delivery of completely or specially denatured alcohol to an authorized carrier, or to the premises of the consignee when delivery is made by the consignor. The consignee will likewise be responsible for the proper delivery to his premises of completely or specially denatured alcohol transported by him from the premises of the authorized carrier. Failure to make such delivery will be deemed to be grounds for citation for revocation of the basic permit, if any, of the person responsible for the proper delivery of the completely or specially denatured alcohol.

(e) *Certificate in bill of lading, waybill, etc.* When specially denatured alcohol is transported by a carrier, as authorized herein, the shipper shall include in his bill of lading, waybill, express receipt, etc., a statement to the following effect: "Before making delivery, the agent of the delivering carrier at destination must have received from the consignee a certified copy of the withdrawal permit authorizing this shipment."

(1) *Exception; written statement.* Where no bill of lading is issued, as in the case of delivery by local express company, a written statement to the above effect, signed by the shipper, shall be delivered to the carrier.* (Secs. 3070, 3114 (a), I.R.C.)

§ 182.678 *Unlawful possession.* The possession of specially denatured alcohol except by a duly authorized permittee is a violation of the law and of these regulations and any specially denatured alcohol found in the possession of any person not holding a permit under these regulations or in the possession of a carrier not authorized to transport the same will be deemed subject to tax and forfeiture.* (Secs. 3111, 3114 (a), 3116, I.R.C.)

§ 182.679 *Unlawful sale.* No person shall sell denatured alcohol, denatured rum, or any substance or preparation made with or containing denatured alcohol or denatured rum, for use, or for sale for use, for beverage purposes; nor shall he sell any of such products under circumstances from which it might reasonably appear that it is the intention of the purchaser to procure the same for sale or use for beverage purposes.* (Secs. 3070, 3109, 3111, 3116, I.R.C.)

§ 182.680 *Advertising.* It is not permissible to advertise by means of signs, posters, etc., in or about places of business that "Alcohol" is for sale without any qualifying words, such as "Denatured" or "Completely Denatured." These instructions shall apply to proprietors of garages, service stations, paint shops and hardware stores, and other wholesale and retail dealers in completely denatured alcohol generally. Inasmuch as such advertising menaces the health and lives of persons who might be misled into believing that the alcohol is pure, district supervisors shall instruct all field officers under their direction to warn proprietors of garages, paint shops, and hardware stores, and other retail dealers in denatured alcohol found guilty of such practice, to immediately discontinue the same, and that any failure to do so will render the completely denatured alcohol subject to seizure and the dealer to prosecution.* (Secs. 3070, 3109, I.R.C.)

§ 182.681 *Samples of denatured alcohol or products made therefrom may be taken by revenue officers.* Any officer or agent of the Bureau of Internal Revenue is authorized to take samples of denatured alcohol wherever found, or of products manufactured with denatured alcohol, either at the place of manufacture or on trucks or other conveyances leaving the place of manufacture, or of ingredients used in compounding such products.* (Secs. 3070, 3102, I.R.C.)

§ 182.682 *Liability for tax.* The sale, transportation, or use of specially denatured alcohol by any person other than a permittee duly authorized to sell, transport, or use specially denatured alcohol, or by any person for beverage purposes, or sale by any person under such circumstances from which it might reasonably appear that it is the intention of the purchaser to procure the same for sale or for use for beverage purposes, as the case may be, is a violation of the law and these regulations and renders the person so selling, transporting, or using the specially denatured alcohol liable for the tax thereon.* (Sec. 3111, I.R.C.)

OPERATION OF INDUSTRIAL ALCOHOL DENATURING PLANTS

§ 182.683 *General.* The provisions of §§ 182.470 to 182.477, inclusive, shall, insofar as applicable, apply to the control of the denaturing plant, assignment of storekeeper-gaugers, examination and custody of the denaturing plant, supervision of operations, locking, etc., of denaturing plants. Where the operations of a denaturing plant can be supervised by the storekeeper-gauger or storekeeper-gaugers assigned to the industrial alcohol plant or bonded warehouse situated on the same premises, a storekeeper-gauger need not be assigned exclusively to the denaturing plant, but where the operations at the denaturing plant are such as to necessitate the assignment of one or more storekeeper-gaugers thereto, such officer or officers will be so assigned by the district supervisor. Each such plant shall be used solely for the purpose hereinafter set forth, and shall be under the control of the district supervisor of the district and in the joint custody of the proprietor and the storekeeper-gauger assigned thereto. No one shall be permitted to enter the plant buildings except in the presence of such officer, and the buildings shall be kept closed and the doors securely locked except when some work incidental to the operation of the plant is being carried on. The proprietor may, in connection with the storekeeper-gauger, except as provided in section 3121 (c), I.R.C., refuse admittance to any person not an internal revenue officer. The storekeeper-gauger will see that the operations conform to the requirements of the law and these regulations, and will, in the course of his daily duties, carefully observe the character and condition of connections, pipes, tanks, or vessels used for conveying alcohol, denatured alcohol, and denaturants, to see if they are closed as required, and whether access can be gained to the alcohol, denatured alcohol, and denaturants, in his absence. The storekeeper-gauger will promptly report to the district supervisor any operations or condition of apparatus and equipment not conforming to these regulations.* (Secs. 3070, 3102, I.R.C.)

Sufficiency of Bond

§ 182.684 *Storekeeper-gauger to be informed.* Where the denaturing plant bond is in an amount less than the maximum penal sum prescribed by these regulations, and the basic permit, Form 1433, limits the quantity of alcohol, specially denatured alcohol, and recovered or restored denatured alcohol, that may be on hand, in transit, and unaccounted for at any one time at the denaturing plant, the district supervisor will inform the storekeeper-gauger in charge of such limitation, and the storekeeper-gauger will see that the quantity of alcohol, specially denatured alcohol, and recovered or restored denatured alcohol on hand at the denaturing plant does not exceed that covered by the bond and authorized by the basic permit.*

Procurement of Alcohol; Withdrawal Permits

§ 182.685 *From industrial alcohol plant or bonded warehouse on same premises.* Alcohol may be transferred from an industrial alcohol plant or bonded warehouse to the denaturing plant located on the same premises in approved containers or by pipe line, as provided in § 182.559. Withdrawal permit, Form 1463, is not required for such transfer, but where the basic permit for the denaturing plant limits the quantity of alcohol, specially denatured alcohol, and recovered or restored denatured alcohol that may be on hand, in transit, and unaccounted for at any one time, the quantity of alcohol so transferred to the denaturing plant during a calendar month shall not exceed the quantity so limited in the basic permit, Form 1433.* (Secs. 3070, 3108 (a), I.R.C.)

§ 182.686 *From other plants*—(a) *From industrial alcohol plant or bonded warehouse not on same premises.* Where it is desired to procure alcohol from an industrial alcohol plant or bonded warehouse not located on the same premises with the denaturing plant, the denaturer must procure a withdrawal permit, Form 1463, authorizing the procurement of such alcohol, in accordance with § 182.687.

(b) *From another denaturing plant.* Where it is desired to procure ethyl alcohol from another denaturing plant, as authorized by section 3108 (a), I.R.C., the alcohol will be shipped in accordance with the procedure (including that respecting withdrawal permits, containers, marks, stamps, etc.) prescribed in these regulations for the shipment of alcohol from bonded warehouses to denaturing plants.

(c) *Railroad sidings.* Where alcohol, denatured alcohol, articles, or distillates are to be received at or shipped from a denaturing plant in railroad tank cars, pursuant to the provisions of these regulations, the proprietor must provide railroad siding facilities at the denaturing plant, which must be used for the receipt or shipment of such tank cars.* (Secs. 3070, 3108 (a), 3114 (a), I.R.C.)

§ 182.687 *Application and withdrawal permit, Form 1463*—(a) *Application.* Where the proprietor of a denaturing plant desires to procure alcohol from an industrial alcohol plant or bonded warehouse not located on the same premises with the denaturing plant, he will file application on Part I of Form 1463, in duplicate, with the district supervisor for withdrawal permit to procure alcohol. The names, registry numbers and addresses of the industrial alcohol plants or warehouses from which alcohol will be procured will be stated in the application. Where the applicant's basic permit limits the quantity that may be on hand, in transit, and unaccounted for at any one time at the denaturing plant, the application should be for a fixed number of proof gallons to be withdrawn during a calendar month, which amount shall not exceed the quantity of alcohol, specially denatured alcohol, and recovered or restored denatured alcohol authorized in the applicant's basic permit, Form 1433, to be on hand, in transit, and unaccounted for at any one time.

(b) *Withdrawal permit.* If the application is approved by the district supervisor, he will issue a withdrawal permit on Part II of the Form 1463. Where the applicant's basic permit limits the quantity of alcohol, specially denatured alcohol, and recovered or restored denatured alcohol that may be on hand, in transit, and unaccounted for at any one time at the denaturing plant, the quantity authorized by the withdrawal permit to be withdrawn during any calendar month shall not exceed the quantity so limited in the basic permit. The district supervisor will forward the original copy of the withdrawal permit to the applicant and will retain the duplicate copy for his files. If the industrial alcohol plant or bonded warehouse is located in another supervisory district, a copy of the withdrawal permit and any renewals or amendments thereof, will be prepared on the prescribed form and transmitted by the district supervisor issuing the same to the district supervisor of the district from which shipments are to be made. When the proprietor of the denaturing plant desires to procure alcohol, he will forward the original of the withdrawal permit to the proprietor of the industrial alcohol plant or bonded warehouse named therein from whom he desires to procure alcohol. Upon shipment, the proprietor of the industrial alcohol plant or warehouse will enter the shipment on the permit and return it to the denaturer, unless he has been authorized by the denaturer to retain the permit for the purpose of making future shipments. No alcohol may be shipped by a consignor named in the withdrawal permit until such permit is in his possession. Except as provided in paragraph (d), further like transfers may be made under such permit during the term for which it was issued.

(c) *Carrier to be furnished copy of Form 1463.* Where the alcohol is to be delivered by a person other than the vendor, the denaturer shall procure from the district supervisor a certified copy (or copies, if delivery is to be made by more than one carrier), on the prescribed form, of the withdrawal permit, Form 1463, and shall file the same with the delivering carrier's agent at destination. Application for such certified copy or copies shall be made by the permittee to the district supervisor by letter, specifying the name of the delivering carrier. Where such delivering carrier is known at the time Form 1463 is filed, the application should accompany such form.

(d) *Expiration or termination of permit.* Upon expiration of a withdrawal permit, it shall be returned to the district supervisor for cancellation. Where the permit is in the possession of a consignor on the date of expiration, such consignor shall return it to the denaturer for surrender to the district supervisor. Should a basic permit, Form 1433, held by a person to whom withdrawal permit, Form 1463, was issued, be terminated, surrendered or revoked, the pro-

prietor of each industrial alcohol plant or bonded warehouse named as vendor in such withdrawal permit shall, upon notice from the district supervisor, make no further shipments thereunder, and if such withdrawal permit is in his possession, he shall return it to the district supervisor for cancellation.* (Sec. 3114 (a), I.R.C.)

§ 182.688 *Application for renewal of withdrawal permit, Form 1463.* Applications on Part I of Form 1463 for renewal of withdrawal permits must be submitted by the denaturer to the district supervisor not less than one month prior to the date of expiration of the permit to be renewed, in order that the renewal permit may be issued and become available for withdrawals by the 1st day of the calendar month following the date of expiration of the permit to be renewed. Application for renewal of withdrawal permits shall be executed in conformity with § 182.687 (a).* (Sec. 3114 (a), I.R.C.)

§ 182.689 *Renewal of withdrawal permit, Form 1463.* Withdrawal permits on Part II of Form 1463 shall remain in force for the calendar year or for the term of the basic permit, Form 1433. A renewal permit must be procured for each year commencing with January 1, after the expiration of the original permit. The provisions of § 182.687 (b) shall be applicable to the issuance of renewal permits.* (Sec. 3114 (a), I.R.C.)

§ 182.690 *Quantity procurable under withdrawal permits.* Where the permittee's basic permit, Form 1433, limits the quantity of alcohol, specially denatured alcohol, and recovered or restored denatured alcohol that may be on hand, in transit, and unaccounted for at any one time at the denaturing plant, he shall, in procuring alcohol, deduct the quantity of alcohol, specially denatured alcohol, and recovered or restored denatured alcohol on hand, in transit, and unaccounted for, and the quantity of specially denatured alcohol procurable during the calendar month under his withdrawal permit on Form 1464, if any, from the quantity so limited in his basic permit, Form 1433, and if the available balance is less than the quantity of alcohol procurable under his withdrawal permit on Form 1463, give his order for an amount not exceeding such available balance. For this purpose, alcohol, specially denatured alcohol, and recovered or restored denatured alcohol shall be deemed to be unaccounted for when disposed of, lost, or denatured otherwise than as provided in these regulations. Failure on the part of permittees to observe the foregoing requirements concerning withdrawals will be regarded as sufficient grounds for citation for revocation of their basic permits.* (Secs. 3070, 3102, 3108 (a), 3114 (a), I.R.C.)

§ 182.691 *Return of recovered denatured alcohol for restoration and redenaturation.* Denatured alcohol recovered for reuse by manufacturers using the same may be shipped to denaturing plants for restoration and redenaturation where the denaturing plant is equipped for restoring recovered alcohol. Such recovered alcohol will be returned to the denaturing plant pursuant to notice on Form 1484, as provided in § 182.895, and upon receipt at the denaturing plant will be entered on Form 1468–F, in accordance with the instructions on the form.* (Sec. 3073, I.R.C.)

§ 182.692 *Distillates from distilleries.* Distillates containing one-half of 1 percent or more of aldehydes or 1 percent or more of fusel oil, commonly known as "heads" and "tails," removed in the course of distillation at registered distilleries and fruit distilleries operated under Regulations 4 and 5, respectively, may be shipped to denaturing plants operated under these regulations and denatured thereat, in accordance with the requirements of these regulations.

(a) *Application, Form 1463, modified.* When the proprietor of a denaturing plant desires to procure such distillates, he shall file application with the district supervisor on Form 1463, in duplicate, properly modified, for withdrawal permit therefor. A separate application shall be filed for each lot.

(b) *Consent of surety, Form 1533.* The denaturer shall also file with the district supervisor consent of surety, Form 1533, in triplicate, extending the terms of his bond, Form 1432–A, to cover the receipt, possession, and denaturation of any such distillates transferred to his denaturing plant and the disposition of the denatured product. The consent of surety must be executed in conformity with the provisions of §§ 182.184–182.205, and may be in blanket form to cover all such transfers.

(c) *Permit, Form 1463, modified.* The district supervisor will, upon approval of the application, issue a permit on Part II of Form 1463, properly modified: *Provided*, That proper consent of surety has been filed. The liability of the distiller for the tax on such distillates removed for denaturation shall continue until the distillates have been deposited in the denaturing plant.

(d) *Use of distillates.* Such distillates may not be redistilled or used for any purpose other than denaturation. If the distillates are of improper proof for denaturation, they may be mixed with other spirits of higher proof at the denaturing plant in order to obtain the required proof for denaturation. The distillates must be received and retained at the denaturing plant; they may not be received at the industrial alcohol plant or bonded warehouse nor may they be transferred thereto from the denaturing plant.* (Secs. 2916, 3114 (a), I.R.C.)

§ 182.693 *Abandoned spirits.* Distilled spirits abandoned to the United States and purchased by the proprietor of an industrial alcohol plant pursuant to section 3074, I. R. C., may be received at the denaturing plant and denatured thereat in accordance with §§ 182.462 to 182.465, inclusive.* (Sec. 3074, I.R.C.)

Receipt of Alcohol

§ 182.694 *By pipe line.* If the denaturing plant is located on the premises of an industrial alcohol plant or bonded warehouse, alcohol may be transferred from the receiving tanks in the industrial alcohol plant or from storage tanks in the bonded warehouse to alcohol storage tanks in the denaturing plant, or to mixing tanks therein for immediate denaturation. Alcohol transferred to denaturing plants by means of pipe lines shall be carefully weighed and proofed upon receipt in the denaturing plant, unless weighed in weighing tanks in the bonded warehouse or receiving room immediately before transfer. While alcohol thus transferred must be weighed at the time of transfer in a weighing tank in the receiving room or bonded warehouse or in a weighing tank located in the denaturing plant, it is not required to be weighed at such time both in the receiving room or warehouse and the denaturing plant.

(a) *Supervision of transfers.* All transfers of alcohol from an industrial alcohol plant or bonded warehouse by pipe line will be made under the immediate supervision of the storekeeper-gauger. The storekeeper-gauger supervising the deposit of the alcohol in the storage tank or mixing tank in the denaturing plant will see that the outlet and all other openings of such tank except the inlet are closed and locked and that the valves of the pipe line are so adjusted by the proprietor as to control the flow of alcohol into the tank before the outlet of the receiving tank or storage tank from which the alcohol is to be transferred is unlocked. When the alcohol has been deposited in the tank in the denaturing plant the inlet of such tank and the outlet of the receiving tank or storage tank will be immediately closed by the proprietor and locked by the storekeeper-gauger. The storekeeper-gauger will not permit the transfer of alcohol from receiving tanks or storage tanks to the denaturing plant by pipe line unless the use of such pipe line has been approved in accordance with these regulations.* (Secs. 3070, 3108 (a), I.R.C.)

§ 182.695 *In packages from industrial alcohol plant or bonded warehouse on the same premises.* When alcohol is received in packages from the industrial alcohol plant or bonded warehouse on the same premises, the packages will be transferred to the denaturing plant under the immediate supervision of the storekeeper-gauger in charge of the industrial alcohol plant or bonded warehouse from which the alcohol is transferred and the storekeeper-gauger in charge of the denaturing plant. The proprietor will check in the receipt of the packages in the denaturing plant against Form 1440 in the presence of the storekeeper-gauger.* (Secs. 3070, 3108 (a), I.R.C.)

§ 182.696 *From industrial alcohol plant or bonded warehouse not located on the same premises.* Upon receiving Form 1440, with Form 1439, covering alcohol shipped to the denaturing plant, the storekeeper-gauger in charge of the denaturing plant will compare the two forms and deliver Form 1440 to the proprietor of the denaturing plant. When the alcohol is received at the denaturing plant the proprietor and the storekeeper-gauger will examine the shipment and where packages bear evidence of having sustained losses in transit or the railroad tank car bears evidence of having sustained a loss, the losses will be determined and a report of such losses and of the examination of the shipment will be made in conformity with the provisions of §§ 182.492 and 182.493.

(a) *Deposit in denaturing plant.* Upon completion of the examination of the containers, the proprietor will accurately determine the quantity received and will check in the receipt of the alcohol against Form 1440 in the presence of the storekeeper-gauger, and will execute the certificate of receipt on both copies of the form and note thereon and on Form 1468–A any loss or deficiency in the shipment. The proprietor will then file one copy of Form 1440 as a permanent record, as provided in § 182.788, and at the close of the day will deliver the other copy to the storekeeper-gauger for transmittal to the district supervisor of his district. On the day of receipt of the alcohol, the storekeeper-gauger shall fill in the certificate of receipt on Form 1439, noting any losses and discrepancies. Where a loss in transit is sustained, the storekeeper-gauger will report the total loss and, in the case of packages, the loss from each package. The storekeeper-gauger will forward the receipted Form 1439 to the district supervisor of the district from which the alcohol was shipped.* (Secs. 3070, 3108 (a), 3114 (a), I.R.C.)

§ 182.697 *Alcohol received in packages.* Alcohol received in packages will be placed in the alcohol storeroom of the denaturing plant, or the contents of the packages may be dumped into storage tanks if notation thereof is made on Form 1440 and Form 1468–A.*

§ 182.698 *Alcohol received in tank cars.* Alcohol received in tank cars shall be gauged in weighing tanks and transferred immediately to storage tanks, or to mixing tanks for immediate denaturation. When alcohol is received in tank cars, the seals must not be broken or any alcohol removed, except in the presence of the storekeeper-gauger assigned to the denaturing plant.*

§ 182.699 *Distillates received from distilleries.* Upon receipt of distillates at the denaturing plant, procured pursuant to § 182.692, the storekeeper-gauger will inspect the packages or railroad tank car, as the case may be, and if it appears that any distillate has been abstracted or lost in transit, he will prepare a statement, setting forth the identity of the containers, a description of the condition of each, and the apparent cause of such condition and will forward such statement to the supervisor of the district from which the shipment was made, as hereinafter provided.* (Sec. 2916, I.R.C.)

§182.700 *Regauge of distillates.* Upon completion of the storekeeper-gauger's inspection, the distillate will be gauged by the proprietor of the denaturing plant under the supervision of the storekeeper-gauger. If the gauge discloses no discrepancy between the quantity shipped and the quantity received other than that which may be ascribed to variation in gauge, the storekeeper-gauger will make a notation of receipt on the copy of Form 1520 received by him from the storekeeper-gauger at the distillery and forward the same to the supervisor of the district from which the shipment was made. If the gauge discloses a loss in transit, the proprietor will prepare a report of gauge on Form 1440, in duplicate, and give one copy to the storekeeper-gauger and retain the other at the denaturing plant. The storekeeper-gauger will securely attach the copy of Form 1440 to the copy of Form 1520 received by him from the storekeeper-gauger at the distillery and forward the same, together with his inspection statement, to the district supervisor of the district from which the shipment was made.

(a) *Losses.* No allowance can be made under section 2901 (a), I.R.C., or any other provision of law for losses of such distillates by leakage or evaporation occurring during transportation to the denaturing plant or while stored in such plant prior to denaturation. The tax will be collected on all losses, unless the same are shown to be due to destruction or accidental fire or other casualty while in transit and the tax is remitted under section 2901 (c), I.R.C. The losses of such distillates in transit to the denaturing plant and while stored thereat shall be shown as a separate entry in the same columns in which losses of alcohol are shown on Form 1468–A.* (Sec. 2916, I.R.C.)

§ 182.701 *Recovered denatured alcohol.* Recovered denatured alcohol returned to the denaturing plant for restoration and redenaturation, pursuant to the provisions of § 182.691, shall be deposited, after the same has been inspected by the storekeeper-gauger and gauged by the proprietor, in the recovered alcohol storage tanks, unless the recovered alcohol is received in drums and is to be retained therein pending restoration.*

Restoration and Redenaturation of Recovered Denatured Alcohol

§ 182.702 *Restoration of denatured alcohol.* Recovered denatured alcohol may be restored in a denaturing plant, provided the distilling apparatus and equipment conforms to the requirements of § 182.97. The process must be carried on through continuous closed pipes from the time the vapors first rise in the still to the restored alcohol receiving tank.

(a) *Supervision required.* The restoration of recovered denatured alcohol must be conducted under the supervision of the storekeeper-gauger.* (Sec. 3073, I.R.C.)

§ 182.703 *Gauge of alcohol to be restored.* The proprietor shall weigh or measure the recovered alcohol to be restored prior to deposit in the still and the restored alcohol must be deposited in locked receiving tanks and all alcohol recovered will be gauged in the restored alcohol receiving tank upon its removal to mixing tanks for redenaturation. Appropriate entries will be made on Form 1468–F as hereinafter provided.* (Sec. 3073, I.R.C.)

§ 182.704 *Redenaturation of restored alcohol.* If the restored alcohol contains denaturants after restoration and does not require the full amount of denaturants for redenaturation, a notation to that effect should be made on Form 1468 and Form 1468–F. Such restored alcohol must be denatured in the immediate presence of the storekeeper-gauger in accordance with the provisions of these regulations relating to the denaturation of ethyl alcohol.* (Sec. 3073, I.R.C.)

Denaturing Materials

§ 182.705 *Receipt.* Authorized denaturants may be brought on the premises in any desired quantity if ample storage facilities have been provided. All denaturants, except such as are permitted to remain in original packages, must be deposited in the appropriate storage tank or other approved receptacle and thoroughly mixed. Denaturants received on the premises shall not be mixed or mingled with approved denaturants of the same kind until they have been approved by the authorized chemist.

(a) *Storage in original packages.* Denaturants, when received in small quantities for use in a formula prepared only occasionally, may be stored in the original package in the denaturing material storeroom.* (Sec. 3070, 3102, I.R.C.)

§ 182.706 *Sample for chemist.* The storekeeper-gauger shall take a 1-pint sample of each lot of each denaturant received at the denaturing plant, and forward or deliver the sample to the authorized chemist. Where a lot of any denaturant is received in a tank car or in packages and is placed in two or more storage tanks, or is received in a number of packages and retained therein pending analysis and approval of the denaturant, the storekeeper-gauger will take a proportionate sample from each tank or package, as the case may be, and thoroughly mingle the samples together. From this mixture the officer will take a 1-pint sample and forward or deliver it to the authorized chemist. The storekeeper-gauger shall then lock the tanks with a Government lock or securely close and seal the packages and none of the contents of the tanks or packages may be used until the sample has been officially tested and approved and a report of such test is received by the storekeeper-gauger in charge of the denaturing plant. All samples submitted for analysis must be placed in heavy glass bottles or other suitable containers, to be provided by the denaturer, and must be securely closed and sealed with a wax seal furnished for this purpose or a paper seal signed by the storekeeper-gauger taking the sample.

(a) *Labels on samples.* Each sample shall have a label, Form 1469, "Label for Denaturing Material," affixed thereto showing the name of the denaturer, plant number, serial number of the tank or the number and kind of the package from which the sample was taken, the kind and quantity of the denaturant represented by the sample, the date taken, and the name of the officer taking the sample.* (Secs. 3070, 3102, I.R.C.)

§ 182.707 *Denaturants not required to be tested.* Where a chemically or commercially pure salt or solid or a U. S. P. or N. F. essential oil, or an essential oil

approved by the Commissioner is used as a denaturing material, the same need not be submitted for test except when the Commissioner shall so direct, provided the material is delivered to the storekeeper-gauger in the original sealed package of a reputable manufacturer of chemicals, bearing label descriptive of its contents placed thereon by the manufacturer.* (Secs. 3070, 3102, I.R.C.)

§ 182.708 *Certificates of origin for approved wood alcohol.* Every shipment of approved wood alcohol consigned to a denaturing plant must be accompanied by a sworn statement in duplicate from the manufacturer thereof, giving the name and address of the refinery in the United States where produced, the amount of denaturant shipped, and certifying that it is a partially purified distillate from crude wood alcohol obtained only by the destructive distillation of wood.

(a) *Disposition.* These certificates should be sent to the storekeeper-gauger in charge at the denaturing plant which is receiving the approved wood alcohol. One copy of the certificate of origin should be held by the storekeeper-gauger in charge and filed for future reference. The other copy should accompany the sample taken from the shipment that is sent to the authorized chemist for examination and approval. The authorized chemist, upon completing his examination, shall make his report as required by the regulations and forward the certificate of origin to the supervisor of the district in which the denaturing plant is located, where it should be filed for future reference. The authorized chemist must note on the forms used for making the chemical reports of approved wood alcohol that the certificate of origin has been furnished with the sample examined.

(b) *Certified copies.* Where producers of wood alcohol sell the approved grade to dealers, duplicate certificates of origin should be furnished and dealers in turn should furnish certified copies in duplicate to each denaturing plant purchasing approved wood alcohol from them. These certified copies of the original certificate of origin then will be disposed of in the manner described in paragraph (a). Approved wood alcohol which has been examined and approved when transferred from one denaturing plant to another denaturing plant should be accompanied by a certified copy of the certificate of origin of the lot transferred.* (Secs. 3070, 3102, I.R.C.)

§ 182.709 *Authorized chemist.* District supervisors shall furnish denaturers, as well as storekeeper-gaugers, the names and addresses of authorized chemists. The authorized chemist will not examine any sample of denaturants furnished to him unless sealed in the manner indicated.* (Secs. 3070, 3102, I.R.C.)

§ 182.710 *Form 1470.* A list of all samples submitted by the storekeeper-gauger for analysis shall be prepared by him on Form 1470, "List of Samples of Denaturants," in duplicate, and forwarded to the chemist.* (Secs. 3070, 3102, I.R.C.)

§ 182.711 *Forwarding samples to chemist.* The sample, after being securely packed and sealed, shall be sent to the most convenient authorized chemist for examination and report. All expenses in connection with forwarding and testing of samples must be borne by the denaturer.* (Secs. 3070, 3102, I.R.C.)

§ 182.712 *Report of analysis by the chemist.* Upon completion of the analysis of the denaturants, the chemist shall note his approval or disapproval of the samples on Form 1470, in duplicate, and sign the same. One copy thereof shall be returned to the storekeeper-gauger in charge of the denaturing plant and one copy forwarded to the district supervisor.

(a) *Report, Form 1472.* The chemist shall make a report of his analysis on Form 1472, "Chemist's Report of Denaturants," in duplicate, one copy of which shall be sent to the district supervisor of the district in which the denaturer is located, and the other to the Commissioner.

(b) *Retention of samples.* The authorized chemist must hold all samples of denaturing grade wood alcohol, methyl alcohol, and denaturants used for completely denatured alcohol, for six months and other samples of denaturants for thirty days so that they will be available for future reference, if necessary.* (Secs. 3070, 3102, I.R.C.)

§ 182.713 *Denaturant approved.* If the sample is approved, the contents of the tank or package containing the denaturant shall, upon receipt of the report of the chemist by the storekeeper-gauger, become an approved denaturant and the storekeeper-gauger will then remove the seals from the tank or package, and permit the denaturant to be used.* (Secs. 3070, 3102, I.R.C.)

§ 182.714 *Denaturant not approved.* If the sample does not conform to the prescribed specifications, the storekeeper-gauger will, upon receipt of the report of nonapproval by the chemist, require the denaturer to immediately remove the contents of the tank or package from the premises: *Provided*, That the storekeeper-gauger may permit the denaturer, if he so desires, to treat or manipulate the denaturant so as to render it suitable for use. In such case another sample must be submitted for approval.* (Secs. 3070, 3102, I.R.C.)

§ 182.715 *Furnishing approved denaturants.* Denaturers will be permitted to supply approved denaturants to proprietors of other denaturing plants or to manufacturers recovering denatured alcohol, or articles, and redenaturing the alcohol for reuse, provided such denaturants are furnished in containers properly marked and sealed, with certificate attached of the storekeeper-gauger in charge at the denaturing plant making shipment or delivery of the denaturants, and proper entries are made of such disposals on Forms 129 and 1468–C. The container must be properly sealed with an identifying seal of the denaturer. Such denaturants need not be further analyzed at the receiving denaturing plant or user's premises.* (Secs. 3070, 3102, I.R.C.)

Denaturing of Alcohol

§ 182.716 *General.* Alcohol shall be denatured in accordance with the formulas prescribed in the Appendix to Regulations 3. In the case of formulas with substitute denaturants, Form 1485 authorizing the use thereof must be presented to the storekeeper-gauger prior to denaturation. Denaturants used in denaturing alcohol must conform to the specifications prescribed therefor and, except as provided in § 182.707, must be approved by the authorized chemist.

(a) *Notice to storekeeper-gauger.* Notice of intention to denature alcohol shall be given the storekeeper-gauger in charge of the denaturing plant, in writing. The notice must specify the quantity of alcohol and the serial number of the tank or package containing the same; also the formula, kind, and quantity of denaturants to be used. Upon receipt of such notice the officer shall see that the exact quantity of alcohol and the proper quantity of the specified denaturants are conveyed to the mixing tank and that the same are thoroughly plunged or mixed before being drawn off.

(b) *Officer's presence required.* No alcohol may be denatured except in the immediate personal presence of the storekeeper-gauger. Failure to observe this requirement will be deemed ground for issuance of citation for revocation of the basic permit of the denaturer.* (Secs. 3070, 3102, I.R.C.)

§ 182.717 *Test of measuring devices.* The storekeeper-gauger must from time to time apply such test to measures or measuring devices, as the case may be, for measuring denaturants as will satisfy him that they are correct. If he finds the measures or measuring devices to be incorrect, he shall refuse to permit the proprietor to transfer any denaturant to the measuring tank until appliances have been provided whereby the exact quantity of denaturants used may be ascertained.*

§ 182.718 *Determining wine and proof gallons.* The following convenient rule is given for determining the wine and proof gallons contained in any weighing tank if the weight and proof of the alcohol or distillates have been determined:

To determine the wine gallons and proof gallons, multiply the weight of the alcohol in pounds by the fractional part of a wine gallon and proof gallon, respectively, per pound of the same proof as shown in the Gauging Manual. For example, it is desired to ascertain the wine gallons and proof gallons of 1,000 pounds of 190 degree proof alcohol—

1,000 × 0.14718 = 147.182 wine gallons.
1,000 × 0.27964 = 279.64 proof gallons.

§ 182.719 *Denaturation*—(a) *In tanks.* Except as provided in paragraphs (b) and (c), all alcohol shall be denatured in approved mixing tanks.

(b) *In tank cars.* Denaturing may not be done in tank cars, except in cases of emergency, and then only after permission has been obtained from the district supervisor.

(c) *In packages*—(1) *Specially denatured alcohol.* Except by special permission of the district supervisor, denaturing in packages will be permitted only to the extent of preparing special formulas that are occasionally produced at the plant and in no case exceeding 10 packages (not exceeding 600 gallons in the aggregate) of any one formula on the same day: *Provided*, That specially denatured alcohol formulas 18, 24, 25, and 25 alternative, may, upon notice to the district supervisor, be mixed in packages in any quantity.

(2) *Completely denatured alcohol.* Completely denatured alcohol must be mixed in tanks only, unless special permission of the district supervisor has first been obtained to prepare a limited quantity in packages.* (Secs. 3070, 2102, I.R.C.)

§ 182.720 *Gauging of alcohol.* All alcohol to be used for denaturation must be carefully weighed by the proprietor in accordance with §§ 182.694 to 182.698, inclusive: *Provided*, That alcohol dumped from previously gauged packages, showing no evidence of loss, and alcohol transferred direct to the mixing tank after gauging in a weighing tank in the industrial alcohol plant or bonded warehouse need not be again weighed before being used for denaturation.*

§ 182.721 *Denaturants to be measured or weighed.* All denaturants before being used must be carefully measured or weighed in previously tested or marked tanks or other receptacles to be provided by the denaturer.

(a) *Denaturer to furnish measuring devices.* The proprietor of the denaturing plant will be held strictly accountable for any errors in the quantities of denaturants added to the alcohol. It is important that his measurements shall be absolutely correct. He must know that the measures and the gauging receptacles provided by him and the measuring devices affixed to tanks are correct.* (Secs. 3070, 3102, I.R.C.)

§ 182.722 *Denaturants not readily soluble.* Denaturants which are not readily soluble in alcohol at ordinary temperatures must be dissolved before being used.* (Secs. 3070, 3102, I.R.C.)

§ 182.723 *Distillates.* Distillates received from distilleries in accordance with § 182.692 shall be denatured under the same procedure as that prescribed herein for the denaturation of alcohol. Such distillates should be denatured by only those formulas for which they are suitable.* (Secs. 3070, 3102, I.R.C.)

Formulas

§ 182.724 *Denatured alcohol formulas*—(a) *Completely denatured alcohol formulas.* Alcohol of not less than 160 degrees proof may be denatured in accordance with completely denatured alcohol formulas.

(b) *Specially denatured alcohol formulas.* Alcohol of 190, 192 or 200 degrees of proof shall be used in the manufacture of all formulas of specially denatured alcohol, unless otherwise authorized by the Commissioner. The Commissioner from time to time will specify the number of pounds which shall represent 1 wine gallon of each authorized formula.* (Secs. 3070, 3102, I.R.C.)

Approved Containers

§ 182.725 *Approved containers.* Upon completion of denaturation, the denatured alcohol, unless transferred by pipe line in accordance with § 182.730, shall be transferred to storage tanks or drawn into approved containers: *Provided*, That where the mixing tank has been designated as a "Mixing and Storage Tank," the denatured alcohol may be retained therein. When transferred to storage tanks or retained in mixing tanks, the formula of the denatured alcohol shall be plainly marked on the tank. Denaturers may fill packages in as small sizes as may be necessary for the proper conduct of their business. Denatured alcohol shall be withdrawn for shipment in approved containers as hereinafter provided.*

§ 182.726 *Packages of specially denatured alcohol.* Specially denatured alcohol may be withdrawn in substantially constructed containers, conforming to the requirements of §§ 182.506 to 182.510, inclusive.*

§ 182.727 *Packages of completely denatured alcohol.* Packages containing more than 5 wine gallons of completely denatured alcohol shall be of metal only. The openings in all such packages must be sealed with an appropriate device.

(a) *Embossed symbol and number.* Each package of completely denatured alcohol having a capacity of more than 5 wine gallons must have embossed on the head or side thereof on which the marks and brands are placed a symbol which will clearly indicate the denaturer, by or for whom the packages are filled, together with a number which shall be treated as a serial number of the packages when filled. Such numbers shall begin with No. 1 and continue in regular sequence. The provisions of § 182.734(a) relative to continuing the current series and commencement of new series shall apply to embossed packages of completely denatured alcohol. Before embossing new symbols and numbers on new packages of completely denatured alcohol the denaturer shall inform the Commissioner of the symbol and the Commissioner will advise him and the district supervisor whether the symbol is objectionable because of duplication or for any other reason.

(b) *Two or more plants or products.* Where the proprietor operates more than one establishment (denaturing plant, filling agency, specially or completely denatured alcohol user's premises) at which embossed packages are filled, and/or fills embossed packages of more than one product (completely denatured alcohol, proprietary anti-freeze solutions made with completely denatured alcohol, proprietary solvents, lacquer thinners), he may use one series of numbers for all such establishments or products, or both, provided he sets aside an appropriate block of numbers for each plant or product, or both, and keeps an accurate record thereof available for reference by Government officers; or the proprietor may in such cases use a separate series of numbers for each plant or each product, or both, provided there is embossed on each package an identifying number to indicate the plant at which the package is filled or letters to denote the contents, or both, as the case may be. Where the proprietor uses a separate series for each establishment, the identifying plant number shall be placed immediately following or below the serial number. Where a separate series is used for each product, the letters "CD" shall be used for completely denatured alcohol, "AF" for proprietary anti-freeze solutions made with completely denatured alcohol, "PS" for proprietary solvents, and "LT" for lacquer thinners.

(c) *Records of embossed symbols and serial numbers.* Denaturers shall maintain at their plants records showing the embossed symbols and serial numbers of all packages furnished their agents to be filled by the latter with completely denatured alcohol as herein provided, and shall also keep at their place such records of packages filled and disposed of by them or for their account at places other than the denaturing plant or filling agency, including the embossed symbols and serial numbers of the packages, as will enable Government officers to trace receipts and disposals. Denaturers' agents must also keep such records of the receipt and disposition of the completely denatured alcohol, including the embossed symbol and serial numbers of packages, as will permit the tracing of the receipt and disposal by the district supervisor. Such records must at all times during regular business hours be open to inspection by Government officers and must be kept complete and up-to-date for a period of three years. No special form or record is prescribed but the records used must clearly show all of the information required.

(d) *Filling packages.* In filling packages of completely denatured alcohol the packages must be so used that as far as possible the embossed numbers will run in consecutive order beginning with the lowest number.

(e) *Reuse of containers prohibited.* Packages into which completely denatured alcohol has once been placed by a denaturer or other authorized person may not after such completely denatured alcohol has been removed therefrom be again used as containers for completely denatured alcohol, proprietary solvents, lacquer thinners, or anti-freeze preparations made with completely or specially denatured alcohol.* (Secs. 2808, 3070, I.R.C.)

§ 182.728 *Railroad tank cars.* Denatured alcohol may be shipped in railroad tank cars only where the premises of both the denaturer and the consignee are equipped with suitable railroad siding facilities. The manhole covers and outlet valves on all railroad tank cars used for shipping denatured alcohol shall be equipped with facilities for sealing so that the contents cannot be removed without showing evidence of tampering. Railroad or other appropriate seals for secur-

ing manhole covers and outlet valves in tank cars containing denatured alcohol shall be furnished by the carrier or the proprietor.

(a) *Shipments of completely denatured alcohol*—(1) *To denaturers and their agents.* Completely denatured alcohol may be shipped in tank cars to other denaturing plants, as authorized in § 182.743. Completely denatured alcohol may also be shipped in tank cars by the denaturer to a person or concern acting as his agent, where the title does no pass from the denaturer, for transfer to packages for sale to others, and such packages shall be furnished by the denaturer. When completely denatured alcohol is thus shipped, the packages filled by the agent must be marked the same as if filled in the denaturing plant of the denaturer (except that the registry number of such plant will be omitted), and must also bear the embossed symbol and serial number, as required in § 182.727. Completely denatured alcohol may also be shipped in tank cars by the denaturer to himself at other premises for disposition in the same manner as in the case of completely denatured alcohol disposed of directly from the denaturing plant of the producer, or it may be so shipped by the denaturer to other producers of completely denatured alcohol at points not on the denaturing plant premises of such other producers, where the product will be filled into properly marked and embossed packages of the person to whom the shipment is made.

(2) *To users.* Upon arrival of the district supervisor, completely denatured alcohol may be shipped in tank cars to manufacturers for their own exclusive use and not for resale: *Provided*, That the completely denatured alcohol is run directly from the tank car into suitable tanks on the manufacturer's premises. Manufacturers desiring to procure completely denatured alcohol in tank cars shall file application therefor with the district supervisor of their district. If the completely denatured alcohol is to be procured from a denaturer located in the same district, the application shall be filed in triplicate, and if the completely denatured alcohol is to be procured from another district, the application shall be filed in quadruplicate. The application shall give the name and address of the denaturer from whom it is desired to procure the completely denatured alcohol, and shall specify the quantity to be received, the reasons for desiring to receive the completely denatured alcohol in tank cars, and whether the applicant's premises are equipped with railroad siding facilities. Where it is desired to receive completely denatured alcohol in tank cars regularly, the application may be made for that purpose. If the district supervisor approves the application he will note his approval on all copies thereof, retain one copy, return one copy to the applicant, and forward one copy to the denaturer, and, where shipment is to be made from another district, one copy to the district supervisor of such district.* (Secs. 2808, 3070, 3108 (a), 3109, I.R.C.)

§ 182.729 *Tank ships and barges.* Shipments of denatured alcohol in bulk by means of tank ships or barges to consignees authorized to receive such shipments in tank cars may be made only pursuant to special authorization granted by the Commissioner and then subject to such limitations and conditions as may be imposed by him. Such shipments may be made only where the premises of both consignor and consignee are equipped with suitable dock facilities and where the denatured alcohol is run directly from the tank ship or barge into suitable storage tanks on the consignee's premises.* (Secs. 3070, 3108 (a), 3109, I.R.C.)

§ 182.730 *Pipe lines*—(a) *Specially denatured alcohol.* Pipe lines constructed in conformity with the provisions of § 182.98 will be considered as approved containers only for the purpose of transferring specially denatured alcohol from the denaturing plant to contiguous manufacturing premises operated by the proprietor of the denaturing plant and covered by basic permit, Form 1481, authorizing the procurement and use of specially denatured alcohol. Specially denatured alcohol may not be thus transferred until receipt of appropriate withdrawal permit, Form 1485. Specially denatured alcohol thus transferred shall be weighed or measured by volume in a tank equipped with suitable scales or a measuring device on the denaturing plant premises. The specially denatured alcohol will be weighed or measured and removed from the denaturing plant premises under the immediate supervision of the storekeeper-gauger. The valve in the pipe line shall be closed and locked with a Government lock at all times when it is not in use.

(b) *Completely denatured alcohol.* Completely denatured alcohol may be similarly transferred by pipe line, constructed in conformity with § 182.98, to contiguous premises operated by the proprietor of the denaturing plant for the use in manufacturing in the same manner as specially denatured alcohol, in accordance with the provisions of paragraph (a) of this section, with the exception that withdrawal permit, Form 1485, is not required. Completely denatured alcohol may also be removed by pipe line for storage in tanks or other approved containers marked "Completely denatured alcohol—Storage" on adjacent premises owned or controlled by the proprietor of the denaturing plant, but when packaged it will be subject to the provisions of these regulations, the same as when packaged on denaturing plant premises, except that the registry number of the denaturing plant will not be marked on the packages.* (Secs. 2808, 3070, 3108(a), 3109, 3114(a), I.R.C.)

§ 182.731 *Tank wagons and tank trucks prohibited.* Tank wagons and tank trucks are not approved containers and may not be used for transporting completely denatured alcohol or specially denatured alcohol.* (Secs. 3070, 3108(a), 3109, I.R.C.)

Marks and Brands

§ 182.732 *Proprietor to mark and brand packages.* The proprietor shall have the prescribed marks and brands placed upon the package by stenciling, printing, cutting, burning, or embossing. All mechanical labor pertaining to the filling of packages of denatured alcohol shall be performed by the proprietor.* (Sec. 2808, I.R.C.)

§ 182.733 *Marking of packages*—(a) *Specially denatured alcohol.* All packages of specially denatured alcohol filled at a denaturing plant must have marked upon the head of the package (or side of the can or casing) the serial number of the package, the name of the denaturer, the registry number and location (city or town and State) of the denaturing plant, the contents in wine gallons, the words "Specially Denatured Alcohol," and the formular number, as for example, "Formula No. 1." Where the alcohol was denatured at other than 190 proof, the proof at which denatured shall also be marked on the package.

(1) *Alternative denaturants.* Where alcohol is denatured by a formula authorizing the use of alternative denaturants, the packages into which the specially denatured alcohol is placed shall be marked or labeled to show the alternative denaturants used in compounding the formula. Where the formula authorizes the use of alternative quantities of denaturants, the quantities used shall likewise be shown on the packages. Required denaturants and quantities need not be shown on the package.

(2) *Export marks.* When packages of specially denatured alcohol are withdrawn for exportation, the words "For Export" and the names of the ports from and to which the specially denatured alcohol is to be exported, and the number of the permit under which the specially denatured alcohol is exported, will be marked on the head of each package, as for example, "For Export from New York to Lisbon, Permit SDX–NY–15."

(b) *Completely denatured alcohol.* All packages of completely denatured alcohol filled at a denaturing plant must have marked upon the head of the package (or side of the can or casing) the name of the denaturer by or for whom the packages are filled, the registry number and location (city or town and State) of the plant of such denaturer, the contents in wine gallons, the apparent proof, the words "Completely Denatured Alcohol," and the formula number, as for example, "Formula No. 12." All such packages of more than 5 wine gallons capacity shall bear an embossed symbol and serial number, as required by § 182.727.

(c) *Color and size of marks.* Marks printed or stenciled on packages of specially denatured alcohol and completely denatured alcohol shall be printed or stenciled in a plain and durable manner and in a color properly contrasting with the background of the surface on which they are placed. The words "Specially Denatured Alcohol" or "Completely Denatured Alcohol," as the case may be, shall be in letters of the same color and size, and of not less than 1 inch in height on packages containing more than 5 wine gallons, and in letters as prominent as consistent with the size of the package on packages of less capacity.

(d) *Brand names.* There may be shown on the heads of packages of specially or completely denatured alcohol, the brand name and a statement indicating the character of the merchandise: *Provided*, That such is so placed as not to obscure or overshadow the prescribed data.* (Secs. 2808, 3070, 3108 (a), 3109, I.R.C.)

§ 182.734 *Serial numbers*—(a) *Specially denatured alcohol.* All packages containing specially denatured alcohol filled at a denaturing plant will be serially numbered, beginning with number 1 and continuing in regular sequence: *Provided*, That the series in current use at existing denaturing plants will be continued. Where there is a change in the trade name or style, or in the proprietorship of the business, the series in use at the time of such change will be continued. When the serial numbers of packages filled have reached the number of 1,000,000, the proprietor may, if he so desires, begin a new series, commencing with number 1, preceded or followed by a letter to distinguish it from the prior series, as 1A, 2A, etc., and when the number 1,000,000 so distinguished is again reached, the proprietor may begin another series, distinguished by the second letter of the alphabet, as 1B, 2B, etc., and subsequent series distinguished by other letters of the alphabet in order may likewise be commenced.

(b) *Completely denatured alcohol.* The embossed number on packages of completely denatured alcohol having a capacity of more than 5 wine gallons shall be treated as the serial number of the package when filled, as provided in § 182.727.* (Secs. 2808, 3070, 3108 (a), 3109, I.R.C.)

§ 182.735 *Illustrations of marks.* The following cuts illustrate the prescribed marks and the suggested order and manner in which they should be placed on packages.

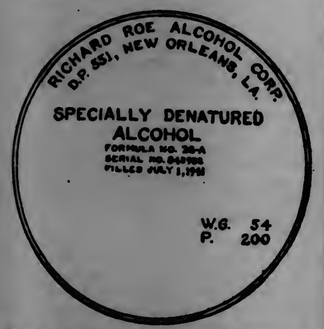

FIG. 8.—Marks on filling specially denatured alcohol.

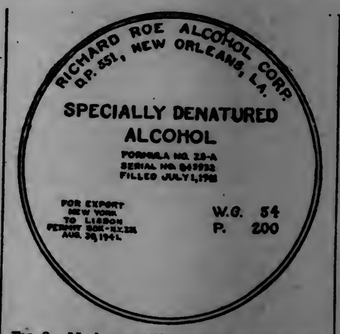

FIG. 9.—Marks on withdrawal of specially denatured alcohol for export.

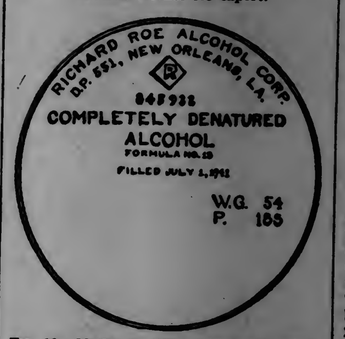

FIG. 10.—Marks on filling completely denatured alcohol.

§ 182.736 *Caution label.* Every package of completely denatured alcohol containing 5 wine gallons or less, sold or offered for sale by denaturers or dealers, must have affixed thereto a label, on which must be printed, in plain, legible letters (red on white), the words "Completely denatured alcohol," and in addition on the same label there shall be printed in large letters, in red ink, the following statement:

Completely denatured alcohol; contains ingredients which render the product wholly unfit for beverage purposes; if taken internally will cause serious consequences to health.

The word "pure," qualifying denatured alcohol, will not be permitted to appear on any label. The name and address of the denaturer must be printed on such label, but no other extraneous matter will be permitted thereon without the express authority of the Commissioner. These requirements concerning labels shall apply also to proprietors of garages, paint shops, hardware stores, gasoline filling stations, and other retail and wholesale dealers in completely denatured alcohol generally.* (Secs. 2808, 3070, 3108 (a), 3109, I.R.C.)

§ 182.737 *Transfer marks.* When denatured alcohol is transferred from one denaturing plant to another, there shall be plainly and durably marked upon the Government head or side of each container the word "Transfer," followed by the date of transfer, the word "to," and the number of the receiving denaturing plant in letters and figures not less than three-eighths inch in height. These marks may be abbreviated as follows:

Trans. 7–15–1941
To DP–250

* (Sec. 2808, I.R.C.)

§ 182.738 *Tank cars.* Each railroad tank car used to transport denatured alcohol must have permanently and legibly marked or painted thereon its number, capacity in wine gallons, and the name or symbols of the owner. If the tank car consists of two or more compartments, each compartment must be identified by a letter of the alphabet, such as "A," "B," etc., and the capacity in wine gallons of the compartment must be marked thereon. The denaturer shall attach to the route board of each such tank car a label showing the name, registry number, and location (city or town and State) of the denaturing plant, and the name, address, and permit number (if any) of the person to whom the denatured alcohol is shipped, followed by the date of shipment.* (Sec. 2808, I.R.C.)

§ 182.739 *Samples.* All samples of specially denatured alcohol shall be appropriately labeled. The labels must show the name, registry number, city or town and State in which the denaturing plant is located, and the words "Specially denatured alcohol," followed by the number of the formula.* (Sec. 2808, I.R.C.)

§ 182.740 *Previously marked packages.* Empty packages marked in accordance with regulations heretofore in effect may continue to be used until the existing supply is exhausted, and, where necessary, the district supervisor may permit an additional number of packages marked in accordance with such regulations to be used pending the securing of new stencils or other marking devices.* (Sec. 2808, I.R.C.)

§ 182.741 *Verification of marks.* The storekeeper-gauger shall verify the marks placed on packages and shall satisfy himself of their accuracy and correctness.*

§ 182.742 *Destruction of marks and brands.* The marks and brands required to be placed on packages containing denatured alcohol or articles must not be destroyed or in anywise altered or disturbed until such denatured alcohol or articles have been entirely removed from the package. When packages of denatured alcohol have been emptied of their contents, the marks and brands must be at once completely obliterated by painting, scraping, or otherwise; except the symbol and the serial number required to be embossed on packages of completely denatured alcohol. The provisions of §§ 182.533 to 182.536, inclusive, insofar as applicable, shall apply to empty denatured alcohol packages. The marks on metal drums, bearing embossed symbols and serial numbers and containing pro-

prietary anti-freeze solutions, proprietary solvents, and lacquer thinners, must be similarly obliterated when the packages are emptied.*

Transfer of Denatured Alcohol Between Denaturing Plants

§ 182.743 *General.* Denatured alcohol may be transferred from any denaturing plant in approved containers to another denaturing plant, as hereinafter provided. Specially denatured alcohol may be so transferred only pursuant to a withdrawal permit, Form 1464, which must be presented to the storekeeper-gauger prior to shipment. Completely denatured alcohol may be so transferred without the necessity of procuring a withdrawal permit.* (Sec. 3114 (a), 3114(a), I.R.C.)

§ 182.744 *Application and withdrawal permit for specially denatured alcohol, Form 1464*—(a) *Application.* Where the proprietor of a denaturing plant desires to procure specially denatured alcohol from another denaturing plant, he will file application on Part I of Form 1464, in duplicate, with the district supervisor, for withdrawal permit to procure specially denatured alcohol. The names, registry numbers, and addresses of the denaturing plants from which specially denatured alcohol will be procured, will be stated in the application. Where the applicant's basic permit, Form 1433, limits the quantity that may be on hand, in transit, and unaccounted for at any one time at his denaturing plant, the application should be for a fixed number of wine gallons to be withdrawn during a calendar month, which amount shall not exceed the quantity of alcohol, specially denatured alcohol, and recovered or restored denatured alcohol authorized in the applicant's basic permit, Form 1433, to be on hand, in transit, and unaccounted for at any one time at the denaturing plant, less the quantity of ethyl alcohol authorized to be withdrawn pursuant to withdrawal permit, Form 1463, issued in accordance with § 182.686.

(b) *Withdrawal permit.* If the application is approved by the district supervisor, he will issue a withdrawal permit on Part II of Form 1464. Where the applicant's basic permit, Form 1433, limits the quantity that may be on hand, in transit, and unaccounted for at any one time at his denaturing plant, the quantity of specially denatured alcohol authorized by the permit to be withdrawn during a calendar month shall not exceed the quantity of alcohol, specially denatured alcohol, and recovered or restored denatured alcohol authorized by the applicant's basic permit to be on hand, in transit, and unaccounted for at any one time at the denaturing plant, less the quantity of ethyl alcohol authorized to be withdrawn pursuant to withdrawal permit, Form 1463. The district supervisor will forward the original copy of the withdrawal permit to the applicant and will retain the duplicate copy for his files. If the shipping denaturing plant is located in another supervisory district, a copy of the withdrawal permit and any renewals or amendments thereof will be prepared on the prescribed form and be transmitted by the district supervisor issuing the same to the district supervisor of the district from which shipments are to be made. When the proprietor of the receiving denaturing plant desires to procure specially denatured alcohol, he will forward the original of the withdrawal permit to the proprietor of the denaturing plant named therein from whom he desires to procure specially denatured alcohol. Upon shipment, the proprietor of the shipping denaturing plant will enter the shipment on the permit and return it to the receiving denaturer, unless he has been authorized by the receiving denaturer to retain the permit for the purpose of making future shipments. No specially denatured alcohol may be shipped by a consignor named in the withdrawal permit until such permit is in his possession. Except as provided in paragraph (d), further like transfers may be made under such permit during the term for which it was issued.

(c) *Carrier to be furnished copy of Form 1464.* Where the specially denatured alcohol is to be delivered by a person other than the vendor, the vendee shall procure from the district supervisor a certified copy (or copies, if delivery is to be made by more than one carrier) on the prescribed form of the withdrawal permit, Form 1464, and shall file the same with the delivering carrier's agent at destination. Application for such certified copy or copies shall be made by the permittee to the district supervisor by letter specifying the name of the delivering carrier. Where such delivering carrier is known at the time Form 1464 is filed, the application should accompany such form.

(d) *Expiration or termination of permit.* Upon expiration of a withdrawal permit, it shall be returned to the district supervisor for cancellation. Where the permit is in the possession of a consignor on the date of expiration, such consignor shall return it to the consignee for surrender to the district supervisor. Should a basic permit, Form 1433, held by a person to whom withdrawal permit, Form 1464, was issued, be terminated, surrendered, or revoked, the proprietor of each denaturing plant named as vendor in such withdrawal permit, shall, upon notice from the district supervisor, make no further shipments thereunder and if such withdrawal permit is in his possession, he shall return it to the district supervisor for cancellation.* (Sec. 3114 (a), I.R.C.)

§ 182.745 *Application for renewal of withdrawal permit, Form 1464.* Applications on Part I of Form 1464 for renewal of withdrawal permits must be submitted by the denaturer to the district supervisor not less than one month prior to the date of expiration of the permit to be renewed in order that the renewal permit may be issued and become available for withdrawals by the 1st day of the calendar month following the date of expiration of the permit to be renewed. Application for renewal of withdrawal permits shall be executed in conformity with § 182.744 (a)* (Sec. 3114 (a), I.R.C.)

§ 182.746 *Renewal of withdrawal permit, Form 1464.* Withdrawal permits on Part II of Form 1464 shall remain in force for the calendar year or for the term of the basic permit, Form 1433. A renewal permit must be procured for each year, commencing with January 1, after the expiration of the original permit. The provisions of § 182.744 (b) shall be applicable to the issuance of renewal permits.* (Sec. 3114 (a), I.R.C.)

§ 182.747 *Quantity procurable under withdrawal permits.* Where the permittee's basic permit, Form 1433, limits the quantity of alcohol, specially denatured alcohol, and recovered or restored denatured alcohol that may be on hand, in transit, and unaccounted for at any one time at the denaturing plant, he shall, in procuring specially denatured alcohol, deduct the quantity of alcohol, specially denatured alcohol, and recovered or restored denatured alcohol on hand, in transit, and unaccounted for, and the quantity of ethyl alcohol procurable during the calendar month under his withdrawal permit on Form 1463, from the quantity so limited in his basic permit, Form 1433, and if the available balance is less than the quantity of specially denatured alcohol procurable under his withdrawal permit on Form 1464, give his order for an amount not exceeding such available balance. For this purpose, alcohol, specially denatured alcohol, and recovered or restored denatured alcohol shall be deemed to be unaccounted for when disposed of, lost, or denatured otherwise than as provided in these regulations. Failure on the part of permittees to observe the foregoing requirements concerning withdrawals will be regarded as sufficient grounds for citation for revocation of their basic permits.* (Sec. 3114 (a), I.R.C.)

§ 182.748 *Marking containers.* Containers for the transfer of denatured alcohol shall be marked in conformity with the provisions of §§ 182.733 to 182.740, inclusive.*

§ 182.749 *Additional copies of Forms 1467 and 1473.* When denatured alcohol is shipped to another denaturing plant, the proprietor will prepare two additional copies of Form 1467, giving the details of the packages shipped, and two additional copies of Form 1473, reporting the shipment. When completely denatured alcohol is so shipped, the Forms 1473 will be modified to read "Completely," instead of "Specially," Denatured Alcohol. The proprietor will attach one copy of Form 1473 to each copy of Form 1467 and deliver all copies of the forms to the storekeeper-gauger in charge, who shall forward them to the storekeeper-gauger in charge of the receiving denaturing plant.*

§ 182.750 *Receipt of denatured alcohol; general.* Upon receipt of the Forms 1467 and 1473, the storekeeper-gauger in charge of the receiving denaturing plant will make a memorandum record of the shipment and deliver the forms to the proprietor. When the denatured alcohol is received at the denaturing plant, the proprietor and the storekeeper-gauger will examine the shipment and where packages bear evidence of having sustained losses in transit, or railroad tank cars bear evidence of having sustained a loss, the losses will be determined and a report of such losses and of the examination of the shipment will be made to the district supervisor.*

§ 182.751 *Deposit in denaturing plant.* Upon completion of the examination of the containers, the proprietor will accurately determine the quantity received and will check in the receipt of the denatured alcohol against Forms 1467 in the presence of the storekeeper-gauger and will note on Part III of both copies of Form 1473, modified for the purpose, the receipt of the shipment and any loss or deficiency thereon. The proprietor will then file one copy of Form 1467, with Form 1473 attached, as a permanent record, and at the close of the day will deliver the other copy of Form 1467, with Form 1473 attached, to the storekeeper-gauger for transmittal to the district supervisor of his district.*

§ 182.752 *Method of deposit*—(a) *Denatured alcohol received in packages.* Denatured alcohol received in packages will be placed in the denatured alcohol storeroom of the denaturing plant in the packages in which it is received, or the contents of the packages may be dumped into storage tanks if report thereof is made on Form 1467 and Form 1468–E.

(b) *Denatured alcohol received in tank cars.* Denatured alcohol received in tank cars shall be weighed or measured and transferred immediately to storage tanks. If it is desired to receive denatured alcohol in railroad tank cars, proper railroad siding facilities must be provided at the denaturing plant. When denatured alcohol is received in tank cars, the seals must not be broken or any denatured alcohol removed, except in the presence of the storekeeper-gauger assigned to the receiving denaturing plant.*

Withdrawal of Denatured Alcohol

§ 182.753 *Completely denatured alcohol.* Dealers and users may purchase completely denatured alcohol for resale or for their own use. Transfers of completely denatured alcohol in bulk to a filling agency of the denaturer on premises contiguous to his denaturing plant and the packaging and disposition of such completely denatured alcohol shall be governed by the provisions of §§ 182.683–182.790. Completely denatured alcohol removed from denaturing plants must be transported in accordance with § 182.677.* (Secs. 3070, 3108 (a), 3109, I.R.C.)

§ 182.754 *Specially denatured alcohol.* Specially denatured alcohol may be procured under appropriate permit by manufacturers using specially denatured alcohol, dealers in specially denatured alcohol, and the United States or governmental agency thereof. Prospective permittees or manufacturers may procure samples of specially denatured alcohol, as provided in § 182.826. Specially denatured alcohol must be removed from denaturing plants in approved containers. The exact contents of each package must be determined and the package marked in accordance with these regulations. The details of such packages shall be entered on the appropriate forms as hereinafter provided. Specially denatured alcohol removed from denaturing plants must be transported in accordance with § 182.677. The denaturer shall present the permit, Forms 1477, 1485, 1486, or 1512, authorizing shipment, to the storekeeper-gauger prior to withdrawal.

(a) *Bonded dealers and manufacturers; withdrawal permits, Forms 1477 and 1485.* Specially denatured alcohol may not be shipped to a manufacturer using specially denatured alcohol or to a dealer in specially denatured alcohol until the denaturer receives the withdrawal permit, Form 1477 or Form 1485, as the case may be, issued to the manufacturer or bonded dealer in which the denaturer is named as vendor. Denaturers must not ship specially denatured alcohol in excess of the quantity set forth in the withdrawal permit.

(b) *United States or governmental agency; permit, Form 1486.* Specially denatured alcohol may be shipped to the United States or governmental agencies thereof upon receipt of permit, Form 1486, issued by the Commissioner to the head of the department, or the head of the bureau or establishment not under control of any department, named therein. Form 1453–A shall be prepared and disposed of as provided in § 182.785.

(c) *Samples; permit, Form 1512.* Denaturers may furnish samples of more than 8 fluid ounces of specially denatured alcohol only pursuant to permit on Form 1512. All samples of specially denatured alcohol shall be recorded by denaturers in their reports the same as other specially denatured alcohol, except that samples of 8 fluid ounces or less need be shown only on the commercial records of the vendor. When samples are shipped to persons holding permits to use specially denatured alcohol, the denaturer shall enter on Forms 1473 and 1468–D the serial number of such permit immediately below the number of the sample permit, as $\frac{S\text{–}1}{SDA\text{–}NY\text{–}576}$, as shown on Form 1512.* (Secs. 3070, 3108 (a), 3109, 3114 (a), I.R.C.)

Exportation of Specially Denatured Alcohol

§ 182.755 *General.* Specially denatured alcohol may be withdrawn from denaturing plants for exportation as hereinafter provided. The denaturer must furnish to the district supervisor evidence of the actual landing of the specially denatured alcohol in a foreign country or proof of the loss of the specially denatured alcohol at sea. A certificate showing the actual clearance of the specially denatured alcohol from the port of export will be furnished to the district supervisor by the collector of customs.* (Sec. 3109, I.R.C.)

§ 182.756 *Kinds of containers.* Specially denatured alcohol may be exported in approved containers conforming with the specifications prescribed in §§ 182.726, 182.728, and 182.729.* (Sec. 3109, I.R.C.)

§ 182.757 *Application, Form 1545.* Whenever it is desired to export specially denatured alcohol, application on Part I of Form 1545, in triplicate, must be made by the denaturer to the district supervisor for permit so to do. All of the information required by these regulations and called for by the form shall be furnished. The application must be subscribed and sworn to before a notary public or other officer authorized to administer oaths. The name and address of the purchaser abroad of such specially denatured alcohol, the proposed route of shipment, the port of export and the port of entry into the foreign country must be shown on the form.* (Sec. 3109, I.R.C.)

§ 182.758 *Consent of surety, Form 1533.* The denaturer must file a consent of surety, Form 1533, extending the terms of his bond, Form 1432–A, which consent shall contain the undertaking that—

The obligors agree to extend the terms of said bond to cover all liability that may be incurred on all specially denatured alcohol withdrawn by the principal for which satisfactory evidence of exportation or loss at sea as required by law and regulations is not submitted to the district supervisor.

* (Sec. 3109, I.R.C.)

§ 182.759 *Approval of consent of surety and issuance of permit.* The district supervisor will examine the consent of surety and if it is properly executed as provided in the preceding section and §§ 182.184–182.205, he shall note his recommendation for approval thereon and forward all three copies thereof to the Commissioner.

(a) *Permit.* If there is nothing indicating that the specially denatured alcohol will not be exported in the manner stated in the application, and proper certificates of clearance and landing have been filed, in accordance with § 182.767, for previous shipments for export, the district supervisor will issue permit on Part II of Form 1545, and will return all copies thereof to the applicant.* (Sec. 3109, I.R.C.)

§ 182.760 *Marking packages.* Upon receipt of the permit from the district supervisor, the proprietor will mark the packages in accordance with § 182.733 (a) (2).* (Sec. 3109, I.R.C.)

§ 182.761 *Release of specially denatured alcohol.* After the packages have been properly marked, the proprietor will present all copies of Form 1545 to the storekeeper-gauger, who will release the specially denatured alcohol for shipment, if he finds the packages have been properly marked, and the permit (Form 1545) is in proper order.* (Sec. 3109, I.R.C.)

§ 182.762 *Delivery to carrier.* If the specially denatured alcohol is withdrawn from a denaturing plant located elsewhere than at the port of exportation, the denaturer shall deliver the shipment to an authorized carrier for transportation to the port of exportation. He shall procure three copies of the bill of lading, covering such transportation, and deliver all copies thereof to the storekeeper-gauger at the denaturing plant. The denatured alcohol must be consigned to the *collector*

of customs of the port of export and must be properly described in the bill of lading by serial numbers, kind, and quantity. A copy of the bill of lading shall be attached to each copy of the Form 1545.* (Sec. 3109, I.R.C.)

§ 182.763 *Delivery directly to customs custody.* When specially denatured alcohol is withdrawn from a denaturing plant located at the port of exportation, the denaturer will deliver the shipment directly to customs custody. A copy of the export bill of lading shall be procured and filed with the collector of customs.* (Sec. 3109, I.R.C.)

§ 182.764 *Disposition of forms.* When the packages of denatured alcohol have been withdrawn and the denaturer has furnished copies of the bill of lading, the storekeeper-gauger will forward immediately a complete set of the Form 1545 and bill of lading to the district supervisor and a complete set to the collector of customs at the port of exportation and the remaining copies to the exporter.* (Sec. 3109, I.R.C.)

§ 182.765 *Records.* Upon the removal of the packages from the denaturing plant the proprietor shall record the quantity removed on Form 1468–D. The foreign country to which the specially denatured alcohol is shipped, the number of the car, and the route, or the name of the vessel by which, and the port through which, the specially denatured alcohol is to be exported, will be entered on Form 1468–D, in addition to the other required data.*

§ 182.766 *Proceedings at port of export.* After the specially denatured alcohol has been duly laden on board the exporting vessel, car, or truck, and cleared the port of export, the collector of customs shall execute the certificate of clearance on Form 1545, and return the form to the district supervisor.* (Sec. 3109, I.R.C.)

§ 182.767 *Proof of landing.* Every person exporting specially denatured alcohol shall submit evidence satisfactory to the district supervisor that the specially denatured alcohol described in Form 1545 has been landed at a port outside the jurisdiction of the United States. The provisions of §§ 182.604 to 182.609, inclusive, relative to the submission of proof of landing in the case of exportation of undenatured alcohol, are hereby made applicable to the submission of proof of landing of specially denatured alcohol exported.* (Sec. 3109, I.R.C.)

§ 182.768 *Shipments to the Philippine Islands, Puerto Rico, the Panama Canal Zone, Guam, American Samoa, and the Virgin Islands.* The provisions of these regulations relating to the exportation of specially denatured alcohol to foreign countries and the forms prescribed shall apply to like removals and shipments to the Philippine Islands, Puerto Rico, the Panama Canal Zone, Guam, American Samoa, and the Virgin Islands.* (Secs. 3341 (b), 3361 (b), I.R.C., Supp.)

§ 182.769 *Shipments to Hawaii and Alaska, other American possessions, protectorates, etc.* Specially denatured alcohol shipped to Hawaii and Alaska or other possessions or protectorates of the United States shall be governed by the provisions of these regulations respecting transactions within the continental limits of the United States.* (Secs. 3070, 3108 (a), 3109, 3114 (a), I.R.C.)

Samples by Proprietor

§ 182.770 *Procedure.* The proprietor of a denaturing plant may be permitted to take such samples of ethyl alcohol, specially denatured alcohol, and completely denatured alcohol as may be necessary for the proper conduct of his business. The procedure outlined in §§ 182.394 to 182.399 insofar as applicable shall apply to the taking of samples in a denaturing plant.*

Losses of Ethyl Alcohol

§ 182.771 *Remission of tax.* Under the law, the tax on alcohol lost by evaporation or other shrinkage, leakage, casualty, or unavoidable cause at a denaturing plant, or in transit thereto, may be remitted by the Commissioner, provided he is satisfied that such alcohol has not been diverted to any illegal use, and the proprietor is not indemnified against such loss by valid claim of insurance.* (Sec. 3113, I.R.C.)

§ 182.772 *Losses from storage tanks.* Losses sustained from storage tanks will be determined by physical inventory of such tanks at the close of each month and the loss reported on Form 1468–A. Where the quantity lost from storage tanks exceeds 1 per cent of the total quantity contained in such tanks during the month, claim for remission of tax on the entire quantity lost from the tanks will be made by the proprietor. If the loss does not exceed 1 per cent, so calculated, claim for remission of tax will not be required, provided there are no circumstances indicating that the alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

§ 182.773 *Losses from packages.* Losses sustained from packages in denaturing plants will be determined when the packages are dumped for denaturation, and the loss will be reported on Form 1468–A at that time. Where the quantity lost from any package exceeds 1 per cent in the case of metal packages, or 3 per cent in the case of wooden packages, of the quantity originally contained therein, claim for remission of tax on the entire quantity lost from the package will be made by the proprietor. If the loss does not exceed 1 per cent, or 3 per cent, so calculated, claim for remission of tax will not be required, provided there are no circumstances indicating that the alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

§ 182.774 *Losses in transit.* Losses in transit to denaturing plants must be determined at the time alcohol is received at the denaturing plant, and the loss reported on Form 1468–A. Where the quantity lost from any tank car or package exceeds 1 per cent of the quantity shipped therein, claim for remission of tax on the entire quantity lost from the package will be made by the proprietor. If the loss does not exceed 1 per cent, so calculated, claim for remission of tax will not be required, provided there are no circumstances indicating that the alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

Losses of Ethyl Alcohol and Specially Denatured Alcohol by Theft, Casualty, etc.

§ 182.775 *Losses by theft, casualty, etc.* Losses of ethyl alcohol or specially denatured alcohol by theft or casualty, or any other extraordinary or unusual losses, will be determined at the time the loss occurs, or is discovered, and the loss will be entered on Form 1468–A or Form 1468–E, as the case may be. Report of the loss will be made by the proprietor to the district supervisor immediately. Claim for remission of tax or allowance for all such losses, regardless of the percentage of loss, will be made by the proprietor.* (Sec. 3113, I.R.C.)

Losses of Restored Alcohol

§ 182.776 *General.* Losses of restored alcohol (redistilled, recovered denatured alcohol) will be included in the losses of ethyl alcohol.* (Sec. 3113, I.R.C.)

Losses of Specially Denatured Alcohol

§ 182.777 *Allowance for losses.* Losses of specially denatured alcohol from storage tanks will be determined by physical inventory of such tanks at the close of each month. Losses from packages will be determined at the time the packages are removed for shipment. All losses will be reported on Form 1468–E for the month in which they are discovered. Where the quantity lost exceeds 1 per cent of the quantity of specially denatured alcohol on hand at the denaturing plant during the month, claim for allowance of the entire quantity lost will be made by the proprietor. If the loss does not exceed 1 per cent, as calculated, claim for allowance will not be required, provided there are no circumstances indicating that the specially denatured alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

Claims

§ 182.778 *General.* Claims for remission of tax or allowance for losses of ethyl alcohol and specially denatured alcohol, reports of losses by storekeeper-gaugers, investigations of losses and examination of claims by district supervisors, will be made in accordance with the procedure prescribed by §§ 182.637 to 182.640, inclusive, relative to losses at bonded warehouses.* (Sec. 3113, I.R.C.)

§ 182.779 *Distillates.* No allowance can be made under section 2901 (a), I.R.C., or any other provisions of law, for losses of distillates containing one-half of 1 per cent or more of aldehydes or 1 per cent or more of fusel oil by leakage or evaporation occurring during transportation to a denaturing plant or while stored in such plant prior to denaturation. Tax will be collected on all losses unless the same are shown to be due to destruction by accidental fire or other casualty while in transit and the tax is remitted under section 2901 (c), I.R.C. The liability of the distiller to tax on such distillates removed for denaturation shall continue until they have been deposited in the denaturing plant.* (Sec. 2916, I.R.C.)

Registry of Still "For Use" and "Not for Use"

§ 182.780 *Registry on Form 26.* Every denaturer having in his possession or custody, or under his control, stills set up, must register the same with the district supervisor. If he intends to use the still, he must register it "For use," and when he intends to discontinue use of the still he must register it "Not for use," in accordance with the procedure outlined in § 182.532.* (Sec. 2810 (a), I.R.C., Supp.)

Records and Reports of Proprietor

§ 182.781 *General.* The proprietor of every denaturing plant shall render daily reports on Forms 1466, 1467, 1453–A, and 1473, and shall keep monthly records on Forms 129 and 1468–A, B, C, D, E, and F, as hereinafter provided. All of the information called for in each form, as indicated by the headings of the columns and lines of the form and the instructions printed thereon or issued in respect thereto, and as required by these regulations, will be given. The requirements of §§ 182.455, 182.459, and 182.461, relative to the keeping, signing, and filing of reports by proprietors of industrial alcohol plants are hereby made applicable to the keeping, signing, and filing of reports by proprietors of denaturing plants: *Provided*, That daily reports need not be sworn to.* (Sec. 3070, I.R.C.)

§ 182.782 *Form 1466.* Each day alcohol is denatured, the proprietor shall prepare a report on Form 1466, in duplicate, of all alcohol and denaturants used and denatured alcohol produced. When alcohol is denatured by more than one formula or more than one lot of alcohol is denatured on the same day, each denaturation will be reported separately on the form, with a blank line between each formula or lot. At the close of the day (or not later than noon of the following business day, when the forms cover operations near the close of the day), the proprietor will deliver both copies of the form to the storekeeper-gauger.* (Sec. 3070, I.R.C.)

§ 182.783 *Form 1467.* When packages are filled with denatured alcohol, the proprietor will prepare a report on Form 1467, in duplicate, giving the details of the packages. Separate sheets will be used for each formula. At the close of the day (or not later than noon of the following business day, when the forms cover operations near the close of the day), the proprietor will deliver both copies of the form to the storekeeper-gauger.* (Sec. 3070, I.R.C.)

§ 182.784 *Disposition of Forms 1466 and 1467.* The storekeeper-gauger shall examine the Forms 1466 and 1467 delivered to him by the proprietor, and, if he finds the forms to be complete and correct in every respect, he shall initial each form and forward one copy of each to the district supervisor, and return the other copies to the proprietor, who shall file them, in bound form, as a permanent record available for inspection by Government officers at any reasonable time. The Forms 1466 and 1467 shall be filed in separate files, in chronological order, and, in the case of Form 1467, by serial numbers of the packages.* (Sec. 3070, I.R.C.)

§ 182.785 *Form 1453–A.* When specially denatured alcohol is shipped to the United States or a governmental agency thereof, the proprietor will prepare one copy of Form 1453–A and deliver it to the storekeeper-gauger, who will check the form with the records and permits, and, if found to agree therewith, he will initial the form and forward it to the Government officer to whom the specially denatured alcohol is consigned. Upon receipt of the specially denatured alcohol, the receiving Government officer will execute the certificate of receipt on the form, after noting thereon any deficiency in the quantity received, and forward it to the district supervisor specified at the bottom of the form.* (Sec. 3070, I.R.C.)

§ 182.786 *Form 1473.* When specially denatured alcohol is shipped from the denaturing plant, the proprietor will prepare Form 1473 reporting the shipment. One copy of the form will be made for intradistrict shipments, and two copies for interdistrict shipments. Where the proof of the alcohol used in producing specially denatured alcohol is other than 190 degrees of proof, the proof must be shown on Form 1473. Where shipments are made in tank cars, or consist of barrels or drums in carload lots, the name of the railroad and number of the car, together with the routing, shall be entered on the form. The consignor shall not change the routing without giving prompt notice of such action to the district supervisor of his district, and if shipment is made to another district, to the district supervisor of such district.

(a) *Disposition of forms.* Immediately upon shipment, the proprietor will deliver all copies of Form 1473 to the storekeeper-gauger, who will check the forms with the records and permits, and if found to agree therewith, he will initial the forms, and, on the same day, forward one copy to the district supervisor of the district in which the denaturing plant is located and, if shipments are made to another district, one copy to the district supervisor of such district.

(b) *Intradistrict shipments.* Where shipment is made to a consignee located in the same district as the denaturing plant, the district supervisor will check Form 1473 with the monthly reports of the consignor and the consignee, and, if receipt of the shipment is duly reported by the consignee and the form agrees with the consignor's monthly report, the district supervisor will initial Part II of the form.

(c) *Interdistrict shipments.* Where shipment is made to another district, the district supervisor of the consignee's district will check Form 1473 with the consignee's monthly report, and, if receipt of the shipment is duly reported, he will execute Part III of the form and forward it to the district supervisor of the district from which the alcohol was shipped, who will check the receipted form with the consignor's monthly report, and, if found to agree therewith, he will initial Part II of the form.

(d) *Nonreceipt of shipment.* When specially denatured alcohol is not received within a reasonable time after shipment, or where any material or unexplained difference exists between the kind and quantity shipped and that received, or where there is reasonable ground to suspect that the specially denatured alcohol has been or will be used for purposes other than those authorized by the consignee's permit and by the law and regulations, the district supervisor shall investigate each case and take appropriate action in respect thereto.* (Sec. 3070, I.R.C.)

§ 182.787 *Forms 129 and 1468–A, B, C, D, E, and F.* The proprietor shall keep a monthly record on Forms 129 and 1468–A, B, C, D, E, and F, in triplicate, of all alcohol and denaturants used for denaturation, and removed (either before or after denaturation) during the month, and on hand the first and last of the month. Entries will be made on the forms on the day on which the transactions occur, except that summary entries will be made at the close of the month.

(a) *Denaturants.* The details of all denaturants received, including the tanks in which the denaturants are dumped, the taking of samples for analysis, and the chemist's report thereon, will be entered on Form 129. The quantities of denaturants used in each denaturation will be entered on Form 1468–B, according to formula. At the close of the month, the quantities of denaturants received and used or removed during the month will be summarized and entered on Form 1468–C; denaturants received being summarized from Form 129 and entered according to kind, and denaturants used being summarized from Form 1468–B and entered according to both kind and formula.

(b) *Ethyl alcohol.* All ethyl alcohol received, used for denaturation, or withdrawn for shipment prior to denaturation, will be entered on Form 1468–A. At the close of the month, the quantities of alcohol used for denaturation will be summarized by formula and entered on the form.

(c) *Denatured alcohol.* Denatured alcohol produced, transferred to packages, or withdrawn for shipment during the month, will be entered on the Form 1468–D by date and formula. On shipments of completely denatured alcohol, the complete address of the person to whom the alcohol is shipped or delivered shall be entered on Form 1468–D, in addition to the other information required by these regulations. At the close of the month, the entries on Form 1468–D will be summarized on Form 1468–E.

(d) *Recovered alcohol.* All recovered alcohol received for restoration and/or redenaturation will be entered on Form 1468–F. When recovered alcohol is restored, entry thereof will be made on Form 1468–F, and if the restored alcohol requires redenaturation, the quantities of restored alcohol will be transferred from Form 1468–F to Form 1468–A, and

the redenaturation of the restored alcohol will be reported on Forms 1468–A, B, C, D, and E. When recovered alcohol is redenatured without restoration, the recovered alcohol will likewise be transferred from Form 1468–F to Form 1468–A, and the redenaturation reported on Forms 1468–A, B, C, D, and E. Forms 1468–F need not be rendered for denaturing plants which do not receive recovered alcohol for restoration and redenaturation.

(e) *Disposition of forms.* The proprietor will deliver all three copies of the forms, duly subscribed and sworn to (except Forms 1468–B and 1468–D), to the storekeeper-gauger on or before the 10th day of the month succeeding that for which the forms are rendered. The storekeeper-gauger will examine the forms, and if they are complete in every respect, and if the quantities of denaturants received and shipped out, the shipment of completely denatured alcohol, the quantities of recovered alcohol restored and the losses in restoration, and the quantities on hand last of month are all correctly reported, he will initial all copies of the forms, return one copy of each form to the proprietor, and forward two copies of each form to the district supervisor. The district supervisor, in his discretion, may extend (to the 10th day of the month) the time for delivering the monthly reports, Forms 1442, 1452–A and 1452–B, 1454, 1468, 1443–A and 1443–B, for the industrial alcohol plant and bonded warehouse on the denaturing plant premises, in order that all of the monthly reports for the same premises may be submitted together.

(f) *Filing of forms.* The proprietor shall file Forms 129 and 1468–A, B, C, D, E, and F, together in chronological order by months and in bound form, as a permanent record available for inspection by Government officers at any reasonable time. All of the forms comprising each month's report shall be filed together in the file.* (Secs. 3070, 3121 (c), I.R.C.)

§ 182.788 *Filing of Forms 1440 and 1520.* The proprietor shall file all Forms 1440 and 1520 covering alcohol and distillates, respectively, received at the denaturing plant, in separate files in chronological order, according to dates of receipt, and in bound form, as permanent records, available for inspection by the Government officers at any reasonable time.* (Secs. 3070, 3121(c), I.R.C.)

Audit of Reports

§ 182.789 *Audit by district supervisor.* The district supervisor will, after audit of Forms 129, and 1468–A, B, C, D, E, and F, and not later than the last day of the month succeeding that for which the reports are rendered, forward one copy of each form to the Commissioner with the district supervisor's monthly report of denatured alcohol, Form 1489, as provided in § 182.966.*

Change in Proprietorship, Name, Trade Name, etc.

§ 182.790 *Procedure.* When there is a change in proprietorship, the persons interested in the business, or a change in the individual, firm, or corporate name, trade name or style, compliance must be had with the provisions of §§ 182.650 to 182.652, inclusive.*

SALE AND USE OF COMPLETELY DENATURED ALCOHOL

General

§ 182.791 *Sale and use.* Completely denatured alcohol may be sold and used for any lawful purpose. Dealers in and manufacturers using (but not recovering for reuse) completely denatured alcohol are not required to obtain a permit under these regulations. Manufacturers using completely denatured alcohol and recovering the same for reuse, must file bond and procure permit in accordance with §§ 182.883–182.896.* (Secs. 3070, 3109, I.R.C.)

§ 182.792 *Containers.* Except in the case of containers of not over one wine gallon capacity, and as provided in § 182.728 (a), all completely denatured alcohol procured, possessed, sold, used, or otherwise disposed of by such dealers and manufacturers must be in the denaturer's original packages bearing all the marks required by these regulations, and in the case of packages of more than 5 wine gallons capacity, with seals intact: *Provided*, That the seals on such number of packages, as may be necessary for ordinary business requirements, may be broken in order to permit legitimate sale or use.* (Secs. 3070, 3109, I.R.C.)

§ 182.793 *Labels.* Each package of completely denatured alcohol containing 5 wine gallons or less sold or offered for sale by a dealer must have affixed thereto a label on which shall be printed in plain legible letters (red on white) the words "Completely Denatured Alcohol" and the following statement:

Completely denatured alcohol; contains ingredients which render the product wholly unfit for beverage purposes; if taken internally will cause serious consequences to health.

* (Secs. 3070, 3109, I.R.C.)

§ 182.794 *Repackaging by dealers.* Dealers may transfer completely denatured alcohol from denaturer's original packages to smaller packages of not exceeding 1 wine gallon capacity, provided the packages so filled are labeled or marked as required in § 182.793 and with the name and address of the dealer. The word "pure" qualifying completely denatured alcohol will not be permitted to appear on any label or container of completely denatured alcohol, and no other extraneous matter will be permitted on such containers without the express authority of the Commissioner.* (Secs. 3070, 3109, I.R.C.)

§ 182.795 *Advertising.* Dealers may not advertise by means of signs, posters, etc., in or about their places of business that "alcohol" is for sale, without the qualifying words "denatured" or "completely denatured." Inasmuch as such advertising menaces the health and lives of persons who might be misled into believing that the alcohol is pure, district supervisors shall instruct all field officers under their direction to warn proprietors of garages, paint shops, and hardware stores, and other retail dealers in denatured alcohol found guilty of such practice, to discontinue immediately the same, and that any failure to do so will render the completely denatured alcohol subject to seizure and the dealer to prosecution.* (Secs. 3070, 3109, I.R.C.)

§ 182.796 *Records.* Dealers, and manufacturers receiving, storing, selling, or using as much as 11 drums or barrels (550 wine gallons) of completely denatured alcohol in a calendar month must keep such records of the receipt, storage, and disposition of such completely denatured alcohol, including the symbol, if any, and serial numbers on the packages, as will enable any Government officer to trace such receipts, storage, and disposals: *Provided*, That on sales in quantities of less than 5 wine gallons, only the total quantity so disposed of daily need be recorded. Such records must at all times during regular business hours be open to inspection by Government officers and must be kept complete and up-to-date for a period of three years. No particular form of record is prescribed, but the data herein required must be readily ascertainable from the records kept by the dealer or manufacturer.* (Secs. 3070, 3109, 3121 (c), I.R.C.)

§ 182.797 *Destruction of marks and brands.* Dealers and manufacturers must not destroy or in anywise alter or disturb any of the marks or labels required to be placed on packages containing completely denatured alcohol until such alcohol has been entirely removed from the packages. When the packages have been emptied, all of the marks and brands, except the embossed symbol and serial number on packages of over 5 wine gallons capacity, must be immediately completely obliterated, as required by § 182.742.* (Sec. 2866, I.R.C.)

Proprietary Anti-freeze Solutions

§ 182.798 *Manufacture of proprietary anti-freeze solutions.* Proprietary anti-freeze solutions may be made with completely denatured alcohol for sale under trade names: *Provided*, That materials such as dye, rust inhibitor, petroleum distillates, etc., satisfactory to the Commissioner are added to the completely denatured alcohol in sufficient quantities to materially change the composition and character of the completely denatured alcohol. Such solutions are not classified as completely denatured alcohol and may not be marked, branded, or sold as completely denatured alcohol. Completely denatured alcohol may not be obtained in tank cars for use in manufacturing proprietary anti-freeze solutions except by producers of denatured alcohol.* (Secs. 3070, 3109, 3111, I.R.C.)

§ 182.799 *Formula and sample.* Manufacturers desiring to produce proprietary anti-freeze solutions with completely denatured alcohol are required to submit to the Commissioner quantitative formula on Form 1479–A, in quadruplicate, duplicate samples prepared in accordance with the proposed formula, and labels and advertising matter for each solution, in conformity with the provisions of §§ 182.147, 182.149, and 182.150. After examination of the samples and proposed formulas, all copies of Form 1479–A for each preparation will be marked "approved" or "disapproved," as the case may be, by the Commissioner. One copy will be retained by the Commissioner and three copies forwarded to the district supervisor, who shall retain one copy for his files, furnish the branch laboratory performing the laboratory duties for the district with one copy, and forward the third copy to the manufacturer. Both sets of the samples will be retained by the Commissioner, one of which will be furnished to the branch laboratory when needed.* (Secs. 3070, 3109, 3111, I.R.C.)

§ 182.800 *Containers in excess of 5 gallons.* Containers of proprietary anti-freeze solutions made with completely denatured alcohol containing more than 5 wine gallons shall be of metal only, and shall have embossed thereon an identifying symbol of the manufacturer and a serial number, in the same manner as required in § 182.727 for packages of completely denatured alcohol. The provisions of § 182.727 relative to embossed packages for completely denatured alcohol shall also apply to embossed packages for proprietary anti-freeze solutions made with completely denatured alcohol. Such containers shall also be marked by stenciling or otherwise with the trade name under which the product is sold, the name and address of the manufacturer or the name and address of the distributor.* (Sec. 3070, I.R.C.)

§ 182.801 *Packages containing 5 wine gallons or less.* Manufacturers may package proprietary anti-freeze solutions in containers of 5 wine gallons or less for sale under their names or under the names of dealers. Such containers shall be marked or labeled to show the name and address of the manufacturer, or the name and address of the dealer and the identifying symbol of the manufacturer.* (Sec. 3070, I.R.C.)

§ 182.802 *Prohibited containers.* Proprietary anti-freeze solutions may not be shipped in tank cars, tank trucks, tank wagons, or packages exceeding 55 wine gallons in capacity, except when shipped in tank cars by manufacturers to themselves at another location for packaging thereat in accordance with these regulations.* (Sec. 3070, I.R.C.)

§ 182.803 *Change in packages by dealers.* Dealers may repackage proprietary anti-freeze solutions in containers having a capacity of not more than 5 wine gallons, provided they are marked or labeled to show the name and address of the dealer and the identifying symbol of the manufacturer.* (Sec. 3070, I.R.C.)

§ 182.804 *Reuse of containers prohibited.* Packages having a capacity of more than 5 wine gallons into which proprietary anti-freeze has once been placed by a manufacturer may not, after such solution has been removed therefrom, be again used as containers for such a product.* (Sec. 3070, I.R.C.)

§ 182.805 *Records of sales and receipts.* Manufacturers of and dealers in proprietary anti-freeze solutions shall, if the quantity produced, received, or sold is 11 barrels or drums (not exceeding 550 wine gallons) or more of the proprietary anti-freeze solution in a period of 30 days keep such records of the production, receipt, and disposition of such proprietary anti-freeze solutions, including the symbol and serial number (if any) on the package, as will enable any Government officer to trace such receipts, storage, and disposals, and such records must at all times during regular business hours be open to inspection by Government officers: Provided, That where sales are made in quantities of less than 5 wine gallons, such records will be required to show only the total quantity disposed of daily in this manner.* (Secs. 3070, 3121 (c), I.R.C.)

OPERATIONS BY DEALERS IN SPECIALLY DENATURED ALCOHOL

Procurement of Specially Denatured Alcohol

§ 182.806 *Application and withdrawals permit, Form 1477—(a) Application.* Where a bonded dealer holding basic permit, Form 1476, desires to procure denatured alcohol under said permit, he shall file application on Part I of Form 1477, in duplicate, with the district supervisor for withdrawal permit to procure specially denatured alcohol. He shall state on his application the names, registry numbers (in the case of denaturing plants) or basic permit numbers (in the case of dealers in specially denatured alcohol) and addresses of the denaturing plants or bonded dealers from which he proposes to purchase specially denatured alcohol. The applicant shall also specify the total quantity, in wine gallons, of specially denatured alcohol to be withdrawn during the term of the withdrawal permit, and the quantity to be withdrawn during a calendar month, which amount shall not be in excess of one-twelfth (or similar proportionate quantity where the withdrawal permit is for a period of other than one year) of the total quantity to be withdrawn during the term of the withdrawal permit. Such quantities shall in no case exceed those specified in the applicant's basic permit, Form 1476, and where the withdrawal permit is for a period less than that covered by the applicant's basic permit, the total quantity shall be in proportion to the unexpired term of the basic permit. If withdrawals are to be made in drums or barrel lots, the application shall be in multiples of 55 wine gallons. The district supervisor may approve or disapprove the application in whole or in part, according to his findings as to the legitimate needs of the applicant.

(b) *Withdrawal permit.* If the application is approved by the district supervisor, he shall issue withdrawal permit on Part II of Form 1477. The permit shall specify the quantity that may be procured during any calendar month and the total quantity that may be procured during the period for which the withdrawal permit is issued. The total quantity authorized by the withdrawal permit shall not exceed that fixed in the basic permit, Form 1476, and the quantity that may be withdrawn during any calendar month shall not exceed one-twelfth of such quantity: *Provided*, That if the withdrawal permit, Form 1477, is issued for a period of less than 12 months, the quantity authorized to be withdrawn in any calendar month shall be in proportion to the period for which the withdrawal permit is issued; for example, if the withdrawal permit is issued for a period of 6 months, not over one-sixth of the total quantity specified therein may be withdrawn during a calendar month: *And provided further*, That where the withdrawal permit is issued for a period less than that covered by the applicant's basic permit, the total quantity authorized in the withdrawal permit shall be in proportion to the unexpired term of the basic permit. The withdrawal permit shall specify the date when the same shall be available for withdrawal purposes. The district supervisor will forward the original copy of the withdrawal permit to the permittee and will retain the duplicate copy for his files. If any denaturer or bonded dealer named as vendor in the withdrawal permit is located in another supervisory district, a copy of the withdrawal permit and any renewals or amendments thereof, will be prepared on the prescribed form and transmitted by the district supervisor issuing the same to the district supervisor of the district from which shipments are to be made.

(1) *Withdrawals under permit.* When the bonded dealer desires to procure specially denatured alcohol, he will forward the original of the withdrawal permit to the denaturer or bonded dealer named therein from whom he desires to procure the specially denatured alcohol. In the case of formulas with substitute denaturants, a certified copy of Form 1485, required by § 182.829 (b) (1), authorizing the use thereof, must be forwarded to the denaturer. Upon shipment, the denaturer or bonded dealer will enter the shipment on the withdrawal permit and return it to the bonded dealer, unless he has been authorized by the bonded dealer to retain the permit for the purpose of making future shipments. No specially denatured alcohol may be shipped by a vendor named in the withdrawal permit until such permit is in his possession. Except as provided in paragraph (e), further like shipments may be made under such permit during the term for which it is issued.

(2) *Excessive withdrawals.* Withdrawals must be so regulated by the bonded dealer that he will not have on hand, in transit, and unaccounted for during any calendar month more than the quantity of specially denatured alcohol so authorized by his basic permit, Form 1476.

(c) *Special permit.* Where a new bonded dealer qualifies within a calendar month a special withdrawal permit, Form 1477, should be issued for the proportionate quantity of specially denatured alcohol to which the bonded dealer may be entitled for the balance of the month, which permit shall be void at the end of such month and must be at once returned by the bonded dealer to the district supervisor.

(d) *Carrier to be furnished copy of Form 1477.* Where the specially denatured alcohol is to be delivered to the bonded dealer by a person other than the vendor, the bonded dealer shall procure from the district supervisor a certified copy (or copies, if delivery is to be made by more than one carrier), on the prescribed form, of the withdrawal permit, Form 1477, issued to him, and file the same with the delivering carrier's agent at destination. Application for such certified copy or copies shall be made by the permittee to the district supervisor by letter, specifying the name of the delivering carrier. Where such delivering carrier is known at the time Form 1477 is filed, the application should accompany such form.

(e) *Expiration or termination of permit.* Upon expiration of a withdrawal permit, it shall be returned to the district supervisor for cancellation. Where the withdrawal permit is in the possession of a vendor on the date of expiration, such vendor shall return it to the bonded dealer for surrender to the district supervisor. Should a basic permit, Form 1476, held by a bonded dealer to whom withdrawal permit, Form 1477, was issued, be terminated, surrendered, or revoked, each denaturer or bonded dealer named as vendor in such withdrawal permit shall, upon notice from the district supervisor, make no further shipments thereunder, and if such withdrawal permit is in his possession, he shall return it to the district supervisor for cancellation.* (Secs. 3070, 3108 (a), 3109, 3114 (a), I.R.C.)

§ 182.807 *Application for renewal of withdrawal permit, Form 1477.* Application on Part I of Form 1477, for renewal of withdrawal permits must be submitted by the applicant to the district supervisor not less than one month prior to the date of expiration of the permit to be renewed, in order that the renewal permit may be issued and become available for withdrawals by the first day of the calendar month following the date of expiration of the permit to be renewed. Application for renewal of withdrawal permits shall be executed in conformity with § 182.806 (a).* (Sec. 3114 (a), I.R.C.)

§ 182.808 *Renewal of withdrawal permit, Form 1477.* Withdrawal permits on Part II of Form 1477 shall remain in force for the calendar year or for the term of the basic permit, Form 1476. A renewal permit must be procured for each year commencing with January 1, after the expiration of the original permit. The provisions of § 182.806 (b) shall be applicable to the issuance of renewal permits.* (Sec. 3114 (a), I.R.C.)

§ 182.809 *Quantity procurable under withdrawal permits.* In procuring specially denatured alcohol the bonded dealer shall deduct the quantity of specially denatured alcohol on hand, in transit, and unaccounted for from the quantity procurable under the withdrawal permit during the calendar month, and give his order for an amount not exceeding the available balance. For this purpose, specially denatured alcohol shall be deemed to be unaccounted for when disposed of otherwise than as provided in these regulations. Failure on the part of bonded dealers to observe the foregoing requirements concerning withdrawals will be regarded as sufficient ground for citation for revocation of their basic permits.* (Secs. 3070, 3108 (a), 3109, 3114 (a), I.R.C.)

Receipt of Specially Denatured Alcohol

§ 182.810 *In original packages.* Specially denatured alcohol received on the premises of a bonded dealer in portable containers may not be transferred to other portable containers except as provided in § 182.812.* (Sec. 3070, I.R.C.)

§ 182.811 *Railroad tank cars.* If the bonded dealer receives specially denatured alcohol in railroad tank cars, railroad siding facilities for the receipt of such tank cars must be provided at the bonded dealer's premises. The denatured alcohol received in tank cars must be immediately deposited in storage tanks constructed in conformity with the provisions of § 182.102. When so deposited, the formula of the denatured alcohol shall be plainly marked on the storage tank.* (Sec. 3070, I.R.C.)

Filling of Packages by Bonded Dealers

§ 182.812 *When permissible.* Bonded dealers who receive specially denatured alcohol in tank cars and transfer the same to storage tanks in their storerooms, as provided in § 182.811, may fill packages of such specially denatured alcohol. Bonded dealers may also fill packages of specially denatured alcohol from denaturers' original packages where such original packages have been so damaged in transit as to necessitate repackaging, or where, upon receipt of approved Form 1477, Form 1485, Form 1486, or Form 1512, it is necessary to fill smaller packages for sale to authorized permittees in quantities less than the contents of the denaturer's original package, and specially denatured alcohol of the formula desired is not available in storage tanks for the filling of such packages.

(a) *Marks and brands.* When packages of specially denatured alcohol are filled by a bonded dealer either from storage tanks or from denaturers' original packages, the bonded dealer will accurately determine the contents of each package, and mark thereon, plainly and durably, the word "Specially denatured alcohol," name of the bonded dealer, his permit number and State, the formula number, and must otherwise mark the packages as in the case of denaturers' original packages, as prescribed in §§ 182.733 to 182.740, inclusive. Each package must be numbered in serial order commencing with number 1.

(b) *Destruction of marks and brands.* The marks and brands required to be placed on packages containing specially denatured alcohol must not be destroyed or in anywise disturbed until such denatured alcohol has been entirely removed from the packages. When the packages have been emptied, all the marks and brands must be at once completely obliterated by painting or otherwise, in conformity with the provisions of § 182.742.* (Secs. 2808, 2866, 3070, I.R.C.)

Disposition of Specially Denatured Alcohol

§ 182.813 *Sale.* Specially denatured alcohol may be sold by bonded dealers holding basic permit, Form 1476, to manufacturers using specially denatured alcohol, and to other bonded dealers in specially denatured alcohol, pursuant to withdrawal permit, Form 1485 or Form 1477, as the case may be. Bonded dealers may also furnish samples of specially denatured alcohol to manufacturers, other bonded dealers, and to prospective permittees pursuant to sample permit, Form 1512: *Provided*, That in the case of samples, where the quantity involved in any case does not exceed 8 fluid ounces, permit, Form 1512, will not be required. Sales of specially denatured alcohol may also be made to the United States or governmental agencies thereof pursuant to permit, Form 1486. The provisions of § 182.754, respecting sales of specially denatured alcohol by denaturers, are hereby made applicable to sales of specially denatured alcohol by bonded dealers. Specially denatured alcohol sold by bonded dealers must be transported in accordance with § 182.677. Record and report of such transactions shall be reported on Form 1478, as provided in § 182.822.* (Secs. 3070, 3109, 3114 (a), I.R.C.)

§ 182.814 *Exportation of specially denatured alcohol.* Bonded dealers desiring to export specially denatured alcohol shall file application on Part I of Form 1545, in triplicate, with the district supervisor for permit so to do, and the provisions of §§ 182.755 to 182.769 shall apply to exportations of specially denatured alcohol by bonded dealers holding basic permit, Form 1476.* (Sec. 3109, I.R.C.)

§ 182.815 *Destruction or other disposition.* Specially denatured alcohol in the possession of a bonded dealer may upon the approval of the district supervisor be destroyed or disposed of to the proprietor of a denaturing plant because of unsalability or other legitimate reason, in accordance with the provisions of §§ 182.867 to 182.869, inclusive. Notations concerning the destruction or disposition of specially denatured alcohol shall be made on Form 1478.*

Losses of Specially Denatured Alcohol

§ 182.816 *Losses in transit.* Losses in transit to bonded dealer's premises must be ascertained at the time the specially denatured alcohol is received by the bonded dealer. Accordingly, when packages or tank cars are received which show evidence of having sustained a loss in transit the bonded dealer should determine the extent of the loss at that time. The quantity ascertained to have been lost will be reported on Form 1478 on the line on which receipt of the shipment is reported, and in the column provided therefor. Where the quantity lost from any package or tank car exceeds 1 per cent of the quantity originally contained therein, claim for allowance of the entire quantity lost from the package or tank car will be made by the bonded dealer. If the loss does not exceed 1 per cent, so calculated, claim for allowance will not be required, provided there are no circumstances indicating that the specially denatured alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

§ 182.817 *Losses at bonded dealer's premises.* Losses of specially denatured alcohol from storage tanks will be determined by physical inventory of such tanks at the close of each month. Losses, if any, from packages will be determined at the time the packages are removed for shipment. All losses will be reported on Form 1478 by the bonded dealer for the month in which they are discovered. Where the quantity lost exceeds 1 per cent of the quantity of specially denatured alcohol on hand at the bonded dealer's premises during the month, claim for allowance of the entire quantity lost will be made by the proprietor. If the loss does not exceed 1 per cent, so calculated, claim for allowance will not be required, provided there are no circumstances indicating that the specially denatured alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

§ 182.818 *Claims.* Claims for allowance of losses of specially denatured alcohol at a bonded dealers' premises will be made in accordance with the procedure prescribed in §§ 182.637 to 182.640, inclusive, relative to losses at bonded warehouses.* (Sec. 3113, I.R.C.)

Records and Reports of Bonded Dealers

§ 182.819 *General.* Every person holding basic permit, Form 1476, shall keep records and render reports as hereinafter provided. Entries shall be made as indicated by the headings of the various columns and lines and in accordance with the instructions on the form and as set forth in these regulations. The provisions of §§ 182.455, 182.459, and 182.461, relative to the keeping, signing, and filing of reports by proprietors of industrial alcohol plants are hereby made applicable to the keeping, signing, and filing of reports by bonded dealers holding basic permit, Form 1476.* (Sec. 3070, I.R.C.)

§ 182.820 *Form 1453–A.* Bonded dealers in specially denatured alcohol when shipping specially denatured alcohol to the United States or a governmental agency thereof will execute Part I of Form 1453–A, and forward it to the Government officer to whom the specially denatured alcohol is consigned. Details concerning such specially denatured alcohol will be entered on the form in accordance with the headings of the columns thereon.* (Sec. 3070, I.R.C.)

§ 182.821 *Form 1473.* The provisions of § 182.786 relating to the execution and disposition of Form 1473, when specially denatured alcohol is shipped, are hereby extended to and made applicable to dealers in specially denatured alcohol. At the close of the day the bonded dealer shall forward one copy of each Form 1473 to the district supervisor of the district in which the bonded dealer is located, and one copy to the district supervisor of the district in which the consignee is located, if in another district.* (Sec. 3070, I.R.C.)

§ 182.822 *Record, Form 1478.* Every bonded dealer holding permit to deal in specially denatured alcohol must keep Form 1478, in triplicate, covering his transactions for each month. One copy of the form shall be retained by the bonded dealer and the two remaining copies must be forwarded by the bonded dealer on or before the 5th day of the succeeding month to the district supervisor. There will be entered daily the detail of all specially denatured alcohol received and when received from a denaturing plant, the number of such plant shall be entered in the column provided therefor. The amount of specially denatured alcohol lost from each lot in transit to the bonded dealer's storeroom will be entered in the proper column on the same line with the quantity reported received in such lot. The quantities reported lost in transit will not be included in the losses in the storeroom reported in the summary. Details will be entered daily of all specially denatured alcohol disposed of to manufacturers or other bonded dealers or any other disposition of such specially denatured alcohol. The number of the basic permit of the manufacturer or bonded dealer to whom specially denatured alcohol is shipped shall also be appropriately entered. Where several packages are shipped or delivered on the same day to the same person, the aggregate quantity so shipped or delivered may be stated on one line.

(a) *Special entries.* If specially denatured alcohol is destroyed on the premises of a bonded dealer, notation of such destruction shall be entered on Form 1478, giving the date and manner of destruction, and, if supervised, the name of the officer supervising the destruction, and the quantity, formula number, etc., shall also be stated.

(b) *Summary.* Details of the summary shall be entered on Form 1478 in accordance with the information required by the lines thereof and the instructions on the form.* (Sec. 3070, I.R.C.)

§ 182.823 *Audit of reports.* Upon receipt of Form 1478 from the bonded dealer, the same shall be audited by the district supervisor and one copy thereof forwarded to the Commissioner with the district supervisor's monthly report, Form 1489. The district supervisor shall use the information reported on Form 1478 in compiling data for his monthly report, Form 1489, required by § 182.966.*

Change in Proprietorship, Name, Etc.; Discontinuance of Sale

§ 182.824 *Procedure*—(a) *Change in proprietorship, name, etc.* Where there is a change in proprietorship, or in the persons interested in the business, or in the individual, firm, or corporate name, trade name or style, or in the location of the premises, etc., procedure similar to that prescribed in §§ 182.650 to 182.652, inclusive, will be followed insofar as applicable.

(b) *Discontinuance of sale.* When the sale of specially denatured alcohol is discontinued, the bonded dealer shall give notice thereof in writing, in triplicate, to the district supervisor and shall surrender to the district supervisor his basic and withdrawal permits. Any specially denatured alcohol remaining on hand at the time of such discontinuance, which it is impractical to dispose of to manufacturers or other bonded dealers, pursuant to withdrawal permit in accordance with these regulations, may be returned to a denaturing plant in accordance with the procedure prescribed in § 182.868, upon the filing of consent of surety on the bond of the dealer, extending the terms thereof to cover the transportation of the specially denatured alcohol to the denaturing plant; or the specially denatured alcohol may be destroyed in accordance with the procedure prescribed in § 182.867. When all specially denatured alcohol remaining on hand at the time of discontinuance has been properly disposed of, as herein provided, the district supervisor will approve the notice of discontinuance, noting thereon the disposition made of such specially denatured alcohol, retain one copy of the notice for his files, and forward one copy to the Commissioner and one copy to the bonded dealer.*

OPERATIONS BY USERS OF SPECIALLY DENATURED ALCOHOL

Procurement of Samples

§ 182.825 *Who may procure.* Samples of specially denatured alcohol may be procured by manufacturers holding permits to use specially denatured alcohol and by applicants or prospective applicants for such permits, as hereinafter provided:

(a) *Permittees.* Manufacturers holding permits to use specially denatured alcohol may procure samples of such alcohol in advance of sales, or for experimental purposes, in quantities of not more than 5 wine gallons. In exceptional cases, when the necessity for the withdrawal of samples exceeding 5 wine gallons is clearly shown, the district supervisor may authorize withdrawals in excess of such quantity.

(b) *Applicants for permits.* Applicants or prospective applicants for permits to use specially denatured alcohol may procure a sufficient quantity of such alcohol, not exceeding 5 wine gallons, of the particular formula desired, for experimental purposes or with which to prepare the necessary samples of finished product for submission to the Commissioner. Withdrawal of larger quantities for such purposes will be permitted by district supervisors only in exceptional cases where the necessity for the withdrawal of more than 5 wine gallons is clearly established.* (Secs. 3070, 3108 (a), 3109, 3114 (a), I.R.C.)

§ 182.826 *Application for permit.* Application for withdrawal of samples of specially denatured alcohol in excess of 8 fluid ounces shall be made on Part I of Form 1512, in duplicate, to the district supervisor of the applicant's district. All of the information called for in the application shall be supplied. The pur-

pose for which the sample is desired must be stated explicitly. Samples of 8 fluid ounces or less may be procured by permittees and applicants or prospective applicants for permits without the necessity of filing application and procuring permit therefor.* (Sec. 3114 (a), I.R.C.)

§ 182.827 *Permit.* If the applicant or prospective applicant is entitled to a permit under § 182.825, and the quantity and formula are appropriate for the purpose for which the sample is desired, the district supervisor will issue permit on Part II of the Form 1512, and send one copy to the applicant for forwarding to the vendor named in the application. The remaining copy of the permit will be retained by the district supervisor.

(a) *Numbering of permits.* District supervisors will give each permit issued by them on Form 1512 a serial number, beginning with number one and preceded by the letter "S" for the first permit issued, as S–1, S–2, etc. When permit is issued on Form 1512 to a manufacturer holding basic permit on Form 1481 to use specially denatured alcohol, the district supervisor will insert the serial number of the basic permit immediately beneath the serial number of the sample permit, as

$$\frac{\text{S–1}}{\text{SDA–NY–578}}, \frac{\text{S–1}}{\text{SDA–NY–302}}, \text{ etc.}$$

* (Sec. 3114 (a), I.R.C.)

§ 182.828 *Samples to be accounted for by permittees.* All samples of specially denatured alcohol shall be appropriately labeled and sealed, and when received in quantities of more than 8 fluid ounces by permittees, shall be accounted for by such permittees on Form 1482 and supporting records, with explanatory notation, the same as other specially denatured alcohol procured by them.* (Sec. 3070, I.R.C.)

Procurement of Specially Denatured Alcohol

§ 182.829 *Application and withdrawal permit, Form 1485*—(a) *Application.* Where a person holding basic permit, Form 1481, desires to procure denatured alcohol under said permit, he shall file application on Part I of Form 1485, in duplicate, with the district supervisor for withdrawal permit to procure specially denatured alcohol. He shall state on his application the names, registry numbers (in the case of denaturing plants) or basic permit numbers (in the case of dealers in specially denatured alcohol) and addresses of the denaturing plants or bonded dealers from which he proposes to purchase specially denatured alcohol. The proof and formulas of specially denatured alcohol to be withdrawn, and, in the case of optional or substitute denaturants, the kind and quantity of the denaturants approved on Form 1479–A, must be stated in the application. The applicant shall also specify the total quantity, in wine gallons, of each formula of specially denatured alcohol to be withdrawn during the term of the withdrawal permit, and the quantity of each formula to be withdrawn during a calendar month, which amount shall not be in excess of one-twelfth (or similar proportionate quantity where the withdrawal permit is for a period of other than 1 year) of the total quantity of the specified formula to be withdrawn during the term of the withdrawal permit. Such quantities shall in no case exceed those specified in the applicant's basic permit, Form 1481, and where the withdrawal permit is for a period less than that covered by the applicant's basic permit, the total quantity shall be in proportion to the unexpired term of the basic permit. If withdrawals are to be made in drums or barrel lots, the application shall be in multiples of 55 wine gallons. The district supervisor may approve or disapprove the application in whole or in part, according to his findings as to the legitimate needs of the applicant.

(b) *Withdrawal permit.* If the application is approved by the district supervisor, he shall issue withdrawal permit on Part II of Form 1485. The permit shall specify the quantity that may be procured during any calendar month and the total quantity that may be procured during the period for which the withdrawal permit is issued. The total quantity of each formula authorized by the withdrawal permit shall not exceed the quantity of such formula fixed in the basic permit, Form 1481, and the quantity of such formula that may be withdrawn during any calendar month shall not exceed one-twelfth of such quantity: *Provided*, That if the withdrawal permit, Form 1485, is issued for a period of less than 12 months, the quantity authorized to be withdrawn in any calendar month shall be in proportion to the period for which the withdrawal permit is issued; for example, if the withdrawal permit is issued for a period of 6 months, not over one-sixth of the total quantity specified therein may be withdrawn during a calendar month, subject to the provisions of subparagraphs (1) and (2): *And provided further*, That where the withdrawal permit is issued for a period less than that covered by the applicant's basic permit, the total quantity authorized in the withdrawal permit shall be in proportion to the unexpired term of the basic permit. If withdrawals are to be made in drums or barrels, the permit shall be in multiples of 55 wine gallons. The withdrawal permit shall specify the date when the same shall be available for withdrawal purposes. The district supervisor will forward the original copy of the withdrawal permit to the permittee and will retain the duplicate copy for his files. If any denaturer or bonded dealer named as vendor in the withdrawal permit is located in another supervisory district, a copy of the withdrawal permit and any renewals or amendments thereof, will be prepared on the prescribed form and transmitted by the district supervisor issuing the same to the district supervisor of the district from which shipments are to be made.

(1) *Withdrawals under permit.* When the permittee desires to procure specially denatured alcohol, he will forward the original of the withdrawal permit to the denaturer or bonded dealer named therein from whom he desires to procure the specially denatured alcohol. If the withdrawal permit authorizes substitute denaturants and is to be sent to a bonded dealer, the user shall procure a certified copy thereof from the district supervisor and forward it with the original to the bonded dealer. Upon shipment, the denaturer or bonded dealer will enter the shipment on the withdrawal permit and return it to the permittee, unless he has been authorized by the permittee to retain the permit for the purpose of making future shipments. No specially denatured alcohol may be shipped by a vendor named in the withdrawal permit until such permit is in his possession. Except as provided in paragraph (e), further like shipments may be made under such permit during the term for which it is issued.

(2) *Exception.* Withdrawals must be so regulated by the permittee that he will not have on hand, in transit, and unaccounted for during any calendar month more than the quantity of specially denatured alcohol, plus the quantity of recovered or restored denatured alcohol, and recovered or restored articles (which are in the form of denatured alcohol) so authorized by his basic permit, Form 1481: *Provided*, That the district supervisor may, in his discretion, pursuant to application on Part I of Form 1485, and upon proper showing of necessity therefor, (1) in the case of a seasonal business, amend the applicant's withdrawal permit to authorize withdrawal during any calendar month of not to exceed a two months' allowance, or (2) issue to the permittee, in lieu of an annual permit, Form 1485, one or more withdrawal permits for a specified quantity or period subject to the above restrictions as to the maximum quantity that may be withdrawn during any one month, but the total quantity authorized under (1) and (2) shall not exceed the quantity specified in the withdrawal permit, Form 1485, to be withdrawn during the period for which it is issued: *Provided further*, That such additional withdrawals shall not be authorized unless the bond of the permittee is in a sufficient penal sum to cover the increased quantity in addition to the regular withdrawal allowance.

(c) *Special permit.* Where new permittees qualify within a calendar month a special withdrawal permit, Form 1485, should be issued for the proportionate quantity of specially denatured alcohol to which the permittee may be entitled for the balance of the month, which permit shall be void at the end of such month and must be at once returned by the permittee to the district supervisor.

(d) *Carrier to be furnished copy of Form 1485.* Where the specially denatured alcohol is to be delivered to the manufacturer by a person other than the vendor, the manufacturer shall procure from the district supervisor a certified copy (or copies, if delivery is to be made by more than one carrier), on the prescribed form, of the withdrawal permit, Form 1485, issued to him, and file the same with the delivering carrier's agent at destination. Application for such certified copy or copies shall be made by the permittee to the district supervisor by letter, specifying the name of the delivering carrier. Where such delivering carrier is known at the time Form 1485 is filed, the application should accompany such form.

(e) *Expiration or termination of permit.* Upon expiration of a withdrawal permit, it shall be returned to the district supervisor for cancellation. Where the withdrawal permit is in the possession of a vendor on the date of expiration, such vendor shall return it to the permittee for surrender to the district supervisor. Should a basic permit, Form 1481, held by a person to whom withdrawal permit, Form 1485, was issued, be terminated, surrendered, or revoked, each denaturer or dealer named as vendor in such withdrawal permit, shall, upon notice from the district supervisor, make no further shipments thereunder, and if such withdrawal permit is in his possession, he shall return it to the district supervisor for cancellation.* (Secs. 3070, 3108 (a), 3109, 3114 (a), I.R.C.)

§ 182.830 *Application for renewal of withdrawal permit, Form 1485.* Application on Part I of Form 1485, for renewal of withdrawal permits must be submitted by the applicant to the district supervisor not less than one month prior to the date of expiration of the permit to be renewed, in order that the renewal permit may be issued and become available for withdrawals by the first day of the calendar month following the date of expiration of the permit to be renewed. Application for renewal of withdrawal permits shall be executed in conformity with § 182.829 (a).* (Sec. 3114 (a), I.R.C.)

§ 182.831 *Renewal of withdrawal permit, Form 1485.* Withdrawal permits on Part II of Form 1485 shall remain in force for the calendar year or for the term of the basic permit, Form 1481. A renewal permit must be procured for each year commencing with January 1 after the expiration of the original permit. The provisions of § 182.829 (b) shall be applicable to the issuance of renewal permits.* (Sec. 3114 (a), I.R.C.)

§ 182.832 *Quantity procurable under withdrawal permits.* In procuring specially denatured alcohol the permittee shall deduct the quantity of specially denatured alcohol, plus the quantity of recovered or restored denatured alcohol, and recovered or restored articles (which are in the form of denatured alcohol) on hand, in transit, and unaccounted for from the quantity procurable under the withdrawal permit during the calendar month, and give his order for an amount not exceeding the available balance. For this purpose, specially denatured alcohol, recovered or restored denatured alcohol, and recovered or restored articles (which are in the form of denatured alcohol) shall be deemed to be unaccounted for when used or disposed of otherwise than as provided in these regulations. Failure on the part of permittees to observe the foregoing requirements concerning withdrawals will be regarded as sufficient ground for citation for revocation of their basic permits.* (Secs. 3070, 3108 (a), 3109, 3114 (a), I.R.C.)

Receipt of Denatured Alcohol

§ 182.833 *In original packages.* Specially denatured alcohol received on the premises of the permit holder in portable containers may not be transferred to other portable containers for storage, but may, if suitable storage tanks have been provided in accordance with § 182.99, be transferred to such tanks for storage.* (Sec. 3070, I.R.C.)

§ 182.834 *Destruction of marks and brands.* The marks and brands required to be placed on packages containing specially denatured alcohol must not be obliterated or in anywise disturbed until such denatured alcohol has been entirely removed from the packages. When the packages have been emptied all the marks and brands must be at once completely obliterated by painting or otherwise, in conformity with the provisions of § 182.742.* (Sec. 2866, I.R.C.)

§ 182.835 *Railroad tank cars.* If the permittee receives specially denatured alcohol in railroad tank cars, railroad siding facilities for the receipt of such tank cars must be provided at the permittee's premises. Specially denatured alcohol received in tank cars must be immediately deposited in storage tanks constructed in conformity with the provisions of § 182.99. When so deposited, the formula of the specially denatured alcohol shall be plainly marked on the tank.* (Sec. 3070, I.R.C.)

Use of Specially Denatured Alcohol

§ 182.836 *General.* Specially denatured alcohol may not be used in any process, formula, or preparation until Form 1479–A, covering the same, has been approved, as required by § 182.147. Liquid products containing specially denatured alcohol must be unfit for use as beverages or for intoxicating liquor purposes, and must not be readily convertible into potable alcohol by simple distillation or manipulation. The essential oils and chemicals used in their manufacture must be of such a character as to bring the finished products within the above description and limitation, and make them conform in each instance to the samples and formulas for such products submitted by the applicant with Form 1479–A and approved by the Commissioner or district supervisor.

(a) *Change of formula.* Whenever the Commissioner or district supervisor has reason to believe that the alcohol in any preparation, in the manufacture of which specially denatured alcohol has been authorized, is being reclaimed or otherwise diverted to beverage purposes, he shall direct the permittee to appear on a day named and show cause why the authorized formula and preparation should not be so changed and modified as to prevent such reclamation or diversion. In the event the permittee should fail to so appear, or appearing should fail to prove that the alcohol in the authorized preparation is not reclaimable and is not being diverted to beverage uses, the Commissioner or district supervisor may direct that the formula be changed and that the manufacture of such preparation be suspended until such change is made and approved.* (Sec. 3070, I.R.C.)

Ethyl Acetate

§ 182.837 *Manufacture of ethyl acetate.* Ethyl acetate manufactured by a qualified permittee according to approved formula shall be denatured by the manufacturer by adding to every 100 gallons of ethyl acetate one-eighth gallon of calol ethatate or 5 gallons of denaturing grade wood alcohol or 1 gallon of methyl isobutyl ketone or other products of chemical which possess denaturing properties satisfactory to the Commissioner; *Provided*, That ethyl acetate used as a denaturant for specially denatured alcohol or for pharmaceutical, scientific, food, and toilet preparations, or where it is to be exported or transferred from one producer to another producer, need not be denatured.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.838 *Optional denaturants.* Any user desiring to procure ethyl acetate denatured with products or chemicals in lieu of calol ethatate, denaturing grade wood alcohol, or methyl isobutyl ketone, shall make application to the Commissioner, stating fully the purpose for which the ethyl acetate is to be used and why he cannot use ethyl acetate denatured with the authorized denaturants. The application shall show the kind and quantity of products or chemicals that he desires to have substituted for calol ethatate, denaturing grade wood alcohol, or methyl isobutyl ketone, in order that it may be determined that such products or chemicals possess satisfactory denaturing properties. The application shall also show the name of the producer of ethyl acetate from whom the applicant desires to procure the denatured ethyl acetate covered by the application. If the ethyl acetate is to be procured from a producer located in the same district, the application shall be filed in quadruplicate, and if the ethyl acetate is to be procured from another district, the application shall be filed in quintuplicate. If the Commissioner approves the application, he will note his approval on all copies thereof, retain the original copy, return one copy to the applicant, forward one copy to the producer, and one copy to the district supervisor of the district in which the applicant is located, and, where shipment is to be made from another district, one copy to the district supervisor of such district.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.839 *Receipt from other producers.* Where undenatured ethyl acetate is received by a producer from another producer, it must be denatured before it is sold to dealers or users, unless it is sold for purposes where undenatured ethyl acetate may be used, as provided in §182.837.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.840 *To whom may be sold.* Denatured ethyl acetate produced with specially denatured alcohol may be sold by producers thereof to (1) legitimate users for solvent or other manufacturing purposes, not including manufacture for sale

of preparations which do not contain sufficient quantities of other materials to definitely change the composition and character of the ethyl acetate, satisfactory to the Commissioner, and (2) reputable wholesale and retail dealers engaged in a bona fide paint or chemical trade, for resale to legitimate users, either in the manufacturers' original packages, or in smaller containers not exceeding 5 gallons in capacity filled by such dealers. The producer may make shipment of such materials to himself in care of his agents, but only when title remains vested in the producer.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.841 *Sales to and by dealers*—(a) *Packages.* Sales by producers to wholesale and retail dealers shall be in containers of a capacity of not more than 55 gallons and shall not exceed a total of 550 gallons to any wholesale or retail dealer during any calendar month. A wholesale or retail dealer shall not purchase or sell more than 550 gallons during a calendar month and not more than 55 gallons shall be sold by them to a customer at any one time: *Provided*, That such sales to the wholesale and retail dealers and by such dealers may exceed the above maximum sales limitations of 550 gallons and 55 gallons, respectively, upon the production of evidence satisfactory to the district supervisor that there is a need for ethyl acetate by such dealers and their customers in greater quantities to supply their legitimate needs.

(b) *Tank cars, tank trucks, or tank wagons.* Upon written authorization of the district supervisor, shipments of ethyl acetate may be made by producers in railrod tank cars or tank trucks or tank wagons operated or controlled by them, or by their bona fide agents, to themselves at other locations, and to their bona fide agents where title remains vested in the producer; and producers and their bona fide agents may make shipments of ethyl acetate by such means to (1) other producers, and (2) actual users for solvent or manufacturing purposes, and not for resale. In the case of railroad tank car shipments the consignee must have railroad siding facilities at his premises for receiving such tank car shipments. When ethyl acetate is so shipped by tank car, tank truck, or tank wagon, it must be run directly from the tank car, tank truck, or tank wagon into a stationary tank on the consignee's premises; it may not be drawn into portable, unmarked containers.

(c) *Marks and brands.* Containers of ethyl acetate of one-half gallon or more capacity must have marked thereon the name of the product, the quantity, and the name and address of the producer, or, in lieu thereof, the name and address of the wholesale or retail dealer and the basic permit number and State of the producer.* (Secs. 2866, 3070, 3111, 3114, I.R.C.)

§ 182.842 *Sales and deliveries by producers and wholesale dealers.* Producers and wholesale dealers must satisfy themselves that the purchaser is engaged in a lawful business and that the quantity purchased is intended for a legitimate purpose. Producers and wholesale dealers will be responsible for delivery of the product direct to the customer, or to a carrier as defined in these regulations for transportation to the customer.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.843 *Sales by retail dealers.* Retail dealers must not sell ethyl acetate under circumstances from which it might reasonably appear that it is the intention of the purchaser to procure the same for sale or use for other than lawful purposes.

(a) *Change of packages by dealers.* Retail dealers may make sales of ethyl acetate in the producer's original packages or in smaller containers, not exceeding 5 gallons in capacity, filled by such dealers.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.844 *Record of sales and receipts.* All producers, including those receiving shipments from other producers, and wholesale dealers, must keep records showing the date and quantity received and sold, and giving the name and address of the person from whom received or to whom shipped, as the case may be. Users who receive ethyl acetate in tank cars, tank trucks, or tank wagons, must also keep records showing the receipt and use of such ethyl acetate.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

Proprietary Solvents and Lacquer Thinners

§ 182.845 *General.* Proprietary solvents and lacquer thinners, containing more than 25 per cent of alcohol by volume, produced with specially denatured alcohol, may be sold only as provided in these regulations.

(a) *To whom may be sold.* Such proprietary solvents and lacquer thinners may be sold by producers (1) to users for solvent or other manufacturing purposes, not including the manufacture for sale of preparations which do not contain sufficient quantities of other materials to definitely change the composition and character of the proprietary solvent or lacquer thinner, satisfactory to the Commissioner, and (2) to dealers and other producers for resale.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.846 *Sales to and by dealers.* Sales of such proprietary solvents and lacquer thinners by producers to wholesale and retail dealers shall be in containers of a capacity of not more than 55 gallons, and shall not exceed a total of 550 gallons to any wholesale or retail dealer during any calendar month. A wholesale or retail dealer shall not purchase or sell more than 550 gallons during a calendar month, and not more than 55 gallons shall be sold by them to a customer at any one time: *Provided*, That such sales to wholesale and retail dealers and by such dealers may exceed the above maximum sale limitations of 550 gallons and 55 gallons, respectively, upon the production of satisfactory evidence to the district supervisor that there is a need for such proprietary solvents or lacquer thinners by such dealers and their customers in greater quantities to supply their legitimate needs.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.847 *Containers.* Containers for proprietary solvents and lacquer thinners shall be constructed of metal if the capacity is more than 5 wine gallons.

(a) *Embossed symbols.* All packages containing more than 5 wine gallons shall have embossed thereon the serial number and permit number or symbol of the producer by or for whom the packages are filled, such as are prescribed in § 182.727 with respect to completely denatured alcohol. The provisions of § 182.727 relative to embossed packages for completely denatured alcohol shall also apply to embossed packages for proprietary solvents and lacquer thinners. Upon written authorization of the district supervisor, shipments of proprietary solvents and lacquer thinners may be made by producers in railroad tank cars or in tank wagons or tank trucks, operated or controlled by them or their bona fide agents, to themselves at other locations, and to their bona fide agents, where title remains vested in the producer; and producers and their bona fide agents may make shipments of such solvents and lacquer thinners by such means to (1) other producers, and (2) actual users for solvent or manufacturing purposes and not for resale: *Provided*, That in the case of railroad tank car shipments, the vendee has railroad siding facilities at his premises for receiving such tank car shipments, and in the case of tank wagon or tank truck shipments, the producer shall be responsible under his bonds for the delivery of the proprietary solvents or lacquer thinners to the actual user for solvent or manufacturing purposes. When proprietary solvents and lacquer thinners are so shipped by tank car, tank truck, or tank wagon, they must be run directly from the tank car, tank truck, or tank wagon into a stationary tank on the consignee's premises; they may not be drawn into portable, unmarked containers.

(b) *Labels.* Where proprietary solvents and lacquer thinners are packaged by dealers or their agents in containers of 5 wine gallons or less, such containers must be labeled to show the producer's name, address, and permit number: *Provided*, That where the products are packaged for a dealer, the name and address of the dealer may be shown in lieu of the name and address of the producer, but the basic permit number of the producer must be placed on the labels. Where dealers repackage proprietary solvents or lacquer thinners in containers of not over 5 wine gallons capacity, as authorized in paragraph (d), the name, address, and basic permit number of the producer, or the name and address of the dealer and the basic permit number of the producer, shall likewise be placed on the labels of all containers of one-half gallon or more capacity.

(c) *Packaging by agents.* Bona fide agents of producers receiving proprietary solvents and lacquer thinners in railroad tank cars or in tank wagons or tank trucks may transfer such products to packages, subject to the provisions of this section for sale to others, such packages if more than 5 gallons capacity to be furnished by the producer.

(d) *Change of package by dealers.* Dealers may repackage proprietary solvents and lacquer thinners in containers of not over 5 wine gallons capacity. Such containers, if of one-half gallon or more capacity, shall be labeled as required by paragraph (b).* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.848 *Record of sales and receipts.* When proprietary solvents and lacquer thinners are sold by the producer to another producer, complete records of these transactions must be maintained by the actual producer and the vendee producer. Users of proprietary solvents and lacquer thinners who receive the same in railroad tank cars, tank wagons, or tank trucks must maintain complete records of the receipt and actual use thereof. The records prescribed must be kept available for inspection by Government officers at all reasonable hours.* (Secs. 3070, 3109, 3111, 3114, 3121 (c), I.R.C.)

Proprietary Anti-freeze Solutions

§ 182.849 *Manufacture.* Proprietary anti-freeze solutions may be made with specially denatured alcohol Formula No. 1 for sale under trade names, provided that materials such as dye, rust inhibitor, petroleum distillates, etc., satisfactory to the Commissioner, are added to the specially denatured alcohol in sufficient quantities to materially change the composition and character of the specially denatured alcohol. No additional methanol may be added to the specially denatured alcohol by the permittee, and the finished product may be sold only under a trade name.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.850 *Formula and sample.* Permittees desiring to produce proprietary anti-freeze solutions with specially denatured alcohol Formula No. 1 must submit quantitative formulas on Form 1479–A, in quadruplicate, to the Commissioner, together with duplicate samples of each solution prepared in accordance with the proposed formula, in conformity with §§ 182.147, 182.149, and 182.150. The size of the containers in which the products are to be marketed shall be specified in Form 1479–A.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.851 *Containers.* Proprietary anti-freeze solutions manufactured with specially denatured alcohol Formula No. 1 must be put up by the permittee in containers not exceeding 1 wine gallon in capacity. Proprietary anti-freeze solutions may not be repackaged or relabeled by dealers, or others, after it has been removed from the premises of the permittee.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.852 *Container markings and labels.* Proprietary anti-freeze solutions made with specially denatured alcohol Formula No. 1 may be sold only under trade names, and the marks and labels on the containers shall not bear any reference to alcohol. All containers must have printed thereon, or on a label attached thereto, in large letters, in red ink, the word "poison," together with a statement that the contents if taken internally will cause serious consequences to health, or possibly death. In addition to the trade name, the containers must bear the name, address, and basic permit number of the producer: *Provided*, That where the anti-freeze solution is packaged for a certain dealer and it is desired to show the name and address of such dealer on the package in lieu of the name and address of the producer, such may be done if the basic permit number of the producer is printed on the container. Specimens of the markings or labels to be used must be attached to each copy of Form 1479–A, submitted in accordance with § 182.850.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

Rubbing Alcohol Compound

§ 182.853 *General.* Rubbing alcohol compound, as referred to in these regulations, shall mean any product manufactured with specially denatured alcohol and represented to be a "rubbing alcohol compound." Rubbing alcohol compounds may be made only according to the formulas prescribed therefor in the Appendix to these regulations, and no other product may be labeled to infer that it is a rubbing alcohol compound or is suitable for use as such. Any product manufactured with specially denatured alcohol under a basic permit issued pursuant to the provisions of these regulations and labeled and sold as a rubbing alcohol compound must be put up and sold by the manufacturer thereof in containers and packages in which it is to be delivered to the ultimate user. Rubbing alcohol compound may not be repackaged or relabeled by dealers, or others, after it has been removed from the premises of the manufacturer.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.854 *Containers.* Manufacturers producing rubbing alcohol compound shall package such product in bottles (or jars, in the case of solidified compounds) of not exceeding 1 pint in capacity.*

§ 182.855 *Labels*—(a) *Brand label.* Each bottle of rubbing alcohol compound shall bear a brand label, placed thereon by the manufacturer, containing the following information:

(1) The brand or trade name of the product, if any.

(2) The legend "Rubbing Alcohol Compound" which shall be in letters of the same color and size.

(3) The name and address of the manufacturer: *Provided*, That where rubbing alcohol compound is bottled for a certain wholesale or retail druggist and it is desired to show the name and address of such druggist on the label in lieu of the name and address of the manufacturer, such may be done if the basic permit number of the manufacturer is printed on the label.

(4) The legend "Contains 70 per cent alcohol by volume."

(5) The legend "For external use only. If taken internally, serious gastric disturbances will result."

The manufacturer may incorporate in the brand label, or in a separate label appearing in conjunction with the brand label, any other desired statement, but such statement must not obscure or contradict the labeling required hereby. No misleading statement, which would give the impression that the product is pure alcohol or is susceptible of beverage use, will be permitted on labels.

(b) *Caution notice.* There must be placed on each bottle a caution notice, printed in plain and legible type of not less than 6 point, reading as follows:

CAUTION NOTICE

The sale of this product by the manufacturer, or wholesale druggist, must be made directly, or through his employees, only to wholesale or retail druggists, and to purchasers who acquire the product for legitimate external use and not for resale, such as hospitals, sanatoriums, clinics, turkish baths, athletic associations, physicians, dentists, veterinarians, et cetera. This product may also be sold by retail druggists to any of the foregoing, or in retail quantities only to other persons for external use. Sales to such other persons must be made by a retail druggist through a registered pharmacist, who will write or stamp across the brand label in contrasting colors the words "Sold by" followed by his (the pharmacist's) name and the address of the retail drug store where the sale is made. Sales for other than external use will subject the dealer to special tax as a dealer in liquors and to the internal revenue tax on the alcohol contained in this compound.

(c) *Label approval.* No label shall be used on any bottle of rubbing alcohol compound unless the same has been submitted to and approved by the district supervisor in accordance with § 182.147 (a).* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.856 *Manufactured with isopropanol, etc.* A preparation labeled "Rubbing Alcohol Compound" without a definite modification is held to connote that such preparation was manufactured with specially denatured alcohol in accordance with these regulations. Accordingly, if a preparation intended for use as a rubbing alcohol compound is produced from any other material, such as isopropyl alcohol, it should not be labeled "Rubbing Alcohol Compound" without appropriate modification, clearly indicating that it was not made with specially denatured alcohol.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.857 *To whom may be sold.* The sale of rubbing alcohol compound by the manufacturer, or wholesale druggist, must be made directly, or through his employees, only to wholesale or retail druggists, and to purchasers who acquire the product for legitimate external use and not for resale, such as hospitals, sanatoriums, clinics, turkish baths, athletic associations, physicians, dentists, veterinarians, etc. This product may also be sold by retail druggists to any of the foregoing or in customary retail quantities only to other persons for external use. Sales to such other persons by retail druggists must be made through a registered pharmacist who will, at the time of sale, write or stamp across the brand label in contrasting colors the words "Sold by" followed by his (the pharmacist's) name and the address of the retail drug store where the sale is made.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.858 *Sale for beverage purposes.* A manufacturer, wholesale druggist, re-

tail druggist, or any other person shall not sell rubbing alcohol compound for use, or for sale for use, for beverage purposes, nor shall he sell such product under circumstances from which it might reasonably appear that it is the intention of the purchaser to procure the product for use, or for sale for use, for beverage purposes. Any person who shall sell rubbing alcohol compound in violation of these regulations shall be subject to all provisions of law pertaining to alcohol that is not denatured, including those requiring the payment of tax thereon, and the person so selling the rubbing alcohol compound shall be required to pay such tax and special tax as a dealer in liquors.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.859 *Noncompliance with requirements.* Failure to comply with these requirements will constitute bad faith on the part of the permittee, and grounds for citation for revocation of his basic permit.* (Sec. 3114, I.R.C.)

Bay Rum, Hair Lotions, Skin Lotions, Lilac Vegetal, etc.

§ 182.860 *General*—(a) *To whom may be sold.* Except as provided in paragraph (d), products such as bay rum, lilac vegetal, hair lotions, shampoos, deodorant sprays, skin lotions, perfumes, toilet waters, and similar products, made with specially denatured alcohol, may be sold by the manufacturer thereof only to barber shops, beauty parlors, beauty and barber supply dealers, wholesale and retail drug stores, general wholesale and retail stores, bona fide retailers of cosmetics, and actual users.

(b) *Containers not exceeding 1 gallon in capacity.* Except as provided in paragraph (c), such products must be put up and sold by the manufacturer thereof in containers not exceeding 1 gallon in capacity and be sold only to persons enumerated in paragraphs (a) and (d).

(c) *Containers larger than 1 gallon.* The district supervisor may authorize the manufacturer to ship products in containers exceeding 1 gallon in capacity to persons legitimately engaged in a bona fide bottling and distributing business, such as beauty and barber supply dealers, wholesale drug stores, and general wholesale stores, for repackaging in containers conforming to the requirements of paragraph (b), for sale to the persons enumerated in paragraphs (a) and (d) hereof. Application for such permission must be made by the bottler and distributor to the district supervisor of the district in which the bottler and distributor is located. The district supervisor will determine the legitimacy of the business of the applicant and the bona fides of his reasons for desiring to obtain the products in containers larger than 1 gallon. If the district supervisor determines that the applicant may be properly permitted to obtain the products in such containers and the manufacturer is located in his district, he will authorize the manufacturer to so ship the products to the applicant; if the manufacturer is located in another district, the district supervisor will forward the application with his findings and recommendation to the supervisor of such district, who, if he sees no objection to the proposed shipment, will authorize the manufacturer to so ship the products.

(d) *Purchase by other persons.* The district supervisor may authorize the manufacturer to ship such products to persons, other than those specified in paragraph (a), who are engaged in a legitimate business and who, upon application, establish a bona fide need for such products in the proper conduct of their businesses. Application for such permission must be made by the purchaser to the district supervisor of the district in which the purchaser is located. The district supervisor will determine the legitimacy of the business of the applicant and the bona fides of his need for obtaining such products in the proper conduct of his business. If the district supervisor determines that the applicant may be properly permitted to obtain the products, and the manufacturer is located in his district, he will authorize the manufacturer to sell the products to the applicant; if the manufacturer is located in another district, the district supervisor will forward the application with his findings and recommendation to the supervisor of such district, who, if he sees no objection to the proposed sales, will authorize the manufacturer to sell the products.* (Secs. 3070, 3108, 3111, 3114, I.R.C.)

§ 182.861 *Labels.* Containers for the products specified in § 182.860 shall be labeled to show the name and address of the manufacturer thereof, or in instances where the preparations are to be marketed by others than the manufacturer, and it is not desired to disclose the name and address of the actual manufacturer, this information may be omitted, but the labels in lieu thereof shall state the name and address of the distributor and the basic permit number of the manufacturer: *Provided,* That where packages are filled by bottlers and distributors pursuant to the provisions of § 182.860 (c), the labels must show the name and address of the bottler and distributor thereof and the basic permit number of the manufacturer, or in instances where the preparations are to be marketed by others than the bottler and distributor and it is not desired to disclose the name and address of the bottler or distributor, this information may be omitted, but the labels shall state the name and address of the distributor or retailer and the basic permit number of the actual manufacturer of such products: *Provided further,* That exemption may be allowed from the foregoing requirements that the labels contain the name and address of the manufacturer or the name and address of the distributor and the permit number of the manufacturer, as to any preparation marketed under a trade name label in a container of less than 4 ounces, if the manufacturer or bottler thereof specifies on the Form 1479–A with which the label is submitted for approval, in accordance with paragraph (a), that the labels are to be used on containers of less than 4 ounces.

(a) *Labels to be approved.* Manufacturers and persons bottling such products in accordance with § 182.860 (c) must submit labels or facsimiles thereof to the Commissioner for approval before use, in accordance with § 182.149.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

§ 182.862 *Repackaging and relabeling.* Except when sales are made to bottlers and distributors, as provided in § 182.860 (c), such products may not be rebottled, repackaged, or relabeled for sale by persons other than the manufacturer.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

Tinctures of Iodine

§ 182.863 *General.* Except as provided in paragraph (a), a permittee manufacturing tincture of iodine, U.S.P., half strength tincture of iodine, U.S.P., mild tincture of iodine, U.S.P., and other tinctures of iodine, with specially denatured alcohol may not sell in excess of one 50-gallon barrel or the equivalent thereof in containers of more than 1-gallon capacity in one month to any one customer. Sales may be made by permittees in any desired quantities in containers having a capacity of less than 1 gallon.

(a) *Sales in excess of 50 gallons.* The district supervisor may authorize the permittee to sell more than 50 gallons of tincture of iodine in containers larger than 1 gallon in one month to a person who is engaged in a legitimate business and who upon application establishes a bona fide need for such larger quantity in the proper conduct of his business. Application for such permission must be made by the purchaser to the district supervisor of the district in which he is located. The district supervisor will determine the legitimacy of the business of the applicant and the bona fides of his need for obtaining such larger quantity in the proper conduct of his business. If the district supervisor determines that the applicant may be properly permitted to obtain the larger quantity and the manufacturing permittee is located in his district, he will authorize the manufacturing permittee to sell such larger quantity to the applicant; if the manufacturing permittee is located in another district, the district supervisor will forward the application with his findings and recommendation to the supervisor of such district, who, if he sees no objection to the proposed sales, will authorize the manufacturing permittee to sell such larger quantity.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

Internal Medicinal Preparations and Flavoring Extracts

§ 182.864 *General.* Medicinal preparations and flavoring extracts used for internal purposes, may not be manufactured with specially denatured alcohol where any of the alcohol remains in the finished product. Labels, cartons, and advertising matter used in connection with external preparations manufactured with specially denatured alcohol shall not bear any reference for internal use or prescribe any internal dosage.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

Other Products

§ 182.865 *Labels on other products containing specially denatured alcohol.* The Commissioner may, when deemed necessary, at the time of approval of Form 1479–A or subsequent thereto, require containers of products other than those listed in §§ 182.837, 182.845, 182.849, 182.853, and 182.860, containing specially denatured alcohol, to be labeled, stenciled, or otherwise marked with the name, address, and permit number of the manufacturer, or the name and address of the distributor and the permit number of the manufacturers.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

Use of Ispropyl Alcohol

§ 182.866 *Storage, use and records.* Where a manufacturer, holding permit to use specially denatured alcohol, also uses isopropyl alcohol on the same premises, he must store the isopropyl alcohol separate and apart from the specially denatured alcohol received by him, and, insofar as practicable, shall keep the two alcohols separate and apart while being used. The products manufactured with the two alcohols should likewise, insofar as practicable, be kept separate and apart from each other. Each such manufacturer must keep a manufacturing record at his premises, available for inspection by Government officers, showing the following:

(1) The quantities of isopropyl alcohol received, and the dates of receipt and the names and addresses of the persons from whom received;

(2) The quantities of isopropyl alcohol used, and the date of use and the products and formulas in which used;

(3) The quantity of each product manufactured with usopropyl alcohol; and

(4) The quantities of such products sold or delivered, and the date of sale or delivery and the names and addresses of the persons to whom sold or delivered.* (Secs. 3070, 3109, 3111, 3114, I.R.C.)

Destruction and Disposition of Specially Denatured Alcohol

§ 182.867 *Destruction.* Specially denatured alcohol in the possession of a permittee may, upon approval of the district supervisor, be destroyed by the permittee. The permittee shall file application so to do with the district supervisor, in triplicate, stating fully the reason therefor. The specially denatured alcohol shall be destroyed in the presence of a Government officer, unless the quantity involved is small and insufficient in the opinion of the district supervisor to warrant such supervision. Upon approval of the application, the district supervisor shall instruct the permittee whether or not such destruction shall be witnessed by a Government officer. If a Government officer is assigned to witness the destruction of the specially denatured alcohol, the officer shall certify to the destruction on each copy of the approved application specifying the date and manner of destruction. If the permittee is authorized to destroy the specially denatured alcohol without Government supervision, he shall likewise certify to the destruction of the specially denatured alcohol on each copy of the approved application. One copy of the approved application will be filed by the permittee and two copies returned to the district supervisor, who shall forward one copy to the Commissioner, attached to Form 1482.*

§ 182.868 *Return to denaturing plant or bonded dealer.* Where specially denatured alcohol, lawfully in the possession of a manufacturer, is found to be unsuitable for use or where any such manufacturer discontinues the use thereof, or where for any other legitimate reason such manufacturer desires so to do, such denatured alcohol may be returned to any denaturing plant or bonded dealer for lawful disposition: *Provided,* That (1) consent of surety is filed on the bond (if any) of the manufacturer, extending terms thereof to cover the transportation of the specially denatured alcohol to the denaturer or bonded dealer, (2) the denaturer or bonded dealer consents to the return, and (3) permission for such transfer is, in each instance, first obtained from the district supervisor of the district from which the specially denatured alcohol is to be returned. The application shall be filed in triplicate with the district supervisor. If the application is approved, the district supervisor will forward one copy of the approved application to the Commissioner, attached to Form 1482, and one copy to the permittee, and retain the remaining copy for his files. If the denaturer or bonded dealer is situated in another district, the district supervisor authorizing the return will forward a letter of authorization to the district supervisor of such other district.*

§ 182.869 *Records.* Notations concerning the destruction or disposition of specially denatured alcohol shall be made on Form 1482.*

Losses of Specially Denatured Alcohol

§ 182.870 *Losses in transit.* Losses in transit to a manufacturer's premises must be ascertained at the time the specially denatured alcohol is received by the manufacturer. Accordingly, when packages or tank cars are received which bear evidence of having sustained a loss in transit, the manufacturer should determine the extent of the loss at that time. The quantity ascertained to have been lost will be noted on Form 1482 immediately below the line on which receipt of the shipment is reported. Where the quantity lost from any package or tank car exceeds 1 per cent of the quantity originally contained therein, claim for allowance of the entire quantity lost from the package or tank car will be made by the manufacturer. If the loss does not exceed 1 per cent, so calculated, claim for allowance will not be required, provided there are no circumstances indicating that the specially denatured alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

§ 182.871 *Losses at manufacturer's premises.* Losses of specially denatured alcohol at a manufacturer's premises will be determined and reported on Form 1482 monthly. Losses from storage tanks will be determined by physical inventory at the close of the month. Losses from packages will be determined at the time the packages are dumped. If the loss of specially denatured alcohol at a manufacturer's premises during any month exceeds 1 per cent of the quantity on hand during the month, claim for allowance of the entire quantity lost will be made by the manufacturer. If the loss does not exceed 1 per cent, so calculated, claim for allowance will not be required, provided there are no circumstances indicating that the specially denatured alcohol lost, or any part thereof, was unlawfully used or removed.* (Sec. 3113, I.R.C.)

§ 182.872 *Claims.* Claim for allowance for losses of specially denatured alcohol in transit to or at a manufacturer's premises will be made in accordance with the procedure prescribed in §§ 182.637 to 182.640, inclusive, relative to losses at bonded warehouses.* (Sec. 3113, I.R.C.)

Records and Reports of Manufacturers

§ 182.873 *General.* Every person holding basic permit, Form 1481, shall keep records and render reports as hereinafter provided. Entries shall be made as indicated by the headings of the various columns and lines and in accordance with the instructions on the form and as set forth in these regulations. The provisions of §§ 182.455, 182.459, and 182.461, relative to the keeping, signing, and filing of reports by proprietors of industrial alcohol plants are hereby made applicable to the keeping, signing, and filing of reports by manufacturers holding basic permit, Form 1481, to use specially denatured alcohol.* (Sec. 3070, I.R.C.)

§ 182.874 *Form 1482.* Every manufacturer holding permit to use specially denatured alcohol or to recover completely denatured alcohol or articles for reuse must make a report on Form 1482, in triplicate, covering his transactions for each month. The report must show all denatured alcohol on hand, received, used, and recovered during the month. One copy of the form shall be retained by the manufacturer and the two remaining copies, one of which must be sworn to, must be forwarded by the manufacturer on or before the 10th day of the succeeding month to the district supervisor. Failure to keep or file this report as herein required will constitute grounds for the issuance of citation for the revocation of the manufacturer's basic permit.

(a) *Recovery.* Manufacturers using both specially denatured alcohol and completely denatured alcohol and recovering the completely denatured alcohol for reuse will render separate reports for the specially denatured alcohol and the completely denatured alcohol. Where such manufacturers also recover articles in accordance with §§ 182.883–182.896, a

separate report will be rendered therefor. Where denatured alcohol is recovered and reused one or more times during the month, the quantity used and recovered each time shall be recorded as in the case of new denatured alcohol. At the close of the month, the total quantity recovered and used during the month shall be reported on Form 1482.

(b) *Special entries.* If specially denatured alcohol is destroyed on the premises or is returned to a denaturer or bonded dealer or disposed of to another manufacturer, notation of such transactions, in the case of destruction, giving the dates of the destruction and, if supervised, the name of the officer supervising the destruction, and in the case of disposal, the name and address of the denaturer or bonded dealer or manufacturer to whom shipped, and the date, quantity, and formula number, etc., shall be made on the form.

(c) *Summary.* Details of each formula of specially denatured alcohol shall be entered in the summary in accordance with the information required by the lines thereof and the instructions on the form.

(d) *Articles manufactured.* The articles manufactured such as toilet preparations, perfumes, varnishes, artificial leather, external pharmaceuticals, and the quantity and formula of the specially denatured alcohol used will be entered under the caption "Articles manufactured." Where the specially denatured alcohol is used for laboratory and other manufacturing purposes and no articles are produced therefrom, such fact should be stated in lieu of the articles manufactured.* (Sec. 3070, I.R.C.)

§ 182.875 *Commercial records.* Persons holding permits to use specially denatured alcohol in excess of 33 wine gallons per calendar month must keep a permanent record showing the following data:

(1) Amount of each formula of denatured alcohol received, the date of receipt, and the serial numbers of the packages.

(2) Amount of each formula of denatured alcohol on hand at all times.

(3) The amount of each formula of denatured alcohol used and the name of each product in which used.

(4) Number of gallons or amount otherwise expressed of each separate product manufactured, together with the names and addresses of the persons to whom such products are sold and delivered.

(5) The names and addresses of all persons from whom have been purchased oils, chemicals, and other ingredients used for manufacturing preparations with specially denatured alcohol, together with the original invoices showing such purchases.

(a) *Form of record; period which must be kept.* No particular form of record is prescribed but the data herein indicated must be ascertainable from the records and invoices kept by the manufacturer. Such commercial records must be kept complete and up-to-date at all times, and shall be retained by the manufacturer, in accordance with § 182.324, and be open to inspection by Government officers during regular business hours.* (Secs. 3070, 3121 (c), I.R.C.)

§ 182.876 *Audit of reports.* Upon receipt of Form 1482 from the manufacturer, the district supervisor will carefully examine the same, and shall see that all specially denatured alcohol shown shipped to the manufacturer on shippers' memorandum slips, Form 1473, has been accounted for by the manufacturer. Upon completion of the examination and audit, the district supervisor will file the sworn copy of Form 1482 in his office and forward the other copy to the Commissioner with his monthly report, Form 1489. The district supervisor shall use the information reported on Form 1482 in compiling data for his monthly report, Form 1489, required by § 182.966.*

Change in Proprietorship, Name, etc.; Discontinuance of Use

§ 182.877 *Procedure*—(a) *Change in proprietorship, name, etc.* Where there is a change in proprietorship, or in the persons interested in the business, or in the individual, firm, or corporate name, trade name or style, or in the location of the premises, etc., procedure similar to that prescribed in §§ 182.650 to 182.652, inclusive, will be followed insofar as applicable.

(b) *Discontinuance of use.* When the use of specially denatured alcohol is discontinued, the permittee shall give notice thereof in writing, in triplicate, to the district supervisor, and shall surrender to the district supervisor his basic and withdrawal permits. Any specially denatured alcohol remaining on hand at the time of such discontinuance may be disposed of in accordance with §§ 182.867 and 182.868, or when authorized by the district supervisor, the specially denatured alcohol may be disposed of to another person holding permit to use specially denatured alcohol of the same formula, upon the filing of a consent of surety, Form 1533, on the bond (if any), of the purchaser extending the terms of his bond to cover the transportation to, and use by, him of the specially denatured alcohol. Recovered denatured alcohol and articles remaining on hand shall be disposed of only as authorized by the Commissioner, after full advice respecting their condition and the disposition which it is desired to make of the recovered products has been submitted. When all specially denatured alcohol, recovered denatured alcohol, and articles, remaining on hand at the time of discontinuance of the use of specially denatured alcohol, have been properly disposed of, as herein provided, the district supervisor will approve the notice of discontinuance, noting thereon the disposition made of such specially denatured alcohol, recovered denatured alcohol, and articles, retain one copy of the notice for his files, and forward one copy to the Commissioner and one copy to the permittee.*

DENATURED RUM

Sale and Use of Denatured Rum

§ 182.878 *Denaturation.* Under the law, rum of not less than 150 degrees proof may be denatured free of tax in a distillery denaturing bonded warehouse located on the premises of a registered distillery. The provisions of Regulations 16 (26 CFR, Part 187) govern the location, qualification, construction, equipment, establishment, and operation of distillery denaturing bonded warehouses.* (Sec. 3070, I.R.C.)

§ 182.879 *Dealers in and users of specially denatured rum.* The provisions of these regulations relating to specially denatured alcohol will apply, insofar as applicable, to the procurement and sale by bonded dealers, and the procurement and use by manufacturers, of specially denatured rum, except that dealers shall make deliveries in accordance with § 187.95 of Regulations 16.* (Sec. 3070, I.R.C.)

§ 182.880 *Forms, records, and reports.* The same forms, records, and reports as are prescribed in these regulations concerning the procurement and sale by bonded dealers, and the procurement and use by manufacturers of specially denatured alcohol, shall apply to and be used, insofar as applicable, after making proper modification, in each instance in connection with the procurement and sale by bonded dealers, and the procurement and use by manufacturers, of denatured rum: *Provided*, That bonds on Form 653–A or 582–A will be used in lieu of bonds on Form 1475 or 1480, in connection with application for permit as a bonded dealer in specially denatured rum, or with application by a manufacturer to use specially denatured rum. The penal sums of bonds on Forms 653–A and 582–A will be computed as provided in these regulations with respect to bonds, Forms 1475 and 1480.* (Sec. 3070, I.R.C.)

§ 182.881. *Forms to be used.* The forms, records, and reports referred to above shall include the following:

Description

Form No.
- 33. Affidavit of individual surety on bond.
- 597. Notice of shipment of specially denatured rum (in lieu of Form 1473).
- 1411. Permit file index card.
- 1411–A. Record card—application for permit.
- 1430. Order to show cause why permit should not be revoked, copy of complaint attached.
- 1430–A. Order to show cause why permit should not be revoked.
- 1453–A. Receipt for specially denatured alcohol by the United States or governmental agency.
- 1474. Application for permit to deal in specially denatured alcohol.
- 1476. Permit to deal in specially denatured alcohol.
- 1477. Bonded dealer's application and permit to withdraw specially denatured alcohol.
- 1478. Specially denatured alcohol bonded dealer's report.
- 1479. Application for permit to use denatured alcohol.

Description—Continued

Form No.
- 1479–A. Formula or process for the use of denatured alcohol.
- 1481. Permit to use denatured alcohol.
- 1482. User's report of denatured alcohol.
- 1485. Application and permit to withdraw specially denatured alcohol by user.
- 1489. District supervisor's report of denatured alcohol.
- 1490. Notice of bond termination.
- 1491. Notification of release of bond.
- 1503–A. District supervisor's record of specially denatured alcohol withdrawals.
- 1533. Consent of surety to change in terms of bond.
- 1534. Power of attorney.

* (Sec. 3070, I.R.C.)

§ 182.882 *Sale or use of both specially denatured alcohol and specially denatured rum.* Where it is desired to procure and sell or use both specially denatured alcohol and specially denatured rum, separate applications for permits and separate bonds shall be filed and separate permits procured for the specially denatured alcohol and for the specially denatured rum. Separate records shall be kept and separate reports made for the specially denatured alcohol and for the specially denatured rum so received and sold or used.*

RECOVERY OF DENATURED ALCOHOL AND ARTICLES

§ 182.883 *Definition.* "Recover" or "recovery" as used herein shall mean the saving, reclaiming, or salvaging, and restoring (where necessary) of specially or completely denatured alcohol or articles containing denatured alcohol, after use in a manufacturing process, but shall not include completely denatured alcohol recovered with all of the original denaturants therein or articles recovered with all of their original ingredients.*

§ 182.884 *Specially denatured alcohol.* Manufacturers using specially denatured alcohol and desiring to recover the same for reuse, must specify such fact in their application on Form 1479 for a basic permit to use specially denatured alcohol, and in their bond on Form 1480, and must file Form 1479–A, and a drawing describing fully the recovery process and, if the recovered alcohol is to be redenatured, the method of redenaturation to be followed, as required by §§ 182.139 to 182.155, inclusive. No specially denatured alcohol may be recovered by the manufacturer prior to the approval of Form 1479–A by the Commissioner authorizing such recovery.* (Secs. 3073, 3114 (a), I.R.C.)

§ 182.885 *Completely denatured alcohol.* Manufacturers using completely denatured alcohol in manufacturing processes and desiring to recover the same for reuse, must file application on Form 1479 for basic permit so to do, and bond on Form 1480, and Form 1479–A, and a drawing describing fully the recovery process and, if the recovered alcohol is to be redenatured, the redenaturation process, in accordance with §§ 182.139 to 182.155, inclusive. Manufacturers may not so recover completely denatured alcohol prior to approval of Form 1479–A by the Commissioner and the issuance of a basic permit to them by the district supervisor.* (Secs. 3073, 3114 (a), I.R.C.)

§ 182.886 *Articles.* Manufacturers using in a manufacturing process a product containing denatured alcohol, defined as an "article" in Article IV of these regulations, and desiring to recover the same for reuse, must file application on Form 1479–A, describing fully the recovery process. If the product is recovered in other than the form of completely denatured alcohol in its original denatured state, the manufacturer must file application, Form 1479, and bond, Form 1480, and procure a basic permit covering the recovery of denatured alcohol, in accordance with §§ 182.139 to 182.155, inclusive. If the product is recovered in the form of specially denatured alcohol, or is redenatured and used in the form of specially denatured alcohol, the application, bond, and permit must also cover the use of specially denatured alcohol. Manufacturers may not so recover products containing denatured alcohol prior to approval of Form 1479–A by the Commissioner and issuance of the basic permit to them by the district supervisor.* (Secs. 3073, 3114 (a), I.R.C.)

§ 182.887 *Stills.* Stills used in the recovery of denatured alcohol or articles will be permitted on the manufacturer's premises, but all such stills must be registered as required by law and these regulations on Form 26, in triplicate, with the district supervisor pursuant to the procedure prescribed in §§ 182.134 and 182.432. Such stills must be connected by continuous pipes with the condensers and receiving tanks.* (Secs. 2810 (a), 3170, I.R.C., Supp.)

§ 182.888 *Deposit in receiving tanks.* Manufacturers recovering specially denatured alcohol or completely denatured alcohol, or articles in the form of denatured alcohol, must provide a locked receiving tank in accordance with § 182.100 (b) for receiving such recovered alcohol. All alcohol recovered shall be transferred to such tank. Where the reclaimed product is to be shipped to a denaturing plant for restoration and redenaturation (where necessary), the district supervisor may authorize its retention in drums, properly marked for identification. If the recovered product requires redenaturation, the receiving tank into which it is run shall be locked with a Government lock, and the recovered product shall be retained therein until it is redenatured or shipped to a denaturing plant for redenaturation.* (Sec. 3073, I.R.C.)

§ 182.889 *Gauge prior to removal.* All denatured alcohol recovered must be measured and recorded before being redenatured or reused.* (Sec. 3073, I.R.C.)

§ 182.890 *Recovered denatured alcohol and new denatured alcohol.* The permittee must keep recovered denatured alcohol and new denatured alcohol in separate storage containers, properly marked for identification.* (Sec. 3073, I.R.C.)

§ 182.891 *Redenaturation; when required.* If the denatured alcohol is recovered in its original denatured state, or practically so, or containing substantial quantities of the original denaturants and other ingredients which render it nonpotable, it may be reused in any approved process without further redenaturation. In such cases, the district supervisor will cause samples of the recovered product to be taken from time to time for the purpose of determining whether the product requires redenaturation. Where the denatured alcohol is not recovered in its original denatured state, or practically so, or does not contain substantial quantities of the original denaturants and other ingredients which render it nonpotable, it must be redenatured under the supervision of a Government officer at the manufacturer's premises or at a denaturing plant before being reused. Where denatured alcohol is recovered and reused one or more times during the month, the quantity used and recovered each time shall be recorded and the total quantity reported on Form 1482, as hereinafter provided.* (Sec. 3073, I.R.C.)

§ 182.892 *Application for redenaturation, Form 1483.* When recovered specially denatured alcohol or completely denatured alcohol, requiring redenaturation, is collected in sufficient quantities and the manufacturer desires to redenature the same on his premises, he shall file with the district supervisor application on Part I of Form 1483, in triplicate. There shall be stated in the application the name of the permittee, location, wine gallons, and apparent proof of the recovered alcohol and the name or names of articles in the manufacture of which the recovered alcohol was used. The formula number and the kind of denaturants (if alternate denaturants are authorized by the provisions of the Appendix to these regulations) by which the recovered alcohol is to be redenatured, shall be stated.* (Sec. 3073, I.R.C.)

§ 182.893 *Approved denaturants.* Where recovered alcohol is redenatured on the manufacturer's premises, he shall provide and keep in his storeroom or in locked tanks the necessary approved denaturants, and such denaturants, unless obtained in sealed packages from a duly qualified denaturing plant, must be tested and approved by an authorized chemist, as required by §§ 182.706 to 182.715.* (Sec. 3073, I.R.C.)

§ 182.894 *Redenaturation of recovered alcohol.* Upon approval of Form 1483 by the district supervisor, he shall detail an officer to supervise the redenaturation of the alcohol described in such notice. The officer detailed to supervise the redenaturation of the alcohol on the manufacturer's premises shall, after ascertaining the quantity and proof of the alcohol, see that the proper quantity of approved denaturants, according to the approved formula, are added and are thoroughly mixed with such alcohol. If the denaturants to be used in denaturing the alcohol have not been approved, samples of such products shall be submitted for analysis by the officer under whose supervision the recovered alcohol is to be redenatured to an authorized chemist, as provided in these

copy of the withdrawal permit as a per- | transporting the tax-free

regulations. Upon redenaturation of the recovered alcohol, the officer will execute his report thereof on each copy of Form 1483, deliver one copy of the form to the manufacturer, and send the other two copies to the district supervisor, who will forward one copy to the Commissioner with the manufacturer's monthly report on Form 1482.* (Sec. 3073, I.R.C.)

§ 182.895 *Shipment to denaturing plant.* Recovered denatured alcohol requiring restoration or redenaturation, or both, unless redenatured on the manufacturer's premises in accordance with § 182.894, shall be shipped to a denaturing plant for such purpose: *Provided*, That where the recovered alcohol is to be restored, the denaturing plant must be equipped with the necessary apparatus to restore the alcohol.

(a) *Marks on packages.* Packages of recovered denatured alcohol shipped to a denaturing plant for restoration or redenaturation must be numbered in serial order and have marked or stenciled thereon the name of the manufacturer, his permit number and address, and the quantity of alcohol contained therein, and the words "Recovered (specially) or (completely) denatured alcohol formula No. ——."

(b) *Notice, Form 1484.* The manufacturer, at the time of shipping recovered denatured alcohol to a denaturing plant, shall submit Form 1484, "Manufacturer's Notice of Shipment of Recovered Denatured Alcohol." The notice shall give all of the information called for by the form and shall be forwarded on the day of shipment to the storekeeper-gauger at the denaturing plant and to the district supervisor of the district in which the denaturing plant is located, as provided in subparagraphs (1) and (2).

(1) *Interdistrict shipments.* When shipment is made to a denaturing plant located in another supervisory district, the manufacturer will prepare Form 1484, in triplicate, and forward one copy to the storekeeper-gauger at the denaturing plant to which shipment is made and the remaining copies to the district supervisor of the district in which the denaturing plant is located. The district supervisor will check both copies of the form with the monthly report of the denaturer, execute his certificate of report of receipt on the form, and forward one copy of the form to the district supervisor of the manufacturer's district, who will check the form against the manufacturer's monthly report on Form 1482.

(2) *Intradistrict shipments.* When recovered alcohol is shipped to a denaturing plant located in the same district, the manufacturer will prepare Form 1484, in duplicate, and forward one copy to the storekeeper-gauger at the denaturing plant and the remaining copy to the district supervisor. The district supervisor will check the form with the monthly reports of the manufacturer and denaturer on Forms 1482 and 1468–F.

(c) *Record of shipment.* All denatured alcohol recovered for reuse on the manufacturer's premises and shipped to a denaturing plant for restoration or redenaturation shall be duly entered by the manufacturer on his monthly report, Form 1482.* (Secs. 3070, 3073, I.R.C.)

§ 182.896 *Records and reports.* Persons recovering denatured alcohol and articles pursuant to the provisions hereof must keep records and file reports monthly on Form 1482, as provided in §§ 182.873 and 182.874, properly modified if completely denatured alcohol or articles are recovered, showing the quantity received, used in manufacture, and the quantity, recovered and the disposition thereof.* (Secs. 3070, 3073, I.R.C.)

USE OF TAX-FREE ALCOHOL AND SPECIALLY DENATURED ALCOHOL BY THE UNITED STATES OR GOVERNMENTAL AGENCY

Tax-free Alcohol

§ 182.897 *Procurement of alcohol.* Alcohol may be withdrawn tax-free by the United States or any governmental agency thereof, upon filing of application and the issuance of permit therefor on Form 1444, in accordance with § 182.171. Upon issuance of permit, Form 1444, by the Commissioner to the United States or governmental agency thereof, the department, bureau, commission, or independent office or agency may procure alcohol free of tax in any quantity desired from the proprietor of the bonded warehouse named as vendor in such permit. The permit shall be forwarded to the vendor named therein by the department or agency to which the permit is issued. The vendor will enter thereon the number of proof gallons transferred to the permittee, date and sign the same, and return the permit to the consignee. Further like transfers may be made under such permit during the term thereof: *Provided*, That the permit may remain in the possession of the vendor until the expiration thereof or until it is recalled by the department or agency to which issued. When it is desired to secure alcohol from more than one bonded warehouse, such additional permit or permits as may be necessary may be obtained.* (Secs. 3108, 3114 (a), I.R.C.)

§ 182.898 *Receipt, Form 1453.* Receipts of shipments of alcohol withdrawn tax-free for use of the United States or governmental agency thereof shall be made on Part II of Form 1453, when received from the proprietor of the warehouse. The receipt of such shipment shall be promptly certified to on Form 1453 by the official representative of the United States or governmental agency thereof to whom deliveries of such shipments are made and will be forwarded to the district supervisor of the district in which the bonded warehouse is located. Such certificates of receipt shall disclose the quantity actually received in order that the same may be checked against the returns of the proprietor of the bonded warehouse making the shipment.* (Secs. 3108, 3114 (a), I.R.C.)

§ 182.899 *Use.* Tax-free alcohol withdrawn under the provisions of law and these regulations for use of the United States or governmental agency must be used solely for nonbeverage purposes.* (Secs. 3108, 3114 (a), I.R.C.)

§ 182.900 *Destruction of marks and brands.* When an original package of alcohol has been completely emptied all of the marks and brands required to be placed thereon by law and these regulations shall be completely effaced or obliterated by painting, scraping, or otherwise. (See §§ 182.533 to 182.536, inclusive.)* (Sec. 2866, I.R.C.)

§ 182.901 *Carrier's receipt.* The person or carrier transporting tax-free alcohol to any department or agency of the United States Government is required to procure a receipt from such department or agency, which receipt shall show the name and address of the consignor and consignee, the quantity of alcohol in the shipment, the date of delivery and the name of the person receiving the alcohol as agent for the consignee.*

Specially Denatured Alcohol

§ 182.902 *Procurement of specially denatured alcohol.* Specially denatured alcohol may be withdrawn by the United States or governmental agency thereof, upon filing of application and the issuance of permit therefor on Form 1486, in accordance with § 182.173. Upon issuance of permit on Part II of Form 1486, in accordance with the provisions of § 182.226 by the Commissioner, the permit shall be forwarded by the Government department, bureau, commission, or independent office or agency to the denaturer or bonded dealer from whom the specially denatured alcohol is to be obtained and will be the authority of such denaturer or bonded dealer to make shipment. The vendor shall enter the quantity and formula number shipped and sign the permit at the time shipment is made. After shipment has been made the permit shall be returned to the proper department or office for use in obtaining further supplies when necessary.* (Secs. 3108 (a), 3109, 3114 (a), I.R.C.)

§ 182.903 *Receipt, Form 1453–A.* Upon receipt of a shipment of specially denatured alcohol, the Government officer receiving the same shall execute certificate of receipt on Part II of Form 1453–A, received from the denaturer or bonded dealer, and will promptly forward the form to the district supervisor of the district in which the denaturing plant or bonded dealer is located, as specified at the bottom of the form.* (Secs. 3108 (a), 3109, 3114 (a), I.R.C.)

CARRIERS

§ 182.904 *Possession by unauthorized carriers.* The transportation of tax-free or specially denatured alcohol by a carrier not authorized by permit to transport the same is a violation of law and renders the alcohol subject to forfeiture.* (Secs. 3111, 3114 (a), I.R.C.)

§ 182.905. *Permits of consignees.* The carrier must receive a certified copy of the withdrawal permit, authorizing the procurement of the alcohol, from the consignee (with the exception of the United States and governmental agencies) before delivery may be made to the consignee. The permits referred to (Forms 1436, 1450, 1463, 1464, 1477, and 1485) must be certified by the district supervisor and delivered to the carrier or his agent at the place of destination.* (Secs. 3111, 3114 (a), I.R.C.)

§ 182.906 *Permits to be filed.* The carrier or his agent shall file the certified copy of the withdrawal permit as a permanent record, and the carrier will be authorized thereafter until the date of the expiration of such permit to deliver to the permit holder or his agent alcohol or specially denatured alcohol withdrawn thereunder.* (Secs. 3111, 3114 (a), I.R.C.)

§182.907. *Bill of lading.* The person making shipments of alcohol or denatured alcohol to any person holding one of the permits referred to in § 182.905 shall incorporate in his bill of lading a statement to the following effect:

The person to whom this shipment is consigned shall file with the agent of the delivering carrier at destination a certified copy of the withdrawal permit under which this shipment is made.

(a) *Written statement in lieu of bill of lading.* Where no bill of lading is issued as in the case of a local express company a written statement to the above effect signed by the shipper shall be delivered to the carrier.* (Secs. 3111, 3114 (a), I.R.C.)

§ 182.908 *Restricted use of containers*—(a) *Tank wagons or tank trucks.* Tank wagons or tank trucks are not authorized to be used for the transportation of alcohol or denatured alcohol and carriers shall not transport alcohol or denatured alcohol in such containers.

(b) *Railroad tank cars.* Shipment of alcohol or denatured alcohol by railroad tank cars may be made only when the premises of the consignor and consignee are equipped with satisfactory railroad siding facilities and the consignee is otherwise authorized to receive such shipment.* (Secs. 3111, 3114 (a), I.R.C.)

§ 182.909 *Delivery*—(a) *By shipper to carrier.* The consignor will be responsible for proper delivery of tax-free or specially denatured alcohol to a carrier holding a basic permit to transport.

(b) *By carrier to United States or governmental agency.* Where tax-free or specially denatured alcohol is shipped to any department, bureau, commission, or independent office or agency of the United States Government, the same may be delivered by the carrier transporting the alcohol or denatured alcohol without the necessity of receiving copy of permit to procure such alcohol.

(1) *Receipt required.* In such cases, however, the person transporting the tax-free or specially denatured alcohol shall procure a receipt from the consignee which receipt shall show the name and address of the consignor and the consignee, the quantity of alcohol or specially denatured alcohol in the shipment, the date of delivery and the name of the person receiving the alcohol as agent for the consignee.

(2) *Filing of receipt.* The receipt shall be filed by the carrier in the file or binder containing copies of withdrawal permits covering other deliveries of tax-free or specially denatured alcohol.* (Secs. 3111, 3114 (a), I.R.C.)

§ 182.910 *Delivery to agent of consignee.* Where the consignee is other than a natural person, a certain agent must be specially designated in writing to receive shipments of tax-free or specially denatured alcohol and the carrier transporting the tax-free or specially denatured alcohol must receive a copy of the document making the designation before delivery. Where the consignee is a natural person, the tax-free or specially denatured alcohol must be delivered to him personally, unless he furnishes the carrier with an affidavit to the effect that it is impracticable for him to receive the tax-free or specially denatured alcohol personally and designating some certain agent to receive the same for him, in which event, the carrier may deliver the tax-free or specially denatured alcohol to such agent. Such affidavits shall be filed in the same manner as receipts, in accordance with the provisions of § 182.909.* (Secs. 3111, 3114 (a), I.R.C.)

§ 182.911 *Inability to deliver.* When tax-free or specially denatured alcohol cannot for any reason be delivered by the carrier at the point of destination, the carrier shall return it to the original shipper in accordance with the regulations of the Interstate Commerce Commission, unless the district supervisor, upon application of the consignor, authorizes delivery of the alcohol to another permittee.

(a) *Notification.* When alcohol or denatured alcohol is so returned, the carrier shall notify the original shipper and shall forward a copy of the notification to the district supervisor of the district in which the original shipper is located with a statement of the facts.* (Secs. 3111, 3114 (a), I.R.C.)

§ 182.912 *Record book to be kept.* Each person holding a basic permit to transport tax-free and specially denatured alcohol is required to keep at the place of shipment a record in book form containing the following information covering each package of such alcohol received for transportation:

(1) Name and address of the consignor and consignee;

(2) Kind (tax-free or specially denatured) and quantity of alcohol contained in the packages; and

(3) Date of shipment.* (Sec. 3114 (a), I.R.C.)

§ 182.913 *Change in proprietorship, etc.* Where there is a change in the proprietorship, persons interested in the business, or change in the individual, firm, or corporate name, trade name or style of a carrier holding basic permit to transport tax-free or specially denatured alcohol, the carrier must comply with the provisions of §§ 182.650 to 182.652, inclusive.*

MANUFACTURE, TAX-PAYMENT, REMOVAL, AND REGISTRATION OF STILLS AND WORMS

§ 182.914 *General.* Whenever a person manufactures or reconstructs stills or worms, or sets up, sells, or removes stills or distilling apparatus, they must comply with the regulations governing the payment of special and commodity taxes, the securing of permits before setting up or removing stills and distilling apparatus, and the registration of stills and distilling apparatus set up (see Regulations 23 (26 CFR, Part 181)): *Provided*, That special and commodity taxes are not incurred on the manufacture or reconstruction of stills and worms at industrial alcohol plants.* (Sec. 3103, I.R.C.)

RULES FOR COMPUTING CAPACITY OF STILLS

§ 182.915 *Capacity of stills.* The estimated maximum spirit-producing capacity of stills will be computed according to the following rules:

(a) *Pot or kettle stills.* The working capacity of pot or kettle stills will be determined by multiplying 80 per cent of the cubic capacity of the still by the maximum number of boilings that can be made in 24 hours and then multiplying this result by the percent of alcohol by volume contained in the highest yielding material to be used in distillation. This result will represent the quantity of wine gallons of absolute alcohol that can be distilled in 24 hours. This quantity, when multiplied by 2, will represent the number of proof gallons. For example, if a pot still having a cubic capacity of 2,000 gallons is used, and such still can be charged three times in 8 hours, and the highest percentage of alcohol by volume in the distilling material to be used is 8 percent, the spirit-producing capacity of the still will be computed as follows: $2,000 \times 0.8 \times 9 \times 0.08 \times 2 = 2,304$ proof gallons. (The quantity that can be distilled in 24 hours.)

(b) *Charge chamber stills.* Where a charge chamber still is used, the estimated maximum quantity of distilled spirits in proof gallons capable of being produced will be determined by multiplying 80 percent of the cubic capacity of the top or charge chamber of the still by the number of times the same can be filled and emptied in 24 hours. This result will represent the total number of gallons of distilling material that can be distilled in 24 hours, which quantity will be multiplied by the percent of alcohol by volume contained in the highest yielding material to be used. The result of such computation will represent the number of wine gallons of absolute alcohol that can be distilled in 24 hours. This quantity, when multiplied by 2, will represent the number of proof gallons. For example, if a charge still is used having a charge chamber of a cubic capacity of 600 gallons which can be charged three times in 1 hour, and the highest percentage of alcohol by volume in the distilling material to be used is 8 percent, the spirit-producing capacity will be computed as follows: $600 \times 0.8 \times 3 \times 24 \times 0.08 \times 2 = 5,529.6$ proof gallons. (The quantity that can be distilled in 24 hours.)

(c) *Continuous stills.* If continuous stills are used, the maximum spirit-producing capacity in proof gallons of such stills will be computed on the area of the column in square feet. The first step will be to determine the inside diameter of the still at its base and the diameter will then be divided by 2 to ascertain the radius. The diameter may be determined (1) by accurately measuring the inside width of the still with a rod or tape, or (2) by measuring the outside circumference of the still and dividing the same by 3.1416 and deducting from

the quotient twice the thickness of the sides of the still. The radius (in feet) will be squared and then multiplied by 3.1416 (Pi) to ascertain the area of the column in square feet. The area in square feet will be multiplied by the factor, 40 (the number of gallons of 100 proof spirits that can be distilled in 1 hour per square foot of plate area), and the result will represent the total number of gallons of 100 proof spirits that can be distilled in 1 hour. This quantity will be multiplied by 24 to determine the number of gallons of 100 proof spirits that can be distilled in 1 day. For example, if a continuous still having a diameter of 4 feet is used, the spirit-producing capacity will be computed as follows: 2×2×3.1416×40×24=12,063.74 proof gallons. (The quantity that can be produced in 24 hours.)*

CONCERNING LOCKS AND SEALS

§ 182.916 *General.* Except as otherwise provided in these regulations, the Commissioner will furnish at the expense of the United States all Government locks and seals required to be used at industrial alcohol plants, bonded warehouses and denaturing plants. District supervisors will see that the industrial alcohol plants, bonded warehouses and denaturing plants in their respective districts are fully equipped with locks in good condition, and that the necessary seals are provided for seal locks. District supervisors will bear in mind that Government locks are required in the case of industrial alcohol plants upon all necessary openings in the distilling apparatus by which access may be had to alcohol in the process of manufacture from the first still in which the vapors rise until the finished alcohol is deposited in the receiving tanks; upon all doors in the wineroom and receiving room; and upon the control valves in pipe lines which convey steam or fuel to the stills or which convey alcohol to warehouse storage tanks or to tanks in the denaturing plant on the same premises. Government locks are also required on all doors of bonded warehouses and denaturing plants and upon control valves and pipe lines and openings to tanks located therein.*

§ 182.917 *Defective or broken locks.* When any Government lock becomes defective or broken, the storekeeper-gauger will return it to the district supervisor with a letter giving the kind and number. When the district supervisor has accumulated a sufficient number of such defective or broken locks, he will destroy the same and report the destruction thereof to the Commissioner.*

§ 182.918 *Seal locks.* Seal locks will be used on the entrance door of the receiving room and the entrance door of the temporary storage room therein (if any) of industrial alcohol plants; on the door of the Government cabinet; the entrance door of bonded warehouses and of denaturing plants; and on such other places where the use of seal locks is required by these regulations or deemed necessary by the district supervisor. Where alcohol is retained overnight in the industrial alcohol plant and an officer is not assigned to night duty at the industrial alcohol plant, seal locks will be used on manheads of tanks in which the alcohol is so retained and on any outlets of such tanks leading to the stills, unless the alcohol is retained in the wineroom and the entrance door of such room is secured with a seal lock.*

§ 182.919 *Plain locks.* Plain locks will be used at all other places in the industrial alcohol plant, bonded warehouse, or denaturing plant where locks are required by these regulations.*

§ 182.920 *Custody of keys.* The storekeeper-gauger will keep the keys to Government locks in use under his charge in his custody at all times, and will not permit them at any time to go into the possession of the proprietor or any other person except the district supervisor or another Government officer authorized to receive them.*

§ 182.921 *Use of seal lock.* The seal lock is constructed with a clasp attached thereto, with blind hinges at the bottom opening downward. This clasp covers an indentation in the face of the lock surrounding the keyhole for the insertion of the seal. When it is desired to seal-close the lock, a seal will be placed in the indentation made for its reception, and the seal clasp will then be shut and the hasp pushed downward into the lock, thereby locking the lock and seal clasp.*

§ 182.922 *Use of lock seals.* Lock seals are numbered consecutively and care will be taken to use them in the order in which they are numbered, beginning with the lowest number. In cases where locks are required to be opened several times during the day, the seal will not be inserted until the lock is closed for the night, unless the duties of the storekeeper-gauger having the lock in charge require him to leave the premises of the industrial alcohol plant, bonded warehouse or denaturing plant during the day. All seals must be so inserted that the serial number will be visible through the keyhole after the locks are fastened. Government officer will, before opening seal locks, see that the seal has not been broken or tampered with.*

§ 182.923 *Custody of locks.* Government locks when not required for use at plants will be retained in the possession of the district supervisor. Receipts will be taken by district supervisors from storekeeper-gaugers for all locks and seals issued to them. Storekeeper-gaugers are strictly prohibited from intrusting locks, keys, or seals in their charge to any person other than an internal revenue officer entitled to receive them, and under no circumstances will they permit locks to remain open, whether hanging by the shackle or otherwise.*

§ 182.924 *Cap seals.* All unions, flanges, and other pipe connections in the equipment in an industrial alcohol plant, bonded warehouse, or denaturing plant not secured by welding or brazing or similar methods, must be securely connected and sealed with seals approved by the Commissioner. A special type of seal, serially numbered, has been approved for use in sealing unions, flanges, and other detachable pipe connections. This seal has, for the purpose of identification, been designated a "Cap" seal.*

§ 182.925 *Affixing cap seals.* Cap seals must be affixed in such a manner as to prevent disconnection of the equipment without detection. No. 16 gauge copper wire will be used in applying these seals, unless the use of a different gauge of such wire is authorized by the Commissioner. The seals must be used in serial order, beginning with the lowest number. When applied initially, they will follow in consecutive order the flow of the spirits.*

§ 182.926 *Custody of cap seals.* Cap seals furnished storekeeper-gaugers for use at industrial alcohol plants, bonded warehouses, or denaturing plants, must be kept in the Government cabinet.*

§ 182.927 *Breaking of sealed connections forbidden.* Sealed connections must not be broken by the proprietor for any reason, except in cases of emergency and then only after notifying the storekeeper-gauger in charge or the district supervisor. Where the proprietor desires to make changes in the equipment involving the breaking of a sealed connection, he will follow the procedure prescribed in § 182.271.*

§ 182.928 *Removal of cap seals.* Except as provided in § 182.927, cap seals which have been affixed may be removed only by a storekeeper-gauger or some other officer designated for the purpose by the district supervisor. All removed seals will be forwarded to the district supervisor with a statement giving the number thereof, the reason for removal, the place from which removed, the serial number of the seal used for replacement, and the date the new seal was applied. When a sufficient number of such removed cap seals has been accumulated, the district supervisor will cause them to be destroyed. The person designated to destroy the seals will render to the district supervisor a report of their destruction.*

§ 182.929 *Storekeeper-gauger's record of cap seals.* Storekeeper-gaugers will keep a record of cap seals in a blank-book supplied by the Bureau for that purpose. When cap seals are received, the storekeeper-gauger will enter in the record book the date of receipt, the number received, and the serial numbers thereof. When the seals are used the serial number of each, date of use, description of the place sealed, and the name or initials of the storekeeper-gauger applying the same will be entered in appropriate columns of such record. When seals are removed, as provided in § 182.932, entries will be made in the record book showing the serial number of each, the reason for removal, the place from which removed, the serial number of the seal used for replacement, and the date the new seal was applied. The record book will be kept in the Government cabinet when not in use.*

§ 182.930 *Storekeeper-gauger's report of locks and seals.* Storekeeper-gaugers will render to district supervisors a monthly report of all locks and seals in their charge on Form 289, "Storekeeper-Gaugers' Report of Government Property."*

§ 182.931 *District supervisor's report of locks and seals.* District supervisors will be held accountable for the Government locks and seals, including cap seals, supplied upon their respective requisitions, and for those received from their predecessors in office. Outgoing district supervisors will take receipts from their successors in office for the Government locks then in use and on hand in the district. District supervisors will keep an account of locks and seals, and will make return thereof quarterly to the Commissioner on Form 152, "Return of Locks, Seals, and Gauging Instruments."*

§ 182.932 Requisition for lock seals. Lock seals will be furnished by the Commissioner in sheets of 54 seals each, upon requisition by the district supervisor. Requisitions should be made for the number of seals sufficient to meet the needs of the district for six months.*

DUTIES OF STOREKEEPER-GAUGERS AT INDUSTRIAL ALCOHOL PLANTS, BONDED WAREHOUSES, AND DENATURING PLANTS

§ 182.933 *General.* Storekeeper-gaugers assigned to duty at industrial alcohol plants, bonded warehouses, and denaturing plants must follow closely the provisions of the Manual of Instructions for U. S. Storekeeper-Gaugers—1940, in the performance of their duties at such establishments. Such officers are charged with the complete supervision of the plant and warehouse and all operations thereat, including production, denaturation, and removal, to the end that the Government will be secured in all revenue from the alcohol and that there will be no unlawful diversion of the alcohol. When the officer finds that the recorded gauge of any container of alcohol or the stamps affixed to the container do not correctly describe the contents of such container, he shall detain the container and report the facts at once in writing to the district supervisor.*

§ 182.934 *Memoranda records.* Storekeeper-gaugers assigned to industrial alcohol plants, bonded warehouses, and denaturing plants will keep such memoranda records of the gauging, denaturation, transfer, withdrawal, etc., of alcohol and denatured alcohol, as will enable them to determine the correctness of all daily reports delivered to them by the proprietor in accordance with these regulations. They will also keep such memoranda records of the proprietor's inventory of alcohol, denatured alcohol, and denaturants on hand at the close of the month, as will enable them to determine that the quantities of such materials reported on hand last of month in the proprietor's monthly reports are correct. Storekeeper-gaugers assigned to denaturing plants will also keep such memoranda records as will enable them to determine that the quantities of denaturants received and shipped out; the shipments of completely denatured alcohol; the quantities of recovered alcohol restored and the losses in restoration, are all correctly reported in the proprietor's monthly reports.*

§ 182.935 *Verification of gauge.* Storekeeper-gaugers must verify the gauge (proof, weight, and gallonage) of all alcohol gauged at industrial alcohol plants, bonded warehouses, and denaturing plants, and shall determine from the memoranda records kept by them that all reports of gauge, Form 1440, are correct.

(a) *Reading of proof of alcohol.* If the proof of any alcohol as determined by the officer does not agree with that found by the proprietor and the proprietor is unwilling to accept the officer's reading, the officer shall detain the alcohol and carefully take two 1-quart samples, and label and seal the same. He shall immediately send one sample, properly identified, to the Bureau field laboratory, and retain the other one, pending receipt of the chemist's report. The chemist will determine the proof of the alcohol.*

§ 182.936 *Denaturation of alcohol.* Storekeeper-gaugers must know that the proper kinds and quantities of denaturants, as specified in the prescribed formula, are used in each lot of alcohol denatured and that the same are thoroughly admixed with the alcohol. The storekeeper-gauger shall determine from his memoranda records that the daily reports, Form 1466, are correct.*

§ 182.937 *Verification of monthly inventory.* Storekeeper-gaugers shall verify the properitor's monthly inventory of ethyl alcohol, specially denatured alcohol, completely denatured alcohol, and denaturants remaining on hand at the end of the month.*

§ 182.938 *Receipt of reports.* Storekeeper-gaugers assigned to industrial alcohol plants, bonded warehouses, and denaturing plants shall stamp on each report or form the time when the report or form was delivered to them by the proprietor for forwarding to the district supervisor or others. Stamps for this purpose will be furnished by the Commissioner.*

§ 182.939 *Verification of daily reports.* Storekeeper-gaugers shall verify from their memoranda records the correctness of all daily reports delivered to them by the proprietor.*

§ 182.940 *Monthly reports.* Upon receiving the proprietor's monthly reports the storekeeper-gauger will examine the same to determine whether the reports are complete in every respect and whether the quantities of ethyl alcohol, specially denatured alcohol, completely denatured alcohol, and denaturants shown on hand last of month, and the quantities of denaturants shown received and shipped, are correct. Storekeeper-gaugers are not required to verify the other entries in such monthly reports.*

§ 182.941 *Initialing of reports.* Storekeeper-gaugers will initial all daily reports after determining that such reports are complete and correct, and will initial monthly reports after determining that such reports are complete, and that the quantities of ethyl alcohol, specially denatured alcohol, completely denatured alcohol, and denaturants shown on hand last of month are correct. The storekeeper-gauger will indicate his title by writing the letters "U. S. S. G." immediately below his initials.*

§ 182.942 *Inspection of proprietor's records and files.* Storekeeper-gaugers will inspect from time to time the proprietor's records and files, prescribed by these regulations, for the purpose of determining that the records are kept current and that the files are maintained in such a manner as to permit ready examination thereof by Government officers.*

OFFICER'S RIGHT OF ENTRY AND EXAMINATION

§ 182.943 *Authority to enter and inspect.* Internal revenue officers have authority under the law to inspect at any reasonable hour the records, liquors, and premises of permittees to determine that all provisions of the internal revenue laws and the regulations promulgated thereunder are being complied with. Officers desiring to make inspections will identify themselves by exhibiting their credentials. Any denial of or interference with such inspection by the permittee, his agents or employees, is a violation of law and will be reported as such for appropriate action.* (Sec. 3601, I.R.C.)

§ 182.944 *Authority to break up grounds or walls.* Under the law, any internal revenue officer and any persons acting in his aid may break up the ground on any part of an industrial alcohol plant or premises of the proprietor thereof, or any ground adjoining or near any such industrial alcohol plant or premises, or any wall or partition thereof or belonging therto, or other place, to search for any pipe, cock, private conveyance, or utensil, and upon finding any pipe or conveyance leading from or to such premises to break up any ground, house, wall or other place through or into which such pipe or conveyance leads, and to break or cut away such pipe or conveyance. Before taking action under this section of law, the investigating officer should consult with his superior officer or the district supervisor, unless the circumstances are such as to require immediate action.* (Sec. 2830, I.R.C.)

§ 182.945 *Proprietor to furnish assistance.* Under the law, on demand of any internal revenue officer, every proprietor of an industrial alcohol plant shall furnish convenient ladders to enable the officer to examine any vessel or utensil in his industrial alcohol plant, and shall furnish all assistance, lights, tools, or other things necessary for inspecting the premises and apparatus, and shall open all doors, boxes, packages, and all casks, barrels, and other vessels not under the control of the Government officer in charge thereof.* (Sec. 2828, I.R.C.)

INSTRUCTIONS TO INSPECTING OFFICERS

§ 182.946 *Officers to keep themselves informed.* Inspectors must inform themselves fully of the limitations and requirements of the internal revenue laws and regulations. They should familiarize themselves with the theory and practice of fermentation and distillation, the making of such simple chemical determinations as are requisite for a check of the yield of industrial alcohol plants,

the proper use of the instruments required for gauging and testing alcohol, the records that all permittees are required to keep, and the reports they are required to render.*

§ 182.947 *Frequency of inspections.* District supervisors will cause the premises of pefmittees to be inspected at irregular and unexpected intervals in accordance with the prevailing inspection policy as determined by the Commissioner from time to time.*

§ 182.948 *Scope of inspection.* The scope of the inspection will likewise be in accordance with the prevailing inspection policy as determined by the Commissioner from time to time. It is not intended that all of the following provisions respecting points to be covered shall necessarily apply in the case of each inspection. Such provisions are set forth for the guidance of inspectors when within the scope of the inspection required by their assignments.*

§ 182.949 *Observation of storekeeper-gaugers.* Inspectors will, in the course of their inspection, observe the storekeeper-gaugers on duty (if any are assigned to the premises), to determine whether they are fully informed as to their official duties and are properly performing the same.*

§ 182.950 *Examination of records.* The inspectors will see that the records of the permittee and the storekeeper-gauger (if any are assigned to the premises) are properly kept, but will not audit such records or take an inventory unless conditions indicate the necessity for a complete inspection. When a record is checked, the inspector will note such fact on the margin thereof, with the date of checking and his initials, so that other officers on subsequent visits need not verify the record for the period covered by such inspection.*

§ 182.951 *Examination of distilling equipment.* The inspectors will ascertain whether the distilling equipment in industrial alcohol plants conforms to the plans and will trace the equipment, including pipe lines, to determine whether the flow of alcohol is continuous and whether the alcohol is properly protected against diversion by adequate sealing and locking of the equipment. The inspectors will require correction of any unsafe condition discovered.*

§ 182.952 *Materials.* The inspectors should inquire into the kind of distilling material used, the method of determining the alcoholic content thereof, and any abnormal differences between the actual yield and the calculated yield of spirits therefrom.*

§ 182.953 *Storage of alcohol.* The means of storing the alcohol and denatured alcohol and the security thereof should be ascertained by inspectors. Where alcohol or denatured alcohol is stored in storage tanks, the officers should ascertain the contents of the tanks and compare the same with the quantity carried in the records as on hand in the tanks. Any deficiency found should be thoroughly inquired into at the time. The permittee should be called upon for an explanation of the shortage, unless the inspectors deem it advisable to inquire further into the matter before advising him of their discovery of the shortage.*

§ 182.954 *Additional inquiries.* The inspectors will make such further inquiries as may be necessary to determine whether the mode of operation followed by the permittee, particularly in respect to the receipt, storage, and use of distilling material, the distilling process employed, the taking of samples, if any, the transfer of alcohol to the receiving tanks and from such tanks to storage tanks in the bonded warehouse, the transfer of alcohol by pipe line to the denaturing plant, if any, on the premises, the proofing of alcohol prior to drawing off, the filling, weighing, and marking of packages and the transfer of packages, etc., is in conformity with the intendment of the law and these regulations, and is without jeopardy to the revenue.*

§ 182.955 *Inspection reports.* Inspectors will promptly render reports of their inspection to district supervisors. They will call the attention of the permittee and of the storekeeper-gauger, if any, to any condition or mode of operation which is unsatisfactory or irregular, and will describe fully the unsatisfactory or irregular condition or mode of operation in their reports and state what steps have been taken or ought to be taken to remedy the same. Any unusual conditions discovered in the course of inspection should be noted by the inspectors and covered fully in their reports. Any cases of illegal removal of alcohol or denatured alcohol or other unlawful acts coming to the knowledge of inspectors should be immediately reported to the district supervisor.*

GENERAL INSTRUCTIONS TO GOVERNMENT OFFICERS

§ 182.956 *Officers not to be interested in business.* Under the provisions of law and departmental order, no officer or employee in departmental or field services of the Bureau of Internal Revenue shall directly or indirectly have any interest, whether as owner or part owner, stockholder, or otherwise, in any business the whole or any substantial part of which consists in the production, sale, or distribution commercially of distilled spirits, wine, or fermented malt liquor, nor shall any such officer or employee directly or indirectly, with or without compensation, engage in any such business or have any connection whether as partner, officer, director, employee, agent, attorney, or in any other capacity with any person, firm, or corporation engaged in any such business.* (Sec. 4047 (b), I.R.C.; sec. 161, R.S. (5 U.S.C. 22))

§ 182.957 *Authority of officers and employees.* The Commissioner, his assistants, agents, inspectors, and other officers and employees, whose duty it is to enforce criminal laws, have all the rights, privileges, powers, and protection which are conferred by law for the enforcement of any laws in respect to taxation, importation, exportation, transportation, manufacture, possession, or use of, or traffic in intoxicating liquors.* (Sec. 3121 (a), I.R.C.)

§ 182.958 *Inspection of records and premises.* All records and reports kept and filed under the provisions of these regulations and all liquor or property to which such records or reports relate and all vehicles passing in or out of any permit premises shall be subject to inspection at any reasonable hour by any official or officer of the Bureau of Internal Revenue.* (Secs. 3121(c), 3601, I.R.C.)

§ 182.959 *Samples may be taken by officers.* Any internal revenue officer may take samples of denatured alcohol or of products manufactured with denatured alcohol, whether at the place of manufacture or on trucks or other conveyances leaving the place of manufacture, or the ingredients used in compounding products manufactured with denatured alcohol.*

§ 182.960 *Seizure of empty packages.* Any empty alcohol package from which the marks, brands, or stamps required by law and these regulations have not been effaced or obliterated is declared to be forfeited and any internal revenue officer should seize the same wherever found.* (Sec. 2866, I.R.C.)

§ 182.961 *Information not to be disclosed.* Storekeeper-gaugers, inspectors, and all other officers and employees of the Bureau must exercise special care to see that no person, except as authorized by law and departmental regulations, is permitted to have access to, inspect, or in any manner become cognizant of the contents of any official record, application, letter, or other document, or of any business of the Bureau. No person connected with the Bureau shall divulge or make known in any way to any person, other than as authorized by law and departmental regulation, any information, coming to his knowledge in the discharge of his official duties, concerning the operations and business of any permittee or any other person, or any information relative to any case, application, record, formula, sample, or other document in the Bureau.* (Sec. 4047(a), I.R.C.; sec. 161, R.S. (5 U.S.C. 22))

DISTRICT SUPERVISOR'S RECORDS AND REPORTS

§ 182.962 *Record of basic permits; Forms 1411 and 1411–A.* District supervisors shall keep a current card index record on Forms 1411 and 1411–A of all persons to whom basic permits have been issued or who have filed application therefor, as provided in § 182.227 (a). Any permittee shall be entitled to inspect Form 1411 covering the other permittees to whom he is authorized to sell, or from whom he is authorized to purchase, alcohol or specially denatured alcohol. District supervisors shall, therefore, as far as possible without interference with their office work, not only allow such inspections to be made, but also permit names and addresses to be copied from such cards.*

§ 182.963 *Receipt of reports.* District supervisors shall stamp on each report or form the time of receipt of the reports or forms by them from Government officers and permittees in accordance with the provisions of these regulations. Stamps for this purpose will be furnished by the Commissioner.*

§ 182.964 *Form 1487.* Each district supervisor will render a monthly account on Form 1487 of transactions at industrial alcohol bonded warehouses for each State within his district. The required data will be obtained from the monthly warehouse reports, Forms 1443–A and 1443–B, of proprietors after the reports have been audited. Data reported on Forms 1488 for industrial alcohol plants not having a bonded warehouse shall be included on Form 1487. The entries will be made as indicated by the headings of the columns and lines and in accordance with the instructions printed on the form. Where the district supervisor authorizes the return of alcohol withdrawn tax-free to a bonded warehouse, Form 1487 should show the return as a separate item. Any loss of such returned alcohol should be reflected in entries on the Form 1487. Form 1487 will be prepared, in duplicate, and one copy, with the supporting copies of Forms 1443–A and 1443–B, and Form 1488 (if any), will be forwarded to the Commissioner not later than the last day of the month succeeding that for which rendered. The remaining copy will be retained by the district supervisor.* (Secs. 3170, 3953, I.R.C.)

§ 182.965 *Form 1503–A.* District supervisors shall keep a Form 1503–A for each dealer in specially denatured alcohol and each user of specially denatured alcohol. The record shall be kept current and show the name, address, basic permit number, and the names of the persons authorized to sign for the permittee, and the penal sum of the bond. The withdrawal allowance in wine gallons and the formula numbers, and a withdrawal record shall be maintained on the Form 1503–A.*

§ 182.966 *Form 1489.* Each district supervisor will render a monthly statement on Form 1489, in duplicate, of transactions in denatured alcohol for each State within his district. The required data will be obtained from the monthly reports of proprietors of denaturing plants, and dealers in and users of specially denatured alcohol, after the reports have been audited. The entries will be made as indicated by the headings of the columns and lines and in accordance with the instructions printed on the form. The district supervisor will retain one copy and forward one copy with the supporting copies of Forms 1468–A, B, C, D, E, and F, 1478 and 1482, to the Commissioner not later than the last day of the month succeeding that for which rendered.*

IMPORTATION OF ALCOHOL AND DENATURED ALCOHOL AND PRODUCTS CONTAINING ALCOHOL OR DENATURED ALCOHOL

§ 182.967 *Alcohol.* Alcohol imported into this country from any foreign country is subject to tax.* (Sec. 2800 (a), I.R.C., Sup., as amended by sec. 533, Act of Sept. 20, 1941 (Public law 250, 77th Cong.))

§ 182.968 *Denatured alcohol.* Denatured alcohol imported into this country from any foreign country is subject to the distilled spirits tax for the reason that such denatured alcohol is not produced and withdrawn in accordance with sections 3070 to 3124, I.R.C., and these regulations.* (Sec. 2800 (a), I.R.C., Sup., as amended by sec. 533, Act of Sept. 20, 1941 (Public law 250, 77th Cong.))

§ 182.969 *Products containing alcohol or denatured alcohol.* Products containing alcohol or denatured alcohol imported into this country from any foreign country are subject to the distilled spirits tax if they are fit for beverage use. If such products (except imported perfumes) are unfit for beverage use, they are not subject to tax. Imported perfumes containing alcohol or denatured alcohol are subject to the tax imposed by section 2800 (a) (3), I.R.C., Sup., as amended by sec. 533, Act of Sept. 20, 1941 (Public law 250, 77th Cong.). Such imported perfumes must be unfit for beverage use.* (Sec. 2800 (a) (1), (3), I.R.C., Sup., as amended by sec. 533, Act of Sept. 20, 1941 (Public law 250, 77th Cong.))

ALCOHOL, DENATURED ALCOHOL, AND PRODUCTS CONTAINING ALCOHOL OR DENATURED ALCOHOL COMING INTO THE UNITED STATES FROM THE PHILIPPINE ISLANDS

§ 182.970 *Alcohol.* Alcohol coming into this country from the Philippine Islands is subject to tax.* (Sec. 3340, I.R.C.)

§ 182.971 *Denatured alcohol.* Denatured alcohol coming into this country from the Philippine Islands is subject to the distilled spirits tax for the reason that such denatured alcohol is not produced and withdrawn in accordance with sections 3070 to 3124, I.R.C., and these regulations.* (Sec. 3340, I.R.C.)

§ 182.972 *Products containing alcohol or denatured alcohol.* Products containing alcohol or denatured alcohol coming into this country from the Philippine Islands are subject to the distilled spirits tax on the alcohol contained therein, whether fit or unfit for beverage use. If fit for beverage use, such products are also subject to rectification tax.* (Sec. 3340, I.R.C.)

ALCOHOL, DENATURED ALCOHOL, AND PRODUCTS CONTAINING ALCOHOL OR DENATURED ALCOHOL COMING INTO THE UNITED STATES FROM PUERTO RICO

§ 182.973 *Alcohol.* Except as provided in paragraph (a), alcohol coming into this country from Puerto Rico is subject to tax.

(a) *Tax-free.* Alcohol produced and withdrawn in accordance with sections 3100 to 3124, I.R.C., and these regulations in this part, may be shipped free of tax, pursuant to proper withdrawal permits, from Puerto Rico to bonded warehouses, denaturing plants, customs bonded manufacturing warehouses, and persons holding permit to use tax-free alcohol, in this country, in accordance with the procedure prescribed in these regulations.* (Secs. 3123, 3360, I.R.C.)

§ 182.974 *Denatured alcohol.* Denatured alcohol produced and withdrawn in accordance with sections 3100 to 3124, I.R.C., and these regulations, may be shipped free of tax from Puerto Rico to this country and sold and used, in accordance with the procedure prescribed in these regulations. Specially denatured alcohol may be so shipped only pursuant to proper withdrawal permits.* (Secs. 3123, 3360, I.R.C.)

§ 182.975 *Products containing alcohol.* Products containing alcohol coming into this country from Puerto Rico are subject to the distilled spirits tax on the alcohol contained therein, whether fit or unfit for beverage use. If fit for beverage use, such products are also subject to rectification tax.* (Sec. 3360, I.R.C.)

§ 182.976 *Products containing denatured alcohol.* Products containing denatured alcohol not produced, withdrawn, and used in accordance with these regulations, coming into this country from Puerto Rico, are subject to the distilled spirits tax on the alcohol contained therein, regardless of whether they are fit or unfit for beverage use. If fit for beverage use, such products are also subject to rectification tax. Products containing denatured alcohol produced, withdrawn, and used in accordance with these regulations, coming into this country from Puerto Rico, are not subject to tax.* (Secs. 3123, 3360, I.R.C.)

§ 182.977 *Samples and analysis.* Whenever completely denatured alcohol, which has been produced and denatured under these regulations, or proprietary solvents, lacquer thinners, proprietary anti-freeze solutions, and toilet preparations, which have been manufactured under an approved formula with alcohol produced and denatured under these regulations, are shipped from Puerto Rico to the United States in containers larger than 5 wine gallons, the shipper shall notify the chemist in charge in Puerto Rico, who will have representative samples taken from each shipment for examination. Such samples must definitely represent the products which are to be shipped. It will not be necessary to sample every container, as samples taken at random from large shipments will be considered as representative of the entire lot. The samples will be examined promptly by the chemist in the Puerto Rican laboratory, who will forward a copy of his chemical report to the district supervisor of the district where the port of arrival is located. The report will show whether the product conforms to authorized formulas for completely denatured alcohol, or to the formulas on approved Form 1479–A for such products, and must contain sufficient data to definitely identify the particular shipment involved.* (Secs. 3123, 3360, I.R.C.)

§ 182.978 *Action by district supervisor.* Upon receipt of the chemical report, the district supervisor will examine the same and if the report discloses that the product conforms to approved formula, he will promptly advise the collector of customs at the port of arrival that the shipment may be released free of tax. In the event the chemical report discloses that the product does not conform to an approved formula, the district supervisor will request the collector of customs to

detain the product and will forward a copy of the chemical report to the Commissioner of Internal Revenue for advice as to the disposition of the product.* (Secs. 3123, 3360, I.R.C.)

§ 182.979 *Certificate.* Every person shipping into the United States from Puerto Rico (1) alcohol produced and withdrawn in accordance with sections 3100 to 3124, I. R. C., and these regulations, free of tax, pursuant to § 182.974 (a); (2) denatured alcohol produced and denatured in accordance with sections 3100 to 3124, I. R. C., and these regulations; and (3) products containing such denatured alcohol, shall certify, in the English language, to such fact on the face of the shipper's waybill. Where the product is made pursuant to approved Form 1479–A, the shipper shall also certify as follows:

Made with _____ denatured alcohol,
(completely or specially)
alcohol, Formula No. _____, pursuant to Form 1479–A, approved _____, 19____.

* (Secs. 3123, 3360, I.R.C.)

§ 182.980 *Marking containers.* In addition to the data required by these regulations to be marked on packages of products containing denatured alcohol, the name, address, and permit number of the manufacturer shall appear on each shipping container of such products shipped from Puerto Rico to the United States free of tax.*

§ 182.981 *Arrival in the United States.* When alcohol, denatured alcohol, and products containing denatured alcohol coming into this country from Puerto Rico, are covered by shipper's documents bearing the manufacturer's certificate prescribed in § 182.979, the collector of customs will inspect and verify the consignment. If no discrepancies are found, the products may be released free of tax: *Provided*, That in the case of products examined by the chemist in charge in Puerto Rico in accordance with § 182.977, release shall be withheld until advice is received from the district supervisor that the shipment may be released free of tax, as provided in § 182.978.*

ALCOHOL, DENATURED ALCOHOL, AND PRODUCTS CONTAINING ALCOHOL OR DENATURED ALCOHOL COMING INTO THE UNITED STATES FROM THE VIRGIN ISLANDS

§ 182.982 *Alcohol.* Except as provided in paragraph (a), alcohol coming into this country from the Virgin Islands is subject to tax.

(a) *Tax-free.* Alcohol produced and withdrawn in accordance with sections 3100 to 3124, I.R.C., and these regulations or regulations issued or adopted by the Governor of the Virgin Islands, or his duly authorized agents, may be shipped free of tax, pursuant to proper withdrawal permit, from the Virgin Islands to bonded warehouses, denaturing plants, customs bonded manufacturing warehouses, and persons holding permit to use tax-free alcohol, in this country, in accordance with the procedure prescribed in these regulations, if the alcohol and the packages containing the same conform to these regulations.* (Secs. 3123, 3350, I.R.C.)

§ 182.983 *Denatured alcohol.* Denatured alcohol produced and withdrawn in accordance with sections 3100 to 3124, I.R.C., and these regulations or regulations issued or adopted by the Governor of the Virgin Islands, or his duly authorized agents, may be shipped free of tax from the Virgin Islands to this country and sold and used in accordance with the procedure prescribed in these regulations, if the denatured alcohol conforms to the formulas for denatured alcohol prescribed by these regulations and the packages containing the same likewise conform to these regulations. Specially denatured alcohol may be so shipped only pursuant to proper withdrawal permit.* (Secs. 3123, 3350, I.R.C.)

§ 182.984 *Products containing alcohol.* Products containing alcohol coming into this country from the Virgin Islands are subject to the distilled spirits tax on the alcohol contained therein, whether fit or unfit for beverage use. If fit for beverage use, such products are also subject to rectification tax.* (Sec. 3350, I.R.C.)

§ 182.985 *Products containing denatured alcohol.* Products containing denatured alcohol not produced, withdrawn, and used in accordance with sections 3100 to 3124, I.R.C., and these regulations or regulations issued or adopted by the Governor of the Virgin Islands, or his duly authorized agents, coming into this country from the Virgin Islands, are subject to the distilled spirits tax on the alcohol contained therein, regardless of whether they are fit or unfit for beverage use. If fit for beverage use, such products are also subject to rectification tax. Products containing denatured alcohol produced, withdrawn, and used in accordance with sections 3100 to 3124, I.R.C., and these regulations or regulations issued or adopted by the Governor of the Virgin Islands, or his duly authorized agents, coming into this country from the Virgin Islands, are not subject to tax, if the products are sold in accordance with these regulations and, in the case of products manufactured with specially denatured alcohol and antifreeze preparations made with completely denatured alcohol, are manufactured in accordance with Form 1479–A approved by the Commissioner: *Provided*, That such products may be shipped in bulk containers to this country to persons authorized by these regulations or by the district supervisor to receive such products in bulk, but such persons, if other than actual users, shall package or bottle the products in containers conforming to these regulations prior to sale: *Provided further*, That if the person authorized by the district supervisor to receive such products in bulk from the Virgin Islands is a distributor, the district supervisor may authorize such distributor to sell the products in bulk to persons authorized by these regulations, or by him pursuant to these regulations, to receive the products in bulk, but such persons, except actual users, shall package or bottle the products in accordance with these regulations prior to sale. Form 1479–A, setting forth quantitative formulas for such products, shall be submitted to the Commissioner in accordance with § 182.147. The kinds and quantities of denaturants used to denature the alcohol shall also be specified on Form 1479–A.* (Secs. 3123, 3350, I.R.C.)

§ 182.986 *Certificate.* Every person shipping into the United States from the Virgin Islands (1) alcohol produced and withdrawn in accordance with sections 3100 to 3124, I.R.C., and these regulations or regulations issued or adopted by the Governor of the Virgin Islands, or his duly authorized agents, free of tax, pursuant to § 182.982 (a); (2) denatured alcohol produced and denatured in accordance with sections 3100 to 3124, I.R.C., and these regulations or regulations issued or adopted by the Governor of the Virgin Islands, or his duly authorized agents; and (3) products containing such denatured alcohol, shall certify, in the English language, to such fact on the face of the shipper's waybill. Where the product is made pursuant to approved Form 1479–A, the shipper shall also certify as follows:

Made with _____ denatured alcohol,
(completely or specially
Formula No._____, pursuant to Form 1479–A, approved _____, 19____

* (Secs. 3123, 3350, I.R.C.)

§ 182.987 *Marking containers.* In addition to the data required by these regulations to be marked on packages of alcohol, denatured alcohol, and products containing denatured alcohol, the name, address, and permit number of the manufacturer shall appear on each shipping container of such alcohol, denatured alcohol, and products shipped from the Virgin Islands to the United States free of tax.*

§ 182.988 *Arrival in the United States.* When alcohol, denatured alcohol, and products containing denatured alcohol, coming into this country from the Virgin Islands, are covered by shipper's documents bearing the manufacturer's certificate prescribed in § 182.986, the collector of customs will inspect and verify the consignment. If no discrepancies are found, the products may be released free of tax.*

GUY T. HELVERING,
Commissioner of Internal Revenue.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. 1703–FD]

IN THE MATTER OF BENCHLEY & VERMILLION COAL COMPANY, DEFENDANT

ORDER APPROVING AND ADOPTING THE PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW, AND RECOMMENDATIONS OF THE EXAMINER AND REVOKING AND CANCELLING CODE MEMBERSHIP

This proceeding was instituted upon a complaint filed with the Bituminous Coal Division ("Division") on June 11, 1941, and an amended complaint filed on August 25, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), by Bituminous Coal Producers Board for District No. 4 ("District Board 4"), alleging that Benchley & Vermillion Coal Company, a partnership, a code member in District 4, defendant, had wilfully violated the Bituminous Coal Code (the "Code") or rules and regulations thereunder by selling for shipment by truck during January and February, 1941, inclusive, approximately 4,732 tons of 2" nut and slack coal produced at its Benchley & Vermillion Mine (Mine Index No. 1629) and Seaman Mine (Mine Index No. 2825), in District 4; and approximately 833 tons of ¾" slack coal produced at its Browning Mine (Mine Index No. 1320), in District 4, and delivered the same by truck at prices lower than the effective minimum f. o. b. mine prices for such coal, and praying that the Division either cancel and revoke the defendant's code membership or, in its discretion, direct the defendant to cease and desist from violations of the Code and rules and regulations thereunder.

A hearing was held before W. A. Cuff, a duly designated Examiner of the Division at a hearing room thereof, in Canton, Ohio, on October 2, 1941.

The Examiner made and entered his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations in this matter dated February 3, 1942, in which he found that the defendant had wilfully violated the Act, and the Code, by selling for shipment by truck and delivering during the period from January 7 to February 28, 1941, inclusive, 3,568.278 net tons of 2" nut and slack coal at prices below the applicable effective minimum price plus the actual cost of transportation. The Examiner recommended that the defendant's code membership be revoked and cancelled.

An opportunity was afforded to all interested persons to file exceptions to the Examiner's Report, and supporting briefs. The defendant has filed exceptions to the Examiner's Report, Proposed Findings of Fact and Proposed Conclusions of Law, and has filed a supporting brief. No exception is taken to the Examiner's findings with respect to the tonnages sold by the defendant and the prices received therefor. Exception is, however, taken to (1) the propriety of the proceeding; (2) the exercise of jurisdiction over the defendant; (3) the acceptance of certain evidence over the objection of the defendant; and (4) the sufficiency of the evidence to support the finding with regard to the costs of trucking the coal.

1. *The Propriety of the Proceeding*

The defendant excepted to the procedure of the Examiner in permitting counsel for the Division, in the absence of complainant, to appear in the hearing and adduce evidence with respect to the transactions alleged in the complaint, over the objection of the defendant. The record shows that the complaint and the amended complaint were made and filed by District Board 4. Due notice of the time and place of hearing was given to District Board 4, the complainant, and to all persons interested. The hearing was duly convened and held at the time and place set forth in such notice. The complainant failed to appear at the hearing either by counsel or other representative and failed to take action in the premises authorized or required by the Act. Thereupon, an attorney representing the Office of the General Counsel for the Division proceeded to develop the facts concerning the violation charged.

The defendant urged that the Division has no power under the Act to initiate or prosecute a complaint against a code member. It is unnecessary to pass upon that contention for the reason that in this proceeding the Division has not assumed or exercised such power.

As I have said in connection with a similar exception made In the Matter of Edwin R. Eberhart, Docket No. 1780–FD, "A complaint of violation having been properly filed pursuant to the provisions of the Act, a hearing was duly called for the purpose of developing all the relevant facts pertaining to the alleged violation. To the end of securing a comprehensive record embodying those facts it is the function and, indeed, the responsibility of the representative of the General Counsel's Office to develop those facts both by direct and cross-examination of witnesses to insure that an adequate record is made upon the basis of which the Acting Director can determine whether or not the alleged violations were committed. The action of the representative of the Office of the General Counsel in this case accords with that responsibility. Charged as it is with the responsibility of administering the Bituminous Coal Act, the obligation of the Division to determine the facts upon the filing of a complaint of violation is beyond dispute." [1]

[1] That this is so is emphasized by section 4 II (k) of the Act which reads as follows: "In the investigation of any complaint or violation of the Code, or of any rule or regulation the observance of which is required under the terms thereof, the Commission shall have power by order to require such reports from, and shall be given access to inspect the books and records of, code members to the extent deemed necessary for the purpose of determining the complaint. * * *"

2. *Jurisdiction Over the Defendant*

In the second exception the defendant contended that the Examiner's Proposed Findings of Fact, Conclusions of Law and Recommendations should be set aside and the complaint dismissed for the reason that defendant is not engaged in interstate commerce and, therefore, it is not subject to the Act.

This contention has been considered in substantially similar circumstances, and adjudicated against the defendant.[2] With respect to the Order of the National Bituminous Coal Commission (Docket No. 18–FD) that substantially all coal produced in the State of Ohio affects interstate commerce, entered by the Commission on November 11, 1937, it is urged in the brief that defendant's code membership became effective subsequent to the entry of such order. Defendant is in error as to the fact stated by it. Exhibit 4, a photostatic copy of the defendant's application for code membership, discloses that the application was executed on June 25, 1937, and became effective as of that date. However, without regard to the date of an acceptance of the Code, one who accepts membership in the Code voluntarily subjects himself to all applicable orders and rules and regulations promulgated under the Act whether or not they were issued prior or subsequent to the date of its code acceptance.

The alleged intrastate character of the defendant's transactions may not be urged in this proceeding. Defendant did not file any exceptions to the order entered in Docket No. 18–FD. To permit the defendant to raise that question in this proceeding would be to allow an order of the National Bituminous Coal Commission (later adopted by the Division) to be collaterally attacked. As the Acting Director stated in the Eberhart case, *supra*, this is not permissible.

The Act provides (section 4–A) a specific method by which producers may have adjudicated the issue of whether their transactions in bituminous coal are not in interstate commerce and do not directly affect interstate commerce. Defendant here has not availed itself of this method. He cannot now be heard to complain.

3. *The Admissibility of Certain Evidence*

Documentary evidence, Exhibits 7, 8, 9, 10, 11 and 12 was introduced in evidence over the objection of the defendant. In the brief it is urged that this evidence should not have been received for the reason that the underlying data supporting these exhibits were not introduced in evidence. The answer to this contention is two-fold. While the underlying data were not formally introduced in evidence the record discloses clearly that such underlying data were physically present at the hearing and were tendered to and made available to the defendant for use in the cross-examination upon such exhibits. Moreover, the Examiner tendered additional time

[2] Cf. the Order of the Acting Director dated February 18, 1942, in the matter of Edwin R. Eberhart, defendant, Docket No. 1780–FD.

to defendant's counsel to examine such data, if desired. In the second place much of the data contained in these exhibits were not used by the Examiner and as to such date no Findings of Fact appear to be based thereon. Some of the data, however, appeared to be the basis for the findings of the Examiner. As to this data the defendant urged that they were not taken from defendant's files and records and that the defendant did not have fair opportunity to cross-examine upon such data. An examination of the record discloses that such data as were used by the Examiner as the basis for his Findings of Fact, drawn from such exhibits, particularly Exhibit 7, were drawn directly from the defendant's files, books and records. The facts used by the Examiner as the basis of his Report taken from these exhibits appear to be the tonnages and the delivered prices together with the prices paid for the truck transportation. These data all appear from defendant's records introduced in evidence either in documentary form or testified to orally by witness Benchley, one of the partners. The contention of the defendant in this respect is therefore without basis in fact.

4. *The Sufficiency of the Evidence*

The defendant excepted to the Findings of Fact and Conclusions of Law and Recommendations of the Examiner on the ground that the same were not supported by the evidence. Part of the coal in question was transported in trucks hired by the defendant. As to such coal in the brief it is conceded and the evidence shows that the defendant did not add the actual transportation and that the selling price, therefore, was below the effective minimum price. The remaining part of the coal was transported in trucks owned by the defendant and it is with respect to this tonnage that the exception is taken that the evidence does not support the findings. The effective minimum f. o. b. mine price applicable to the coals in question is $1.90 per net ton. The delivered price was $2.30 per net ton, leaving 40 cents per net ton as the amount of truck transportation added to the minimum f. o. b. mine price. The Examiner found that the actual cost of such transportation was far in excess of the amount charged by the defendant. I have carefully considered the evidence in this proceeding and find and conclude that the evidence sufficiently sustains the findings of the Examiner.

Accordingly, I find that the exceptions of the defendant to the Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations of the Examiner are not well taken and should be denied.

The undersigned having determined after a consideration of the record and the defendant's exceptions, that the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations of the Examiner should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

It is, therefore, ordered, That the exceptions of the defendant to the Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations of the Examiner be and the same hereby are denied.

It is further ordered, That the Proposed Findings of Fact and the Proposed Conclusions of Law of the Examiner be and the same are hereby approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That pursuant to section 5 (b) of the Act the code membership of the defendant, Benchley & Vermillion Coal Company, be and it is hereby revoked and cancelled, effective fifteen (15) days from and after the date of this Order.

It is further ordered, That prior to any reinstatement of the defendant to membership in the Code, the defendant shall pay to the United States a tax in the amount of $2,644.09, as provided in section 5 (c) of the Bituminous Coal Act of 1937.

Dated: March 9, 1942.

DEPARTMENT OF LABOR.

Wage and Hour Division.

NOTICE OF ISSUANCE OF SPECIAL CERTIFICATES FOR THE EMPLOYMENT OF LEARNERS UNDER THE FAIR LABOR STANDARDS ACT OF 1938

Notice is hereby given that Special Certificates authorizing the employment of learners at hourly wages lower than the minimum rate applicable under section 6 of the Act are issued under section 14 thereof and § 522.5 (b) of the Regulations issued thereunder (August 16, 1940, 5 F.R. 2862) to the employers listed below effective March 11, 1942.

The employment of learners under these Certificates is limited to the terms and conditions as designated opposite the employer's name. These Certificates are issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The Certificates may be cancelled in the manner provided for in the Regulations and as indicated on the Certificate. Any person aggrieved by the issuance of these Certificates may seek a review or reconsideration thereof.

NAME AND ADDRESS OF FIRM, PRODUCT, NUMBER OF LEARNERS, LEARNING PERIOD, LEARNER WAGE, LEARNER OCCUPATIONS, EXPIRATION DATE

I. Lewis Cigar Manufacturing Company, Morgan Street, Selma, Alabama; Cigar manufacturing; 320 hours for any one learner; 270 learners; 75% of the applicable minimum wage; Cigar machine operator, Packer; May 20, 1942. (This certificate replaces one which expires May 16, 1942.)

Signed at New York, N. Y., this 10th day of March 1942.

MERLE D. VINCENT,
Authorized Representative of the Administrator.

FEDERAL REGISTER

VOLUME 7 NUMBER 50

Washington, Friday, March 13, 1942

The President

EXECUTIVE ORDER

ESTABLISHING THE OFFICE OF ALIEN PROPERTY CUSTODIAN AND DEFINING ITS FUNCTIONS AND DUTIES

By virtue of the authority vested in me by the Constitution, by the Trading with the Enemy Act of October 6, 1917, as amended, by the First War Powers Act, 1941, and as President of the United States, it is hereby ordered as follows:

1. There is hereby established in the Office for Emergency Management of the Executive Office of the President the Office of Alien Property Custodian, at the head of which shall be an Alien Property Custodian appointed by the President. The Alien Property Custodian shall receive compensation at such rate as the President shall approve and in addition shall be entitled to actual and necessary transportation, subsistence, and other expenses incidental to the performance of his duties. Within the limitation of such funds as may be made available for that purpose, the Alien Property Custodian may appoint assistants and other personnel and delegate to them such functions as he may deem necessary to carry out the provisions of this Order.

2. All power and authority conferred on the President by Sections 3 (a) and 5 (b) of the Trading with the Enemy Act of October 6, 1917, as amended, and by Sections 301 and 302 of Title III of the First War Powers Act, 1941, approved December 18, 1941, except such powers and authority as were delegated to the Secretary of the Treasury by Executive Orders issued prior to February 12, 1942, and to the Board of Governors of the Federal Reserve System by Executive Order No. 8843[1] of August 9, 1941 (which powers and authority shall continue to be vested in and exercised by the Secretary of the Treasury and the Board of Governors respectively), are hereby delegated to and vested in the Alien Property Custodian. The memorandum of February 12, 1942,[2] delegating to the Secretary of the Treasury certain powers and authority under said sections, is hereby revoked and canceled. Any and all action heretofore taken by the Board of Governors of the Federal Reserve System after February 11, 1942, in pursuance of Executive Order No. 8843 of August 9, 1941, is hereby confirmed and ratified. In the exercise of the authority herein delegated, the Alien Property Custodian shall be subject to the provisions of Executive Order No. 8839[1] of July 30, 1941, and shall designate a representative to the Board of Economic Warfare in accordance with section 6 thereof.

3. Any property, or interest therein, of any foreign country or a national thereof shall vest in the Alien Property Custodian whenever the Alien Property Custodian shall so direct; and, in the case of any property, or interest therein, subject to the control of the Secretary of the Treasury, when the Alien Property Custodian shall notify the Secretary of the Treasury in writing that he has so directed, the Secretary of the Treasury shall release all control of any such property, or interest therein, to the Alien Property Custodian.

4. Any outstanding order, proclamation, regulation, ruling, license, or instruction issued pursuant to, or relating to the administration of, any power or authority vested in the Alien Property Custodian by this Order shall remain in effect unless and until amended or revoked by the Alien Property Custodian.

EXECUTIVE ORDER

ABOLISHING THE BOARD OF SURVEYS AND MAPS AND AUTHORIZING THE DIRECTOR OF THE BUREAU OF THE BUDGET TO PERFORM ITS FUNCTIONS

By virtue of the authority vested in me as President of the United States, and in order to further coordinate and promote the improvement of the surveying and mapping activities of the Government, it is hereby ordered as follows:

1. The Federal Board of Surveys and Maps, established by Executive Order No. 3206 of December 30, 1919, is hereby abolished.

2. The Director of the Bureau of the Budget is authorized and directed to perform the functions heretofore performed by the said Board, and such other functions as may be necessary to carry out the purposes of this order.

3. The Director of the Bureau of the Budget is authorized and directed to call upon the heads of the several departments and independent establishments to furnish, through such representatives as they may designate for the purpose, such information as may be required by the Director in carrying out the provisions of this order.

TITLE 18—CONSERVATION OF POWER

CHAPTER I—FEDERAL POWER COMMISSION

SUBCHAPTER A—RULES OF PRACTICE AND REGULATIONS, FEDERAL POWER ACT

[Order No. 92]

PART 1—ADMINISTRATION

MARCH 6, 1942.

The Commission, acting pursuant to authority vested in it by the Federal Power Act, particularly sections 308 and 309 thereof, and finding such action appropriate and necessary for carrying out the purposes of the said Act, hereby adopts, promulgates and prescribes the following amendment to the "Rules of Practice and Regulations with Approved Forms, Effective June 1, 1938" (under the Federal Power Act), as heretofore prescribed by Order No. 50, adopted April 19, 1938:

Add §§ 1.156 and 1.157 to read as follows:

§ 1.156 *Prepared expert testimony.* (a) With the approval of the presiding officer, an expert witness may be permitted to offer as his testimony on direct examination (either by reading it into the record or by offering it for inclusion in the transcript without reading as may appear to be the more desirable depending upon its nature and extent) his own relevant and material statements of fact and expressions of opinion within his special field, in written form, provided that copies of such prepared testimony shall have been served upon the Chief Trial Examiner, the General Counsel of the Commission and the parties to the proceeding or their counsel at least five (5) days in advance of the initial session of the hearing. Such prepared testimony shall be subject to the same rules of admissibility, and to cross-examination in all respects the same, as if such testimony were offered in the usual way. Pertinent objections to such testimony or to any part of it may be made and prosecuted by means of motions to strike.

(b) Whenever in the circumstances of a particular case it is deemed necessary or desirable, the Commission or its hearing officers designated to preside, may direct that expert testimony to be given on direct examination shall be reduced to writing and be served and offered in the manner described and authorized in paragraph (a) of this section; *Provided*, A reasonable period of time shall be allowed for the preparation of such written testimony.

§ 1.157 *Limiting number of expert witnesses.* The Commission reserves the right for itself and its hearing officers designated to preside, to limit appropriately the number of expert witnesses that may be heard upon any issue.

The amendment to the "Rules and Practice and Regulations with Approved Forms, Effective June 1, 1938" (under the Federal Power Act) adopted, promulgated and prescribed by this order, shall become effective on April 1, 1942; and the Secretary of the Commission shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 42-2122; Filed, March 12, 1942; 9:35 a. m.]

SUBCHAPTER B—PROVISIONAL RULES OF PRACTICE AND REGULATIONS, NATURAL GAS ACT

[Order No. 93]

PART 50—ADMINISTRATION

MARCH 6, 1942.

The Commission, acting pursuant to authority vested in it by the Natural Gas Act, particularly Sections 15 and 16 thereof, and finding such action appropriate and necessary for carrying out the purposes of the said Act, hereby adopts, promulgates and prescribes the following amendment to the "Provisional Rules of Practice and Regulations under the Natural Gas Act, Effective July 11, 1938," as heretofore prescribed by Order No. 52, adopted July 5, 1938;

Add §§ 50.65a and 50.65b to read as follows:

§ 50.65a *Prepared expert testimony.* (a) With the approval of the presiding officer, an expert witness may be permitted to offer as his testimony on direct examination (either by reading it into the record or by offering it for inclusion in the transcript without reading as may appear to be the more desirable depending upon its nature and extent) his own relevant and material statements of fact and expressions of opinion within his special field, in written form: *Provided*, That copies of such prepared testimony shall have been served upon the Chief Trial Examiner, the General Counsel of the Commission and the parties to the proceeding or their counsel at least five (5) days in advance of the initial session of the hearing. Such prepared testimony shall be subject to the same rules of admissibility, and to cross-examination in all respects the same, as if such testimony were offered in the usual way. Pertinent objections to such testimony or to any part of it may be made and prosecuted by means of motions to strike.

(b) Whenever in the circumstances of a particular case it is deemed necessary or desirable, the Commission or its hearing officers designated to preside, may direct that expert testimony to be given on direct examination shall be reduced to writing and be served and offered in the manner described and authorized in paragraph (a) of this section; provided, a reasonable period of time shall be allowed for the preparation of such written testimony.

§ 50.65b *Limiting number of expert witnesses.* The Commission reserves the right for itself and its hearing officers designated to preside, to limit appropriately the number of expert witnesses that may be heard upon any issue.

The amendment to the "Provisional Rules of Practice and Regulations under the Natural Gas Act" adopted, promulgated and prescribed by this order shall become effective on April 1, 1942; and the Secretary of the Commission shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 42-2123; Filed, March 12, 1942; 9:35 a. m.]

TITLE 19—CUSTOMS DUTIES

CHAPTER I—BUREAU OF CUSTOMS

[T.D. 50580]

PART 27—REGULATIONS UNDER TRADING WITH THE ENEMY ACT

COMMUNICATIONS OUTSIDE THE MAILS

Amendment to Regulations Under Sec. 3 (c) of the Trading With the Enemy Act, Approved October 6, 1917, and Section XI of the Executive Order Dated October 12, 1917

FEBRUARY 11, 1942.

T.D. 50525 (6 F.R. 6404; 19 CFR, Part 27), dated December 11, 1941, as amended by T.D. 50529 (6 F.R. 6453), dated December 15, 1941, and T.D. 50559 (7 F.R. 616), dated January 26, 1942, is hereby further amended by inserting "Thailand," after "Rumania," in the phrase "Japan, Italy, and Germany and allies thereof, including Bulgaria, Rumania, and Hungary" wherever said phrase appears. (Sec. 3 (c), 40 Stat. 412; secs. XI, XIII, E.O. 2729-A, Oct. 12, 1917)

[SEAL] HERBERT E. GASTON,
Acting Secretary of the Treasury.

[F. R. Doc. 42-2139; Filed, March 12, 1942; 11:41 a. m.]

TITLE 30—MINERAL RESOURCES

CHAPTER III—BITUMINOUS COAL DIVISION

[Docket No. A-1149, Part II]

PART 321—MINIMUM PRICE SCHEDULE, DISTRICT NO. 1

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION, AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF AN ADDITIONAL SHIPPING POINT FOR THE COALS OF ALBERT STRIPPING MINE AND POTOMAC NOS. 4 AND 6 MINE, MINE INDEX NOS. 1006 AND 397, RESPECTIVELY, FOR THE ESTABLISHMENT OF TWO SHIPPING POINTS FOR THE COALS OF CUSHNER NO. 1 MINE, MINE INDEX NO. 3159, AND FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE MIXING OF THE COALS OF CHICKASAW, MOHICAN, CADOGAN NOS. 1 AND 2 MINES, MINE INDEX NOS. 93, 329, 76 AND 976, RESPECTIVELY, AND OF THE COALS OF CHERRY RUN NOS. 1, 2, 3A, AND 4 MINES, MINE INDEX NOS. 88, 668, 3189, AND 3187, RESPECTIVELY

This proceeding was instituted initially (Docket No. A-1149) upon a petition filed with the Bituminous Coal Division on November 6, 1941, by District Board 1, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment of temporary and permanent price classifications and minimum prices for the coals and/or for the mixtures of coals, not theretofore classified and priced, of certain mines in District 1, including the Cadogan Nos. 1 and 2, Chickasaw, and Mohican Mines (Mine Index Nos. 76, 976, 93, and 329, respectively) of the Allegheny River Mining Company and the Cherry Run Nos. 1 and 4 Mines (Mine Index Nos. 88 and 3187, respectively) of the Cherry Run Coal Mining Company (A. A. Groe).[1]

On November 17, 1941, F.R. 6534, the Director issued an Order in Docket No. A-1149 granting temporary relief and conditionally providing for permanent relief with respect to price classifications and minimum prices for the coals produced at various mines, including the Cherry Run No. 4 Mine.

On November 17, 1941, F.R. 6280, the Director also issued an Order severing from Docket No. A-1149 and designating as Docket No. A-1149, Part II, that portion of the docket relating to the establishment of price classifications and minimum prices for the mixture of coals produced at the Cadogan Nos. 1 and 2, Chickasaw, and Mohican Mines, and for the mixture of the coals produced at the Cherry Run Nos. 1 and 4 Mines.[2] A petition of intervention was filed by District Board 2.

Pursuant to Order of the Director, a hearing in this matter was held on December 19, 1941, before William A. Shipman, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The petitioner and District Board 2 appeared. At the conclusion of the hearing the parties waived the preparation and filing of a report by the Examiner, and the record in the proceeding was thereupon submitted to the undersigned. The only witness who appeared testified on behalf of the petitioner.

The Cadogan Nos. 1 and 2, Chickasaw, and Mohican Mines (Mine Index Nos. 76, 976, 93, and 329, respectively) are owned and operated by the Allegheny River Mining Company. The evidence shows that the coals produced at these mines are similar in general characteristics. All these coals have identical price classifications, namely H in Size Groups 1 to 3, inclusive, and J in Size Groups 4 and 5. The same classifications are proposed by the petitioner for a mixture of the coals of these four mines for shipment other than by truck.

Evidence was adduced that the cleaning process at the Cadogan Mines has not been substantially changed since the coals of those mines were classified and priced. The evidence shows that the Chickasaw Mine was closed from the spring of 1938 to September 1941. The production of the Chickasaw Mine is small but is expected to increase when a process of rehabilitation is completed. The present quality of the coal produced there is, according to the evidence, difficult to determine. Testimony was given that, when those coals were classified, the Chickasaw Mine had cleaning facilities in use but that these had to be abandoned when the mine was reopened. The Mohican Mine had no cleaning facilities when its coals were classified. Evidence was presented that these coals were difficult to clean well, especially over air tables in use at the Cadogan Mines. Moreover, mechanical loading equipment has been installed at the Mohican Mine since the coals produced there were classified and priced, with a resultant degrading of the quality of the coal. The evidence shows that, since the coals of all these mines were classified and priced, the percentage of mechanical loading at all four mines has substantially increased and is continuing to increase, and that the mechanically loaded coals almost necessarily must be mechanically cleaned. Evidence was adduced to the effect that, after being mechanically cleaned, the mechanically loaded coals are merely restored to the quality they had before being loaded. The witness for the petitioner testified that the coals of these mines had not changed substantially since they were classified and priced.

The daily production at these mines ranges, according to the evidence, from approximately 1,700 tons at the Mohican Mine to approximately 350 tons at the Chickasaw Mine. However, it appears that regardless of what percentage of these respective coals comprises the mixture, mixing would not improve the quality of the coals beyond the quality thereof as originally classified.

At the Cadogan No. 1 Mine there is a cleaning plant, representing an investment estimated at $250,000, with a capacity sufficient for cleaning the entire output of all four mines. The purpose of the requested relief is stated to be to permit sending the coals produced at the four mines through this preparation plant, the mixing being merely the practical result of so doing because of the difficulty and expense of keeping the coals of the different mines separate in the plant. Use of this common plant, according to the evidence, would be economical and would eliminate either the construction of separate plants at the other mines, at a time when it is difficult to get the necessary equipment, the abandonment of the mechanical loading equipment at those mines, or the shutting down of the Chickasaw and Mohican Mines.

Evidence was adduced that these mines have been treated as being separate only because the terrain in the area necessitated having openings somewhat widely separated. The Chickasaw Mine is 15 or 16 miles and the Mohican Mine 5 or 6 miles distant from the Cadogan No. 1 Mine. The Chickasaw and Mohican Mines are so located that coals can be loaded directly from their tipples into the cars of the Pittsburg and Shawmut Railroad and moved to the Cadogan cleaning plant on a service charge of $2.00 per car for shipments subsequently moved out and not sold locally. The Cadogan No. 2 Mine is located immediately above the Cadogan No. 1 Mine, and the coals produced at the former, according to the evidence, would be moved by truck the ½ to ¼ of a mile to the cleaning plant. All four mines have the same freight rates.

Upon the basis of the uncontroverted evidence, I find and conclude that the Schedule of Effective Minimum Prices for District No. 1 for All Shipments Except Truck should be amended by adding thereto a note providing that, if coals of the Cadogan Nos. 1 and 2, Chickasaw, and Mohican Mines are loaded into the same car, the minimum price that shall apply to such mixture shall be the price which is applicable to the coal in the mixture having the highest price classification.

The Cherry Run Nos. 1 and 4 Mines (Mine Index Nos. 88 and 3187, respectively) of the Cherry Run Coal Mining Company (A. A. Groe) have identical price classifications in all size groups, namely D.

The relief herein requested as to the Cherry Run Mines is the establishment of the price classification D in Size Groups 1 to 5, inclusive, for a mixture of the coals of the Cherry Run Nos. 1 and 4 Mines for shipments other than by truck. The Cherry Run No. 4 coals would be loaded over the tipple at the Cherry Run No. 1 Mine. Evidence was adduced that these two mines are located on adjacent properties and "for all practical purposes may be considered as one coal."

Upon the basis of the uncontroverted evidence, I find and conclude that the Schedule of Effective Minimum Prices for District No. 1 for All Shipments Except Truck should be amended by adding thereto a note providing that, if coals of the Cherry Run Nos. 1 and 4 Mines are loaded into the same car, the minimum price that shall apply to such mixture shall be the price which is applicable to the coal in the mixture which has the higher price classification.

I find that the foregoing amendments to the District 1 price schedule are required in order to effectuate the purposes of sections 4 II (a) and 4 II (b) of the Act and to comply in all respects with the standards thereof.

Now, therefore, it is ordered, That, commencing fifteen (15) days from the date of this Order, § 321.7 (*Alphabetical list of code members*) in the Schedule of Effective Minimum Prices for District No. 1 for All Shipments Except Truck be, and it hereby is, amended by appending thereto a note reading as follows:

NOTE: If coals within either of the following groups are loaded into the same car, the minimum price that shall apply to such mixture shall be the price which is listed for the coal in the mixture which has the highest price classification:

Mine Index Nos. 76, 93, 329, and 976 of the Allegheny River Mining Company; Mine Index Nos. 88 and 3187 of the Cherry Run Coal Mining Company (A. A. Groe).

It is further ordered, That the temporary relief granted on November 17, 1941, in the Order severing this docket from Docket No. A-1149 be, and it hereby is, terminated.

It is further ordered, That the prayers for relief contained in the petition are granted to the extent set forth above and in all other respects denied.

Dated: March 7, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2125; Filed, March 12, 1942; 10:45 a. m.]

[Docket No. A-1323]

PART 321—MINIMUM PRICE SCHEDULE, DISTRICT NO. 1

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 1, FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 1

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 1; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 321.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 321.24 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: March 4, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

TEMPORARY AND CONDITIONALLY FINAL EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 1

NOTE: The material contained in these supplements is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 321, Minimum Price Schedule for District No. 1 and supplements thereto.

[2] That portion of Docket No. A-1149 relating to the mixing of the coals of Cherry Run Nos. 2 and 3A Mines (Mine Index Nos. 668 and 3189, respectively) with those of Cherry Run Nos. 1 and 4 Mines, the establishment of an additional shipping point for the coals of both the Albert Stripping Mine and the Potomac Nos. 4 and 6 Mines (Mine Index Nos. 1006 and 397, respectively), and the establishment of price classifications and minimum prices for all shipments except truck and of two shipping points for the coals of the Cushner No. 1 Mine (Mine Index No. 3159), also severed from Docket No. A-1149 and incorporated in Docket No. A-1149, Part II, was stricken from the petition, upon the request of the petitioner, at the instant hearing. Temporary relief for the Cushner No. 1 Mine was granted in the Order severing Docket No. A-1149, Part II.

TITLE 32—NATIONAL DEFENSE

CHAPTER III—BUREAU OF MINES

PART 301—CONTROL OF EXPLOSIVES AND THEIR INGREDIENTS IN TIME OF WAR OR NATIONAL EMERGENCY

Pursuant to the authority conferred by section 18 of the act of December 26, 1941 (Public Law 381, 77th Cong.), § 301.7 (f) of the regulations under the Federal Explosives Act heretofore promulgated (7 F.R. 305 and 1103) is hereby amended to read as follows:

§ 301.7 *Applications for licenses, forms.*

* * * * *

(f) *Applications of associations, corporations, etc.* Applications of corporations, associations, or other legal entities which operate through a board of directors, trustees, or similar officers, shall show the following:

The name, address, and nationality of all officers, directors, trustees, or persons exercising similar functions.

The name, address, nationality, and the extent of interest in the voting stock or other beneficial voting holdings of the stockholders or members, beginning with the holder of the largest voting interest, and continuing in the order of the amount of the respective diminishing voting holdings, until not less than 51 percent of all voting stock or other beneficial voting holding is shown: *Provided*, That not more than ten need be listed. If those listed do not hold 51 percent or more of the stock or other beneficial voting holdings, then the application must be supported by the affidavit of the applicant, which may be stated on belief and the best information available, stating the nationality of the majority of the stockholders or members. The nationality of any corporation or organization listed in the application as a stockholder or member shall be given as the place of incorporation or organization.

In any case where a corporation owns more than 50 percent of the stock of the applicant, the applicant must also list the name, address, and nationality of the officers and directors of that corporation.

In the case of organizations such as cooperatives, the individual voting interests in which are equal in amount, no list of stockholders or members need be included in the application, but the application shall contain a statement of the nationality of the majority of the stockholders or members. If the nationality is not definitely known by reason of the number of stockholders or members, the statement may be based upon information and belief.

R. R. SAYERS,
Director.

Approved: March 12, 1942.

W. C. MENDENHALL,
Acting Assistant Secretary.

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 1010—SUSPENSION ORDERS

Suspension Order No. S-16—National Parts Corporation

National Parts Corporation of Chicago, Illinois, is a manufacturer of automobile replacement grilles. It is a fabricator of cast aluminum and is subject to the provisions of Supplementary Order M-1-c. During the period from June 11, 1941, to December 6, 1941, the Company accepted deliveries of 67,347 pounds of aluminum scrap for melting and other processing, despite the fact that no preference ratings had been assigned to these deliveries nor had they been specifically authorized by the Director of Priorities. During the period from June 11, 1941, to December 6, 1941, the Company delivered 68,143 pounds of aluminum scrap to the Atlas Brass and Aluminum Foundry, Chicago, Illinois, pursuant to an unauthorized toll agreement. The shipments for nondefense purposes were made without the assignment of preference ratings and without authority for their delivery having been requested or granted. During the period from June through December, 1941, the Company accepted deliveries of aluminum radiator grilles, containing approximately 35,552 pounds of aluminum, from the Atlas Brass and Aluminum Foundry, Chicago, Illinois. These shipments were accepted, with knowledge that the products were obtained by melting and processing aluminum scrap, delivered to the processor without the assignment of preference ratings and without authority for the delivery of the aluminum scrap having been requested or granted.

These violations of Supplementary Order M-1-c have resulted in the diversion of aluminum scrap into uses unauthorized by the Director of Priorities. In view of the foregoing facts,

It is hereby ordered:

§ 1010.16 *Suspension Order S-16.* (a) During the period in which this Order shall be in effect, National Parts Corporation of Chicago, Illinois, its successors and assigns, shall accept no deliveries from any source of primary aluminum, secondary aluminum, aluminum scrap or alloys of which aluminum constitutes the major part, except as specifically authorized by the Director of Industry Operations.

(b) During the period in which this Order shall be in effect, National Parts Corporation of Chicago, Illinois, its successors and assigns, shall not process any primary aluminum, secondary aluminum, aluminum scrap or alloys of which aluminum constitutes the major part, except as specifically authorized by the Director of Industry Operations.

(c) During the period in which this Order shall be in effect, National Parts Corporation of Chicago, Illinois, its successors and assigns, shall make no deliveries of primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes a major part or aluminum products, except as specifically authorized by the Director of Industry Operations.

(d) During the period in which this Order shall be in effect, National Parts Corporation of Chicago, Illinois, its successors and assigns, shall accept no purchase orders and enter into no contracts or commitments for delivery by it of primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes the major part, or aluminum products except as specifically authorized by the Director of Industry Operations.

(e) During the period in which this order shall be in effect, no person shall deliver to, nor receive from, National Parts Corporation of Chicago, Illinois, its successors and assigns, any primary aluminum, secondary aluminum, aluminum scrap, alloy of which aluminum constitutes the major part, or aluminum products, the delivery or receipt of which is prohibited by this Order, except as specifically authorized by the Director of Industry Operations.

(f) This Order shall take effect immediately, and, unless sooner terminated by the Director of Industry Operations, shall expire at midnight on the 12th day of May 1942. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 12th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2142; Filed, March 12, 1942; 11:57 a. m.]

PART 1010—SUSPENSION ORDERS

Suspension Order No. S-17—Atlas Brass and Aluminum Foundry

Atlas Brass and Aluminum Foundry of Chicago, Illinois, is a manufacturer of aluminum and brass castings. It is engaged in all operations necessary to such manufacture, including the melting and casting of aluminum, and is subject to the provisions of Supplementary Orders M-1-a and M-1-c. During the period from June 11, 1941, to December 6, 1941, the Company accepted deliveries of 69,143 pounds of aluminum scrap for melting and other processing from National Parts Corporation, Chicago, Illinois: No preference ratings had been assigned to these deliveries nor had they been specifically authorized by the Director of Priorities. During the period from June through December, 1941, the Company made deliveries, for nondefense purposes, of automobile radiator grilles containing approximately 35,552 pounds of aluminum to National Parts Corporation, Chicago, Illinois. These automobile grilles were fabricated pursuant to a toll agreement unauthorized by the Director of Priorities and they were shipped without the assignment of preference ratings and without authorization from the Director of Priorities.

These violations of Supplementary Orders M-1-a and M-1-c have resulted in the diversion of aluminum scrap to uses unauthorized by the Director of Priorities. In view of the foregoing facts,

It is hereby ordered:

§ 1010.17 *Suspension Order S-17.* (a) During the period in which this Order shall be in effect, Atlas Brass and Aluminum Foundry of Chicago, Illinois, its successors and assigns, shall accept no deliveries from any source of primary aluminum, secondary aluminum, aluminum scrap or alloys of which aluminum constitutes the major part, except as specifically authorized by the Director of Industry Operations.

(b) During the period in which this Order shall be in effect, Atlas Brass and Aluminum Foundry of Chicago, Illinois, its successors and assigns, shall not process any primary aluminum, secondary aluminum, aluminum scrap or alloys of which aluminum constitutes the major part, except as specifically authorized by the Director of Industry Operations.

(c) During the period in which this Order shall be in effect, Atlas Brass and Aluminum Foundry of Chicago, Illinois, its successors and assigns, shall make no deliveries of primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes a major part, or aluminum products, except as specifically authorized by the Director of Industry Operations.

(d) During the period in which this Order shall be in effect, Atlas Brass and Aluminum Foundry, of Chicago, Illinois, its successors and assigns, shall accept no purchase orders and enter into no contracts or commitments for delivery by it of primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes the major part, or aluminum products, except as specifically authorized by the Director of Industry Operations.

(e) During the period in which this Order shall be in effect, no person shall deliver to nor receive from the Atlas Brass and Aluminum Foundry of Chicago, Illinois, its successors and assigns, any primary aluminum, secondary aluminum, aluminum scrap, alloys of which aluminum constitutes the major part, or aluminum products, the delivery or receipt of which is prohibited by this Order, except as specifically authorized by the Director of Industry Operations.

(f) This Order shall take effect immediately, and, unless sooner terminated by the Director of Industry Operations, shall expire at midnight on the 12th day of May 1942. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 12th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2143; Filed, March 12, 1942; 11:57 a. m.]

PART 1055—WOOL

Interpretation No. 2 of Conservation Order No. M-73[1] as Amended and Extended to July 4, 1942

The following official interpretation is hereby issued by the Director of Industry Operations with respect to § 1055.1, Conservation Order No. M-73, as Amended and Extended to July 4, 1942, issued February 25, 1942:

(a) The phrase "grown mohair" as used in paragraph (f) (6) (c) (*1*) and (2) of Conservation Order No. M-73, as Amended and Extended to July 4, 1942, shall mean mohair commercially known as 30s (micrometer diameter 30.60) and lower.

(b) The phrase "wool of grades 44s and lower" as used in paragraph (f) (6) (c) (*1*) and (2) of Conservation Order No. M-73, as Amended and Extended to July 4, 1942, shall include wool known as carpet wool as defined in paragraph (b) of Interpretation No. 1 of Conservation Order No. M-73. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 12th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2152; Filed, March 12, 1942; 11:58 a. m.]

PART 1072—SOLE LEATHER

General Preference Order M-80

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of sole leather for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1072.1 *General Preference Order M-80*—(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Additional definitions.* For the purposes of this Order:

(1) "Sole leather" means any vegetable tanned sole leather of both "manufacturers" and "finders" types.

(2) "Cut outer soles of military weight and quality" means soles of 8½ to 11 iron, Fine, Semifine, Imperfect Fine, and No. 1 Scratch grades cut out of "manufacturers" leather.

(3) "Cut inner soles of military weight and quality" means soles of 5½ to 7 iron first quality full grain leather, with strong fiber of quality adapted to the purpose.

(4) "Finders' cut stock of military weight and quality" means half soles or repair taps of 9 iron and up, of Prime, Fine, Semifine, Imperfect Fine, and No. 1 Scratch grades cut out of "finders" leather; and "finders" leather cut outer soles of size, grade and weight now or hereafter specified on any military shoes.

(5) "Whole stock" means sole leather sides, backs, bends, strips, crops, shoulders, bellies, and belly centers.

(6) "Sole cutters" means all persons who produce cut soles, cut outer soles, cut inner soles, blocks, and repair taps from sole leather, and shall include independent cutters, tanner cutters, packer-tanner cutters, shoe manufacturer cutters and tanner-shoe manufacturer cutters.

(7) "Military shoes" means shoes for Army, Navy, Marine Corps and Lend-Lease requirements.

(8) "Put into process" with respect to cut soles means the first step taken in the preparation of cut soles for shoe making or for the attachment of cut soles to shoe uppers.

(9) "Reserved cut soles" means all cut soles of military weight and quality set aside by sole cutters pursuant to the terms of this Order.

(c) *Restrictions on the cutting of whole stock.* No person having any whole stock, from which cut inner or cut outer soles of military weight and quality can be obtained, shall hereafter cut any of the said whole stock except in such a manner as will produce all the cut inner, cut outer, or repair tap soles of military weight and quality obtainable therefrom, in accordance with paragraph (d) hereof.

(d) *Restrictions on sole cutters.* (1) Unless specifically authorized by the Director of Industry Operations, each sole cutter shall hereafter set aside each day at least 80% of all cut outer or cut inner soles of military weight and quality that are obtainable from all manufacturers' whole stock cut by him. All such cut soles so set aside shall be cut on Army size dies to fit the Munson Last in sizes and widths to fit the sizes of shoes bought on U. S. Army Tariffs as issued, or cut on the dies required by the Navy and Marine Corps to fit their schedules, or cut in accordance with the schedules of any other defense orders for shoes.

(2) Unless specifically authorized by the Director of Industry Operations, each sole cutter shall hereafter set aside each day at least 80% of all finders' cut stock of military weight and quality cut from finders' whole stock received by him.

Each sole cutter shall provide that the 80% so set aside shall include a sufficient quantity of cut outer soles so as to insure the fulfillment of his contracts to deliver such soles for use on military shoes.

(e) *Restrictions on sales, deliveries, and use of reserved cut soles.* (1) Unless specifically authorized by the Director of Industry Operations, no person shall hereafter sell, deliver, or put into process any reserved cut soles from manufacturers' leather, except to fill defense orders for military shoes, or to fill defense orders for cut soles of military weight and quality.

(2) Unless specifically authorized by the Director of Industry Operations, no person shall hereafter use any finders' cut stock set aside pursuant to paragraph (d) (2) hereof, except upon defense orders for repair tap soles or defense orders for cut outer soles of military weight and quality.

(f) *Reports.* Every person affected by this Order shall execute and file the following reports:

(1) With the War Production Board—such reports and questionnaires as may, from time to time, be required by said Board.

(2) With the Boston Quartermaster Depot within fifteen (15) days after promulgation of this Order, and at sixty-day intervals, thereafter, a letter listing and describing by weight, size, and type all stocks on hand of "reserved cut soles" not obligated to any contractors for the manufacture of military shoes.

(g) *Disposition of stocks of reserved cut soles.* Every person delivering to another person or to his own shoe factory and "reserved cut soles" to fill defense orders for military shoes, shall, within twenty-four (24) hours after such delivery give notice by letter addressed to the Commanding Officer, Reference: Reserved Cut Soles, Boston Quartermaster Depot, Army Base, Boston, Massachusetts, as tabulating agent of the War Production Board, of the amount and quality of cut soles so delivered, the person to whom delivered, and the contract number or further identification of the defense order for military shoes to fill which such "reserved cut soles" were delivered.

(h) *Appeals.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of sole leather conserved, or that compliance with this Order would disrupt or impair a program of conversion from nondefense work to defense work, may appeal to the Director of Industry Operations by letter or telegram, Reference M-80, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Communications to the War Production Board.* All reports required to be filed hereunder and all communications concerning this Order shall, unless otherwise directed, be addressed to: "War Production Board, Washington, D. C., Reference M-80."

(j) *Violations.* Any person who wilfully violates any provisions of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to the Order, may be prohibited from receiving further deliveries of any material subject to allocation and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(k) *Effective date.* This order shall take effect immediately. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 12th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2144; Filed, March 12, 1942; 11:58 a. m.]

PART 1096—WOOD PULP

General Preference Order M-93 To Conserve the Supply and Direct the Distribution of Wood Pulp

Whereas the national defense requirements have created a shortage of wood pulp, as hereinafter defined, for defense, for private account, and for export and it is necessary, in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution thereof:

Now, therefore, it is hereby ordered, That:

§ 1096.1 *General Preference Order M-93*—(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Definitions.* For the purposes of this Order:

(1) "Wood Pulp" means and includes pulp manufactured either by mechanical or chemical means from coniferous or broadleaf trees.

(2) "Other Fibrous Material" means and includes any waste material or virgin material of a fibrous nature other than wood pulp used in the manufacture of paper and paperboard or paper products.

(3) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(4) "Producer" means and includes any person producing wood pulp as hereinbefore defined.

(5) "Consumer" means any purchaser of wood pulp, or person who receives wood pulp from a producer as hereinbefore defined.

(c) *Directions as to deliveries.* (1) On and after May 1, 1942, no producer shall make and no person shall accept from a producer deliveries of wood pulp until the deliveries have been approved by the Director of Industry Operations in accordance with the following procedure:

(i) On or before the fifth day of each month, beginning April, 1942, each consumer other than the Army, Navy, and other agencies and governments referred to in paragraph (b) of Priorities Regulation No. 1, as amended, including countries eligible to receive material or equipment under the Lend-Lease Act, shall file with a Producer his orders for wood pulp to be delivered during the following month on Form PD-290 in accordance with the instructions attached to that form.

(ii) On or before the fifteenth day of each month, beginning April, 1942, each consumer shall file with the War Production Board Form PD-291 showing his consumption, inventory and estimated receipts of wood pulp and other fibrous materials.

(iii) On or before the fifteenth day of each month, beginning April, 1942, each producer shall file with the War Production Board his proposed shipping schedule of wood pulp for the following month on Form PD-292, in accordance with the instructions attached to that form, together with copies of Form PD-290 filed with him under the terms of subparagraph (i) of this paragraph.

(iv) Each Producer may make during each month, beginning May 1, 1942, only the deliveries approved by the Director of Industry Operations.

(2) No person shall make delivery of wood pulp from his inventory thereof to any person, and no person shall accept delivery thereof, except from a producer, without having first obtained the express authority of the Director of Industry Operations.

(d) *Withheld deliveries and imports.* (1) During the month of May, 1942, and each calendar month thereafter, each producer shall withhold from his monthly production of wood pulp such portion thereof as may be determined and specified from time to time by the Director of Industry Operations. From the amounts so withheld, deliveries shall be made only upon express direction of the Director of Industry Operations.

(2) Any person having in his possession wood pulp arriving at its first destination in the United States at or after twelve noon, Eastern War Time, on May 1st, 1942, shall hold the same at the disposal of the Director of Industry Operations. Any person who has placed any order for wood pulp to arrive at its first destination in the United States after twelve noon, Eastern War Time, on May 1st, 1942, shall notify War Production Board of such order on Form PD-290 in accordance with the instructions attached thereto, and shall request the foreign producer to deliver such wood pulp in accordance with the directions of the Director of Industry Operations.

(e) *Intra-company deliveries.* The prohibitions and restrictions contained in this Order shall, in the absence of a contrary direction apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division, or section of a single business enterprise to another branch, division, or section of the same or any other business enterprise under common ownership or control.

(f) *Notification of consumers.* Any person who is prohibited from, or restricted in, making deliveries of wood pulp by the provisions of this order, shall, as soon as practicable, notify each of his regular consumers of the requirements of this Order, and of the cancellation as of May 1, 1942, of all deliveries of wood pulp previously contracted for, except such as shall be authorized hereunder, but the failure to give such notice shall not excuse any consumer from the obligation of complying with the terms of this order.

(g) *Records.* In addition to the records required to be kept under Priorities Regulation No. 1, as amended, the Producer, and each consumer placing or receiving any purchase order hereunder, shall each retain, for a period of two years, for the inspection by representatives of the War Production Board, endorsed copies of all such purchase orders, whether accepted or rejected, segregated from all other purchase orders or filed in such a manner that they can be readily segregated for such inspection.

(h) *Reports.* Each producer and consumer covered by this Order shall file such reports and questionnaires as are required by Paragraph (c) of this Order and such other reports and questionnaires as may be required from time to time by the War Production Board.

(i) *Communications to War Production Board.* All reports required to be filed under this Order, and all communications concerning this Order, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: M-93.

(j) *Violations.* Any person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(k) *Appeal.* Any person affected by this Order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him, may appeal by addressing a letter to War Production Board, Ref.: M-93, Washington, D. C., setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(l) This Order shall take effect immediately. (P.D. Reg. 1 amended, Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 12th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2145; Filed, March 12, 1942; 11:57 a. m.]

PART 1098—RHODIUM

Conservation Order No. M-95 Prohibiting the Electroplating or Deposition of Rhodium on Jewelry

Whereas national defense requirements will create a shortage of rhodium for the combined needs of defense and private account, and the supply of rhodium will be insufficient for defense and essential civilian requirements unless the supply of rhodium is conserved and its use in the manufacture of jewelry is prohibited; and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution of rhodium.

Now, therefore, it is hereby ordered, That:

§ 1098.1 *Conservation Order M-95*—(a) *Prohibition of use of rhodium in the electroplating of jewelry.* (1) *Prohibition against sale.* After the effective date of this Order no person shall sell or deliver rhodium salts, or solutions thereof, to any other person for use in the electroplating or deposition of rhodium upon articles of jewelry.

(2) *Prohibition against purchase.* After the effective date of this Order no person shall purchase or receive from any other person any rhodium salts, or solutions thereof, for use in the electroplating or deposition of rhodium upon articles of jewelry.

(3) *Prohibition against use.* After the effective date of this Order no person shall electroplate or deposit rhodium upon articles of jewelry unless such use has been specifically authorized by the Director of Industry Operations.

(b) *Miscellaneous provisions*—(1) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(2) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of Rhodium conserved, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the Director of Industry Operations setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(3) *Applicability of order.* The prohibitions and restrictions contained in this Order shall apply to the use of Material in all articles hereafter manufactured irrespective of whether such articles are manufactured pursuant to a contract made prior or subsequent to the effective date hereof, or pursuant to a contract supported by a preference rating. Insofar as any other Order may have the effect of limiting or curtailing to a greater extent than herein provided, the use of Rhodium in the production of any article, the limitation of such other Order shall be observed.

(4) *Violations.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(5) *Reports.* (i) After the effective date of this Order any person selling, transferring, delivering or otherwise disposing in any manner of rhodium salts or solutions thereof in his possession, or subject to his control, shall report such sale, transfer, delivery or disposition, on Form PD-295 to the War Production Board, Ref.: M-95, setting forth the name of the person or persons to whom such sale, transfer, delivery or disposition was made and the amount of rhodium content sold, transferred, or delivered.

(ii) All persons affected by this Order shall execute and file with the War Production Board, reports on Form PD-296 stating the stocks and inventories of rhodium salts and solutions thereof in their possession or subject to their control on March 11, 1942.

(6) *Correspondence and communications.* All reports to be filed, appeals and other communications concerning this Order should be addressed to War Production Board, Washington, D. C. Ref.: M-95.

(7) *Definitions.* For the purpose of this Order:

(i) "Rhodium salt" means any compound of the metal rhodium.

(ii) "Solution" means any homogeneous liquid containing rhodium salts.

(iii) "Electroplating or deposition" means any method, electrolytic or otherwise, whereby rhodium may be plated upon a metallic surface.

(iv) "Electroplate or deposit" means any method, electrolytic or otherwise, whereby rhodium may be plated upon a metallic surface.

(v) "Jewelry" means any ornamental article or accessory of personal adornment, whether incompletely or completely manufactured, and including rings, settings, mountings, blanks, findings, pins, brooches, bracelets, initials, tie-pins, collar pins, atomizers (except medical), cosmetic containers, lighters, napkin rings, picture frames, smokers, accessories, souvenirs, or any other similar ware and ornaments.

(c) *Effective date.* This Order shall take effect on the 11th day of March, 1942, and shall continue in effect until December 31, 1942. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 11th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2120; Filed, March 11, 1942; 4:29 p. m.]

PART 1104—BICYCLES AND BICYCLE PARTS

Limitation Order L-52

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron or steel and other materials for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1104.1 *General Limitation Order L-52*—(a) *Definitions.* For the purposes of this Order:

(1) "Bicycle" means any pedal-propelled, non-motor, two-wheeled vehicle.

(2) "Bicycle Manufacturer" means any Person who manufactures or assembles finished Bicycles.

(3) "Parts Manufacturer" means any Person who manufactures Parts or Accessories for Bicycles.

(4) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(5) "Net Weight" means the weight of the finished Bicycle, exclusive of the weight of tires or tubes.

(6) "Preferred Order" means any order or contract for Bicycles, Parts, or Accessories to be delivered to or for the account of the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, and the Office of Scientific Research and Development.

(7) "Prohibited Materials" means crude rubber and any metal other than iron, unalloyed steel, silver and gold.

(8) "Parts" means those components in the make-up of Bicycles, essentially required for the actual function of locomotion.

(9) "Accessories" means all customary attachments to Bicycles other than Parts.

Neither Parts nor Accessories shall include anything not customarily attached to the Bicycle itself.

(10) "Replacement Parts and Accessories" means those Parts and Accessories sold to anyone other than a Bicycle Manufacturer.

(11) "Restricted Period" means the period from the effective date of this Order to March 31, 1942.

(12) "Average Daily Production" means the total production during the calendar year 1941 divided by 365.

(b) *General restrictions.* (1) During the Restricted Period no Bicycle Manufacturer shall manufacture or assemble a greater total of Bicycles than 42% of his Average Daily Production of Bicycles multiplied by the number of days (including Sundays and holidays) contained in the Restricted Period.

(2) During the Restricted Period:

(i) No Bicycle Manufacturer shall manufacture any Bicycles having a Net Weight greater than 47 pounds;

(ii) No Parts Manufacturer shall manufacture a greater total of any Replacement Part or Accessory for Bicycles than his Average Daily Production of such Replacement Part or Accessory multiplied by the number of days (including Sundays and holidays) contained in the Restricted Period.

(3) During the three months' period ending June 30, 1942, no Bicycle Manufacturer shall manufacture more Bicycles than three times 42% of the average monthly number of Bicycles produced by him in the calendar year 1941.

(4) During the three months' period ending June 30, 1942, no Bicycle Manufacturer shall manufacture any Bicycles which

(i) Have a Net Weight greater than 31 pounds;

(ii) Are not built with a diamond-shaped frame, or when intended for use by women, with a drop-shaped frame;

(iii) Have a frame measurement from the center of the crank to the top of the saddle post staff of less than 20 inches.

(iv) Contain any Prohibited Material, *except that*

(a) Chromic acid for plating may be be used on seat posts, handle bar stems, adjusting nuts and screws, and cranks;

(b) Zinc-treated wire may be used for spokes;

(c) Lighting equipment may contain such Prohibited Material as is absolutely necessary to satisfy minimum safety requirements and for which there is no satisfactory substitute;

(d) Casings and tubes of tires may contain such crude rubber as provided by Supplementary Order M-15b-1 as amended from time to time.

(v) Have tires or tubes with a diameter greater than 1.375 inches;

(vi) Are equipped with any of the following Parts or Accessories if those Parts or Accessories contain any iron or steel or Prohibited Material: Chain guards, skirt guards, stands, luggage carriers, tanks, truss rods, truss bars, and spring forks, *Provided*, That such minimum amount of iron and steel as is essentially required for nails, nuts, bolts, screws, clasps, rivets, and other joining hardware, for the construction of the above Parts or Accessories and the fastening of such Parts or Accessories to the finished such Parts or Accessories to the finished Bicycle, may be used.

(5) During the three months' period ending June 30, 1942

(i) No Parts Manufacturer shall manufacture any Replacement Part or Accessory for Bicycles, which contains any Prohibited Material, *except that*

(a) Chromic acid for plating may be used on seat posts, handle bar stems, adjusting nuts and screws, and cranks;

(b) Zinc-treated wire may be used for spokes;

(c) Lighting equipment may contain such Prohibited Material as is absolutely necessary to satisfy minimum safety requirements and for which there is no satisfactory substitute;

(d) Casings and tubes of tires may contain such crude rubber as provided by Supplementary Order M-15b-1 as amended from time to time;

(ii) No Parts Manufacturer shall use iron or steel or any Prohibited Material in the manufacture of any of the following Replacement Parts or Accessories for Bicycles: chain guards, skirt guards, stands, luggage carriers, tanks, truss rods, truss bars, and spring forks: *Provided*, That such minimum amount of iron and steel as is essentially required for nails, nuts, bolts, screws, clasps, rivets, and other joining hardware, for the construction of the above Parts or Accessories and the fastening of such Parts or Accessories to the finished Bicycle, may be used;

(iii) No Parts Manufacturer shall manufacture a greater total of any single Replacement Part or Accessory for Bicycles than three times 100% of the average monthly number of such Replacement Part or Accessory manufactured by him in the calendar year 1941; except that a Parts Manufacturer may manufacture such additional Replacement Parts and Accessories (other than those enumerated in subparagraph (5) (ii)) as he can make from three times 50% of the average monthly amount of iron and steel used by him in 1941 in the manufacture of those Parts and Accessories enumerated in subparagraph (5) (ii).

(6) Any Bicycle or Parts Manufacturer having Preferred Orders may exceed any of the foregoing restrictions to the extent required to fill such Preferred Orders.

(c) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(d) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(e) *Reports.* All Persons affected by this Order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request. No reports or questionnaires are to be filed by any Person until forms therefor are prescribed by the War Production Board.

(f) *Violations.* Any Person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(g) *Appeal.* Any Person affected by this Order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work may appeal to the "War Production Board, Washington, D. C., Ref: L-52" setting forth the pertinent facts and the reasons such Person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(h) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: L-52.

(i) *Applicability of other orders.* Insofar as any other Order of the Director of Industry Operations heretofore or hereafter issued, limits or curtails to a greater extent than herein provided, the use of any material used in the production of Bicycles, Replacement Parts and Accessories, the limitations of such other Order shall control.

(j) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F. R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 12th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

CHAPTER I—VETERANS' ADMINISTRATION

PART 2—ADJUDICATION; VETERANS' CLAIMS

REQUISITION FOR SUBMISSION OF EVIDENCE

§ 2.1031 *Physicians' statements and lay affidavits.*

* * * * *

(d) Where the veteran was engaged in combat with the enemy in active service with a military or naval organization of the United States during a war, campaign or expedition, satisfactory lay or other evidence of service incurrence or aggravation of a disease or injury will be accepted as sufficient proof establishing that fact if consistent with the circumstances, conditions, or hardships of such service, notwithstanding there is no official record of such incurrence or aggravation, provided that service connection is not rebutted by clear and convincing evidence. The benefit of every reasonable doubt will be resolved in favor of such veterans and the reasons for granting or denying service connection in each such case shall be recorded in full. See § 2.1077 (b). (December 20, 1941) (Pub. Law 361, 77th Cong.)

SERVICE CONNECTION

§ 2.1077 (a) *Direct and presumptive service connection.* Under Public No. 2 and Public No. 141, 73d Congress, the payment of disability compensation or pension is authorized in cases where it is established that disabilities are shown to have been directly incurred in or aggravated by active military or naval service within the dates prescribed under each Act and under Public No. 344, 74th Congress, provided that such incurrence or aggravation is not the result of the misconduct of the veteran. Under Public No. 141, 73d Congress, disability compensation is also authorized for disabilities presumtively service connected under the conditions hereinafter specified. Under Public No. 2, 73d Congress, disability pension is payable for disabilities directly incurred in or aggravated in line of duty in active peace time service during an enlistment on and after April 21, 1898. Under Public No. 196, 76th Congress (July 19, 1939) any World War veteran suffering from paralysis, paresis, or blindness, or who is helpless or bedridden as the result of any disability and who was in receipt of compensation therefor on March 19, 1933, may be restored to the compensation roll on or after July 19, 1939, where such disability was incurred in service, directly or presumptively under the laws and interpretations governing this class of cases prior to March 20, 1933, if otherwise entitled, notwithstanding such disability is considered to have been incurred as the result of the misconduct or wilful misconduct of the veteran. On or after October 17, 1940, under section 7 of Public No. 866, 76th Congress (October 17, 1940) any World War veteran, if otherwise entitled, may be paid disability com-

pensation for such disability, found to have been incurred in service, directly or presumptively under the laws and interpretations governing this class of cases prior to March 20, 1933, although he was not on the rolls as of March 19, 1933.

(b) In determinations involving the question of service connection due consideration shall be given to the places, types, and circumstances of service as shown by the service record, the official history of each organization in which the veteran served, his medical records, and all pertinent medical and lay evidence. See § 2.1031. (December 20, 1941) (Pub. Law 361, 77th Cong.)

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. B-147]

IN THE MATTER OF EAST KENTUCKY COAL SALES, INC., REGISTERED DISTRIBUTOR, REGISTRATION NO. 2612

NOTICE OF AND ORDER FOR HEARING

The Bituminous Coal Division (the "Division") finds it necessary in the proper administration of the Bituminous Coal Act of 1937 (the "Act") and the Bituminous Coal Code (the "Code") promulgated thereunder, to determine:

(a) whether or not the East Kentucky Coal Sales, Inc., a Kentucky corporation, a Registered Distributor, Registration No. 2612, (hereinafter sometimes referred to as the "registered distributor") whose address is 2408 Union Central Building, Cincinnati, Ohio, has violated any provisions of the Act, the Code, and orders and regulations of the Division including the Marketing Rules and Regulations, Rules and Regulations for Registration of Distributors, and the Distributor's Agreement (the "Agreement") dated June 14, 1939, executed and filed by the East Kentucky Coal Sales, Inc., pursuant to Order of the National Bituminous Coal Commission dated March 24, 1939, in General Docket No. 12, which was adopted as an Order of the Division on July 1, 1939;

(b) whether or not East Kentucky Coal Sales, Inc., purchased coal for resale from certain code members as more particularly set forth herein and accepted and retained discounts thereon in said transactions in excess of the maximum allowable discounts, as prescribed by Order of the Director in General Docket No. 12 dated June 19, 1940, thereby participating in a violation of Rule 1 of section III of the Marketing Rules and Regulations and in violation of Paragraphs (a) and (e) of the Agreement.

(1) During the period October 1, 1940 through April 1, 1941 the registered distributor sold to various purchasers approximately 181 cars of various sizes of coal produced by the Green Silvers Coal Corporation, Harlan, Kentucky, a code member, at its Malcolmson Mine, Mine Index No. 597, District 8, and retained discounts on 173 of said cars of coal in excess of the maximum allowable discounts.

(2) During the period October 1, 1940 through June 30, 1941 the registered distributor sold to various purchasers approximately 21 cars of various sizes of coal, produced by the Benito Harlan Coal Company, Benito, Kentucky, a code member, at its Benito Mine, Mine Index No. 41, District 8, and retained discounts on said cars of coal in excess of the maximum allowable discounts.

(3) During the period October 1, 1940 through June 30, 1941 the registered distributor sold to various purchasers approximately 357 cars of coal of various sizes, produced by the Buchanan Coal Company, Hazard, Kentucky, a code member, at its Rytip and Tiptop Mines, Mine Index Nos. 423 and 462, respectively, District 8, retaining discounts on 282 of said cars of coal in excess of the maximum allowable discounts.

(4) During the months of April through June 1941 the registered distributor sold to various purchasers 27 cars containing approximately 1500 tons of coal, produced by the McDonald Coal Company, Beattyville, Kentucky, a code member, at its McDonald Mine, Mine Index No. 2559, Lee County, District 8, retaining discounts on said cars in excess of the maximum allowable discounts.

(5) During the month of June 1941 the registered distributor sold to various purchasers 3 cars of coal produced by the Congleton Brothers, Beattyville, Kentucky, a code member, at its Congleton No. 4 Mine, Mine Index No. 1324, District 8, retaining in said transactions discounts in excess of the maximum allowable discounts.

(6) During the month of March 1941, the registered distributor sold to various purchasers 12 cars of various sizes of coal purchased from the Loeser Coal Company, Huntington, West Virginia, Sales Agent for F. B. Fry Coal Company, a code member, and produced by the said F. B. Fry Coal Company at its mine, Mine Index No. 2782, retaining discounts in the amount of $65.66 in excess of the maximum allowable discounts.

(7) During the months of April and June 1941, the registered distributor sold to various purchasers 6 cars containing approximately 296 tons of various sizes of coal produced by the Miller-Davis Coal Company, a code member, at its Miller-Davis No. 2 Mine, Mine Index No. 3517, Breathitt County, Kentucky, retaining in these transactions discounts in the sum of $7.62 in excess of the maximum allowable discounts.

(8) During the month of March 1941, the registered distributor sold to the Georgia Packing Company, Atlanta, Georgia, 10 carloads of 2" nut and slack coal produced by the Hensley and Finley Coal Company, Sibert, Kentucky, a code member, at its No. 1 Mine, Mine Index No. 1594, Clay County, District 8, retaining in said transactions discounts of $74.31 in excess of the maximum allowable discounts.

(9) During the month of February 1941, the registered distributor sold to various purchasers 3 cars of various sizes of coal produced by the Splint Coal Corporation, Harlan, Kentucky, a code member, at its Splint Mine, Mine Index No. 437, retaining discounts in the amount of $23.13 in excess of the maximum allowable discounts.

(10) During the months of April and May 1941, the registered distributor sold to various purchasers 5 cars containing approximately 276 tons of various sizes of coal produced by W. G. and H. F. Nicely, doing business as the Livingston Power Company, Livingston, Kentucky, a code member, at its River Mine, Mine Index No. 2888, located in Rock Castle County, Kentucky, retaining discounts in the amount of $10.32 in excess of the maximum allowable discounts;

(c) whether or not in the transactions described in Paragraph (b) Subparagraphs (1), (2), (3), (4) and (5) hereof, East Kentucky Coal Sales, Inc., acted as a Sales Agent on behalf of the several code members, without there having been filed with the Statistical Bureau or Bureaus of the Division, certified copies of all such agency contracts or certified copies of agreements modifying any such sales agency contracts by setting forth therein the basis for the retention by the Sales Agent of the amount of commissions which East Kentucky Coal Sales, Inc., retained in said transactions, as required by Rules 4 (A), 4 (B), and Rule 9 (a) of section II of the Marketing Rules and Regulations, in violation of said rules, or any of them, and of paragraph (e) of the Agreement;

(d) whether or not in the transactions set forth in paragraph (b) subparagraphs (1), (2), (3), (4) and (5) hereof, East Kentucky Coal Sales, Inc., acted as a Sales Agent on behalf of the several code members, and retained commissions in excess of the maximum discounts which it could receive if it purchased and resold such coal as a distributor, without there having been filed with the Division an application for permission to pay such commissions or without having been granted such permission, resulting in violations of Rule 13 (A) and Rule 13 (B) of section II of the Marketing Rules and Regulations, or either of said rules, and Paragraph (e) of the Agreement;

(e) whether or not in the transactions set forth in paragraph (b) subparagraphs (5), (7), (8) and (9) East Kentucky Coal Sales, Inc., made payment in accordance with Rule 1 (A) of section VII of the Marketing Rules and Regulations, for the coal so purchased by it, resulting in a violation of said rule and of paragraph (e) of the Agreement;

(f) whether or not on or about December 2, 1940 and February 6, 1941 East Kentucky Coal Sales, Inc., acting as Sales Agent for the Green Silvers Coal Corporation, Harlan, Kentucky, a code member, operator of the Malcolmson Mine, Mine Index No. 597, District 8, participated in transactions which were in violation of section 4 II (i) paragraphs 2 and 4 of the Act, Rule 1 of section III and Rules 2 and 4 of section XIII of the Marketing Rules and Regulations, by allowing discounts to the Consumers Company, Lima, Ohio, on the sale to the S. S. Products Company, Lima, Ohio, of two cars of coal produced at the aforesaid Malcolmson Mine, although the Consumers Company was not authorized to receive such discounts, resulting in violations of paragraphs (c) and (e) of the Agreement;

(g) whether or not during the month of October 1940, East Kentucky Coal Sales, Inc., acting as Sales Agent for the Buchanan Coal Company, Hazard, Kentucky, a code member, operator of the Tiptop Mine, Mine Index No. 462, participated in transactions which were in violation of section 4 II (i) paragraphs 2 and 4 of the Act, Rule 1 of section III and Rules 2 and 4 of section XIII of the Marketing Rules and Regulations, by granting discounts from the effective minimum prices to the City Ice and Fuel Company, Cincinnati, Ohio, retail dealers, upon the sale to the latter of 7 cars containing approximately 407 tons of 2" nut and slack coal produced at the aforesaid mine, although the City Ice and Fuel Company was not authorized to receive such discounts, resulting in violations of paragraphs (c) and (e) of the Agreement;

(h) whether or not during the month of May 1941 East Kentucky Coal Sales, Inc., acting as Sales Agent for the Buchanan Coal Company, Hazard, Kentucky, operator of the Tiptop Mine, Mine Index No. 462, violated Rules 1 and 3 of section X of the Marketing Rules and Regulations by granting an allowance of 40 cents per ton from the effective minimum prices to the Bacca Coal and Iron Company, Cincinnati, Ohio, on the sale of 2 cars of 5" block coal produced at the aforesaid mine, because of alleged substandard preparation of said coal, without filing with the Statistical Bureau for District 8 a verified statement of the facts as required by the said rules, resulting in violations of said rules and paragraphs (b) and (e) of the Agreement;

(i) whether or not subsequent to September 30, 1940, East Kentucky Coal Sales, Inc., acting as Sales Agent for the Buchanan Coal Company, Hazard, Kentucky, a code member, operator of the Tytip and Tiptop Mines, Mine Index Nos. 423 and 462, respectively, participated in transactions which were in violation of Rules 4 (B) and 9 (a) of section II of the Marketing Rules and Regulations by appointing and paying sales commissions to subsales agents without authority to do so, including such commissions paid on Order Nos. 1141 and 1144, transmitted during the month of October 1940 by East Kentucky Coal Sales, Inc., to the Buchanan Coal Company, resulting in violations of said Marketing Rules and Regulations and paragraph (e) of the Agreement;

(j) whether or not on or about April 15, 1941, East Kentucky Coal Sales, Inc., participated in transactions which were in violation of paragraphs 2, 4, 6 and 7 of section 4 II (i) of the Act and Paragraphs 2, 4, 6 and 7 of section XIII of the Marketing Rules and Regulations, by making an allowance of approximately $67.10, through its Subagent, E. J. DeRochie, 2800 West Grand Boulevard, Detroit, Michigan, to the Hygrade Food Products Corporation, Detroit, Michigan, to cover the expenses incurred by the latter in buying coal from outside sources when the registered distributor was unable to furnish such coal, resulting in violations of said sections of the Act, the Marketing Rules and Regulations, and paragraphs (c) and (e) of the Agreement;

(k) whether or not on or about May 31, 1941, East Kentucky Coal Sales, Inc., acting as Sales Agent for the Buchanan Coal Company, operator of the Tiptop Mine, Mine Index No. 462, participated in transactions which were in violation of Rules 1 and 3 of section X of the Marketing Rules and Regulations by issuing a credit memorandum to the Bacca Coal and Iron Company, Cincinnati, Ohio, covering an adjustment in price because of alleged substandard preparation of 2 cars of 5" block coal produced at the aforesaid mine, sold to it by East Kentucky Coal Sales, Inc., and by failing to file with the Statistical Bureau for District 8 a notification for such claim as prescribed by said Marketing Rules, resulting in violations of said Rules and Regulations and of paragraph (e) of the Agreement;

(l) whether or not the registration of East Kentucky Coal Sales, Inc., should be revoked or suspended or other appropriate penalties should be imposed.

It is therefore ordered, That a hearing pursuant to § 304.14 of the Rules and Regulations for the Registration of Distributors, to determine whether or not the aforementioned East Kentucky Coal Sales, Inc., has committed violations in the respects heretofore described and whether or not the registration of said distributor should be revoked or suspended, or other appropriate penalties be imposed, be held on April 15, 1942, at 10 a. m., at a hearing room of the Bituminous Coal Division at Room 820, United States District Court, Cincinnati, Ohio.

It is further ordered, That Travis Williams or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said East Kentucky Coal Sales, Inc., and to all persons and entities having an interest in such proceeding.

Notice is hereby given that answer setting forth the position of the aforementioned East Kentucky Coal Sales, Inc., with reference to the matters hereinbefore described, must be filed with the Bituminous Coal Division at its Washington Office or with any one of the field offices of the Division, within twenty (20) days after date of service hereof on the East Kentucky Coal Sales, Inc., and that failure to file an answer herein within such period, unless the presiding officer shall otherwise order, shall be deemed to be an admission by East Kentucky Coal Sales, Inc., of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: March 11, 1942.

[SEAL] DAN H. WHEELER, *Acting Director.*

DEPARTMENT OF AGRICULTURE.

Agricultural Marketing Administration.

[Docket No. AO 103-A 4]

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO THE TENTATIVELY APPROVED MARKETING AGREEMENT, AS AMENDED, AND ORDER NO. 42, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE NEW ORLEANS, LOUISIANA, MARKETING AREA

Notice is hereby given of a hearing to be held at the Tangipahoa Parish Courthouse, Amite, Louisiana, beginning at 10:00 a. m., c. w. t., March 19, 1942, and at the New Orleans Hotel, New Orleans, Louisiana, beginning at 10:00 a. m., c. w. t., March 20, 1942, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and Order No. 42, as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area.

This notice is given pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 *et seq.*), and in accordance with the General Regulations of the Surplus Marketing Administration, United States Department of Agriculture (7 CFR 900.4).

This public hearing is for the purpose of receiving evidence with respect to the amendments which are hereinafter set forth in detail. These amendments have not received the approval of the Secretary of Agriculture, and at the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the provisions to which such amendments re-

late. The amendments which have been proposed are as follows: Amendments Proposed to the Tentatively Approved Marketing Agreement, as Amended, and the Marketing Order, as Amended, Regulating the Handling of Milk in the New Orleans, Louisiana, Marketing Area

1. Delete § 942.5 (a) (1) and substitute therefor the following:

Class I milk—$3.00 per hundredweight: *Provided*, That with respect to Class I milk disposed of under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, the price shall be $2.53 per hundredweight.

2. Delete § 942.5 (a) (2), and substitute therefor the following:

Class II milk—$2.33 per hundredweight.

3. Delete the proviso in subparagraph (6) of § 942.1, referring to new producers, together with other references to new producers.

4. Reconsider § 942.4 for the purpose of establishing a separate classification of milk utilized in the manufacture of butter.

5. Consider the establishment of a market-wide pool as a basis for computing uniform prices to producers, the revision of Class III prices, the revision of any other provisions of the regulation, or the introduction of new provisions, for the specific purpose of providing a method for the diversion of milk from utilization in Class III to utilization in Class I.

6. Reconsider, revise, redesignate, delete, or add any other provisions of the regulation necessitated by the foregoing proposals, or for the purpose of clarification or to facilitate administration.

Additional copies of this notice and copies of the order, as amended, now in effect, may be obtained from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 0312 South Building, Washington, D. C., or may be there inspected.

[SEAL] ROBERT H. SHIELDS,
Assistant to the Secretary of Agriculture.[1]

ALLOCATION OF FUNDS FOR LOANS

MARCH 2, 1942.

By virtue of the authority vested in me by the provisions of section 4 of the Rural Electrification Act of 1936, as amended, I hereby allocate, from the sums authorized by said Act, funds for loans for the projects and in the amounts set forth in the following schedule:

Project designation:	*Amount*
Alabama 2032B3 Geneva	$35,000
Colorado 2018B2 Gunnison	10,000
Georgia 2035E2 Walton	50,000
Indiana 2041A3 Lagrange	25,500
Indiana 2092C3 Jackson	35,000
Iowa 2079A2 Clarke*	17,000
Louisiana 2006C2 St. Mary	5,000
Michigan 2040C2 Allegan	50,000
Michigan 2043B2 Chippewa	60,000
Minnesota 2095A2 Lake of the Woods	12,000
Nebraska 2004C2 Polk District Public	29,000
Tennessee 2025B2 Jackson	40,000
Vermont 2007E3 Orleans	35,000

[SEAL] ROBERT B. CRAIG,
Acting Administrator.

[F. R. Doc. 42-2129; Filed, March 12, 1942; 11:16 a. m.]

[1] Acting pursuant to authority delegated by the Secretary of Agriculture under the Act of April 4, 1940 (54 Stat. 81; 6 F.R. 5192).

DEPARTMENT OF LABOR.

Wage and Hour Division.

NOTICE OF HEARING ON MINIMUM WAGE RECOMMENDATION OF INDUSTRY COMMITTEE No. 41 FOR THE LUGGAGE, LEATHER GOODS, AND WOMEN'S HANDBAG INDUSTRY

Whereas the Administrator of the Wage and Hour Division of the United States Department of Labor, acting pursuant to section 5 (b) of the Fair Labor Standards Act of 1938, on January 10, 1942, by Administrative Order No. 138, appointed Industry Committee No. 41 for the Luggage, Leather Goods, and Women's Handbag Industry composed of an equal number of representatives of the public, employers in the industry and employees in the industry, such representatives having been appointed with due regard to the geographical regions in which the industry is carried on; and

Whereas Industry Committee No. 41 on February 3, 1942, recommended a minimum wage rate for the Luggage, Leather Goods, and Women's Handbag Industry and duly adopted a report containing such recommendation and reasons therefore and filed such report with the Administrator on February 4, 1942, pursuant to section 8 (d) of the Act and § 511.19 of the regulations issued under the Act; and

Whereas the Administrator is required by secton 8 (d) of the Act, after due notice to interested persons and giving them an opportunity to be heard, to approve and carry into effect by order the recommendation of Industry Committee No. 41 if he finds that the recommendation is made in accordance with law and is supported by the evidence adduced at the hearing before him, and taking into consideration the same factors as are required to be considered by the Industry Committee, will carry out the purposes of section 8 of the Act; if he finds otherwise, to disapprove such recommendation;

Now, therefore, notice is hereby given that:

I. The recommendation of Industry Committee No. 41 is as follows:

Wages at a rate of not less than forty cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the Luggage, Leather Goods, and Women's Handbag Industry (as defined in Administrative Order, No. 138), who is engaged in commerce or in the production of goods for commerce.

II. The definition of the Luggage, Leather Goods, and Women's Handbag Industry as set forth in Administrative Order No. 138, signed January 10, 1942, is as follows:

For the purpose of this order the term "luggage, leather goods, and women's handbag industry" means:

(a) The manufacture from any material of luggage including, but not by way of limitation, trunks, suitcases, traveling bags, brief cases, sample cases; the manufacture of instrument cases covered with leather, imitation leather, or fabric including, but not by way of limitation, portable radio cases; the manufacture of small leather goods and like articles from any material except metal; the manufacture of women's, misses', and children's handbags, pocketbooks, purses, and mesh bags from any material except metal; but not the manufacture of bodies, panels, and frames from metal, wood, fiber, or paper board for any of the above articles.

(b) The manufacture from leather, imitation leather, or fabric of cut stock and parts for any of the articles covered in section (a).

The definition of the luggage, leather goods, and women's handbag industry covers all occupations in the industry which are necessary to the production of the articles within the definition, including clerical, maintenance, shipping and selling occupations: *Provided, however*, That this definition does not include employees of an independent wholesaler or employees of a manufacturer who are engaged exclusively in marketing and distributing products of the industry which have been purchased for resale, and *Provided further*, That where an employee covered by this definition is employed during the same workweek at two or more different minimum rates of pay, he shall be paid the highest of such rates for such workweek unless records concerning his employment are kept by his employer in accordance with applicable regulations of the Wage and Hour Division.

III. The full text of the report and recommendation of Industry Committee No. 41, together with any dissenting statements which may be filed by a member subsequent to the date of this notice, are and will be available for inspection by any person between the hours of 9:00 a. m. and 4:30 p. m. at the following offices of the United States Department of Labor, Wage and Hour Division:

Boston, Massachusetts, Old South Building, 294 Washington Street.

New York, New York, 341 Ninth Avenue.

Newark, New Jersey, Essex Building, 31 Clintin Street.

New York, New York, 1560 Broadway.

Copies of the Committee's report and recommendation may be obtained by any person upon request addressed to the Administrator of the Wage and Hour Division, Department of Labor, Washington, D. C.

IV. A public hearing will be held on March 30, 1942, before Major Robert N. Campbell, Presiding Officer, at 10:00 a. m. in Room 3229 of the United States Department of Labor Building at Washington, D. C. for the purpose of taking evidence on the following question:

Whether the recommendation of Industry Committee No. 41 shall be approved or disapproved.

V. Any interested person, supporting or opposing the recommendation of Industry Committee No. 41, may appear at the aforesaid hearing to offer evidence, either on his own behalf or on behalf of any other person: *Provided*, That not later than March 24, 1942, any

such person shall file with the Administrator at Washington, D. C., a notice of his intent to appear which shall contain the following information:

1. The name and address of the person appearing.

2. If such person is appearing in a representative capacity, the name and address of the person or persons whom he is representing.

3. Whether such person proposes to appear for or against the recommendation of Industry Committee No. 41.

4. The approximate length of time requested for his presentation. Such notice may be mailed to the Administrator, Wage and Hour Division, United States Department of Labor, Washington, D. C., and shall be deemed filed upon receipt thereof.

VI. Any person interested in supporting or opposing the recommendation of Industry Committee No. 41 may secure further information concerning the aforesaid hearing by inquiry directed to the Administrator, Wage and Hour Division, United States Department of Labor, Washington, D. C., or by consulting with attorneys representing the Administrator who will be available for that purpose at the offices of the Wage and Hour Division in Washington, D. C.

VII. Copies of the following documents relating to the Luggage, Leather Goods, and Women's Handbag Industry will be made available upon request for inspection by any interested person who intends to appear at the aforesaid hearing:

U. S. Department of Labor Research and Statistics Branch, Wage and Hour Division, *Minimum Wages in the Luggage, Leather Goods and Women's Handbag Industry*, January 1942.

U. S. Department of Labor, Bureau of Labor Statistics Monthly Labor Review, *Differences in Living Costs in Northern and Southern Cities, July 1939 (Serial No. R–963)*.

U. S. Department of Labor, Bureau of Labor Statistics, Monthly Labor Review, *Bureau of Labor Statistics' New Index of Cost of Living*, August 1940 (Serial No. R–1156).

U. S. Department of Labor, Bureau of Labor Statistics, Cost of Living Division and Retail Price Division, *Changes in Cost of Living, September 15, 1941* (Serial No. R–1931).

U. S. Department of Labor, Bureau of Labor Statistics, *Changes in Cost of Living in Large Cities, December 15, 1941*.

U. S. Department of Labor, Bureau of Labor Statistics, *Changes in Cost of Living in Large Cities*, November 20, 1941.

U. S. Department of Labor, Bureau of Labor Statistics, *Estimated Intercity Differences in Cost of Living, September 15, 1941*.

U. S. Department of Labor, Bureau of Labor Statistics, *Retail Costs of Food*, December 16, 1941.

VIII. The hearing will be conducted in accordance with the following rules, subject, however, to such subsequent modifications by the Administrator or the Presiding Officer as are deemed appropriate:

1. The hearings shall be stenographically reported and a transcript made which will be available to any person at prescribed rates upon request addressed to the Administrator, Wage and Hour Division, Department of Labor, Washington, D. C.

2. In order to maintain orderly and expeditious procedure, each person filing a Notice to Appear shall be notified, if practicable, of the approximate day and the place at which he may offer evidence at the hearing. If such person does not appear at the time set in the notice he will not be permitted to offer evidence at any other time except by special permission of the presiding officer.

3. At the discretion of the presiding officer the hearing may be continued from day to day, or adjourned to a later date, or to a different place, by announcement thereof at the hearing by the presiding officer, or by other appropriate notice.

4. At any stage of the hearing, the presiding officer may call for further evidence upon any matter. After the presiding officer has closed the hearing before him, no further evidence shall be taken, except at the request of the Administrator, unless provision has been made at the hearing for the later receipt of such evidence. In the event that the Administrator shall cause the hearing to be reopened for the purpose of receiving further evidence, due and reasonable notice of the time and place fixed for such taking of testimony shall be given to all persons who have filed a notice of intention to appear at the hearing.

5. All evidence must be presented under oath or affirmation.

6. Written documents or exhibits, except as otherwise permitted by the presiding officer, must be offered in evidence by a person who is prepared to testify as to the authenticity and trustworthiness thereof, and who shall, at the time of offering the documentary exhibit, make a brief statement as to the contents and manner of preparation thereof.

7. Written documents and exhibits shall be tendered in duplicate and the persons preparing the same shall be prepared to supply additional copies if such are ordered by the presiding officer. When evidence is embraced in a document containing matter not intended to be put in evidence, such a document will not be received, but the person offering the same may present to the presiding officer the original document together with two copies of those portions of the document intended to be put in evidence. Upon presentation of such copies in proper form the copies will be received in evidence.

8. Subpoenas requiring the attendance of witnesses or the presentation of a document from any place in the United States at any designated place of hearing may be issued by the Administrator at his discretion, and any person appearing in the proceeding may apply in writing for the issuance by the Administrator of the subpoena. Such application shall be timely and shall identify exactly the witness or document and state fully the nature of the evidence proposed to be secured.

9. Witnesses summoned by the Administrator shall be paid the same fees and mileage as are paid witnesses in the courts of the United States. Witness fees and mileage shall be paid by the party at whose instance witnesses appear, and the Administrator before issuing subpoena may require a deposit of an amount adequate to cover the fees and mileage involved.

10. The rules of evidence prevailing in the courts of law or equity shall not be controlling.

11. The presiding officer may, at his discretion, permit any person appearing in the proceeding to cross-examine any witness offered by another person insofar as is practicable, and to object to the admission or exclusion of evidence by the presiding officer. Requests for permission to cross-examine a witness offered by another person and objections to the admission or exclusion of evidence shall be stated briefly with the reasons for such request or the ground of objection relied on. Such requests or objections shall become a part of the record, but this record shall not include argument thereon except as ordered by the presiding officer. Objections to the approval of the Committee's recommendation and to the promulgation of a wage order based upon such approval must be made at the hearing before the presiding officer.

12. Before the close of the hearing, the presiding officer shall receive written requests from persons appearing in the proceeding for permission to make oral arguments before the Administrator upon the matter in issue. These requests will be forwarded to the Administrator by the presiding officer with the record of the proceedings. If the Administrator, in his discretion, allows the request, he shall give such notice thereof as he deems suitable to all persons appearing in the proceedings, and shall designate the time and place at which the oral arguments shall be heard. If such requests are allowed, all persons appearing at the hearing will be given opportunity to present oral argument.

13. Briefs (12 copies) may be submitted to the Administrator following the close of the hearing, by any persons appearing therein. Notice of the final dates for filing such briefs shall be given by the Administrator in such manner as shall be deemed suitable by him.

14. On the close of the hearing the presiding officer shall forthwith file a complete record of the proceedings with the Administrator. The presiding officer shall not file an intermediate report unless so directed by the Administrator. If a report is filed, it shall be advisory only and have no binding effect upon the Administrator.

15. No order issued as a result of the hearing will take effect until after due notice is given of the issuance thereof by publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 11th day of March 1942.

L. METCALFE WALLING,
Administrator.

[Administrative Order No. 144]

ACCEPTANCE OF RESIGNATION FROM AND APPOINTMENT TO INDUSTRY COMMITTEE No. 42 FOR THE GRAIN PRODUCTS INDUSTRY

By virtue of and pursuant to the authority vested in me by the Fair Labor Standards Act of 1938, I, L. Metcalfe Walling, Administrator of the Wage and Hour Division, Department of Labor,

Do hereby accept the resignation of Mr. Ted Hopkins from Industry Committee No. 42 for the Grain Products Industry and do appoint in his stead, as representative for the employees on such Committee, Mr. M. G. Wire, of Tacoma, Washington.

Signed at Washington, D. C., this 11th day of March 1942.

L. METCALFE WALLING,
Administrator.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6258]

IN RE APPLICATION OF CLEVELAND BROADCASTING, INC., FOR CONSTRUCTION PERMIT

NOTICE OF HEARING

In re application of Cleveland Broadcasting Incorporated (New), dated October 22, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Cleveland, Ohio; operating assignment specified: Frequency, 1,300 kc.; power, 5 kw. (directional antenna); hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for a consolidated hearing with the application of Lake Shore Broadcasting Corporation, Docket No. 6172, to be held on April 20, 1942 at the offices of the Commission, Washington, D. C., at 10:00 a. m., for the following reasons:

1. To determine the qualifications of the applicant, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the type and character of the program service which applicant may be expected to render if granted a permit to construct the proposed station.

3. To determine whether the proposed directional antenna array would afford adequate protection to the services of Stations WOOD and WASH, particularly in view of the distance between these stations and the proposed station.

4. To determine whether the proposed station would provide primary service to the metropolitan district of Cleveland, Ohio, as contemplated by the Standards of Good Engineering Practice.

5. To determine (a) whether the granting of this application would be consistent with the Standards of Good Engineering Practice, particularly in view of the expected nighttime interference limitation to the service of the proposed station and (b) whether there are other assignments available for this area which would permit operation in accordance with the Standards of Good Engineering Practice.

6. To determine whether the proposed construction involves the use of any critical materials.

7. To determine the areas and populations which would receive primary service from the proposed station and what broadcast service is already available to such areas and populations.

8. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58,106).

9. To determine whether the granting of this application would tend toward a fair, efficient and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

10. To determine whether public interest, convenience and necessity would be served by the granting of this application, the application of Lake Shore Broadcasting Corporation (Docket No. 6172), or either of them.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Cleveland Broadcasting Incorporated, c/o Ray T. Miller, 1708 Union Commerce Building, Cleveland, Ohio.

Dated at Washington, D. C., March 9, 1942.

By the Commission.

[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 42–2112; Filed, March 11, 1942; 12:37 p. m.]

[Docket No. 6247]

IN RE APPLICATION OF GENESEE BROADCASTING CORP. FOR CONSTRUCTION PERMIT

NOTICE OF HEARING

In re application of Genesee Broadcasting Corporation (New), dated March 27, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Flint, Michigan; operating assignment specified: Frequency, 600 kc.; power, 1 kw. (DA—night and day); hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing, to be consolidated with the application of WTBS Radio Company, Inc., Docket No. 6248, for the following reasons

1. To determine the qualifications of the applicant, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the character of the proposed program service.

3. To determine the extent of any interference which would result from the simultaneous operation of the station proposed herein and Stations WKZO and WSJS.

4. To determine the areas and populations which would be expected to lose primary service, particularly from Stations WKZO and WSJS and what other broadcast service is available to these areas and populations.

5. To determine the extent of interference which would result from the operation of the station as proposed herein to the services of Stations CFCH, North Bay, Ontario, CFCF, Montreal, P. Q. and CFQC, Saskatoon, Sask. (Appendix II, Table I, North American Regional Broadcasting Agreement).

6. To determine whether the granting of this application would be consistent with the Standards of Good Engineering Practice, particularly in view of the expected nighttime interference limitation to the service of the proposed station.

7. To determine the areas and populations which would receive primary service from the proposed station and what broadcast service is already available to these areas and populations.

8. To determine whether the proposed construction involves the use of any critical materials.

9. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's memorandum opinion dated February 23, 1942, mimeograph No. 58106).

10. To determine whether the granting of this application would tend toward a fair, efficient and equitable distribution of radio service as contemplated by Section 307 (b), Communications Act of 1934, as amended.

11. To determine whether public interest, convenience and necessity would be served through the granting of this application and the application of The

WTBS Radio Company, Inc., Toledo, Ohio (Docket No. 6248) or either of them.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of Section 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of Section 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Genesee Broadcasting Corporation, Att: Bradley Higbie, 244 Buhl Building, Detroit, Michigan.

Dated at Washington, D. C., March 9, 1942.

By the Commission,

[SEAL] T. J. SLOWIE, *Secretary.*

[F. R. Doc. 42-2113; Filed, March 11, 1942; 12:37 a. m.]

[Docket No. 5966]

IN RE APPLICATION OF MOSBY'S INC., FOR CONSTRUCTION PERMIT

NOTICE OF HEARING

In re application of Mosby's Incorporated (New), dated December 11, 1939, for construction permit; class of service, broadcast; class of station, broadcast; location, Anaconda, Montana; operating assignment specified: Frequency, 1,230 kc.; power, 250 watts; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for the following reasons:

1. To obtain full information concerning a "Consent Decree" entered in the United States District Court, District of Montana, against Mosby's, Incorporated, particularly with reference to the effect thereof upon the qualifications of said corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine whether the statements in the application truly and accurately reflect the facts, particularly sections 12 (e) and 16 (e) thereof.

3. To determine whether the applicant, its officers, directors and stockholders are qualified in all respects to construct and operate the proposed station.

4. To determine the areas and populations which would receive primary service from proposed station and what broadcast service is already available to these areas and populations.

5. To determine whether the proposed construction involves the use of any critical materials.

6. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph 58106).

7. To determine whether, in view of the facts adduced under the foregoing issues, the granting of this application would serve public interest, convenience and necessity.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Mosby's Incorporated, c/o Arthur J. Mosby, President, 132 West Front Street, Missoula, Montana.

Dated at Washington, D. C., March 9, 1942.

By the Commission.

[F. R. Doc. 42-2114; Filed, March 11, 1942; 12:37 p. m.]

[Docket No. 6248]

IN RE APPLICATION OF THE WTBS RADIO CO., INC., FOR CONSTRUCTION PERMIT

NOTICE OF HEARING

In re application of the WTBS Radio Company, Inc. (New), dated January 16, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Toledo, Ohio; operating assignment specified: Frequency, 600 kc.; power, 1 kw. (directional antenna); hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing, to be consolidated with the application of Genesee Broadcasting Corporation, Docket No. 6247, for the following reasons:

1. To determine the qualifications of the applicant, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the character of the proposed program service.

3. To determine the extent of any interference which would result from simultaneous operation of station proposed herein and Stations WSJS, WKZO and WCLE.

4. To determine the areas and populations which would lose primary service, particularly from Stations WSJS, WKZO and WCLE, as well as what other broadcast service is available to these areas and populations.

5. To determine the extent of interference which would result from the operation of the station proposed herein to the services of Stations CFCF, Montreal, P. Q., CFCH, North Bay, Ontario and CFQC, Saskatoon, Sask. (Appendix II, Table I, North American Regional Broadcasting Agreement).

6. To determine whether the proposed station would provide primary service to the metropolitan district of Toledo, Ohio as contemplated by the Standards of Good Engineering Practice.

7. To determine the extent of any interference which would result from the simultaneous operation of the station proposed herein and the operation of Station WHKC as proposed in application B2-P-2833, as well as the areas and populations affected thereby and what other broadcast service is available to these areas and populations.

8. To determine whether the granting of this application would be consistent with the Standards of Good Engineering Practice, particularly in view of the expected nighttime interference limitation to the service of the proposed station.

9. To determine the areas and populations which would receive primary service from the operation of the station proposed herein, and what other broadcast service is already available to these areas and populations.

10. To determine whether the proposed construction involves the use of any critical materials.

11. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials. (See Commission's memorandum opinion dated February 23, 1942, Mimeograph No. 58106).

12. To determine whether granting of this application would tend toward a fair, efficient and equipable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

13. To determine whether public interest, convenience, and necessity would be served through the granting of this application and the application of the Genesee Broadcasting Corporation, Docket 6247, or either of them.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

The WTBS Radio Company, Inc., % Stanley C. Speer, Toledo Blade, Toledo, Ohio.

Dated at Washington, D. C., March 9, 1942.

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

[F. R. Doc. 42-2115; Filed, March 11, 1942; 12:38 p. m.]

[Docket No. 6172]

IN RE APPLICATION OF LAKE SHORE BROADCASTING CORP. FOR CONSTRUCTION PERMIT

AMENDED NOTICE OF HEARING

In re application of Lake Shore Broadcasting Corp. (New), dated July 25, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Cleveland, Ohio; operating assignment specified: Frequency, 1,300 kc.; power, 5 kw. (DA—night and day); hours of operation, unlimited.

Upon further examination of the above described application the Commission has amended the issues on which the hearing will be based as shown below, to be held in a consolidated proceeding with the application of Cleveland Broadcasting Incorporated, Docket No. 6258, on April 20, 1942, at the offices of the Commission, Washington, D. C., at 10:00 o'clock a. m.

1. To determine the qualifications of the applicant, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the type and character of the program service which applicant may be expected to render if granted a permit to construct the proposed station.

3. To determine whether the proposed directional antenna array would afford adequate protection to the services of Stations WOOD, WASH, and WFBR, particularly in view of the distances between said stations and the proposed station.

4. To determine the extent of any interference which would result from the simultaneous operation of the station proposed herein and Stations WOOD, WASH and WFBR.

5. To determine the areas and populations which may be expected to lose interference-free primary service, particularly from Stations WOOD, WASH and WFBR as a result of the operation of the proposed station and what other broadcast service is available to these areas and populations.

6. To determine whether the proposed station would provide interference-free primary service to the metropolitan district of Cleveland as contemplated by the Standards of Good Engineering Practice.

7. To determine whether (a) the operation of the proposed station at the selected transmitter site would be consistent with the Standards of Good Engineering Practice, particularly as to the population residing within the "blanket area" (250 mv/m contour), and, (b) the proposed antenna array would constitute a hazard to air navigation.

8. To determine whether (a) the granting of this application would be consistent with the Standards of Good Engineering Practice, particularly in view of the expected nighttime interference limitation to the service of the proposed station and (b) there are other assignments available for this area which would permit operation in accordance with the Standards of Good Engineering Practice.

9. To determine whether the proposed construction involves the use of any critical materials.

10. To determine the area and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and population.

11. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph 58106).

12. To determine whether the granting of the application would tend toward a fair, efficient and equitable distribution of radio service as contemplated by the provisions of section 307 (b) of the Communications Act of 1934, as amended.

13. To determine whether public interest, convenience or necessity would be served by the granting of this application, the application of Cleveland Broadcasting Incorporated (Docket No. 6258), or either of them.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Lake Shore Broadcasting Corporation, % Stanton Addams, Agent, 201 National City Bank Building, Cleveland, Ohio.

Dated at Washington, D. C., March 9, 1942.

By the Commission.

[F. R. Doc. 42-2116; Filed, March 11, 1942; 12:38 p. m.]

[Docket No. 6260]

IN RE APPLICATION OF FRANK E. HURT

NOTICE OF HEARING

In re application of Frank E. Hurt (KFXD), dated March 7, 1940, class of service, broadcast; class of station, broadcast; location, Nampa, Idaho, operating assignment specified: frequency, 990 kc. (1,030 kc NARBA); power, 1 kw.; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for a consolidated hearing with the application of News-Review Company (KRNR), Docket No. 6261, for the following reasons:

1. To determine the extent of any interference which would result from the simultaneous operation of Station KFXD, as proposed and Station KOB.

2. To determine the areas and populations which would be deprived of primary service, particularly from Station KOB, as a result of the operation of KFXD as proposed and what other broadcast service is available to these areas.

3. To determine the extent of any interference which would result from the simultaneous operation of Station KFXD as proposed, and the operation of Station KRNR as proposed in Docket 6261, as well as the areas and populations affected thereby, and what other broadcast service is available to these areas and populations.

4. To determine whether the granting of this application would be consistent with the Standards of Good Engineering Practice in view of the expected nighttime interference limitation to the service of Station KFXD, operating as proposed.

5. To determine whether the operation of Station KFXD, as proposed on the frequency 1030 kilocycles would be an efficient use of that channel and consistent with good allocative practice.

6. To determine whether the proposed construction involves the use of any critical materials.

7. To determine what new areas and populations would receive primary service as a result of the proposed change in facilities and what broadcast service is already available to such areas and populations.

8. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

9. To determine whether granting of this application and the operation of Station KFXD as proposed would tend toward a fair, efficient, and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

10. To determine whether, in view of the facts adduced under the foregoing issues and the issues relating to the application of News-Review Company (KRNR), Docket No. 6261, public interest, convenience and necessity would be served through the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of

a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Frank B. Hurt, Radio Station KFXD, 1024 12th Avenue, South Nampa, Idaho

Dated: March 10, 1942,
By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

[Docket No. 6251]

IN RE APPLICATION OF INDEPENDENCE BROADCASTING CO.

NOTICE OF HEARING

In re application of Independence Broadcasting Company, Inc. (WHAT), dated February 28, 1941; for construction permit; class of service, broadcast; class of station, broadcast; location, Philadelphia, Pa.; operating assignment specified: Frequency, 1,160 kc; Power, 5 kw (directional antenna); hours of operation, daytime.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reasons:

1. To determine the extent of any adjacent channel interference which would result from the simultaneous operation of Station WHAT as proposed and Station WDEL.

2. To determine the areas and populations which may be expected to lose primary service, particularly from Station WDEL during daytime hours, should Station WHAT operate as proposed, and what other broadcast service is available to these areas and populations.

3. To determine whether Station WHAT, operating as proposed, would provide primary service to the metropolitan district of Philadelphia, Pennsylvania, as contemplated by the Standards of Good Engineering Practice.

4. To determine whether the proposed antenna array would constitute a hazard to air navigation.

5. To determine whether the proposed construction involves the use of any critical materials.

6. To determine what new areas and populations would receive primary service as a result of the proposed change in facilities, and what broadcast service is already available to such areas and populations.

7. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's memorandum opinion dated February 23, 1942, Mimeograph No. 58106).

8. To determine whether the granting of this application and the operation of Station WHAT, as proposed, would tend toward a fair, efficient and equitable distribution of radio service as contemplated by Section 307 (b) of the Communications Act of 1934, as amended.

9. To determine whether in view of the facts adduced under the foregoing issues public interest, convenience and necessity would be served through the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Independence Broadcasting Co. Inc., Radio Station WHAT, c/o Dr. Luther Harr, Philadelphia Record, Broad and Wood Sts., Philadelphia, Pennsylvania.

Dated: March 10, 1942.
By the Commission.

[Docket No. 6249]

IN RE APPLICATION OF KINGSPORT BROADCASTING CO., INC., FOR CONSTRUCTION PERMIT

NOTICE OF HEARING

In re application of Kingsport Broadcasting Company, Inc. (WKPT), dated August 27, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Kingsport, Tennessee; operating assignment specified: Frequency, 790 kc; power, 1 kw* night; 1 kw day (DA*); hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing, to be consolidated with the application of Northside Broadcasting Corporation (WGRC), Docket No. 6052, for the following reasons:

1. To determine whether the operation of Station WKPT at the proposed transmitter site would be consistent with the Standards of Good Engineering Practice, particularly as to population residing within the "blanket area" (250 mv/m contour).

2. To determine whether the granting of this application would be consistent with the Standards of Good Engineering Practice, particularly in view of the expected nighttime interference limitation to the service of the proposed station.

3. To determine whether Station WKPT, operating as proposed, would provide primary service to the business district of Kingsport, Tennessee, as contemplated by the Standards of Good Engineering Practice.

4. To determine the extent of any interference which would result from the operation of Station WKPT as proposed herein to the services of Stations CKSO, Sudbury, Ontario, and CMBC, Havana, Cuba (Appendix II, Table I, NARBA).

5. To determine whether the proposed construction involves the use of any critical materials.

6. To determine what new areas and populations would receive primary service as a result of the proposed change in facilities and what broadcast service is already available to such areas and populations.

7. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials. (See Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106.)

8. To determine the extent of any interference which would result from the simultaneous operation of Station WKPT as proposed herein and Station WGRC as proposed in Docket no. 6052, as well as the areas and populations affected thereby and what other broadcast service is available to these areas and populations.

9. To determine whether the granting of this application would tend toward a fair, efficient and equitable distribution of radio service as contemplated by section 307 (b), Communications Act of 1934, as amended.

10. To determine whether in view of the facts adduced under the foregoing issues and the issues relating to the application of Northside Broadcasting Corporation, licensee of Station WGRC, Docket No. 6052, public interest, convenience and necessity would be served through the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Kingsport Broadcasting Company, Inc., Radio Station WKPT, 222-224 Commerce Street, Kingsport, Tennessee.

Dated: March 10, 1942.
By the Commission.

[Docket No. 6261]

IN RE APPLICATION OF NEWS-REVIEW CO. FOR CONSTRUCTION PERMIT

NOTICE OF HEARING

In re application of News-Review Company (KRNR), dated October 15, 1941; for construction permit; class of service, broadcast; class of station, broadcast; location, Roseburg, Oregon; operating assignment specified: Frequency, 1,030 kc; power, 10 kw (directional antenna); hours of operation, unlimited.

You are hereby notified that the Commission has examined the above-described application and has designated the matter for hearing, to be consolidated with the application of Frank E. Hurt (KFXD), Docket No. 6260, for the following reasons:

1. To determine the extent of any interference which would result from the simultaneous operation of Station KRNR, as proposed, and Station KOB.

2. To determine the areas and populations which would be deprived of primary service, particularly from Station KOB, as a result of the operation of Station KRNR, as proposed, and what other broadcast service is available to these areas and populations.

3. To determine the extent of any interference which would result from the simultaneous operation of Station KRNR as proposed and the operation of Station KFXD as proposed in Docket No. 6260, as well as the areas and populations affected thereby and what other broadcast service is available to these areas and populations.

4. To determine whether the granting of this application would be consistent with the Standards of Good Engineering Practice, particularly in view of the expected nighttime interference limitation to the service of Station KRNR operating as proposed.

5. To determine whether the operation of Station KRNR as proposed on the frequency 1030 kilocycles would be an efficient use of that channel and consistent with good allocation practice.

6. To determine whether the proposed construction involves the use of any critical materials.

7. To determine what new areas and populations would receive primary service as a result of the proposed change in facilities and what broadcast service is already available to such areas and populations.

8. To determine whether granting of this application would tend toward a fair, efficient and equitable distribution of radio service as contemplated by Section 307 (b) of the Communications Act of 1934, as amended.

9. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorization involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

10. To determine whether in view of the facts adduced under the foregoing issues and the issues relating to the application of Frank E. Hurt (KFXD), Docket No. 6260, public interest, convenience and necessity would be served through the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

News-Review Co., Radio station KRNR, 211 North Main Street, Roseburg, Oregon.

Dated: March 10, 1942.

[Docket No. 6052]

IN RE APPLICATION OF NORTHSIDE BROADCASTING CORP. FOR CONSTRUCTION PERMIT

NOTICE OF HEARING

In re Application of Northside Broadcasting Corp. (WGRC), dated March 1, 1940, for construction permit; class of service, broadcast; class of station, broadcast; location, New Albany, Indiana; operating assignment specified: Frequency: 790 kc.; power, 1 kw.* night; 5 kw. day (DA*); hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing, to be consolidated with the application of Kingsport Broadcasting Company, Incorporated (WKPT), Docket No. 6249, for the following reasons:

1. To determine the extent of any interference which would result from the simultaneous operation of Station WGRC as proposed herein, and Stations WTAR and WEAU.

2. To determine the areas and populations which may be expected to lose primary service, particularly from Stations WTAR and WEAU should Station WGRC operate as proposed, and what other broadcast service is available to these areas and populations.

3. To determine the extent of any interference which would result from the operation of Station WGRC as proposed, to the services of Stations CKSO, Sudbury, Ontario and CMBC, Havana, Cuba (Appendix II, Table I, North American Regional Broadcasting Agreement).

4. To determine whether Station WGRC, operating as proposed, would provide primary service to the metropolitan district of Louisville, Ky., as recommended by the Standards of Good Engineering Practice.

5. To determine whether the granting of this application would be consistent with the Standards of Good Engineering Practice, particularly in view of the expected nighttime interference limitation to the service of the proposed station.

6. To determine whether the proposed construction involves the use of any critical materials.

7. To determine what new areas and populations would receive primary service as a result of the proposed change in facilities, and what broadcast service is already available to such areas and populations.

8. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's memorandum opinion dated February 23, 1942, Mimeograph No. 58106).

9. To determine the extent of any interference which would result from the simultaneous operation of Station WGRC as proposed and Station WKPT as proposed in Docket No. 6249, as well as the areas and populations affected thereby, and what other broadcast service is available to these areas and populations.

10. To determine whether the granting of this application would tend toward a fair, efficient and equitable distribution of radio service as contemplated by section 307 (b), Communications Act of 1934, as amended.

11. To determine whether in view of the facts adduced under the foregoing issues and the issues relating to the application of Kingsport Broadcasting Company, Inc. (WKPT), Docket No. 6249, public interest, convenience and necessity would be served through the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard

must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-511]

IN THE MATTER OF MICHIGAN CONSOLIDATED GAS COMPANY AND GREAT LAKES UTILITIES COMPANY

NOTICE OF FILING AND ORDER FOR CONSOLIDATED HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 10th day of March 1942.

Notice is hereby given that declarations and applications have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above-named parties; all interested persons are referred to said documents which are on file in the office of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Michigan Consolidated Gas Company, (hereafter referred to as Michigan Consolidated) a subsidiary of American Light & Traction Company, a registered holding company, proposes to purchase from Great Lakes Utilities Company, and Great Lakes Utilities Company proposes to sell to Michigan Consolidated, for the consideration of $750,000 in cash (plus certain adjustments for current assets at closing date), all of the outstanding capital stock and indebtedness (other than current debt) of Gas Corporation of Michigan (hereafter referred to as Gas Corporation).

Great Lakes Utilities Company states that the proposed transaction is part of the plan of liquidation filed pursuant to section 11 (e) by which it proposes to sell all of its assets, retire its indebtedness and dissolve.

Gas Corporation is a corporation organized and existing under the laws of the State of Michigan, having its principal office at Ludington, Michigan. It is a public utility under the laws of Michigan owning and operating the following properties:

(1) A manufactured gas plant and gas distribution system within the City of Ludington, Michigan;

(2) Natural gas distribution systems in the City of Mt. Pleasant, the unincorporated community of Rosebush, both in Isabella County, Michigan, and in the City of Clare, Clare County, Michigan, and the territories adjacent thereto (all of which will be hereinafter referred to as the Mt. Pleasant territory) together with natural gas transmission lines and stand-by equipment in said City of Mt. Pleasant;

(3) A natural gas distribution system in the City of Greenville, Montcalm County, Michigan;

Gas Corporation also owns 1,000 shares of the par value of $10.00 per share, of the capital stock of Gas Transportation Corporation of Michigan (hereafter referred to as Transportation Corporation) being all of the issued and outstanding capital stock of that company. Transportation Corporation is a Michigan corporation and is a public utility under the laws of Michigan. It owns and operates natural gas transmission lines which connect with the lines of American Michigan Pipe Line Company, and transports gas to the Mt. Pleasant territory and the City of Greenville.

Michigan Consolidated states that the properties owned by the companies to be acquired are located generally in a portion of the territory in which it and its associated company, American Michigan Pipe Line Company, operate, and that the acquisition of such properties will tend toward the economical and efficient development of the properties of Michigan Consolidated and those to be acquired.

Michigan Consolidated further proposes that immediately after it has acquired the securities and indebtedness of Gas Corporation and Transportation Corporation, it will transfer their assets to Michigan Consolidated which will thereafter operate such properties, will surrender to said companies all their securities, will cancel all indebtedness owing by them and will assume all liabilities, contractual and other obligations of Gas Corporation and Transportation Corporation owing to the public. Thereafter, Gas Corporation and Transportation Corporation will be dissolved.

It appearing to the Commission that it is appropriate and in the public interest and in the interest of investors and consumers that a hearing be held with respect to said declarations or applications (or both) and that said declarations shall not become effective or said applications be granted except pursuant to further order of the Commission and that at said hearing there be considered, among other things, the various matters hereinafter set forth; and

It appearing to the Commission that the matters are related and involve common questions of law and fact; that evidence offered in respect to each of said matters may have a bearing on the other matters; and that substantial savings in time, effort and expense will result if the hearings on these matters are consolidated so they may be heard as one matter, and so that evidence adduced in each matter may stand as evidence in the others for all purposes;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and the rules of the Commission thereunder be held on March 31, 1942, at 10:00 A. M., in the offices of the Securities and Exchange Commission, 8th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk will advise as to the room in which such hearing will be held; and

It is further ordered, That the hearings on the said matters be, and they hereby are, consolidated. The Commission reserves the right, if at any time it may appear conducive to an orderly and economic disposition of any proceeding or proceedings herein, to order a separate hearing concerning such proceeding or proceedings, to close the record with respect to any of the matters, or to take action on any of the matters prior to the closing of the record in the other matters; and

It is further ordered, That James G. Ewell or any other officer or officers of the Commission designated by it for that purpose shall preside at the consolidated hearing in such matters. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice;

Notice of such hearing is hereby given to declarants or applicants and to any other persons whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any persons desiring to be heard or to be admitted as a party to such proceeding shall notify the Commission to that effect on or before March 28, 1942;

It is further ordered, That the Secretary of this Commission serve notice of the entry of this order by mailing a copy thereof by registered mail to declarants and applicants and that notice shall be given to all other persons by publication thereof in the FEDERAL REGISTER.

It is further ordered, That without limiting the scope of issues presented by certain applications or declarations, particular attention shall be directed at said hearing to the following matters and questions:

(1) Whether the consideration, including all fees, commissions and other remuneration, to whomsoever paid in connection with the acquisition and sale, is reasonable and bears a fair relation to the sums invested in or the earning capacity of the utility assets underlying the securities to be acquired;

(2) Whether such transfers or acquisitions of securities will unduly complicate the capital structure of the holding company system of which Michigan Consolidated is a subsidiary, or will be detrimental to the public interest or the interest of investors or consumers or the proper functioning of such holding company system;

(3) Whether the utility properties to be acquired constitute an integrated gas system or systems, or will, when acquired, constitute part of an integrated public utility system already directly or indirectly owned and operated by American Light & Traction Company;

(4) Whether the terms and conditions of the acquisition of the securities of Gas Corporation and Transportation Corporation are consistent with and meet the applicable standards of the Act;

(5) Whether the proposed transactions are consistent with the Section 11 (b) (1) and Section 11 (b) (2) proceedings pending against both holding company systems;

(6) In the event the Commission finds the proposed transactions appropriate, what terms and conditions, if any, seem necessary and desirable to be imposed with respect to such transactions.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

Rules, Regulations, Orders

TITLE 7—AGRICULTURE

CHAPTER VII—AGRICULTURAL ADJUSTMENT AGENCY, AGRICULTURAL CONSERVATION AND ADJUSTMENT ADMINISTRATION

[FN-514-4]

PART 729—NATIONAL MARKETING QUOTA FOR PEANUTS [1]

By virtue of the authority vested in the Secretary of Agriculture by Title III of the Agricultural Adjustment Act of 1938 (52 Stat. 31, 7 U.S.C. 1940 ed. 1301 *et seq.*), as amended, the regulations pertaining to marketing quotas for peanuts of the crop planted in the calendar year 1941 (Form PN-514), prescribed June 7, 1941, as amended on June 28, August 25, and October 11, 1941, are hereby further amended by the addition of the following new section:

§ 729.39 *Marketing of excess peanuts for seed for planting peanuts for oil in 1942.* Notwithstanding any other provisions of this part, collection or payment of the penalty of three cents per pound will not be required for excess peanuts marketed by the producer thereof to another producer for seed for planting peanuts for oil in 1942. The marketing of peanuts under such conditions shall constitute a diversion of the peanuts: *Provided*, That (a) the peanuts are marketed to a person engaged in farming in 1942, (b) the price charged and paid for the excess peanuts shall be the market value thereof for crushing for oil as of the date of delivery, and (c) the peanuts are purchased for the sole purpose of planting peanuts for oil during the calendar year 1942. Peanuts so diverted shall be marketed through the county committee for the county in which the peanuts were produced and each county committee is hereby designated as an agency to which excess peanuts of the crop of peanuts planted in 1941 may be delivered, and through which such peanuts may be marketed, for the sole purpose of use as seed for peanuts of the 1942 crop to be grown in excess of farm acreage allotments, in accordance with the provisions of this section.

Done at Washington, D. C. this 12th day of March, 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

TITLE 10—ARMY: WAR DEPARTMENT

CHAPTER VIII—PROCUREMENT AND DISPOSAL OF EQUIPMENT AND SUPPLIES

PART 81—PROCUREMENT OF MILITARY SUPPLIES AND ANIMALS [1]

§ 81.26 *Performance bonds*—(a) *When required*—(1) *Supply contracts*—(i) *In general.* The question as to the necessity of a performance bond is one requiring the exercise of sound discretion and there is no requirement that a performance bond will be furnished in every case; especially is this so in the case of negotiated fixed-price supply contracts where performance bonds should be required only in exceptional cases. At the discretion of the chief of arm, service, or bureau concerned, except as provided in (ii) below, performance bonds may be required or waived in special cases, or by general instructions issued to contracting officers, but such bond may not be waived when it has been stated in an invitation for bids that a performance bond will be required. A performance bond may not be required with respect to contracts let after advertising for bids unless it has been stated in the invitation for bids that it will be required. See § 81.10 (a) (6).

(ii) *Negotiated fixed-price supply contracts of $5,000,000 or more.* In the case of negotiated fixed-price-supply contracts amounting to $5,000,000 or more,

[1] § 81.26 (a) (1) is amended.

before a performance bond is required, the approval of the Under Secretary of War shall be obtained. Whenever the contracting officer shall deem it necessary in a particular case that a performance bond be required, he shall submit to the Under Secretary of War, through the chief of the supply arm or service concerned, a request for permission to require such performance bond together with such information as may be necessary to enable the Under Secretary of War to pass thereon. Such request may be submitted either—

(a) During the negotiations (in which case it may be made by radio or wire if necessary); or

(b) At the time when the request for authority to make the award is submitted. (49 Stat. 793; 40 U.S.C. 270a; Act April 29, 1941, Public Law 43, 77th Congress) [Par. 10c (1), AR 5-220, Aug. 7, 1940, as amended by Proc. Cir. 22, W.D., March 6, 1942]

TITLE 16—COMMERCIAL PRACTICES

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. 4513]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF INTERNATIONAL PARTS CORPORATION

§ 3.48 (b) *Disparaging competitors and their products—Goods—Safety:* § 3.66 (a2) *Misbranding or mislabeling—Comparative data or merits:* § 3.66 (j15) *Misbranding or mislabeling—Safety:* § 3.66 (j20) *Misbranding or mislabeling—Scientific or other relevant facts.* In connection with offer, etc., in commerce, of respondent's automobile mufflers, and among other things, as in order set forth, representing that the use on an automobile of a muffler having seams which are spotwelded, locked, or crimped results in greater danger of carbon monoxide gas poisoning to the occupant of such automobile than does the use of a muffler having continuous electric-welded seams; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, International Parts Corporation, Docket 4513, March 9, 1942]

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results.* In connection with offer, etc., in commerce, of respondent's automobile mufflers, and among other things, as in order set forth, representing, through the use of the unqualified word "Prevents", or any other unqualified word of similar import, or by any other means, that the finish on respondent's mufflers affords permanent protection against rust or corrosion; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, International Parts Corporation, Docket 4513, March 9, 1942]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 9th day of March, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, testimony and other evidence taken before Randolph Preston, a trial examiner of the Commission theretofore duly designated by it, in support of the allegations of said complaint and in opposition thereto, report of the trial examiner upon the evidence and the exceptions to such report, briefs in support of the complaint and in opposition thereto, and oral argument, and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, International Parts Corporation, a corporation, and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of respondent's automobile mufflers in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that the use on an automobile of a muffler having seams which are spotwelded, locked, or crimped results in greater danger of carbon monoxide gas poisoning to the occupant of such automobile than does the use of a muffler having continuous electric-welded seams;

2. Representing, through the use of the unqualified word "Prevents", or any other unqualified word of similar import, or by any other means, that the finish on respondent's mufflers affords permanent protection against rust or corrosion.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

TITLE 32—NATIONAL DEFENSE

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 1022—PLUMBING AND HEATING EMERGENCY REPAIRS

Preference Rating Order No. P-84

§ 1022.1 *Preference Rating Order P-84.* For the purpose of facilitating the acquisition of Material entering into the Emergency Repairs of Plumbing Equipment and Heating Equipment (as hereinafter defined), a preference rating is hereby assigned to deliveries of such Material upon the terms hereinafter set forth.

(a) *Statement of policy.* It is the purpose of this Order to effectuate the policy of the War Production Board of making available materials required for plumbing and heating emergency repairs necessary to maintain minimum heating and sanitary conditions required for public health in the United States, its territories and possessions, without expansion or improvement of facilities, except where duly authorized or approved. The terms and conditions of this Order are to be interpreted in conformity with this expressed policy.

(b) *Definitions.* (1) "Plumbing equipment" means any equipment, fixtures, fittings, pipes, accessories or supplies of types used in, or connected to, water, sewer, or gas systems, regardless of whether or not connected with a central system: *Provided,* That "Plumbing Equipment" does not include any tools for use in installation or repairs, or any hoses, sprinklers or other devices of types commonly attached to outdoor faucets.

(2) "Heating equipment" means any primary heating unit used to provide building warmth and any accessory or appurtenance used in connection with such a primary heating unit.

(3) "Emergency repairs" means only those remedial repairs which are required by actual or imminent breakdown of Plumbing Equipment or Heating Equipment. It includes (but is not limited to) the emergency replacement of equipment which is worn out, damaged beyond repair or destroyed. It does not include the installation of superior type equipment to replace useable equipment, or a substitution more extensive than that which is necessary to replace the part or parts that are worn out, damaged or destroyed.

(4) "Installer" means any person who installs Plumbing Equipment or Heating Equipment, regardless of whether or not he is regularly engaged in installing such equipment.

(5) "Supplier" means any person—

(i) Who supplies Material which he has not in whole or in part manufactured, processed, assembled or otherwise physically changed (in some way other than by cutting or threading pipe), and

(ii) With whom a contract or purchase order has been placed for delivery of such Material to the Installer or to another Supplier.

(6) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

(c) *Assignment of preference rating.* Preference Rating A-10 is hereby assigned, subject to the restrictions and conditions of paragraphs (e) and (f) hereof:

(1) To deliveries, to an Installer, of Material required by him for Emergency Repairs.

(2) To deliveries to any Supplier, who has received an order or contract to which the preference rating hereby assigned has been applied, of Material which will be delivered by him or another Supplier to the Installer pursuant to such rated order or contract, or will be physically incorporated into Material which will be so delivered; or which will be used, within the limitations of paragraph (e) (3) hereof to replace in such Supplier's inventory Material so delivered.

(d) *Persons entitled to apply preference rating.* The preference rating hereby assigned may, in the manner and to the extent hereby authorized, be applied by:

(1) The Installer;

(2) Any Supplier of Material to the delivery of which the preference rating has been applied as provided in paragraph (f).

(e) *Restrictions on use of rating*—(1) *Restrictions on installer and supplier.* No Installer or Supplier may apply the rating hereby assigned to obtain copper or copper base alloys which have been fabricated into sheets, wire, rods or tubes, or to obtain any scarce Material the use of which could be eliminated without serious loss of efficiency by substitution of less scarce Material or by change of design.

(2) *Restrictions on installer.* The Installer may not apply the rating to obtain delivery of Material on earlier dates than required to enable him to make Emergency Repairs.

(3) *Restrictions on supplier.* (i) No Supplier may apply the preference rating hereby assigned to obtain Material in greater quantities or on earlier dates than required to enable him to make on schedule a delivery rated hereunder or required to replace in his inventory Material so delivered. He shall not be deemed to require such Material if he can make his rated delivery and still retain a practicable working minimum inventory thereof; and if, in making such delivery, he reduces his inventory below such minimum, he may apply the rating only to the extent necessary to restore his inventory to such minimum.

(ii) A Supplier may defer application of the rating hereunder to purchase orders or contracts for Material to be placed by him until he can place a purchase order or contract for the minimum quantity procurable on his customary terms: *Provided,* That he shall not defer the application of any rating for more than three months after he becomes entitled to apply it.

(iii) A Supplier may apply the preference rating herein assigned only to obtain deliveries of Material which he will resell without manufacturing, processing or otherwise changing physically (other than by cutting or threading pipe) to fill a purchase order or contract rated hereunder or which he will use within the limitations of paragraph (e) (3) (i) hereof, to replace in his inventory Material so sold.

(f) *Application of preference rating.* (1) An Installer or Supplier, in order to apply the preference rating to deliveries of Material to him, must endorse the following statement on the original and all copies of the purchase order or contract for such Material, manually signed by a person duly authorized for such purpose by such Installer or Supplier:

Material for Emergency Repairs of Plumbing Equipment or Heating Equipment—

Rating A-10 under Preference Rating Order No. P-94 with the terms of which I am familiar.

Name of Installer or Supplier

By ---

Such endorsement shall constitute a certification to the War Production Board that such Material is required for the purpose stated and that the application of the rating is authorized by this Order. Any such purchase order or contract for such Material shall be restricted to Material which is rated in accordance herewith.

(2) The Provisions of this Order relative to application of a preference rating by the Installer shall not apply in the case of delivery to an Installer of any plumbing or heating repair item, the cost of which to the Installer is less than $5.00; *Provided*, That the Order placed by that Installer totals no more than $10.00. All such deliveries are deemed to be for repair purposes and, subject to the restrictions of paragraph (e) hereof, the Supplier may apply the rating hereby assigned to replace the stock so delivered.

(g) *Records.* In addition to the records required to be kept under Priorities Regulation No. 1, the Installer and each Supplier placing or receiving any purchase order or contract rated hereunder shall retain, for a period of two years, for inspection by representatives of the War Production Board, endorsed copies of all such purchase orders or contracts, whether accepted or rejected, segregated from all other purchase orders or contracts or filed in such manner that they can be readily segregated for such inspection.

In the case of replacement of a unit which has been worn out, damaged beyond repair or destroyed, the cost of which unit to the Installer exceeds fifty dollars ($50.00), the Intaller shall attach to each copy of the purchase order for a delivery rated hereunder, a statement signed by the ultimate user and by the Installer, which statement shall certify that repair of the unit is impracticable and shall specify:

(1) The unit being removed,

(2) The part or parts of such unit which failed,

(3) The age, model, make, size and serial number (where available) of such unit or parts,

(4) The replacing unit, its model, make, size and serial number (where available).

(h) *Reports.* The Installer and each Supplier, who applies the preference rating assigned hereunder, shall file such reports as may be required from time to time by the War Production Board.

(i) *Exception: Parties to whom other repairs and maintenance orders are applicable.* The preference rating herein assigned shall not be applied by any person to deliveries of repairs and maintenance items to which deliveries any other Order has assigned a preference rating.

(j) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D C. Ref.: P-94.

(k) *Violations.* Any Person, who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(l) *Revocation or amendment.* This Order may be revoked or amended at any time as to the Installer or any Supplier. In the event of revocation, deliveries already rated pursuant to this Order shall be completed in accordance with said rating unless the rating has been specifically revoked with respect thereto. No additional applications of the rating to any other deliveries shall thereafter be made by the Installer or Supplier affected by such revocation.

(m) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(n) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong. 1st Sess.)

Issued this 13th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2189; Filed, March 13, 1942; 11:56 a. m.]

PART 1068—TINPLATE AND TERNEPLATE

Interpretation No. 1 of Conservation Order M-81

The following official interpretation is hereby issued by the Director of Industry Operations with respect to Conservation Order M-81 (§ 1068.1 *Conservation Order No. M-81* [1]), dated February 11, 1942:

Except where other limits are specified in Table II of Conservation Order M-81, paragraph (c) (3) of said Order limits the amount of tinplate which may be used to pack the secondary products listed in Table II of said Order to 100% of the amount of tinplate used during the year 1940. As stated in the heading to said Table II, these limits "relate only to the pack permitted for civilian consumption. To the extent of additional requirements by the Army, Navy, Lend-Lease or other U. S. Governmental Agency, such pack may be increased."

Conservation Orders M-86 and M-86-a (§§ 1084.1, 1084.2) require specified amounts of secondary products to be set aside for purchase by the Government. Orders M-86 and M-86-a do not require that actual purchase orders must have been placed for such goods before they are so set aside.

A question has arisen whether such additional pack is prohibited by Order M-81 when not made to fill an actual purchase order with a preference rating of higher than A-2, in accordance with paragraph (g) of said Order M-81. Such pack is not prohibited. The exception set forth in the heading of Table II of Order M-81 permitting a pack for Governmental requirements in addition to the quantity limitations of said Table II applies to the pack required to be set aside pursuant to Orders M-86 and M-86-a so that only such amount of canned goods as are required to be set aside by said Orders may be packed outside the quantity limitations of Order M-81 whether or not actual purchase orders for such canned goods have been placed by any Governmental Agencies.

When such products are not set aside pursuant to Order M-86, they are within the quantity limitations of said Table II even although they are ultimately purchased by the Army, Navy, Lend-Lease, or other U. S. Governmental Agency.

The individual restrictions set forth in Order M-81 relating to can sizes, repacking, and specific limitations on the form in which a product may be packed, apply to all products whether or not they are being set aside for purchase by the Army, Navy, and other Governmental Agencies. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public Law 671, 76th Cong., 3d Sess., as amended by Public Law 89, 77th Cong., 1st Sess.)

Issued this 13th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2192; Filed, March 13, 1942; 11:57 a. m.]

PART 1084—CANNED FOODS

Conservation Order M-86

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials used in canning foods for defense, and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1084.1 *Conservation Order M-86*—(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Definitions.* For the purposes of this Order:

(1) "Canner" shall mean any Person engaged in the business of canning foods in hermetically sealed metal or glass containers and sterilizing the same by the use of heat.

(2) "Pack" shall mean the total amount, by weight, of all grades of any particular food canned by any Canner during the packing season in a particular locality after January 1, 1942. This definition of "pack" shall not be deemed to affect or change the meaning of the term "pack" as used in Conservation Order M-81, wherein such term refers to area of tinplate or terneplate.

(3) "Government Agency" shall mean any officer, board, agency, commission, or government-owned or government-controlled corporation of the United States specifically designated by the Director of Industry Operations.

(c) *Restrictions on canners.* (1) Each canner shall set aside for the requirements of Government Agencies such canned foods packed by him as the Director of Industry Operations may from time to time order, without regard to previously existing contracts. All such foods so set aside shall, unless and until released, be held for allocation to any Government Agency by the Director of Industry Operations. There shall not be calculated as part of the canned foods required to be set aside by this paragraph, canned foods delivered to any government agency when not so allocated to such Agency by the Director of Industry Operations.

(2) Each canner shall, within fifteen days after he has completed a seasonal Pack, or in the instance of a nonseasonal product, at such times as may be prescribed, mail to or file with the War Production Board a report thereof in such form as may, from time to time, be prescribed by the Director of Industry Operations.

(3) If any canned foods set aside for the requirements of Government Agencies have not been purchased within sixty days after the mailing or filing of the report prescribed in paragraph (c) (2), or such other time as the Director of Industry Operations may fix, the Canner may notify the War Production Board, in writing, that if such canned foods are not purchased within thirty days he will no longer hold such foods set aside. If any of such canned food is not purchased within thirty days after the mailing or filing of such notice, and if no further Order is issued with respect to it, it shall be deemed released and shall be available for unrestricted sale and distribution.

(d) *Certificates and reports relating to the cans covered by this order*—(1) *Certificates.* Each Canner who purchases any cans to pack any food for governmental use pursuant to this Order—whether such purchase is by contract or on open account order—shall furnish to the can manufacturer from whom he buys a certificate, signed by an authorized official, in substantially the form attached hereto as "Exhibit A", which shall constitute a certification to the War Production Board that such canner is familiar with the terms of this Order (in its present form or as it may be amended from time to time) and that, during the life of this Order, he will not use any cans purchased from such can manufacturer in violation of its terms. Only one such certificate covering all present and future purchases from a given can manufacturer, need be furnished by a canner to that can manufacturer but no can manufacturer shall be entitled to rely on any such certificate if he knows, or has reason to believe it to be false.

(2) *Reports.* Each Canner shall file such additional reports as the War Production Board may prescribe for the purpose of effective administration of this Order.

(e) *Inspection and grading.* Any canned foods required to be set aside under this Order shall be subject to inspection and grading at any time by the Director of Industry Operations, or any government agency thereto authorized by him.

(f) *Appeals.* Any Person affected by this Order who considers that compliance herewith would work an exceptional or unreasonable hardship upon him, may appeal to the Director of Industry Operations by letter, setting forth the pertinent facts and reasons such Person considers that he is entitled to relief. The Director may thereupon take such action as he deems appropriate.

(g) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, purchases, production and sales.

(h) *Audit and inspection.* All records required to be kept by this Order or by any rule, regulation or Order of the Director of Industry Operations shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(i) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to War Production Board, Washington, D. C. Ref.: M-86.

(j) *Violations.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(k) *Effective date and termination.* This Order shall take effect on the date of issuance hereof, and, shall continue in effect until revoked.

Issued this 13th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

EXHIBIT A

WAR PRODUCTION BOARD

DIVISION OF INDUSTRY OPERATIONS

PART 1084—CANNED FOODS

Supplementary Order No. M-86-a

§ 1084.2 *Supplementary Order M-86-a.*[1] (a) Pursuant to Order M-86, which this Order supplements, it is hereby ordered that each canner shall set aside to be delivered for the requirements of Government Agencies, pursuant to Order M-86, fruits and vegetables packed by him at any time in 1942 of the kinds and in the percentages set forth in columns A and B of Tables I and II, attached hereto.

If the type, style, or variety of any such fruits or vegetable is described in Column C, such percentage shall be in the type, style, and variety described. Such percentage shall be packed in can sizes in the order of preference specified in Column D, and shall be made up of the first preference grade of such fruit or vegetable specified in Column E, to the extent that the Canner's production of such grade is sufficient therefor. To the extent that the Canner's production of such grade is insufficient to meet such percentage, he shall set aside so much of his production of the second preference grade, if any, specified in Column F as is sufficient to complete such percentage. If his production of the grades specified in both Column E and F is insufficient for such purpose, the Canner shall set aside so much of his production of the third preference grade, if any, specified in Column G as is sufficient to complete such percentage.

(b) Any Canner who packed any of the products listed on Table II of this Order in the calendar year of 1940 shall report by individual plant (if he operated more than one plant) to the Director of Industry Operations, showing for each such product the number of dozens of each can size packed. If a Canner packed in

[1] See also Conservation Order M-86, *supra*.

[1] 7 F.R. 947

1941 any product listed in Table II which was not packed in 1940, he shall report the number of dozens of each can size packed in 1941. The report required by this paragraph shall be submitted in duplicate within thirty days following the effective date of this Order on Form P.D. 342[1] Canneries Production Report (1940–1941).

(c) The report prescribed by paragraph (c) (2) of Order M–86 shall be given on Form P. D. 343.[1] Seasonal Pack Report for 1942.

(d) The notice permitted by paragraph (c) (3) of Order M–86 may be given if any goods set aside in compliance with this Order have not been purchased within sixty days after the mailing or filing of the report with respect to such goods prescribed by paragraph (c) (2) of said Order M–86.

(e) This Order shall take effect immediately, and unless modified, amended or revoked, shall continue in effect until December 31, 1942. (P.D. Reg. 1, as amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 13th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

ORDER REVOKING AFFIRMATIONS OF COMPLIANCE IN CERTAIN REVISED PRICE SCHEDULES

A statement of the considerations involved in the issuance of this Order has been prepared and is issued simultaneously herewith.[1]

Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, including section 201 (d) thereof, it is hereby ordered that the following sections or portions thereof be revoked:

Section:	Revised Price Schedule No.
1307.6	7
1314.7, first paragraph thereof	9
1316.8	11
1339.6	18
1335.55	21
1337.17	23
1342.5	24
1335.154	28
1347.5	30
1335.205	31
1347.56	32
1307.55	33
1335.255	34
1335.305	36
1335.355	37
1335.405	38
1325.56	39
1335.455	42
1347.105	47
1330.56	55
1315.56	56
1352.8	57
1354.5	58
1353.6	59
1314.56	61
1356.8	64
1301.55	67
1335.505	68
1355.59	70
1362.5	75
1345.55	77
1336.57	83
1336.106	84
1315.1255	87
1316.106	89

(Pub. Law 421, 77th Cong., 2nd Sess.)

This order shall become effective March 13, 1942. Issued this 12th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42–2160; Filed, March 12, 1942; 5:05 p. m.]

PART 1303—ZINC

AMENDMENT NO 1 TO REVISED PRICE SCHEDULE NO. 81[2]—PRIMARY SLAB ZINC

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith.[3]

Sections 1303.53, 1303.54, 1303.57 (a), and 1303.59 (e) are amended to read as follows and a new § 1303.58a is added:

§ 1303.53 *Evasion.* (a) The price limitations set forth in Price Schedule No. 81 shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of primary slab zinc, alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by toll agreement, or by tying-agreement, or other trade understanding, or otherwise.

(b) Any purchase, sale, delivery or transfer of primary slab zinc in quantities less than requested by the buyer in order to enable the seller to obtain a higher less-than-carload-lot differential shall be considered to be an evasion of Price Schedule No. 81: *Provided*, That the buyer is willing to accept delivery of the requested quantity in a single shipment.

§ 1303.54 *Records and reports.* (a) Every person making purchases or sales of primary slab zinc after January 28, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of (1) each such purchase or sale showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the quantity in pounds or tons of each kind or grade purchased or sold; and (2) the quantity in pounds or tons of primary slab zinc (i) on hand, and (ii) on order, as of the close of each calendar month.

(b) Every smelter processing or treating on toll, by a process of distillation or by electrolysis, to obtain slab zinc therefrom, any zinc ores, concentrates or other primary material in accordance with the terms of an agreement or transaction entered into before March 13, 1942, shall file with the Office of Price Administration on or before April 1, 1942, full details of such agreement or transaction, including a copy thereof. Every smelter entering into such an agreement or transaction on or after March 13, 1942, shall, within 5 days thereafter file with the Office of Price Administration full details of such agreement or transaction, including a copy thereof.

(c) Every smelter who has prior to March 13, 1942, entered into an agreement or transaction to sell, deliver, or transfer primary slab zinc made to specifications other than those set forth in § 1303.59, paragraph (e), below, at the request of any customer, which is not yet completed on that date, shall file with the Office of Price Administration on or before April 1, 1942, full details of such agreement or transaction including a copy thereof, the name and address of the buyer, the required specification, the quantity in pounds or tons required, the price in cents per pound, and the delivery terms established by such agreement or transaction. Every smelter entering into such an agreement or transaction on or after March 13, 1942, shall file with the Office of Price Administration within 5 days thereafter full details of such agreement or transaction including a copy thereof, the name and address of the buyer, the required specification, the quantity in pounds or tons required, the price in cents per pound, and the delivery terms established by such agreement or transaction.

(d) Persons affected by Price Schedule No. 81 shall submit such reports to the Office of Price Administration as it may, from time to time, require.

§ 1303.57 *Definitions.*

* * * * *

(a) "On toll" means under an arrangement whereby a servicing charge is paid in any manner for processing or servicing ore or other material containing zinc;

* * * * *

§ 1303.59 *Appendix A: Maximum prices for primary slab zinc.*

* * * * *

(e) *Specifications.* The grades of slab zinc specifically referred to above shall conform to the following chemical requirements:

Maximum Impurities—Percent

Grade	Lead	Iron	Cadmium	Aluminum	Total not over
Special high grade	0.007	0.005	0.005	None	0.010
High grade	.07	.02	.07	None	.10
Intermediate	.20	.03	.80	None	.50
Brass special	.60	.03	.80	None	1.00
Selected	.80	.04	.75	None	1.25
Prime western	1.60	.08			

Primary slab zinc which fails to meet the standards of any grade set forth above shall be sold below the maximum price for such grade as herein established: *Provided, however*, That primary slab zinc made to conform to specifications other than those set forth above, required by any customer may be sold by the producer thereof to such customer at prices in excess of the maximum prices herein established provided said manufacturer has first fulfilled the reporting requirements set forth in § 1303.54 (c) hereof.

§ 1303.58a *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1303.53, 1303.54, 1303.57 (a), 1303.58a, and 1303.59) to Revised Price Schedule No. 81 shall become effective March 13, 1942. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 12th day of March, 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42–2157; Filed, March 12, 1942; 5:03 p. m.]

PART 1306—IRON AND STEEL

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 41[1]—STEEL CASTINGS

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith.[2]

The first paragraph and Table III of this § 1306.113 are hereby amended and a new § 1306.110a is added to read as set forth below:

§ 1306.113 *Appendix B: Maximum prices for railroad specialties.* (a) The maximum prices, including extras except as hereinafter provided, for railroad specialties shall be as set forth in Tables I, II, III and IV of this Appendix: *Provided*, That (1) An additional charge may be made by any producer for any extras furnished by such producer in cases where such extras were customarily charged by railroad specialty producers between October 1 and October 15, 1941, and the maximum amount of any additional charge for any such extra shall be the amount which was customarily charged by railroad specialty producers for the same extra between October 1 and October 15, 1941.

(2) An additional charge may be made by any producer for pattern costs for side-frames and bolsters where such pattern costs were customarily charged by such producer between October 1 and October 15, 1941, and the maximum amount of any additional charge for such pattern costs shall be the amount which customarily was or would have been charged by such producer for the same or similar pattern costs between October 1 and October 15, 1941.

(3) The maximum prices for coupler repair parts furnished by any producer shall be the prices which railroad specialty producers customarily charged therefor between October 1 and October 15, 1941.

(4) Where deliveries are made outside of base territory, there may be added charges for freight prevailing at time of delivery with the customary differential allowed to the purchaser, computed by methods used by the producer on October 1, 1941.

PART 1398—OFFICE AND STORE MACHINES

TEMPORARY MAXIMUM PRICE REGULATION NO. 9—USED TYPEWRITERS

In the judgment of the Price Administrator it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942 to establish temporarily as the maximum prices for used typewriters the prices prevailing with respect thereto within five days prior to the issuance of this Regulation.

Therefore, under the authority vested in me by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Temporary Maximum Price Regulation No. 9 is hereby issued:

§ 1398.51 *Maximum prices for sale or rental of used typewriters.* (a) On and after March 13, 1942, to and including May 11, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver used typewriters, and no person shall buy or receive used typewriters in the course of trade or business at prices higher than the maximum prices established herein; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of used typewriters to a purchaser if, prior to March 6, 1942, such typewriters had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(b) The maximum price for any used typewriters shall be the highest price, exclusive of federal excise tax, for a typewriter of the same make, model, manufacturer's trade-in allowance category ("serial number break"), and condition, quoted or otherwise in effect on March 5, 1942, for a purchaser of the same general class, from the manufacturer, wholesaler, distributor, dealer, or other seller.

(c) The maximum price for the rental or use of any used typewriter shall be the highest price for a typewriter of the same make, model, manufacturer's trade-in allowance category ("serial number break"), and condition, quoted or otherwise in effect on March 5, 1942, for a rental to a person of the same general class, for the same term or period.*

*§§ 1398.51 to 1398.60, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong. 2d Sess.

§ 1398.52 *Less than maximum prices.* Lower prices than those set forth in this Temporary Maximum Price Regulation No. 9 may be charged, demanded, paid, or offered.*

§ 1398.53 *Notices to be posted.* Every retail dealer in used typewriters shall post in a conspicuous place on his premises where used typewriters are offered for sale or lease, a notice which shall set forth in legible fashion, and in their entirety, §§ 1398.51, 1398.52, and 1398.55 of this Temporary Maximum Price Regulation No. 9, with a scale of rental prices.*

§ 1398.54 *Conditional agreements.* No seller of used typewriters shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided herein, in the event that this Temporary Maximum Price Regulation No. 9 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment (or for adjustment or for exception under § 1398.58) has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in

[1] 7 F.R. 971

the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment (or for adjustment or exception, as the case may be). Requests for such an exception may be included in the aforesaid petition for amendment (or for adjustment or for exception under § 1398.58).*

§ 1398.55 *Evasion.* (a) The price limitations set forth in this Temporary Maximum Price Regulation No. 9 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to used typewriters, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) Decreasing cash discounts, trade-in or exchange allowances, rental credits on purchases, quantity purchase discounts, or allowances for or absorption of transportation costs, in effect on March 5, 1942.

(2) Increasing charges, in effect on March 5, 1942, for deferred payment, or for any other form of installment, or time payment or credit accounts.

(3) Increasing charges, in effect on March 5, 1942, for maintenance or repair service, or for shop overhauls.

(4) Decreasing the effective period of guarantee or warranty of performance, or of maintenance or repair service.

(5) Representing typewriters in "rough" or "as is" condition as reconditioned or rebuilt, or reconditioned typewriters as rebuilt, or rebuilt typewriters as new.*

§ 1398.56 *Records and reports.* (a) Every person making sales or rentals of used typewriters after March 13, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, a complete and accurate record of each such sale, or rental, showing the date thereof, the name and address of the buyer or lessee, the make, the model, serial number, or other designation and the price received for each used typewriter, the discounts and trade-in allowances given, and the model, serial number, or other designation of each typewriter traded in.

(b) Persons affected by this Temporary Maximum Price Regulation No. 9 shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1398.57 *Enforcement.* (a) Persons violating any provision of this Temporary Maximum Price Regulation No. 9 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Temporary Maximum Price Regulation No. 9 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.*

§ 1398.58 *Petitions for amendment.* Persons seeking any modification of this Temporary Maximum Price Regulation No. 9 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.*

§ 1398.59 *Definitions.* (a) When used in this Temporary Maximum Price Regulation No. 9, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or legal successor or representative of any of the foregoing and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing;

(2) "Typewriter" means any portable, office, commercial, noiseless or standard type of manually or electrically operating writing machine designed to be used for writing or copying letters or other documents, and does not include telegraphic typewriters, Linotype machines, Monotype machines, or Braille machines;

(3) "Used typewriter" includes any typewriter which has, at any time, been delivered to any person who acquired it for use;

(4) "Rebuilt typewriter" means any used typewriter which, in the process of rebuilding for delivery to the purchaser as a rebuilt typewriter, has been dismantled, cleaned, realigned, adjusted, and reassembled, its main frame completely refinished, and imperfect type and worn parts replaced by new type and parts;

(5) "Reconditioned typewriter" means any used typewriter which, in the process of reconditioning for delivery to the purchaser as a reconditioned typewriter, has been cleaned, realigned, adjusted, and its imperfect type and worn parts replaced;

(6) "Rough" or "as is" means any used typewriter which, at the time of delivery to the purchaser, is not in rebuilt or reconditioned condition;

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, shall apply to other terms used herein.*

§ 1398.60 *Effective date.* This Temporary Maximum Price Regulation No. 9 (§§ 1398.51 to 1398.60, inclusive) shall become effective March 13, 1942.*

Issued this 12th day of March, 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42-2162; Filed, March 13, 1942; 9:14 a. m.]

PART 1398—OFFICE AND STORE MACHINES

RATIONING ORDER NO. 4—USED TYPEWRITERS

Pursuant to the authority vested in me by Directive No. 1 issued by the Chairman of the War Production Board on January 24, 1942, and by Supplementary Directive No. 1D issued by the Chairman of the War Production Board on March 5, 1942, it is hereby ordered that:

§ 1398.101 *Restriction of sales and deliveries of used typewriters.* On and after the effective date of this Rationing Order No. 4, regardless of any contract of sale, contract to sell, agreement, lease or other obligation, no person shall sell or deliver used typewriters, and no person shall buy or receive used typewriters, except as provided in §§ 1398.102, 1398.103 and 1398.104.*

*§§ 1398.101 to 1398.109, inclusive, issued under the authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483, War Production Board Directive No. 1 and Supplementary Directive No. 1D, 7 F.R. 562, 7 F.R. 1792.

§ 1398.102 *Persons eligible to buy used typewriters*—(a) *Without application.* Effective March 13, 1942, the following persons shall be eligible to buy or receive used typewriters without making application to a Local Rationing Board:

(1) Consignees of shipments of typewriters: *Provided*, That such typewriters were in transit on a carrier, other than a carrier owned or controlled by the consignor, on March 6, 1942.

(2) Manufacturers of typewriters at their places of business in the United States.

(3) Wholesalers or dealers in typewriters.

(4) Persons regularly engaged in the business of repairing, reconditioning, or rebuilding used typewriters.

(5) Persons who have delivered used typewriters to others for repair, reconditioning, or rebuilding and are entitled to the return thereof.

(6) Persons entitled by distraint, levy, execution, attachment, or by similar forms of judicial process, including foreclosure or repossession by virtue of bona fide lien, created prior to March 6, 1942, to acquire used typewriters.

(7) Persons entitled to acquire used typewriters by will or by intestacy.

(8) Trustees or receivers in bankruptcy, insolvency, or receivership, in cases where their trusteeship or receivership extends to used typewriters.

(9) Any person acquiring a used typewriter for business purposes from a person who, at the time of delivery of such typewriter, shall own or possess not more than the one typewriter.

(b) *With application.* On and after April 13, 1942, the following persons shall be eligible to buy or receive used typewriters in exchange for a certified application pursuant to § 1398.104.

(1) Prime contractors with any agency of the government of the United States for the construction of a military or naval cantonment, shipyard, or air base: *Provided*, That such persons shall establish, in a statement as provided in § 1398.104, immediate need for such typewriters in connection with the construc-

tion of such cantonment, shipyard, or air base. Immediate need is not shown by an applicant if upon the acquisition of the typewriter or typewriters applied for, he will have in his possession any typewriter which is not in use, unless such typewriter not in use is unserviceable and cannot be made serviceable by reasonable repairs.

(2) Persons who are engaged in the operation of a plant, factory, or shipyard, 70% of whose combined billings and accepted but unbilled orders (whether or not production has commenced pursuant to such orders), during the three-month period preceding the month in which the application is filed, consisted of billings and accepted but unbilled orders for ships, planes, tanks, guns, ammunition, powder, fire control apparatus, military or naval optical or communications equipment, armor plate, radiosondes, machine tools, lift trucks, welding machines, foundry equipment, cranes, metal working equipment, heat treating furnaces, or tackle blocks: *Provided*, That such persons shall establish, in a statement as provided in §1398.104, immediate need for such typewriters for the efficient conduct of their business. Immediate need is not shown by an applicant if upon the acquisition of the typewriter or typewriters applied for, he will have in his possession any typewriter which is not in use, unless such typewriter not in use is unserviceable and cannot be made serviceable by reasonable repairs.*

§ 1398.103 *Rental of used typewriters.* (a) Effective March 13, 1942, all persons shall be eligible to rent used typewriters.

(b) Regardless of any agreement, lease or other obligation heretofore or hereafter entered into, all rentals, leasings, bailments, licenses, hirings, or loans of used typewriters shall be deemed subject to revocation or cancellation by lessors, bailors, licensors, or lenders, as the case may be, upon the issuance by the Office of Price Administration of Orders, Regulations, or Amendments requiring the recapture, repossession, or return of such used typewriters. Upon the issuance by the Office of Price Administration of any such Orders, Regulations, or Amendments, all persons in possession of such used typewriters shall return, deliver, or surrender such typewriters to their lessors, bailors, licensors, or lenders, as the case may be, at the time and in the manner provided for in such Orders or Regulations.

(c) *Rental-credit provisions and options to purchase.* Any rental-credit provision (or other provision for crediting rentals paid toward the purchase price of a rented typewriter) or option to purchase contained in an agreement for the rental of a used typewriter made prior to March 6, 1942, which rental-credit provision or option was not prior to March 6, 1942 invoked or exercised by the lessee, shall be enforceable only upon presentation of a certified application pursuant to §§ 1398.102 and 1398.104.

(d) *Bailment-leases.* A bailee-lessee under a bailment-lease agreement for the instalment purchase of a used typewriter may complete the purchase provided the agreement therefor was executed prior to March 6, 1942.*

§ 1398.104 *Procedure for buying used typewriters*—(a) *Application.* Any person who believes that he is eligible to buy a used typewriter or typewriters in accordance with the provisions of paragraphs (b) (1) and (b) (2) of § 1398.102 shall make to the Local Rationing Board of the Office of Price Administration having jurisdiction over the area in which the typewriter is to be used, an application in triplicate on Form R-401 to be provided by the Local Rationing Board.

(b) *Certification of application.* The Local Rationing Board, if it is satisfied that the applicant has properly executed his application, that the facts stated in the application are true, and that the applicant has satisfied all the applicable requirements of this Order, shall certify on the application its approval thereof and specify the number of used typewriters to which the applicant is eligible. The Local Rationing Board shall retain one copy of the application and deliver the remaining two copies to the applicant for presentation to the seller.

(c) *Delivery.* The seller, if he knows nothing inconsistent with the facts set forth in an application on Form R-401, approved by a Local Rationing Board, may deliver the typewriter or typewriters specified in the Board's certification to the applicant, after executing the statement required of him on Form R-401, forwarding one copy to the Local Rationing Board as provided in § 1398.106 and retaining the other. If the seller knows any facts to be inconsistent with those set forth in the application, he shall retain the application, refuse to make the sale, and notify the Local Rationing Board thereof.*

§ 1398.105 *Records.* Every typewriter manufacturer, wholesaler, and dealer shall preserve for not less than two years, accurate and complete records concerning inventories and sales or rentals of used typewriters (including, specifically, the use to which a rented typewriter is to be put) and such copies of forms as are required to be retained by them by the terms of this Rationing Order No. 4.*

§ 1398.106 *Reports.* (a) On or before April 6, 1942, every typewriter manufacturer, wholesaler, and dealer shall file with the Local Rationing Board, on a Form to be provided by the Board, an inventory report containing the information required by such Form.

(b) Persons affected by this Rationing Order No. 4 shall submit such other reports to the Office of Price Administration as it may, from time to time, require.*

§ 1398.107 *Violations.* (a) Any person who violates any provision of this Rationing Order No. 4 who, by any act or omission, knowingly falsifies a statement or any record which he is required to keep by the terms of this Rationing Order No. 4 or who otherwise knowingly furnished false information to the Office of Price Administration, shall be subject to the penalties therefor, including a recommendation to the Attorney General for prosecution pursuant to section 35 (A) of the Criminal Code (Title 18, U.S.C. sec. 80).

(b) In addition, the Office of Price Administration may deny him the right to receive any used typewriter or any other commodity subject to rationing by the Office of Price Administration, and may recommend to the War Production Board that he be denied the right to receive any other materials which are now or in the future may be allocated by that Board.*

§ 1398.108 *Definitions.* When used in this Rationing Order No. 4, the term:

(a) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing;

(b) "Typewriter" means any portable, standard, or noiseless type of mechanically or electrically operated writing machine used for writing or copying letters or other documents, and does not include telegraphic typewriter, linotype machines, monotype machines, or Braille machines;

(c) "Manufacturer" means any person operating a factory or plant which manufactures or assembles typewriters;

(d) "Wholesaler" means any person regularly engaged in the business of selling typewriters to manufacturers or other wholesalers or dealers;

(e) "Dealer" means any person regularly engaged in the business of selling or renting typewriters to the ultimate user;

(f) "Used" means any typewriter which at any time has been delivered to any person who has acquired it for use, and includes repaired, rebuilt, and reconditioned typewriters.*

§ 1398.109 *Effective date of this Rationing Order No. 4.* This Rationing Order No. 4 (§§ 1398.101 to 1398.109, inclusive) shall take effect March 13, 1942.

Issued this 12th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42-2161; Filed, March 13, 1942; 9:14 a. m.]

PART 1400—TEXTILE FABRICS: COTTON, WOOL, SILK, SYNTHETICS AND ADMIXTURES

TEMPORARY MAXIMUM PRICE REGULATION NO. 10—FINISHED PIECE GOODS MADE OF COTTON, RAYON AND MIXTURES THEREOF

In the judgment of the Price Administrator it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942 to establish temporarily as the maximum prices for finished piece goods made of cotton or rayon or mixtures thereof (referred to herein as "finished piece goods") the prices prevailing with respect thereto within five days prior to the issuance of this Regulation.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Temporary Maximum Price Regulation No. 10 is hereby issued.

§ 1400.1 *Maximum prices for finished piece goods.* (a) From March 13, 1942, to May 11, 1942, inclusive, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver any finished piece goods and no person shall buy or receive finished piece goods at a price higher than the maximum price therefor; and no person shall offer, solicit or attempt to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of finished piece goods to a purchaser if prior to March 13, 1942, such goods had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(b) (1) The maximum price shall be the highest net price for finished piece goods of the same kind, type, quality, and finish which was, during the period between March 7, 1942 and March 11, 1942, inclusive, sold, contracted to be sold, delivered or transferred by the seller to a purchaser of the same general class.

(2) If the maximum price cannot be determined under subparagraph (1), the maximum price shall be the highest net price of the seller in effect for sales of finished piece goods of the same kind, type, quality and finish to a purchaser of the same general class during the period between March 7, 1942, and March 11, 1942, inclusive, or in case the seller had no net price in effect during that period, the net price of the seller in effect on the nearest preceding date.

(3) If the maximum price cannot be determined under either subparagraph (1) or (2), the maximum price shall be a price in line with the maximum price, as determined by subparagraph (2), of the most nearly comparable finished piece goods offered for sale by the seller prior to March 7, 1942.*

*§§ 1400.1 to 1400.12, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1400.2 *Conditional agreements.* No seller of finished piece goods shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1400.1, in the event that this Temporary Maximum Price Regulation No. 10 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest, pending such consideration, the Administrator may grant an exception from the provisions of this Section permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.*

[1] 7 F.R. 971.

§ 1400.3 *Exempt sales.* The provisions of this Temporary Maximum Price Regulation No. 10 shall not apply to (a) sales at retail; and (b) sales of oil cloth, lace fabrics, belting, or artificial leather or other pyroxylin coated fabrics.*

§ 1400.4 *Upholstery furniture fabrics and bed linens.* The provisions of this Temporary Maximum Price Regulation No. 10 shall not apply to sales of upholstery furniture fabrics for which maximum prices are established by Revised Price Schedule No. 39* or to sales of bed linens for which maximum prices are established by Revised Price Schedule No. 89.*

§1400.5 *Less than maximum prices.* Lower prices than those set forth in § 1400.1 may be charged, demanded, paid, or offered.*

§ 1400.6 *Evasion.* The price limitations set forth in this Temporary Maximum Price Regulation No. 10 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to finished piece goods, alone or in conjunction with any other commodity or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or otherwise.*

§ 1400.7 *Records and reports.* Every person making sales of finished piece goods from March 13, 1942, to May 11, 1942, inclusive, shall keep for inspection by the Office of Price Administration for a period of not less than one year:

(a) Complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer, a full description of the goods sold (with a reference sample of each kind, type, quality and finish), the price per yard received, the quantity sold and discounts and allowances of any nature given.

(b) Complete and accurate records of each sale, contract to sell, delivery or transfer during the period between March 7, 1942 and March 11, 1942, inclusive, showing the date thereof, the name and address of the buyer, a full description of the goods sold, contracted to be sold, delivered or transferred (with a reference sample of each kind, type, quality and finish), the price per yard and the quantity sold, contracted to be sold, delivered or transferred and discounts and allowances of any nature given.

(c) Complete and accurate records of the net prices in effect during the period between March 7, 1942, and March 11, 1942, inclusive, including a full description of the goods (with a reference sample of each kind, type, quality and finish), the price per yard, and discounts and allowances of any nature quoted.

(d) In cases where the maximum price is determined to be the net price in effect on a date preceding March 7, 1942, in accordance with paragraph (b) (2) of § 1400.1, complete and accurate records of the net price in effect on such date, including a full description of the goods (with a reference sample of each kind, type, quality and finish), the price per yard, and discounts and allowances given.

(e) In cases where the maximum price is determined as in line with other prices in accordance with paragraph (b) (3) of § 1400.1 complete and accurate records of the method of determining such maximum price, including a full description (with a reference sample of each kind, type, quality and finish), and the price per yard of the goods with which such maximum price is determined to be in line, and discounts and allowances of any nature given in connection with the sale of such goods.

Such persons shall submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1400.8 *Enforcement.* (a) Persons violating any provision of this Temporary Maximum Price Regulation No. 10 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Temporary Maximum Price Regulation No. 10 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.*

§ 1400.9 *Petitions for amendment.* Persons seeking any modification of this Temporary Maximum Price Regulation No. 10 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.*

§ 1400.10 *Definitions.* (a) When used in this Temporary Maximum Price Regulation No. 10, the term:

(1) "Person" means an individual, corporation, partnership, association, or other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other Government, or any of its political subdivisions, or any agency of any of the foregoing;

(2) "Finished piece goods made of cotton or rayon or mixtures thereof" means fabrics, more than 12 inches in width, bleached, dyed, printed, mercerized or otherwise finished or processed and woven from yarn composed, in the amount of ninety per cent. or more by weight, of either cotton fibre or chemically produced yarn or fibre made from cellulose or with a cellulose base, or of any mixtures thereof.

(3) "Net price in effect" means the price quoted in the seller's price list (or, in case there is no such price list, the price regularly quoted by the seller in any other manner) less all discounts and allowances. The term "net price" shall be construed accordingly.

[2] 7 F.R. 1279.
[3] 7 F.R. 1375.

(4) "Sales at retail" means sales to the ultimate consumer: *Provided*, That no commercial user shall be deemed to be an ultimate consumer.

(5) "In line with" means having a justifiable relation to the maximum price with commensurate increases or decreases reflecting actual differences in the width, weight, construction and cost of the grey goods, the kind, type, quality, color and design characteristics and cost of the finish, provision for working allowance and the cost of put-up.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.*

§ 1400.11 *Replacement of regulation.* This Temporary Maximum Price Regulation No. 10 may be replaced by a permanent Maximum Price Regulation or Order issued under the Emergency Price Control Act of 1942.*

§ 1400.12 *Effective period.* This Temporary Maximum Price Regulation No. 10 shall become effective on March 13, 1942, and shall, unless earlier revoked or replaced, expire at 12 o'clock midnight, May 11, 1942.*

Issued this 12th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42-2159; Filed, March 12, 1942; 5:03 p. m.]

CHAPTER XV—DEFENSE COMMUNICATIONS BOARD

[Order No. 2]

PART 1701—COASTAL AND MARINE RELAY RADIO STATIONS

Whereas the Defense Communications Board has by Executive Order No. 8964 of December 10, 1941, been authorized, if the national security and defense and the successful conduct of the war so demand, to prescribe classes and types of radio stations and facilities or portions thereof which shall be subject to use, control, supervision, inspection, or closure, in accordance with such prescription, by the Department of War, Department of Navy, or other agency of the United States Government, designated by the Board;

And whereas the Defense Communications Board has determined that the national security and defense and the successful conduct of the war so demand;

Now, therefore, by virtue of authority vested in the Board under the aforementioned Executive Order, the Board hereby directs that:

§ 1701.1 *Authorization of Navy Department to use, control, supervise, inspect, or close coastal and marine relay radio stations.* All coastal and marine relay radio stations, as defined in the Rules and Regulations of the Federal Communications Commission, within the jurisdiction of the United States shall be subject to such use, control, supervision, inspection, or closure by the Navy Department in accordance with the terms of the said Executive Order as may be deemed necessary for the national security and defense and the successful conduct of the war by the Secretary of the Navy, under such regulation as he may prescribe. (E.O. 8964, 6 F.R. 6367)

Subject to such further order as the Board may deem appropriate.

DEFENSE COMMUNICATIONS BOARD,
JAMES LAWRENCE FLY, *Chairman.*

Attest:
HERBERT E. GASTON,
Secretary.

FEBRUARY 26, 1942.

[F. R. Doc. 42-2186; Filed, March 13, 1942; 11:45 a. m.]

TITLE 34—NAVY

CHAPTER I—DEPARTMENT OF THE NAVY

PART 18—REGULATIONS GOVERNING THE USE, CONTROL, SUPERVISION, INSPECTION, OR CLOSURE OF COASTAL AND MARINE RELAY RADIO STATIONS UNDER THE JURISDICTION OF THE UNITED STATES

Pursuant to the authority conferred upon the Secretary of the Navy by Order No. 2 of the Defense Communications Board,[1] issued February 26, 1942, under the authority of the Executive Order of December 10, 1941,[2] promulgated under the power vested in the President by section 606 of the Communications Act of 1934, as amended, and by virtue of the authority residing in the Secretary of the Navy to ensure the protection of shipping and to promote the successful conduct of the war; I hereby prescribe that from and after this date the use, control, supervision, inspection, or closure of coastal and marine relay radio stations, as defined in the Rules and Regulations of the Federal Communications Commission, under the jurisdiction of the United States shall be subject to the following regulations:

Sec.
18.1 Transmission of signals by coastal and marine relay stations prohibited; subject to exemptions.
18.2 Notice to Chief of Naval Operations of intent to establish, close, or modify coastal or marine relay service required.
18.3 Supervision and inspection of coastal and marine relay stations.
18.4 Closure of coastal and marine relay stations by Chief of Naval Operations authorized.
18.5 Temporary suspension of operation by coastal and marine relay stations.
18.6 Exemptions, how made.
18.7 Applicability of rules and regulations of Federal Communications Commission.
18.8 Effectiveness.

§ 18.1 *Transmission of signals by coastal and marine relay stations prohibited; subject to exemptions.* Subject to any exemptions made as provided in § 18.6 of these regulations, no coastal nor marine relay station shall transmit or relay any signal to or for any marine mobile station or aircraft in flight over the seas, nor shall any such station otherwise make any radio transmission.*

*§§ 18.1 to 18.8, inclusive, issued under the authority contained in Order No. 2, Defense Communications Board, February 26, 1942.

§ 18.2 *Notice to Chief of Naval Operations of intent to establish, close, or modify coastal or marine relay service required.* No person shall establish any radio station for the purpose of communication to or for marine mobile stations or aircraft in flight over the seas; nor shall any licensee of a coastal or marine relay station increase, reduce, or otherwise alter any coastal or marine relay service in effect on the date of the issuance of these regulations without first having served notice of such intention upon the Chief of Naval Operations with copy to the Commandant of the Naval District in which such station is located.*

§ 18.3 *Supervision and inspection of coastal and marine relay stations.* All coastal and marine relay stations shall be subject to such supervision and inspection as the Chief of Naval Operations may direct.*

§ 18.4 *Closure of coastal and marine relay stations by Chief of Naval Operations authorized.* The Chief of Naval Operations is hereby authorized to direct any coastal or marine relay station to cease its operations or to order the sealing or removal of any radio apparatus or equipment of any such station whenever in his judgment such action is required in the public interest and necessary to promote the successful conduct of the war.*

§ 18.5 *Temporary suspension of operation by coastal and marine relay stations.* All coastal and marine relay stations shall, upon receipt of orders from military or naval authority, suspend operation and no such station shall resume operation until authorized so to do by military or naval authority and all such stations shall comply with such other directions which may, from time to time, be issued by military or naval authority in the public interest and to promote the successful conduct of the war.*

§ 18.6 *Exemptions, how made.* Exemptions to the general prohibition against the transmission of signals by coastal and marine relay stations, as provided in § 18.1 of these regulations, may be made by the Chief of Naval Operations and by such other naval authority as may be authorized by the Chief of Naval Operations.*

§ 18.7 *Applicability of rules and regulations of Federal Communications Commission.* These regulations and such instructions as may be issued by naval authority under them shall, until amended or revoked, be effective in lieu of any rules or regulations of the Federal Communications Commission inconsistent therewith. Nothing in these regulations or any instructions as may have been issued under them shall be construed to render ineffective such rules or regulations of the Federal Communications Commission and such other jurisdiction of the Federal Communications Commission under the Communications Act of 1934, as are not inconsistent therewith.*

§ 18.8 *Effectiveness.* These regulations shall take effect immediately and shall continue in effect until the termination of the present conflict, unless sooner modified or revoked by proper authority.*

Issued this 9th day of March 1942.

FRANK KNOX,
Secretary.

TITLE 41—PUBLIC CONTRACTS

CHAPTER II—DIVISION OF PUBLIC CONTRACTS

PART 202—MINIMUM WAGE DETERMINATIONS

IN THE MATTER OF AN AMENDMENT TO THE PREVAILING WAGE DETERMINATION IN THE SEAMLESS HOSIERY INDUSTRY

This matter is before me pursuant to section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Supp. III 35) entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes," otherwise known as the Walsh-Healey Public Contracts Act.

On February 3, 1942, the Administrator of the Division of Public Contracts of this Department issued a notice of opportunity to show cause (7 F.R. 797) why my decision dated July 28, 1937, In the Matter of Determination of the Prevailing Minimum Wage in the Seamless Hosiery Industry (2 F.R. 1338) should not be modified by finding that the prevailing minimum wage for persons now employed in that industry is 36 cents per hour or $14.40 for a week of 40 hours and why I should not further modify the determination for the Seamless Hosiery Industry to provide that the applicable regulations for the employment of learners and handicapped workers issued by the Administrator of the Wage and Hour Division of the Department of Labor should apply to contracts awarded subject to the minimum wage determination for that industry under the Walsh-Healey Public Contracts Act.

This notice was predicated upon the belief that the Wage Order, issued by the Administrator of the Wage and Hour Division and effective September 15, 1941, providing that the minimum wage paid by employers in the Seamless Hosiery Industry subject to the provisions of the Fair Labor Standards Act of 1938 must be at least 36 cents per hour, had the effect of establishing 36 cents per hour as the prevailing minimum wage in the industry within the meaning of section 1 (b) of the Walsh-Healey Public Contracts Act.

The notice of opportunity to show cause was sent to trade unions, trade publications, and trade associations. Notice also was given to interested parties by publication in the FEDERAL REGISTER (7 F.R. 797).

No objections or protests to the proposed action were received from any source.

Upon consideration of all the facts and circumstances,

I hereby determine:

§ 202.6 *Seamless hosiery industry.* That the minimum wage for employees engaged in the performance of contracts with agencies of the United States subject to the provisions of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U.S.C. Supp. III 35) for the manufacture and furnishing of seamless hosiery shall be 36 cents per hour or $14.40 for a week of 40 hours, arrived at either upon a time or piece work basis,

Provided, That learners and handicapped workers may be employed in accordance with the present regulations under the Fair Labor Standards Act of 1938 which regulations I hereby adopt for the purposes of this wage determination.

This determination shall be effective and the minimum wages hereby established shall apply to all contracts subject to the Walsh-Healey Public Contracts Act, bids for which are solicited or negotiations otherwise commenced on or after March 30, 1942.

Nothing in this determination shall affect such obligations for the payment of minimum wages as an employer may have under the Fair Labor Standards Act of 1938 or any other law, or agreement more favorable to employees than the requirements of this determination.

Dated: March 12, 1942.

FRANCES PERKINS,
Secretary.

[F. R. Doc. 42-2160; Filed, March 13, 1942; 10:20 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

CHAPTER III—GRAZING SERVICE

PART 501—THE FEDERAL RANGE CODE

"PRIOR WATER" DEFINED

Pursuant to the provisions of the act of June 28, 1934 (48 Stat. 1269), as amended, section 2 (l) of the Federal Range Code [Title 43, CFR 501.2 (l)] is amended to read as follows:

§ 501.2 *Definitions.*

* * * * *

(l) *Prior water.* Water which was used to service certain public-land range for a given number of livestock during the 5-year period immediately preceding June 28, 1934: *Provided*, That no water shall be considered as prior unless offered as base property in an application for a grazing license or permit filed within one year after the public lands which were used in creating the priority become a part of a grazing district: *And further provided*, That in cases wherein such lands become a part of a grazing district prior to March 16, 1941, a water shall not be considered as prior unless offered in an application prior to March 16, 1942. It will be considered prior water only to the extent of the greatest number of livestock that was properly grazed from it for a substantial period of time during the 5-year period immediately preceding June 28, 1934. (Sec. 2, 48 Stat. 1270; 43 U.S.C. 315a)

ARCHIE D. RYAN,
Acting Director of Grazing.

Approved: March 12, 1942.

E. K. BURLEW,
First Assistant Secretary.

[F. R. Doc. 42-2163; Filed, March 13, 1942; 9:45 a. m.]

TITLE 46—SHIPPING

CHAPTER I—BUREAU OF MARINE INSPECTION AND NAVIGATION

[Order No. 228]

MARINE ENGINEERING REGULATIONS

AMENDMENTS

FEBRUARY 28, 1942.

Pursuant to the authority of R. S. 4405, as amended (46 U.S.C. 375), the Board of Supervising Inspectors, Bureau of Marine Inspection and Navigation, convened in the conference room, No. 1851, Department of Commerce, Washington, D. C., on January 21, 1942, at which session, after public hearings, the following regulations and amendments were adopted:

The titles of Subchapter F and of the component parts thereof (Parts 50 to 58, inclusive) are amended to read as follows:

SUBCHAPTER F—MARINE ENGINEERING

PART 50—GENERAL PROVISIONS
PART 51—MATERIALS
PART 52—CONSTRUCTION
PART 53—INSTALLATION
PART 54—INSPECTION
PART 55—PIPING SYSTEMS
PART 56—FUSION WELDING
PART 57—SUPPLEMENTARY DATA AND REQUIREMENTS
PART 58—BOILER PLATE; BOILERS AND ATTACHMENTS

SUBCHAPTER F—MARINE ENGINEERING

Part 50 of Subchapter F is amended to read as follows:

PART 50—GENERAL PROVISIONS

Sec.
50.1 Basis and application of rules.
50.2 Definition of terms.

§ 50.1 *Basis and application of rules.* The rules in this subchapter contain specifications and requirements for materials, design, construction, installation, and inspection of boilers, unfired pressure vessels and appurtenances thereof, also piping, valves, fittings, flanges, safety valves, etc., upon the strength and efficiency of which safety of life is dependent, and are intended for maximum temperatures of 1,000° F. Their application is intended for installations contracted for or built after the date the rules in this subchapter became effective.[1] They are not retroactive.

Where existing vessels are reboilered, the mountings and attachments, including feed and blow-off valves and fittings, shall be renewed in accordance with the rules in this subchapter. The steam piping shall be gauged and examined by the local inspectors and if found to be of the thickness required at the time the piping was installed may be continued in service, provided the local inspectors are satisfied that its condition is such as to warrant its continued use.

§ 50.2 *Definition of terms.* Certain terms used in the rules in this subchapter are defined as follows:

(a) "Bureau" means the United States Bureau of Marine Inspection and Navigation.

(b) "Board" means the Board of Supervising Inspectors of the Bureau of Marine Inspection and Navigation.

(c) "Director" means the Director of the Bureau of Marine Inspection and Navigation.

(d) "Inspector" means a duly authorized inspector of the Bureau of Marine Inspection and Navigation.

(e) "Requirements" means process of manufacture, characteristics, physical and chemical properties, tests, workmanship, and finish of materials.

(f) "High temperature" means temperature over 500° F.

(g) "Low" and "moderate temperature" means temperature up to and including 500° F.

(h) "Maximum allowable working pressure" within the meaning of the rules in this subchapter refers to the gage pressure, or the pressure above the atmosphere in pounds per square inch.*

*§§ 50.1 and 50.2 issued under the authority contained in R.S. 4405, 4417a, 4418, 4433, 4434, as amended; 46 U.S.C. 375, 391a, 392, 411, 412.

Part 51 of Subchapter F is amended to read as follows:

PART 51—MATERIALS

GENERAL

Sec.
51.1-1 Statutory requirements.
51.1-2 Basic information requirements.
51.1-3 General classification of materials.
51.1-4 Inspection and testing of class A material.
51.1-5 Chemical analyses.
51.1-6 Certification of class B material.
51.1-7 Tension test.
51.1-8 Test reports.
51.1-9 Re-tests.
51.1-10 Rejections.
51.1-11 Appeals.
51.1-12 Process of steel manufacture.
51.1-13 Stamping plates and specimens.
51.1-14 Stock plates.
51.1-15 Workmanship and finish.
51.1-16 Heat treatment.
51.1-17 Reclassification of materials.
51.1-18 Alternative materials.

MARINE BOILER STEEL PLATE

51.2-1 Scope.
51.2-2 Chemical composition.
51.2-3 Tensile properties.
51.2-4 Modifications in elongation.
51.2-5 Bending properties.
51.2-6 Test specimens.
51.2-7 Number of tests.
51.2-8 Permissible variations in thickness and weight.
51.2-9 Finish.
51.2-10 Marking.

SEAMLESS STEEL DRUM FORGINGS

(Deleted)

STAYBOLT STEEL

51.4-1 Scope.
51.4-2 Process.
51.4-3 Chemical composition.
51.4-4 Tensile properties.
51.4-5 Bending properties.
51.4-6 Test specimens.
51.4-7 Number of tests.
51.4-8 Permissible variations in diameter.
51.4-9 Finish.
51.4-10 Marking.

STEEL BARS AND SHAPES

Sec.
51.5-1 Process.
51.5-2 Chemical composition.
51.5-3 Tension tests.
51.5-4 Modifications in elongation.
51.5-5 Bending properties.
51.5-6 Test specimens.
51.5-7 Number of tests.
51.5-8 Permissible variation in gage.
51.5-9 Finish.
51.5-10 Marking.

WROUGHT-IRON BARS FOR STAYS AND STAY BOLTS

51.6-1 Materials and purposes.
51.6-2 Definitions of terms.
51.6-3 Tensile properties.
51.6-4 Chemical composition and tests.
51.6-5 Modifications in tensile properties.
51.6-6 Bend tests.
51.6-7 Etch tests.
51.6-8 Number of tests.
51.6-9 Finish.
51.6-10 Marking.

RIVET STEEL

51.7-1 Scope.
51.7-2 Process.
51.7-3 Chemical composition.
51.7-4 Tensile properties.
51.7-5 Bending properties.
51.7-6 Test specimens.
51.7-7 Tests of finished rivets.
51.7-8 Permissible variations in diameter.
51.7-9 Workmanship and finish.

RIVET IRON

51.8-1 Materials and purposes.
51.8-2 Chemical properties.
51.8-3 Tensile properties.
51.8-4 Bend tests.
51.8-5 Test specimens.
51.8-6 Number of tests.
51.8-7 Micrographic tests.
51.8-8 Physical properties and tests.
51.8-9 Workmanship and finish.
51.8-10 Inspection.
51.8-11 Rejection.

LAP-WELDED AND SEAMLESS STEEL AND LAP-WELDED IRON BOILER TUBES

51.9-1 Scope.
51.9-2 Process.
51.9-3 Chemical composition.
51.9-4 Check analysis.
51.9-5 Flange tests.
51.9-6 Flattening tests.
51.9-7 Crush test.
51.9-8 Hydrostatic test.
51.9-9 Etch test for charcoal iron tubes.
51.9-10 Test specimens.
51.9-11 Number of tests.
51.9-12 Retests.
51.9-13 Forming operations.
51.9-14 Permissible variations in dimensions and weight.
51.9-15 Finish.
51.9-16 Marking.

ELECTRIC-RESISTANCE-WELDED STEEL AND OPEN-HEARTH IRON BOILER AND SUPERHEATER TUBES

51.9a-1 Scope.
51.9a-2 Process.
51.9a-3 Manufacture.
51.9a-4 Chemical composition.
51.9a-5 Check analysis.
51.9a-6 Flattening test.
51.9a-7 Flange test.
51.9a-8 Crush test for Grades A & B tubes.
51.9a-9 Tensile properties.
51.9a-10 Flaring test for Grade D tubes.
51.9a-11 Hardness test for Grade D tubes.
51.9a-12 Hydrostatic test.
51.9a-13 Test specimens.
51.9a-14 Number of tests.
51.9a-15 Retests.
51.9a-16 Forming operations.
51.9a-17 Finish.
51.9a-18 Marking.

SEAMLESS STEEL BOILER TUBES FOR HIGH-PRESSURE SERVICE; MEDIUM CARBON SEAMLESS STEEL BOILER AND SUPERHEATER TUBES; CARBON-MOLYBDENUM ALLOY-STEEL BOILER AND SUPERHEATER TUBES

Sec.
51.10-1 Scope.
51.10-2 Process.
51.10-3 Manufacture.
51.10-4 Chemical composition.
51.10-5 Check analysis.
51.10-6 Tensile properties.
51.10-7 Flattening test.
51.10-8 Flaring test.
51.10-9 Hardness test.
51.10-10 Hydrostatic test.
51.10-11 Test specimens.
51.10-12 Number of tests.
51.10-13 Retests.
51.10-14 Retreatment.
51.10-15 Forming operations.
51.10-16 Permissible variations in dimensions and weight.
51.10-17 Finish.
51.10-18 Marking.

STEEL PIPE

51.11-1 Scope.
51.11-2 Process.
51.11-3 Chemical requirements.
51.11-4 Tensile requirements.
51.11-5 Bending properties.
51.11-6 Flattening tests.
51.11-7 Hydrostatic tests.
51.11-8 Test procedure.
51.11-9 Finish and marking.

WELDED WROUGHT-IRON PIPE

51.12-1 Material and purpose.
51.12-1a Chemical composition.
51.12-2 Tensile properties.
51.12-3 Fracture tests.
51.12-4 Bend tests.
51.12-5 Test specimens.
51.12-6 Number of tests.
51.12-7 Hydrostatic tests.
51.12-8 Permissible variations and dimensions.
51.12-9 Inspection and rejection.
51.12-10 Marking.

SEAMLESS BRASS PIPE

51.13-1 Scope.
51.13-2 Process.
51.13-3 Temper.
51.13-4 Chemical requirements.
51.13-5 Sampling.
51.13-6 Expansion test.
51.13-7 Strain test.
51.13-8 Threading test.
51.13-9 Bending properties.
51.13-10 Hydrostatic test.
51.13-11 Number of tests.
51.13-12 Workmanship.
51.13-13 Finish.
51.13-14 Rejection.

SEAMLESS COPPER PIPE

51.14-1 Scope.
51.14-2 Process.
51.14-3 Condition or temper.
51.14-4 Chemical requirements.
51.14-5 Sampling for chemical analysis.
51.14-6 Expansion test.
51.14-7 Bending properties.
51.14-8 Microscopic examination.
51.14-9 Hydrostatic test.
51.14-10 Number of tests.

STEEL FORGINGS

51.15-1 Scope.
51.15-2 Process.
51.15-3 Discard.
51.15-4 Manufacturing practice.
51.15-5 Heat treatment.
51.15-6 Chemical composition.
51.15-7 Tensile properties.
51.15-8 Hydrostatic tests.
51.15-9 Test specimens.
51.15-10 Number of tests.
51.15-11 Retests.
51.15-12 Macro-etch tests.
51.15-13 Workmanship and finish.
51.15-14 Marking.

ALLOY-STEEL BOLTING MATERIAL

51.16-1 Scope.
51.16-2 Process.
51.16-3 Heat treatment.
51.16-4 Chemical composition.
51.16-5 Tensile properties.
51.16-6 Brinell hardness test.
51.16-7 Workmanship and finish.
51.16-8 Nuts and washers.

CARBON AND ALLOY-STEEL NUTS FOR HIGH-TEMPERATURE SERVICE

51.16a-1 Scope.
51.16a-2 Process.
51.16a-3 Fabrication.
51.16a-4 Stress relieving.
51.16a-5 Chemical composition.
51.16a-6 Hardness test.
51.16a-7 Drift test.
51.16a-8 Stripping test.
51.16a-9 Finish.

STEEL CASTINGS

51.17-1 Scope.
51.17-2 Process.
51.17-3 Heat treatment.
51.17-4 Chemical composition.
51.17-5 Tensile properties.
51.17-6 Bending properties.
51.17-7 Hydrostatic tests.
51.17-8 Test specimens.
51.17-9 Number of tests.
51.17-10 Retests.
51.17-11 Workmanship.
51.17-12 Finish.

GRAY IRON CASTINGS FOR VALVES, FLANGES, AND PIPE FITTINGS

51.18-1 Scope.
51.18-2 Process.
51.18-3 Chemical composition.
51.18-4 Tensile properties.
51.18-5 Transverse test.
51.18-6 Mold.
51.18-7 Test specimens.
51.18-8 Tension test apparatus.
51.18-9 Records.
51.18-10 Workmanship and finish.

MALLEABLE IRON CASTINGS

51.19-1 Material and scope.
51.19-2 Process.
51.19-3 Tensile properties.
51.19-4 Test specimens.
51.19-5 Number of tests.
51.19-6 Special tests.
51.19-7 Reannealing.
51.19-8 Workmanship and finish.
51.19-9 Marking.
51.19-10 Inspection and rejection.

MALLEABLE IRON CASTINGS FOR PIPE FITTINGS

51.19-11 Cupola malleable iron.
51.19-12 Grade B castings.
51.19-13 Tensile properties.
51.19-14 Test specimens.
51.19-15 Requirements.
51.19-16 Workmanship and finish.

BRONZE CASTINGS

51.20-1 Materials and purposes.
51.20-2 Manufacture.
51.20-3 Chemical composition.
51.20-4 Chemical analysis.
51.20-5 Tensile properties.
51.20-6 Test specimens.
51.20-7 Number of tests.
51.20-8 Workmanship and finish.
51.20-9 Marking.
51.20-10 Certification.

STEEL PLATES (FLANGE AND FIREBOX QUALITY)

Sec.
51.21-1 Scope.
51.21-2 Process.
51.21-3 Heat treatment.
51.21-4 Chemical composition.
51.21-5 Tensile properties.
51.21-6 Modifications in elongation.
51.21-7 Bending properties.
51.21-8 Test specimens.
51.21-9 Number of tests.
51.21-10 Permissible variations in thickness and weight.
51.21-11 Finish.
51.21-12 Marking.
51.21-13 Manufacturer's certification.

STEEL PLATES FOR WELDING

51.22-1 Scope.
51.22-2 Process.
51.22-3 Chemical composition.
51.22-4 Tensile properties.
51.22-5 Bending properties.
51.22-6 Test specimens.
51.22-7 Number of tests.
51.22-8 Permissible variations in thickness and weight.
51.22-9 Finish.
51.22-10 Marking.
51.22-11 Manufacturer's certification.

General

§ 51.1-1 *Statutory requirements.* (a) Plates, bars, and shapes used as pressure parts of boilers intended for marine service shall be tested, inspected, and stamped by an inspector in accordance with the requirements of Title 52 of the Revised Statutes of the United States.

(b) Material used for pressure parts in the construction of pressure vessels other than boilers shall conform to the requirements of this part. Unfired pressure vessels designed for a maximum allowable working pressure not exceeding 700 lbs. per square inch and temperatures not exceeding 500° F. may be constructed of steel plate meeting the specifications of §§ 51.21-1 to 51-21-13 inclusive, or §§ 51.22-1 to 51.22-11 inclusive, provided that such material is tested and stamped by the manufacturer. Plates for this purpose are not required to be tested and inspected by a duly authorized inspector, but may be accepted on the certification of the manufacturer as to their chemical and physical properties.*

*§§ 51.1-1 to 51.23-11, inclusive, issued under the authority of R.S. 4405, 4417a, 4418, 4426, 4430, 4433, 4434, as amended; 46 U.S.C. 375, 391a, 392, 404, 406, 411, 412.

§ 51.1-2 *Basic information requirements.* When ordering material for the construction of boilers or pressure vessels to be installed on vessels subject to the jurisdiction of the Bureau, boiler manufacturers shall, as far as practicable, furnish the following information to the manufacturer of the material and to the Director.

(a) Name and location of manufacturer's works.

(b) Type and identifying dimensions of boiler or pressure vessel.

(c) Manufacturer's serial or shop number.

(d) Working pressure required.

(e) Local inspection district in which the completed boiler or pressure vessel will be first inspected after installation.

[1] The rules contained in Parts 50–57 inclusive, in Subchapter F became effective on July 1, 1935.

(f) Name and address of builder of hull.
(g) Owner of hull.
(h) Name or builder's number of hull.
(i) Waters upon which the vessel is to be navigated.
(j) Home port.*

§ 51.1–3 *General classification of materials.* (a) The materials to be used in the construction of boilers and pressure vessels, piping, valves, fittings, and appurtenances as hereinafter enumerated shall be of three general classes of which classes A and B shall be used for pressure parts and class C may be used for other parts as specified.

Class A: Tested materials manufactured under the supervision of the Bureau, tests of which shall be witnessed by an inspector.

Class B: Certified materials tested by the manufacturers, and certified by them as conforming to the requirements.

Class C: Materials for nonpressure parts of boilers or pressure vessels such as casings for water-tube boilers, uptakes, furnace fronts, and operating equipment shall be of good commercial quality. No detail requirements are herein specified for materials in this class. Class C materials shall be accepted by inspectors without requiring tests or certification by manufacturers.

(b) Except as may be otherwise required, the classification of materials under A and B and the sections of this part in which they are specified, are as follows:

CLASS A

Sec.	
51.2–1 to 51.2–10	Marine boiler steel plate.
51.3–1 to 51.3–13	(Deleted.)
51.4–1 to 51.4–10	Staybolt steel.
51.5–1 to 51.5–10	Steel bars and shapes.
51.6–1 to 51.6–10	Extra-refined wrought iron.
51.7–1 to 51.7–9	Rivet steel.
51.8–1 to 51.8–11	Rivet iron.

CLASS B

51.9–1 to 51.9–16	Lap-welded and seamless steel and lap-welded iron boiler tubes.
51.9a–1 to 51.9a–18	Electric-resistance-welded steel and open-hearth iron boiler and superheater tubes.
51.10–1 to 51.10–18	Seamless steel boiler tubes for high-pressure service. Medium-carbon seamless steel boiler and superheater tubes. Carbon-molybdenum alloy-steel boiler and superheater tubes.
51.11–1 to 51.11–9	Steel pipe.
51.12–1 to 51.12–10	Welded wrought-iron pipe.
51.13–1 to 51.13–9	Seamless brass pipe.
51.14–1 to 51.14–7	Copper pipe.
51.15–1 to 51.15–14	Steel forgings.
51.16–1 to 51.16–8	Alloy-steel bolting material.
51.16a–1 to 51.16a–9	Carbon and alloy-steel nuts for high-temperature service.
51.17–1 to 51.17–12	Steel castings.
51.18–1 to 51.18–10	Gray-iron castings.
51.19–1 to 51.19–16	Malleable-iron castings.
51.20–1 to 51.20–10	Bronze castings.
51.21–1 to 51.21–13	Steel plates, flange and firebox quality.
51.22–1 to 51.22–11	Steel plates for welding, flange and firebox quality.

§ 51.1–4 *Inspection and testing of class A material.* Inspectors shall have free entry at all times to those parts of the works where material subject to the rules in this part is being manufactured. The manufacturer shall afford inspectors all reasonable facilities to satisfy them that the material is being manufactured in accordance with the requirements of the Bureau. Unless otherwise authorized, tests and inspection shall be made at the place of manufacture prior to shipment and shall be so conducted as not to interfere unnecessarily with the operation of the works. Inspectors shall assure themselves that test specimens are marked for certain identification with the materials which they represent. Unless otherwise specified, tests shall be made at ordinary temperature.*

§ 51.1–5 *Chemical analyses.* (a) A ladle analysis of each melt of steel for materials comprised in class A shall be made by the manufacturer and a certified report thereof shall be furnished by him to the inspector upon request. This analysis shall be made from a test ingot taken during the pouring of the melt. The chemical composition thus determined shall conform to the specified requirements. This requirement shall apply also to the following materials comprised in class B:

Steel forgings specified in §§ 51.15–1 to 51.15–14.

Alloy-steel bolting material specified in §§ 51.16–1 to 51.16–8.

Steel castings specified in §§ 51.17–1 to 51.17–12.

Bronze castings specified in §§ 51.20–1 to 51.20–10.

Steel plates, flange and firebox quality specified in §§ 51.21–1 to 51.21–13.

Steel plates of flange or firebox quality for welding specified in §§ 51.22–1 to 51.22–11.

(b) A check analysis may be made at the discretion of the Director from test specimens representing material for which chemical composition is specified in any section of this part, in either of classes A or B. The chemical composition thus determined shall conform to the requirements.*

§ 51.1–6 *Certification of class B material.* (a) Certification of chemical analyses and physical tests of materials of class B shall be an affidavit by the manufacturer on an officially approved form certifying that all materials of this class supplied by him for marine service do, or will conform to all the requirements of the rules in this part applicable thereto.

(b) Materials in this class are not required to be tested in the presence of an inspector, but whenever deemed necessary by the Director, he may detail an inspector to witness such tests and satisfy himself that the requirements of the specification for Class B materials are being complied with.*

§ 51.1–7 *Tension tests.* All tension tests shall be made on approved standard and calibrated machines. The yield point in tension tests shall be determined by the drop of the beam or the halt in the gage of the testing machine. Except where otherwise specified in §§ 51.15–1 to 51.15–14, 51.17–1 to 51.17–12, the speed of the cross head of the machine shall not exceed three-fourths inch per minute. Figures M–1 to M–8, inclusive, show particulars of test specimens, etc. The ends of all specimens shall be of form to fit the holders of the testing machine in such a way that the load will be axial.*

§ 51.1–8 *Test reports.* Inspectors shall report the results of official tests of materials to the Director on Form 934. Copies thereof shall be forwarded through the supervising inspector to the local inspectors in the district where the material is to be processed or fabricated.*

§ 51.1–9 *Re-tests.* When the result of any of the physical tests specified for any of the materials does not conform to the requirements, two additional specimens may, at the request of the manufacturer, be taken from the same lot and tested in the manner specified, but in such case, both of the specimens must conform to the requirements. In the case of tension tests, this re-test shall be allowed if the percentage of elongation obtained is less than required, or if any part of the fracture is outside of the middle third of the gage length. If any test specimen develops flaws, it shall be discarded and another specimen from the same lot be substituted.*

§ 51.1–10 *Rejections.* Failure of the test (or re-tests) specified in the rules in this subchapter for each particular material shall be cause for rejection. Unless otherwise required, any rejection shall be reported by the inspector within 5 working days from the receipt of the test specimen. Acceptance of material on results of tests at the place of manufacture shall not prejudice the right to reject any of such material in which injurious defects are subsequently discovered. The manufacturer shall be promptly notified of such subsequent rejections, and the records shall be corrected.*

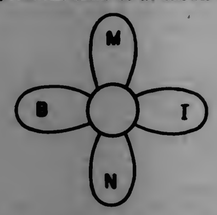
§ 51.1–11 *Appeals.* In case of dissatisfaction with the results of any test, the manufacturer may, within 30 days from date of test report, appeal to the Director from the inspector's decision. Tested specimens which represent rejected material shall be preserved for at least 30 days.*

§ 51.1–12 *Process of steel manufacture.* Unless otherwise officially authorized by the Bureau, all wrought steel to be used in the construction of boilers or other pressure vessels to be installed on vessels shall be manufactured by either the open-hearth or electric furnace process.*

§ 51.1–13 *Stamping plates and specimens.* (a) Plates shall be stamped by the manufacturer, before they are tested, with his name or trademark, and the minimum tensile strength of the plate per square inch of cross-sectional area

expressed in thousandths. Inspectors shall permit cutting a plate into two or more parts before testing, but each part shall be stamped or match-marked for identification before cutting. All plates accepted by the inspector as conforming to the requirements shall be stamped by him near the manufacturer's stamp with the official stamp of the Bureau, the initials of his name, and the serial number. All test specimens shall be ring-stamped or match-marked for identification before being detached. Plates shall be stamped lengthwise in two places on one long side about 18 inches from the edges at the corners. Each butt strap shall be stamped lengthwise of the plate about the middle of the strap.*

(b) The impression of the official stamp of the Bureau for stamping plates and specimens shall be as shown below:



§ 51.1–14 *Stock plates.* Plates may be ordered to be carried in stock ashore or on shipboard for repairs to boilers and other pressure vessels. Such plates shall be inspected and tested at the place of manufacture and stamped for identification as stock plates. A test report for such plates shall be furnished to the supervising inspector of the district where the purchaser is located, with a copy to the purchaser. The supervising inspector shall furnish a copy thereof to the local inspectors in the district where the material is kept in stock, and if the material is to be used by persons other than the original purchaser, they shall also be furnished with a copy of such report, for submittal by them to the local board in the district where the repairs are actually to be made before the material may be used. Vessels carrying such stock plates shall obtain and carry identification and test records of each plate. Where such plates are cut into pieces for repairs, the local inspectors shall, upon request, stamp each piece so detached for identification with the original plate and a record of such stamping shall be made.*

§ 51.1–15 *Workmanship and finish.* All materials within the scope of the rules in this subchapter shall be free from injurious defects and shall have a workmanlike finish.*

§ 51.1–16 *Heat treatment.* Some of the materials herein specified require heat treatment. This may consist of annealing, or of normalizing, or of normalizing followed by annealing, or of normalizing followed by a draw back to a temperature below the critical range. Annealing shall consist of allowing material to cool after forging or rolling to a temperature below the critical range, then reheating it to proper temperature to refine the grain and allowing it to cool in the furnace. Normalizing shall consist of allowing material to cool after forging or rolling to a temperature below the critical range, then reheating it to proper temperature to refine the grain and allowing it to cool in still air.*

§ 51.1–17 *Reclassification of materials.* When more than one grade is specified for any material or purpose and tests of material of a superior grade fail to meet the requirements such material may be reclassified and accepted as a specified lower grade if it fulfills the specified requirements for the latter. In such cases, the material shall be restamped or re-marked as required for proper identification, and revised records shall be made to cover it.*

§ 51.1–18 *Alternative materials.* If, in the development of industrial arts, other suitable or improved materials differing from those specified in this part are developed, their use will be given consideration, upon formal application to the Bureau with full information as to the characteristics of the material, and such scientific data and facts as may be necessary to establish the suitability and safety of the material for the use proposed. The material requirements in this subchapter are minimum requirements and are not intended to bar better materials.*

Marine Boiler Steel Plate

NOTE: In substantial agreement with A. S. T. M. Designations A 201–39, A 212–39, and A 204–39. Tested material—Class A.

§ 51.2–1 *Scope.* (a) There shall be seven grades of marine boiler steel plates, subject to Class A inspection. These grades are designated A, B, C, D, E, F, and G. Grades A and B cover two ordinary tensile strength ranges in carbon-silicon steel plates; Grades C and D cover two high tensile strength ranges in carbon-silicon steel plates; Grades E, F, and G cover three high tensile strength ranges in carbon-molybdenum steel plates. All grades may be furnished in flange or firebox qualities. Plates of flange quality are limited in thickness to two inches. Plates of firebox quality are limited in thickness as follows: Grades A and B, to six inches; Grades C and D, to four and one-half inches; Grades E and F, to six inches; and Grade G to four inches. Where forge welding is necessary, the carbon content of the steel shall not exceed 0.22 percent.

(b) Steel plates for any part of a boiler subject to pressure and exposed to the fire or products of combustion shall be of firebox quality; steel plates for any part of a boiler subject to pressure and not exposed to the fire or products of combustion shall be of firebox or flange quality.

(c) All of these grades may be fusion welded, but welding technique is of fundamental importance. Fusion welding procedure shall be in accordance with §§ 56.20–1 to 56.20–19.

(d) Sufficient discard from the top of each ingot shall be made, at any stage of the manufacture, to secure freedom from piping and undue segregation in the finished product, but in no case shall the amount of top discard be less than 30 percent.

(e) *Heat treatment.* (1) When plates are to be used in a boiler or pressure vessel which is to be stress relieved after welding, the test specimens for such plates shall be stress relieved by gradually and uniformly heating them to 1100° F. to 1200° F., holding at that temperature for a period of one hour per inch of thickness, and cooling in still atmosphere. In such cases both the plates and the test specimens shall be stamped "S. R." to show that the tensile strength of the plate in the stress relieved state is not less than the minimum specified.

(2) Plates over two inches in thickness, before being fabricated, shall be uniformly heat treated to produce grain refinement. Heat treatment involving quenching in a liquid medium is not permitted. If this treatment is not done at the rolling mill the testing shall be carried out in accordance with subparagraph (3).

(3) When a fabricator who is equipped to perform the work properly, elects to do the required heat treatment for grain refinement he shall so indicate in his orders to the mill and he shall accept the plates on the basis of the mill tests. The plate manufacturer shall make the tests prescribed in these specifications, the tension and bend test specimens to be prepared from full thickness pieces heat treated under conditions he considers appropriate for grain refinement and to give the test requirements. The manufacturer shall inform the fabricator of the procedure followed in treating the pieces at the mill for guidance in treating the plates. The required physical properties shall be determined after heat treatment of the plates on specimens prepared from pieces similarly and simultaneously treated with the plates. Pieces for two tension tests, one top and one bottom, shall be provided from each plate as rolled.[1] These pieces shall be stamped by the inspector with his official stamp for identification.

(4) In the case of plates over two inches in thickness which subsequently are to be stress relieved, the test specimens for such plates shall, before testing, be stress relieved as specified in subparagraph (1) following the heat treatment for grain refinement.

(5) Orders to the plate manufacturer shall specify when plates subject to the requirements of this section are to be stress relieved and when they are to be heat treated for grain refinement by the fabricator so that proper provision may be made for the treatment of test specimens.*

[1] The term "plate as rolled" used here and in §§ 51.2–6 (c) and 51.2–7 (a) refers to the unit plate rolled from a slab or directly from an ingot in its relation to the location and number of specimens; not to its condition.

§ 51.2–2 *Chemical composition.* (a) The steel shall conform to the following requirements as to chemical composition:

	Grades						
	A	B	C	D	E	F	G
Carbon, max., percent:							
For plates 1 in. and under in thickness	0.25	0.24	0.28	0.31	0.18 to .21	0.20 to .23	0.28 to .28
For plates over 1 to 2 in., incl., in thickness	.26	.27	.31	.33	.23 to .25	.23 to .25	.28 to .28
For plates over 2 to 4 in., incl., in thickness	.27	.30	.33	.35	.25 to .27	.25 to .27	
For plates over 4 to 6 in., incl., in thickness	.31	.35			.50 to .90	.50 to .90	.50 to .90
Manganese, max., percent	.90	.80	.90	.90			
Phosphorous, max., percent:							
Flange	.04	.04	.04	.04	.04	.04	.04
Firebox	.035	.035	.035	.035	.035	.035	.035
Sulphur, max., percent:							
Flange	.05	.05	.05	.05	.05	.05	.05
Firebox	.04	.04	.04	.04	.04	.04	.04
Silicon, percent	.15 to .30	.15 to .30	.15 to .30	.15 to .30	.15 to .30	.15 to .30	.15 to .30
					.40 to .60	.40 to .60	.40 to .60
Molybdenum, percent							

§ 51.2–3 *Tensile properties*—(a) *Grades A and B.* (1) The material shall conform to the following requirements as to tensile properties:

	Grade A	Grade B
Tensile strength, psi	55,000 to 65,000	60,000 to 70,000
Yield point, Min. psi	0.5 tens. str.	0.5 tens. str.
Elongation in 8 inches, min. percent:		
Flange	1,800,000 ÷ tens. str.	1,800,000 ÷ tens. str.
Firebox	1,560,000 ab tens. str.	1,560,000 ab tens. str.
Elongation in 2 inches, min. percent:[c]		
Firebox	1,750,000 d tens. str.	1,750,000 tens. str.

[a] See § 51.2–4 (a) (1) and (3).
[b] See subparagraph (3).
[c] When specimen shown in Figure M–2 is used; See § 51.2–6 (f).
[d] See § 51.2–4 (a) (2).

(2) Tensile strength only need be determined on the tension test specimen taken from the top of firebox plates, and it shall not exceed 67,000 psi. for Grade A, nor 72,000 psi. for Grade B.

(3) Should the formula in subparagraph (1) for minimum elongation in 8 inches for firebox steel give a value of less than 25 percent for Grade A material or 23 percent for Grade B material the minimum allowable elongation shall be 25 and 23 percent for Grades A and B respectively, subject to the modifications of § 51.2–4 (a) (1).

(b) *Grades C and D.* (1) The material shall conform to the following requirements as to tensile properties:

	Grade C	Grade D
Tensile strength, psi	65,000 to 77,000	70,000 to 82,000
Yield point, min. psi	0.5 tens. str.	0.5 tens. str.
Elongation in 8 inches, min. percent:		
Flange	1,550,000 ÷ tens. str.	1,550,000 ÷ tens. str.
Firebox	1,600,000 ÷ tens. str.	1,600,000 ÷ tens. str.
Elongation in 2 inches, min. percent:		
Firebox	1,750,000 b tens. str.	1,750,000 b tens. str.

[a] See § 51.2–4 (b) (1) and (3).
[b] See § 51.2–4 (b) (2).

(2) Tensile strength only need be determined on the tension test specimen taken from the top of firebox plates, and it shall not exceed 79,000 psi. for Grade C, nor 84,000 psi. for Grade D.

(c) *Grades E, F, and G.* (1) The material shall conform to the following requirements as to tensile properties:

	Grade F	Grade G
Tensile strength, psi	70,000 to 82,000	75,000 to 87,000
Yield point, min. psi. but in no case less than	0.55 tens. str. 40,000	0.55 tens. str. 43,000
Elongation in 8 inches, min. percent:		
Flange	1,600,000 ÷ tens. str.	1,600,000 ÷ tens. str.
Firebox	1,600,000 ÷ tens. str.	1,600,000 ÷ tens. str.
Elongation in 2 inches, min. percent: [b]		
Firebox	1,750,000 ÷ tens. str.	1,750,000 ÷ tens. str.

[a] See § 51.2–4 (c) (1) and (3).
[b] When specimen shown in Figure M–2 is used; see § 51.2–6 (f).
[c] See § 51.2–4 (c) (2).

(2) Tensile strength only need be determined on the tension test specimen taken from the top of firebox plates, and it shall not exceed 80,000 psi. for Grade E, 85,000 psi. for Grade F, nor 90,000 psi. for Grade G.[c]

§ 51.2–4 *Modifications in elongation*—(a) *Grades A and B.* (1) For material over three-quarters inch in thickness, a deduction from the percentage of elongation in 8 inches specified in § 51.2–3 (a) (1) and (3) of 0.125 percent shall be made for each increase of one-thirty-second inch of the specified thickness above three-fourths inch, to a minimum of 19 percent for Grades E and F, and 18 percent for Grade G.

(2) For plates over two and one-half inches in thickness, a deduction from the percentage of elongation in 2 inches prescribed in § 51.2–3 (c) (1) of 0.5 percent shall be made for each increase of one-half inch of the specified thickness above two and one-half inches.

(3) For material one-fourth inch and under in thickness, the elongation shall be measured on a gage length of twenty-four times the thickness of the specimen.

(b) *Grades C and D.* (1) For material over three-fourths inch in thickness, a deduction from the percentage of elongation in 8 inches specified in § 51.2–3 (b) (1) of 0.125 percent shall be made for each increase of one-thirty-second inch of the specified thickness above three-fourths inch, to a minimum of 18 percent for flange steel and 19 percent for firebox steel.

(2) For material over two and one-half inches in thickness, a deduction from the percentage of elongation in 2 inches specified in § 51.2–3 (b) (1) of 0.5 percent shall be made for each increase of one-half inch of the specified thickness above two and one-half inches.

(3) For material one-fourth inch and under in thickness, the elongation shall be measured on a gage length twenty-four times the thickness of the specimen.

(c) *Grades E, F, and G.* (1) For plates over three-fourths inch in thickness, a deduction from the percentage of elongation in 8 inches prescribed in § 51.2–3 (c) (1) of 0.125 percent shall be made for each increase of one-thirty-second inch of the specified thickness above three-fourths inch, to a minimum of 19 percent for Grades E and F, and 18 percent for Grade G.

(2) For plates over two and one-half inches in thickness, a deduction from the percentage of elongation in 2 inches prescribed in § 51.2–3 (c) (1) of 0.5 percent shall be made for each increase of one-half inch of the specified thickness above two and one-half inches.

(3) For material one-fourth inch and under in thickness, the elongation shall be measured on a gage length of twenty-four times the thickness of the specimen.[c]

§ 51.2–5 *Bending properties.* The bend test specimen shall stand being bent cold through 180 degrees without cracking on the outside of the bent portion around a pin the diameter of which shall have the following relation to the thickness of the specimen. When the test is made on a specimen reduced in thickness, the rolled surface shall be on the outer curve of the bend.

Thickness of material	Ratio of pin diameter to thickness of specimen			
	Grade A	Grade B	Grade C	Grade D
1 inch and under	½	1	1½	2
Over 1 to 1½ in. incl	1	1½	2	2
Over 1½ to 3 in. incl	1½	2	2	2½
Over 3 to 4 in. incl	2	2½	2½	3
Over 4 to 6 in. incl	3½	3		

	Grade E	Grade F	Grade G
1 inch and under	1	1½	2
Over 1 inch to 2 in. incl	1½	2	2½
Over 2 inches to 4 inches, incl	1½	2	3
Over 4 inches to 6 inches, incl	2	2½	

§ 51.2–6 *Test specimens.* (a) For plates 2 inches and under in thickness the test specimens shall be prepared for testing from the material in its rolled condition.

(b) For plates over 2 inches in thickness the test specimens shall be prepared from the material in its heat-treated condition or from full thickness samples similarly and simultaneously treated. See §§ 51.2–1 (e) (2) and (3).

(c) Tension test specimens for firebox steel shall be taken from the top and bottom corners of the plate as rolled (see Note under § 51.2–1 (e) (3)), parallel to its longitudinal axis, and for flange steel from the bottom corner of the plate only. Bend test specimens shall be taken from the middle of the top of the plate as rolled, at right angles to its longitudinal axis.

(d) For plates 2 inches and under in thickness, tension and bend test specimens shall be the full thickness of the material and shall be machined to the form and dimensions shown in Figure M–1; or the bend test specimen may be machined with both edges parallel.

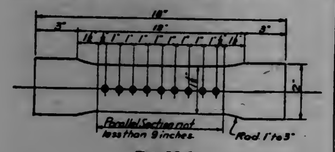


FIG. M–1.

(e) For Grade A and B plates up to 4 inches, inclusive, in thickness, tension test specimens may be the full thickness of the material and of the form shown in Figure M–1; when adequate testing machine capacity is available.

(f) For plates over 2 inches in thickness, except as permitted in paragraph (e), tension test specimens shall be machined to the form and dimensions shown in Figure M–2; and the axis of each such specimen shall be located midway between the center and the top or bottom surface of the plate. The bend test specimens shall be at least one and one-half inches in width, with both edges parallel, and may be reduced to two inches in thickness; but shall have one surface as rolled.

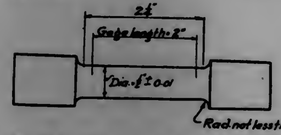

FIG. M–2.—For simplicity of computation it is recommended that the finished diameter of this test piece be made 0.505 inch which is equivalent to two tenths of a square inch in area.

(g) The sides of the bend test specimens may have the corners rounded to a radius not over one-sixteenth inch for plates two inches and under in thickness, and not over one-eighth inch for plates over two inches in thickness.[c]

§ 51.2–7 *Number of tests.* (a) Two tension tests and one bend test shall be made from each firebox steel plate as rolled. One tension test and one bend test shall be made from each flange steel plate as rolled. (See Note under § 51.2–1 (e) (3).)

(b) If any test specimen shows defective machining or develops flaws, it may be discarded and another specimen substituted.

(c) If the percentage of elongation of any test specimen is less than that specified in § 51.2–3 and any part of the fracture is more than three-fourths inch from the center of the gage length of a two inch specimen or is outside the middle third of the gage length of an eight inch specimen, as indicated by scribe scratches marked on the specimen before testing, a retest shall be allowed.[c]

§ 51.2–8 *Permissible variations in thickness and weight.* No plate shall vary more than 0.01 inch under the thickness specified.[c]

§ 51.2–9 *Finish.* The finished plates shall be free from injurious defect and shall have a workmanlike finish.[c]

§ 51.2–10 *Marking.* The quality classification to be marked on all Class A plates in accordance with § 51.1–13 shall be the word "Marine".[c]

Seamless Steel Drum Forgings

§§ 51.3–1 to 51.3–13 (Deleted).

Staybolt Steel

NOTE: In substantial agreement with A. S. T. M. Designation A 31–40. Tested material—Class A.

§ 51.4–1 *Scope.* These specifications cover two grades of staybolt steel to be used in boilers and other pressure vessels.[c]

§ 51.4–2 *Process.* The steel shall be made by either or both of the following processes: open-hearth or electric-furnace.[c]

§ 51.4–3 *Chemical composition.* The steel shall conform to the following requirements as to chemical composition:

	Grade A	Grade B
Carbon, max., percent		0.27
Manganese, percent	0.30 to 0.50	0.40 to 0.80
Phosphorous, max., percent	.04	.04
Sulphur, max., percent	.05	.05
Silicon, max., percent		.30

§ 51.4–4 *Tensile properties.* The material shall conform to the following requirements as to tensile properties:

	Grade A	Grade B
Tensile strength, psi	45,000 to 55,000	58,000 to 68,000.
Yield point, min. psi., but in no case less than	0.5 tens. str.	0.5 tens. str. 32,000.
Elongation in 8 in., min. percent	1,800,000 / tens. str. but not to exceed 30.	1,500,000 / tens. str. but in no case less than 23.

§ 51.4–5 *Bending properties*—(a) *Cold-bend tests.* The test specimen for Grade A steel shall stand being bent cold through 180 degrees flat on itself without cracking on the outside of the bent portion.

The test specimen for Grade B steel shall stand being bent cold through 180 degrees without cracking on the outside of the bent portion, as follows: For material three-fourths inch and under in diameter, around a pin the diameter of which is equal to one half the diameter of the specimen; for material over three-fourths inch in diameter, around a pin the diameter of which is equal to the diameter of the specimen.

(b) *Quench-bend tests.* The test specimen for Grade A steel when heated to a light cherry red as seen in the dark (not less than 1200 F.), and quenched at once in water the temperature of which is between 80 and 90 F., shall stand being bent through 180° flat on itself without cracking on the outside of the bent portion.

The test specimen for Grade B steel, when similarly heated and quenched, shall stand being bent cold through 180° without cracking on the outside of the bent portion, as follows: For material three-fourths inch and under in diameter, around a pin the diameter of which is equal to the diameter of the specimen; for material over three-fourths inch in diameter, around a pin the diameter of which is equal to one and one-half times the diameter of the specimen.[c]

§ 51.4–6 *Test specimens.* Test specimens shall be the full diameter of the bars as rolled.[c]

§ 51.4–7 *Number of tests.* (a) Two tension, two cold-bend, and two quench-bend tests shall be made from each melt. Each test shall conform to the requirements specified in §§ 51.4–4 to 51.4–5.

(b) If any test specimen develops flaws, it may be discarded and another specimen substituted.

(c) If the percentage of elongation of any tension test specimen is less than that specified in § 51.4–4 and any part of the fracture is outside the middle third of the gage length, as indicated by scribe scratches marked on the specimen before testing, a retest shall be allowed.[c]

§ 51.4–8 *Permissible variations in diameter.* The diameter of hot-finished staybolt bars shall not vary from the size specified by more than the amounts prescribed in table I.

TABLE I.—*Permissible variations in the size of hot-rolled rounds and squares*

Specified size	Variations from size (inches)		Out of round or square (inches)
	Over	Under	
5/16" and under	0.005	0.005	0.008
Over 5/16" to 7/16" incl	.006	.006	.009
Over 7/16" to 9/16" incl	.007	.007	.010
Over 9/16" to 5/8" incl	.008	.008	.012
Over 5/8" to 1" incl	.009	.009	.013
Over 1" to 1 1/16" incl	.010	.010	.015
Over 1 1/16" to 1 1/4" incl	.011	.011	.016
Over 1 1/4" to 1 3/8" incl	.012	.012	.018
Over 1 3/8" to 1 1/2" incl	.014	.014	.021
Over 1 1/2" to 2" incl	1/64	1/64	.028

§ 51.4–9 *Finish.* The material shall be free from injurious defects and shall have a workmanlike finish.*

§ 51.4–10 *Marking.* The staybolt bars shall, when loaded for shipment, be properly separated and marked with the name or brand of the manufacturer and the melt number for identification. The melt number shall be legibly marked on each test specimen.*

Steel Bars and Shapes

NOTE: In substantial agreement with A. S. M. E. Specification No. S–7. Tested Material—Class A.

§ 51.5–1 *Process.* The steel shall be made by either or both of the following processes: open-hearth or electric-furnace.*

§ 51.5–2 *Chemical composition.* The steel shall conform to the following requirements as to chemical composition:

Phosphorous, max. percent:	
Acid	0.05
Basic	0.04
Sulphur, max. percent	0.05

*

§ 51.5–3 *Tension tests.* The material shall conform to the following requirements as to tensile properties:

Tensile strength, lb. per sq. in.	55,000–65,000.
Yield point, min. lb. per sq. in.	0.05 tens. str.
Elongation in 8 in., min. percent	1,500,000 tens. str.
Elongation in 2 in., min. percent	20.

*

§ 51.5–4 *Modifications in elongation.* For material over three-fourths inch in thickness, a deduction from the percentages of elongation in 8 inches specified, of 0.25 percent shall be made for each increase of one-thirty-second inch of the specified thickness above three-fourths inch.*

§ 51.5–5 *Bending properties.* The bend test specimen shall stand being bent cold through 180° without cracking on the outside of the bent portion around a pin the diameter of which shall have the following relation to the thickness of the specimen:

Thickness of material	Ratio of pin diameter to thickness of specimen	
	Plates, sections, and bars	Eyebar flats unannealed
Three-fourths inch and under	½	1½
Over three-fourths to 1 inch, incl.	1	2½
Over 1 to 1½ inch, incl.	1½	3
Over 1½ inch to 2 inches, incl.	2½	4
Over 2 inches	3	4½

*

§ 51.5–6 *Test specimens.* (a) Test specimens shall be of the full thickness or diameter of material as rolled, except as specified in (b) and (c).

(b) Test specimens for shapes and flats may be machined to the form and dimensions shown in Figure M–1 or with both edges parallel.

(c) Test specimens for bars over one and one-half inches in thickness or diameter may be machined to a thickness or diameter of at least three-fourths inch for a length of at least 9 inches; or tension test specimens may conform to the dimensions shown in Figure M–2. Bend test specimens may be one by one-half inch in section.*

§ 51.5–7 *Number of tests.* (a) One tension and one bend test shall be made from each melt; except that if material from one melt differs three-eighths inch or more in thickness, one tension and one bend test shall be made from both the thickest and the thinnest material rolled.

(b) If any test specimen shows defective machining or develops flaws, it may be discarded and another specimen substituted.

(c) If the percentage of elongation of any tension test specimen is less than that specified in § 51.5–3 and any part of the fracture is more than three-fourths inch from the center of the gage length of a 2-inch specimen, or is outside the middle third of the gage length of an 8-inch specimen, as indicated by scribe scratches marked on the specimen before testing, a retest shall be allowed.*

§ 51.5–8 *Permissible variation in gage.* The diameter of each bar shall not vary from that specified more than the amount given in the following table:

Diameter, inches		Variation in diameter, inches		
Over	To and including	Under	Over	Out-of-round
	5/16	.007	.007	.010
5/16	7/16	.007	.007	.011
7/16	9/16	.008	.008	.012
9/16	7/8	.009	.009	.014
7/8	1	.010	.010	.015
1	1 1/8	.012	.012	.016
1 1/8	1 1/4	.014	.014	.018
1 1/4	1 3/8	.016	.016	.022
1 3/8	1 1/2	.018	.018	.026
1 1/2	2	.022	.022	.030
2	2 1/2	0	1/16	1/32
2 1/2	3 1/2	0	5/64	3/64

§ 51.5–9 *Finish.* The finished material shall be free from injurious defects and shall have a workmanlike finish.*

§ 51.5–10 *Marking.* Bars shall, when loaded for shipment, be properly separated, and marked with the name or brand of the manufacturer and melt number for identification. The melt number shall be legibly marked on each test specimen.*

Wrought-Iron Bars for Stays and Stay Bolts

NOTE: In substantial agreement with A. S. T. M. Specification A 84–39. Tested material—Class A.

§ 51.6–1 *Materials and purposes.* The bars shall be rolled from a slab pile, or box pile made from reworked wrought iron or reworked knobbled charcoal iron. The original muck or knobbled bars shall be twice piled and rerolled. All bars shall be the full length of the piles. The wrought iron and the component parts of the slab pile, or box pile shall be free from any admixture of iron scrap or steel.*

§ 51.6–2 *Definitions of terms*—(a) *Wrought iron.* Wrought iron, within the meaning of this specification, is a ferrous material aggregated from a solidifying mass of pasty particles of highly refined metallic iron, with which, without subsequent fusion, is incorporated a minutely and uniformly distributed quantity of slag.

(b) *Slab pile.* A slab pile is built up wholly of flat bars of iron all running the full length of the pile.

(c) *Box pile.* A box pile is a pile, the sides, top, and bottom of which are formed of flat bars, and the interior of a number of small bars, all bars running the full length of the pile.

(d) *Scrap iron.* This term applies to foreign or bought scrap and does not include local mill products free from foreign or bought scrap.*

§ 51.6–3 *Tensile properties.* The materials shall have the following tensile properties:

Tensile strength, lbs. per sq. in.	47,000–52,000
Yield point, min.	0.6 tens. str.
Elongation in 8 inches, min. percent	30
Reduction of area, min. do	48

*

§ 51.6–4 *Chemical composition and tests.* (a) The iron shall conform to the following requirements as to chemical composition: Manganese, not over 0.08 percent.

(b) If, in the judgment of the inspector, it is necessary, an analysis may be made from a broken test specimen representing each lot of bars to determine whether the chemical composition is in compliance with the above requirement.

(c) Drillings for analysis shall be so taken as to represent the entire cross-section of the specimen.*

§ 51.6–5 *Modifications in tensile properties.* For bars ⅞ inch down to and including 11/16 inch in diameter, the elongation shall be not less than 28 percent. For bars ⅞ inch and under in diameter, the elongation shall be not less than 25 percent. For bars over 1¼ square inches in sectional area, the following deductions from the minimum requirements specified in § 51.6–3 shall be made for each square inch of nominal section above 1¼ square inches:

Tensile strength	250 lbs., but not under 46,000 lbs. per sq. inch.
Reduction of area	3 percent, but not under 40 percent.

*

§ 51.6–6 *Bend tests.* (a) Bend tests may be made by pressure or blows; the test specimen shall stand being bent cold through 180° flat on itself in both directions, without fracture on the outside of the bent portions.

(b) The test specimen, when nicked 25 percent around with a tool having a 60° cutting edge, to a depth of not less than 8 nor more than 16 percent of the diameter of the specimen and broken, shall show a wholly fibrous fracture.*

§ 51.6–7 *Etch tests.* (a) The cross section of the test specimen shall be ground or polished, and etched for a sufficient period to develop the structure. This test shall show the material as follows: The material to have been rolled from a slab pile, or box pile and to be uniform and free from steel.

NOTE: A solution of 10 percent hydrochloric acid (sp. gr. 1.19), 90 percent sulphuric acid (sp. gr. 1.84), and 60 percent water; or 25 percent nitric acid (sp. gr. 1.42), and 75 percent water, is recommended for the etch test.

(b) Tension test specimens and bend-test specimens shall be of the full section of the material as rolled, if possible; otherwise the specimen shall be machined from the material as rolled.

(c) Etch-test specimens shall be of the full section of material as rolled.*

§ 51.6–8 *Number of tests.* (a) All bars of a given grade and size shall be piled separately, sorted in lots of 100 each. Two bars shall be selected at random from each lot or fraction thereof and tested as specified, but only one of these bars shall be tested as specified in § 51.6–7.

(b) If any test specimen from the bars originally selected to represent a lot of material contains surface defects not visible before testing but visible after testing, or if a tension-test specimen breaks outside the middle third of the gage length, the individual bar shall be rejected and one retest from a different bar will be allowed.*

§ 51.6–9 *Finish.* The bars shall be smoothly rolled and free from slivers, depressions, crop ends, seams, and evidences of being burnt.*

§ 51.6–10 *Marking.* The bars shall be stamped or otherwise marked as designated by the inspector.*

Rivet Steel

NOTE: In substantial agreement with A. S. T. M. Designations Nos. A 31–40 and A 202–39. Tested Material—Class A.

§ 51.7–1 *Scope.* These specifications cover two grades of low carbon steel rivets and one grade of chrome-manganese-silicon alloy-steel rivets to be used in boilers and other pressure vessels. These grades are designated A, B and C respectively.*

§ 51.7–2 *Process.* The steel shall be made by either or both of the following processes: open-hearth or electric-furnace.*

§ 51.7–3 *Chemical composition.* The steel shall conform to the following requirements as to chemical composition:

	Grade A	Grade B	Grade C
Carbon, max. percent		0.27	0.17
Manganese, percent	.30 to .50	.40 to .80	1.05 to 1.40
Phosphorus, max. percent	.04	.04	.035
Sulphur, max. percent	.05	.05	.04
Silicon, max. percent		.30	.60 to .90
Chromium, percent			.30 to .60

*

§ 51.7–4 *Tensile properties.* The material shall conform to the following requirements as to tensile properties:

	Grade A	Grade B	Grade C
Tensile strength, psi	45,000 to 55,000	58,000 to 68,000	75,000 to 90,000.
Yield point, min. psi. but in no case less than	0.5 tens. str.	0.5 tens. str. 32,000	0.60 tens. str.
Elongation in 8 in. min. percent	1,500,000 tens. str. but need not exceed 30.	1,500,000 tens. str. but in no case less than 23.	1,600,000[1] tens. str.

[1] For Grade C material over three-fourths inch in thickness, a deduction from the percentage of elongation specified above of 0.125 percent shall be made for each increase of one-thirty-second inch of the specified thickness above three-fourths inch to a minimum of 19 percent.
For Grade C material one-fourth inch and under in thickness, the elongation shall be measured on a gage length of 24 times the thickness of the specimen.

*

§ 51.7–5 *Bending properties*—(a) *Cold-bend tests.* (1) The test specimen for Grade A steel shall stand being bent cold through 180° flat on itself without cracking on the outside of the bent portion.

(2) The test specimen for Grade B steel shall stand being bent cold through 180° without cracking on the outside of the bent portion, as follows: For material three-fourths inch and under in diameter, around a pin the diameter of which is equal to one half the diameter of the specimen; for material over three-fourths inch in diameter, around a pin the diameter of which is equal to the diameter of the specimen.

(3) The test specimen for Grade C steel shall stand being bent cold through 180° without cracking on the outside of the bent portion around a pin the diameter of which shall have the following relation to the thickness of the specimen:

Thickness of material	Ratio of pin diameter to thickness of specimen
1 in. and under	2
Over 1 to 1½ in., incl.	2½
Over 1½ to 2 in., incl.	3

(b) *Quench-bend tests.* (1) The test specimen for Grade A steel when heated to a light cherry red as seen in the dark (not less than 1200 F.), and quenched at once in water the temperature of which is between 80 and 90 F., shall stand being bent through 180° flat on itself without cracking on the outside of the bent portion.

(2) The test specimen for Grade B steel, when similarly heated and quenched shall stand being bent cold through 180° without cracking on the outside of the bent portion as follows: For material three-fourths inch and under in diameter, around a pin the diameter of which is equal to one and one-half times the diameter of the specimen.*

§ 51.7–6 *Test specimens.* (a) Test specimens shall be the full diameter of the bar as rolled and, in the case of rivet bars which have been cold-drawn shall be normalized before testing.

(b) Two tension, two cold-bend, and two quench-bend tests where called for, shall be made from each melt. Each test shall conform to the requirements specified in §§ 51.7–4 and 51.7–5.

(c) If any test specimen develops flaws, it may be discarded and another specimen substituted.

(d) If the percentage of elongation of any tension test specimen is less than that specified in § 51.7–4 and any part of the fracture is outside the middle third of the gage length, as indicated by scribe scratches marked on the specimen before testing, a retest shall be allowed.*

§ 51.7–7 *Tests of finished rivets*—(a) *Bending properties.* (1) The rivet shank of Grade A steel shall stand being bent cold through 180° flat on itself as shown in Figure M–3 without cracking on the outside of the bent portion.

(2) The rivet shank of Grade B steel shall stand being bent cold through 180° without cracking on the outside of the bent portion, as follows: For material three-fourths inch and under in diameter, around a pin the diameter of which is equal to one and one-half times the diameter of the shank; for material over three-fourths inch in diameter, around a pin the diameter of which is equal to one and one-half times the diameter of the shank.

(3) The rivet shank of Grade C steel shall stand being bent cold through 180° without cracking on the outside of the bent portion, as follows: For material one inch and under in diameter, around a pin the diameter of which is equal to two and one-half times the diameter of the shank; for material over one inch in diameter, around a pin the diameter of which is equal to three times the diameter of the shank.

(b) *Flattening tests.* The rivet head shall stand being flattened, while hot, to a diameter two and one-half times the diameter of the shank, as shown in Figure M–4, without cracking at the edges.

(c) *Number of tests.* Three bend and three flattening tests shall be made from each size in each lot of rivets offered for inspection. Each test shall conform to the requirements specified in § 51.7–7.*

§ 51.7–8 *Permissible variations in diameter*—(a) *Finished rivets.* The diameter of finished rivets, measured cold, shall not vary from the size specified by more than the amounts prescribed in the following table:

Diameter specified in inches	Permissible variations in diameter, in inches	
	Snap gage measurement	Ring gage measurement
½" and under	0.022" under	0.020" over
Over ½" to 1" incl.	.025" under	.030" over
Over 1" to 1¼" incl.	.027" under	.035" over
Over 1¼" to 1½" incl.	.030" under	.040" over
Over 1½" to 2" incl.	.037" under	.040" over

(b) Snap gage measurement shall be made at the point of minimum diameter, but it is not required that the rivet shall turn completely in the gage. Measurements of the maximum tolerance shall be made with a ring gage, all rivets to slip full to the head in the gage of the required size for the various diameters.

(c) *Rivet heads.* The dimensions of the rivet heads shall not vary from the size specified by more than the amounts prescribed in the following table:

Specified size of rivets	Permissible variations in diameter of head, inches	
	Width	Height
¼"	plus 1/16" minus 1/16"	plus 1/16"
5/16"	plus 1/16" minus 1/16"	plus 1/16"
⅜"	plus 1/16" minus 1/16"	plus 1/16"
7/16"	plus 1/16" minus 1/16"	plus 1/16"
½"	plus 1/16" minus 1/16"	plus 1/16"
9/16"	plus 1/16" minus 1/16"	plus 1/16"
⅝"	plus 1/16" minus 1/16"	plus 1/16"
¾"	plus 1/16" minus 1/16"	plus 1/16"

•

§ 51.7–9 *Workmanship and finish.* The finished rivets shall be true to form and concentric, shall be made in a workmanlike manner, and shall be free from injurious defects.

FIG. M-3
The Bending Test For Rivets.

FIG. M-4
The Flattening Test For Rivets.

•

Rivet Iron

NOTE: In substantial agreement with A. S. T. M. Designation No. A 152–39. Tested material—Class A.

§ 51.8–1 *Materials and purposes.* The rivet bars shall be made of wrought iron which shall be free from any admixture of iron scrap or steel.

NOTE: Wrought iron is a ferrous material, aggregated from a solidifying mass of pasty particles of highly refined metallic iron, with which, without subsequent fusion, is incorporated a minutely and uniformly distributed quantity of slag.•

§ 51.8–2 *Chemical composition.* The iron shall conform to the following requirement as to chemical composition: Manganese, max., percent, 0.06.•

§ 51.8–3 *Tensile properties.* The material shall conform to the following requirements as to tensile properties:

Tensile strength, min., psi	47,000
Yield point, min., psi	0.6 tensile strength
Elongation in 8 in., min., percent:	
Rounds ¼ to 7/16 in., incl., in diameter	22
Rounds over 7/16 to ¾ in., incl., in diameter	24
Rounds over ¾ to 2 in., incl., in diameter	26

•

§ 51.8–4 *Bend tests*—(a) *Quenched, cold-bend tests.* A test specimen shall be heated between 1,600° and 1,700° F., and quenched in cold water, after which it shall stand being bent cold through 90° around a pin, the diameter of which is equal to the diameter of the specimen without fracture on the outside of the bent portion.

(b) *Nick-bend tests.* A test specimen, when nicked 25 percent around the circumference with a tool having a 60° cutting edge, to a depth of not less than 8 nor more than 16 percent of the diameter or thickness of the specimen, and broken slowly, shall show a wholly fibrous fracture.

(c) *Hot-bend tests.* A test specimen, when heated to a temperature between 1,700° and 1,800° F., shall stand being bent through 180° flat on itself without fracture on the outside of the bent portion.

(d) *Methods.* Bend tests may be made by pressure or blows.•

§ 51.8–5 *Test specimens.* All test specimens shall be of the full section of the material as rolled.•

§ 51.8–6 *Number of tests.* (a) All bars of a given size shall be piled separately, tested in lots of 100 each. Two bars shall be selected at random from each lot or fraction thereof and tested as specified in §§ 51.8–3 to 51.8–5.

(b) If any of the specimens originally selected to represent a lot of material contains surface defects not visible before testing, but visible after testing, or if a tension-test specimen breaks outside the middle third of the gage length, as indicated by scribe scratches marked on the specimen before testing, the individual specimen shall be rejected and one retest from a different bar shall be allowed.•

§ 51.8–7 *Micrographic tests.* If doubt exists as to the presence of steel, the inspector may make micrographic examination to assist in determining whether the material conforms to the requirements of § 51.8–1.•

§ 51.8–8 *Physical properties and tests*—(a) *Flattening tests.* The rivet head shall stand being flattened, while hot, to a diameter two times the diameter of the shank, as shown in Figure M–4, without cracking at the edges.

(b) *Etch test.* The rivet shall be split longitudinally through head and shank. After grinding or polishing and etching in acid, the section shall show freedom of folds at base of head, and the fiber lines shall show symmetrical displacement.

NOTE: A solution of 10 percent hydrochloric acid (sp. gr. 1.19), 30 percent sulphuric acid (sp. gr. 1.84), and 60 percent water; or 25 percent nitric acid (sp. gr. 1.42) and 75 percent water, is recommended for the etch test.

(c) Three flattening and three etch tests shall be made from each lot of 2,000 lbs. or less of any one diameter of rivets offered for inspection. Each test shall conform to the requirements specified in paragraphs (a) and (b).•

§ 51.8–9 *Workmanship and finish.* The rivets shall be true to form and concentric, shall be made in a workmanlike manner, and shall be free from injurious defects. The heads shall not show cracks or splits on the edge but may contain a slight flash.•

§ 51.8–10 *Inspection.* All inspections shall be made at the place of manufacture prior to shipment, unless otherwise specified, and the inspector shall have the right to reject all rivets found to be not in compliance with the requirements of §§ 51.8–1 to 51.8–11.•

§ 51.8–11 *Rejection.* Rivets which show defects subsequent to their acceptance at the place of manufacture will be rejected and the manufacturer shall be notified.•

Lap-Welded and Seamless Steel and Lap-Welded Iron Boiler Tubes

NOTE: In substantial agreement with A. S. T. M. Designation No. A 83–40. Certified material—Class B.

§ 51.9–1 *Scope.* These specifications cover lap-welded and seamless steel, and lap-welded iron boiler tubes and boiler flues, including safe ends, arch and stay tubes, and seamless superheater and small boiler tubes.•

§ 51.9–2 *Process.* (a) The material for lap-welded or seamless steel tubes shall be made by either or both of the following processes: open-hearth or electric furnace. The material for open-hearth iron tubes shall be made by the open-hearth process.

(b) The material for wrought iron tubes shall be made by the knobbled, hammered charcoal iron process.•

§ 51.9–3 *Chemical composition* (a) Chemical analysis will not be required for charcoal iron tubes.

(b) Material made by the open-hearth or electric furnace processes shall conform to the following requirements as to chemical composition:

	Grade A, low-carbon steel	Grade B, open-hearth iron
Carbon, percent	0.06 to 0.18	0.03 max.
Manganese, percent	.30 to .60	.03 max.
Phosphorous, max. percent	.04	.02
Sulphur, max. percent	.045	.045

•

§ 51.9–4 *Check analysis.* (a) An analysis of two tubes from each lot of 250 tubes or fraction thereof, and from each lot of 2,000 ft. or fraction thereof, of safe-end material may be made by the inspector. Drillings for analysis shall be taken from several points around each tube selected for analysis. The chemical composition thus determined shall conform to the requirements specified in § 51.9–3 (b).

(b) If the analysis of either tube does not conform to the requirements specified, an analysis of two additional tubes from the same lot shall be made, each of which shall conform to the requirements specified in § 51.9–3 (b).•

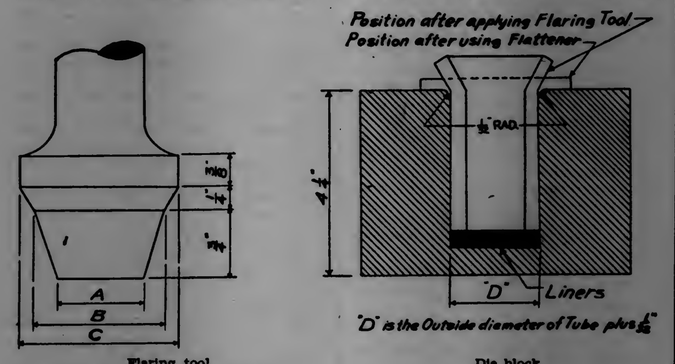
§ 51.9–5 *Flange tests.* (a) For tubes having wall thicknesses[1] less than 10 percent of their outside diameters, and providing the thickness does not exceed 0.200 inch, a section not less than four inches in length shall be capable of having a flange turned over at a right angle to the body of the tube without cracking or showing flaws. This flange as measured from the outside of the tube shall be not less than one-eighth inch nor more than one-half inch. Within these limits, the width of the flange shall be not less than the following:

[1] The term wall thickness shall be defined as the actual mean wall of the material used.

Outside diameter of tube, inches	Width of flange	
	Open-hearth or electric furnace. Grades A and B tubes.	Charcoal-iron tubes.
2½ and under	15 percent of outside diameter.	12.5 percent of outside diameter.
Over 2½ to 3½	⅜ inch.	⅜ inch.
Over 3½ to 6	10 percent of outside diameter.	10 percent of outside diameter.

(b) For tubes other than those specified in paragraph (a), the flange test shall not be required.

(c) In making the flange test, it is recommended that the flaring tool and die block shown in Figure M–5 be used:



Flaring tool

Die block

A = Outside diameter of tubes less 5/16"
B = Outside diameter of tubes less 3/16"
C = Outside diameter of tubes plus 5/16"

FIG. M5.—*Flaring tool and die block for flange test.*

§ 51.9–6 *Flattening tests.* (a) For tubes having wall thicknesses not exceeding 10 percent of their outside diameters, and providing the thickness does not exceed 0.200 inch, a section not less than two and one-half inches in length shall stand being flattened between parallel plates, without cracking or showing flaws, until the distance between the plates is as follows:

For seamless tubes—three times the wall thickness.

For lap-welded tubes—five times the wall thickness.

(b) For tubes other than specified in paragraph (a), a section not less than two and one-half inches in length shall stand being flattened between parallel plates, without cracking or showing flaws until the distance between the plates is as follows:

For seamless tubes—four times the wall thickness.

For lap-welded tubes—six times the wall thickness.

(c) Superficial ruptures as a result of minor surface imperfections shall not be cause for rejection.

NOTE: In the case of lap-welded charcoal-iron tubes over 0.200 inches in thickness the test shall be made with the weld 45° away from the point of maximum bend. For other lap-welded charcoal-iron tubes and for all steel lap-welded tubes covered by paragraphs (a) and (b), the weld shall be placed in the line of the maximum bend.

•

§ 51.9–7 *Crush test.* When required by the inspector crushing tests shall be made on sections of tube two and one-half inches in length which shall stand crushing longitudinally, without cracking, splitting, or opening at the weld, as follows: Slight surface checks shall not be cause for rejection.

Wall thickness of tubes (inches)	Height of crushed section (inches)	
	Grades A and B tubes	Charcoal-iron tubes
0.135 and under	[1] ¾	1¼
Over 0.135	1¼	1½

[1] Or until outside folds are in contact.

•

§ 51.9–8 *Hydrostatic test.* (a) Prior to upsetting, swaging, expanding, bending, or other forming operations, each tube shall be tested at the mill to the hydrostatic pressures as follows:

Tubes under five inches in diameter shall withstand an internal hydrostatic pressure of 1,000 psi., and tubes five inches and over in diameter shall withstand an internal hydrostatic pressure of 800 psi., provided the fiber stress corresponding to these pressures does not exceed 16,000 psi., as determined by the following formula. Should the fiber stress corresponding to these pressures exceed the above figures, the hydrostatic test pressure shall be determined by the following formula:

$$P = \frac{2St}{D}$$

where:
P = Hydrostatic test pressure in pounds per square inch,
S = Allowable fiber stress of 16,000 psi.,
t = Thickness of the tube wall in inches, and
D = Outside diameter of the tube in inches.

(b) Lap-welded tubes shall be struck near both ends, while under the test pressure, with a 2-lb. steel hand hammer or its equivalent.•

§ 51.9–9 *Etch test for charcoal-iron tubes.* To determine that a tube is charcoal-iron a cross section of the tube may be turned or ground to a true surface, polished free from dirt or cracks, and etched[1] until the soft parts are sufficiently dissolved to show a decided ridged surface, with the weld very distinct. A steel tube so etched would show an even or homogeneous surface.•

§ 51.9–10 *Test specimens.* (a) Test specimens required for the flange and flattening tests specified in §§ 51.9–5 and 51.9–6 shall be taken from the ends of finished tubes prior to upsetting, swaging, expanding, or other forming operations, or being cut to lengths. They shall be smooth on the ends and free from burrs and flaws.

(b) All specimens shall be tested at room temperature.•

§ 51.9–11 *Number of tests.* (a) One of each of the tests specified in §§ 51.9–5, 51.9–6, and 51.9–7 shall be made on each of two tubes from each lot of 250 tubes or fraction thereof, and from each 2,000 feet or fraction thereof, of safe-end material.

(b) Each tube shall be subjected to the hydrostatic test specified in § 51.9–8.•

§ 51.9–12 *Retests.* If the results of the physical tests of either of the tubes selected for test do not conform to the requirements specified in §§ 51.9–5 and 51.9–6, and 51.9–7, retests shall be made on two additional tubes from the same lot, each of which shall conform to the requirements specified.•

§ 51.9–13 *Forming operations.* Tubes when inserted in the boiler shall stand expanding and beading without showing cracks, or flaws, or opening at the weld. Superheater tubes when properly manipulated shall stand all forging, welding, and bending operations necessary for application without developing defects.•

§ 51.9–14 *Permissible variations in dimensions and weight.* Variations in outside diameter, wall thickness, weight, and length, from those specified, shall not exceed the amounts prescribed in the following table:

[1] A solution of 10 percent hydrochloric acid (sp. gr. 1.19), 30 percent sulphuric acid (sp. gr. 1.84), and 60 percent water; or 25 percent nitric acid (sp. gr. 1.42) and 75 percent water, is recommended for the etch test.

PERMISSIBLE VARIATIONS AND WEIGHTS

Size, outside diameter, inches	Outside diameter (including out of roundness) in. [a] [b]		Wall thickness, percent [c] [d]								Weight [d] per ft. percent		Cut length, inches [e]	
			0.095 in. and under		Over 0.095 to 0.180 in., incl.		Over 0.180 to 0.180 in., incl.		Over 0.180 in.					
	Over	Under	Over	Under	Over	Under	Over	Under	Over	Under	Over	Under	Over	Under
HOT-FINISHED TUBES														
4 and under	1/64	1/32	40	0	35	0	33	0	28	0	16	0	3/16	0
Over 4	1/64	3/64			35	0	33	0	28	0	16	0	3/16	0
COLD-DRAWN TUBES														
			Over				Under							
Under 1	0.004	0.004	20				0				12	0	1/16	0
1 to 1 1/4 incl	.006	.006	20				0				12	0	1/16	0
Over 1 1/4 to 2 excl	.008	.008	22				0				12	0	1/16	0
2 to 2 1/2 excl	.010	.010	22				0				13	0	1/16	0
2 1/2 to 3 excl	.012	.012	22				0				13	0	1/16	0
3 to 4 incl	.015	.015	22				0				13	0	1/16	0
Over 4	.015	.025	22				0				13	0	1/16	0

[a] These permissible variations in outside diameter and wall thickness apply only to the tubes as rolled or drawn and before swaging, expanding, bending, polishing, or other fabricating operations.

[b] Cold-drawn tubing, having a specified wall thickness which is 3 percent, or less than 3 percent, of the outside diameter cannot be straightened properly without a certain amount of ovality resulting in the diameter, consequently such tubes, while having an average outside diameter within the permissible variations prescribed in the table, will require additional ovality permissible variation of plus or minus 0.5 percent of the outside diameter.

[c] On tubes 2 inches and over in outside diameter and 0.220 inch and over in thickness the variation in wall thickness in any one cross-section of any one tube shall not exceed plus or minus 10 percent of the actual average wall of that section. The actual average wall is defined as the average of the thickest and thinnest wall in that section.

[d] The permissible variations in weight apply to lots of 50 tubes or more in sizes 4 inches and under in outside diameter, and to lots of 20 tubes or more in sizes over 4 inches in outside diameter.

[e] Permissible variations in length apply to tubes before bending.

§ 51.9–15 *Finish.* Finished tubes shall be reasonably straight and have smooth ends, free from burrs. They shall be free from injurious defects and shall have a workmanlike finish.*

§ 51.9–16 *Marking.* (a) The name or brand of the manufacturer, the type of material from which it is made, whether seamless or lap-welded, and whether steel or iron, together with the hydrostatic test pressure in lbs. per square inch, shall be legibly stenciled on each tube 1¼ inches in outside diameter and over, provided the length is not under three feet.

(b) On tubes less than one and one-quarter inches in diameter and on all tubes under three feet in length, the information specified in paragraph (a) shall be marked on a tag securely attached to the bundle or box in which the tubes are shipped.*

Electric-Resistance-Welded Steel and Open-Hearth Iron Boiler and Superheater Tubes

NOTE: In substantial agreement with A. S. T. M. Designations A 178–40 and A 226–40. Certified Material—Class B.

§ 51.9a–1 *Scope.* (a) These specifications cover three grades of electric-resistance-welded tubes made of steel and open-hearth iron and intended for boiler tubes, boiler flues, superheater tubes, and safe ends;[1] and one grade of electric-resistance-welded silicon-killed steel boiler and superheater tubes. These grades shall be designated Grade A, a low-carbon steel tube; Grade B, an open-hearth iron tube; Grade C, a medium-carbon steel tube; and Grade D, a silicon-killed steel tube.

(b) Grade D tubes less than two inches in outside diameter shall have wall thickness of not less than 8 percent of the outside diameter and in no case less than 0.065 inch. Grade D tubes two inches and over in outside diameter shall have wall thicknesses of not less than 0.200 inch.

(c) The type desired shall be specified by the order.*

§ 51.9a–2 *Process.* The material shall be made by either or both of the following processes: open-hearth or electric-furnace. Grade D shall be a killed steel.*

§ 51.9a–3 *Manufacture.* Tubes shall be made by electric-resistance-welding and shall be normalized at a temperature above the upper critical temperature.*

§ 51.9a–4 *Chemical composition.* The steel shall conform to the following requirements as to chemical composition:

[1] Grade C tubes are not suitable for safe-ending by forge welding.

	Grade A	Grade B	Grade C	Grade D
Carbon, percent	0.06 to 0.18	0.06 max.	0.35 max.	0.06 to 0.18
Manganese, percent	.30 to .60	.60 max.	.60 max.	.30 to .60
Phosphorous, max. percent	.04	.03	.04	.04
Sulphur, max. percent	.045	.045	.045	.045
Silicon, max. percent				.20

*

§ 51.9a–5 *Check analysis.* (a) Grades A, B, and C. An analysis of two tubes from each lot of 250 tubes or fraction thereof, and from each lot of 2000 feet or fraction thereof of safe-end material, may be made by the inspector. Drillings for analysis shall be taken from several points around each tube selected for analysis. The chemical composition thus determined shall conform to the requirements prescribed in § 51.9a–4.

(b) Grade D. An analysis of two tubes from each lot of 100 tubes or fraction thereof may be made by the inspector. Drillings for analysis shall be taken from several points around each tube selected for analysis. The chemical composition thus determined shall conform to the requirements prescribed in § 51.9a–4.

(c) All grades. If the analysis of either tube does not conform to the requirements specified, an analysis of two additional tubes from the same lot shall be made, each of which shall conform to the requirements specified in § 51.9a–4.*

§ 51.9a–6 *Flattening test.* (a) For Grades A and B tubes having wall thicknesses not exceeding ten percent of their outside diameters, and providing the thickness does not exceed 0.200 inch, a section not less than two and one-half inches in length shall stand being flattened between parallel plates until the distance between the plates is three times the wall thickness without cracking or showing flaws.

(b) For Grades A and B tubes other than specified in paragraph (a), and for Grade D tubes, a section not less than two and one-half inches in length shall stand being flattened between parallel plates until the distance between the plates is four times the wall thickness, without cracking or showing flaws.

(c) For Grade C tubes, a section not less than two and one-half inches in length shall stand being flattened between parallel plates until opposite walls of the tube meet. No opening in the weld shall take place until the distance between the plates is less than two-thirds of the original outside diameter of the tube. No cracks or breaks in the metal elsewhere than in the weld shall occur until the distance between the plates is less than one-third of the original diameter of the tube. Evidence of laminations or burnt material shall not develop during the entire flattening process.

(d) The weld shall be placed in the line of maximum bend for all grades.

(e) Superficial ruptures as a result of minor surface imperfections shall not be cause for rejection.*

§ 51.9a–7 *Flange test.* (a) For Grades A, B, and C tubes not more than five inches in diameter and having wall thicknesses not exceeding ten percent of their outside thickness, and providing the thickness does not exceed 0.200 inch, a section not less than four inches in length shall be capable of having a flange turned over at a right angle to the body of the tube without cracking or showing flaws. This flange as measured from the outside of the tube shall not be less than one-eighth inch nor more than one-half inch. Within these limits the width of the flange shall be not less than the following:

Outside diameter of tube, inches	Width of flange	
	Grades A and B	Grade C
2½ and under	15 percent of outside diameter.	75 percent of that required for grades A and B.
Over 2½ to 3¾	⅜ inch	
Over 3¾ to 5	10 percent of outside diameter.	

(b) For tubes other than specified in paragraph (a), the flange shall not be required.

(c) In making the flange test, it is recommended that the flaring tool and die block shown in Figure M–5 be used.*

§ 51.9a–8 *Crush test for Grades A and B tubes.* When required by the inspector, crushing tests shall be made on sections of tubes two and one-half inches in length which shall stand crushing longitudinally without cracking, splitting, or opening at the weld, as follows:

Wall thickness of tubes, inches	Height of crushed section, inches
0.135 and under	¾, or until the outside folds are in contact.
Over 0.135	1¼.

Slight surface checks shall not be cause for rejection.*

§ 51.9a–9 *Tensile properties.* (a) Grade C tubes shall conform to the following requirements as to tensile properties:

Tensile strength, minimum, psi	60,000
Yield point, minimum, psi	37,000
Elongation in 2 inches, minimum, percent	25

(b) No tensile properties are specified for Grade D tubes, but for purposes of design, the following tensile properties may be assumed:

Tensile strength, minimum, psi	47,000
Yield point, minimum, psi	26,000
Elongation in 2 inches, minimum, percent	35

*

§ 51.9a–10 *Flaring test, for Grade D tubes.* A section of tube approximately four inches in length shall stand being flared with a tool having a sixty degree included angle until the tube at the mouth of the flare has been expanded to the following percentages, without cracking or showing flaws:

Ration of inside diameter to outside diameter:	*Minimum expansion of inside diameter, percent*
0.9	20
0.8	22
0.7	25
0.6	30
0.5	37
0.4	50
0.3	67

*

§ 51.9a–11 *Hardness test, for Grade D tubes.* (a) For tubes 0.200 inch and over in wall thickness the Brinell hardness test shall be used and on tubes having wall thicknesses from 0.200 to 0.375 inches exclusive, a 10-mm. ball with a 1500-kg. load, or a 5-mm. ball with a 750 kg. load may be used at the option of the inspector. For tubes less than 0.200 inch in wall thickness, the Rockwell hardness test shall be used.

(b) The Brinell hardness test may be made on the outside of the tube near the end or on the outside of a specimen cut from the tube, at the option of the inspector. The Rockwell hardness test shall be made on the inside of a specimen cut from the tube.

(c) The tubes shall have a Brinell hardness number not to exceed 125 and a Rockwell hardness number not to exceed B72.

(d) In making the Brinell hardness test, reference should be made to the Standard Method of Test for Brinell Hardness of Metallic Materials (A. S. T. M. Designation: E 10–27) of the American Society for Testing Materials.

(e) In making the Rockwell hardness test, reference should be made to the Standard Method of Test for Rockwell Hardness of Metallic Materials (A. S. T. M. Designation: E 18–36) of the American Society for Testing Materials.*

§ 51.9a–12 *Hydrostatic Test.*—(a) *Grades A, B, and C tubes.* Tubes under five inches in diameter shall withstand an internal hydrostatic pressure of 1,000 psi., and tubes five inches and over in diameter shall withstand an internal hydrostatic pressure of 800 psi., provided the fiber stress corresponding to these pressures does not exceed 16,000 psi. for Grades A and B and 18,000 psi. for Grade C, as determined by the following formula. Should the fiber stress corresponding to these pressures exceed the above figures, the hydrostatic test pressure shall be determined by the following formula:

$$P = \frac{2St}{D}$$

where:
P equals hydrostatic test pressure in pounds per square inch,
S equals allowable fiber stress of 16,000 psi. for Grades A and B tubes and 18,000 psi. for Grade C tubes.
t equals thickness of the tube wall in inches, and
D equals outside diameter of the tube in inches.

(b) *Grade D tubes.* Prior to upsetting, swaging, expanding, bending, or other forming operations, each tube shall be tested at the mill to the hydrostatic pressures prescribed in the following table, provided that the fiber stress calculated in accordance with the following formula does not exceed 20,800 psi.:

$$P = \frac{2St}{D}$$

NOTE: Letters in formula have same significance as in § 51.9a–12 (a).

Hydrostatic Test Pressure

Size, outside diameter, inches:	*Hydrostatic test pressure, psi.*
Under 1	1,000
1 to 1½, exclusive	1,500
1½ to 2, exclusive	2,000
2 and over	2,500

(c) All grade tubes. Tubes shall be struck near both ends, while under test pressure, with a two-pound steel hand hammer or its equivalent.*

§ 51.9a–13 *Test specimens.* (a) Test specimens required for the flattening, flange, and flaring tests specified in §§ 51.9a–6, 51.9a–7, 51.9a–10 shall be taken from the ends of finished tubes prior to upsetting, swaging, expanding, or other forming operations, or being cut to length. They shall be smooth on the ends and free from burrs and flaws.

(b) If desirable, and practicable, tension tests may be made on full sections of the tubes up to the capacity of the testing machine. For larger size tubes, the tension test specimen shall consist of a strip cut longitudinally from the tube and not flattened between gage marks. The sides of the specimen shall be parallel between gage marks; the width, irrespective of the thickness, shall be 1 inch; the gage length shall be two inches.

(c) All specimens shall be tested at room temperature.*

§ 51.9a–14 *Number of tests.* (a) For Grades A and B, one of each of the tests specified in §§ 51.9a–6 (a), (b), (d), 51.9a–7, and 51.9a–8 shall be made on each of two tubes from each lot of 250 tubes or fraction thereof, and from each 2000 feet or fraction thereof of safe-end material. For Grade C, one of each of the tests specified in §§ 51.9a–6 (c), (d), 51.9a–7, and 51.9a–9 shall be made on each of two tubes from each lot of 250 tubes or fraction thereof.

(b) If any of the test specimens specified in paragraph (a) shows defective machining or develops flaws, it may be discarded and another specimen substituted.

(c) If the percentage of elongation of any tension test specimen is less than that specified in § 51.9a–9 and any part of the fracture is more than three-fourths inch from the center of the gage length, as indicated by scribe scratches marked on the specimen before testing, a retest shall be allowed.

(d) For Grade D tubes, four tubes shall be selected for test from each lot of 100 tubes. From each end of two of these test tubes, the flattening test specified in § 51.9a–6 (b) shall be made and from each end of the other two test tubes the flaring test specified in § 51.9a–10 shall be made.

(e) Five percent of all Grade D tubes shall be selected and a hardness test shall be made on each of these tubes as specified in § 51.9a–11.

(f) All tubes of all grades shall be subjected to the hydrostatic test specified in § 51.9a–12.*

§ 51.9a–15 *Retests.* If the results of the physical tests of any lot do not conform to the requirements specified in §§ 51.9a–6, 51.9a–7, 51.9a–8, 51.9a–9, 51.9a–10, and 51.9a–11, retests may be made on additional tubes of double the original number from the same lot, each of which shall conform to the requirements specified.*

§ 51.9a–16 *Forming operations.* Tubes when inserted in the boiler shall

stand expanding and beading without showing cracks or flaws, or opening at the weld. Superheater tubes when properly manipulated shall stand all forging, welding, and bending operations necessary for application without developing defects.*

§ 51.9a–17 *Finish.* Finished tubes shall be reasonably straight and have smooth ends free from burrs. They shall be free from injurious defects and shall have a workmanlike finish.*

§ 51.9a–18 *Marking*—(a) *Grades A, B, and C tubes.* The name or brand of the manufacturer, the type of material from which it is made, the words Electric-Resistance-Welded and whether steel or open-hearth iron, together with the hydrostatic test pressure in pounds per square inch, shall be legibly stenciled on each tube 1¼ inch in outside diameter and over, provided the length is not under three feet.

(b) *Grade D tubes.* The name or brand of the manufacturer, the words Electric-Resistance-Welded Steel, A. S. T. M. Specification A 226, together with the hydrostatic test pressure in pounds per square inch, shall be legibly stenciled on each tube 1¼ inches and over in outside diameter, provided the length is not under three feet.

(c) *All grades of tubes.* On tubes less than 1¼ inches in diameter and on all tubes under three feet in length, the information specified in paragraphs (a) and (b) shall be marked on a tag securely attached to the bundle or box in which the tubes are shipped.*

Seamless Steel Boiler Tubes for High-Pressure Service — Medium-Carbon Seamless Steel Boiler and Superheater Tubes—Carbon-Molybdenum Alloy-Steel Boiler and Superheater Tubes

NOTE: In substantial agreement with A. S. T. M. designations A 192–40, A 210–40, and A 209–41T Certified Material—Class B.

§ 51.10–1 *Scope.* These specifications cover seamless steel boiler tubes for high-pressure service, medium-carbon seamless steel boiler and superheater tubes, and seamless carbon-molybdenum alloy-steel boiler and superheater tubes.*

§ 51.10–2 *Process.* The steel shall be killed steel and shall be made by either or both of the following processes: open-hearth or electric-furnace.

§ 51.10–3 *Manufacture.* (a) Tubes shall be made by the seamless process and shall be either hot-finished or cold-drawn, as specified.

(b) Cold-drawn tubes shall be annealed after the final cold-draw pass.

(c) Hot-finished tubes for high-pressure service need not be annealed unless specified by the purchaser.

(d) Hot-finished medium-carbon tubes shall be annealed by heating to at least 1300° F.

(e) Hot-finished carbon-molybdenum tubes shall be annealed or normalized and drawn.*

§ 51.10–4 *Chemical Composition.* The steel shall conform to the following requirements as to chemical composition:

	High pressure	Medium carbon
Carbon, percent	0.08 to 0.18	0.35
Manganese, percent	.30 to .60	.80
Phosphorous, max., percent	.04	.04
Sulphur, max., percent	.045	.045
Silicon, max., percent	.25	
Silicon, min., percent		.10
Silicon, percent		
Molybdenum, percent		

	Carbon-molybdenum	
	Grade T1	Grade T1a
Carbon, percent	0.10 to 0.20	0.15 to 0.25
Manganese, percent	.30 to .60	.30 to .60
Phosphorous, max., percent	.04	.04
Sulphur, max., percent	.05	.05
Silicon, max., percent		
Silicon, min., percent	.10 to .50	.10 to .50
Silicon, percent	.45 to .65	.45 to .65
Molybdenum, percent		

§ 51.10–5 *Check analysis.* At the request of the inspector an analysis as specified in the following table shall be made by the manufacturer on samples of finished tubing selected at random and shall conform to the requirements specified in § 51.10–4. Drillings for analysis shall be taken from several points around each tube selected for analysis.

Size of tube:	*Number of samples selected*
2 in. and over in diameter and 0.200 in. and over in wall thickness.	2 from each lot of 100 tubes or fraction thereof.
Less than 2 in. in diameter or any size less than 0.200 in. in wall thickness.	2 from each lot of 250 tubes or fraction thereof.

(b) If the analysis of either tube does not conform to the requirements specified, an analysis of two additional tubes from the same lot shall be made, each of which shall conform to the requirements specified in § 51.10–4.*

§ 51.10–6 *Tensile properties.* (a) The material shall conform to the following requirements as to tensile properties:

	Medium carbon	Carbon-molybdenum	
		Grade T1	Grade T1a
Tensile strength, min., psi	60,000	55,000	60,000
Yield point, min., psi	37,000	30,000	32,000
Elongation in 2 in., min., percent	26	30	30

No tensile properties are specified for tubes for high-pressure service, but for purposes of design the following tensile properties may be assumed:

Tensile strength, min., psi	47,000
Yield point, min., psi	26,000
Elongation in 2 in., min., percent	35

(b) The yield point shall be determined by the drop of the beam or halt in the gage of the testing machine, or by the use of dividers or other approved method, at a crosshead speed not to exceed ⅛ in. per min. When a definite yield point is not exhibited, the yield strength corresponding to a limited permanent offset of 0.2 percent of the gage length of the specimen shall be reported instead.*

§ 51.10–7 *Flattening test*—(a) *High-pressure boiler tubes.* A section of tube 2½ in. in length shall stand being flattened between parallel plates, without cracking or showing any flaws, until the distance between the plates is four times the wall thickness. Superficial ruptures as a result of minor surface imperfections shall not be cause for rejection.

(b) *Medium-carbon tubes.* (1) For tubes having wall thicknesses not exceeding 10 percent of their outside diameters, a section not less than 2½ in. in length shall stand being flattened between parallel plates until the distance between the plates is five times the wall thickness, without cracking or showing flaws.

(2) For tubes having wall thicknesses exceeding 10 percent of their outside diameters, a section not less than 2½ in. in length shall stand being flattened between parallel plates until the distance between the plates is seven times the wall thickness, without cracking or showing flaws.

(3) Superficial ruptures as a result of minor surface imperfections shall not be cause for rejection.

(c) *Carbon-molybdenum tubes.* (1) For tubes having wall thicknesses not exceeding 10 percent of their outside diameters, a section not less than 2½ in. in length shall stand being flattened between parallel plates until the distance between the plates is three times the wall thickness, without cracking or showing flaws.

(2) For tubes having wall thicknesses exceeding 10 percent of their outside diameters, a section not less than 2½ in. in length shall stand being flattened between parallel plates until the distance between the plates is four times the wall thickness, without cracking or showing flaws.

(3) Superficial ruptures as a result of minor surface imperfections shall not be cause for rejection.*

§ 51.10–8 *Flaring test.* A section of tube approximately four inches in length shall stand being flared with a tool having a sixty degree included angle until the tube at the mouth of the flare has been expanded to the following percentages, without cracking or showing flaws.

Ratio of inside diameter to outside diameter:*	*Minimum expansion of inside diameter, percent*
0.9	20
0.8	22
0.7	25
0.6	30
0.5	37
0.4	50
0.3	67

* In determining the ratio of inside diameter to outside diameter, the inside diameter shall be defined as the actual inside diameter of the material tested.

§ 51.10–9 *Hardness test.* (a) For tubes 0.200 inch and over in wall thickness the Brinell hardness test shall be used and on tubes having wall thicknesses from 0.200 to 0.375 inch, exclusive, a 10-mm. ball with 1,500-kg. load, or a 5-mm. ball with 750-kg. load may be used, at the option of the manufacturer. For tubes less than 0.200 inch in wall thickness, the Rockwell hardness test shall be used, except that for medium-carbon and carbon-molybdenum tubes with wall thicknesses of less than 0.065 inch in wall thickness, no hardness tests are required.

(b) The Brinell hardness test may be made on the outside of the tube near the end or on the outside of a specimen cut from the tube, at the option of the manufacturer. The Rockwell hardness test shall be made on the inside of a specimen cut from the tube except in the case of tubes furnished with upset, swaged, or otherwise formed ends in which case it shall be made on the outside of the tubes near the end after forming operations.

(c) The tubes shall have a hardness number not to exceed the following:

Tubes for High-Pressure Service

	Brinell hardness number (Tubes 0.200 in. and over in wall thickness)	*Rockwell hardness number (Tubes less than 0.200 in. in wall thickness)*
Hot-finished tubes	137	B77
Cold-drawn tubes	125	B72
Hot-finished tubes (annealed)	125	B72

Medium-Carbon Tubes

The tubes shall have a Brinell hardness number not to exceed 143 and a Rockwell hardness number not to exceed B79.

Carbon-Molybdenum Tubes

	Brinell hardness number (tubes 0.200 in. and over in wall thickness)	*Rockwell hardness number (tubes less than 0.200 in. in wall thickness)*
Grade T1	137	B77
Grade T1a	143	B79

(d) In making the Brinell hardness test, reference should be made to the Standard Method of Test for Brinell Hardness of Metallic Materials (A. S. T. M. Designation: E 10) of the American Society for Testing Materials.

(e) In making the Rockwell hardness test, reference should be made to the Standard Method of Test for Rockwell Hardness of Metallic Materials (A. S. T. M. Designation No. E 18) of the American Society for Testing Materials.*

§ 51.10–10 *Hydrostatic test.* Prior to upsetting, swaging, expanding, bending, or other forming operations, each tube shall be tested at the mill to the hydrostatic pressures prescribed in the following table, provided that the fiber stress calculated in accordance with the following formula does not exceed 16,000 psi. in the case of tubes for high pressure and 24,000 psi. for medium-carbon and carbon-molybdenum tubes.

$$P=\frac{2St}{D}$$

where:
P equals hydrostatic test pressure in pounds per square inch,
S equals allowable fiber stress of 16,000 psi. for high pressure tubes and 24,000 psi. for medium-carbon and carbon-molybdenum tubes,
t equals thickness of the tube wall in inches, and
D equals outside diameter of the tube in inches.

Hydrostatic Test Pressure

Size, outside diameter, inches:	*Hydrostatic test pressure, psi.*
Under 1	1,000
1 to 1½, exclusive	1,500
1½ to 2, exclusive	2,000
2 and over	2,500

§ 51.10–11 *Test specimens*—(a) *Tubes for high-pressure service.* (1) Test specimens required for the flattening and flaring tests specified in §§ 51.10–7 and 51.10–8 shall be taken from the ends of finished tubes prior to upsetting, swaging, expanding, or other forming operations, or being cut to length. They shall be smooth on the ends and free from burrs and flaws.

(2) All specimens shall be tested at room temperature.

(b) *Medium-carbon and carbon-molybdenum tubes.* (1) Test specimens required for the flattening and flaring tests specified in §§ 51.10–7 and 51.10–8 shall be taken from the ends of finished tubes prior to upsetting, swaging, expanding, or other forming operations, or being cut to length. They shall be smooth on the ends and free from burrs and flaws.

(2) If desirable and practicable, tension tests may be made on full sections of the tubes up to the capacity of the testing machine. For larger size tubes, the tension test specimen shall consist of a strip cut longitudinally from the tube and not flattened between the gage marks. The sides of the specimen shall be parallel between the gage marks; the width, irrespective of the thickness shall be one inch; the gage length shall be two inches.

(3) On tubes furnished with upset, swaged, or otherwise formed ends, the hardness test specified in § 51.10–9 shall be made on the outside of the tubes near the end after the forming operations.

(4) All specimens shall be tested at room temperature.*

§ 51.10–12 *Number of tests.* (a) Five percent of all tubes shall be selected and a hardness test shall be made on each of these tubes as specified in § 51.10–9.

(b) Each tube shall be subjected to the hydrostatic test specified in § 51.10–10.

(c) *Flattening and flaring tests*—(1) *Tubes for high-pressure service.* From each lot of 100 tubes or fraction thereof, four tubes shall be selected for test. From each end of two of these test tubes, the flattening test specified in § 51.10–7 shall be made and from each end of the other two test tubes the flaring test specified in § 51.10–8 shall be made.

(2) *Medium-carbon and carbon-molybdenum tubes.* From each heat-treated lot of finished tubes, two tubes shall be selected at random for the flattening and flaring tests specified in §§ 51.10–7 and 51.10–8. The flattening test shall be made on each end of one of these tubes. The flaring test shall be made on each end of the remaining tubes. For the purpose of calculating the number of tests on tubes heat-treated by the continuous process, the number of tubes in a heat-treated lot shall be determined from the size of the tubes as follows:

Size of tube:	*Size of lot*
2 inches and over in outside diameter and 0.200 inch and over in wall thickness	Not more than 50 tubes.
Less than 2 inches but over one inch in outside diameter or over 1 inch in outside diameter and under 0.200 inch in wall thickness	Not more than 75 tubes.
1 inch or less in outside diameter	Not more than 125 tubes

(d) *Tension tests (where required).* (1) From each group of 100 finished tubes or fraction thereof, two tubes shall be selected at random for the tension test specified in § 51.10–6.

(2) If any test specimen shows defective machining or develops flaws, it may be discarded and another specimen substituted.

(3) If the percentage of elongation of any test specimen is less than that specified in § 51.10–6 (a) and any part of the fracture is more than three-quarters inch from the center of the gage length, as indicated by scribe scratches marked on the specimen before testing, a retest shall be allowed.*

§ 51.10–13 *Retests.* If the results of the physical tests of any lot do not conform to the requirements specified in §§ 51.10–6, 51.10–7, 51.10–8, and 51.10–9, retests may be made on additional tubes of double the original number from the same lot, each of which shall conform to the requirements specified.*

§ 51.10–14. *Retreatment.* If individual tubes or tubes selected to represent any group or lot of medium-carbon or carbon-molybdenum tubes fail to conform to the test requirements specified in §§ 51.10–6, 51.10–7, 51.10–8, and 51.10–9, the individual tubes or group or lot represented may be retreated and resubmitted for test. Only two reheat treatments will be permitted.*

§ 51.10–15. Forming operations. Tubes when inserted in the boiler shall stand expanding and beading without showing

cracks or flaws. Superheater tubes when properly manipulated shall stand all forging, welding, and bending operations necessary for application without developing defects.*

§ 51.10–16 *Permissible variations in dimensions and weight.* Variations in outside diameter, wall thickness, weight and length, from those specified, shall not exceed the amounts prescribed in the table shown in § 51.9–14.*

§ 51.10–17 *Finish.* Finished tubes shall be reasonably straight, and have smooth ends free from burrs. They shall be free from injurious defects and shall have a workmanlike finish. Minor defects may be removed by grinding provided the wall thicknesses and the outside diameters are not decreased to less than that permitted in § 51.10–16.*

§ 51.10–18 *Marking.* (a) The name or brand of the manufacturer, the type of material from which it is made (Seamless steel, medium-carbon, or carbon-molybdenum steel, as the case may be), together with the hydrostatic test pressure in pounds per square inch, and whether hot-finished or cold-drawn, shall be legibly stenciled on each tube 1¼ inches in outside diameter and over, provided the length is not under three feet.

(b) On tubes less than 1¼ inches in diameter and on all tubes under three feet in length, the information specified in paragraph (a) shall be marked on a tag securely attached to the bundle or box in which the tubes are shipped.*

Steel Pipe

NOTE: In substantial agreement with A. S. T. M. Designations A 106–41 and A 208–41 T. Certified material—Class B.

§ 51.11–1 *Scope.* These specifications cover one grade of lap-welded steel pipe, two grades of seamless steel pipe, and one grade of seamless carbon-molybdenum alloy-steel pipe.*

§ 51.11–2 *Process*—(a) *Material.* The steel for lap-welded pipe shall be of good weldable quality made by the open-hearth process. All seamless pipe shall be made of killed steel by either or both of the following processes: open-hearth or electric-furnace.

(b) *Welded pipe.* Pipe 2 inches and over in nominal diameter may be made by the lap-weld process.

(c) *Seamless pipe.* All pipe 1½ inches and under in nominal diameter shall be made by the seamless process and pipe more than 1½ inches in nominal diameter may be made by the seamless process. Seamless pipe shall be furnished either hot-finished or cold-drawn and annealed.

(d) *Carbon-molybdenum pipe.* (1) Pipe under 2 inches in nominal diameter may be furnished either hot-finished or cold-drawn and annealed. This anneal shall consist of heating in a furnace to from 1,200° to 1,300° F. followed by cooling in the furnace at a rate not to exceed 50° F. per hour until below 1,000° F.

(2) Pipe 2 inches and over in nominal diameter shall be furnished hot-finished followed by a stress-relief anneal. This stress-relief anneal shall consist of heating in a furnace to approximately 1,300° F. followed by furnace cooling at a rate not to exceed 50° F. per hour until below 1,000° F.*

§ 51.11–3 *Chemical composition.* (a) The steel shall conform to the following requirements as to chemical composition:

	Welded	Grade A	Grade B	Carbon-molybdenum P1
Carbon, percent	0.30 to 0.60	0.25 max.	0.35 max.	0.10 to 0.20
Manganese, percent	.045	0.30 to 0.90	0.35 to 1.00	.30 to .60
Phosphorous, max., percent	.06	.04	.04	.04
Sulphur, max., percent		.06	.06	.05
Silicon, percent			0.10 min.	.10 to .50
Molybdenum, percent				.45 to .65

(b) *Check analysis.* (1) Analysis of 2 pipes from each lot, as specified below, shall be made by the manufacturers from the finished pipe.

Nominal Diameter, inches	Welded, A and B	Carbon-molybdenum P1
Under 2		400 or fraction thereof.
2 to 5 inclusive	400 or fraction thereof.	200 or fraction thereof.
8 and over	200 or fraction thereof.	100 or fraction thereof.

(2) Drillings for analysis shall be taken from several points around each pipe selected for analysis. The chemical composition thus determined shall conform to the requirements prescribed in paragraph (a).*

§ 51.11–4 *Tensile requirements.* (a) The material shall conform to the following requirements as to tensile properties at room temperature:

	Welded open hearth	Seamless		Carbon-Molybdenum—P1
		Grade A	Grade B	
Tensile strength, min. psi	45,000	**45,000	**60,000	**55,000
Yield point, min. psi	26,000	30,000	35,000	30,000
Elongation, min. percent:				
8 inches	22			
2 inches		35	25	30

**For transverse tension tests the material shall conform to these minimum tensile requirements except that the elongation in 2 inches shall be 25 percent for Grade A, 15 percent for Grade B, and 20 percent for carbon-molybdenum.

(b) The yield point shall be determined by the drop of the beam or the halt in the gage of the testing machine, or by the use of dividers or other approved method, at a crosshead speed not to exceed one-eighth inch per minute. When a definite yield point is not exhibited, the yield strength, corresponding to a limiting permanent offset of 0.2 percent of the gage length of the specimen shall be used instead. The tensile strength shall be determined at a crosshead speed not to exceed 1½ inches per minute.*

§ 51.11–5 *Bending properties.* Seamless pipe 2 inches and under in nominal diameter shall stand being bent cold through 90° around a cylindrical mandrel, the diameter of which is twelve times the nominal diameter of the pipe without developing cracks. When ordered for close coiling, the pipe shall stand being bent cold through 180° around a cylindrical mandrel, the diameter of which is eight times the nominal diameter of the pipe, without failure.

Carbon-molybdenum and Grade A seamless steel pipe should be used for close-coiling, cold-bending, or forge welding.*

§ 51.11–6 *Flattening tests.* (a) For welded pipe, the crop end cut from each end of each length of pipe shall be flattened cold between parallel plates with the weld located 90° from the line of direction of the applied force, until the opposite walls of the pipe meet. No opening in the weld shall take place until the distance between the plates is less than two-thirds of the original outside diameter of the pipe. No cracks or breaks in the metal elsewhere than in the lap-weld shall occur until the distance between the plates is less than one-third of the original outside diameter of the pipe.

(b) For Grade A seamless pipe over 2 inches in nominal diameter, a section of pipe not less than 2½ inches in length shall be flattened cold between parallel plates until the opposite walls of the pipe meet. No cracks or breaks in the metal shall occur until the distance between the plates is less than one-third of the outside diameter of the pipe, but in no case shall the distance be less than five times the thickness of the pipe wall.

(c) For Grade B and alloy-steel seamless pipe over 2 inches in nominal diameter, a section of pipe not less than 2½ inches in length shall be flattened cold between parallel plates until the opposite walls of the pipe meet. No cracks or breaks in the metal shall occur until the distance between the plates is less than one-half the outside diameter of the pipe but in no case shall the distance be less than seven times the thickness of the pipe wall.*

§ 51.11–7 *Hydrostatic test.* (a) Each length of pipe shall be tested by the manufacturer to a hydrostatic pressure which will produce in the pipe wall a stress of 50 percent of the minimum specified yield point at room temperature, determined by the following formula:

$$P = \frac{2St}{D}$$

where:
P equals hydrostatic test pressure in pounds per square inch,
S equals 0.80 times the minimum specified yield point at room temperature in pounds per square inch,
t equals nominal wall thickness in inches, and
D equals outside diameter in inches.

(b) The maximum hydrostatic test pressure shall not exceed 2,500 psi. for nominal sizes 3 inches and under, or 2,800 psi. for all nominal sizes over 3 inches. The test pressure shall be maintained for not less than 5 seconds.*

§ 51.11–8 *Test procedure*—(a) *Test specimens.* (1) Specimens cut longitudinally or in the case of seamless pipe, either longitudinally or transversely, shall be acceptable for the tension test. Tension test specimens from welded pipe shall be taken at a point approximately 90° from the weld.

(2) The longitudinal tension test may be made in full section of the pipe up to the capacity of the testing machine. For larger sizes, the tension test specimens shall consist of strips cut from the pipe. The width of these specimens shall be 1½ inches and they shall have a gage length of 8 inches for welded pipe and 2 inches for seamless pipe. For seamless pipe when the pipe wall thickness exceeds three-fourths inch, the tension test specimen shown in Figure M–2 shall be used. Longitudinal tension test specimens shall not be flattened between gage marks. The sides of the specimen shall be parallel between gage marks.

(3) The transverse tension test may be made on seamless pipe 8 inches and over in nominal diameter. Specimens may be taken from a ring cut from the pipe or from sections resulting from the flattening tests. The specimens shall consist of a strip cut transversely from the pipe; the width of the specimen shall be 1½ inches and its gage length 2 inches. When the pipe wall thickness exceeds three-fourths inch, the tension test specimen shown in Figure M–2 shall be used. Specimens cut from the ring section shall be flattened cold and heat-treated in the same manner as the pipe and shall be parallel between gage marks. The transverse tension test specimens may be machined off on either surface provided not over 15 percent of the nominal thickness is removed from either side.

(4) Test specimens for the bend and flattening tests shall consist of sections cut from a pipe. Specimens for flattening tests shall be smooth on the ends and free from burrs, except when made on crop ends.

(5) All routine check tests shall be made at room temperature.

(b) *Number of tests.*—(1) *Welded.* The longitudinal tension test specified in § 51.11–4 shall be made on one length of pipe from each lot of 400 lengths or fraction thereof of each size under 6 inches, and from each lot of 200 lengths or fraction thereof of each size 6 inches and over.

The flattening test specified in § 51.11–6 shall be made on both crop ends cut from each length of welded pipe.

(2) *Seamless pipe.* One of either of the tests specified in § 51.11–4 shall be made on one length of pipe from each lot of 400 lengths or fraction thereof of each size under 6 inches, and from each lot of 200 lengths or fraction thereof of each size 6 inches and over.

The flattening test specified in § 51.11–6 (b) or (c) shall be made on one length of pipe from each lot of 400 lengths or fraction thereof of each size over 2 inches up to but not including 6 inches and from each lot of 200 lengths or fraction thereof, of each size 6 inches and over.

For Grades A and B pipe, 2 inches and under in nominal diameter, the bend test specified in § 51.11–5 shall be made on one pipe from each lot of 400 lengths or fraction thereof of each size.

(3) *Carbon-molybdenum pipe.* Tests shall be made as follows on one pipe from each heat treated lot, but in no case on less than 5 percent of the lot:

The transverse or longitudinal tension test specified in § 51.11–4,

The bend test specified in § 51.11–5 for pipe 2 inches and under in nominal diameter, and

The flattening test specified in § 15.11–6 (c) for pipe over 2 inches in nominal diameter.

For material heat treated by the continuous process, the tests specified in this paragraph shall be made on each pipe in a lot constituting 5 percent of the pipe ordered, but on not less than 2 pipes.

(4) Each length of welded, seamless, and carbon-molybdenum pipe shall be subjected to the hydrostatic test specified in § 51.11–7.

(5) If any test specimen shows defective machining or develops flaws, it may be discarded and another specimen substituted.

(6) If the percentage of elongation of any test specimen is less than that specified in § 51.11–4 (a) and any part of the fracture is more than three-fourths from the center of the gage length, as indicated by scribe scratches marked on the specimen before testing, a retest shall be allowed. If a specimen breaks in an inside or outside surface flaw, a retest shall be allowed.

(c) *Retests*—(1) *Welded and seamless steel pipe.* If the results of any chemical or physical tests of any lot[1] do not conform to the requirements specified in §§ 51.11–3, 51.11–4, 51.11–5, and 51.11–6, retests shall be made on additional pipe of double the original number from the same lot, each of which shall conform to the requirements specified.

Should a crop end of a finished welded or seamless pipe fail in the flattening test, one retest may be made from the failed end. Pipe may be normalized either before or after the first test, but pipe shall be subjected to only two normalizing treatments.

(2) *Carbon-molybdenum pipe.* If the result of the chemical analysis specified in § 51.11–3 (b) does not conform to the requirements of § 51.11–3 (a), an analysis of each pipe from the same lot may be made, and all pipe conforming to the requirements shall be accepted.

If the results of any physical tests of any lot[1] do not conform to the requirements specified in §§ 51.11–4, 51.11–5, and 51.11–6, retests shall be made on additional pipes of double the original number from the same lot, each of which shall conform to the requirements specified.

If the individual lengths of pipe selected to represent any lot fail to conform to the test requirements specified in §§ 51.11–4, 51.11–5, and 51.11–6, the lot may be reheat treated and resubmitted for test, except that any individual lengths which meet the requirements before retreating will be accepted.*

[1] A lot shall consist of all the pipe of the same size and wall thickness from any one melt.

§ 51.11–9 *Finish and Marking.* (a) The finished pipe shall be reasonably free from injurious defects, and shall have a workmanlike finish. Variations in outside diameter shall not exceed the following:

Nominal pipe size (inches)	Permissible variation in outside diameter (inches)	
	Over	Under
⅛ to 1½, incl.	1/64 (0.015)	1/32 (0.031)
2 to 4, incl.	1/32 (0.031)	1/32 (0.031)
5 to 8, incl.	1/16 (0.062)	1/32 (0.031)

The minimum wall thickness at any point shall not be more than 12.5 percent under the nominal wall thickness specified.

(b) Each length of pipe manufactured in accordance with these specifications shall be legibly marked, either by stenciling, stamping, or rolling, with the manufacturer's name or brand, together with the grade of material.

Welded Wrought-Iron Pipe

NOTE: In substantial agreement with A. S. T. M. Spec. A 72–39. Certified Material—Class B.

§ 51.12–1 *Material and purpose.* There shall be but one grade. It may be required in any of the commercial standard thicknesses according to the purpose to be served. Butt-welded pipes will not be accepted over 2 inches in diameter. All pipes may be lap-welded. The pipe shall be made from wrought-iron[1] free from any admixture of iron scrap or steel. The term "scrap" applies only to foreign or bought scrap, and does not include local mill products free from foreign or bought scrap. All pipe must be of coiling or bending quality. All nipples furnished with pipe shall be of the same quality of material as the pipe. The finished pipe shall be reasonably straight and free from injurious defects. All burrs at the ends of pipe shall be removed.*

§ 51.12–1a *Chemical composition.* The iron shall conform to the following requirement as to chemical composition:

Manganese, max., percent	0.05

*

§ 51.12–2 *Tensile properties.* The material shall have the following tensile properties:

Tensile strength, min. lbs. per sq. in.	40,000
Yield point, min. do	24,000
Elongation in 8 inches, min. percent	12

*

§ 51.12–3 *Fracture tests.* A section of pipe 6 inches in length shall be flattened until broken by repeated light blows of

[1] Definition: Wrought iron is a ferrous metal, aggregated from a solidifying mass of pasty particles of highly refined metallic iron, with which, without subsequent fusion, is incorporated a minutely and uniformly distributed quantity of slag.

a hammer or by pressure; the fracture developed shall have a fibrous appearance.*

§ 51.12–4 *Bend tests.* For pipe 2 inches or under in diameter, a sufficient length of coiling or bending pipe shall stand being bent cold through 90°, around a cylindrical mandrel the diameter of which is 15 times the nominal diameter of the pipe, without developing cracks at any portion and without opening the weld. Double extra strong pipe over 1¼ inches in nominal size need not be subjected to the bend test.*

§ 51.12–5 *Test specimens.* (a) Tension test specimens may be of full section or strips cut longitudinally from the pipe. The sides of specimens shall be parallel and not flattened between gage marks.

(b) For pipe up to and including 2 inches in nominal size, tension test specimens shall be of the full section of the pipe. For pipe larger than 2 inches in nominal size, the tension test specimens may be strips not less than three-quarters inch in width, cut longitudinally from the pipe. The sides of such specimens shall be parallel and not flattened between gage marks.

(c) All specimens shall be tested at room temperature.*

§ 51.12–6 *Number of tests.* (a) One of each of the tests specified in §§ 51.12–2 to 51.12–4 may be made on a length in each lot of 500 lengths or fraction thereof, of each size.

(b) Each length shall be subjected to the hydrostatic test specified in § 51.12–7.*

§ 51.12–7 *Hydrostatic tests.* Each length of pipe shall be tested at the mill to a hydrostatic test pressure specified in the following table. Pipe 2 inches and larger in diameter, shall be jarred near one end while under test pressure.

Hydrostatic pressure for welded wrought-iron pipe (pressures expressed in pounds per square inch)

Size (nominal inside diameter) (inches)	"Standard weight" pipe lap-weld	"Extra" strong" pipe lap-weld	"Double extra strong" pipe lap-weld
¼			
⅜			
½			
¾			
1			
1¼	1,000	2,500	3,000
1½	1,000	2,500	3,000
2	1,000	2,000	3,000
2½	1,000	2,000	3,000
3	1,000	2,000	3,000
3½	1,000	2,000	2,500
4	1,000	2,000	2,500
5	1,000	1,800	2,000
6	1,000	1,800	2,000
8	800		2,000
8	1,000	1,800	
10	800		
10	700		
10	900	1,000	
12	800		
12	800	1,000	

NOTE: For pipes over 12 inches in inside diameter, the test pressure should be calculated by the formula:

$$P = \frac{2St}{D}$$

where:
P equals pressure in pounds per square inch;
S equals 12,000 pounds per square inch (fiber stress)
t equals thickness of wall in inches;
D equals outside diameter in inches.

§ 51.12–8 *Permissible variations and dimensions.* For pipe 1½ inches or under in nominal size, the outside diameter at any point shall not be more than one-sixty-fourth inch over nor more than one-thirty-second inch under the standard outside diameter. For pipe 2 inches or over in nominal size, the outside diameter shall not be more than 1 percent over or under the standard outside diameter. Unless otherwise specified, pipe shall conform to the following regular practice:

(a) Standard weight pipe shall be in random lengths from 16 to 22 feet, but not more than 5 percent of the total number of lengths may be "jointers", which are two pieces coupled together. When ordered with plain ends 5 percent may be in lengths of 12 to 16 feet.

(b) Extra strong pipe shall be in random lengths of 12 to 22 feet and 5 percent may be in lengths of 6 to 12 feet.

(c) Each end of standard-weight pipe shall be threaded. Extra strong and double extra strong pipe shall be furnished with plain ends.

(d) All threads shall be in accordance with the American standard pipe thread, cut so as to make a tight joint when the pipe is tested at the mill to the specified internal hydrostatic pressure.*

§ 51.12–9 *Inspection and rejection.* Each length of pipe which develops injurious defects in shop working or application will be rejected, and the manufacturer shall be notified.*

§ 51.12–10 *Marking.* The name or brand of the manufacturer, the words "wrought-iron" or approved abbreviation therefor, and the pressure in pounds at which it was tested shall be legibly stenciled on each pipe.*

Seamless Brass Pipe

NOTE: In substantial agreement with A. S. T. M. Designation No. B 43–41. Certified material—Class B.

§ 51.13–1 *Scope.* These specifications cover seamless muntz metal, high brass, admiralty metal, and red brass pipe suitable for steam, water, compressed air, sanitary, and boiler feed lines, and for similar purposes subject to temperatures not exceeding 406° F.*

§ 51.13–2 *Process.* The pipe shall be cold-drawn to size.*

§ 51.13–3 *Temper.* All pipe shall normally be furnished in the annealed condition. The degree of anneal shall be sufficient to show complete recrystallization and to enable the pipe to meet the test requirements.*

§ 51.13–4 *Chemical requirements.* The material shall conform to the following requirements as to chemical composition:

	Muntz metal	High brass	Admiralty metal	Red brass
Copper, percent	59.00 to 63.00	65.00 to 68.00	70.00 to 73.00	83.00 to 86.00
Lead, max. percent	0.50	0.80	0.075	0.06
Iron, max. percent	.07	.07	.06	.05
Tin, percent			0.90 to 1.20	0.15 max.
Zinc	Remainder	Remainder	Remainder	Remainder

§ 51.13–5 *Sampling for chemical analysis.* Drillings, millings, or clippings, for analysis shall be taken from pipe representing 0.5 percent of the shipment. Equal quantities shall be taken from each pipe and thoroughly mixed together.*

§ 51.13–6 *Expansion test.* Annealed pipe shall stand an expansion of 25 percent of the inside diameter without cracking, when expanded by a tapered pin having a 60° included angle.*

§ 51.13–7 *Strain test.* A test specimen 6 inches in length shall stand, without cracking, immersion for 15 minutes in an aqueous mercurous nitrate solution containing 100 grams of mercurous nitrate and 13 milliliters of nitric acid (sp. gr. 1.42) per liter of solution.*

§ 51.13–8 *Threading test.* The pipe shall stand threading in a satisfactory manner.*

§ 51.13–9 *Bending properties.* In case of pipe required for bending, annealed full sections of the pipe shall stand being bent cold through 180° around a pin the diameter of which is one and one-half times the inside diameter of the pipe, without cracking on the outside of the bent portion.*

§ 51.13–10 *Hydrostatic test.* Each length of pipe shall stand, without showing weakness or defects, an internal hydrostatic pressure sufficient to subject the material to a fiber stress of 7,000 psi., determined by the following formula for thin hollow cylinders under tension. No pipe shall be tested beyond 1,000 psi. unless so specified.

$$P = \frac{2St}{D}$$

where:
P equals test pressure in psi.,
t equals thickness of wall in inches,
D equals outside diameter of pipe in inches, and
S equals 7,000.

§ 51.13–11 *Number of tests.* A sufficient number of pipes for purpose of tests shall be taken at random to constitute 0.5 percent of the shipment. One expansion test and one strain test shall be made on each pipe so selected.*

§ 51.13–12 *Workmanship.* The pipe shall be commercially round and shall be free from cracks, slivers, scale, and other surface defects.*

§ 51.13–13 *Finish.* All pipes shall be bright annealed or acid cleaned after final annealing.*

§ 51.13–14 *Rejection.* (a) If a specimen of piping fails to meet the requirements of §§ 51.13–6 to 51.13–10, inclusive, two additional specimens may be taken, but both of these specimens shall conform to these requirements, otherwise the pipe will be rejected.

(b) Pipes that show non-uniform annealing under handling shall be rejected from the lot.*

Seamless Copper Pipe

NOTE: In substantial agreement with A. S. T. M. Designation B 42–41T. Certified Material—Class B.

§ 51.14–1 *Scope.* These specifications cover seamless copper tubing and seamless copper pipe in all standard pipe sizes to be used at temperatures not exceeding 406° F. This material is suitable for boiler-feed lines, blow-off lines, compressed air lines, salt and fresh water lines, and for saturated steam lines for pressures not exceeding 150 lbs. per square inch gage pressure. The pipe shall be commercially round and shall be free from cracks, seams, slivers, scale, and other surface defects.*

§ 51.14–2 *Process.* The pipe shall be cold-drawn to size.*

§ 51.14–3 *Condition or temper.* (a) All pipe shall be normally furnished in the hard-drawn condition.

(b) When pipe is required for bending, the pipe shall be furnished with a proper bending temper.*

§ 51.14–4 *Chemical composition.* The copper shall conform to the following requirements as to chemical composition:

Copper,[1] min., percent	99.90
Phosphorous, max., percent	0.040

[1] Silver counting as copper.

§ 51.14–5 *Sampling for chemical analysis.* Drillings, millings, or clippings, for analysis shall be taken from pipe representing 0.5 percent of the shipment. Equal quantities shall be taken from each pipe and thoroughly mixed.*

§ 51.14–6 *Expansion test.* Annealed pipe selected for test shall withstand an expansion of 25 percent of the inside diameter when expanded by a tapered pin having a 60° included angle.*

§ 51.14–7 *Bending properties.* In the case of pipe required for bending, annealed full sections of the pipe shall stand being bent cold through 180° around a pin the diameter of which is one and one-half times the inside diameter of the pipe, without cracking on the outside of the bent portion. This test shall be made in addition to the expansion test specified in § 51.14–6 and shall apply only to sizes 2 inches and under in outside diameter.*

§ 51.14–8 *Microscopic examination.* The pipe shall be made from copper that is free from cuprous oxide as determined by microscopic examination at a 75X magnification.*

§ 51.14–9 *Hydrostatic test.* Each length of pipe shall stand, without showing weakness or defects, an internal hydrostatic pressure sufficient to subject the material to a fiber stress of 6,000 psi. determined by the following formula for thin hollow cylinders under tension. No pipe shall be tested beyond a hydrostatic pressure of 1,000 psi. unless so specified.

$$P = \frac{2St}{D}$$

where:
P equals pressure in pounds per square inch,
t equals thickness of pipe wall in inches,
D equals outside diameter of the pipe in inches, and
S equals allowable unit stress of the material, 6,000 psi.

§ 51.14–10 *Number of tests.* (a) A sufficient number of pipes for purpose of tests shall be taken at random to constitute 0.5 percent of the shipment. One expansion test shall be made on each pipe so selected.

(b) If any specimen fails to conform to the requirements of §§ 51.14–6 to 51.14–9, inclusive, two additional specimens may be taken, each of which shall conform to the requirements specified.*

Steel Forgings

NOTE: In substantial agreement with A. S. T. M. Designations A 105–40 and A 182–40. Certified material—Class B.

§ 51.15–1 *Scope.* (a) These specifications cover forged or rolled steel pipe flanges, forged fittings, and valves and parts for high-temperature service. The term "forgings" used in these specifications shall be understood to cover one or all of the products mentioned above, either forged or rolled.

(b) Three grades of material are covered, designated Grades A, B, and F1, respectively, and are classified in accordance with their chemical and physical properties as specified in §§ 51.15–6 and 51.15–7 (a).

(c) Grades A and B material are suitable for use in connection with temperatures up to and including 850° F. Grade F1 material is suitable for use in connection with temperatures up to and including 1,000° F.*

§ 51.15–2 *Process.* The steel may be made by the electric-furnace, open-hearth, or other approved process.*

§ 51.15–3 *Discard.* A sufficient discard shall be made from each ingot to secure freedom from injurious piping and undue segregation. In the case of F1 steel, it shall have a homogeneous structure as shown by the macro-etch test in § 51.15–12.*

§ 51.15–4 *Manufacturing practice.* (a) Material for forging shall consist of blooms, billets, slabs, or bars either forged or rolled from an ingot, and cut to the required length by a process that will not produce injurious defects in the forging.

(b) Forging or rolling operations may be performed either by hammering, pressing, rolling, extruding, or upsetting. Forgings shall be brought as nearly as practicable to the finished shape and size by hot-working and shall be so processed as to cause metal flow during the hot-working operation in the direction most favorable for resisting the stresses encountered in service.*

§ 51.15–5 *Heat treatment.* (a) All forgings shall receive a heat treatment proper to their design and chemical composition.

(b) Heat treatment shall be performed before machining except in instances where reheat-treating is necessary.

(c) The steels may be full annealed, normalized, full annealed and normalized, or full annealed and normalized followed by tempering.

(d) *Full annealing.* The procedure for full annealing shall consist in allowing the forgings, immediately after forging or rolling, to cool to a temperature below the critical range, under suitable conditions to prevent injuries by too rapid cooling. They shall then be uniformly reheated to the proper temperature and for the required time to refine the grain, and cooled slowly thereafter in the furnace or in lime. The forgings shall not be removed from the furnace or the lime until a metal temperature of approximately 500° F. has been attained.

(e) *Normalizing.* The procedure for normalizing shall consist in allowing the forgings, immediately after forging or rolling, to cool to a temperature below the critical range, under suitable conditions to prevent injuries by too rapid cooling. They shall then be uniformly reheated to the proper temperature and held there a sufficient time to refine the grain (a group thus reheated being known as a "normalizing charge"), followed by cooling in still air at room temperature.

(f) *Tempering or drawing.* The procedure for tempering or drawing shall consist in reheating the forgings to a temperature at least 100° F. above the temperature to be encountered in service, but in no case shall the drawing temperature be lower than 850° F. The material shall be held at the required temperature for not less than one hour per inch of thickness at the thickest section, followed by cooling in the furnace or in still air.*

§ 51.15–6 *Chemical composition.* The steels shall conform to the following requirements as to chemical composition:

	Grades A and B	Grade F1
Carbon, percent	(**)	0.35
Manganese, max., percent	0.90	0.30 to 0.80
Phosphorous, max., percent	.05	.04
Sulphur, max., percent	.05	.05
Silicon, percent		.30 to 0.50
Molybdenum, percent		.40 to 0.60

**When flanges will be subject to fusion welding, the carbon content shall not exceed 0.35 percent. When the carbon is restricted to 0.35 percent, max., it may be necessary to add silicon to the composition for Grade B and for the heavier thicknesses of Grade A flanges in order to meet the required tensile properties. The silicon content shall not exceed 0.30 percent.

§ 51.15–7 *Tensile properties.* (a) The material shall conform to the following requirements as to tensile properties:

	Grade A	Grade B	Grade F1
Tensile strength, min., psi	60,000	70,000	70,000
Yield point, min., psi	30,000	36,000	45,000
Elongation in 2 inches, min., percent	25	22	25
Reduction of area, min., percent	38	30	35

(b) The yield point shall be determined by the drop of the beam or halt in the gage of the testing machine, or by use of dividers at a crosshead speed not to exceed one-eighth inch per minute. Where a definite yield point is not exhibited, in the case of F1 steel, the yield strength corresponding to a limiting permanent offset of 0.2 percent of the gage length of the specimen shall be used instead. The "offset method" of determining yield strength as described in the Tentative Methods of Tension Testing of Metallic Materials (A. S. T. M. Designation: E 8–40T) of the American

Society for Testing Materials, shall be followed. The tensile strength shall be determined at a speed of head not to exceed 1½ inches per minute.

(c) The yield strength, where given, shall be determined by an extensometer reading to 0.0002 inch. The extensometer shall be attached to the specimen at the gage marks and not to the shoulders of the specimen not to any part of the testing machine.*

§ 51.15–8 *Hydrostatic tests.* Valve bodies or fittings and other pressure containing parts shall be tested after machining to the hydrostatic test pressures specified in tables P–10 and P–11.*

§ 51.15–9 *Test specimens.* (a) The tension test specimens taken from the forgings, billets or bars shall be machined to the form and dimensions shown in Figure M–2 except as specified in paragraph (b).

(b) In the case of small sections which will not permit of taking the standard test specimen specified in paragraph (a), the tension test specimen shall be as large as feasible and its dimensions shall be proportional to those shown in Figure M–2. The gage length for measuring elongation shall be four times the diameter of the specimen.

(c) For purposes of tests, the necessary extra forgings or test bars shall be provided. The test specimen if cut from a flange shall be cut tangentially from the flange portion approximately midway between the inner and outer surfaces and approximately midway between the front and back faces. When it is impracticable to provide extra forgings for test purposes, test bars may be made from the billet or bar, provided they are given approximately the same reduction and heat treatment as the forgings.*

§ 51.15–10 *Number of tests.* (a) One tension test at room temperature shall be made from each melt in each heat-treatment charge.

(b) If any test specimen shows defective machining, it may be discarded and another specimen substituted from the same melt and heat-treatment charge.

(c) If the percentage of elongation of any test specimen is less than that prescribed in § 51.15–7 (a) and any part of the fracture is more than three-fourths inch from the center of the gage length, as indicated by scribe scratches marked on the specimen before testing, a retest shall be allowed.*

§ 51.15–11 *Retests.* If any of the results of the physical tests of any test lot do not conform to the requirements specified, the manufacturer may re-treat such lots but not more than twice and retests shall be made as in § 51.15–10 (a).*

§ 51.15–12 *Macro-etch tests.* In case of questions as to the soundness of material in any lot of forgings and its suitability for the intended service, a macro-etching test shall be made for each melt present in the lot. Etching tests shall show sound and reasonably uniform material, free from injurious laminations, cracks, segregations, and similar objectionable defects. If on successive tests 10 percent of any melt fail to pass the requirements of the macro-etch test, all forgings from that melt shall be rejected.*

§ 51.15–13 *Workmanship and finish.* (a) The forgings shall conform to the sizes and shapes specified.

(b) They shall be free from injurious defects and shall have a workmanlike finish.*

§ 51.15–14 *Marking.* Identification marks shall be stamped legibly on each forging.*

Alloy-Steel Bolting Material

NOTE: In substantial agreement with A. S. T. M. Designation No. A 96–39. Certified material—Class B.

§ 51.16–1 *Scope.* This specification covers alloy-steel bolting material for boiler and pressure vessel parts or attachments, valves, flanges, and fittings for high-temperature service to 1000° F.

Three grades of material are covered, viz: A, B, and C, according to the chemical and physical properties hereinafter specified. Any alloy conforming to these requirements shall be acceptable.*

§ 51.16–2 *Process.* The steel shall be made by one or more of the following processes: open-hearth, electric-furnace, or crucible.*

§ 51.16–3 *Heat treatment.* (a) Heat treatment shall consist of quenching and tempering.

(b) Immediately after rolling or forging, the bolting material shall be allowed to cool to a temperature below the critical range under suitable conditions, to prevent injury by too rapid cooling. For quenching and tempering, the material shall then be uniformly reheated to the proper temperature to refine the grain and quenched in some medium under substantially uniform conditions for each quenching charge. The material shall then be uniformly reheated to the proper temperature for tempering or "drawing back" and allowed to cool uniformly.*

§ 51.16–4 *Chemical composition.*

Phosphorous, percent ..... Not over 0.045
Sulphur, percent ..... Not over 0.05

NOTE: It is recommended that the carbon content shall not be less than 0.20 nor more than 0.45 percent, and that the carbon ranges shall be 0.10 percent of carbon.

*

§ 51.16–5 *Tensile properties.* The bolting material, after final heat treatment, shall conform to the following requirements as to minimum tensile properties:

Diameter in inches	Grade A	Grade B	Grade C
2½ and under, tensile strength lbs. per sq. in.	95,000	105,000	125,000
Yield points lb. per sq. in.	70,000	80,000	105,000
Elongation in 2 in. per cent	20	20	16
Reduction of area per cent	50	50	50
Over 2½ to 4 incl. tensile strength—lbs. per sq. in.	90,000	100,000	115,000
Yield point lbs. per sq. in.	65,000	75,000	95,000
Elongation in 2 in., per cent	20	20	16
Reduction of area, per cent	50	50	45
Over 4 to 7, incl. tensile strength—lbs. per sq. in.	90,000	100,000	110,000
Yield point, lbs. per sq. in.	65,000	75,000	85,000
Elongation in 2 in., per cent	20	20	16
Reduction of area, per cent	50	50	45

*

§ 51.16–6 *Brinell hardness test.* The bolting material, after final heat treatment, shall conform to the following requirements:

	Brinell hardness Nos.
Grade A	190–250
Grade B	210–270
Grade C	260–320

*

§ 51.16–7 *Workmanship and finish.* The bolting material shall be free from injurious defects and shall have a workmanlike finish.*

§ 51.16–8 *Nuts and washers.* Bolts and studs shall be equipped with nuts conforming to the Standard Specifications for Carbon and Alloy-Steel Nuts for Bolts for High-Temperature Service to 1,000° F. as specified in §§ 51.16a–1 to 51.16a–9. If washers are used under nuts they shall be of forged or rolled steel. All washers shall be free from injurious defects and have a workmanlike finish.*

Carbon and Alloy-Steel Nuts for High-Temperature Service

NOTE: In substantial agreement with A. S. T. M. Designation A 194–40. Certified material—Class B.

§ 51.16a–1 *Scope.* (a) These specifications cover steel nuts for bolts used in high-temperature service up to 1,000° F.

(b) Four classes of material are covered:

Class 1 for service temperatures not exceeding 750° F.
Class 2 and 2H for service temperatures not exceeding 850° F.
Class 4 for service temperatures up to and including 1,000° F.

*

§ 51.16a–2 *Process.* The steel shall be made by one or more of the following processes: open-hearth, electric-furnace, or acid-bessemer.*

§ 51.16a–3 *Fabrication.* (a) Classes 1 and 2 nuts shall be made by the hot-forged or cold processes, or machined from forged or hot-rolled bars.

(b) Classes 2H and 4 nuts shall be made by the hot-forged or cold processes, or machined from hot-forged or hot-rolled bars and shall be heat treated to meet the requirements for physical properties. These classes of nuts shall be quenched and drawn at a temperature at least 100° F. above the service temperature, but in no case less than 850° F. for Class 2H and not less than 1,100° F. for Class 4 nuts.*

§ 51.16a–4 *Stress-relieving.* (a) Before tapping, all nuts made by the cold process shall be heated in the process of manufacturing to a temperature of at least 1,000° F.

(b) Nuts made by the hot process or from hot-forged or hot-rolled bars need not be subjected to this stress relieving.*

§ 51.16a–5 *Chemical composition.* Nuts shall conform to the following requirements as to chemical composition:

CHEMICAL REQUIREMENTS

	Class 1	Classes 2 and 2H	Class 4
Carbon, percent	0.15 min.	0.40 min.	0.40 to 0.50
Manganese, percent			.50 to 0.95
Phosphorus, max., percent	.06	.05	.04
Sulphur, max., percent	.05	.05	.04
Silicon, percent			.15 min.
Molybdenum, percent			.20 min.

*

§ 51.16a–6 *Hardness test.* Samples of each class of nuts shall show the Brinell hardness specified below: (1) in the finished condition; (2) after the sample has been subjected for 24 hours to a temperature of 850° F. for Class 1, 1,000° F. for Classes 2 and 2H, and 1,100° F. for Class 4, and then cooled slowly:

BRINELL HARDNESS

Class	Sample nut as finished	Sample nut after treatment as above
1	120 min.	120 min.
2	160 min.	160 min.
2H	248 to 352	180 min.
4	248 to 352	200 min.

*

§ 51.16a–7 *Drift test.* Classes 2H and 4 nuts when machined from bar stock and all other classes of nuts shall be capable of meeting the following drift test: A conical mandrel, part of which has a diameter equal to the nominal nut size, shall be forced through the tapped hole to the nominal nut size, cold, without cracking the body of the nut. The test may be continued until the nut is broken for the examination of the structure.*

§ 51.16a–8 *Stripping test.* Nuts of all classes shall be capable of meeting the following stripping test: A nut shall be assembled on a piece of bolting material held in a tension testing machine so that a load is supplied to the nut. The threads in the nut shall not strip when subjected to a stress equal to 130,000 psi. for Class 1, and 150,000 psi. for Classes 2, 2H, and 4 figured from the diameter of the bolt.*

§ 51.16a–9 *Finish.* (a) Nuts shall be free from injurious defects and shall have a workmanlike finish.

(b) Nuts shall be semi-finished, hexagonal in shape and in accordance with the dimensions for the Regular or Heavy Series of the American Standard for Wrench-Head Bolts and Nuts and Wrench Openings (ASA No.: B 18.2–1933).

(c) Nuts for use with alloy-steel bolts or bolt studs shall be threaded unless otherwise specified, in accordance with the American Standard for Screw Threads (ASA No.: B 1.1–1935); sizes one inch and smaller in diameter with the Coarse-Thread Series.*

Steel Castings

NOTE: In substantial agreement with A. S. T. M. Designations Nos. A 95–41 and A 157–41. Certified material—Class B.

§ 51.17–1 *Scope.* These specifications cover steel castings for valves, flanges, fittings, or other pressure containing parts, of carbon-steel for service temperatures up to and including 850° F. and carbon-molybdenum alloy-steel for service temperatures to 1000° F.*

§ 51.17–2 *Process.* The steel shall be made by the open-hearth, electric-furnace, or crucible process.*

§ 51.17–3 *Heat treatment.* (a) All castings shall receive a heat treatment proper to their design and chemical composition.

(b) Heat treatment shall consist of full annealing or of normalizing, or of normalizing followed by full annealing, or of normalizing followed by drawing to a temperature below the critical range. No castings which have been quenched in any liquid medium shall be offered under these specifications.

(c) *Full annealing.* The procedure for full annealing shall consist in allowing the castings to cool, after pouring, to a temperature below the critical range, reheating to the proper temperature and for the required time to refine the grain, and cooling thereafter slowly in the furnace. The castings shall not be removed from the furnace until the pyrometer shows that the furnace has fallen to a temperature below 500° F. (260° C.).

(d) *Normalizing.* The procedure for normalizing shall consist in allowing the castings to cool, after pouring, to a temperature below the critical range, reheating to the proper temperature and for the required time to refine the grain, and cooling in still air at room temperature.

(e) *Drawing or tempering.* The procedure for drawing, or tempering, shall consist in reheating the castings to a temperature at least 150° F. (85° C.) above the temperature to be encountered in service, and holding at that temperature not less than one and one-half hours per inch or less of section, followed by cooling in the furnace or in still air. When castings are used for service at temperatures under 750° F., the minimum draw temperature shall be 800° F.*

§ 51.17–4. *Chemical composition.* The steel shall conform to the following requirements as to chemical composition:

	Carbon steel	Carbon molybdenum alloy-steel C1
Carbon, percent	0.15 to 0.45	0.35 max.
Manganese, percent	.80 min.	1.00 max.
Phosphorous, percent	.05 max.	.05 max.
Sulphur, percent	.06 max.	.06 max.
Silicon, percent	.20 min.	.20 min.
Molybdenum, percent		.40 min.

*

§ 51.17–5 *Tensile properties.* (a) Steel used for the castings shall conform to the following requirements as to tensile properties:

	Carbon steel	Carbon Molybdenum alloy-steel C1
Tensile strength min. psi	70,000	70,000
Yield point min. psi	36,000	45,000
Elongation in 2 in. min. (percent)	22	22
Reduction of area min. (percent)	30	35

(b) The yield point shall be determined by the drop of the beam or halt in the gage of the testing machine, or by the use of dividers, at a crosshead speed not to exceed ½ inch per minute. Where a definite yield point is not exhibited, the yield strength corresponding to a limiting permanent offset of 0.2 percent of the gage length of the specimen shall be used instead. The "offset method" of determining yield strength as described in the Tentative Methods of Tension Testing of Metallic Materials (A. S. T. M. Designation: E 8–40T) of the American Society for Testing Materials shall be followed. The tensile strength shall be determined at a speed of head not to exceed 1½ inches per minute.*

§ 51.17–6. *Bending properties.* The test specimens shall stand being bent cold through an angle of 90° around a pin 1 inch in diameter without cracking on the outside of the bent portion.*

§ 51.17–7 *Hydrostatic tests.* Each casting shall be tested after machining to the hydrostatic pressure specified in table P–10 or P–11 and shall show no leaks.*

§ 51.17–8 *Test specimens.* (a) For castings having a net weight of not over 500 lbs., tension test specimens and, when specified, bend test specimens shall be taken from test bars attached to special blocks. For castings having a net weight over 500 lbs., the test specimens shall be taken from test bars attached to the castings where practicable. If the design of the casting is such that test bars should not be attached to the castings, the test bars shall be cast attached to special blocks. Test bars from which tension and bend test specimens are to be taken shall remain attached to the castings or blocks they represent until presented for inspection, and shall be heat treated with the castings. Test bars shall be provided in sufficient numbers to furnish specimens for the tests required in § 51.17–9.

(b) Tension test specimens may be cut from heat treated castings instead of from test bars.

(c) Tension test specimens shall be machined to the form and dimensions shown in Figure M–2.

(d) Bend test specimens shall be machined to one by one-half inch in section with the corners rounded to a radius not over one-sixteenth inch.*

§ 51.17–9 *Number of tests.* (a) One tension test and one bend test shall be made from each melt in each heat-treat-

ment charge and from each casting weighing 500 lbs. net or over.

(b) If any test specimen shows defective machining or develops flaws, it may be discarded, and another specimen substituted from the same lot.

(c) If the percentage of elongation of any tension test specimen is less than that specified in § 51.17–5 (a) and any part of the fracture is more than three-fourths inch from the center of the gage length, as indicated by scribe scratches marked on the specimen before testing, a retest shall be allowed.*

§ 51.17–10 *Retests.* (a) If the results of the physical tests for any lot do not conform to the requirements specified, such lot may be reheat-treated, but not more than twice. Retests shall be made as specified in §§ 51.17–5 and 51.17–6.*

§ 51.17–11 *Workmanship.* (a) The castings shall conform substantially to the shapes and sizes indicated by the patterns and drawings submitted by the purchaser.*

§ 51.17–12 *Finish.* (a) The castings shall be clean and free from injurious defects.

(b) The castings shall not be peened or plugged to stop leaks.

(c) *Repair by welding.* Defects which do not impair the strength of the castings may be welded by an approved process. The defects shall be cleaned out to solid metal before welding, and, when so required by the inspector, the castings in this condition shall be submitted to him for his approval. All castings shall be heat treated after welding in accordance with the requirements specified in § 51.17–8, except that with permission of the inspector, castings with minor welds need only be drawn or tempered. In the case of major repair welds, the inspector may require examination after reannealing with X-rays or gamma rays to show the adequacy of the repair, the cost of X-raying or gamma-raying to be borne by the manufacturer, notice of such to be given at the time permission is granted to weld.*

Gray Iron Castings for Valves, Flanges, and Pipe Fittings

NOTE: In substantial agreement with A. S. T. M. Designation A 126–40. Certified material—Class B.

§ 51.18–1 *Scope.* These specifications cover the following three grades of gray iron for castings such as valve bodies, fittings, flanges, including parts to be assembled into valves, manufactured in advance and supplied for sale from stock by the manufacturer, jobber, or other dealer:

Grade A—Regular gray iron,
Grade B—Higher-strength gray iron including the so-called semi-steels used in valves and fittings,
Grade C—High-test cast iron whether regular or alloy composition.

*

§ 51.18–2 *Process.* The iron shall be made by the cupola, air-furnace, electric-furnace, or other approved process. The iron shall be produced under regular chemical and physical control and shall be gray iron of high quality.*

§ 51.18–3 *Chemical composition.* Drillings taken from test ingots, broken test specimens, or from castings shall conform to the following requirements as to chemical composition:

Phosphorus, max. percent	0.75
Sulphur, max. percent	.12

*

§ 51.18–4 *Tensile properties.* (a) The tension test specimen shall conform to the following requirements as to tensile strength:

	Grade A	Grade B	Grade C
Tensile strength, min. psi	21,000	31,000	41,000

(b) After reaching a stress of 15,000 psi., the speed of the crosshead of the testing machine shall not exceed one-eighth inch per minute.*

§ 51.18–5 *Transverse test.* (a) The transverse test shall be optional. When transverse tests are made, the transverse test specimen, when placed horizontally upon supports twelve inches apart and tested under a centrally applied load shall conform to the following requirements:

	Grade A	Grade B	Grade C
Load at center, min. lbs.	2,200	3,300	4,000
Deflection at center, min. in.	0.10	0.12	0.12

(b) The rate of application of the load shall be such that a central deflection of 0.10 inch is produced in from 20 to 40 seconds.

(c) In case the transverse test specimen varies from the specified diameter of 1.20 inches, a correction factor conforming to the following shall be applied:

Diameter of transverse test specimen, inches:	Correction factor
1.10	0.770
1.11	.791
1.12	.813
1.13	.835
1.14	.857
1.15	.880
1.16	.903
1.17	.927
1.18	.951
1.19	.975
1.20	1.000
1.21	1.025
1.22	1.051
1.23	1.077
1.24	1.103
1.25	1.130
1.26	1.158
1.27	1.185
1.28	1.214
1.29	1.242
1.30	1.271

*

§ 51.18–6 *Mold.* One mold containing one or more tension test specimens and, when desired, one transverse test specimen shall be poured at least twice a day from each melt from which castings are made under these specifications. The molds for these test specimens shall be made from the plate pattern, on a standard molding machine if possible, from the same lot of sand and in the same general way as that in which molds for the castings are made. Each specimen shall be marked to show cupola or furnace number, date, and hour when the mold is poured by either casting in the mold or tamping the specimens as soon as possible after shaking-out.

NOTE: The numbering on the test specimen shown in Figure M–6 is intended simply to illustrate a method of designation. In the particular method shown 12/8 refers to December 8, B1 is the cupola number, and the numeral 1 which follows shows the hour cast. (1 P.M.)

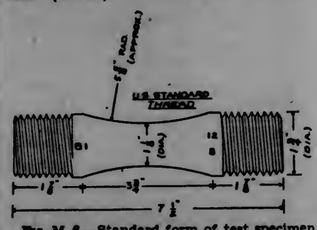


FIG. M–6.—Standard form of test specimen required for tension tests of gray iron casting materials.

*

§ 51.18–7 *Test specimens.* Tension test specimens shall conform to the dimensions shown in Figure M–6, shall be reasonably smooth and round at breaking section, and shall be tested without machining, except that the enlarged ends shall be threaded (1¾ inches U. S. standard threads are recommended). The cross-sectional area at the breaking section shall be within plus or minus 5 percent of one square inch and the ultimate stress shall be calculated on the minimum cross-section.*

§ 51.18–8 *Tension test apparatus.* Ball and socket specimen holders or spherical-seated bearings or other device, which will insure that the specimen, when under load, will be as nearly as possible in pure axial tension without transverse stress, shall be used in making the tension test.*

§ 51.18–9 *Records.* Records of the chemical composition of the iron and physical properties of the test specimens shall be systematically made and maintained.*

§ 51.18–10 *Workmanship and finish.* The castings shall be sound, clean, free from sand, of workmanlike finish, and soft enough to machine well.*

Malleable Iron Castings

NOTE: In substantial agreement with A. S. T. M. Spec. A 47–33. Certified material—Class B.

§ 51.19–1 *Material and scope.* This specification covers malleable iron castings which may be used for pipe fittings, valves, manifolds, connections, and miscellaneous appliances for steam pressures not exceeding 250 lbs., and temperatures not exceeding 450° F., but such castings shall not be used as pressure parts of boilers or pressure vessels. (Malleable iron castings are designated as Grade A and Grade B.)*

§ 51.19–2 *Process.* (a) Grade A castings shall be made by the air-furnace, open-hearth, or electric-furnace process.

(b) Irrespective of the process by which the castings are made they shall be free from primary graphite, or what is known in the trade as a "frame" and the manufacturer shall certify that no primary graphite is present in any part of the casting sections.

(c) Castings having a "frame" i. e., a hard surface shell shall be rejected.

NOTE: The normal structure of malleable iron consists of crystalline grains of ferrite throughout which is distributed small nodules of temper carbon. At times, due to an incorrect annealing cycle, the castings will be surrounded by a more or less thick shell of metal in which the carbon will be combined to form the constituent known as pearlite. As this constituent is much harder than ferrite, the shell of metal, or "frame" will be harder and more brittle than the core of metal it surrounds, and consequently less able to safely stand dynamic stresses.

*

§ 51.19–3 *Tensile properties.* The tensile test specimens shall conform to the following minimum requirements:

Tensile strength, lbs. per sq. in.	52,000
Yield point, lbs. per sq. in.	32,500
Elongation in 2 inches, percent	15

*

§ 51.19–4 *Test specimens.* The specimens shall be of the form shown in Figure M–7. Specimens whose minimum diameter at the smallest section is less than 19/32 inch shall not be accepted.*

§ 51.19–5 *Number of tests.* (a) A set of three tension-test specimens shall be cast from each melt, without chills, using heavy risers of sufficient height to secure sound bars. Each set of specimens so cast shall be annealed with the castings they represent.

(b) If the first specimen conforms to the specified requirements, or if, in the event of the failure of the first specimen, the second and third specimens conform to the requirements, the castings of the lot they represent shall be accepted, except that any casting may be rejected if its test lug shows that it has not been properly annealed. If either the second or third specimen fails to conform to the requirements, the entire lot of castings they represent shall be rejected unless failure of one of the retest specimens shall be due to a flaw, in which case test specimens may, at the discretion of the inspector, be cut from castings in the lot for an additional test.*

§ 51.19–6 *Special tests.* (a) All castings, if of sufficient size, shall have cast thereon test lugs of a size proportonal to the thickness of the castings but not exceeding five-eighths inch by three-quarter inch in cross section. On castings which are 24 inches or over in length a test lug shall be cast near each end. These lugs shall be attached to the casting at such a point that they will not interfere with the assembling of the casting and shall be broken off by the inspector.

(b) If required by the inspector, a casting shall be tested to destruction. Such a casting shall show good tough malleable iron.*

§ 51.19–7 *Reannealing.* Any castings rejected for insufficient annealing may be reannealed once. The reannealed castings shall be inspected, and if the remaining test lugs, or castings broken as specimens, show the castings to be thoroughly annealed, they shall be accepted; if not, they shall be finally rejected.*

§ 51.19–8 *Workmanship and finish.* (a) The castings shall conform substantially to the approved patterns or drawings, and also to gages which may be specified in individual cases. The castings shall be made in a workmanlike manner. A variation of one-eighth inch per foot will be permitted.

(b) The castings shall be free from injurious defects at surface or in any cross section.*

§ 51.19–9 *Marking.* The manufacturer's identification mark shall be cast on all castings of sufficient size, in such positions that they will not interfere with the assembling of the casting, and especially so located that the marks will not operate to weaken the metal at a point where the stresses imposed on the casting will be more severe than at other sections. For castings with flanged outlets it is recommended that the marking be cast on the periphery of the flange.*

§ 51.19–10 *Inspection and rejection.* (a) The manufacturer shall be required to keep a record of each melt from which castings are produced, showing tensile strength and elongation of test specimens cast from such melts. These records shall be available and shown to the inspector whenever required.

(b) Castings which show injurious defects subsequent to their acceptance at the manufacturer's works may be rejected and, if rejected, the manufacturer shall be notified.*

Malleable Iron Castings for Pipe Fittings

NOTE: In substantial agreement with A. S. T. M. Designation A 197–39. Certified material—Class B.

§ 51.19–11 *Cupola malleable iron.* This specification covers malleable iron for castings such as flanges, pipe fittings, and valve parts, including parts to be assembled or manufactured in advance and supplied from stock by the manufacturer, for pressures not exceeding 125 lbs., temperatures not exceeding 450° F., and diameters not exceeding 4 inches.*

§ 51.19–12 *Grade B castings.* Grade B castings may be manufactured by the cupola process, and shall be produced under regular chemical and physical control.*

§ 51.19–13 *Tensile properties.* (a) The tensile test specimens shall conform to the following requirements:

Tensile strength, lbs. per sq. in.	40,000
Yield point, lbs. per sq. in.	30,000
Elongation in 2 inches, percent	5.0

(b) The yield point shall be determined by the drop of the beam or the halt in the gage of the testing machine.*

§ 51.19–14 *Test specimens.* (a) Tension test specimens shall be of the form and dimensions as shown in Figure M–7.

(b) Specimens whose mean diameter at the smallest section is less than 19/32 inch shall be discarded.

(c) *Records.* Manufacturers shall keep records of the chemical composition and physical properties of the test specimens which shall be available to the inspectors.*

§ 51.19–15 *Requirements.* The requirements of § 51.19–2 (b) relative to primary graphite and "framed" castings shall apply to this process.*

§ 51.19–16 *Workmanship and finish.* (a) The castings shall conform substantially to the approved patterns or drawings, and also to gages which may be specified in individual cases. The castings shall be made in a workmanlike manner. A variation of one-eighth inch per foot will be permitted. The castings shall be free from injurious surface or internal defects.

(b) Malleable iron products subject to steam pressure shall be marked with the manufacturer's name or trade-mark to indicate that they are the product of an approved manufacturer. The marking shall be made in accordance with the requirements of § 51.19–9.

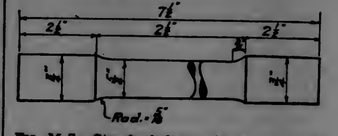

FIG. M–7.—Standard form of test specimen required for tension-tests of malleable casting material.

*

Bronze Castings

NOTE: In substantial agreement with A. S. T. M. Designations B 62–41 and B 61–41 and B 60–41. Certified material—Class B.

§ 51.20–1 *Materials and purposes.* Three grades of castings shall be permissible, viz:

Grade A for pressure containing parts of valves and pipe fittings which are subjected to working pressures up to 150 lbs. per square inch or temperatures not exceeding 366° F.

Grade B for pressure containing parts of valves and pipe fittings, also boiler mountings, expansion joints, and similar appliances which are subjected to steam pressures up to 300 lbs. or temperatures not exceeding 450° F., and for hydraulic or compressed air service at higher pressures where the temperature does not exceed 150° F.

Grade C for bolts, nuts, and light-pressure vessels where comparatively great tensile strength and resistance to salt-water corrosion are required.*

§ 51.20–2 *Manufacture.* (a) The alloy may be made by any approved method.

(b) The castings shall be of uniform quality.*

§ 51.20–3 *Chemical composition.* The alloy shall conform to the following requirements as to chemical composition:

CHEMICAL COMPOSITION

	Grade A			Grade B	Grade C		
	Minimum	Desired	Maximum		Minimum	Desired	Maximum
Copper, percent	84.00	85.00	86.00	86.5 (min.)	86.00	88.00	89.00
Tin, percent	4.00	5.00	6.00	5.5 to 6.5	7.50	8.00	11.00
Lead, percent	4.00	5.00	6.00	1.0 to 2.0		None	0.30
Zinc, percent	4.00		6.00	2 to 5	1.50	4.00	4.50
Iron, percent			.25	0.25 (max.)			.25
Nickel, percent			1.00	1.00 (max.)			1.00
Phosphorous, percent			.08	0.05 (max.)			.05

§ 51.20–4 *Chemical analysis.* The sample for chemical analysis shall be taken from the test bars.*

§ 51.20–5 *Tensile properties.* (a) The alloy shall conform to the following requirements as to tensile properties:

	Grade A	Grade B	Grade C
Tensile strength, min. psi.	30,000	34,000	30,000
Yield point, min. psi.	14,000	16,000	16,000
Elongation in 2 in., min. percent	20	22	22

(b) The yield point in tension shall be determined as the stress producing an elongation under load of 0.5 percent, that is, 0.01 in. in a gage length of 2 in.*

§ 51.20–6 *Test specimens.* (a) The tension test specimen shall be machined from a coupon to the form and dimensions shown in Figure M–2.

(b) The coupon attached to the casting shall conform to the dimensions shown in Figure M–8 and it shall not be chilled. The fin gate along the side shall be not less than 5/16 in. in thickness at any point along its length.

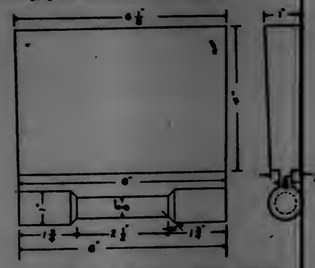

FIG. M–8.—Test specimen coupon.

§ 51.20–7 *Number of tests.* (a) Each casting weighing 250 lbs. or more shall have, if practicable, at least one test coupon attached. The responsibility of furnishing sufficient test specimens shall rest with the manufacturer.

(b) In the case of castings weighing less than 250 lbs. each, at least one test coupon shall, if practicable, be attached to one or more castings from each melt or from such groups of melts as the inspector may specify, but in no case shall a group consist of more than 1,000 lbs. of castings.

(c) In the case of castings where, in the opinion of the inspector it is impracticable to attach a test coupon to the casting, bars shall be cast separately in sand. At least one test bar shall be poured from each melt of metal, or such groups of melts as the inspector may specify, but in no case shall a group consist of more than 1,000 lbs. of castings. The bars shall be cast from the first metal poured from the melt, and the inspector shall witness the pouring of the test mold.

(d) If any test specimen shows defective machining or reveals casting defects, it may be discarded and replaced by another specimen selected by the inspector. If additional test coupons are not available, the replacement specimen may be taken from the body of a casting selected by the inspector to represent the lot.*

§ 51.20–8 *Workmanship and finish.* (a) The castings shall be free from blowholes, porosity, hard spots, shrinkage defects, or cracks, or other injurious defects and shall be smooth and well cleaned, before inspection, by sand blasting, tumbling, chipping, or other process approved by the inspector.

(b) The castings shall not be repaired, plugged, welded, or "burned in," unless permission from the inspector has been previously secured. This permission will be given only when the defects are such that after the approved repair the usefulness and strength of the casting has not been impaired. Each such repair shall be encircled by a ring of white paint at the time of shipment.

(c) All castings shall be true to pattern, free from swells, etc. Wall thicknesses shall be uniform throughout the lot of castings and all cores shall be accurately set.

(d) Where thick and thin sections join, the manufacturer shall be permitted to add (where not previously provided) fillets of proper size to avoid cracking upon cooling, subject to the approval of the inspector.*

§ 51.20–9 *Marking.* Valves, flanges and fittings shall be marked in accordance with rules for marking steel valves, flanges and fittings.*

§ 51.20–10 *Certification.* Manufactures are required to file certificates with the Director that all castings intended for marine service will meet these specifications.*

Steel Plates (Flange and Firebox Quality)

NOTE: In substantial agreement with A. S. T. M. Specification A 70–39. Certified material—Class B.

§ 51.21–1 *Scope.* These specifications cover carbon-steel plates up to 4 in. inclusive in thickness, of flange and firebox qualities. This material is suitable for fusion welding.*

§ 51.21–2 *Process.* The steel shall be made by either or both of the following processes: open-hearth or electric-furnace.*

§ 51.21–3 *Heat treatment.* (a) Plates over 2 in. in thickness, before being fabricated, shall be uniformly heat treated to produce grain refinement. Heat treatment involving quenching in a liquid medium is not permitted. If this treatment is not done at the rolling mill the testing shall be carried out in accordance with (b).

(b) When a fabricator, who is equipped properly to perform the work, elects to do the required heat treatment for grain refinement, he shall so indicate on his orders to the mill and he shall accept the plates on the basis of the mill tests. The plate manufacturer shall make the tests prescribed in these specifications, the tension and bend test specimens to be prepared from full thickness pieces heat treated under conditions he considers appropriate for grain refinement and to give the test requirements. The manufacturer shall inform the fabricator of the procedure followed in treating the pieces at the mill for guidance in treating the plates. The required physical properties shall be determined after heat treatment of the plates on specimens prepared from pieces similarly and simultaneously treated with the plates. Pieces for two tension tests, one top and one bottom, shall be provided from each plate as rolled.[1]*

§ 51.21–4 *Chemical composition.* The steel shall conform to the following requirements as to chemical composition:

	Flange	Firebox
Carbon, max., percent:		
For plates ¾ in. and under in thickness		0.25
For plates over ¾ in. to 4 in. incl. in thickness		.30
Manganese, max., percent	0.80	.80
Phosphorous, max., percent:		
Acid	.05	.04
Basic	.04	.035
Sulphur, max., percent	.05	.04

§ 51.21–5 *Tensile properties.* (a) The material shall conform to the following requirements as to tensile properties:

	Flange	*Firebox*
Tensile strength, lb. per sq. in.	55,000–65,000	55,000–65,000
Yield point, min. lb. per sq. in.	0.5 tens. str.	0.5 tens. str.
Elongation in 8 in., min., percent	1,500,000 / tens. str.	1,550,000 / tens. str.
Elongation in 2 in., min., percent	1,700,000 / tens. str.	1,750,000 / tens. str.

(b) Tensile strength only need be determined on the tension test specimen taken from the top of firebox plates, and it shall not exceed 70,000 lbs. per sq. in.

(c) Should the rule in (a) for minimum elongation in 8 in., for firebox steel give a value of less than 25 percent, the minimum allowable elongation shall be 25 percent, subject to the modifications of § 51.21–6.*

[1] The term "plate as rolled," here and used in §§ 51.21–8 (c) and 51.21–9 (a), refers to the unit plate rolled from a slab or directly from an ingot in its relation to the location and number of specimens; not to its condition.

§ 51.21–6 *Modifications in elongation.* (a) For material over ¾ to 2 in., inclusive, in thickness, a deduction from the percentage of elongation in 8 in., specified in §§ 51.21–5 (a) and (c) of 0.125 percent shall be made for each increase of 1/32 in. of the specified thickness above ¾ in., to a minimum of 21 percent for flange steel and 22 percent for firebox steel.

(b) For material over 2½ in. in thickness, a deduction from the percentage of elongation in 2 in. specified in § 51.21–5 (a) of 0.5 percent shall be made for each increase of ½ in. of the specified thickness, above 2½ in.

(c) For material ¼ in. or under in thickness, the elongation shall be measured on a gage length of 24 times the thickness of the specimen.*

§ 51.21–7 *Bending properties.* The bend test specimen shall stand being bent cold through 180° without cracking on the bent portion, around a pin, the diameter of which shall have the following relation to the thickness of the specimen. When the test is made on a specimen reduced in thickness, the rolled surface shall be on the outer curve of the bend. The requirements for universal edge rolled plates apply only when such plates are permitted for double butt-strap construction.

Thickness of material	Ratio of pin diameter to thickness of specimen	
	Sheared plates	Universal mill plates
1 inch and under	1	1½
Over 1 to 1½ inches, incl.	1½	2½
Over 1½ to 2 inches, incl.	2	3
Over 2 to 3 inches, incl.	2	
Over 3 to 4 inches, incl.	2½	

§ 51.21–8 *Test specimens.* (a) For plates two inches and under in thickness, the test specimens shall be prepared for testing from the material in its rolled condition.

(b) For plates over two inches in thickness, the test specimens shall be prepared from the material in its heat-treated condition, or from full thickness samples similarly and simultaneously treated. (See § 51.21–3).

(c) Tension test specimens for firebox steel shall be taken from the top and bottom corners of the plate as rolled, parallel to its longitudinal axis, and for flange steel from the bottom corner of the plate only. Bend test specimens shall be taken from the middle of the top of the plate as rolled, at right angles to its longitudinal axis. (See note in § 51.21–3).

(d) For plates two inches and under in thickness, tension and bend test specimens shall be the full thickness of the material and shall be machined to the form and thickness shown in Figure M–1; or the bend test specimen may be machined with both edges parallel.

(e) For plates over two inches in thickness, tension test specimens shall be machined to the form and dimensions shown in Figure M–2, and the axis of each such specimen shall be located midway between the center and the top or bottom surface of the plate. The bend test specimen shall be at least one and one-half inches in width with both edges parallel and may be reduced to two inches in thickness; but shall have one surface as rolled.

(f) The sides of the bend test specimens may have the corners rounded to a radius of not over one-sixteenths inch for plates two inches and under in thickness, and to not over one-eighth inch for plates over two inches in thickness.*

§ 51.21–9 *Number of tests.* (a) Two tension and one bend test shall be made from each firebox steel plate as rolled. One tension and one bend test shall be made from each flange steel plate as rolled.

(b) If any test specimen shows defective machining or develops flaws, it may be discarded and another specimen substituted.

(c) If the percentage of elongation of any tension test specimen is less than that specified in § 51.21–5 and any part of the fracture is more than three-fourths inch from the center of the gage length of a two inch specimen or is outside the middle third of the gage length of an eight inch specimen as indicated by scribe scratches marked on the specimen before testing, a retest shall be allowed.*

§ 51.21–10 *Permissible variations in thickness and weight.* No plate shall vary more than 0.01 inch under the thickness specified.*

§ 51.21–11 *Finish.* The finished plates shall be free from injurious defects and shall have a workmanlike finish.*

§ 51.21–12 *Marking.* (a) The name or brand of the manufacturer, the manufacturer's test identification number, class, and lowest, tensile strength specified shall be legibly stamped on each finished plate in two places not less than twelve inches from the edges and on each butt-strap near the enter line not less than 12 inches from each end. The manufacturer's test identification number shall be legibly stamped on each test specimen.

(b) Plates shall be match-marked as defined in paragraph (c) so that the test specimens representing them may be identified. When the plate rolled from a slab or ingot is cut into two or more smaller plates, each shall be match-marked so that they may be identified with the test specimens representing them.

(c) Each match-mark shall consist of two overlapping circles not less than one and one-half inches in diameter, placed upon the shear lines, and made by separate impressions of a single-circle steel die.

(d) Match-marked coupons shall match with the sheets represented, and only those which match properly shall be accepted.*

§ 51.21–13 *Manufacturer's certification.* The manufacturer shall furnish the purchaser with a certification for each order stating the manufacturer's number of the plate and the chemical and physical properties as shown by the tests. Such material when furnished for use in the construction of unfired pressure vessels designed for a maximum allowable working pressure not exceeding 700 lbs. and temperatures not exceeding 500° F. shall not be subject to inspection by a duly authorized inspector.*

Steel Plates for Welding

NOTE: In substantial agreement with A. S. T. M. Designation A 89–39. Certified material—Class B.

§ 51.22–1 *Scope.* These specifications cover two grades of carbon-steel plate of flange and firebox qualities. This material is suitable for fusion welding. It is also suitable for forge welding when the requirements specified in § 51.22–3 (b) are applied. The purchaser shall specify when material is to be used for forge welding.

NOTE: The term "forge welding" as used in these specifications refers to the process of heating with water gas, and hammering mechanically, without the use of fluxes.

§ 51.22–2 *Process.* The steel shall be made by either or both of the following processes: open-hearth or electric-furnace.*

§ 51.22–3 *Chemical composition.* (a) The steel shall conform to the requirements as to chemical composition prescribed in Table I.

(b) When these specifications are used for material that is to be forge welded, the maximum quantity of either nickel or chromium shall not exceed 0.05 percent, and unless otherwise specified, the silicon shall not exceed 0.05 percent.*

§ 51.22–4 *Tensile properties.* (a) The material shall conform to the requirements as to tensile properties prescribed in Table II.

(b) Tensile strength only need be determined on the tension test specimen taken longitudinally from the top of firebox plates, and it shall not exceed 60,000 psi., for Grade A, nor 65,000 psi. for Grade B.

(c) For material over ¾ inch in thickness, a deduction from the percentages of elongation in 8 in., prescribed in Table II of 0.125 percent shall be made for each increase of 1/32 in., of the specified thickness above ¾ in.

(d) For material ¼ in. and under in thickness, the elongation shall be measured on a gage length of 24 times the thickness of the specimen.

TABLE I—*Chemical Requirements*

	Flange		Firebox	
	Grade A	Grade B	Grade A	Grade B
Carbon, max., percent:				
For plates ¾ in. and under in thickness	0.18	0.20	0.15	0.20
For plates over ¾ in. in thickness	.17	.22	.17	.22
Manganese, percent	.35 to .60	.35 to .60	.35 to .60	.35 to .60
Phosphorous, max., percent:				
Acid	.06	.06	.04	.04
Basic	.04	.04	.035	.035
Sulphur, max., percent	.05	.05	.04	.04

TABLE II—*Tensile requirements*

	Flange		Firebox	
	Grade A	Grade B	Grade A	Grade B
Tensile strength, min. lb. per sq. in.	45,000	50,000	45,000	50,000
Yield point, min. lb. per sq. in.	0.5 tens. str.	0.5 tens. str.	0.5 tens. str.	0.5 tens. str.
But in no case less than	24,000	27,000	24,000	27,000
Elongation in 8 in., min. percent	1,500,000 tens. str.	1,500,000 tens. str.	1,550,000 tens. str.	1,550,000 tens. str.
Elongation in 2 in., min. percent	2,000,000 tens. str.	1,600,000 tens. str.	1,650,000 tens. trs.	1,650,000 tens. str.

•

§ 51.22–5 *Bending properties.* The bend test specimen shall stand being bent cold through 180° without cracking on the outside of the bent portion around a pin, the diameter of which shall have the following relation to the thickness of the specimen:

Thickness of material:	*Ratio of pin diameter to thickness of specimen*
1 in. and under	1
Over 1 in.	2

•

§ 51.22–6 *Test specimens.* Tension test specimens for firebox steel, shall be taken from the top and bottom corners of the plate as rolled, parallel to its longitudinal axis, and for flange steel from the bottom corner of the plate only. Bend test specimens shall be taken from the middle of the top of the plate as rolled, at right angles to its longitudinal axis.

(b) Tension and bend test specimens shall be the full thickness of the material as rolled, except as specified in paragraph (c), and shall be machined to the form and dimensions shown in Figure M–1; or the bend test specimen may be machined with both edges parallel.

(c) For plates over one and one-half inches in thickness, tension test specimens may be machined to a thickness or diameter of at least three-fourths inch for a length of at least nine inches, or they may be machined to the form and dimensions shown in figure M–2. The bend test specimens of plates over one and one-half inches in thickness may be machined to a thickness of at least three-fourths inch or to one by one-half inch in section.

(d) The sides of the bend test specimens may have the corners rounded to a radius not over one-sixteenth inch.*

§ 51.22–7 *Number of tests.* Two tension tests and one bend test shall be made from each firebox steel plate as rolled. One tension test and one bend test shall be made from each flange steel plate as rolled.

(b) If any test specimen shows defective machining or develops flaws, it may be discarded and another specimen substituted.

(c) If the percentage of elongation of any tension test specimen is less than that specified in § 51.22–4 and any part of the fracture is more than three-fourths inch from the center of the gage length of a two-inch specimen or is outside the middle third of the gage length of an eight-inch specimen, as indicated by scribe scratches marked on the specimen, before testing, a retest shall be allowed.*

§ 51.22–8 *Permissible variations in thickness and weight.* No plate shall vary more than 0.01 inch under the thickness specified.*

§ 51.22–9 *Finish.* The finished plates shall be free from injurious defects and shall have a workmanlike finish.*

§ 51.22–10 *Marking.* (a) The name or brand of the manufacturer, the manufacturer's test identification number, class, and lowest tensile strength for the grade specified in § 51.22–4 (a) shall be legibly stamped on each plate. The manufacturer's test identification number shall be legibly stamped on each test specimen.

(b) Plates shall be match-marked as defined in paragraph (c) so that the test specimens representing them may be identified. When the plate rolled from a slab or ingot is cut into two or more smaller plates, each shall be match-marked so that they may all be identified with the test specimens representing them.

(c) Each match-mark shall consist of two overlapping circles, each not less than one and one-half inches in diameter, placed upon the shear lines, and made by separate impressions of a single-circle steel die.

(d) Match-marked coupons shall match with the sheets represented and only those which match properly shall be accepted.*

§ 51.22–11 *Manufacturer's certification.* The manufacturer shall furnish the purchaser with a certification for each order stating the manufacturer's number of the plate and the chemical and physical properties as shown by the tests. Such material when furnished for use in the construction of unfired pressure vessels designed for a maximum allowable working pressure not exceeding 700 lbs. and temperatures not exceeding 500° F. shall not be subject to inspection by a duly authorized inspector.*

PART 52—CONSTRUCTION

Section 52.2–2 (a) is amended to read as follows:

§ 52.2–2 *Materials and workmanship.* (a) The plates used shall be of marine boiler steel conforming to the provisions of §§ 51.2–1 to 51.2–10 inclusive, except, that cylindrical shells of riveted construction not subject to the radiant heat of the fire and designed for working pressures not exceeding 150 lbs. per square inch may be constructed with steel plates meeting the specifications of §§ 51.21–1 to 51.21–13 inclusive, and which are tested, inspected, and stamped in accordance with § 51.1–1. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.2–3 (b) is amended by changing the sentence immediately following the letter "S" to read as follows:

§ 52.2–3 *Computations and factors of safety.*

* * * * * *

(b) * * *

S=tensile strength stamped on shell plates as provided for in §§ 51.2–1 to 51.2–10. * * * (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 412, 367)

Section 52.2–3 (c) is amended to read as follows:

(c) The minimum thickness of any cylindrical shell plate of any boiler shall be one-fourth inch. (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 412, 367)

Section 52.2–4 is amended to read as follows:

§ 52.2–4 *Seamless shells.* Shells may be of seamless construction with or without integral heads, provided the material conforms to the requirements of §§ 51.11–1 to 51.11–9 for seamless tubing. In such cases, the value of E in formulas (1) and (2) shall be taken as 1.0. (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 412, 367)

Section 52.2–5 is amended to read as follows:

§ 52.2–5 *Forge-welded shells.* Forge-welded shells may be used up to and including 30 inches inside diameter, provided the same are made of open-hearth steel, as specified in §§ 51.11–1 to 51.11–9, the details of the welding process and the methods of determining the homogeniety and reliability of the weld to be approved by the Board. The maximum allowable working pressure and minimum thickness of such shells shall be computed by formulas (1) and (2), § 52.2–3, using 0.7 as the value of E. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.3–1 (a) is amended by changing the reference following the last sentence thereof to read as follows:

§ 52.3–1 *Approved types of joints.* (a) * * * (See §§ 56.20–1 to 56.20–19) (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.3–2 (a) is amended to read as follows:

§ 52.3–2 *Materials and workmanship.* (a) The butt straps of riveted joints shall be of steel conforming with the specifications and requirements for the shell plates. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.3–3 (c) is amended by adding new values to the table of shearing strength of rivets given in the definition of the quantity "s" so that the amended definition reads as follows:

§ 52.3–3 *Longitudinal riveted joints and computations.*

* * * * * *

(c) * * *

s=shearing strength of rivets per square inch of sectional area, assumed as follows:

	Pounds
Iron rivets in single shear	38,000
Iron rivets in double shear	76,000
Steel rivets, Grade A, in single shear	44,000
Steel rivets, Grade A, in double shear	88,000
Steel rivets, Grade B, in single shear	52,000
Steel rivets, Grade B, in double shear	104,000
Alloy-steel rivets, Grade C, in single shear	60,000
Alloy-steel rivets, Grade C, in double shear	120,000

* * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.3–6 (a) is amended to read as follows:

§ 52.3–6 *Welded joints.* (a) Welded joints shall be as specified in § 52.2–5 or §§ 56.20–1 to 56.20–19. No unreinforced hole shall be located in a welded joint except that it may be pierced for rivets of circumferential joints. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.4–2 (a) is amended to read as follows:

§ 52.4–2 *Materials and workmanship.* (a) The steel plates used in the construction of domes shall conform to the specifications and requirements for the shell plates. For steam chimneys the steel plates used shall conform to the specifications and requirements of §§ 512.2–1 to 51.2–10 inclusive, or §§ 51.21–1 to 51.21–13 inclusive, and which are tested, inspected, and stamped in accordance with § 51.1–1. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.5–1 (a) is amended to read as follows:

§ 52.5–1 *Definitions.* (a) Unstayed heads are the ends of a pressure shell or vessel. They may be either flat or dished. Heads may be integral with, or riveted or welded to, the shell. * * * (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 412, 367)

Section 52.5–2 (a) is amended to read as follows:

§52.5–2 *Materials and workmanship.* (a) The steel used in the construction of heads shall be of one of the grades suitable for flanging under the general requirements and specifications for the shell plates. After heads have been dished, flanged, or locally heated, they shall be properly annealed. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.6–3 (a) is amended to read as follows:

§ 52.6–3 *Materials and workmanship.* (a) The material for reinforcing plates around openings shall conform to the requirements of the plate to be reinforced. When they are locally heated for flanging or forming they shall be properly annealed. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.6–3 (c) is amended to read as follows:

(c) The cover plates for manholes shall be of steel conforming to the specifications and requirements for the shell plates. Handhole covers may be made of steel conforming to the specifications and requirements of the shell plates, or of steel conforming to the specifications and requirements of §§ 51.21–1 to 51.21–13, inclusive, or of property designed steel forgings conforming to the requirements of §§ 51.15–1 to 51.15–14, or of properly designed steel castings conforming to the requirements of §§ 51.17–1 to 51.17–12. * * * (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 412, 367)

Section 52.6–3 (e) is amended to read as follows:

(e) The material of bolts securing girders or dogs and cover plates shall conform to the requirements of §§ 51.4–1 to 51.4–10. * * * (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 412, 367)

Section 52.6–3 (i) is amended to read as follows:

(i) When handhole or other access openings are made, a margin of not less than one-fourth inch shall be left when punching operations are used, and not less than one-eighth inch shall be left when machine burning methods are employed. Such margins shall be machined or ground away to relieve the metal of any stresses which may be set up due to burning or punching operations. * * * (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 412, 367)

Section 52.8–2 is amended to read as follows:

§ 52.8–2 *Materials.* (a) Round bar stays which require no welding or forging other than upsetting at the ends for threading or to form eyes for use in conjunction with crowfeet, or similar fastenings, shall conform to the requirements of §§ 51.4–1 to 51.4–10, 51.5–1 to 51.5–10, or §§ 51.6–1 to 51.6–10.

(b) Crowfeet, lugs, and similar connections for stays shall be forgings without welds conforming to the requirements of §§ 51.15–1 to 51.15–14.

(c) Welded stays or parts thereof shall conform to the requirements of §§ 51.6–1 to 51.6–10. All welds in the body of the stay must be made by the hammer-weld process.

(d) Stiffeners made of structural shapes shall conform to the requirements specified in §§ 51.5–1 to 51.5–10.

(e) Gusset and diagonal stays made of steel plate, also doubling plates and girders shall conform to the requirements specified in §§ 51.2–1 to 51.2–10.

(f) Stay tubes shall conform to the requirements of §§ 51.9–1 to 51.9–16, 51.9a–1 to 51.9a–18, and to §§ 51.10–1 to 51.10–18.

(g) Rivets shall conform to the following requirements:

Steel rivets, §§ 51.7–1 to 51.7–9.
Iron rivets, §§ 51.8–1 to 51.8–11.

(h) Nuts for screw stays shall be made of steel, conforming to the requirements of §§ 51.15–1 to 51.15–14 or, of refined wrought iron conforming to the requirements of §§ 51.6–1 to 51.6–10. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.10–2 is amended to read as follows:

§ 52.10–2 *Materials.* (a) All plates forming parts of combustion chambers or fire boxes shall conform to the general specification for the shell plates.

(b) Structural shapes of any form used for stays and reinforcement shall conform to the requirements of §§ 51.5–1 to 51.5–10. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.11–2 is amended to read as follows:

§ 52.11–2 *Materials.* (a) All furnaces shall be constructed of steel plates conforming to the requirements for firebox

quality steel as given in §§ 51.2–1 to 51.2–10.

(b) Riveted flues shall be made of firebox quality steel plates conforming to the requirements of §§ 51.2–1 to 51.2–10.

(c) Welded flues may be constructed of firebox quality steel conforming to the requirements of §§ 51.2–1 to 51.2–10 or of wrought iron or steel pipe conforming to the requirements of §§ 51.11–1 to 51.11–9, and 51.12–1 to 51.12–10.

(d) Seamless flues may be constructed of steel tubing conforming to the requirements of §§ 51.11–1 to 51.11–9. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.11–3 (c) is amended to read as follows:

§ 52.11–3 *Computations.*

* * * * * *

(c) *Flues.* The maximum allowable working pressure and minimum thickness of plain riveted flues shall be computed by formulas provided in paragraph (b) of this section. For seamless or welded flues, not less than 6 nor more than 18 inches in outside diameter and subject to external pressure, the following formulas shall be used:

$$W=\frac{86670\ T-1286\ D}{5D} \quad (46)$$

$$T=\frac{D\ (5W+1286)}{86670} \quad (48)$$

where
W=maximum allowable working pressure, in pounds per square inch.
T=thickness of flue, in inches.
D=external diameter of flue, in inches.

NOTE: As a matter of convenience, the following table is computed from the preceding formulas for seamless or welded flues:

TABLE C–2—*Maximum allowable working pressure and minimum thickness of seamless or welded flues subject to external pressure*

Outside diameter of flue	Maximum allowable working pressure in pounds per square inch						
	100	120	140	160	180	200	220
	Thickness of flue, in inches						
Inches:							
6	0.130	0.137	0.144	0.151	0.159	0.165	0.172
7	.152	.161	.169	.177	.185	.193	.201
8	.174	.184	.193	.202	.211	.221	.230
9	.196	.206	.217	.228	.238	.248	.259
10	.218	.229	.241	.253	.264	.276	.287
11	.239	.252	.265	.279	.290	.303	.316
12	.261	.275	.289	.303	.317	.331	.344
13	.283	.298	.313	.328	.343	.359	.373
14	.305	.321	.337	.354	.369	.386	.402
15	.326	.344	.361	.378	.396	.414	.431
16	.348	.367	.385	.405	.422	.441	.459
17	.370	.390	.409	.429	.448	.469	.488
18	.392	.413	.433	.455	.475	.497	.516

(R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Paragraphs (a), (b), and (c) of § 52.12–2 are amended to read as follows:

§ 52.12–2 *Materials and workmanship.* (a) Seamless steel boiler tubes shall comply with the requirements of §§ 51.9–1 to 51.9–16 and §§ 51.10–1 to 51.10–18 for such tubes.

(b) Electric-resistance-welded steel and iron boiler tubes shall comply with the requirements of §§ 51.9a–1 to 51.9a–18 for such tubes.

(c) Lap-welded steel and wrought-iron boiler tubes shall comply with the requirements of §§ 51.9–1 to 51.9–16 for such tubes. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.12–3 (b) is amended to read as follows:

§ 52.12–3 *Computations.*

* * * * * *

(b) The maximum allowable working pressure and minimum thickness of seamless or welded boiler tubes, less than 6" in diameter and subject to external pressure, shall be computed by the following formulas:

$$W=\frac{14{,}000\ (T-0.065)}{D} \quad (48)$$

$$T=\frac{WD}{14{,}000}+0.065 \quad (49)$$

where
W=maximum allowable working pressure, in pounds per square inch.
T=thickness of tube, in inches.
D=external diameter of tube, in inches.

As a matter of convenience, the following table has been computed from the preceding formulas:

TABLE C–4—*Maximum allowable working pressure and minimum thickness for seamless or welded boiler tubes less than 6" in diameter and subject to external pressure*

Outside diameter of tube in inches	Maximum allowable working pressure in pounds per square inch, nearest B. W. G. number and thickness of tube wall in inches						
	13 0.095	12 0.105	11 0.120	10 0.135	9 0.150	8 0.165	7 0.18
1	420	560	770	980			
1¼	280	380	520	660	800	940	
1½	240	320	440	570	680	800	920
2	210	280	380	490	600	700	810
2¼	190	260	350	430	530	630	720
2½	170	230	310	400	480	560	650
3		190	260	330	400	470	540
3¼		180	240	310	370	430	500
3½		160	220	280	340	400	460
4			200	250	300	350	410
4½			180	220	270	320	360
5				200	240	280	330
5½					220	270	300
6					220	260	300

(R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.13–3 is amended to read as follows:

§ 52.13–3 *Materials.* (a) Headers or fittings, used in connection with these appurtenances, shall be constructed of wrought steel in accordance with the requirements of §§ 51.2–1 to 51.2–10, inclusive, or §§ 51.11–1 to 51.11–9, inclusive, or of wrought iron conforming to the requirements of §§ 51.12–1 to 51.12–10, inclusive, or cast steel made in conformance with the requirements of §§ 51.17–1 to 51.17–12, inclusive. Equivalent material may be used if approved by the Board of Supervising Inspectors. (See §§ 51.1–18 and 52.1–13.) Ends of headers may be closed by plugs conforming to the requirements of §§ 51.2–1 to 51.2–10, inclusive, (Class A material), or §§ 51.21–1 to 51.21–13, inclusive, or §§ 51.22–1 to 51.22–11, inclusive (Class B material).

(b) Tubes used in the construction of superheaters shall conform to the requirements of §§ 51.9–1 to 51.9–16, inclusive; §§ 51.9a–1 to 51.9a–18, inclusive; or §§ 51.10–1 to 51.10–18, inclusive. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.14–2 (c) is amended to read as follows:

§ 52.14–2 *Design, material, and workmanship.*

* * * * * *

(c) Bodies of safety valves having nominal diameters not exceeding 2½ inches may be made of bronze conforming to the requirements of §§ 51.20–1 to 51.20–10, inclusive, provided the steam temperature does not exceed 450° F. (R.S. 4405, 4417a, 4418, 4426, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 411, 367)

Section 52.15–2 (a) is amended to read as follows:

§ 52.15–2 *Materials and workmanship.* (a) Boiler mountings or attachments shall be made of steel forgings conforming to the requirements of §§ 51.15–1 to 51.15–14; steel castings conforming to the requirements of §§ 51.17–1 to 51.17–12; or, where the temperature does not exceed 450° F., they may be made of bronze castings conforming to the requirements of §§ 51.20–1 to 51.20–10. * * * (R.S. 4405, 4417a, 4418, 4426, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 411, 367)

Section 512.15–2 (d) is amended to read as follows:

(d) Where the temperature exceeds 500° F., all bolting material shall conform to the requirements of §§ 51.16–1 to 51.16–8 and §§ 51.16a–1 to 51.16a–9. For temperatures not in excess of 500° F., commercial bolting material conforming to the requirements of A. S. T. M. Designation A 107–40, or equivalent thereto may be used. * * * (R.S. 4405, 4417a, 4418, 4426, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 411, 367)

Section 52.15–11 (a) is amended to read as follows:

§ 52.15–11 *Water indicators.* (a) Each boiler shall have two independent means of indicating the water level in the boiler, one of which shall be a gage glass. The secondary indicator may consist of a gage glass, or other device approved by the Board, or where the allowable steam pressure does not exceed 250 pounds per square inch, three test cocks attached directly to the head or shell of the boiler. Where the working pressure exceeds 250 pounds per square inch, the gage glasses shall be of the flat type instead of the common tubular type. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.16–1 is amended to read as follows:

§ 52.16–1 *Approval.* (a) Evaporators, heaters, traps, valves and fittings, separators, pressure vessels, and miscellaneous appliances are subject to approval by the board of supervising inspectors before being installed on vessels coming under the jurisdiction of this Bureau.

(b) Manufacturers desiring to obtain approval of such appurtenances are required to submit detail drawings and specifications for consideration by the board of supervising inspectors. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.16–3 (b) is amended to read as follows:

§ 52.16–3 *Materials and workmanship.*

* * * * * *

(b) The appurtenances and appliances covered by §§ 52.16–1 to 52.16–7 may be constructed of the following materials:

Steel castings, conforming to the requirements of §§ 51.17–1 to 51.17–12.

Bronze castings, conforming to the requirements of §§ 51.20–1 to 51.20–10, provided the temperature to which they are subjected does not exceed 450° F.

Cast iron, conforming to the requirements of §§ 51.18–1 to 51.18–10, for appurtenances and appliances not subject to shock, provided the maximum allowable working pressure does not exceed 25 pounds and the temperature is not in excess of 450° F. This pressure limitation of 25 pounds does not apply to steam traps. For pipe fittings and valves see § 55.19–3. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 52.16–5 (a) is amended to read as follows:

§ 52.16–5 *Bolting.* (a) Bolting material used for securing heads, doors, or covers shall comply with the requirements of A. S. T. M. Designation A 107–40, provided the temperature does not exceed 500° F.; if above 500° F., the bolting material shall conform to the requirements of §§ 51.16–1 to 51.16–8 and 51.16a–1 to 51.16a–9. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 4375, 391a, 392, 404, 407, 408, 411, 412, 367)

PART 53—INSTALLATION

Section 53.17–3, *Special fire protection for passenger vessels,* is deleted and §§ 53.17–4 and 53.17–5 are renumbered to § 53.17–3, *Dampers,* and § 53.17–4, *Installation of auxiliary or donkey boilers, respectively.* (R.S. 4405, 4417a, as amended, 49 Stat. 1544, sec. 2 (a) of 54 Stat. 1026; 46 U.S.C. 375, 391a, 404, 463a)

PART 55—PIPING SYSTEMS

Section 55.19–3 (j) is amended to read as follows:

§ 55.19–3 *Detail requirements.*

* * * * * *

(j) Forged steel, or cast steel conforming to the requirements of §§ 51.15–1 to 51.15–14, 51.17–1 to 51.17–12, may be used in the construction of valves and fittings for any system and for all pressures and temperatures covered by the rules in this subchapter. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 55.19–3 (k) is amended to read as follows:

(k) Bronze castings conforming to the requirements of §§ 51.20–1 to 51.20–10, Grade B, may be used in the construction of valves and fittings for temperatures not exceeding 450° F. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 55.19–3 (l) is amended to read as follows:

(l) Malleable iron conforming to the requirements of §§ 51.19–1 to 51.19–16 for Grade A material, may be used in the construction of valves and fittings for working pressures not exceeding 250 pounds per square inch. Grade B malleable iron may be used for working pressures not exceeding 125 pounds per square inch. Cast iron conforming to the requirements of §§ 51.18–1 to 51.18–10, may be used in the construction of valves and fittings for working pressures not exceeding 125 pounds per square inch. All of these materials are subject to the requirements for various individual systems provided for in this part. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 55.19–3 (v) is amended to read as follows:

(v) For temperatures not exceeding 500° F., steel bolting material conforming to the requirements of A. S. T. M. Designation A 107–40 or equivalent thereto may be used. For temperatures above 500° F., alloy-steel bolting material as specified in §§ 51.16–1 to 51.16–8 and 51.16a–1 to 51.16a–9 shall be used. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 55.19–3 (w) is amended to read as follows:

(w) Forged-steel welding fittings, valves, or flanges, known as the socket type, wherein the piping is attached by entering the pipe into the socket and securing it to the fitting with a single fillet weld, may be used where the diameter of the pipe does not exceed 2½ inches nominal pipe size for Class I piping, and without diameter limitation for Class II piping, provided the welding is done by certificated welding operators. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 55.19–6 (a) is amended to read as follows:

§ 55.19–6 *Class I piping*—(a) *Scope.* Class I piping within the meaning of this section shall include hot-water piping at temperatures exceeding 200° F., oil piping at temperatures exceeding 150° F. regardless of pressure, and all other piping at pressures exceeding 125 lbs. per square inch except fire main piping not used for high temperature water for tank cleaning operations. Fire mains which are used for high temperature water for tank cleaning operations shall conform to the requirements of Class I piping with the exception that stress relieving and testing of welded joints by the radiographic or paramagnetic method will not be required. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 55.19–6 (b) is amended to read as follows:

(b) *Computations.* The maximum allowable working pressure and minimum thickness of pipe in Class I shall be computed by the following formulas:

$$W=\frac{2S}{D}\ (T-C) \quad (61)$$

$$T=\frac{WD}{2S}+C \quad (62)$$

where
W=maximum allowable working pressure, in pounds per square inch, except as provided in subparagraph (c), for feed and blow-off piping.
T=thickness of pipe, in inches.
D=actual external diameter of pipe, in inches.
S=allowable fiber stress, in pounds per square inch of cross-sectional area.
C=0.1 for steel, wrought iron, or brass pipe.
C=0.06 for seamless copper pipe exceeding 1 inch in outside diameter.

TABLE P–2—*Maximum allowable fiber stress on Class I pipes of various materials and for various temperatures*

Seamless steel pipe	Maximum allowable fiber stresses for temperatures in °F., not to exceed [1]						
	700°	750°	800°	850°	900°	950°	1,000°
Grade A	6,750	6,200	5,200	4,200	3,200	2,200	1,200
Grade B [2]	8,550	7,800	6,800	5,550	4,200	3,200	1,700
Carbon Molybdenum P1	8,200	8,000	7,000	6,000	5,000	4,000	3,000

[1] Where the temperature differs from those in the table, the value of S may be determined by inter polation.
[2] Seamless medium-carbon steel pipe may be used for the construction of drum shells, and shall be computed in accordance with formulas provided in § 52.2–3 or § 52.2–6 for cylindrical shells.

Welded steel pipe (temperature not to exceed 450° F.), S=4,800.

Welded iron pipe (temperature not to exceed 450° F.), S=4,400.

Seamless copper pipe (temperature not to exceed 406° F.), S=3,500.

Brazed copper pipe (temperature not to exceed 406° F.), S=2,625.

Seamless brass pipe (temperature not to exceed 406° F.), S=3,500.

• • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 55.19–8 (e) is amended by changing the first sentence to read as follows:

§ 55.19–8 *Flange standards.*

• • • • •

(e) *Methods of attachment.* Flanges shall be attached to the piping by the following approved methods as shown in figures P–1 to P–10 inclusive. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 411, 367)

Section 55.19–8 (e) is amended by deleting Fig. P–2, Fig. P–6, and Fig. P–9 and inserting the following new Fig. P–2, Fig. P–6, and Fig. P–9, respectively, in their stead:

FIG. P-2

FIG. P-6

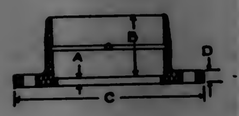

FIG. P-9

• • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 55.19–8 (e) is amended by deleting the center heading "Class I Piping" which immediately precedes the descriptive paragraphs for Figure P–1 to Figure P–10, inclusive. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 55.19–8 (e) is amended by changing the descriptive paragraph for Figure P–1 to read as follows:

Figure P–1: Screwed threads may be used for Class I piping having diameters not exceeding two inches nominal pipe size. For Class II piping, screwed threads may be used without diameter limitations. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 55.19–8 (e) is amended by changing the descriptive paragraph for Figure P–2 to read as follows:

Figure P–2: Slip-on flanges may be used for Class I piping having diameters not exceeding 2½ inches nominal pipe size and for Class II piping without diameter limitation. The face of the flange shall extend beyond the end of the piping a distance at least equal to the thickness of the piping, and shall be secured to the pipe by a full fillet weld. The neck of the flange shall also be secured to the pipe by a full fillet weld. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 55.19–8 (e) is amended by changing the descriptive paragraph for Figure P–3 to read as follows:

Figure P–3: Copper pipe may be expanded into grooves in the hub of a flange and the end flanged over into a recess in the face of the flange, the width of the flange on the edge of the pipe to be at least three times the thickness of the pipe. This flange to be used for Class II piping only. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434 as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 55.19–8 (e) is amended by changing the descriptive paragraph for Figure P–6 to read as follows:

Figure P–6: Welding neck flanges may be used for all piping provided the pipe is butt welded to the flange. The butt joint shall be either double welded or single V welded with a backing-up strip on the inside. For Class II piping when the single V joint is used, the backing-up strip may be omitted provided the weld is chipped or ground off flush on the root side of the weld. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 55.19–8 (e) is amended by changing the descriptive paragraph for Figure P–7 to read as follows:

Figure P–7: Pipe may be attached to high hub flanges by shrinking the flange onto the end of the pipe, and flaring the end of the pipe to an angle of not less than 20°. This flange limited to a maximum pressure of 250 pounds per square inch and a temperature not exceeding 450° F. For Class II piping, the same requirements apply. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 55.19–8 (e) is amended by changing the descriptive paragraph for Figure P–8 to read as follows:

Figure P–8: Pipe may be attached to flanges by expanding the pipe into grooves in the bore of the flange, and flaring the end of the pipe to an angle of not less than 20°. This flange limited to a maximum pressure of 250 pounds per square inch and a temperature not exceeding 500° F. For Class II piping, it will not be necessary to flare the ends of the pipe. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 55.19–8 (e) is amended by changing the descriptive paragraph for Figure P–10 to read as follows:

Figure P–10: Copper pipe may be attached to flanges by inserting the pipe in the flange and beading the end of the pipe over into a recess in the face of the flange. The width of the flange on the edge of the pipe to be not less than three times the thickness of the pipe after which the pipe shall be securely braced to the wall of the flange. This flange limited to use at a maximum temperature of 406° F. It is not allowed to be used in connection with superheated steam and is limited to use with saturated steam of not over 180 pounds per square inch. For hydraulic service at temperatures of not over 150° F., it may be used for pressures not exceeding 1,000 pounds per square inch. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 55.19–11 is amended by changing the cross reference at the end thereof to read as follows:

§ 55.19–11 *Miscellaneous piping, Class II.*

• • • • •

CROSS REFERENCE: For Figures P–1, P–10, and Tables P–8 to P–11, see § 55.19–8.

(R.S. 4405, 4417a, 4418, 4426, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 367)

Section 55.19–14 is amended to read as follows:

§ 55.19–14 *Independent fuel piping and tanks (emergency units)*—(a) *Scope.* Vessels carrying passengers shall be allowed to carry such quantities of gasoline or any of the products of petroleum as may be necessary to supply the emergency lighting and/or wireless system when contained in tanks constructed and installed in accordance with the following requirements. The supply of gasoline for emergency units shall be limited to 40 gallons and the supply of heavier fuel oils shall be limited to fifteen long tons (2,240 lbs.).

(b) *Gasoline tanks*—(1) *Construction.* The tanks shall be of cylindrical form and may be constructed of any of the following materials: Wrought iron, mild steel, or of corrosion-resistant alloys suitable for the purpose, and shall have a minimum thickness of 0.125". Tanks constructed of ferrous metals less than 0.1875" in thickness shall be galvanized by the hot-dipped process both inside and outside. Joints shall be riveted, brazed, or welded, except that soldered joints may be used on small tanks of 20 gallons or less capacity, provided the solder used has a melting point of not less than 450° F. All spuds for pipe connections shall be securely riveted, brazed, welded, or soldered to the tank. No tubular gauge glasses or try-cocks shall be fitted to tanks.

(2) *Installation.* The tanks shall be located on the uppermost deck outside the engine compartment as close to the engine as practicable and so arranged as to permit a free circulation of air all around them. When installed, longitudinal seams shall be located as near the top of the tank as practicable. The tanks shall be properly secured and accessible for complete external examination.

(3) *Tests.* Tanks shall be tested to a hydrostatic pressure of 15 pounds per square inch gauge after installation.

(c) *Heavy oil tanks*—(1) *Construction.* The tanks may be of either cylindrical or rectangular form and may be constructed of any of the following materials: Wrought iron, mild steel, or of any corrosion-resistant alloys suitable for the purpose. Tanks designed for capacities of 40 gallons or less shall have a minimum thickness of 0.0625". Tanks designed for capacities of over 40 gallons shall have a minimum thickness of 0.125". Joints shall be riveted, brazed, or welded, except that soldered joints may be used on small tanks of 20 gallons or less capacity provided that the solder used has a melting point of not less than 450° F. Tanks shall be provided with swash plates and braces where necessary. The material used shall be the same as the tank. All spuds for pipe connections shall be securely riveted, welded, brazed, or soldered to the tank. No tubular gauge glasses or try-cocks shall be fitted to tanks.

(2) *Installation.* The tanks shall be located in an adequately ventilated steel or iron compartment on the deck above the weather deck. Tanks exposed to a temperature in excess of 100° F. shall be properly insulated, provided that no tank shall be located in any compartment where the temperature exceeds 150° F. When cylindrical tanks are installed, longitudinal seams shall be located as near the top of the tank as practicable. The tanks shall be properly secured and accessible for complete internal and external examination.

(3) *Tests.* Tanks shall be tested to a hydrostatic pressure of 10 pounds per square inch gauge after installation.

(d) *Outage.* When filling the tanks with gasoline or other petroleum products, an outage of 2 percent shall be provided.

(e) *Piping connections.* (1) The fuel piping for all tanks shall comply with § 55.19 C.F.R. and in addition it shall also comply with the following requirements.

(2) It shall be run in sight wherever practicable, but protected from mechanical injury and effectively secured against vibration.

(3) The filling pipe for each tank shall be entirely independent of other connections and shall extend nearly to the bottom of the tank.

(4) The supply pipe returning to the engine shall enter at the top of each tank and shall extend nearly to the bottom of the tank.

(5) Shut-off valves or cocks of a suitable type shall be installed in supply lines and located in accessible positions at the tank.

(6) Similar shut-off valves shall be located in the supply lines close to the carburetor or fuel pumps.

(7) No outlets for drawing fuel shall be permitted in engine compartments.

(8) Open drains for removing water from the fuel tanks are not permitted.

(f) *Filling and sounding connections.* Filling and sounding pipes for fuel oil tanks shall terminate on deck and be fitted with suitable shut-off valves or deck plugs.

(g) *Vents.* Each tank shall be fitted with a vent, the cross-sectional area of which shall be not less than the area of the filling pipe. The vents shall terminate in the atmosphere at least two feet above the deck and not less than three feet from any opening into living quarters. All vent pipes shall terminate with U-bends and shall be fitted with flame screens or approved flame arresters. (R.S. 4405, 4417a, 4418, 4426, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 411, 367)

Section 55.19–15 (a) is amended to read as follows:

§ 55.19–15 *Oil transfer and filling systems.* • • •

(a) Application to the Secretary of Commerce for permission to use petroleum or other mineral oils as fuel shall be made in triplicate on the prescribed blank form, and shall be forwarded through the local inspectors of the district where the installation is to be made. Plans in triplicate of the complete installation shall be submitted to the Bureau. The plans shall receive approval of the Bureau before permission can be granted to use oil as fuel on vessels. • • • (R.S. 4405, 4417a, 4418, 4426, 4474, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 467, 367)

Section 55.19–15 (h) is amended to read as follows:

(h) In fuel-oil tanks, sections of piping for heating the oil may be joined by welding in lieu of flange connections. The two sections to be joined shall be butted and a sleeve shall cover the joint. The sleeve shall be of the same material, its length shall be at least one-half inch more than the diameter of the pipe and it shall be located with the joint midway of its length. The ends of the sleeve shall be welded to the pipe. An approved form of saddle butt-welded joint may be used in lieu of the sleeve joint. The welding shall be done by welders certificated by this Bureau to weld pipe or plate. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 55.19–15 (k) (1) is amended to read as follows:

(1) All discharge piping from the pumps to the burners shall be of extra heavy seamless steel conforming to the requirements of §§ 51.11–1 to 51.11–9. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 55.19–17 is amended to read as follows:

§ 55.19–17 *Welded sea chests.* Sea chests may be constructed by fusion welding. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

PART 56—FUSION WELDING

Section 56.20–2 (g) is amended to read as follows:

§ 56.20–2 *Definitions.* • • •

• • • • •

(g) *Welder.* A person who operates welding equipment, either manual or automatic, other than an operator of submerged melt electric welding equipment. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Paragraphs (a) to (c), inclusive, of § 56.20–3 are amended to read as follows:

§ 56.20–3 *Qualification tests for welders.* (a) Before being permitted to make welds subject to inspection by the Bureau each welder shall pass the applicable tests specified in Table W–1. The tests shall be made with the same equipment to be used in production or with equipment equivalent thereto. The welding and testing of the specimens required shall be witnessed by an inspector.

NOTE: The tests specified herein bear the same number as, and are identical with, tests acceptable to the American Bureau of Shipping and the Bureau of Ships of the Navy Department. Welders qualified in accordance with these tests by an inspector of the American Bureau of Shipping, the Bureau of Ships of the Navy Department, or this Bureau will be acceptable to the Bureau.

(b) A welder doing satisfactory welding work continuously will not be required to be retested. A welder who has not been engaged in actual use of the welding process for which he was qualified for a period exceeding three months shall be required to pass the applicable tests before being permitted to resume work. A welder may be required by the inspector to repeat and pass the tests at any time if, in the inspector's opinion, the welder's work indicates a reasonable doubt as to his ability.

(c) All welders shall pass the qualification tests for the type and thickness of material, the kind of welding and position of work involved as specified in Table W–1. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 56.20–3 is amended by the insertion of a new Table W–1 to follow paragraph (c) which reads as follows:

TABLE W-1—*Required qualification tests*

	Positions in which welded joints are located on job		
	Flat, horizontal, vertical and overhead	Flat and vertical	Flat position only
On plate ¾ inch or less in thickness. [1] [2]	Test No. 1 in vertical and overhead positions.	Test No. 1 in vertical position.	Test No. 1 in flat position.
On material of unlimited thickness. [2]	Test No. 2 in vertical and horizontal positions.	Test No. 2 in vertical position.	Test No. 2 in flat position.
On piping or tubing ⅝ inch or less in thickness [4].	Test No. 3 with axis of pipe in horizontal and vertical fixed positions, provided welder has previously passed Tests Nos. 1 or 2 in vertical and overhead positions.		Test No. 3 with axis of pipe in horizontal position and rolled provided welder has previously been qualified by Tests Nos. 1 or 2 for the flat position.
On piping or tubing of unlimited thickness. [4] [5]	Test No. 4 in horizontal and	vertical fixed positions.....	Test No. 4 in horizontal position and rolled.
For tack welders. [7].....	Test No. 5 in vertical and overhead positions.	Test No. 5 in vertical position.	
On material of unlimited [illegible] metals of high conductivity).	Test No. 6 in vertical and [illegible] gas welding only).	Test No. 6 in vertical position [illegible]	Test No. 6 in flat position [illegible]

[1] Where the maximum thickness of material on which a welder may have occasion to work throughout a period governed by a test is indeterminate, the inspector may, if desired, require the welder to qualify under unlimited thickness requirements.

[2] Where the maximum plate thickness to be welded in production is less than ¾" the contractor may, with the permission of the inspector, use the following modification of Test No. 1: The test plate thickness shall be the maximum to be welded in production, but shall not be less than ⅜ in. The root opening shall be not more than the diameter of the welding rod or electrode core wire to be used. The backing strap thickness shall not be less than ½".

[3] Where the maximum plate thickness to be welded in production is between ¾" and 1½", Test No. 2 may, with the permission of the inspector, be conducted on plate of such maximum thickness.

[4] Tests Nos. 3 and 4 welded in the shop in the flat (downhand) position need not be welded in a confined space. A welder qualified to weld on plate in the vertical position may be permitted to weld on pipe in the flat position.

[5] Welders qualified under the requirements of Test No. 4 will be considered as qualified to make welds governed by Tests Nos. 1, 2 and 3 for the same positions.

[6] The macro specimen indicated in Figure W-1C for Test No. 4 may be required at the option of the inspector and may be taken at any location in the joint.

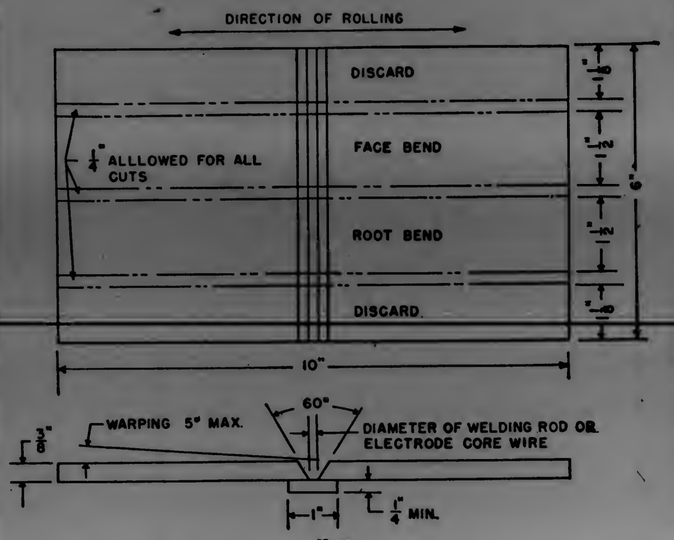
[7] Tack welding may be done by any welder qualified in accordance with Tests Nos. 1, 2, 3, or 4.

• • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 56.20–3 (d) is amended to read as follows:

(d) Qualification Tests Nos. 1, 2, 4, 5 and 6 shall be the welding of specimens in accordance with Figures W–1, W–1A, W–1C, W–1D and W–1E respectively. Qualification Test No. 3 shall be the welding, hydraulic testing and visual inspection of pipe assemblies or, as an alternate removal of specimens for macroscopic inspection in accordance with Figure W–1B. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

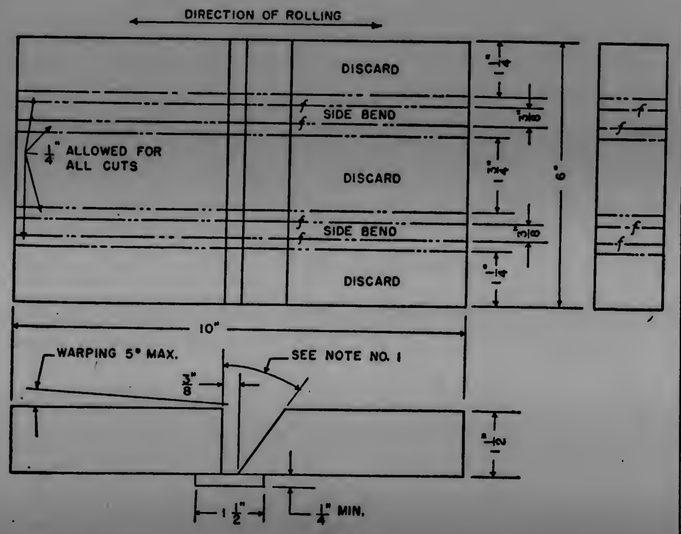
Section 56.20–3 is amended by the insertion of the new Figures W–1, W–1A, W–1B, W–1C, W–1D, W–1E, and W–1F, which are to follow paragraph (d), as follows:



NOTES

1. Arc welds shall be made with the maximum size of electrodes to be used in production. Gas welds shall be made with 5/16" diameter welding rods.
2. Machine reinforcement and backing strap flush. Do not remove any undercutting.
3. Machining shall be done transverse to weld.
4. All specimens shall be machined or sawed from plate.
5. Backing strap shall be contiguous with plates.
6. Arc welds made in the vertical position shall be welded upwards.
7. Welding shall be done from one side only.
8. Round edges of specimens to a radius of ⅛ maximum.

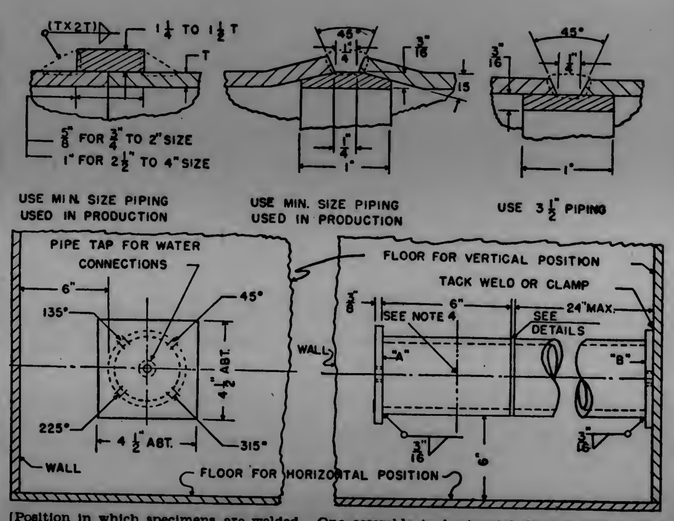
FIG. W–1.—Welder's qualification test No. 1.



NOTES

1. When welding in the flat and vertical positions of welding the groove angle shall be 25°; when welding in the horizontal position the groove angle shall be 35° and the unbeveled plate shall be located on the top side of the joint.
2. Backing strap shall be contiguous with plates.
3. Each pass of the weld shall be made with the same size of welding rod or electrode to be used in production.
4. Arc welds made in the vertical position shall be welded upwards.
5. Welding shall be done from one side only.
6. Machine reinforcement and backing strap flush. Do not remove any undercutting.
7. All specimens shall be machined or sawed from plate.
8. Machining shall be done transverse to weld.
9. Round edges of specimens to a radius of ⅛ maximum.

FIG. W–1A.—Welder's qualification test No. 2.

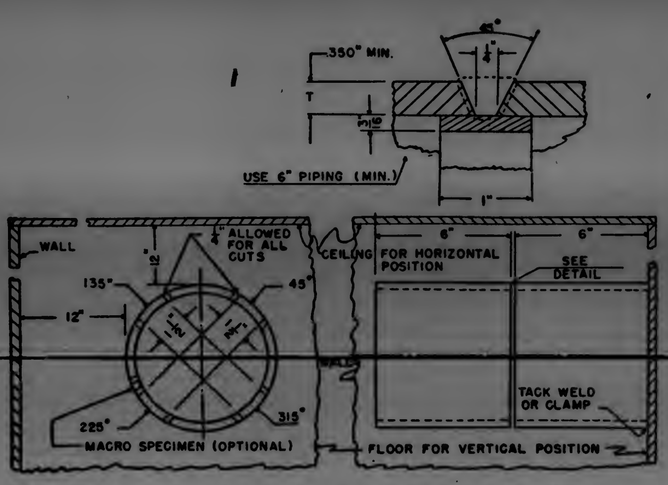


[Position in which specimens are welded. One assembly in horizontal fixed position. One assembly in vertical fixed position]

NOTES

1. When slip-on sleeves and plain type backing rings are used in production, plain type backing rings shall be used in this test. When all three types are used in production, flare-type backing rings shall be used in this test.
2. Parts shall be galvanized where required.
3. Weld shall be deposited in a minimum of two layers.
4. Saw cut after pressure test for visual inspection.
5. No icicles or reduction of area of piping shall be permitted.
6. Omit end plates "A" and "B" when etch test is used in lieu of hydrostatic test.
7. Remove macro specimens from 45°, 135°, 225° and 315° points of the welded butt joints as indicated. (For etch test only.)
8. Mark top and front of piping to insure proper location of specimens when etch test is used in lieu of hydrostatic test.
9. Welding shall be done from one side only.
10. For arc welding use the maximum size of electrode to be used in production. For gas welding use ⅛" diameter welding rod.

FIG. W–1B.—Welder's qualification test No. 3.

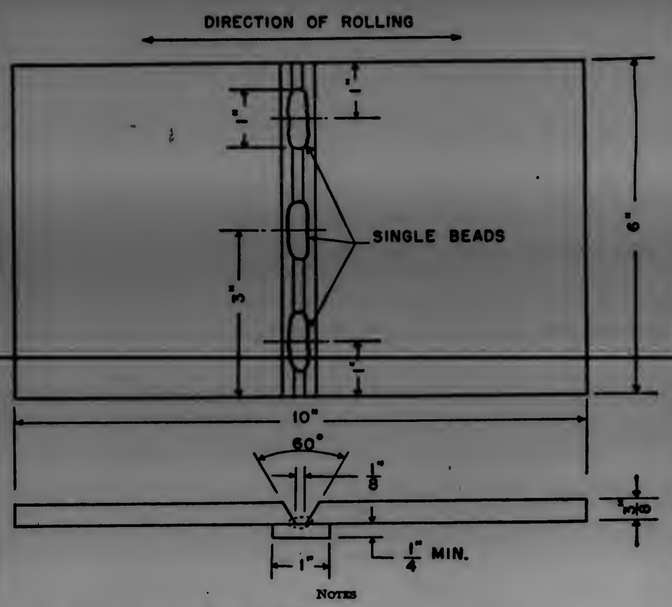


[Position in which specimens are welded. One assembly in horizontal fixed position. One assembly in vertical fixed position]

NOTES

1. Each pass of the weld shall be made with the same size of welding rod or electrode that will be used in production.
2. Machine reinforcement and backing strap flush. Do not remove any undercutting.
3. Machining shall be done transverse to weld.
4. All specimens shall be machined or sawed from piping.
5. Round edges of bend specimens to a radius of 1/8 max.
6. Mark top and front of piping to insure proper location of specimens.
7. Remove face-bend specimens from 45° and 225° points, and root-bend specimens from 135° and 315° points as indicated.
8. Welding shall be done from one side only.
9. If piping of greater wall thickness than 0.380" is used in this test, piping may be machined to 0.350" to 0.380" before welding, or the bending jig may be made in accordance with the actual thickness, T, of piping used.

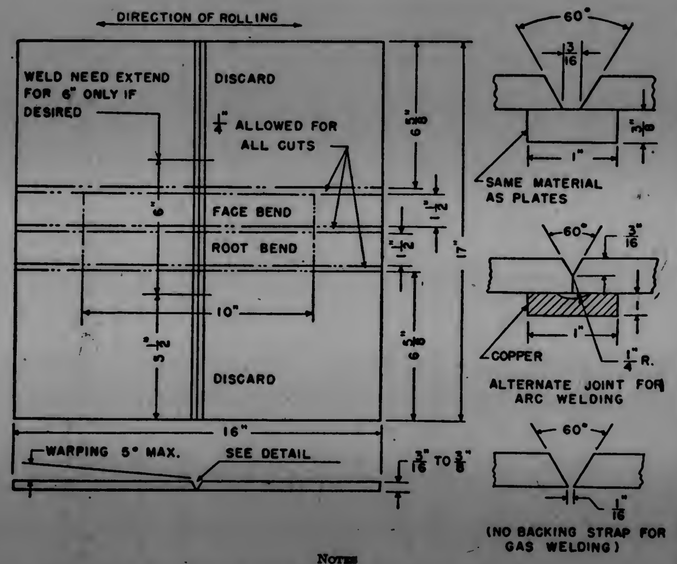
FIG. W-1C.—Welder's qualification test No. 4.



NOTES

1. 1/4" diameter electrode shall be used.
2. Backing strap shall be contiguous with plates.
3. All welds welded in the vertical position shall be welded upwards.
4. Specimen shall be bent in one piece with backing strap in place and face of weld in tension.
5. Weld fractures shall exhibit no unfused areas on backing strap or sides of groove throughout length of each tack.

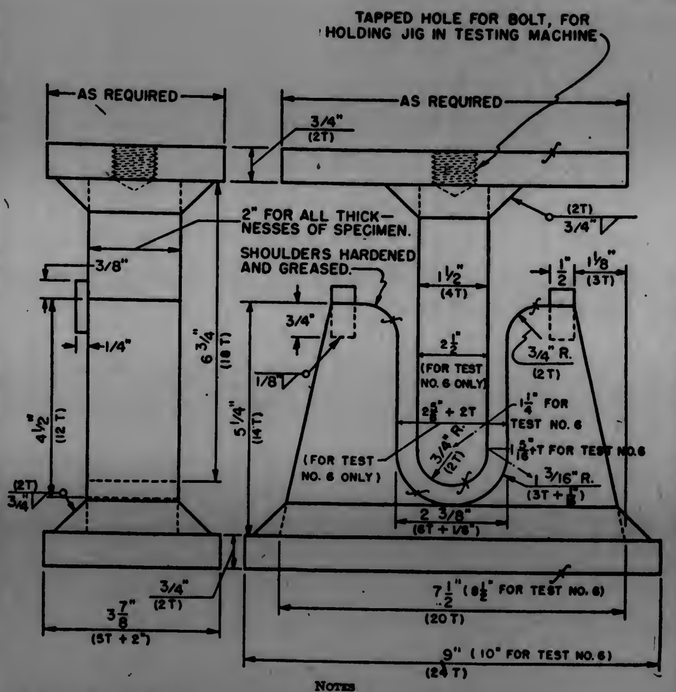
FIG. W-1D.—Welder's qualification test No. 5.



NOTES

1. Weld shall be made on the maximum thickness plate, within limits indicated, with maximum size welding rod or electrode to be used in production.
2. For gas welding machine reinforcement on both sides flush. For arc welding machine reinforcement and backing strap flush. Do not remove any undercutting.
3. Machining shall be done transverse to weld.
4. All specimens shall be machined or sawed from plates.
5. Backing strap shall be contiguous with plates.
6. Arc welds welded in the vertical position shall be welded upwards.
7. Welding shall be done from one side only.
8. Round edges of specimens to a radius of $\frac{T}{6}$ maximum.

FIG. W-1E.—Welder's qualification test No. 6.



NOTES

1. T = thickness of test specimens.
2. Specific dimensions are for 3/4" test specimens.
3. Hardened rolls may be used on shoulders if desired.

FIG. W-1F.—Standard qualification test bending jig.

• • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Paragraphs (e) to (m), inclusive, of § 56.20–3 are amended to read as follows:

(e) Specimens for Tests Nos. 1, 2 and 4 shall be bent to the full capacity of the jig shown in Figure W–1F for ⅜'' specimens. The plate for Test No. 5 shall be bent to fracture of the tack welds in the standard jig for ⅜'' specimens. Specimens for Test No. 1, modified, (See Note No. 2 of Table W–1) and for Test No. 4 modified (See Note No. 9 of Figure W–1C) shall be bent to the full capacity of a jig having a contour proportional to the thickness of the test specimens involved as indicated in Figure W–1F. Specimens for Test No. 6 shall be bent to the full capacity of a jig having a contour proportional to the thickness of the test specimens involved and having the specific dimensions shown in Figure W–1F for Test No. 6.

(f) Tube specimens for Test No. 3 shall remain tight when subjected to a hydrostatic test pressure necessary to impose a hoop stress of 30,000 pounds p. s. i. as calculated by the following formula:

$$P=\frac{S\times T}{R}$$

When P is the required hydrostatic test pressure; S is 30,000 pounds per square inch; T is the wall thickness of the tube in inches not to exceed 0.120 inches; and *R* is the inside radius of the tube in inches. As an alternate for the hydrostatic test, four transverse specimens may be removed from the welded joint of Test No. 3 at 45°, 135°, 225° and 315° points for macroscopic inspection consisting of etching and visual inspection with a magnifying glass. Macroscopic examination shall show complete penetration into the root of the weld and freedom from cracks, slag inclusions, porosity, or other defects.

(g) Root bend specimens shall be bent with the root of the weld in tension; face bend specimens with the face of the weld in tension; and side bend specimens with that side suspected of being the worse of the two, in tension. In testing a specimen the two members of the jig shall be forced together until the specimen conforms to a U-shape, and until a 1/32'' diameter wire cannot be placed between the specimen and any point on the curvature of the plunger.

(h) Any specimen for Tests Nos. 1, 2, 4 and 6 in which a crack or opening exists before the bending, or results from the bending, exceeding 1/8'' measured in any direction shall be rejected. No elongation data are required.

(i) No preheating shall be done in any of the tests, and the temperature of previously deposited weld metal shall not be over 212° F. at time of deposition of subsequent bead or layer.

(j) No peening shall be done in Tests Nos. 1, 3, 4, 5 and 6. Peening may be done on each layer in Test No. 2 except the first and last layers.

(k) No stress relieving shall be done on Tests Nos. 1, 3, 5 and 6. On Test No. 2, before machining specimens from the joint, the plate shall be stress relieved by maintaining it at 1,150° F. (±50° F.) for one hour per inch of thickness followed by slow cooling in the furnace to a temperature below 500° F. Stress relieving, as outlined for Test No. 2 above, may be done on Test No. 4, provided such procedure is being used in production work.

(l) Tests Nos. 1, 2, 3, 4 and 6 are applicable for either metal arc welders or gas welders. Test No. 5 is for arc welders only. For arc welding, the passing of these tests with direct current equipment shall qualify the welder for using direct current equipment only and the passing of these tests with alternating current equipment shall qualify the welder for using alternating current equipment only. Passing of these tests with direct current equipment using either straight polarity or reverse polarity shall qualify the welder for both polarities.

(m) Results of qualification tests shall be entered and maintained in ink on a record card, the face and back of which shall be similar to Figures W–1G and W–1H, respectively. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 56.20–3 is amended by deleting the note and Figure W–1 which immediately precede paragraph (n) and inserting in their stead new Figures W–1G and W–1H, as follows:

RECORD CARD OF WELDER'S QUALIFICATION TESTS

• • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 56.20–4 is amended by deleting Figure W–4 and inserting a new Figure W–4 in its stead as follows:

§ 56.20–4 *Class I.* • • •

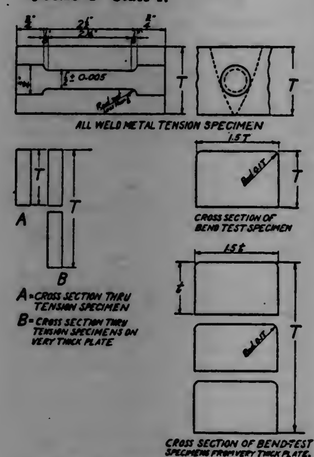

FIG. W–4.—Details of test specimens.

• • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 56.20–4 is amended by deleting Figure W–5 (b) and inserting a new Figure W–5 (b) in its stead as follows:

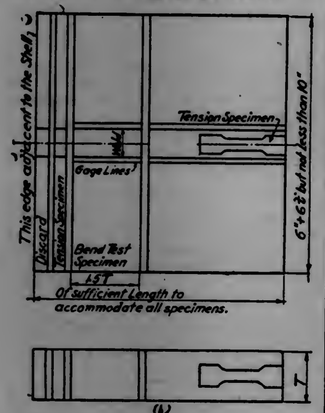

FIG. W–5.

• • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 56.20–4 (j) is amended to read as follows:

(j) *Test specimens.* The inspector shall select one of the two welded test plates, from which the coupons for tension and bend tests shall be removed, as shown in Figures W–4 and W–5, and be of the dimensions shown in Figures W–2, W–3, and W–4. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 56.20–4 is amended by deleting paragraphs (r), (s), (t), (u), (v), and (w) and by the insertion of new paragraphs (r), (s), (t), and (u) which read as follows:

(r) Retests: Should any of the tests fail to meet the requirements by more than 10 percent, no retests shall be allowed.

(s) Should any of the tests fail to meet the requirements by 10 percent or less, retests shall be allowed on specimens cut from the second welded test plate.

(t) The retests shall comply with the requirements. For either of the tension retests, two specimens shall be cut from the second test plate, and both of these shall meet the requirements.

(u) When there are more than one specimen of the same type and when one or more of the group specimens fail to meet the requirements by 10 percent or less, the retest shall be made on an entire group of specimens, which shall meet the requirements. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 56.20–6 (d) (2) is amended to read as follows:

§ 56.20–6 *Class II.*

• • • • • •

(d) • • •

(2) Test results: The minimum requirements for the test results shall be the same as specified in § 56.20–4 (s) for Class I vessels with the following exceptions: • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 56.20–6 (d) (3) is amended to read as follows:

(3) Retest: Retests shall be allowed as provided for in § 56.20–4 (s) for Class I vessels. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 56.20–7 (a) is amended to read as follows:

§ 56.20–7 *Class III.* (a) This class includes pressure vessels containing steam or air in which the pressure does not exceed 30 pounds per square inch above atmosphere, and pressure vessels containing liquids in which the pressure does not exceed 200 pounds per square inch, and/or does not exceed a temperature of 250° F., in which the plate thickness does not exceed five-eighths inch, excepting those containing lethal or noxious gases or lethal or noxious liquids. The maximum allowable working pressure of the vessel shall be calculated by formula (1) of § 52.2–3 (b) using a value of $\frac{SE}{F}$ not to exceed the following:

Double-welded butt joints for all joints	8,000
Single-welded butt joints for girth or head joints	6,500
Double full-fillet lap welds for girth joints only	7,000
Plug or intermittent welds for girth or head joints	5,600

• • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 56.20–7 (b) is amended to read as follows:

(b) For single-welded butt joints and for double full-fillet welds for longitudinal joints, the value of $\frac{SE}{F}$ shall not exceed the following:

For material of thickness of less than one-fourth inch, 5,600 pounds per square inch; for material of thickness of one-fourth to three-eighths inch, 7,000 pounds per square inch. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 56.20–18 (*Inspectors' report of individual welding operators*), with report form are deleted. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 56.20–19 is amended to read as follows:

§ 56.20–19 *Welded piping.* (a) Piping may be connected by means of fusion welding for any pressure and for temperatures not exceeding 1,000° F., provided it is done in accordance with the rules in this section.

(b) These rules apply to piping in excess of 125 pounds per square inch. (Class I piping.) They do not apply to piping used in connection with working pressures of 125 pounds or less, operated at normal temperatures. (Class II piping.)

(c) Qualification of welding processes: (1) Before a contractor may weld piping under these rules a representative of the Bureau shall visit the part of his works in which welding is done for the purpose of inspecting the welding plant to make sure he has suitable equipment and to witness the series of tests outlined in subparagraph (2) below.

(2) The tests for qualifying a welding process shall be those embodied in the rules in this section for the testing of welding operators for piping.

(d) Design of piping: The piping shall be designed to avoid excessive strains due to expansion and the working of the ship.

(e) Layout and dimensions of piping: Prints showing the lay-out and dimensions of the piping shall be forwarded to the Director for approval. Sections of the pipe shall be welded in the shop as far as practicable. All welded joints made on shipboard shall be in positions where there is sufficient space to allow proper access for the welding, and such welds

shall be definitely indicated on the plans by the use of appropriate American Welding Society weld symbols or details of the welds. A sufficient number of detachable joints shall be used in installing the piping to facilitate removals. Valves and other fittings may have either flanged or welded connections to the pipes but flanged joints shall be used where necessary to facilitate overhauling of machinery or the valves themselves.

(f) Types of welded joints to be used: Butt joints shall be used for pipes over 2½ inches nominal pipe size and shall be either double-welded or welded with a backing-up strip on the inside of the pipe. Pipes not over 2½ inches nominal pipe size may be connected by ferrules fitted over the ends of the pipe and attached by circumferential fillet welds to the pipe, or by using bell-and-spigot joints and uniting the end of the bell to the outside of the pipe by a circumferential fillet weld.

(g) Stress relieving: (1) All welded joints over 2½ inches nominal pipe size except fire lines and oil lines at normal temperature, shall be stress-relieved.

(2) The welds of plain carbon-steel pipe and adjacent piping for a length of six times the wall thickness of the pipe shall be heated uniformly to at least 1,150° F. and up to 1,250° F. The weld and adjacent piping shall be brought slowly up to within the specified temperature range and held at that temperature for a period of time proportioned on the basis or at least 1 hour per inch of pipe wall thickness and shall be allowed to cool slowly in a still atmosphere. There shall be no cooling other than by the still air around the weld and adjacent parts being stress-relieved in order to assure a gradual fall of temperature along the length of the pipe. For alloy steel piping the stress-relieving and/or heat treatment shall be done in a way demonstrated to be satisfactory.

(3) Where piping is welded to valves it may be impossible to heat the part next to the valve to a uniform temperature for a length of six times the wall thickness without overheating the valve. In such a case the heated zone shall extend to at least 2 inches on the valve side from the line of fusion of the joint and the temperature shall be allowed to diminish gradually toward the valve.

(4) All complicated connections, such as manifolds, shall be stress-relieved as a whole in a furnace provided for the purpose before being taken on shipboard.

(5) The piping shall be so designed that it will be free to expand in a longitudinal direction when the joints are stress-relieved, thus eliminating stresses that might result through contraction of the piping after the stress-relieving.

(h) Radiographic and other tests: All welded joints on piping exceeding 2½ inches in diameter shall be tested either by radiography or by using a paramagnetic powder dusted over the area to make sure that there are no cracks or other defects. Should the quality of a joint be questioned by an inspector of the Bureau the weld shall be cut out and the joint rewelded.

(i) Hydrostatic tests: Hydrostatic tests shall be made on the piping at twice the maximum pressure to which the piping will be subjected in service.

(j) General requirements: Before any qualification tests of welding operators are conducted, each manufacturer shall prepare for test the types of test specimens hereinafter specified for the purpose of qualifying his welding process.

(k) Manufacturer's record of process: A complete record of the manufacturer's process shall be made in the form shown in Fig. W–34 to establish the definite limits of all essential variables involved. The manufacturer shall conduct all welding in accordance with the requirements of his process record, after his process of welding has been approved.

(l) Number, type, and size of test welds: The test specimens shall be prepared in accordance with the requirements of this section. One test specimen shall be prepared for each process and welding position which will be encountered.

(m) Base metal and its preparation: The base material and its preparation for welding shall comply with the manufacturer's process record. For all test welds, the dimensions of the base material shall be such as to provide sufficient material for the test specimens called for. • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 411, 367)

Section 56.20–19 is amended by deleting Fig. W–32 (*Positions for which welders and welding processes will be qualified*) and Fig. W–33 (*Standard qualification test bending jig*). • • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 411, 367)

Section 56.20–19 is further amended by having the position of Fig. W–34 (*Manufacturer's record of process*) changed to immediately follow after paragraph (k). (R.S. 4405, 4417a, 4418, 4426, 4429, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 411, 367)

PART 57—MARINE ENGINEERING: SUPPLEMENTARY DATA AND REQUIREMENTS

Section 57.21–2 is amended by deleting Form 935 and inserting a new Form 935 reading as follows:

§ 57.21–2 *Forms and affidavits.* • • •

(Form 935)

AFFIDAVIT OF MANUFACTURER OF WATER-TUBE BOILERS

DEPARTMENT OF COMMERCE,
BUREAU OF MARINE INSPECTION AND NAVIGATION.

State of _____, County of _____
On this _____ day of _____, 19__, I, the undersigned, _____, (Name)
hereby certify that I am _____ (Title)
of the _____, boiler manufacturer, (Name of company)
located at _____; (City and State)
who has contracted to furnish a water-tube marine boiler to be installed on the steam vessel _____, at _____; (City and State)
that I am authorised to make this affidavit; that the said boiler is in all respects constructed in accordance with the drawings and specifications approved by the Bureau of Marine Inspection and Navigation in the year _____, and blue prints approved by the United States local inspectors at _____ (City and State) on _____; that the plates and other materials used in the construction of said boiler meet the requirements specified in the various sections of Parts 50 and 51; also that the boiler complies in all respects with the requirements of Parts 52 to 57, inclusive, Title 46, Code of Federal Regulations; that the plates were manufactured by _____, at (Name of manufacturer) _____; that the plates bear (City and State) the following serial numbers and inspector's initials:

BUREAU OF MARINE INSPECTION AND NAVIGATION.

State of _____, County of _____.
On this _____ day of _____, 19__, I, the undersigned _____, (Name)
hereby certify that I am _____ (Title)
of the _____, boiler manufacturer, (Name of company)
located at _____ who has contracted to furnish a { fire-tube / water-tube } marine boiler to be installed in the steam vessel _____, at _____, (City and State)
that I am authorized to make this affidavit; that the said boiler is in all respects constructed in accordance with the drawings and specifications approved by the board of supervising inspectors of the Bureau of Marine Inspection and Navigation in the year _____, and blue prints approved by the United States local inspectors at _____, on (City and State)
_____; that the plates and other (Date)
materials used in the construction of said boiler meet the requirements specified in the various sections of Parts 50 and 51, Title 46, Code of Federal Regulations; also that the joints of this boiler are made by the _____ process of fusion welding (Metallic-arc)
in strict accordance with the requirements of Part 56, Title 46, Code of Federal Regulations, for Class 1 pressure vessels; that all welded joints have been X-rayed; that said films were actually taken from the joints for which they are certified; that the joints are of the (single or double) V-type and were made by welding operators who have been tested and certified by the Bureau of Marine Inspection and Navigation; furthermore, that all material used in this boiler conforms to the appropriate sections of Parts 50 and 51, Title 46, Code of Federal Regulations, and the plates were manufactured by _____ and bear the following serial numbers and inspector's initials: (Name of manufacturer)

Plates subject to tensile stress		Plates not subject to tensile stress	
Serial No.	Inspector's initials	Serial No.	Inspector's initials

Min. T. S. _____ lbs. Min. T. S. _____ lbs.

GENERAL PARTICULARS OF BOILER

Type or name _____

• • • (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 57.21–2 is amended by deleting Form 935C and inserting a new Form 935C reading as follows:

(Form 935C)

AFFIDAVIT OF MANUFACTURER OF BOILER CONSTRUCTED WITH SEAMLESS SHELL

DEPARTMENT OF COMMERCE,
BUREAU OF MARINE INSPECTION AND NAVIGATION.

State of _____, County of _____
On this _____ day of _____, 19__, I, the undersigned _____, hereby (Name)
certify that I am _____, of the (Title)
_____, boiler manufacturer, (Name of company)
located at _____ who has contracted to furnish a { fire-tube / water-tube } marine boiler to be installed on the steam vessel _____, at _____, (City and State) (City and State)
that I am authorized to make this affidavit; that the said boiler is in all respects constructed in accordance with the drawings and specifications approved by the board of supervising inspectors of the Bureau of Marine Inspection and Navigation; in the year _____, and blueprints approved by the United States local inspectors at _____ (City and State)
on _____; that the materials used (Date)
in the construction of said boiler meet the requirements specified in the various sections of Parts 50 and 51, Title 46, Code of Federal Regulations; also that the drums of such boiler are constructed with seamless shell made in strict accordance with the requirements of §§ 51.11–1 to 51.11–9, Title 46, Code of Federal Regulations, without longitudinal joints, manufactured by _____; that the heads (Name of manufacturer)
and girth seams are attached by means of the _____ method of fusion welding (Metallic-arc)
ing; that all welded joints have been X-rayed; that said films were actually taken from the joints for which they are certified; that the joints are of the (single or double) V-type, and were made by welding operators who have been tested and certified by the Bureau of Marine Inspection and Navigation; further, that all material used in this boiler conforms to the appropriate sections of Part 51, Title 46, Code of Federal Regulations, and the drum shell and heads bear the following serial numbers and inspector's initials:

Plates subject to tensile stress		Plates not subject to tensile stress	
Serial No.	Inspector's initials	Serial No.	Inspector's initials

AFFIDAVIT OF BOILER MANUFACTURER COVERING TESTED STEEL OR WROUGHT IRON STAYS

DEPARTMENT OF COMMERCE,
BUREAU OF MARINE INSPECTION AND NAVIGATION.

State of _____, County of _____
On this _____ day of _____, 19__, I, the undersigned _____, hereby (Name)
certify that I am _____, of the (Title)
_____, boiler manufacturer (Name of company)
located at _____, who has (City and State)
contracted to build a marine boiler to be installed on the steamer _____, at _____; and that the (City and State)
{ wrought-iron / steel } bars used for stays in boilers Nos. __, __, __, __ were tested and inspected

by inspector _____ on the _____
(Name)
day of _____, 19--, and furthermore, I solemnly _____ that all material
(Swear or affirm)
used for stays in this boiler was tested and conforms to all the requirements of §§ 51.5–1 to 5.15–10, inclusive, or §§ 51.6–1 to 51.6–10, inclusive, Title 46, Code of Federal Regulations, and that the working stress to which it will be subjected in service will not exceed the maximum allowable stress provided for such material in §§ 52.8–1 to 52.8–5, inclusive, Title 46, Code of Federal Regulations.
(Signature) _____,
Subscribed and _____ to before me
(Sworn or affirmed)
this _____ day of _____, 19--

Section 57.21–2 is amended by deleting Form 935E and inserting a new Form 935E reading as follows:

(Form 935E)

AFFIDAVIT OF MANUFACTURER OF BOILER TUBES

DEPARTMENT OF COMMERCE,
BUREAU OF MARINE INSPECTION AND NAVIGATION.

State of _____, County of _____
On this _____ day of _____, 19--, I, the undersigned, _____, hereby certify that I am the _____
(Name) (Title)
of the _____ located at
(Name of company)
_____; that I am authorized
(City and State)
to make this affidavit; and that the {wrought-iron / steel} boiler tubes used in the construction of boilers Nos. --, --, --, --, --, to be installed on steamer _____; at _____, conform to all the requirements of §§ 51.9–1 to 51.9–16, inclusive, or §§ 51.9a–1 to 51.9a–18, inclusive, or §§ 51.10–1 to 51.10–18, inclusive, Title 46, Code of Federal Regulations.
(City and State)
(Signature) _____,
Subscribed and _____ to before me
(Sworn or affirmed)
this _____ day of _____, 19--
_____ day of _____, 19--
(Signature) _____
Notary Public.

* * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

The first sentence of § 57.21–3 (b) (1) is amended to read as follows:

§ 57.21–3 *Fusible plugs.*

* * * * *

(b) *Requirements.* * * *

(1) *Casings.* The casings of fusible plugs shall be designed as in Figures S–1 and S–2, and shall be made of bronze, in accordance with the requirements of §§ 51.20–1—51.20–10, Grades B or C. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Section 57.21–4 (i) is amended to read as follows:

§ 57.21–4 *Fusion welding repairs.*

* * * * *

(i) Cracks in a staybolted surface may be repaired by welding. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, 4434, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 412, 367)

Paragraphs (s), (t), and (u) of § 57.21–4 are amended to read as follows:

(s) When the corroded portion of a staybolted surface exceeds 400 square inches, it shall be permissible to repair the same by cutting out the defective portion and replacing it with a new plate, the edges of the new plate to be welded in position. In such cases, new staybolts shall be fitted in accordance with the requirements of §§ 52.7–1 to 52.7–3 and 52.8–1 to 52.8–5.

(t) Flat-tube sheets in fire-tube boilers which have corroded or where cracks exist in the ligaments, may be repaired by fusion welding.

(u) Unreinforced openings in the shells or drums of boilers or pressure vessels, the diameter of which does not exceed the maximum diameter of an unreinforced opening in accordance with Figures C–1 and C–2, may be closed by the use of a patch or plate inside the drum or shell and sealed against leakage by fusion welding. Such plates shall have a diameter at least 2 inches larger than the diameter of the hole and must have a thickness equal to the thickness of the plate to which it is attached. It shall not be permissible to insert such patches in the shell or head flush with the surrounding plate. * * * (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 57.21–8 (c) is amended to read as follows:

§ 57.21–8 *Bagged or blistered sheets.*

* * * * *

(c) Where the shell plate has blistered, bagged, or bulged to such an extent that there is an appreciable thinning of the plate, it shall be the duty of the local inspectors to have the defective portion cut away and the shell repaired by fitting a patch of steel plate conforming to the requirements of §§ 51.2–1—51.2–10 in place of the defective portion, care being taken that the riveting schedule of the patch is so arranged as to give the plate sufficient strength to withstand the allowable stress placed on it in service. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367)

Section 57.21–18 is amended to read as follows:

§ 57.21–18 *Brazed unfired pressure vessels.* (a) Unfired pressure vessels may be constructed with brazed joints provided the temperature to which such vessels are subject in service does not exceed 406° F.

(b) Manufacturers of such vessels will be required to file with the Director an affidavit on Form 935F setting forth that material used and the brazing process will be in conformity with these rules. (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 367)

Section 57.21–19 is amended to read as follows:

§ 57.21–19 *Material.* Steel plates used for the shells and heads of brazed unfired pressure vessels shall conform to one of the grades specified in §§ 51.2–1 to 51.2–10, §§ 51.21–1 to 51.21–13, or §§ 51.22–1 to 51.22–11. (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 367)

Section 57.21–20 is amended to read as follows:

§ 57.21–20 *Computations.* The maximum allowable working pressure and the thickness of material shall be determined by formulas 1 and 2 of § 52.2–3 (b) using a factor of safety of 5 and a joint efficiency of 0.9 for cylindrical shells, and formulas 11 and 12 of § 52.5–3 (b) including the qualifying paragraphs (b) to (m) inclusive for dished heads. (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 367)

Section 57.21–21 is amended to read as follows:

§ 57.21–21 *Detail requirements.* Longitudinal seams may be of the lap-joint type where the shell plate does not exceed ⅜" in thickness. For thicker material the double butt strap joint shall be used. Longitudinal lap joints shall have the edges of the plate lapped a distance of not less than $\frac{S \times T}{6{,}000}$ where S= the minimum of the range of tensile strength, and T=the required thickness of the shell plate. For double butt strap construction, the total amount of lap for inner and outer straps shall be twice that required for single lap, one half of which shall be on each side of the abutting edges. The width of these straps shall not differ more than 25 percent of the width of the wider one. Each strap shall be at least ⅝ the thickness of the shell plate. The laps shall be held closely in position substantially metal to metal by stitch riveting or other efficient means. The brazing shall be done by placing the flux and brazing material on one side of the joint and applying heat until the material comes entirely through the laps and shows uniformly along the seam on the opposite side. Sufficient flux must be used to cause the brazing materials to so appear promptly after reaching the brazing temperature. The brazing materials used shall be such as to produce a joint which has a shearing strength of at least 10,000 lbs. per square inch. (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 367)

Section 57.21–22 is amended to read as follows:

§ 57.21–22 *Head and girth joints.* Heads shall be fitted into the shells with a driving fit, and shall be thoroughly brazed in approximately the same manner as the longitudinal seams for a depth or distance measured from the end of the shell equal to at least ½ of the lap required for a longitudinal lap joint. When a vessel is constructed with more than one course in the shell, the girth joint may be of either the lap or butt type. If of the butt type, the circumference of the abutting courses shall not differ by more than 3/10 of one percent, and either inside or outside sleeves shall be used. In either case the lap over each course shall be not less than ¾ of that required for longitudinal lap joints. (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 367)

Section 57.21–26 is amended to read as follows:

§ 57.21–26 *Material.* The material used in the construction of cast-iron heating boilers shall conform to the requirements of §§ 51.18–1—51.18–10 for Grade B or Grade C material. (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 367)

PART 58—MARINE ENGINEERING: BOILER PLATE; BOILERS AND ATTACHMENTS

Subpart B—Boilers and Attachments: Installations Made or Contracted for Prior to July 1, 1935

The first undesignated paragraph of § 58.7 is amended to read as follows:

§ 58.7 *Hydrostatic pressure.* The hydrostatic pressure applied to boilers which can be satisfactorily examined internally shall be in the proportion of 125 pounds to the square inch to 100 pounds to the square inch of the steam pressure allowed; types of boilers which due to design cannot be examined internally shall be subjected to a hydrostatic pressure in the proportion of 150 pounds to the square inch to 100 pounds to the square inch of the steam pressure allowed. The inspector, after applying the hydrostatic test, shall thoroughly examine every part of the boiler. The hydrostatic pressure shall also be applied to the main steam pipe up to the throttle. * * * (R.S. 4405, 4417a, 4418, 4426, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 408, 411, 367)

Section 58.25 is amended to read as follows:

§ 58.25 *Welding and reinforcing.* No repair work by any welding process other than fusion welding shall be allowed on main boilers or unfired pressure vessels until coupons showing the character of the work proposed to be done by the applicant shall have been tested and submitted, together with an explanation and report of the test, to the local inspectors of the district where the work is to be done. The local inspectors shall then satisfy themselves whether or not such process can be used with safety on the boilers or unfired pressure vessels of steam vessels.

In every case where repairs are to be made by these processes on boilers or unfired pressure vessels of steam vessels subject to the inspection of this Bureau, the engineer in charge and the parties making the repairs are required to notify the office of the local inspectors, giving a full detailed description of the repairs to be made, the location of the vessel, and the time the repairs are to be begun, so that inspection may be had, if practicable, prior to and during the time the work is being done, which reports must be confirmed in writing to the local inspectors.

The application for permission to use these processes on boiler or unfired pressure vessel repairs of any particular vessel implies a guaranty on the part of the applicant that the work shall, in material, flux, and workmanship, be equal to that of the samples furnished.

Repairs to marine boilers and unfired pressure vessels by means of fusion welding may be permitted provided such welding conforms to the requirements of § 57.21–4. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367).

Part 58 is amended by the addition of a new § 58.29, which reads as follows:

§ 58.29 *Installations of fuel-oil systems.* Repairs, partial replacements, and tests of systems installed prior to July 1, 1935, shall conform to the following rules:

Ocean and Coastwise

The construction of fuel-oil tanks separate from the hull shall conform to the following requirements: Plating for such tanks shall be not less than five-sixteenths of an inch in thickness; seams where the plates are joined shall be double riveted; all rivet holes shall be fairly drilled, or punched three-fourths diameter and reamed to size; rivet holes shall be spaced not to exceed four diameters; and, where practicable, the tanks shall be caulked inside and out.

Where double bottoms are used for the storage of fuel oil, such double bottoms shall be subdivided with one or more longitudinal watertight bulkheads, except the narrow tanks at the forward and after ends of the vessel. This requirement shall also apply to fuel-oil deep tanks which shall also be fitted with the necessary swash plates. The hatch covers on deep tanks which are used for fuel oil shall be made of steel or iron plating and be fitted oil-tight. Fuel-oil tanks in 'tween-deck spaces overhanging the boiler space or adjoining the ship's sides abreast of the boilers shall be avoided as far as practicable, but where found to be necessary, they shall be subdivided into compartments not exceeding 20 feet in length.

The test for fuel-oil tanks that do not form a part of the structure of the hull shall be a hydrostatic test of 15 pounds to the square inch, and all other tanks shall be tested with a pressure that will not be exceeded in practice.

Deep tanks, peak tanks, settling tanks, and tanks separate from the hull used for the storage of fuel oil shall be fitted with internal gate valves where the suction pipe or pipes penetrate the tank, the valves to be fitted with mechanical appliances so arranged that they may be operated from an accessible place on a deck outside of the machinery space. Double-bottom fuel-oil tanks shall be fitted with a gate valve on the tank top where the suction pipe penetrates it, or, where the suction pipe leads under the tank tops, the valve shall be placed where the pipe enters the machinery space.

No openings are to be cut in the bottoms, ends, or sides of fuel-oil tanks except for suction and heater connections.

The vent pipes from all fuel-oil tanks shall have a net cross-sectional area equal to that of the filling pipes and shall be led from the top of the tank to the open air in a space where no danger will result from the discharge of oil vapor; the discharge ends to be fitted with U-bends and a gauze diaphragm, which can be easily removed for cleaning. Where it is necessary to use bends in the piping, such bends shall not exceed 45° from the vertical. Where vent pipes pass through cargo spaces they shall be protected against damage.

All pipes over 2 inches in diameter shall be attached to fuel-oil tanks by flanges, or flanged fittings, riveted to the tanks. Filling pipes for such tanks shall extend through the top of the tank to deck, and such pipes shall be led to the bottoms of the tanks and fitted with U-bends extending upward at least 12 inches above the bottoms; or in lieu of the U-bends the pipes may be led to within one-half of the diameter of the pipes from the bottoms of the tanks.

Sounding pipes or other reliable apparatus shall be fitted to fuel tanks for use in determining the oil level in each tank. Sounding pipes shall be led up through the deck and down to within one diameter of the bottom of the tank, and shall not be perforated. Such pipes passing through cargo spaces shall be protected against damage. Sounding pipes in the machinery spaces that do not extend up through a deck shall be fitted with a valve or stop cock that will close automatically to prevent oil overflow.

The piping between the service pumps and the stop valve at the burners, when the pressure exceeds 15 pounds per square inch, shall be extra heavy seamless piping and shall be in sight above the floor or platform. The connections on such piping shall be made with extra heavy flanges or extra heavy fittings of forged or cast steel, bronze, or malleable iron. Valves on pipe lines conveying hot oil shall be extra heavy and shall be of the locked-bonnet, bolted-bonnet, or union-nut-bonnet type.

The piping, including connections, shall be tested in place to a hydrostatic test pressure equal to three times the designed maximum working pressure, but in no case less than 150 pounds. All other piping for use in conveying fuel oil, together with valves and fittings, shall be suitable for a pressure of 125 pounds and all such pipe and fittings between the gate valve within the tank and the pumps shall be tested to a hydrostatic pressure of 250 pounds.

When it is desired to change a low-pressure system to a high-pressure system, it will be necessary to apply a

hydrostatic test pressure to the piping and connections from pumps to burners equal to three times the working pressure.

All oil heaters shall be tested to double the working pressure. Continuous pipe or pipes shall be carried through the heads or ends of the heaters, and all joints shall be made on the outside to eliminate the danger of oil being pumped into the boilers in the event of failure of the joints: *Provided, however,* That this requirement does not apply when the water of condensation from the heaters is led to an observation tank or is not used for boiler feed water. Heaters may be installed in double-bottoms, if so desired, when vessels are operating in cold waters and may be placed in the most convenient location for heating the oil.

Fuel-oil pumps supplying oil to the burners, also oil strainers, shall be in duplicate, and the discharge of each pump shall be fitted with an efficient relief valve that will return surplus oil to the suction side of the pumps.

Where fuel-oil tanks are fitted in wooden vessels, lead pans or lining shall be placed under the tanks, the lead to be of a gauge weighing not less than 8 pounds per square foot, this precaution being made to prevent oil from getting into the bilges of the vessel.

Throttle valves on fuel-oil pumps shall be arranged so that they may be operated from some accessible point outside of the pump-room or fireroom enclosure.

Dampers in funnels or uptakes on oil-burning steamers shall be fitted with a locking device in open position.

Suitable drip pans shall be installed to catch the drip from burners, fuel-oil pumps, strainers, or any other place where necessary to prevent oil from reaching the bilges of the vessel.

The boiler room and funnel casings shall be insulated so as to prevent the spread of fire to woodwork or other combustible material adjacent to the casings in the event of an oil fire taking place in the fireroom.

Great Lakes; Bays, Sounds, and Lakes Other Than the Great Lakes; Rivers

For fuel-oil installations on vessels navigating the waters of the Great Lakes; bays, sounds, and lakes other than the Great Lakes; and rivers; the following two paragraphs apply in lieu of the first four undesignated paragraphs following the heading, "Ocean and Coastwise."

The fuel-oil tanks on all inland steamers subject to the rules and regulations of the Bureau of Marine Inspection and Navigation shall be constructed of material of such thickness and workmanship as, in the judgment of the inspector in whose district the installation is made, is safe.

All pipe connections on fuel-oil tanks and cargo-oil tanks, except the connection or connections on the top of such tank, shall be protected by an internal gate valve operated by an extension rod leading to an accessible point in an open space on a deck outside the engine and fire room casing, so that the flow of oil may be immediately shut off in case of the failure or rupture of any of the pipes or connections.

The third and subsequent paragraphs of the rules for fuel-oil installations on vessels navigating the waters of the Great Lakes; bays, sounds, and lakes other than the Great Lakes; and rivers; are identical with the fifth and subsequent paragraphs, respectively, of the rules for fuel-oil installations on vessels navigating the oceans and coastwise, as set forth above in this section. (R.S. 4405, 4417a, 4418, 4426, 4429, 4430, 4433, as amended, 49 Stat. 1544, sec. 2 (a) of 54 Stat. 1028; 46 U.S.C. 375, 391a, 392, 404, 407, 408, 411, 367, 463a)

BOARD OF SUPERVISING INSPECTORS,

[SEAL] R. S. FIELD,
Director, Chairman.

[Order No. 229]

GENERAL RULES AND REGULATIONS

AMENDMENTS

FEBRUARY 28, 1942.

Pursuant to the authority of R.S. 4405, as amended (46 U.S.C. 375), the Board of Supervising Inspectors, Bureau of Marine Inspection and Navigation, convened in the conference room, No. 1851, Department of Commerce, Washington, D. C., on January 21, 1942, at which session, after public hearings, the following regulations, amendments, and other actions were adopted:

SUBCHAPTER C—MOTORBOATS, AND CERTAIN VESSELS PROPELLED BY MACHINERY OTHER THAN BY STEAM MORE THAN 65 FEET IN LENGTH

PART 28—SPECIFICATIONS AND PROCEDURE FOR APPROVAL OF EQUIPMENT

Section 28.4–8 (d) is amended to read as follows:

§ 28.4–8 *Specifications for kapok buoyant cushion.*

* * * * *

(d) *Cover.* The buoyant material shall be completely protected by a cover of first-grade duck or drill having a weight of not less than 7.2 ounces per square yard, or a leatherette cover consisting of 59-inch, 1.85 drill, thread count 68 x 40; the leatherette cover, including the fabric and coating, to be at least the weight of 14 ounces for a finished width of 54 inches. The cover shall be designed and constructed with as few seams as practicable. (Sec. 6 of 54 Stat. 163–167; 46 U.S.C. 526e)

SUBCHAPTER D—TANK VESSELS

PART 32—REQUIREMENTS FOR HULLS, MACHINERY, AND EQUIPMENT

Section 32.9–4 (j) is amended to read as follows:

§ 32.9–4 *Interior communication systems—T/ALL.*

* * * * *

(j) Telephones installed at external locations exposed to the weather or in locations subject to severe moisture conditions shall be housed in a substantial, watertight metal enclosure. The cover shall be hinged at the bottom or side of the box and, when closed, shall be fastened by a simple substantial mechanism which, when operated, exerts sufficient pressure to make the enclosure watertight. The gasket shall be fastened to, and inserted in, the edge of the box or cover. The magneto generator and switches shall be of watertight construction. The generator and all switches shall be installed inside the enclosure. (R.S. 4405, 4417a, as amended; 46 U.S.C. 375, 391a)

Section 32.9–4 is amended by the addition of a new paragraph (p) reading as follows:

(p) All electrical engine order telegraph systems on vessels, not also equipped with mechanical telegraphs, shall be provided with an alarm, located on the bridge, to indicate visually and audibly the failure of power to the system. (R.S. 4405, 4417a, as amended; 46 U.S.C. 375, 391a)

PART 35—OPERATION

Section 35.2–9 (a) is amended to read as follows:

§ 35.2–9 *Reports of accidents to tank vessels—T/ALL.*[*] (a) The licensed officer in command of any tank ship shall report in writing and in person to the board of local inspectors nearest the port of first arrival any accident to said ship involving loss of life or damage to property to an approximate amount exceeding $500, and shall also report in the same manner any casualty or loss of life from whatever cause of any person on board such vessel, and any stranding or grounding, whether or not any damage has been sustained by the vessel: *Provided,* That when from distance it may be inconvenient to report in person it may be done in writing only, and the report sworn to before any person authorized to administer oaths: *Provided further,* That, during the period when a state of war exists between the United States and any foreign nation, communications in regard to casualties shall be handled with caution, and the above-mentioned reports shall not be made by radio or by telegram. (R.S. 4405, 4417a, as amended; 46 U.S.C. 375, 391a)

[*] See also § 1.38 of Subchapter A—Documentation, Entrance, and Clearance of Vessels, etc.

Part 35 is amended by the addition of a new § 35.4–6 reading as follows:

§ 35.4–6 *Explosives—TB/ALL.* Fulminates or other detonating compounds in bulk in dry condition; explosive compositions that ignite spontaneously or undergo marked decomposition when subjected for forty-eight consecutive hours to a temperature of one hundred and sixty-seven degrees Fahrenheit or more; compositions containing an ammonium salt and a chlorate; and other like explosives shall not be accepted, stored, stowed or transported on board tank vessels. (R.S. 4405, 4417a, as amended, 46 U.S.C. 375, 391a)

Section 35.5–5 is amended by the addition of a new paragraph (g) reading as follows:

§ 35.5–5 *Inspection prior to transfer of cargo—TB/ALL.*

* * * * *

(g) All sea valves connected to the cargo piping system are closed. (R.S. 4405, 4417a, as amended; 46 U.S.C. 375, 391a)

PART 37—SPECIFICATIONS FOR LIFE-SAVING APPLIANCES

Section 37.1–1 (c) is amended to read as follows:

§ 37.1–1 *Drawings, specifications, name plates—TB/ALL.*

* * * * *

(c) Builders of lifeboats shall affix a plate or other device to each lifeboat, having thereon the builder's name, number of boat, date of construction of boat, cubical contents of boat, and number of persons said boat will carry, as determined by the rules of the Board of Supervising Inspectors. (R.S. 4405, 4417a, as amended; 46 U.S.C. 375, 391a)

Section 37.1–1 is amended by the addition of a new paragraph (d) reading as follows:

(d) Builders of life rafts shall affix a plate or other device to each life raft, having thereon the builder's name, the manufacturer for whom approved, number of raft, date of construction of raft, cubical contents of raft, and number of persons said raft will carry, as determined by the rules of the Board of Supervising Inspectors. (R.S. 4405, 4417a, as amended; 46 U.S.C. 375, 391a)

Part 37 is amended by the addition of a new § 37.1–6 reading as follows:

§ 37.1–6 *Blocks and falls—TB/ALL.* Blocks and falls installed after May 1, 1942 shall conform to the following requirements:

All blocks, falls, fairleads, padeyes, fastenings, etc., used in connection with lifeboat gear shall be designed with a minimum factor of safety of six, based on the maximum working load.

Where mechanical means for lowering are required, not more than two-part falls shall be used, except in specific cases where three-part falls may be accepted.

Wire rope falls of 6 x 19 regular lay filler wire construction, prelubricated at the factory with suitable neutral wire rope lubricant shall be accepted as standard. Any other type of wire superior or equally as good as the minimum standard specified may be used.

Falls shall be of such length that the lifeboat may be lowered to the water at the lightest seagoing draft with the vessel listed to 15°.

Falls shall be in readiness for use at all times. On vessels over 1,000 gross tons, not fitted with mechanical means for lowering, covered tubs, boxes, or reels shall be provided for the storage of falls, and suitable lowering bitts shall be fitted in easily accessible positions.

Where more than one lifeboat is served by the same set of davits, if the falls are of manilla rope, separate falls shall be provided to serve each lifeboat.

Such blocks as are necessary to allow the falls to load fair in all positions of the davit shall be fitted. Where mechanical means for lowering are provided, there shall be at least 8 feet between the center of the drum and the center of the nearest sheave. Sheaves for wire rope shall have a diameter at the base of the groove at least equal to 12 times the diameter of the rope.

There shall be ample clearance between the cheeks of blocks in which Manila rope is used. The width between the cheeks shall be half an inch greater than the diameter of new ropes when those ropes are 3¾ inches in circumference or greater; blocks for smaller ropes shall be designed with clearance in the same proportion.

Means for lubrication shall be provided for all moving parts of blocks. (R.S. 4405, 4417a, as amended; 46 U.S.C. 375, 391a)

Part 37 is also amended by the addition of a new § 37.1–7 reading as follows:

§ 37.1–7 *Disengaging apparatus—TB/ALL.* Disengaging apparatus fitted in lifeboats after May 1, 1942 shall conform to the following requirements:

All disengaging apparatus, regardless of type, shall be designed with a minimum factor of safety of six, based on the maximum working load.

No type of releasing gear shall be used unless it has first been approved by the Board.

Plans and specifications of all designs of releasing gear shall be submitted to the Board for type approval. The plans shall show dimensions of all parts and complete bill of material used in the construction of the releasing gear.

Simultaneous releasing gears, when installed, shall conform to the following requirements:

(a) They shall be capable of being operated by one person, both ends of the lifeboat disengaging simultaneously.

(b) Means for effecting release of the gear shall be placed in the after end of the lifeboat.

(c) The hooks shall be suitable for instant unhooking of the blocks and falls by hand when the lifeboat is waterborne.

(d) The gear and mechanism for effecting release shall be so arranged and devised as to insure the safety of the lifeboat independent of any "safety pins."

Where simultaneous releasing gears are not provided, the hooks or other means of attaching the lifeboats to the falls shall be arranged so that the device can be manually controlled by one man at each fall in the lifeboat.

Excluding the emergency boats, not more than one type of releasing gear shall be fitted in the lifeboats of a particular vessel.

No part of any releasing gear bearing the weight of the lifeboat shall be constructed of cast iron.

Such parts of the gear as would otherwise have a tendency to set fast by rust or corrosion shall be of corrosive resistant metal.

When considered necessary, a test to destruction may be required to determine the ultimate strength of the releasing gear including hooks.

All disengaging apparatus, regardless of type, shall be prominently marked or stamped to show the safe working load for which the gear has been approved. (R.S. 4405, 4417a, as amended; 46 U.S.C. 375, 391a)

SUBCHAPTER G—OCEAN AND COASTWISE: GENERAL RULES AND REGULATIONS

PART 59—BOATS, RAFTS, BULKHEADS, AND LIFE-SAVING APPLIANCES (OCEAN)

Section 59.6 (b) is amended to read as follows:

§ 59.6 *Lifeboats required on vessels of class* (c).

* * * * *

(b) Towing, fishing, and wrecking vessels, and vessels in special service not carrying passengers or cargo, shall carry sufficient lifeboats to accommodate all persons on board, and the following types of boats may be used in lieu of the standard lifeboats. (R.S. 4405, 4427, 4488, as amended; 46 U.S.C. 375, 405, 481)

Section 59.41 is amended to read as follows:

§ 59.41 *Handling of boats and rafts.* All the boats and rafts shall be stowed in such a way that they can be launched in the shortest possible time and that, even under unfavorable conditions of list and trim from the point of view of the handling of the boats and rafts, it may be possible to embark in them as large a number of persons as possible. The arrangement shall be such that it may be possible to launch on either side of the vessel as large a number of boats and rafts as possible. Where practicable, lifeboat chocks shall be so fitted that the lifeboats they serve shall not require lifting before launching. At least once in each interval of not longer than 3 months, the master of every inspected passenger vessel shall drill and exercise every member of the crew, except fe-

males, in pulling oars in the ship's lifeboats. In addition, the crew of the motor-propelled boats shall demonstrate their ability in the working of the engine and handling of the boat under power. (R.S. 4405, 4417, 4488, as amended; 46 U.S.C. 375, 391, 481)

Section 59.42 (c) is amended to read as follows:

§ 59.42 *Life rafts: drawings, specifications, name plate, and how marked.*

* * * * *

(c) Builders of life rafts shall affix a plate or other device to each life raft, having thereon the builder's name, the manufacturer for whom approved, number of raft, date of construction of raft, cubical contents of raft, and number of persons said raft will carry, as determined by the rules of the Board of Supervising Inspectors. (R.S. 4405, 4426, 4488, 4491, as amended; 49 Stat. 1544; 46 U.S.C. 375, 404, 481, 489, 367)

Section 59.64 is amended to read as follows:

§ 59.64 *Bulkheads on passenger vessels less than 100 gross tons.* (a) Every mechanically propelled vessel carrying passengers for hire shall have not less than three watertight transverse bulkheads properly secured to the hull of the vessel. The arrangement of the bulkheads shall be such that the vessel will remain afloat in the event any one main compartment is flooded. (Effective on and after January 1, 1943.)

(b) A forepeak or collision bulkhead shall be fitted and located not less than 5 percent of the length of the vessel, and not more than 10 feet plus 5 percent of the length of the vessel from the bow, at load water line.

(c) One bulkhead shall be fitted at the forward end of the machinery space (which includes boiler space) and one bulkhead shall be fitted at the aft end of the machinery space. Other transverse bulkheads shall be so located as to meet the above requirements of subdivision and stability.

(d) Main transverse bulkheads may be stepped or recessed. Where a main transverse bulkhead is stepped, subdivision and strength are to be provided in way of the step to maintain the same measure of safety as that secured by the vertical bulkhead. No recess shall be fitted nearer the vessel's side than one-fifth of the vessel's beam amidships measured at right angles to the center line at the level of the load water line on which the subdivision is based. Bulkheads shall extend to a deck whose distance above the load water line is sufficient to enable the subdivision and stability requirements to be met with a fair margin of safety.

(e) If the distance between two adjacent main transverse watertight bulkheads is less than 10 feet plus 2 percent of the vessel's length measured between perpendiculars at the extremities of the vessel's load water line, only one of these bulkheads shall be regarded as forming a boundary of a main compartment.

(f) Existing vessels shall comply with the above rules unless it can be shown by the owners that their application is impracticable and unreasonable. (R.S. 4405, 4426, 4490, as amended; 46 U.S.C. 375, 404, 482)

Part 59 is amended by the addition of a new § 59.64a reading as follows:

§ 59.64a *Bulkheads on passenger vessels 100 gross tons and over.* See Part 144, Subchapter M (Construction or Material Alteration of Passenger Vessels of the United States of 100 Gross Tons and Over Propelled by Machinery). (R.S. 4405, 4426, 4490, as amended; 46 U.S.C. 375, 404, 482)

PART 60—BOATS, RAFTS, BULKHEADS, AND LIFE-SAVING APPLIANCES (COASTWISE)

Section 60.4 (b) is amended to read as follows:

§ 60.4 *Lifeboats required on vessels of class* (c).

* * * * *

(b) Towing, fishing, and wrecking vessels, and vessels in special service not carrying passengers or cargo, shall carry sufficient lifeboats to accommodate all persons on board, and the following types of boats may be used in lieu of the standard lifeboats. (R.S. 4405, 4427, 4488, as amended; 46 U.S.C. 375, 405, 481)

Section 60.23 is amended to read as follows:

§ 60.23 *Handling of boats and rafts.* All the boats and rafts shall be stowed in such a way that they can be launched in the shortest possible time and that, even under unfavorable conditions of list and trim from the point of view of the handling of the boats and rafts, it may be possible to embark in them as large a number of persons as possible. The arrangement shall be such that it may be possible to launch on either side of the vessel as large a number of boats and rafts as possible. Where practicable, lifeboat chocks shall be so fitted that the lifeboats they serve shall not require lifting before launching. At least once in each interval of not longer than 3 months, the master of every inspected passenger vessel shall drill and exercise every member of the crew, except females, in pulling oars in the ship's lifeboats. In addition, the crew of the motor-propelled boats shall demonstrate their ability in the working of the engine and handling of the boat under power. (R.S. 4405, 4417, 4488, as amended; 46 U.S.C. 375, 391, 481)

Section 60.29 (c) is amended to read as follows:

§ 60.29 *Life rafts: drawings, specifications, name plates, and how marked.*

* * * * *

(c) Builders of life rafts shall affix a plate or other device to each life raft, having thereon the builder's name, the manufacturer for whom approved, number of raft, date of construction of raft, cubical contents of raft, and number of persons said raft will carry, as determined by the rules of the Board of Supervising Inspectors. (R.S. 4405, 4426, 4488, 4491, as amended, 49 Stat. 1544; 46 U.S.C. 375, 404, 481, 489, 367)

Section 60.57 is amended to read as follows:

§ 60.57 *Bulkheads on passenger vessels less than 100 gross tons.* (a) Every mechanically propelled vessel carrying passengers for hire shall have not less than three watertight transverse bulkheads properly secured to the hull of the vessel. The arrangement of the bulkheads shall be such that the vessel will remain afloat in the event any one main compartment is flooded. (Effective on and after January 1, 1943.)

(b) A forepeak or collision bulkhead shall be fitted and located not less than 5 percent of the length of the vessel, and not more than 10 feet plus 5 percent of the length of the vessel from the bow, at load water line.

(c) One bulkhead shall be fitted at the forward end of the machinery space (which includes boiler space) and one bulkhead shall be fitted at the aft end of the machinery space. Other transverse bulkheads shall be so located as to meet the above requirements of subdivision and stability.

(d) Main transverse bulkheads may be stepped or recessed. Where a main transverse bulkhead is stepped, subdivision and strength are to be provided in way of the step to maintain the same measure of safety as that secured by the vertical bulkhead. No recess shall be fitted nearer the vessel's side than one-fifth of the vessel's beam amidships measured at right angles to the center line at the level of the load water line on which the subdivision is based. Bulkheads shall extend to a deck whose distance above the load water line is sufficient to enable the subdivision and stability requirements to be met with a fair margin of safety.

(e) If the distance between two adjacent main transverse watertight bulkheads is less than 10 feet plus 2 percent of the vessel's length measured between perpendiculars at the extremities of the vessel's load water line, only one of these bulkheads shall be regarded as forming a boundary of a main compartment.

(f) Existing vessels shall comply with the above rules unless it can be shown by the owners that their application is impracticable and unreasonable.

(g) Mechanically propelled vessels of 100 tons burden or under, engaged in the coastwise bays and harbors of the United States, may be licensed by the U. S. Local Inspectors to carry passengers or excursions on the ocean, not exceeding 15 miles from the mouth of such bays or harbors, without being required to have the three watertight transverse bulkheads provided by Section 4490 (46 U.S.C. 482) of the Revised Statutes for other passenger vessels: *Provided*, That in the judgment of the local inspectors such vessels shall be safe and suitable for such navigation without danger to human life, and that they shall have one watertight collision bulkhead not less than five feet abaft the stem of said vessels. (R.S. 4405, 4426, 4490, as amended, sec. 3 of 24 Stat. 129; 46 U.S.C. 375, 404, 482, 483)

A new section 60.57a is added to read as follows:

§ 60.57a *Bulkheads on passenger vessels 100 gross tons and over.* See Part 144, Subchapter M (Construction or Material Alteration of Passenger Vessels of the United States of 100 Gross Tons and Over Propelled by Machinery). (R.S. 4405, 4426, 4490, as amended, sec. 3 of 24 Stat. 129; 46 U.S.C. 375, 404, 482, 483)

PART 61—FIRE APPARATUS; FIRE PREVENTION

Section 61.3 is amended to read as follows:

§ 61.3 *Glass lamps.* The use of glass lamps shall be prohibited on any vessel under the jurisdiction of the Bureau of Marine Inspection and Navigation unless the same are securely fitted into suitable metal brackets. (R.S. 4405, 4426, 4470, 54 Stat. 1028; 46 U.S.C. 375, 404, 463, 463a)

Section 61.4 is amended to read as follows:

§ 61.4 *Steam and inert gas fire-extinguishing systems*—(a) *General requirements.* (1) All mechanically propelled vessels carrying combustible cargo in the holds, 'tween-decks, or other closed cargo compartments shall be equipped with means for extinguishing fire in such compartments by the use of a steam fire-extinguishing system or by the use of any inert gas fire-extinguishing system approved by the Board of Supervising Inspectors.

(2) Cabinets, boxes, or casings inclosing manifolds or valves shall be distinctly marked in painted letters about 3 inches in height, "Steam Fire Apparatus" or "CO_2 Fire Apparatus", as the case may be.

(3) Steam or gas piping fitted for extinguishing fire shall not be used for any other purpose except that it may be used for fire-detecting purposes.

(4) Pipes for conveying steam from the boilers for the purpose of extinguishing fire shall not be led into the cabins, other passengers' or crew's quarters, or working spaces. Pipes for conveying carbon dioxide or other extinguishing vapors for the purpose of extinguishing fire shall not be led into the cabins or other passengers' or crew's quarters.

(5) Steam smothering lines shall be tested with at least 50 pounds air pressure with ends of the smothering lines capped, or by blowing steam through the lines, and a survey made for detecting corrosion and defects, using the hammer test or such other means as may be necessary.

(6) At annual inspections, all carbon dioxide (CO_2) cylinders, whether fixed or portable, shall be examined externally and replaced if excessive corrosion is found; and all cylinders shall also be checked by weighing to determine contents and if found to be more than 10 percent under required contents of carbon dioxide, the same shall be recharged.

(b) *Steam system on mechanically propelled vessels contracted for prior to July 1, 1935.* (1) The main pipes and their branches, on mechanically propelled vessels carrying passengers or freight, to convey steam from the boilers to the hold and separate compartments of the same shall be not less than 1½ inches in diameter. Steam pipes of not less than three-fourths of an inch in diameter shall be led into all lamp lockers, oil rooms, and like compartments, which lamp lockers, oil rooms, and like compartments, in all classes of vessels, shall be wholly and tightly lined with metal.

(2) All branch pipes leading into the several compartments of the hold of the vessel shall be supplied with valves, the handles distinctly marked to indicate the compartment or parts of the vessel to which they lead. These valves or their handles shall be placed in not more than two places on the most suitable and accessible deck of the vessel and so arranged that all can be enclosed in cabinets, boxes, or casings.

(c) *Steam systems on mechanically propelled vessels contracted for on or after July 1, 1935.* (1) Steam for fire-extinguishing systems shall be available from the main boilers or from a donkey or auxiliary boiler having a minimum capacity equivalent to one square foot of heating surface for each 300 cubic feet of the largest compartment in which cargo is carried. This requirement shall be based upon a rate of evaporation of six pounds of steam per hour per square foot of heating surface from and at 212° F. medium steaming. Equivalent values of heating surface will be permitted for boilers having rates of evaporation differing from that herein specified.

(2) The minimum boiler capacity shall be based upon the volume of the largest compartment in cubic feet, which shall be determined by measurements taken between fire-retarding boundaries such as decks having hatch covers with proper battening down arrangements, shells, tank tops, watertight and fire-retarding bulkheads.

(3) A steam pressure of at least 100 pounds per square inch shall be maintained for fire-extinguishing purposes. Where the maximum allowable boiler working pressure will not permit of this, the maximum steam pressure permitted by the operating boiler pressure limitations shall be provided for this purpose.

(4) The pipe lines shall be led from not more than three stations in easily accessible locations on the weather deck to each cargo hold, cargo 'tween-decks, or other closed cargo compartments, and to each cargo-oil deep tank, lamp locker, oil room, and like compartments, which lamp locker, oil room, and like compartments, in all classes of vessels, shall be wholly and tightly lined with metal. The steam connections to the lamp lockers, oil rooms, and like compartments may be taken from the nearest steam supply line, independent of the extinguishing manifolds.

(5) Each pipe in the extinguishing manifolds shall be fitted with a shut-off valve plainly and permanently marked to indicate into which compartment it discharges. This requirement also applies to independent extinguishing lines.

(6) Manifold steam supply pipes shall be fitted with master valves at the manifolds, and provision shall be made for draining the manifold and individual lines to protect them against freezing. If the manifolds are located on an open deck, they shall be enclosed in a metal box.

(7) The minimum diameter of any steam fire-extinguishing pipe to a cargo hold, cargo 'tween-decks, other closed cargo compartments, or cargo-oil deep tank shall be one inch, the size and number of pipes to be governed by the size of the compartments. The minimum diameter of any steam fire-extinguishing pipe to a lamp locker, oil room, or like compartments, shall be three-fourths of an inch.

(8) The required diameter of pipe to cargo compartments may be determined by the formula:

$$D=\sqrt{\frac{C}{30{,}000}}$$

where
D=required diameter of pipe, in inches.
C=volume of compartment, in cubic feet.

or by the following table:

Volume of compartment	Number of branches to compartment	Size of branches
		Inches
30,000	1	1
46,000	1	1¼
67,000	1	1½
94,000	2	1¼
135,000	2	1½
203,000	3	1½

(9) The diameter of the main supply line to the manifolds shall be computed by the following formula:

$$D=\sqrt{\frac{C}{60{,}000}}$$

where
D=diameter of pipe required, in inches.
C=volume of all compartments, in cubic feet.

(d) *Inert gas systems on mechanically propelled vessels.* (1) When a carbon dioxide (CO_2) smothering system is fitted in the cargo hold, cargo 'tween-decks, or other closed cargo compartments, or cargo-oil deep tanks, the quantity of carbon dioxide shall be sufficient to give a gas saturation of 30 percent of the gross volume of the largest cargo hold. The quantity in pounds of carbon dioxide required may be determined approximately by the following formula:

$$W=\frac{L\times B\times D}{30}$$

where
W=the weight of CO_2 required, in pounds.
L=the length of the hold, in feet.
B=the mean breadth of the hold, in feet.
D=the depth from tank top for flat forming lower boundary to top of uppermost space in which freight may be carried, in feet.

(2) When a carbon dioxide (CO_2) smothering system is fitted in the lamp locker, oil room, or like compartments, the quantity in pounds of carbon dioxide required may be determined by dividing the gross volume of the space by a factor of 22. Lamp lockers, oil rooms, and like compartments, in all classes of vessels, shall be wholly and tightly lined with metal. The whole charge of gas shall be capable of being released simultaneously by operating one

valve and control, and all cylinders shall be completely discharged in not more than two minutes.

(3) Pipes used for supplying carbon dioxide to the cargo holds, cargo 'tween-decks, other closed cargo compartments, and cargo-oil deep tanks shall be not less than three-fourths inch inside diameter. Pipes used for supplying carbon dioxide to lamp lockers, oil rooms, and like compartments shall not be less than one-half inch inside diameter.

(4) The control(s) releasing the inert gas shall be located in a position(s) outside the space(s) protected and shall be readily accessible when the vessel is being navigated. All valves shall be permanently marked to indicate into which compartment they discharge.

(5) Provision shall be made to prevent the admission of air into the lower parts of cargo holds, cargo 'tween-decks, and other closed cargo compartments while the inert gas system is in operation.

(6) Cylinders, piping, and controls for the inert gas system shall be protected from damage and shall be securely fastened and supported. (R.S. 4405, 4426, 49 Stat. 1544, 54 Stat. 1028; 46 U.S.C. 375, 404, 367, 463a)

Section 61.5 is amended to read as follows:

§ 61.5 *Steam fire pumps or their equivalent*—(a) *Fire pumps on steam vessels contracted for prior to July 1, 1935.* (1) Steam vessels required to be provided with double-acting steam fire pumps or other equivalents for throwing water shall be equipped with such pumps according to their tonnage, as follows: Steam vessels over 20 gross tons and not exceeding 150 gross tons shall have not less than 50 cubic inches pump-cylinder capacity. Steam vessels of over 150 gross tons and under 3,000 gross tons shall have not less than one-third of 1 cubic inch pump-cylinder capacity for every gross ton. Steam vessels of 3,000 gross tons and over shall have pump-cylinder capacity of not less than 1,000 cubic inches. This rule shall apply only to pumps installed after June 30, 1907, and all pumps now approved and in use or installed before said date shall be accepted if complying with requirements of law and regulations in force at the time of their installation.

(2) On steam vessels required by paragraph (a) (1) above to have steam fire pumps or their equivalents, the fire mains shall be led from the pumps to all decks with sufficient number of outlets arranged so that any part of the steam vessel can be reached with water with the full capacity of the pumps and by means of a single 50-foot length of hose from at least one of said outlets. On all classes of steam vessels every such pump shall be fitted with a gauge and a relief valve of such size as to restrict the pressure of water to 100 pounds per square inch.

(b) *Fire pumps on steam vessels contracted for on or after July 1, 1935.* (1) Passenger vessels of 100 gross tons and under shall be equipped with one hand fire pump with a pump-cylinder capacity not less than 100 cubic inches, or a power-driven pump of equivalent discharge capacity.

(2) Vessels exceeding 100 gross tons shall be equipped with fire pumps and fire piping as follows:

(i) All vessels shall be provided with powerful pumps available for use as fire pumps. Passenger vessels of less than 4,000 gross tons shall have 2, and larger passenger vessels at least 3 independently driven pumps connected to the fire main. Cargo vessels and towing vessels of less than 1,000 gross tons shall have 1, and larger cargo or towing vessels at least 2 such pumps so arranged. Each pump shall be capable of delivering two powerful jets of water simultaneously from the highest outlets on the fire main at a Pitot tube pressure of approximately 50 pounds per square inch through nozzles, each having an orifice of not less than ⅞ inch diameter where the internal diameter of the hose exceeds 1½ inches and not less than ⅝ inch in diameter where the internal diameter of the hose does not exceed 1½ inches.

(ii) On oil-burning passenger vessels, where two or more pumps are required, they shall not all be located in the same compartment. Where the engine and firerooms are not entirely separated by steel bulkheads, or if fuel oil can drain from the fireroom bilges into the engine room, one of the fire pumps shall be located in an accessible space in a separate compartment.

(iii) On oil-burning cargo vessels, where two pumps are required, they may be located in the same compartment provided the compartment is equipped with an approved fixed carbon dioxide extinguishing system.

(3) Outlets from the fire mains shall be of a sufficient number and so arranged that any part of the living quarters, weather decks and any part of the cargo decks accessible to crew or passengers, while the vessel is being navigated, may be reached with a single 50-foot length of hose. Outlets within accommodations and service spaces adjacent thereto shall comply with the above or they may be so arranged that any part may be reached with a single 75-foot length of hose provided a siamese connection is fitted at each outlet. Where the fire main is located on an exposed deck, branches shall be provided so that the hose connections necessary to comply with the foregoing be distributed on both sides of the vessel. The fire hose shall be connected to the outlet at all times, except on open decks where the location of the fire hydrants is such that no protection is afforded for the hose in heavy weather. The fire hose may be temporarily removed from the hydrant when it will interfere with the handling of the cargo.

(4) Outlet openings shall have a diameter of not less than 1½ inches, and shall be fitted with suitable hose connections and spanners.

(5) Fire pumps shall be equipped on the discharge side with a relief valve set to relieve at 25 pounds higher than the pressure necessary to maintain the requirements of paragraph (b) (2) (i), above, and a pressure gauge to indicate the pressure on the fire main.

(6) Fire hose shall not be used for any other purpose than fire extinguishing. (R.S. 4405, 4471, as amended, 49 Stat. 1544, 54 Stat. 1028; 46 U.S.C. 375, 464, 367, 463a)

Section 61.15 (g) (2) is deleted. (R.S. 4405, as amended, 49 Stat. 1544, 54 Stat. 1028; 46 U.S.C. 375, 367, 463a)

Section 61.17 is amended to read as follows:

§ 61.17 *Automatic sprinkling system.* (a) The sprinkling system shall, where practicable, consist of pipe fitted with sprinkler heads at suitable distances that will operate automatically in the event of a fire, and spray water on the surrounding area.

(b) The system shall be supplied primarily by a pressure tank or tanks of suitable capacity and maintained at the required pressure, and secondarily by an automatically controlled pump so arranged that when the pressure in the tank falls to a predetermined point the pump will cut in. Where a motor driven sprinkler pump is installed, it shall be capable of being operated from the emergency electrical circuit in case of failure of the main power. Any water standing in the system or the tank should be fresh; and in the event the supply to the pump is salt water, appropriate check valves shall be installed to prevent the salt water entering the tank. Provision should be made to cut in any additional pumping equipment under manual control.

(c) Sprinkler systems shall be zoned, and means shall be provided for giving an alarm where it can be most quickly observed by officers or crew in case of water flow from sprinklers, low air pressure, closed supply valves or operation of thermosensitive elements.

(d) The automatic sprinklers, alarm valves, and other fire-protection devices to be used in the above system shall be of a type approved by the Board of Supervising Inspectors, and the entire system shall be installed in accordance with drawings and specifications approved by the Director.

(e) All tanks installed on or after January 1, 1939, for use in connection with sprinkler systems shall be constructed, tested, and inspected as unfired pressure vessels in accordance with the provisions of Parts 50 to 57, inclusive, of this chapter. All such tanks which were installed prior to January 1, 1939, shall be tested and inspected as unfired pressure vessels in accordance with the provisions of Parts 50 to 57, inclusive, of this chapter. (R.S. 4405, 4471, as amended, 49 Stat. 1544, 54 Stat. 1028; 46 U.S.C. 375, 464, 367, 463a)

Section 61.21 is amended to read as follows:

§ 61.21 *Fire extinguishers for emergency power plants.* In compartments where emergency lighting and wireless units are located, two approved fire extinguishers of either carbon tetrachloride, carbon dioxide, or foam type shall be permanently located at the most accessible point. In addition, two fire extinguishers of the above types shall be permanently located so as to be readily accessible to the emergency fuel tanks containing gasoline, benzine, or naphtha. (R.S. 4405, 4479, as amended, 54 Stat. 1028; 46 U.S.C. 375, 472, 463a)

Section 61.22 is amended to read as follows:

§ 61.22 *Fire-resisting bulkheads.* On and after July 1, 1931, all passenger vessels shall be fitted above the bulkhead deck with fire-resisting bulkheads which shall be continuous from side to side of the vessel and arranged to the satisfaction of the Bureau of Marine Inspection and Navigation. The mean distance between any two adjacent fire-resisting bulkheads in any superstructure shall, in general, not exceed 131 feet. For additional requirements see Part 144—Construction or Material Alteration of Passenger Vessels of the United States of 100 Gross Tons and Over Propelled by Machinery of Chapter I, Title 46, Code of Federal Regulations. (R.S. 4405, 4470, 49 Stat. 1544, 54 Stat. 1028; 46 U.S.C. 375, 463, 367, 463a)

Section 61.23 (*Fuel oil installation*) is deleted, and § 61.24 (*Construction of Motion picture booths*) is renumbered to be § 61.23, and § 61.25 (*Regulations to guard against and extinguish fire re-established*) is renumbered to be § 61.24. (R.S. 4405, 4418, 4426, as amended, 49 Stat. 1544, 54 Stat. 1028; 46 U.S.C. 375, 392, 404, 367, 463a)

PART 62—LICENSED OFFICERS AND CERTIFICATED MEN

The first undesignated paragraph of § 62.16 is amended to read as follows:

§ 62.16 *Reports of accidents.*[1] The licensed officer in command of any vessel shall report in writing and in person to the board of local inspectors nearest the port of first arrival any accident to said vessel involving loss of life or damage to property to an approximate amount exceeding $500 and shall also report in the same manner any casualty or loss of life from whatever cause of any person on board such vessel and any stranding or grounding, whether or not any damage has been sustained by the vessel: *Provided*, That when from distance it may be inconvenient to report in person it may be done in writing only, and the report sworn to before any person authorized to administer oaths: *Provided further*, That during the period when a state of war exists between the United States and any foreign nation, communications in regard to casualties shall be handled with caution, and the above-mentioned reports shall not be made by radio or by telegram. (R.S. 4405, 4436, as amended; 46 U.S.C. 375, 224) • • •

Section 62.103 (a) is amended to read as follows:

§ 62.103 *Licenses issued.* (a) Licenses to officers on uninspected vessels will be issued as follows:

[1] See also § 1.38 of Subchapter A—Documentation, Entrance, and Clearance of Vessels, etc.

(1) License as master, motor or sail;
(2) License as mate, motor or sail;
(3) License as chief engineer, motor;
(4) License as assistant engineer, motor.

The licenses will be given appropriate route (ocean or coastwise) and tonnage limitations, commensurate with the experience of the applicants. They will be issued on the usual license forms Nos. 867, 869, 871, 873, and 880, and shall be limited on their face to uninspected vessels. (R.S. 4405, 4438a, as amended; 46 U.S.C. 375, 224a)

PART 63—INSPECTION OF VESSELS

Section 63.10 is amended by the addition of a new undesignated paragraph, as the last paragraph thereof, reading as follows:

§ 63.10 *Emergency lighting system.* • • •

On all passenger vessels contracted for on and after July 1, 1935, or where existing emergency installations operated by internal-combustion engines are replaced, the emergency generator shall be driven by a Diesel or semi-Diesel engine, equipped with means for quick starting. Such emergency equipment shall be located in steel or iron compartments or rooms on the deck above the weather deck and isolated from the passenger and crew quarters. Where existing installations of emergency engines and generators are located in wooden compartments or rooms, such compartments or rooms shall be made fire-resistant by lining same with asbestos board having a thickness of not less than one-quarter inch over which iron or steel sheathing shall be fitted. (R.S. 4405, 4417, 4426, as amended, 49 Stat. 1544, 54 Stat. 1028; 46 U.S.C. 375, 391, 404, 367, 463a)

Section 63.11 (c) (4) is amended to read as follows:

§ 63.11 *Specifications covering types of voice tubes and telephones.*

• • • • •

(c) *Telephone systems.* • • •

(4) Telephones installed at external locations exposed to the weather or in locations subject to severe moisture conditions shall be housed in a substantial, watertight metal enclosure. The cover shall be hinged at the bottom or side of the box, and when closed, shall be fastened by a simple substantial mechanism which, when operated, exerts sufficient pressure to make the enclosure watertight. The gasket shall be fastened to, and inserted in, the edge of the box or cover. The magneto generator and switches shall be of watertight construction. The generator and all switches shall be installed inside of the enclosure. (R.S. 4405, 4417, 4426, as amended, 49 Stat. 1544, 54 Stat. 1028; 46 U.S.C. 375, 391, 404, 367, 463a)

Section 63.11 is amended by the addition of a new paragraph (f) reading as follows:

(f) All electrical engine order telegraph systems shall be provided with an alarm, located on the bridge, to indicate visually and audibly the failure of power to the system. (R.S. 4405, 4417, 4418, 4426, as amended, 49 Stat 1544; 46 U.S.C. 375, 391, 392, 404, 367)

SUBCHAPTER H—GREAT LAKES: GENERAL RULES AND REGULATIONS

PART 76—BOATS, RAFTS, BULKHEADS AND LIFE-SAVING APPLIANCES

Section 76.32 (c) is amended to read as follows:

§ 76.32 *Life rafts: drawings, specifications, name plate, and how marked.*

• • • • • •

(c) Builders of life rafts shall affix a plate or other device to each life raft, having thereon the builder's name, the manufacturer for whom approved, number of raft, date of construction of raft, cubical contents of raft, and number of persons said raft will carry, as determined by the rules of the Board of Supervising Inspectors. (R.S. 4405, 4426, 4488, 4491, as amended; 46 U.S.C. 375, 404, 481, 489)

Section 76.49 is amended to read as follows:

§ 76.49 *Handling of the boats and rafts.* All the boats and rafts shall be stowed in such a way that they can be launched in the shortest possible time and that, even under unfavorable conditions of list and trim from the point of view of the handling of the boats and rafts, it may be possible to embark in them as large a number of persons as possible. The arrangements shall be such that it may be possible to launch on either side of the vessel as large a number of boats and rafts as possible. Where practicable, lifeboat chocks shall be so fitted that the lifeboats they serve shall not require lifting before launching. At least once in each interval of not longer than 3 months, the master of every inspected passenger vessel shall drill and exercise every member of the crew, except females, in pulling oars in the ship's lifeboats. In addition, the crew of the motor-propelled boats shall demonstrate their ability in the working of the engine and handling of the boat under power. (R.S. 4405, 4417, 4488, as amended; 46 U.S.C. 375, 391, 481)

PART 77—FIRE APPARATUS; FIRE PREVENTION

Section 77.3 is amended to read as follows:

§ 77.3 *Glass lamps.* The use of glass lamps shall be prohibited on any vessel under the jurisdiction of the Bureau of Marine Inspection and Navigation unless the same are securely fitted into suitable metal brackets. (R.S. 4405, 4426, 4470, 54 Stat. 1028; 46 U.S.C. 375, 404, 463, 463a)

Section 77.4 is amended to read as follows:

§ 77.4 *Steam and inert gas fire-extinguishing systems*—(a) *General requirements.* (1) All mechanically propelled vessels carrying combustible cargo in the holds, 'tween-decks, or other closed cargo compartments shall be equipped with means for extinguishing fire in such compartments by the use of a steam fire-extinguishing system or by the use of any

inert gas fire-extinguishing system approved by the Board of Supervising Inspectors.

(2) Cabinets, boxes, or casings inclosing manifolds or valves shall be distinctly marked in painted letters about 3 inches in height, "Steam Fire Apparatus" or "CO_2 Fire Apparatus", as the case may be.

(3) Steam or gas piping fitted for extinguishing fire shall not be used for any other purpose except that it may be used for fire-detecting purposes.

(4) Pipes for conveying steam from the boilers for the purpose of extinguishing fire shall not be led into the cabins, other passengers' or crew's quarters, or working spaces. Pipes for conveying carbon dioxide or other extinguishing vapors for the purpose of extinguishing fire shall not be led into the cabins or other passengers' or crew's quarters.

(5) Steam smothering lines shall be tested with at least 50 pounds air pressure with ends of the smothering lines capped, or by blowing steam through the lines, and a survey made for detecting corrosion and defects, using the hammer test or such other means as may be necessary.

(6) At annual inspections, all carbon dioxide (CO_2) cylinders, whether fixed or portable, shall be examined externally and replaced if excessive corrosion is found; and all cylinders shall also be checked by weighing to determine contents and if found to be more than 10 percent under required contents of carbon dioxide, the same shall be recharged.

(b) *Steam systems on mechanically propelled vessels contracted for prior to July 1, 1935.* (1) The main pipes and their branches, on mechanically propelled vessels carrying passengers or freight, to convey steam from the boilers to the hold and separate compartments of the same shall be not less than 1½ inches in diameter. Steam pipes of not less than three-fourths of an inch in diameter shall be led to all lamp lockers, oil rooms, and like compartments, which lamp lockers, oil rooms, and like compartments, in all classes of vessels, shall be wholly and tightly lined with metal.

(2) All branch pipes leading into the several compartments of the hold of the vessel shall be supplied with valves, the handles distinctly marked to indicate the compartment or parts of the vessel to which they lead. These valves or their handles shall be placed in not more than two places on the most suitable and accessible deck of the vessel and so arranged that all can be inclosed in cabinets, boxes, or casings.

(c) *Steam systems on mechanically propelled vessels contracted for on or after July 1, 1935.* (1) Steam for fire-extinguishing systems shall be available from the main boilers or from a donkey or auxiliary boiler having a minimum capacity equivalent to one square foot of heating surface for each 300 cubic feet of the largest compartment in which cargo is carried. This requirement shall be based upon a rate of evaporation of six pounds of steam per hour per square foot of heating surface from and at 212° F. medium steaming. Equivalent values of heating surface will be permitted for boilers having rates of evaporation differing from that herein specified.

(2) The minimum boiler capacity shall be based upon the volume of the largest compartment in cubic feet, which shall be determined by measurements taken between fire-retarding boundaries such as decks having hatch covers with proper battening down arrangements, shells, tank tops, water-tight and fire-retarding bulkheads.

(3) A steam pressure of at least 100 pounds per square inch shall be maintained for fire-extinguishing purposes. Where the maximum allowable boiler working pressure will not permit of this, the maximum steam pressure permitted by the operating boiler pressure limitations shall be provided for this purpose.

(4) The pipe lines shall be led from not more than three stations in easily accessible locations on the weather deck to each cargo hold, cargo 'tween-decks, or other closed cargo compartments, and to each cargo-oil deep tank, lamp locker, oil room, and like compartments, which lamp locker, oil room, and like compartments, in all classes of vessels, shall be wholly and tightly lined with metal. The steam connections to the lamp lockers, oil rooms, and like compartments may be taken from the nearest steam supply line, independent of the extinguishing manifolds.

(5) Each pipe in the extinguishing manifolds shall be fitted with a shut-off valve plainly and permanently marked to indicate into which compartment it discharges. This requirement also applies to independent extinguishing lines.

(6) Manifold steam supply pipes shall be fitted with master valves at the manifolds, and provision shall be made for draining the manifold and individual lines to protect them against freezing. If the manifolds are located on an open deck, they shall be inclosed in a metal box.

(7) The minimum diameter of any steam fire-extinguishing pipe to a cargo hold, cargo 'tween-decks, other closed cargo compartments, or cargo-oil deep tank shall be one inch, the size and number of pipes to be governed by the size of the compartment. The minimum diameter of any steam fire-extinguishing pipe to a lamp locker, oil room, or like compartments, shall be three-fourths of an inch.

(8) The required diameter of pipe to cargo compartments may be determined by the formula:

$$D=\sqrt{\frac{C}{30{,}000}}$$

Where
D=required diameter of pipe, in inches.
C=volume of compartment, in cubic feet.

or by the following table:

Volume of compartment	Number of branches to compartment	Size of branches
		Inches
30,000	1	1
46,000	1	1¼
67,000	1	1½
94,000	2	1¼
135,000	2	1½
208,000	3	1½

(9) The diameter of the main supply line to the manifolds shall be computed by the following formula:

$$D=\sqrt{\frac{C}{60{,}000}}$$

where
D=diameter of pipe required, in inches.
C=volume of all compartments, in cubic feet.

(d) *Inert gas systems on mechanically propelled vessels.* (1) When a carbon dioxide (CO_2) smothering system is fitted in the cargo hold, cargo 'tween-decks, or other closed cargo compartments, or cargo-oil deep tanks, the quantity of carbon dioxide shall be sufficient to give a gas saturation of 30 percent of the gross volume of the largest cargo hold. The quantity in pounds of carbon dioxide required may be determined approximately by the following formula:

$$W=\frac{L\times B\times D}{30}$$

where
W=the weight of CO_2 required, in pounds.
L=the length of the hold, in feet.
B=the mean breadth of the hold, in feet.
D=the depth from tank top or flat forming lower boundary to top of uppermost space in which freight may be carried, in feet.

(2) When a carbon dioxide (CO_2) smothering system is fitted in the lamp locker, oil rooms, or like compartments, the quantity in pounds of carbon dioxide required may be determined by dividing the gross volume of the space by a factor of 22. Lamp lockers, oil rooms, and like compartments, in all classes vessels, shall be wholly and tightly lined with metal. The whole charge of gas shall be capable of being released simultaneously by operating one valve and control, and all cylinders shall be completely discharged in not more than two minutes.

(3) Pipes used for supplying carbon dioxide to the cargo holds, cargo 'tween-decks, other closed cargo compartments, and cargo-oil deep tanks shall be not less than three-fourths inch inside diameter. Pipes used for supplying carbon dioxide to lamp lockers, oil rooms, and like compartments shall not be less than one-half inch inside diameter.

(4) The control(s) releasing the inert gas shall be located in a position(s) outside the space(s) protected and shall be readily accessible when the vessel is being navigated. All valves shall be permanently marked to indicate into which compartment they discharge.

(5) Provision shall be made to prevent the admission of air into the lower parts of cargo holds, cargo 'tween-decks, and other closed cargo compartments while the inert gas system is in operation.

(6) Cylinders, piping, and controls for the inert gas system shall be protected from damage and shall be securely fastened and supported. (R.S. 4405, 4426, 54 Stat. 1028; 46 U.S.C. 375, 404, 463a)

Section 77.5 is amended to read as follows:

§ 77.5 *Steam fire pumps or their equivalent*—(a) *Fire pumps on steam vessels contracted for prior to July 1, 1935.* (1) Steam vessels required to be provided with double-acting steam fire pumps or other equivalents for throwing water shall be equipped with such pumps according to their tonnage, as follows: Steam vessels over 20 gross tons and not exceeding 150 gross tons shall have not less than 50 cubic inches pump-cylinder capacity. Steam vessels of over 150 gross tons and under 3,000 gross tons shall have not less than one-third of 1 cubic inch pump-cylinder capacity for every gross ton. Steam vessels of 3,000 gross tons and over shall have pump-cylinder capacity of not less than 1,000 cubic inches. This rule shall apply only to pumps installed after June 30, 1907, and all pumps now approved and in use or installed before said date shall be accepted if complying with requirements of law and regulations in force at the time of their installation.

(2) On steam vessels required by paragraph (1) above to have steam fire pumps or their equivalents, the fire mains shall be led from the pumps to all decks, with sufficient number of outlets arranged so that any part of the steam vessel can be reached with water with the full capacity of the pumps and by means of a single 50-foot length of hose from at least one of said outlets. On all classes of steam vessels every such pump shall be fitted with a gauge and a relief valve of such size as to restrict the pressure of water to 100 pounds per square inch.

(b) *Fire pumps on steam vessels contracted for on or after July 1, 1935.* (1) Passenger vessels of 100 gross tons and under shall be equipped with one hand fire pump with a pump-cylinder capacity not less than 100 cubic inches, or a power-driven pump of equivalent discharge capacity.

(2) Vessels exceeding 100 gross tons shall be equipped with fire pumps and fire piping as follows:

(i) All vessels shall be provided with powerful pumps available for use as fire pumps. Passenger vessels of less than 4,000 gross tons shall have 2, and larger passenger vessels at least 3 independently driven pumps connected to the fire main. Cargo vessels and towing vessels of less than 1,000 gross tons shall have 1, and larger cargo or towing vessels at least 2 such pumps so arranged. Each pump shall be capable of delivering two powerful jets of water simultaneously from the highest outlets on the fire main at a Pitot tube pressure of approximately 50 pounds per square inch through nozzles, each having an orifice of not less than ⅞ inch diameter where the internal diameter of the hose exceeds 1½ inches and not less than ⅝ inch in diameter where the internal diameter of the hose does not exceed 1½ inches.

(ii) On oil-burning passenger vessels, where two or more pumps are required, they shall not all be located in the same compartment. Where the engine and firerooms are not entirely separated by steel bulkheads, or if fuel oil can drain from the fireroom bilges into the engine room, one of the fire pumps shall be located in an accessible space in a separate compartment.

(iii) On oil-burning cargo vessels, where the two pumps are required, they may be located in the same compartment provided the compartment is equipped with an approved fixed carbon dioxide extinguishing system.

(3) Outlets from the fire mains shall be of a sufficient number and so arranged that any part of the living quarters, weather decks and any parts of cargo decks accessible to crew or passengers, while the vessel is being navigated, may be reached with a single 50-foot length of hose. Outlets within accommodations and service spaces adjacent thereto shall comply with the above or they may be so arranged that any part may be reached with a single 75-foot length of hose provided a siamese connection is fitted at each outlet. Where the fire main is located on an exposed deck, branches shall be provided so that the hose connections necessary to comply with the foregoing be distributed on both sides of the vessel. The fire hose shall be connected to the outlet at all times, except on open decks where the location of the fire hydrants is such that no protection is afforded for the hose in heavy weather. The fire hose may be temporarily removed from the hydrant when it will interfere with the handling of the cargo.

(4) Outlet openings shall have a diameter of not less than 1½ inches, and shall be fitted with suitable hose connections and spanners.

(5) Fire pumps shall be equipped on the discharge side with a relief valve set to relieve at 25 pounds higher than the pressure necessary to maintain the requirements of paragraph (b) (2) (i) above, and a pressure gauge to indicate the pressure on the fire main.

(6) Fire hose shall not be used for any other purpose than fire extinguishing.

Section 77.17 is amended to read as follows:

§ 77.17 *Automatic sprinkler system.* (a) The sprinkler system shall, where practicable, consist of pipes fitted with sprinkler heads at suitable distances that will operate automatically in the event of a fire, and spray water on the surrounding area.

(b) The system shall be supplied primarily by a pressure tank or tanks of suitable capacity and maintained at the required pressure, and secondarily by an automatically controlled pump so arranged that when the pressure in the tank falls to a predetermined point the pump will cut in. Where a motor driven sprinkler pump is installed, it shall be capable of being operated from the emergency electrical circuit in case of failure of the main power. Any water standing in the system or the tank should be fresh; and in the event the supply to the pump is salt water, appropriate check valves shall be installed to prevent the salt water entering the tank. Provision should be made to cut in any additional pumping equipment under manual control.

(c) Sprinkler systems shall be zoned, and means shall be provided for giving an alarm where it can be most quickly observed by officers or crew in case of water flow from sprinklers, low air pressure, closed supply valves or operation of thermosensitive elements.

(d) The automatic sprinklers, alarm valves, and other fire-protection devices to be used in the above system shall be of a type approved by the Board of Supervising Inspectors, and the entire system shall be installed in accordance with drawings and specifications approved by the Director.

(e) All tanks installed on or after January 1, 1939, for use in connection with sprinkler systems shall be constructed, tested and inspected as unfired pressure vessels in accordance with the provisions of Parts 50 to 57, inclusive, of this chapter. All such tanks which were installed prior to January 1, 1939, shall be tested and inspected as unfired pressure vessels in accordance with the provisions of Parts 50 to 57, inclusive, of this chapter. (R.S. 4405, 4471, as amended, 54 Stat. 1028; 46 U.S.C. 375, 464, 463a)

Section 77.21 is amended to read as follows:

§ 77.21 *Fire extinguishing equipment for emergency power plants.* In compartments where emergency lighting and wireless units are located, two approved fire extinguishers of either carbon tetrachloride, carbon dioxide, or foam type shall be permanently located at the most accessible points. In addition, two fire extinguishers of the above types shall be permanently located so as to be readily accessible to the emergency fuel tanks containing gasoline, benzine, or naphtha. (R.S. 4405, 4479, 54 Stat. 1028; 46 U.S.C. 375, 472, 463a)

Section 77.22 (*Fuel-oil tanks*) is deleted, and § 77.23 (*Construction of motion picture booths*) is renumbered to be § 77.22, and § 77.24 (*Regulations to guard against and extinguish fire re-established*), is renumbered to be § 77.23. (R.S. 4405, 4418, 4426, as amended, 54 Stat. 1028; 46 U.S.C. 375, 392, 404, 463a)

PART 78—LICENSED OFFICERS AND CERTIFICATED MEN

The first undesignated paragraph of § 78.16 is amended to read as follows:

§ 78.16 *Reports of accidents to vessels.*[8] The licensed officer in command of any vessel shall report in writing and in person to the board of local inspectors nearest the port of first arrival any accident to said vessel involving loss of life or damage to property to an approximate amount exceeding $500, and shall also report in the same manner any casualty

[8] See also § 1.38 of Subchapter A—Documentation, Entrance, and Clearance of Vessels, etc.

or loss of life from whatever cause of any person on board such vessel and any stranding or grounding, whether or not any damage has been sustained by the vessel: *Provided*, That when from distance it may be inconvenient to report in person it may be done in writing only, and the report sworn to before any person authorized to administer oaths: *Provided further*, That during the period when a state of war exists between the United States and any foreign nation, communications in regard to casualties shall be handled with caution, and the above-mentioned reports shall not be made by radio or by telegram. (R.S. 4405, 4438, as amended; 46 U.S.C. 375, 224)

PART 79—INSPECTION OF VESSELS

Section 79.11 is amended to read as follows:

§ 79.11 *Emergency lighting system* (a) All vessels engaged in the passenger service, which are electrically lighted by dynamos or other electric units, located below the deep-load line of the vessel, shall have on board an emergency electric lighting system located above the deep-load line to light the vessel sufficiently to enable the passengers and crew to find their way to the exits in the event of failure of the main lighting system. The emergency lighting system shall at all times be ready for immediate use, and shall be installed and arranged so that all emergency lights may be switched on from the pilot house, navigation bridge, or a central station.

(b) On all passenger vessels contracted for on and after July 1, 1935, or where existing emergency installations operated by internal combustion engines are replaced, the emergency generator shall be driven by a Diesel or semi-Diesel engine, equipped with means for quick starting. Such emergency equipment shall be located in steel or iron compartments or rooms on the deck above the weather deck and isolated from the passenger and crew quarters. Where existing installations of emergency engines and generators are located in wooden compartments or rooms, such compartments or rooms shall be made fire-resistant by lining same with asbestos board having a thickness of not less than one-quarter inch over which iron or steel sheathing shall be fitted. (R.S. 4405, 4417, 4426, 4484, 4488, 54 Stat. 1028; 46 U.S.C. 375, 391, 404, 477, 481, 463a)

Section 79.12 (c) (4) is amended to read as follows:

§ 79.12 *Specifications covering types of voice tubes and telephones.*

* * * * *

(c) *Telephone systems.* * * *

(4) Telephones installed at external locations exposed to the weather or in locations subject to severe moisture conditions shall be housed in a substantial, watertight metal enclosure. The cover shall be hinged at the bottom or side of the box and, when closed, shall be fastened by a simple substantial mechanism which, when operated, exerts sufficient pressure to make the enclosure watertight. The gasket shall be fastened to, and inserted in, the edge of the box or cover. The magneto generator and switches shall be of watertight construction. The generator and all switches shall be installed inside the enclosure. (R.S. 4405, 4417, 4426, 54 Stat. 1028; 46 U.S.C. 375, 391, 404, 463a)

Section 79.12 is amended by the addition of a new paragraph (f) reading as follows:

(f) All electrical engine order telegraph systems shall be provided with an alarm, located on the bridge, to indicate visually and audibly the failure of power to the system. (R.S. 4405, 4417, 4418, 4426, 54 Stat. 1028; 46 U.S.C. 375, 391, 392, 404, 463a)

SUBCHAPTER I—BAYS, SOUNDS, AND LAKES OTHER THAN THE GREAT LAKES; GENERAL RULES AND REGULATIONS

PART 94—BOATS, RAFTS, BULKHEADS, AND LIFE-SAVING APPLIANCES

Section 94.26 is amended to read as follows:

§ 94.26 *Handling of the boats and rafts.* All the boats and rafts shall be stowed in such a way that they can be launched in the shortest possible time and that, even under unfavorable conditions of list and trim from the point of view of the handling of the boats and rafts, it may be possible to embark in them as large a number of persons as possible. The arrangement shall be such that it may be possible to launch on either side of the vessel as large a number of boats and rafts as possible. Where practicable, lifeboat chocks shall be so fitted that the lifeboats they serve shall not require lifting before launching. At least once in each interval of not longer than 3 months, the master of every inspected passenger vessel shall drill and exercise every member of the crew, except females, in pulling oars in the ship's lifeboats. In addition, the crew of the motor-propelled boats shall demonstrate their ability in the working of the engine and handling of the boat under power. (R.S. 4405, 4417, 4488 as amended; 46 U.S.C. 375, 391, 481)

Section 94.32 (c) is amended to read as follows:

§ 94.32 *Life rafts: drawings, specifications, name plate; marking method.*

* * * * *

(c) Builders of life rafts shall affix a plate or other device to each life raft, having thereon the builder's name, the manufacturer for whom approved, number of raft, date of construction of raft, cubical contents of raft, and number of persons said raft will carry, as determined by the rules of the Board of Supervising Inspectors. (R.S. 4405, 4426, 4488, 4491, as amended; 46 U.S.C. 375, 404, 481, 489)

PART 95—FIRE APPARATUS; FIRE PREVENTION

Section 95.3 is amended to read as follows:

§ 95.3 *Glass lamps.* The use of glass lamps shall be prohibited on any vessel under the jurisdiction of the Bureau of Marine Inspection and Navigation unless the same are securely fitted into suitable metal brackets. (R.S. 4405, 4426, 4470, 54 Stat. 1028; 46 U.S.C. 375, 404, 463, 463a)

Section 95.4 is amended to read as follows:

§ 95.4 *Steam and inert gas fire-extinguishing systems*—(a) *General requirements.* (1) All mechanically propelled vessels carrying combustible cargo in the holds, 'tween-decks, or other closed cargo compartments shall be equipped with means for extinguishing fire in such compartments by the use of a steam fire-extinguishing system or by the use of any inert gas fire-extinguishing system approved by the Board of Supervising Inspectors.

(2) Cabinets, boxes, or casings inclosing manifolds or valves shall be distinctly marked in painted letters about 3 inches in height, "Steam Fire Apparatus" or "CO_2 Fire Apparatus", as the case may be.

(3) Steam or gas piping fitted for extinguishing fire shall not be used for any other purpose except that it may be used for fire-detecting purposes.

(4) Pipes for conveying steam from the boilers for the purpose of extinguishing fire shall not be led into the cabins, other passengers' or crew's quarters, or working spaces. Pipes for conveying carbon dioxide or other extinguishing vapors for the purpose of extinguishing fire shall not be led into the cabins or other passengers' or crew's quarters.

(5) Steam smothering lines shall be tested with at least 50 pounds air pressure with ends of the smothering lines capped, or by blowing steam through the lines, and a survey made for detecting corrosion and defects, using the hammer test or such other means as may be necessary.

(6) At annual inspections, all carbon dioxide (CO_2) cylinders, whether fixed or portable, shall be examined externally and replaced if excessive corrosion is found; and all cylinders shall also be checked by weighing to determine contents and if found to be more than 10 percent under required contents of carbon dioxide, the same shall be recharged.

(b) *Steam systems on mechanically propelled vessels contracted for prior to July 1, 1935.* (1) The main pipes and their branches, on mechanically propelled vessels carrying passengers or freight, to convey steam from the boilers to the hold and separate compartments of the same shall be not less than 1½ inches in diameter. Steam pipes of not less than three-fourths of an inch in diameter shall be led into all lamp lockers, oil rooms, and like compartments, which lamp lockers, oil rooms, and like compartments, in all classes of vessels, shall be wholly and tightly lined with metal.

(2) All branch pipes leading into the several compartments of the hold of the vessel shall be supplied with valves, the handles distinctly marked to indicate the compartment or parts of the vessel to which they lead. These valves or their handles shall be placed in not more than two places on the most suitable and accessible deck of the vessel and so arranged that all can be enclosed in cabinets, boxes, or casings.

(c) *Steam systems on mechanically propelled vessels contracted for on or after July 1, 1935.* (1) Steam for fire-extinguishing systems shall be available from the main boilers or from a donkey or auxiliary boiler having a minimum capacity equivalent to one square foot of heating surface for each 300 cubic feet of the largest compartment in which cargo is carried. This requirement shall be based upon a rate of evaporation of six pounds of steam per hour per square foot of heating surface from and at 212° F. medium steaming. Equivalent values of heating surface will be permitted for boilers having rates of evaporation differing from that herein specified.

(2) The minimum boiler capacity shall be based upon the volume of the largest compartment in cubic feet, which shall be determined by measurements taken between fire-retarding boundaries such as decks having hatch covers with proper battening down arrangements, shells, tank tops, watertight and fire-retarding bulkheads.

(3) A steam pressure of at least 100 pounds per square inch shall be maintained for fire-extinguishing purposes. Where the maximum allowable boiler working pressure will not permit of this, the maximum steam pressure permitted by the operating boiler pressure limitations shall be provided for this purpose.

(4) The pipe lines shall be led from not more than three stations in easily accessible locations on the weather deck to each cargo hold, cargo 'tween-decks, or other closed cargo compartments, and to each cargo-oil deep tank, lamp locker, oil room, and like compartments, which lamp locker, oil room, and like compartments, in all classes of vessels, shall be wholly and tightly lined with metal. The steam connections to the lamp lockers, oil rooms, and like compartments may be taken from the nearest steam supply line, independent of the extinguishing manifolds.

(5) Each pipe in the extinguishing manifolds shall be fitted with a shut-off valve plainly and permanently marked to indicate into which compartment it discharges. This requirement also applies to independent extinguishing lines.

(6) Manifold steam supply pipes shall be fitted with master valves at the manifolds, and provision shall be made for draining the manifold and individual lines to protect them against freezing. If the manifolds are located on an open deck, they shall be enclosed in a metal box.

(7) The minimum diameter of any steam fire-extinguishing pipe to a cargo hold, cargo 'tween-decks, other closed cargo compartments, or cargo-oil deep tank shall be one inch, the size and number of pipes to be governed by the size of the compartments. The minimum diameter of any steam fire-extinguishing pipe to a lamp locker, oil room, or like compartments, shall be three-fourths of an inch.

(8) The required diameter of the pipe to cargo compartments may be determined by the formula:

$$D=\sqrt{\frac{C}{30{,}000}}$$

where
D = required diameter of pipe, in inches.
C = volume of compartment, in cubic feet.

or by the following table:

Volume of compartment	Number of branches to compartment	Size of branches
		Inches
20,000	1	1
44,000	1	1¼
67,000	1	1½
94,000	2	1¼
135,000	2	1½
203,000	3	1½

(9) The diameter of the main supply line to the manifolds shall be computed by the following formula:

$$D=\sqrt{\frac{C}{60{,}000}}$$

where
D = diameter of pipe required, in inches.
C = volume of all compartments, in cubic feet.

(d) *Inert gas systems on mechanically propelled vessels.* (1) When a carbon dioxide (CO_2) smothering system is fitted in the cargo hold, cargo 'tween-decks, or other closed cargo compartments, or cargo-oil deep tanks, the quantity of carbon dioxide shall be sufficient to give a gas saturation of 30 percent of the gross volume of the largest cargo hold. The quantity in pounds of carbon dioxide required may be determined approximately by the following formula:

$$W=\frac{L\times B\times D}{30}$$

where
W = the weight of CO_2 required, in pounds.
L = the length of the hold, in feet.
B = the mean breadth of the hold, in feet.
D = the depth from tank top for flat forming lower boundary to top of uppermost space in which freight may be carried, in feet.

(2) When a carbon dioxide (CO_2) smothering system is fitted in the lamp locker, oil room, or like compartments, the quantity in pounds of carbon dioxide required may be determined by dividing the gross volume of the space by a factor of 22. Lamp lockers, oil rooms, and like compartments, in all classes of vessels, shall be wholly and tightly lined with metal. The whole charge of gas shall be capable of being released simultaneously by operating one valve and control, and all cylinders shall be completely discharged in not more than two minutes.

(3) Pipes used for supplying carbon dioxide to the cargo holds, cargo 'tween-decks, other closed cargo compartments, and cargo-oil deep tanks shall be not less than three-fourths inch inside diameter. Pipes used for supplying carbon dioxide to lamp lockers, oil rooms, and like compartments shall not be less than one-half inch inside diameter.

(4) The control(s) releasing the inert gas shall be located in a position(s) outside the space(s) protected and shall be readily accessible when the vessel is being navigated. All valves shall be permanently marked to indicate into which compartment they discharge.

(5) Provision shall be made to prevent the admission of air into the lower parts of cargo holds, cargo 'tween-decks, and other closed cargo compartments while the inert gas system is in operation.

(6) Cylinders, piping, and controls for the inert gas system shall be protected from damage and shall be securely fastened and supported. (R.S. 4405, 4426, 54 Stat. 1028; 46 U.S.C. 375, 404, 463a)

Section 95.5 is amended to read as follows:

§ 95.5 *Steam fire pumps or their equivalent*—(a) *Fire pumps on steam vessels contracted for prior to July 1, 1935.* (1) Steam vessels required to be provided with double-acting steam fire pumps or other equivalents for throwing water shall be equipped with such pumps according to their tonnage, as follows: Steam vessels over 20 gross tons and not exceeding 150 gross tons shall have not less than 50 cubic inches pump-cylinder capacity. Steam vessels of over 150 gross tons and under 3,000 gross tons shall have not less than one-third of 1 cubic inch pump-cylinder capacity for every gross ton. Steam vessels of 3,000 gross tons and over shall have pump-cylinder capacity of not less than 1,000 cubic inches. This rule shall apply only to pumps installed after June 30, 1907, and all pumps now approved and in use or installed before said date shall be accepted if complying with requirements of law and regulations in force at the time of their installation.

(2) On steam vessels required by paragraph (a) (1) above to have steam fire pumps or their equivalents, the fire mains shall be led from the pumps to all decks, with sufficient number of outlets arranged so that any part of the steam vessel can be reached with water with the full capacity of the pumps and by means of a single 50-foot length of hose from at least one of said outlets. On all classes of steam vessels every such pump shall be fitted with a gauge and a relief valve of such size as to restrict the pressure of water to 130 pounds per square inch.

(b) *Fire pumps on steam vessels contracted for on or after July 1, 1935.* (1) Passenger vessels of 100 gross tons and under shall be equipped with one hand fire pump with a pump-cylinder capacity not less than 100 cubic inches, or a power-driven pump of equivalent discharge capacity.

(2) Vessels exceeding 100 gross tons shall be equipped with fire pumps and fire piping as follows:

(i) All vessels shall be provided with powerful pumps available for use as fire pumps. Passenger vessels of less than 4,000 gross tons shall have 2, and larger passenger vessels at least 3 independently driven pumps connected to the fire main. Cargo vessels and towing vessels of less than 1,000 gross tons shall have 1, and larger cargo or towing vessels at least 2 such pumps so arranged. Each pump shall be capable of delivering two power-

ful jets of water simultaneously from the highest outlets on the fire main at a Pitot tube pressure of approximately 50 pounds per square inch through nozzles, each having an orifice of not less than ⅞ inch diameter where the internal diameter of the hose exceeds 1½ inches and not less than ⅝ inch in diameter where the internal diameter of the hose does not exceed 1½ inches.

(ii) On oil-burning passenger vessels, where two or more pumps are required, they shall not all be located in the same compartment. Where the engine and firerooms are not entirely separated by steel bulkheads, or if fuel oil can drain from the fireroom bilges into the engine room, one of the fire pumps shall be located in an accessible space in a separate compartment.

(iii) On oil-burning cargo vessels, where two pumps are required, they may be located in the same compartment provided the compartment is equipped with an approved fixed carbon dioxide extinguishing system.

(3) Outlets from the fire mains shall be of a sufficient number and so arranged that any part of the living quarters, weather decks and any part of the cargo decks accessible to crew or passengers, while the vessel is being navigated, may be reached with a single 50 foot length of hose. Outlets within accommodations and service spaces adjacent thereto shall comply with the above or they may be so arranged that any part may be reached with a single 75-foot length of hose provided a standard connection is fitted at each outlet. Where the fire main is located on an exposed deck, branches shall be provided so that the hose connections necessary to comply with the foregoing be distributed on both sides of the vessel. The fire hose shall be connected to the outlet at all times, except on open decks where the location of the fire hydrants is such that no protection is afforded for the hose in heavy weather. The fire hose may be temporarily removed from the hydrant when it will interfere with the handling of the cargo.

(4) Outlet openings shall have a diameter of not less than 1½ inches, and shall be fitted with suitable hose connections and spanners.

(5) Fire pumps shall be equipped on the discharge side with a relief valve set to relieve at 25 pounds higher than the pressure necessary to maintain the requirements of paragraph (b) (2) (i), above, and a pressure gauge to indicate the pressure on the fire main.

(6) Fire hose shall not be used for any other purpose than fire extinguishing. (R.S. 4405, 4471, as amended, 54 Stat. 1028; 46 U.S.C. 375, 464, 463a)

Section 95.16 is amended to read as follows:

§ 95.16 *Automatic sprinkling system.* (a) The sprinkling system shall, where practicable, consist of pipes fitted with sprinkler heads at suitable distances that will operate automatically in the event of a fire, and spray water on the surrounding area.

(b) The system shall be supplied primarily by a pressure tank or tanks of suitable capacity and maintained at the required pressure, and secondarily by an automatically controlled pump so arranged that when the pressure in the tank falls to a predetermined point the pump will cut in. Where a motor driven sprinkler pump is installed, it shall be capable of being operated from the emergency electrical circuit in case of failure of the main power. Any water standing in the system or the tank should be fresh; and in the event the supply to the pump is salt water, appropriate check valves shall be installed to prevent the salt water entering the tank. Provision should be made to cut in any additional pumping equipment under manual control.

(c) Sprinkler systems shall be zoned, and means shall be provided for giving an alarm where it can be most quickly observed by officers or crew in case of water flow from sprinklers, low air pressure, closed supply valves or operation of thermosensitive elements.

(d) The automatic sprinklers, alarm valves, and other fire-protection devices to be used in the above system shall be of a type approved by the Board of Supervising Inspectors, and the entire system shall be installed in accordance with drawings and specifications approved by the Director.

(e) All tanks installed on or after January 1, 1939, for use in connection with sprinkler systems shall be constructed, tested, and inspected as unfired pressure vessels in accordance with the provisions of Parts 50 to 57, inclusive, of this chapter. All such tanks which were installed prior to January 1, 1939, shall be tested and inspected as unfired pressure vessels in accordance with the provisions of Parts 50 to 57, inclusive, of this chapter. (R.S. 4405, 4471, as amended, 54 Stat. 1028; 46 U.S.C. 375, 464, 463a)

Section 95.21 is amended to read as follows:

§ 95.21 *Fire extinguishers for emergency power plants.* In compartments where emergency lighting and wireless units are located, two approved fire extinguishers of either carbon tetrachloride, carbon dioxide, or foam type shall be permanently located at the most accessible point. In addition, two fire extinguishers of the above types shall be permanently located so as to be readily accessible to the emergency fuel tanks containing gasoline, benzine, or naptha. (R.S. 4405, 4479, as amended, 54 Stat. 1028; 46 U.S.C. 375, 472, 463a)

Section 95.22 (*Fuel oil tanks*) is deleted, and § 95.23 (*Construction of motion picture booths*) is renumbered to be § 95.22, and § 95.24 (*Regulations to guard against and extinguish fire reestablished*) is renumbered to be § 95.23. (R.S. 4405, 4418, 4426, as amended, 54 Stat. 1028; 46 U.S.C. 375, 392, 404, 463a)

PART 96—LICENSED OFFICERS AND CERTIFICATED MEN

The first undesignated paragraph of § 96.16 is amended to read as follows:

§ 96.16 *Reports of accidents.*[1] The licensed officer in command of any vessel shall report in writing and in person to the board of local inspectors nearest the port of first arrival any accident to said vessel involving loss of life or damage to property to an approximate amount exceeding $500, and shall also report in the same manner any casualty or loss of life from whatever cause of any person on board such vessel and any stranding or grounding, whether or not any damage has been sustained by the vessel: *Provided*, That when from distance it may be inconvenient to report in person it may be done in writing only, and the report sworn to before any person authorized to administer oaths: *Provided further*, That during the period when a state of war exists between the United States and any foreign nation, communications in regard to casualties shall be handled with caution, and the above-mentioned reports shall not be made by radio or by telegram. • • • (R.S. 4405, 4438, as amended; 46 U.S.C. 375, 224)

PART 97—INSPECTION OF VESSELS

Section 97.14 (c) (4) is amended to read as follows:

§ 97.14 *Specifications covering types of voice tubes and telephones.*

• • • • • •

(c) *Telephone systems.* • • •

(4) Telephones installed at external locations exposed to the weather or in locations subject to severe moisture conditions shall be housed in a substantial, watertight metal enclosure. The cover shall be hinged at the bottom or side of the box, and when closed, shall be fastened by a simple substantial mechanism which, when operated, exerts sufficient pressure to make the enclosure watertight. The gasket shall be fastened to, and inserted in, the edge of the box or cover. The magneto generator and switches shall be of watertight construction. The generator and all switches shall be installed inside of the enclosure. (R.S. 4405, 4417, 4426, as amended, 54 Stat. 1028; 46 U.S.C. 375, 391, 404, 463a)

Section 97.14 is amended by the addition of a new paragraph (f) reading as follows:

(f) All electrical engine order telegraph systems shall be provided with an alarm, located on the bridge, to indicate visually and audibly the failure of power to the system. (R.S. 4405, 4417, 4418, 4426, as amended; 46 U.S.C. 375, 391, 392, 404)

Section 97.16 is amended to read as follows:

§ 97.16 *Emergency lighting system.* (a) All vessels engaged in the passenger service, which are electrically lighted by dynamos or other electric units, located below the deep-load line of the vessel, shall have on board an emergency electric lighting system located above the deep-load line to light the vessel sufficiently to enable the passengers and crew to find their way to the exits in the event of failure of the main lighting system. The emergency lighting system shall at all times be ready for immediate use, and shall be installed and arranged so that all emergency lights may be switched on from the pilot house, navigation bridge, or a central station.

(b) On all passenger vessels contracted for on and after July 1, 1935, or where existing emergency installations operated by internal combustion engines are replaced, the emergency generator shall be driven by a Diesel or semi-Diesel engine, equipped with means for quick starting. Such emergency equipment shall be located in steel or iron compartments or rooms on the deck above the weather deck and isolated from the passenger and crew quarters. Where existing installations of emergency engines and generators are located in wooden compartments or rooms, such compartments or rooms shall be made fire-resistant by lining same with asbestos board having a thickness of not less than one-quarter inch over which iron or steel sheathing shall be fitted. (R.S. 4405, 4417, 4426, 4484, 4488, 54 Stat. 1028; 46 U.S.C. 375, 391, 404, 477, 481, 463a)

SUBCHAPTER J—RIVERS: GENERAL RULES AND REGULATIONS

PART 113—BOATS, RAFTS, BULKHEADS, AND LIFE-SAVING APPLIANCES

Section 113.28 is amended by changing the third undesignated paragraph thereof to read as follows:

§ 113.28 *Handling of the boats and rafts.* • • •

Where practicable, lifeboat chocks shall be so fitted that the lifeboats they serve shall not require lifting before launching. (R.S. 4405, 4417, 4481, 4488, as amended; 46 U.S.C. 375, 391, 474, 481)

Section 113.29 (c) is amended to read as follows:

§ 113.29 *Life rafts: drawings, specifications, name plate; marking method.*

• • • • • •

(c) Builders of life rafts shall affix a plate or other device to each life raft, having thereon the builder's name, the manufacturer for whom approved, number of raft, date of construction of raft, cubical contents of raft, and number of persons said raft will carry, as determined by the rules of the Board of Supervising Inspectors. (R.S. 4405, 4426, 4488, 4491, as amended; 46 U.S.C. 375, 404, 481, 489)

PART 114—FIRE APPARATUS: FIRE PREVENTION

Section 114.3 is amended to read as follows:

§ 114.4 *Glass lamps.* The use of glass lamps shall be prohibited on any vessel under the jurisdiction of the Bureau of Marine Inspection and Navigation unless the same are securely fitted into suitable metal brackets. (R.S. 4405, 4426, 4470, 54 Stat. 1028; 46 U.S.C. 375, 404, 463, 463a)

Section 114.6 is amended to read as follows:

§ 114.6 *Steam and inert gas fire-extinguishing systems*—(a) *General requirements.* (1) All mechanically propelled vessels carrying combustible cargo in the holds, 'tween-decks, or other closed cargo compartments shall be equipped with means for extinguishing fire in such compartments by the use of a steam fire-extinguishing system or by the use of any inert gas fire-extinguishing system approved by the Board of Supervising Inspectors.

(2) Cabinets, boxes, or casings inclosing manifolds or valves shall be distinctly marked in painted letters, about 3 inches in height, "Steam Fire Apparatus" or "CO_2 Fire Apparatus", as the case may be.

(3) Steam or gas piping fitted for extinguishing fire shall not be used for any other purpose except that it may be used for fire-detecting purposes.

(4) Pipes for conveying steam from the boilers for the purpose of extinguishing fire shall not be led into the cabins, other passengers' or crew's quarters, or working spaces. Pipes for conveying carbon dioxide or other extinguishing vapors for the purpose of extinguishing fire shall not be led into the cabins or other passengers' or crew's quarters.

(5) Steam smothering lines shall be tested with at least 50 pounds air pressure with ends of the smothering lines capped, or by blowing steam through the lines, and a survey made for detecting corrosion and defects, using the hammer test or such other means as may be necessary.

(6) At annual inspections, all carbon dioxide (CO_2) cylinders, whether fixed or portable, shall be examined externally and replaced if excessive corrosion is found; and all cylinders shall also be checked by weighing to determine contents and if found to be more than 10 per cent under required contents of carbon dioxide, the same shall be recharged.

(b) *Steam systems on mechanically propelled vessels contracted for prior to July 1, 1935.* (1) The main pipes and their branches, on mechanically propelled vessels carrying passengers or freight, to convey steam from the boilers to the hold and separate compartments of the same shall be not less than 1½ inches in diameter, except on steam vessels employed on western rivers, constructed prior to June 30, 1905, which steam vessels may use branch pipes not less than three-fourths of an inch in diameter. Steam pipes of not less than three-fourths of an inch in diameter shall be led to all lamp lockers, oil rooms, and like compartments, which lamp lockers, oil rooms, and like compartments, in all classes of vessels, shall be wholly and tightly lined with metal.

(2) All branch pipes leading into the several compartments of the hold of the vessel shall be supplied with valves, the handles distinctly marked to indicate the compartment or parts of the vessel to which they lead. These valves or their handles shall be placed in not more than two places on the most suitable and accessible deck of the vessel and so arranged that all can be inclosed in cabinets, boxes, or casings.

(c) *Steam systems on mechanically propelled vessels contracted for on or after July 1, 1935.* (1) Steam for fire-extinguishing systems shall be available from the main boilers or from a donkey or auxiliary boiler having a minimum capacity equivalent to one square foot of heating surface for each 300 cubic feet of the largest compartment in which cargo is carried. This requirement shall be based upon a rate of evaporation of six pounds of steam per hour per square foot of heating surface from and at 212° F. medium steaming. Equivalent values of heating surface will be permitted for boilers having rates of evaporation differing from that herein specified.

(2) The minimum boiler capacity shall be based upon the volume of the largest compartment in cubic feet, which shall be determined by measurements taken between fire-retarding boundaries such as decks having hatch covers with proper battening down arrangements, shells, tank tops, water-tight and fire-retarding bulkheads.

(3) A steam pressure of at least 100 pounds per square inch shall be maintained for fire-extinguishing purposes. Where the maximum allowable boiler working pressure will not permit of this, the maximum steam pressure permitted by the operating boiler pressure limitations shall be provided for this purpose.

(4) The pipe lines shall be led from not more than three stations in easily accessible locations on the weather deck to each cargo hold, cargo 'tween-decks, or other closed cargo compartments, and to each cargo-oil deep tank, lamp locker, oil room, and like compartments, which lamp locker, oil room, and like compartments, in all classes of vessels, shall be wholly and tightly lined with metal. The steam connections to the lamp lockers, oil rooms, and like compartments may be taken from the nearest steam supply line, independent of the extinguishing manifolds.

(5) Each pipe in the extinguishing manifolds shall be fitted with a shut-off valve plainly and permanently marked to indicate into which compartment it discharges. This requirement also applies to independent extinguishing lines.

(6) Manifold steam supply pipes shall be fitted with master valves at the manifolds, and provision shall be made for draining the manifold and individual lines to protect them against freezing. If the manifolds are located on an open deck, they shall be inclosed in a metal box.

(7) The minimum diameter of any steam fire-extinguishing pipe to a cargo hold, cargo 'tween-decks, other closed cargo compartments, or cargo-oil deep tank shall be one inch, the size and number of pipes to be governed by the size of the compartment. The minimum diameter of any steam fire-extinguishing pipe to a lamp locker, oil room, or like compartments, shall be three-fourths of an inch.

[1] See also § 1.38 of Subchapter A—Documentation, Entrance, and Clearance of Vessels, etc.

(8) The required diameter of pipe to cargo compartments may be determined by the formula:

$$D=\sqrt{\frac{C}{20{,}000}}$$

where
D=required diameter of pipe, in inches.
C=volume of compartment, in cubic feet.
or by the following table:

Volume of compartment	Number of branches to compartment	Size of branches
		Inches
20,000	1	1
46,000	1	1¼
67,000	1	1½
94,000	2	1½
135,000	2	1½
208,000	3	1½

(9) The diameter of the main supply line to the manifolds shall be computed by the following formula:

$$D=\sqrt{\frac{C}{60{,}000}}$$

where
D=diameter of pipe required, in inches.
C=volume of all compartments, in cubic feet.

(d) *Inert gas systems, on mechanically propelled vessels.* (1) When a carbon dioxide (CO_2) smothering system is fitted in the cargo hold, cargo 'tween-decks, or other closed cargo compartments, or cargo-oil deep tanks, the quantity of carbon dioxide shall be sufficient to give a gas saturation of 30 percent of the gross volume of the largest cargo hold. The quantity in pounds of carbon dioxide required may be determined approximately by the following formula:

$$W=\frac{L\times B\times D}{30}$$

Where
W=the weight of CO_2 required, in pounds.
L=the length of the hold, in feet.
B=the mean breadth of the hold, in feet.
D=the depth from tank top or flat forming lower boundary to top of uppermost space in which freight may be carried, in feet.

(2) When a carbon dioxide (CO_2) smothering system is fitted in the lamp locker, oil room, or like compartments, the quantity in pounds of carbon dioxide required may be determined by dividing the gross volume of the space by a factor of 22. Lamp lockers, oil rooms, and like compartments, in all classes of vessels, shall be wholly and tightly lined with metal. The whole charge of gas shall be capable of being released simultaneously by operating one valve and control, and all cylinders shall be completely discharged in not more than two minutes.

(3) Pipes used for supplying carbon dioxide to the cargo holds, cargo 'tween-decks, other closed cargo compartments, and cargo-oil deep tanks shall be not less than three-fourths inch inside diameter. Pipes used for supplying carbon dioxide to lamp lockers, oil rooms, and like compartments shall be not less than one-half inch inside diameter.

(4) The control(s) releasing the inert gas shall be located in a position(s) outside the space(s) protected and shall be readily accessible when the vessel is being navigated. All valves shall be permanently marked to indicate into which compartment they discharge.

(5) Provision shall be made to prevent the admission of air into the lower parts of cargo holds, cargo 'tween-decks, and other closed cargo compartments while the inert gas system is in operation.

(6) Cylinders, piping, and controls for the inert gas system shall be protected from damage and shall be securely fastened and supported. (R.S. 4405, as amended, 54 Stat. 1028; 46 U.S.C. 375, 463a)

Section 114.7 is amended to read as follows:

§ 114.7 *Steam fire pumps or their equivalent*—(a) *Fire pumps on steam vessels contracted for prior to July 1, 1935.* (1) Steam vessels required to be provided with double-acting steam fire pumps or other equivalents for throwing water shall be equipped with such pumps according to their tonnage, as follows: Steam vessels over 20 gross tons and not exceeding 150 gross tons shall have not less than 30 cubic inches pump-cylinder capacity. Steam vessels of over 150 gross tons and under 3,000 gross tons shall have not less than one-third of 1 cubic inch pump-cylinder capacity for every gross ton. Steam vessels of 3,000 gross tons and over shall have pump-cylinder capacity of not less than 1,000 cubic inches. This rule shall apply only to pumps installed after June 30, 1907, and all pumps now approved and in use or installed before said date shall be accepted if complying with requirements of law and regulations in force at the time of their installation.

(2) On steam vessels required by paragraph (a) (1) above to have steam fire pumps or their equivalents, the fire mains shall be led from the pumps to all decks, with sufficient number of outlets arranged so that any part of the steam vessel can be reached with water with the full capacity of the pumps and by means of a single 50-foot length of hose from at least one of said outlets. On all classes of steam vessels every such pump shall be fitted with a gauge and a relief valve of such size as to restrict the pressure of water to 100 pounds per square inch.

(b) *Fire pumps on steam vesesls contracted for on or after July 1, 1935.* (1) Passenger vessels of 100 gross tons and under shall be equipped with one hand fire pump with a pump-cylinder capacity not less than 100 cubic inches, or a power-driven pump of equivalent discharge capacity.

(2) Vessels exceeding 100 gross tons shall be equipped with fire pumps and fire piping as follows:

(i) All vessels shall be provided with powerful pumps available for use as fire pumps. Passenger vessels of less than 4,000 gross tons shall have 2, and larger passenger vessels at least 3 independently driven pumps connected to the fire main. Cargo vessels and towing vessels of less than 1,000 gross tons shall have 1, and larger cargo or towing vessels at least 2 such pumps so arranged. Each pump shall be capable of delivering two powerful jets of water simultaneously from the highest outlets on the fire main at a Pitot tube pressure of approximately 50 pounds per square inch through nozzles, each having an orifice of not less than ⅞ inch diameter where the internal diameter of the hose exceeds 1½ inches and not less than ⅝ inch in diameter where the internal diameter of the hose does not exceed 1½ inches.

(ii) On oil-burning passenger vessels, where two or more pumps are required, they shall not all be located in the same compartment. Where the engine and firerooms are not entirely separated by steel bulkheads, or if fuel oil can drain from the fireroom bilges into the engine room, one of the fire pumps shall be located in an accessible space in a separate compartment.

(iii) On oil-burning cargo vessels, where two pumps are required, they may be located in the same compartment provided the compartment is equipped with an approved fixed carbon dioxide extinguishing system.

(3) Outlets from the fire mains shall be of a sufficient number and so arranged that any part of the living quarters, weather decks and any part of the cargo decks accessible to crew or passengers, while the vessel is being navigated, may be reached with a single 50-foot length of hose. Outlets within accommodations and service spaces adjacent thereto shall comply with the above or they may be so arranged that any part may be reached with a single 75-foot length of hose provided a siamese connection is fitted at each outlet. Where the fire main is located on an exposed deck, branches shall be provided so that the hose connections necessary to comply with the foregoing be distributed on both sides of the vessel. The fire hose shall be connected to the outlet at all times, except on open decks where the location of the fire hydrants is such that no protection is afforded for the hose in heavy weather. The fire hose may be temporarily removed from the hydrant when it will interfere with the handling of the cargo.

(4) Outlet openings shall have a diameter of not less than 1½ inches, and shall be fitted with suitable hose connections and spanners.

(5) Fire pumps shall be equipped on the discharge side with a relief valve set to relieve at 25 pounds higher than the pressure necessary to maintain the requirements of paragraph (b) (2) (i), above, and a pressure gauge to indicate the pressure on the fire main.

(6) Fire hose shall not be used for any other purpose than fire extinguishing. (R.S. 4405, 4471, as amended, 54 Stat. 1028; 46 U.S.C. 375, 464, 463a)

Section 114.17 is amended to read as follows:

§ 114.17 *Automatic sprinkling system.* (a) The sprinkling system shall, where practicable, consist of pipes fitted with sprinkler heads at suitable distances that will operate automatically in the event of a fire, and spray water on the surrounding area.

(b) The system shall be supplied primarily by a pressure tank or tanks of suitable capacity and maintained at the required pressure, and secondarily by an automatically controlled pump so arranged that when the pressure in the tank falls to a predetermined point the pump will cut in. Where a motor driven sprinkler pump is installed, it shall be capable of being operated from the emergency electrical circuit in case of failure of the main power. Any water standing in the system or the tank should be fresh; and in the event the supply to the pump is salt water, appropriate check valves shall be installed to prevent the salt water entering the tank. Provision should be made to cut in any additional pumping equipment under manual control.

(c) Sprinkler systems shall be zoned, and means shall be provided for giving an alarm where it can be most quickly observed by officers or crew in case of water flow from sprinklers, low air pressure, closed supply valves or operation of thermosensitive elements.

(d) The automatic sprinkler, alarm valves, and other fire-protection devices to be used in the above system shall be of a type approved by the Board of Supervising Inspectors, and the entire system shall be installed in accordance with drawings and specifications approved by the Director.

(e) All tanks installed on or after January 1, 1939, for use in connection with sprinkler systems shall be constructed, tested, and inspected as unfired pressure vessels in accordance with the provisions of Parts 50 to 57, inclusive, of this chapter. All such tanks which were installed prior to January 1, 1939, shall be tested and inspected as unfired pressure vessels in accordance with the provisions of Parts 50 to 57, inclusive, of this chapter. (R.S. 4405, 4471, as amended, 54 Stat. 1028; 46 U.S.C. 375, 464, 463a)

Section 114.22 is amended to read as follows:

§ 114.22 *Fire extinguishers for emergency power plants.* In compartments where emergency lighting and wireless units are located, two approved fire extinguishers of either carbon tetrachloride, carbon dioxide, or foam type shall be permanently located at the most accessible point. In addition, two fire extinguishers of the above types shall be permanently located so as to be readily accessible to the emergency fuel tanks containing gasoline, benzine, or naphtha. (R.S. 4405, 4479, as amended, 54 Stat. 1028; 46 U.S.C. 375, 472, 463a)

Section 114.23 (*Fuel oil tanks*) is deleted, and § 114.24 (*Construction of motion picture booths*) is renumbered to be § 114.23, and § 114.25 (*Regulations to guard against and extinguish fire re-established*) is renumbered to be § 114.24. (R.S. 4405, 4418, 4426, as amended, 54 Stat. 1028; 46 U.S.C. 375, 392, 404, 463a)

PART 115—LICENSED OFFICERS

The first undesignated paragraph of § 115.16 is amended to read as follows:

[1] See also § 1.38 of Subchapter A—Documentation, Entrance, and Clearance of Vessels, etc.

§ 115.16 *Reports of accidents.* The licensed officer in command of any vessel shall report in writing and in person to the board of local inspectors nearest the port of first arrival any accident to said vessel involving loss of life or damage to property to an approximate amount exceeding $500 and shall also report in the same manner any casualty or loss of life from whatever cause of any person on board such vessel and any stranding or grounding, whether or not any damage has been sustained by the vessel: *Provided*, That when from distance it may be inconvenient to report in person it may be done in writing only, and the report sworn to before any person authorized to administer oaths: *Provided further*, That during the period when a state of war exists between the United States and any foreign nation, communications in regard to casualties shall be handled with caution, and the above-mentioned reports shall not be made by radio or by telegram. • • • (R.S. 4405, 4438, as amended; 46 U.S.C. 375, 224)

PART 116—INSPECTION OF VESSELS

Section 116.9 is amended to read as follows:

§ 116.9 *Emergency lighting system.* (a) All vessels engaged in the passenger service, which are electrically lighted by dynamos or other electric units, located below the deep-load line of the vessel, shall have on board an emergency electric lighting system located above the deep-load line to light the vessel sufficiently to enable the passengers and crew to find their way to the exits in the event of failure of the main lighting system. The emergency lighting system shall at all times be ready for immediate use, and shall be installed and arranged so that all emergency lights may be switched on from the pilot house, navigation bridge, or a central station.

(b) On all passenger vessels contracted for on and after July 1, 1935, or where existing emergency installations operated by internal combustion engines are replaced, the emergency generator shall be driven by a Diesel or semi-Diesel engine, equipped with means for quick starting. Such emergency equipment shall be located in steel or iron compartments or rooms on the deck above the weather deck and isolated from the passenger and crew quarters. Where existing installations of emergency engines and generators are located in wooden compartments or rooms, such compartments or rooms shall be made fire-resistant by lining same with asbestos board having a thickness of not less than one-quarter inch over which iron or steel sheathing shall be fitted. (R.S. 4405, 4417, 4426, 4484, 4488, 54 Stat. 1028; 46 U.S.C. 375, 391, 404, 477, 481, 463a)

Section 116.10 (c) (4) is amended to read as follows:

§ 116.10 *Specifications covering types of voice tubes and telephones.*

• • • • •

(c) *Telephone systems.* • • •

(4) Telephones installed at external locations exposed to the weather or in locations subject to severe moisture conditions shall be housed in a substantial, watertight metal enclosure. The cover shall be hinged at the bottom or side of the box, and when closed, shall be fastened by a simple substantial mechanism which, when operated, exerts sufficient pressure to make the enclosure watertight. The gasket shall be fastened to, and inserted in, the edge of the box or cover. The magneto generator and switches shall be of watertight construction. The generator and all switches shall be installed inside of the enclosure. (R.S. 4405, 4417, 4426, as amended, 54 Stat. 1028; 46 U.S.C. 375, 391, 404, 463a)

Section 116.10 is amended by the addition of a new paragraph (f) reading as follows:

(f) All electrical engine order telegraph systems shall be provided with an alarm, located on the bridge, to indicate visually and audibly the failure of power to the system. (R.S. 4405, 4417, 4418, 4426, as amended; 46 U.S.C. 375, 391, 392, 404)

Adoption of Actions of Executive Committees

The rules, regulations, and other actions prescribed by the Executive Committees of the Board of Supervising Inspectors during the sessions of said Committees held on April 3 to 5, 1941, inclusive; May 19 to June 6, 1941, inclusive; July 14 to August 1, 1941, inclusive; October 16 and 17, 1941, inclusive; November 7 and 8, 1941, inclusive; and December 4 to 6, 1941, inclusive; published in the FEDERAL REGISTER issues of April 10, 1941; June 10, 1941; August 20 and 21, 1941; October 25, 1941; November 19, 1941; and December 10 and 24, 1941, respectively, are adopted. (R.S. 4405, as amended; 46 U.S.C. 375)

BOARD OF SUPERVISING INSPECTORS,
[SEAL] R. S. FIELD,
Director, Chairman.
CHARLES M. LYONS,
U. S. Supervising Inspector, 1st District, Boston, Mass.
GEORGE FRIED,
U. S. Supervising Inspector, 2d District, New York, N. Y.
EUGENE CARLSON,
U. S. Supervising Inspector, 3d District, Norfolk, Va.
JOHN F. OETTL,
U. S. Supervising Inspector, 4th District, New Orleans, La.
ROBERT E. COOMBS,
U. S. Supervising Inspector, 5th District, Cincinnati, Ohio.
EARL B. HULL,
U. S. Supervising Inspector, 6th District, Cleveland, Ohio.
WILLIAM FISHER,
U. S. Supervising Inspector, 7th District, San Francisco, Calif.

Approved:
WAYNE C. TAYLOR,
Acting Secretary of Commerce.

TITLE 50—WILDLIFE

CHAPTER I—FISH AND WILDLIFE SERVICE

PART 91—ALASKA GAME REGULATIONS

REGULATIONS RESPECTING GAME ANIMALS, LAND FUR-BEARING ANIMALS, GAME BIRDS, NONGAME BIRDS, AND NESTS AND EGGS OF BIRDS IN ALASKA

Pursuant to the authority and direction contained in section 10 of the Alaska Game Law of January 13, 1925 (43 Stat. 739), as amended by acts of February 14, 1931, 46 Stat. 1111; June 25, 1938, 52 Stat. 1169, and October 10, 1940, 54 Stat. 1103 (48 U.S.C. 198); I, Harold L. Ickes, Secretary of the Interior, upon consultation with and recommendation from the Alaska Game Commission, and having determined when, to what extent, and by what means game animals, land fur-bearing animals, game birds, nongame birds, and nests and eggs of birds may be taken, possessed, transported, bought, or sold in Alaska, in accordance with such determinations do hereby amend regulations 7, 8, 13, and 18, and regulation 6, schedule b of the regulations respecting game animals, land fur-bearing animals, game birds, nongame birds, and nests and eggs of birds in Alaska (Circular AGC–19; 6 F.R. 2913; 50 CFR 91) to the extent herein set out, and hereby adopt, effective July 1, 1942, said amended regulations as suitable regulations permitting and governing the taking of game animals, land fur-bearing animals, game birds, nongame birds, and nests and eggs of birds in Alaska:

Section 91.7 [Regulation 7] is amended to read as follows:

§ 91.7 *Taking game animals and methods of taking.* Game animals may be taken on areas not closed by §§ 91.5 and 91.6, during the respective open seasons and in the numbers not exceeding the respective season limits prescribed in § 91.8, with a shotgun (not larger than No. 10 gage, nor capable of holding more than three shells), rifle, or pistol, but not with the aid or use of a dog, machine or submachine gun, set gun of any description, bow and arrow, or spear, pit, deadfall, fire, jack light, searchlight, or other artificial light, or from or by means of a motor vehicle, airplane, steam or power launch, or any boat other than one propelled by paddle, oars, or pole, or while such animals are swimming; and when legally taken such animals, or parts thereof, may be possessed, transported, or sold as permitted by §§ 91.9 and 91.11.

Section 91.8 [Regulation 8], paragraphs (a), (b), (c), (d), (e), and (f) are amended to read as follows:

§ 91.8 *Open seasons and limits on certain game animals*—(a) *Deer bucks (with horns not less than 3 inches in length above the top of the skull).* East of longitude 138° in southeastern Alaska, September 16 to November 15.

West of longitude 138° in the drainage to Prince William Sound north of the center of the C. R. & N. W. Railway and west of Mountain Slough, including the islands of said sound, except Hawkins and Knight Islands, September 20 to September 30.

Limit: East of longitude 138°, 2 a season.

In area west of longitude 138°, 1 a season.

(b) *Moose, bulls (except yearlings and calves).* North of Alaska Range, September 1 to October 31.

South of Alaska Range, November 16 to January 15.

Limit: 1 a season.

(c) *Caribou.* September 1 to October 31.

Limit: By resident, 2 a season; by nonresident 1 a season.

(d) *Mountain sheep.* No open season.

(e) *Mountain goat (except kids).* First Judicial Division, except the watershed of Tracy Arm, September 16 to November 15.

In the rest of the Territory, September 1 to October 31.

Limit: 2 a season.

(f) *Bear (large brown and grizzly).* September 1 to June 20.

Limit: 2 a season, except on Admiralty Island 1.

* * * * * *

Section 91.13 [Regulation 13] is amended as follows:

§ 91.13 *Fur districts and open seasons and limits on land fur-bearing animals.* * * *

Fur district 1, open season designations under the subhead "Open seasons," are amended to read:

Mink, marten, land otter, weasel (ermine), fox (red, cross, and silver), and lynx. December 10 to January 10.

Muskrat. No open season.

Beaver. No open season.

Wolf, coyote, wolverine, marmot, and squirrel. No close season; may be taken by any person at any time in a legal manner.

Fur district 2, open season designations under the subhead "Open seasons," are amended to read:

Mink, marten, land otter, weasel (ermine), fox (red, cross, and silver), and lynx. December 1 to the last day of February.

Muskrat. April 1 to May 31.

Beaver. February 16 to April 15, except there shall be no open season on Kenai Peninsula.

Limit: 10 a season.

Wolf, coyote, wolverine, marmot, and squirrel. No close season; may be taken by any person at any time in a legal manner.

Fur district 4, open season designations under the subhead "Open seasons," are amended to read:

Mink, marten, land otter, weasel (ermine), fox (red, cross, silver, white, and blue), and lynx. November 16 to February 15.

Muskrat. March 10 to May 10.

Beaver. February 16 to April 15; except there shall be no open season in the Naknek River drainage and southwest thereof.

Limit: 10 a season.

Wolf, coyote, wolverine, marmot, and squirrel. No close season; may be taken by any person at any time in a legal manner.

Fur district 5, open season designations under the subhead "Open seasons," are amended to read:

Mink, marten, land otter, weasel (ermine), fox (red, cross, silver, white, and blue), and lynx. November 16 to the last day of February.

Muskrat. North of the Unalakleet River drainage, April 1 to June 7; south of the Unalakleet River, including its drainage, April 1 to May 31.

Beaver. March 1 to April 15. Limit: 10 a season.

Wolf, coyote, wolverine, polar bear, marmot, and squirrel. No close season; may be taken by any person at any time in a legal manner.

Fur district 6, open season designations under the subhead "Open seasons," are amended to read:

Mink, marten, land otter, weasel (ermine), fox (red, cross, silver, white, and blue), and lynx. November 16 to the last day of February.

Muskrat. March 1 to May 31.

Beaver. March 1 to April 15; except there shall be no open season in the Copper River drainage, or in that part of the Tanana River drainage east of the Richardson Highway from Richardson Monument (Mile 202 from Valdez) to Big Delta (Mile 280 from Valdez) and south and east of the Goodpaster River drainage.

Limit: 10 a season.

Wolf, coyote, wolverine, marmot, and squirrel. No close season; may be taken by any person at any time in a legal manner.

Fur district 7, open season designations under the subhead "Open seasons," are amended to read:

Mink, marten, land otter, weasel (ermine), fox (red, cross, silver, white, and blue), and lynx. November 6 to the last day of February.

Muskrat. March 1 to May 31.

Beaver. March 1 to April 15. Limit: 10 a season.

Wolf, coyote, wolverine, marmot, and squirrel. No close season; may be taken by any person at any time in a legal manner.

Fur district 8, open season designations under the subhead "Open seasons," are amended to read:

Mink, marten, land otter, weasel (ermine), fox (red, cross, silver, white, and blue), and lynx. December 1 to March 31.

Muskrat. April 10 to June 10.

Beaver. No open season.

Wolf, coyote, wolverine, polar bear, marmot, and squirrel. No close season; may be taken by any person at any time in a legal manner.

Section 91.18 [Regulation 18], the second sentence of paragraph b, is amended to read as follows:

§ 91.18 *Sealing, possession, and sale of beaver and marten skins.*

* * * * * *

(b) * * * Persons residing in remote localities and finding it impracticable to present skins to an officer authorized to seal them may present such skins, together with an affidavit of lawful taking on a form furnished by the Commission to any person authorized by the Commission to attach thereto a tag permitting skins, if legally taken, to be sold and transported within the Territory, subject to examination and authentication by a representative of the Commission. * * *

Section 91.38 [Regulation 6, Schedule B], *Areas in which there are continuous close seasons on specified game animals, land fur-bearing animals, and game birds, except for scientific or propagating purposes* is amended by striking out the period at the end of paragraph (h) and adding the words "and in the watershed of Tracy Arm."; and by inserting a new paragraph at the end of the section as follows:

(n) *Muskrat.* On the Kodiak-Afognak Islands group.

In testimony whereof, I have hereunto set my hand and caused the official seal of the United States Department of the Interior to be affixed in the city of Washington, this 4th day of March 1942.

[SEAL] HAROLD L. ICKES,
Secretary of the Interior.

[F. R. Doc: 42–2182; Filed, March 13, 1942; 10:14 a. m.]

SUBCHAPTER K—ALASKA WILDLIFE PROTECTION

PART 92—REGULATIONS OF THE ALASKA GAME COMMISSION RELATING TO GUIDES, POISONS, AND LICENSES

By virtue of the authority conferred upon the Alaska Game Commission by the act of January 13, 1925, entitled "An Act to establish an Alaska Game Commission to protect game animals, land fur-bearing animals, and birds in Alaska, and for other purposes," (43 Stat. 739, as amended February 14, 1931, 46 Stat. 1111; U. S. Code, title 48, secs. 192–211, and June 25, 1938, 52 Stat. 1169 (48 U. S. Code 192–211), the following regulations for the protection of game animals, land fur-bearing animals, and birds in Alaska are made and published, to take effect July 1, 1942:

§ 92.1 *Employment of guides by nonresidents and aliens.* Nonresidents of the Territory or aliens taking game animals for any purpose, or polar bears for sport or trophies, or going afield to photograph large brown or grizzly bears, except nonresident Federal officials engaged in wildlife investigations in Alaska exempted by special permit of the Commission, are required to employ and be accompanied by a guide registered with and licensed by the Commission; but no such guide shall accompany in the field more than one nonresident or alien, except husband and wife and minor child all of whom are in possession of the required hunting licenses. In cases of actual emergency when a bear is attacking or is about to escape after being wounded, it shall be the duty of the guide to take such action as he deems necessary.*

*§§ 92.1 to 91.4, inclusive, issued under the authority contained in 42 Stat. 739, 46 Stat. 1111, 52 Stat. 1169; 48 U.S.C. 192–211.

§ 92.2 *Qualifications for guide licenses and issuance thereof.* Only resident citizens who have resided in the Territory for the 5 years immediately preceding application for registration and a guide license will be registered and licensed to act as guides for nonresidents and aliens taking game animals for any purpose, or polar bears for sport or trophies, or going afield to photograph large brown or grizzly bears.

The Alaska Game Commission will establish guide districts and maintain a register of such persons as are duly qualified and licensed to act as guides in such districts.

Applications for such registration and guide license shall be made on a form issued by the Commission and shall state applicant's citizenship and resident status, age, physical characteristics, permanent address, and district or districts in which he desires to operate, together with full information relative to his qualifications to act as guide, and shall be subscribed and sworn to by the applicant before an officer authorized to administer oaths.

Upon receipt of such application the Commission, through one of its members or such person as it shall designate, will arrange to determine, by such written and oral examinations and otherwise as it shall require, the qualifications of such applicant to act as a guide and his knowledge of the Alaska Game Law and regulations.

The member of the Commission or other person authorized to conduct such examination shall promptly file his report thereof with the Commission, together with his recommendation thereon, which report and recommendation shall be attached to the application and considered and determined at a regular or special meeting of the Commission.

If the Commission determines that the applicant does not possess sufficient field experience to qualify him to act as a principal guide but has all other qualifications, an assistant guide license may be issued to him, which shall authorize him to act as assistant to a principal guide.

In cases of emergency the Executive Officer of the Commission may, after investigation and satisfying himself of an applicant's qualifications, issue a special guide license to him upon payment of the required fee, authorizing him to guide the nonresident or alien hunter named in the application for such special license.

Extension or renewal of guiding privileges authorized by any guide license shall be made, in the discretion of the Commisison, only upon examination and approval as hereinbefore provided.

A registered guide license must bear the signature of the Executive Officer of the Commission. Each license shall expire on June 30 next succeeding its issuance, shall be revocable at the discretion of the Commission, and shall not be transferable.

Each licensed guide shall submit to the Commission, immediately upon completion of a hunting or photographing trip, a report containing the name and address of the nonresident or alien for whom he acted as guide, period covered by his services, number and species of animals taken, wounded and not secured, numbers and localities of each species of big game animal observed on the trip and such other information as the Commission may require.*

§ 92.3 *Designation and use of poison.* Pursuant to section 9 of the Alaska Game Law, the following substances are by the Commission designated poisons: Strychnine, arsenic, phosphorus, antimony, barium, the cyanides, corrosive sublimate, or any derivative or derivatives, compound or compounds thereof, which, by said section 9, are forbidden.

(a) To be used at any time to kill any game or wild fur-bearing animal or bird.

(b) To be put out where any game or wild fur-bearing animal or bird may come in contact with it.

(c) To be sold or given to any hunter or trapper, or

(d) To be possessed by any hunter or trapper.

Any person selling or otherwise disposing of any of the aforesaid poisons is required by said section 9 of the Alaska Game Law to keep a record in a special book showing the name and address of each person purchasing or otherwise procuring said poison, and the kind and amount thereof, such record to be, at all times, open to inspection by any wildlife agent or other officer authorized to enforce the Alaska Game Law and information thereof to be transmitted monthly to the Alaska Game Commission.*

§ 92.4 *Resident trapping and hunting licenses.* No resident of the Territory over 16 years of age, except a native-born Indian or Eskimo, shall take game animals, land fur-bearing animals, or birds in the Territory without first having obtained a resident hunting license for game animals or birds or a trapping license for land fur-bearing animals, but a person who is the holder of such trapping license shall be entitled to the privilege of hunting game animals or birds during the respective open seasons without a hunting license.

On and after July 1, 1942, all former regulations of the Alaska Game Commission relative to guides, poisons, and resident hunting and trapping licenses shall be and are hereby revoked.*

In testimony whereof, we have hereunto set our hands and caused the offi-

cial seal of the Commission to be affixed in the City of Washington, District of Columbia, this 23d day of January 1942.

[SEAL] EARL N. OHMER,
Commissioner First Judicial Division and Chairman.
FRANK P. WILLIAMS,
Commissioner Second Judicial Division.
ANDREW A. SIMONS,
Commissioner Third Judicial Division.
JOHN HAJDUKOVICH,
Commissioner Fourth Judicial Division.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. A-1325]

PETITION OF BITUMINOUS COAL CONSUMERS' COUNSEL FOR THE ESTABLISHMENT OF THE SAME PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS PRODUCED AT MINES IN SUBDISTRICT 4 OF DISTRICT NO. 13 FOR SHIPMENTS BY RIVER AS ARE APPLICABLE TO SUCH COALS FOR TRUCK SHIPMENTS, PURSUANT TO SECTION 4 II (d) OF THE BITUMINOUS COAL ACT OF 1937

ORDER POSTPONING HEARING

Intervenor, District Board 8, having moved that the hearing in the above-entitled matter, scheduled for March 16, 1942, at 10 o'clock in the forenoon of that day, be postponed until 10 o'clock in the forenoon of March 19, 1942; and

It appearing that good cause therefor has been shown;

Now, therefore, it is ordered, That the hearing in the above-entitled matter be and it hereby is postponed from March 16, 1942 until 10 o'clock in the forenoon of March 19, 1942, at the place and before the officers heretofore designated.

Dated: March 12, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[Docket No. B-48]

IN THE MATTER OF SUN COAL COMPANY, CODE MEMBER, DEFENDANT

ORDER AMENDING NOTICE OF AND ORDER FOR HEARING AND RESCHEDULING HEARING AND REDESIGNATING EXAMINER

A complaint dated September 9, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, having been duly filed on September 24, 1941, by the Bituminous Coal Producers Board for District No. 8, a district board, complainant, and Notice of and Order for Hearing in respect to the subject matter of such complaint having been issued herein on December 6, 1941, and subsequently said complaint having been amended by Order, dated February 28, 1942, granting complainant's motion to amend dated February 2, 1942; and

The above-entitled matter having been scheduled for hearing on January 26, 1942, at 10:00 a. m. at a hearing room of the Bituminous Coal Division at the United States Post Office, Room 214, Knoxville, Tennessee, before Travis Williams or any other officer or officers of the Bituminous Coal Division duly designated for that purpose, pursuant to Order dated December 6, 1941, and subsequently postponed pursuant to Order dated January 21, 1942, to a date and place to be thereafter designated by appropriate order; and

The Acting Director deeming it advisable that said Notice of and Order for Hearing should be amended and the place and date of such hearing should now be designated;

Now, therefore, it is ordered, That a hearing in the above-entitled matter be held on April 27, 1942, at a hearing room of the Bituminous Coal Division at 10 a. m., at the Federal Court Room, Knoxville, Tennessee.

It is further ordered, That Charles S. Mitchell be and he is hereby designated to preside at such hearing vice Travis Williams.

It is further ordered, That the Notice of and Order for Hearing dated December 6, 1941 in the above-entitled matter, as corrected by Order dated January 14, 1942, be and the same is hereby amended by adding after the last paragraph thereof the following paragraph:

That the defendant sold during the period March 18, 1941 to March 31, 1941, both dates inclusive, approximately 593.05 tons of 6" block coal produced at the aforesaid mine to numerous purchasers located in various market areas, at a price of $3.25 per net ton whereas the effective minimum price was $3.35 per net ton f. o. b. the mine, respectively, as stated in the Schedule of Effective Minimum Prices for District No. 8 for All Shipments Except Truck. The defendant also sold in the manner described herein, approximately 972.75 net tons of 2½" x 6" egg coal produced at the aforesaid mine at prices varying from $2.65 to $2.86 per net ton f. o. b. the mine whereas the effective minimum prices for such coal were $2.75 to $2.96 per net ton f. o. b. the mine, respectively, as more fully set out in the Schedule of Effective Minimum Prices for District No. 8 for All Shipments Except Truck.

It is further ordered, That the Notice of and Order for Hearing dated December 6, 1941, as corrected by Order dated January 14, 1942, in the above-entitled matter shall, in all other respects, remain in full force and effect.

Dated: March 11, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2165; Filed, March 13, 1942; 10:06 a. m.]

[Docket No. A-1312]

PETITION OF DISTRICT BOARD NO. 4 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF MINE INDEX NOS. 335, 336, 337, AND 338, AND THE REVISION OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF MINE INDEX NOS. 160, 206, AND 207, ALL OF THE MUSKINGUM COAL COMPANY, A CODE MEMBER IN DISTRICT NO. 4

NOTICE OF AND ORDER FOR HEARING AND ORDER GRANTING TEMPORARY RELIEF

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on April 8, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That W. A. Shipman or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before April 3, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 4 for—

(1) the establishment of price classifications and minimum prices for the coals of Mine Index Nos. 335, 336, 337, and 338 of The Muskingum Coal Company for all shipments except truck;

(2) the revision of the price classifications and minimum prices effective for the coals of Mine Index Nos. 160, 206, and 207 of The Muskingum Coal Company, by increasing the minimum prices therefor 43¢ per net ton for rail shipment to Philo (Duncan Falls), Ohio.

Attention is called to the fact that the Baltimore & Ohio Railroad Company has by its tariff Ohio No. WL-3813, effective February 9, 1942, reduced the freight rate on coal from 60¢ per net ton to 17¢ per net ton on rail shipments from certain points of origin, including the rail shipping points for Mine Index Nos. 160, 206, 207, 335, 336, 337, and 338, to Philo (Duncan Falls), Ohio.

In addition to the above, the matter concerned herewith shall be concerned with—

(3) the revision of the minimum prices effective for rail shipments to Philo (Duncan Falls), Ohio, of all coals in District No. 4 affected by the reduction in freight rates set out above.

It is ordered, That pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, the Schedules of Effective Minimum Prices for District No. 4, For All Shipments Except Truck, are supplemented to include the price classifications and minimum prices set forth in Supplement R, annexed hereto and hereby made a part hereof.

Notice is hereby given that applications to stay, terminate or modify the temporary relief herein granted may be filed pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: March 12, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2166; Filed, March 13, 1942; 10:06 a. m.]

[Docket No. B-226]

IN THE MATTER OF PACIFIC COAL COMPANY, CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

1. Under the provisions of the Bituminous Coal Act of 1937 (the "Act"), district boards are authorized in appropriate cases to file complaints of violations of the Act, the Bituminous Coal Code (the "Code") and the rules and regulations of the Bituminous Coal Division (the "Division").

2. The Division on January 19, 1942, referred to District Board No. 9 information in its possession bearing on whether or not violations of the Act, the Code and Rules and Regulations thereunder have been committed by the Pacific Coal Company, the Code member named above (hereinafter referred to as the "Code member") who operates the Pacific Mine, Mine Index No. 64, Muhlenberg County, Kentucky, District No. 9, in connection with:

A. (1) offering on or about October 23, 1940, to sell to the Enterprise Fuel Company, Centerville, Iowa, various sizes of coal produced at the aforesaid mine at prices ranging from 12 cents to 22 cents below the prices established therefor in the Schedule of Effective Minimum Prices for District No. 9 For All Shipments Except Truck, whereas the Enterprise Fuel Company, Centerville, Iowa, was not a registered distributor, (2) selling approximately 3,673 tons of various sizes of coal produced at the aforesaid mine from October 1, 1940, through April 10, 1941, to various purchasers f. o. b. the mine at prices which were below the effective minimum prices therefor as set forth in said Schedule, and (3) selling on or about April 12, 1941, approximately 217 tons of 6" x 3" lump coal produced at the aforesaid mine to the Baltimore & Ohio Railroad for railroad fuel at the mine run price of $1.65 per net ton f. o. b. the mine, whereas the effective minimum price for such coal was $1.80 per ton f. o. b. the mine as set forth in said Schedule, resulting in violations of section 4 II (e) of the Act and Part II (e) of the Code;

B. (1) selling approximately 19,229 tons of various sizes of coal produced at the aforesaid mine to the Illinois Central Railroad for railroad fuel during the period October 1, 1940, to April 12, 1941, and by making substitutions of larger sizes on spot orders and/or contracts for said railroad fuel without prior approval of the Director or his duly designated representative and without filing the form prescribed by the Division with the Statistical Bureau, and (2) selling approximately 7,565 tons of various sizes of coal produced at the aforesaid mine to the Wabash Railroad for railroad fuel during the period October 1, 1940, to April 8, 1941, and making substitutions of larger sizes on spot orders and/or contracts for said railroad fuel without prior approval of the Director or his duly designated representative and without filing the form prescribed by the Division with the Statistical Bureau, resulting in violations of section 4 II (e) of the Act and Part II (e) of the Code and Rule 1 (f) of Section XI of the Marketing Rules and Regulations;

C. submitting a bid to the United States War Department, U. S. Engineers Office, Nashville, Tennessee, on or about February 20, 1941, for the furnishing of six cars of 3" x 1¼" coal produced at the aforesaid mine, together with an analysis allegedly representative of that coal, which was a copy of an analysis of nine cars of 6" x 2" egg coal, made by the United States Bureau of Mines on April 22, 1939, (a copy of the analysis which accompanied the bid was not filed with the Statistical Bureau and the District Board for the District in which the coal was produced), resulting in a violation of section 4 II (i) 8 of the Act and Part II (i) 8 of the Code and Rules 1 and 2 of Section VIII and Rule 8 of Section XIII of the Marketing Rules and Regulations;

D. falsely reporting on the invoices the sizes of approximately 23,303 tons of coal produced at the aforesaid mine, which was sold to various purchasers during the period October 1, 1940, to April 10, 1941, both dates inclusive, and failing to invoice the coal so sold under the size, price classification and other designation therefor in the applicable minimum price schedule published by the Division, resulting in violations of section 4 II (i) 8 of the Act and Part II (i) 8 of the Code and Rule 2 of Section XII and Rule 8 of Section XIII of the Marketing Rules and Regulations;

E. prepaying the transportation charges on approximately 912 tons of various sizes of coal produced at the aforesaid mine, which was sold to the Pacific Coal Company, Nashville, Tennessee, a retail dealer, during the period December 7, 1940, to June 14, 1941, with the intent to or having the effect of granting a discriminatory credit allowance, resulting in violations of sections 4 II (i) 3 and 6 of the Act, Parts II (i) 3 and 6 of the Code, and Rule 1 (J) of Sections VII and Rules 3 and 6 of Section XIII of the Marketing Rules and Regulations;

F. prepaying the transportation charges on approximately 1,942 tons of various sizes of coal produced at the aforesaid mine, which was sold to the Pacific Coal Company, Nashville, Tennessee, a retail dealer, during the period December 6, 1940, through April 2, 1941, with the intent to or having the effect of granting a discriminatory credit allowance and not charging the amounts thereof to the Pacific Coal Company, thereby reducing the price paid for such coal below the effective minimum prices as set forth in the aforementioned Schedule, resulting in violations of sections 4 II (e) and 4 II (i) 3 and 6 of the Act, Parts II (e) and II (i) 3 and 6 of the Code, and Rule 1 (J) of Section VII and Rules 3 and 6 of Section XIII of the Marketing Rules and Regulations; and

G. (1) paying on or about June 18, 1941, a premium on a life insurance policy for Lola M. Colver, allegedly owner of the Pacific Coal Company, Nashville, Tennessee, a retail dealer, thereby extending to this purchaser of coal from said code member, a privilege not extended to all purchasers under like terms and conditions, or under similar circumstances, and (2) paying during the period September 1, 1940, through April 10, 1941, stenographer's salaries, salesmen's salaries and expenses, advertising expenses, stationery, postage, commissions, telephone and telegraph expenses for the Pacific Coal Company, Louisville, Kentucky, a retail dealer, thereby extending to this purchaser of coal from said Code member a privilege not extended to all purchasers under like terms and conditions, or under similar circum-

stances, resulting in violations of section 4 II (i) 6 of the Act and Part II (i). 6 of the Code and Rule 6 of Section XIII of the Marketing Rules and Regulations.

3. District Board No. 9 has notified the Division that it does not intend to institute compliance proceedings against the Code member in this matter upon the basis of the information submitted to it by the Division.

4. Section 6 (a) of the Act provides in part that in the event that a District Board shall fail for any reason to take action authorized or required by this Act, then the Division may take such action in lieu of the District Board.

5. District Board No. 9 having failed to take action as authorized or required by the Act on the matters hereinbefore described, the Division finds it necessary in the proper administration of the Act to take action thereon in lieu of the Board as in this Notice of and Order for Hearing provided, pursuant to section 6 (a) and other pertinent provisions of the Act for the purpose of determining:

(a) Whether or not the code member has wilfully violated sections 4 II (e), (i) 8 and (i) 3 and 6 of the Act and Parts II (e), (i) 8 and (i) 3 and 6 of the Code; Rule 1 (j), Section VII; Rules 1 and 2, Section VIII; Rule 1 (f), Section XI; Rule 2, Section XII; Rule 8, Section XIII, Rules 3 and 6, Section XIII of the Marketing Rules and Regulations; and

(b) Whether or not in the event that the Code member is found to have also violated the Act, the Code and Rules and Regulations thereunder, an Order should be entered revoking the code membership of the Pacific Coal Company or directing the Pacific Coal Company to cease and desist from violating the Act, the Code and the Rules and Regulations thereunder.

Now, therefore, it is hereby ordered, That a hearing pursuant to sections 4 II (j), 5 (b), and 6 (a), and other pertinent provisions of the Act to determine whether or not the aforementioned Code member has committed the violations in the respects heretofore described and whether or not the Code membership of said Code member should be revoked or an order should be entered directing the Code member to cease and desist from violating the Act and the Code and rules and regulations of the Division thereunder be held on April 22, 1942, at 10 a. m. at a hearing room of the Division at the Circuit Court Room, Madisonville, Kentucky.

It is further ordered, That Charles S. Mitchell or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, compel their attendance, take evidence, require the production of any books, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time and to such places as he may direct by announcement at said hearing or any adjourned hearing, or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions, and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to section 4 II (j) and 5 (b) of the Act may file a petition for intervention not later than five (5) days before the date set for hearing herein.

Notice is hereby given that answer setting forth the position of the Code member with reference to the matters hereinbefore described must be filed with the Division at its Washington Office or with one of the Statistical Bureaus of the Division within twenty (20) days after date of service of a copy hereof on the Code member; and that any failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission by the Code member of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: March 11, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[Dockets No. 1657-FD]

IN THE MATTER OF J. S. TURLEY, DOING BUSINESS UNDER THE NAME AND STYLE OF INDUSTRIAL COAL SALES CO., REGISTERED DISTRIBUTOR, REGISTRATION NO. 4687

NOTICE OF AND ORDER FOR HEARING

The Bituminous Coal Division (the "Division") finds it necessary in the proper administration of the Bituminous Coal Act of 1937 (the "Act"), and the Bituminous Coal Code (the "Code") promulgated thereunder to determine

A. Whether or not J. S. Turley, doing business under the name and style of Industrial Coal Sales Co., Registered Distributor, Registration No. 4687 (hereinafter sometimes referred to as the "Registered Distributor"), whose address is 4237 Park Avenue, St. Louis, Missouri, has violated any provisions of the Act, the Code, and Orders and Regulations of the Division, including the Marketing Rules and Regulations, Rules and Regulations for the Registration of Distributors, and the Distributor's Agreement (the "Agreement") dated October 19, 1940, executed and filed by J. S. Turley, pursuant to Order of the Division dated June 19, 1940, in General Docket No. 12, and more particularly whether or not said registered distributor:

1. During the period from November 12, 1940, to August 20, 1941, both dates inclusive, accepted discounts from the effective minimum prices on approximately 2,976 net tons (61 cars) of coal purchased by him from Old Ben Coal Corporation, a code member in District No. 10, which was produced at the Old Ben No. 8 Mine (Mine Index No. 118) and the Old Ben No. 15 Mine (Mine Index No. 121), of said code member, and resold said coal to Anchor Coal Co., a retailer, which financially or otherwise controlled said distributor, resulting in violations of § 304.19 (c) of the Rules and Regulations for the Registration of Distributors, and paragraph (h) of the Agreement.

2. Accepted and retained the discounts in the transactions referred to in Paragraph A 1 hereof when said Registered Distributor was in fact or in effect an agency or instrumentality of the Anchor Coal Co., a retailer, resulting in violations of section 4 II (i) 12 of the Act, Rule 12 of Section XIII of the Marketing Rules and Regulations and paragraph (c) of the Agreement;

3. Accepted and retained the distributor's discounts on the coal referred to in Paragraph A 1 hereof, although said coal was not purchased for bona fide resale resulting in violations of paragraph (d) of the Agreement.

4. Accepted and retained the discounts in the transactions referred to in Paragraph A 1 hereof, although no service of value was rendered to the code member vendor in connection with such sales, and although said transactions were entered into primarily for the purpose of unjustly enriching the Registered Distributor, and when except for the incidence of section 4 II (h) of the Act, said Anchor Coal Co. would have purchased the coal direct from a code member, resulting in violations of paragraph (g) of the Agreement;

5. Failed to set forth in his application for registration dated October 19, 1940, as corrected October 30, 1940, his affiliation with the Anchor Coal Co., as required by § 304.11 (6) of the Rules and Regulations for the Registration of Distributors resulting in a violation of paragraph (f) of the Agreement.

B. Whether or not the registration of said J. S. Turley, doing business under the name and style of Industrial Coal Sales Co., should be revoked or suspended or other appropriate penalties imposed.

It is therefore ordered, That a hearing pursuant to § 304.14 of the Rules and Regulations for the Registration of Distributors, to determine whether or not the aforementioned J. S. Turley has committed violations in the respects heretofore described and whether or not the registration of said distributor should be revoked or suspended, or other appropriate penalties imposed, be held on April 15, 1942, at 10 a. m., at a hearing room of the Division at the Coronado Hotel, St. Louis, Missouri.

It is further ordered, That Edward J. Hayes or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said J. S. Turley and to all persons and entities having an interest in such proceeding.

Notice is hereby given that answer setting forth the position of the aforementioned J. S. Turley, with reference to the matters hereinbefore described, must be filed with the Bituminous Coal Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service hereof on J. S. Turley, and that failure to file an answer herein within such period, unless the presiding officer shall otherwise order, shall be deemed to be an admission by J. S. Turley of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically referred to herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: March 11, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2168; Filed, March 13, 1942; 10:07 a. m.]

[Docket No. B-165]

IN THE MATTER OF EARL HENRY AND D. HENRY, INDIVIDUALLY AND AS COPARTNERS, DOING BUSINESS UNDER THE NAME AND STYLE OF HENRY COAL COMPANY [EARL HENRY AND D. HENRY (HENRY COAL COMPANY)], CODE MEMBER, DEFENDANTS

ORDER POSTPONING HEARING

The above entitled matter having been heretofore set for hearing on March 16, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the United States Post Office, Federal Building, Huntington, West Virginia; and

It appearing to the Acting Director that said hearing should be postponed;

Now, therefore, it is ordered, That the hearing in the above entitled matter be, and the same hereby is, postponed from 10 a. m. on March 18, 1942 to 10 a. m. on April 4, 1942, at a hearing room of the Bituminous Coal Division at the U. S. Post Office, Huntington, West Virginia.

Dated: March 11, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[Docket No. B-225]

IN THE MATTER OF C. C. WILSON, CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

1. Under the provisions of the Bituminous Coal Act of 1937 (the "Act"), district boards are authorized in appropriate cases to file complaints of violations of the Act, the Bituminous Coal Code (the "Code") and the rules and regulations of the Bituminous Coal Division (the "Division").

2. The Division on December 31, 1941, referred to District Board No. 9, information in its possession bearing on whether or not violations of the Act, the Code, and Rules and Regulations thereunder have been committed by C. C. Wilson, the Code member above-named (hereinafter referred to as the "Code member"), who operates the Wilson Mine, Mine Index No. 802, located in Hopkins County, Kentucky, District No. 9, in connection with selling to the Hart Coal Company, a registered distributor, Registration No. 4042, Mortons Gap, Kentucky, for rail shipments, during the period from March 21, 1941, to May 15, 1941, both dates inclusive, approximately 56.95 tons of 1¼" slack coal and 1,183.93 tons of run of mine coal produced at said mine at 60 cents and $1.40 per net ton, respectively, although at the time of said transactions, no rail classifications or prices, temporary or final, had been established for the coal produced at the above-named mine resulting in a violation of the Order of the Director dated October 9, 1940, in General Docket No. 19.

3. District Board No. 9 has notified the Division that it does not intend to institute compliance proceedings against the Code member in this matter upon the basis of the information submitted to it by the Division.

4. Section 6 (a) of the Act provides in part, that in the event that a District Board shall fail for any reason to take action authorized or required by this Act then the Division may take such action in lieu of the District Board.

5. District Board No. 9 having failed to take action as authorized or required by the Act on the matters hereinbefore described, the Division finds it necessary in the proper administration of the Act to take action thereon in lieu of the Board as in this Notice of and Order for Hearing provided, pursuant to section 6 (a) and other pertinent provisions of the Act for the purpose of determining:

(a) Whether or not the code member has wilfully violated the Order of the Director dated October 9, 1940, in General Docket No. 19; and

(b) Whether or not in the event that the code member is found to have so violated the Act, the Code and rules and regulations thereunder, an Order should be entered revoking the Code membership of C. C. Wilson or directing C. C. Wilson to cease and desist from violating the Act, the Code, and the rules and regulations thereunder.

Now, therefore, it is hereby ordered, That a hearing pursuant to sections 4 II (j), 5 (b), and 6 (a), and other pertinent provisions of the Act to determine whether or not the aforementioned Code member has committed the violations in the respects heretofore described and whether or not the Code membership of said Code member should be revoked or an order should be entered directing the Code member to cease and desist from violating the Act and the Code and rules and regulations of the Division thereunder be held on April 21, 1942, at 10 a. m., at a hearing room of the Division at the Circuit Court Room, Madisonville, Kentucky.

It is further ordered, That Charles S. Mitchell or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, compel their attendance, take evidence, require the production of any books, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time and to such places as he may direct by announcement at said hearing or any adjourned hearing, or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions, and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to section 4 II (j) and 5 (b) of the Act may file a petition for intervention not later than five (5) days before the date set for hearing herein.

Notice is hereby given that answer setting forth the position of the Code member with reference to the matters hereinbefore described must be filed with the Division at its Washington Office or with one of the Statistical Bureaus of the Division within twenty (20) days after date of service of a copy hereof on the Code member; and that any failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission by the Code member of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: March 11, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[Docket No. B-214]

IN THE MATTER OF BECCARIA COAL MINING COMPANY, A PARTNERSHIP, ALSO KNOWN AS FRED DEZAIFFE, SR., AND FRED DEZAIFFE, JR., INDIVIDUALLY, AND AS CO-PARTNERS TRADING AND DOING BUSINESS AS BECCARIA COAL MINING COMPANY, CODE MEMBER, DEFENDANTS

NOTICE OF AND ORDER FOR HEARING

A complaint dated February 5, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, having been duly filed on February 10, 1942, by Bituminous Coal Producers' Board for District No. 1, a district board, complainant, with the Bituminous Coal Division alleging wilful violation by the defendants of the Bituminous Coal Code or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on April 15, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at Room 118, Fifth Floor of Colonial Hotel, Altoona, Pennsylvania.

It is further ordered, That D. C. McCurtain or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said defendants and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Bituminous Coal Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the defendants; and that any defendant failing to file an answer within such period, unless otherwise ordered, shall be deemed to have admitted the allegations of the complaint herein and to have consented to the entry of an appropriate order on the basis of the facts alleged.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging wilful violation by the above named defendants of the Bituminous Coal Code or rules and regulations thereunder as follows:

1. That said defendants, Fred DeZaiffe, Sr., whose address is Ginter, Pennsylvania, and Fred DeZaiffe, Jr., whose address is Houtzdale, Pennsylvania, wilfully violated Rule 13 of Section II of the Marketing Rules and Regulations by paying to Eastern Coal & Coke Company, Philadelphia, Pennsylvania, sales agent of Code Member, a commission of 26 cents per net ton for sale on its behalf of approximately 474.95 net tons of mine run coal, Size Group No. 3, produced by said defendants at their Leland #8 Mine, Mine Index No. 273, located in Clearfield County, Pennsylvania, in District No. 1, and shipped between the dates of January 3, 1941 and May 29, 1941, both dates inclusive, and by paying to said Eastern Coal & Coke Company a commission of 27 cents per net ton for sale on its behalf of approximately 55.30 net tons of mine run coal, Size Group No. 3, produced at their aforesaid mine, and shipped on or about May 14, 1941, which commissions were and are in excess of the maximum discount allowable to a registered distributor on such transactions as established by Order of the Director dated June 19, 1940, in General Docket No. 12, and which commissions were paid pursuant to a sales agency agreement entered into between Code Member and said Eastern Coal & Coke Company after August 8, 1940, to wit, October 28, 1940, and although, at the time of said transactions, Code Member had not filed an application for permission to pay commissions in excess of the maximum discounts allowable to a registered distributor, as required by Rule 13 of Section II of the Marketing Rules and Regulations.

2. That said defendants wilfully violated sections 4 II (e) and (h) of the Act, Part II (e) and (h) of the Code and Rule 1 of Section III of the Marketing Rules and Regulations by selling and delivering during the period from March 4, 1941 to March 27, 1941, both dates inclusive, to Debevoise-Anderson Company, Inc., registered distributor, Registration No. 2193, whose address is New York, New York, for resale in carload lot quantities, approximately 407.10 net tons of mine run coal, Size Group No. 3, produced at their aforesaid mine, and allowing to said distributor a discount of 17 cents per net ton from the effective minimum f. o. b. mine price on said coal; which discount was and is in excess of the maximum allowable discount of 12 cents per net ton from the effective minimum f. o. b. mine price, as established by Order of the Director, dated June 19, 1940, in General Docket No. 12.

3. That said defendants wilfully violated the Order of the Director dated October 9, 1940, entered in General Docket No. 19, by selling and delivering during the period from January 10 to March 28, 1941, both dates inclusive, to Debevoise-Anderson Company, Inc., registered distributor, Registration No. 2193, whose address is New York, New York, for resale in carload lot quantities, approximately 316.30 net tons of machine cuttings, produced at their aforesaid mine, when at the time of said transactions no temporary or final minimum price or classification for machine cuttings produced at their aforesaid mine had been established by the Division, and Code Member had not filed a petition pursuant to section 4 II (d) of the Act for the establishment of a price or classification for such coal; or

4. That said defendants wilfully violated section 4 II (e) of the Act, Part II (e) of the Code and Rule 1 of Section III of the Marketing Rules and Regulations by selling and delivering during the period from January 10 to March 28, 1941, both dates inclusive, to Debevoise-Anderson Company, Inc., registered distributor, Registration No. 2193, whose address is New York, New York, for resale in carload lot quantities to the Dobler Brewing Company of Albany, New York, approximately 316.30 net tons of nut and slack machine cuttings, produced at their aforesaid mine, at a price of $2.10 per net ton f. o. b. the mine, less 12 cents per net ton discount, whereas the only price established for coal produced at said mine was $2.35 per net ton f. o. b. the mine, for mine run coal, Size Group No. 3, as set forth in the Schedule of Effective Minimum Prices for District No. 1 For All Shipments Except Truck. Said coal should have been sold at a price of $2.35 per net ton f. o. b. the mine, pursuant to Price Instruction No. 5 of said schedule, and accordingly, the above transactions constituted sales below the effective minimum prices and resulted in the allowance of discounts in excess of the maximum allowable discount of 12 cents per net ton from the effective minimum f. o. b. mine price, as established by Order of the Director, dated June 19, 1940, in General Docket No. 12.

Notice is also hereby given that if it shall be determined that the Code Member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code Member in the Code or directing the Code Member to cease and desist from violating the Code and regulations made thereunder.

Dated: March 11, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[Docket No. B-34]

IN THE MATTER OF HIGH POINT COAL COMPANY, A CORPORATION, CODE MEMBER, DEFENDANT

ORDER AMENDING NOTICE OF AND ORDER FOR HEARING AND RESCHEDULING HEARING AND REDESIGNATING EXAMINER

A complaint dated September 15, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, having been duly filed on September 16, 1941, by Bituminous Coal Producers Board for District No. 8, a District Board, complainant, and Notice of and Order for Hearing in respect to the subject matter of such complaint having been issued herein on December 8, 1941, and subsequently said complaint having been amended by Order, dated February 28, 1942, granting complainant's motion to amend dated February 2, 1942, and motion further to amend dated February 9, 1942; and

The above-entitled matter having been scheduled for hearing on January 26, 1942, at 10:00 a. m. at a hearing room of the Bituminous Coal Division at Room 214, United States Post Office, Knoxville, Tennessee, before Travis Williams or any other officer or officers of the Bituminous Coal Division duly designated for that purpose, pursuant to Order dated December 8, 1941, and subsequently postponed pursuant to Order dated January 21, 1942, to a date and place to be thereafter designated by an appropriate order; and

The Acting Director deeming it advisable that said Notice of and Order for Hearing dated December 8, 1941, should be amended and the place and date of such hearing should now be designated;

Now, therefore, it is ordered, That a hearing in the above-entitled matter be held on April 27, 1942, at 10:00 a. m. at a hearing room of the Bituminous Coal Division at the Federal Court Room, Knoxville, Tennessee.

It is further ordered, That Charles S. Mitchell be and he is hereby designated to preside at such hearing vice Travis Williams.

It is further ordered, That the Notice of and Order for Hearing dated December 8, 1941, in the above-entitled matter be and the same is hereby amended by adding after the last paragraph thereof the following paragraph:

That the said High Point Coal Company during the period March 3, 1941 to March 31, 1941, both dates inclusive, sold, offered for sale and delivered to numerous purchasers located in various market areas approximately 610.70 net tons of 2½" x 6" coal produced at its High Point No. 1 Mine, Mine Index No. 241, at prices ranging from $2.75 to $2.86 per net ton f. o. b. the mine whereas such coal is classified as Size Group No. 5 and is priced at $2.80 to $2.91 per net ton f. o. b. said mine in the Schedule of Effective Minimum Prices for District No. 8 for All Shipments Except Truck, resulting in sales, offers and deliveries of coal at prices below the effective minima therefor established by the Division, and violations of the Act and Code.

It is further ordered, That the Notice of and Order for Hearing dated December 8, 1941, in the above-entitled matter, shall, in all other respects, remain in full force and effect.

Dated: March 11, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2172; Filed, March 13, 1942; 10:08 a. m.]

[Docket No. B-149]

IN THE MATTER OF CENTRAL WEST COAL COMPANY, REGISTERED DISTRIBUTOR, REGISTRATION NO. 1512

NOTICE OF AND ORDER FOR HEARING

The Bituminous Coal Division (the "Division") finds it necessary in the proper administration of the Bituminous Coal Act of 1937 (the "Act") and the Bituminous Coal Code (the "Code") promulgated thereunder to determine

(a) Whether or not the Central West Coal Company, Registered Distributor, Registration No. 1512 (hereinafter sometimes referred to as the "Registered Distributor"), whose address is 145 North High Street, Columbus, Ohio, violated any provisions of the Act, the Code and orders or regulations of the Division including the Marketing Rules and Regulations, Rules and Regulations for the Registration of Distributors, and the Distributor's Agreement (the "Agreement") dated April 18, 1939, executed and filed by the Central West Coal Company pursuant to Order of the National Bituminous Coal Commission dated March 24, 1939 in General Docket No. 12, which was adopted as an Order of the Bituminous Coal Division on July 1, 1939;

(b) Whether or not the Central West Coal Company, during the month of February 1941, while acting as Sales Agent for J. B. Williamson, a code member, Hopedale, Ohio, sold to various purchasers approximately 4,043 tons of mine run coal at $1.90 per ton f. o. b. railroad cars at the Marion Mine tipple of J. B. Williamson, located at Parlett, Ohio, and invoiced this coal as coal produced by said J. B. Williamson, whereas in fact said coal was produced by the Waco Collieries, Millersburg, Ohio at its Ideal Mine, Mine Index No. 68, resulting in the registered distributor participating in transactions which were in violation of the Order of the Director dated October 9, 1940 in General Docket No. 19, Section 4 II (i) 8 of the Act and Part II (i) 8 of the Code, Rule 2 of Section XII and Rule 8 of Section XIII of the Marketing Rules and Regulations and in violation of paragraphs (c) and (e) of the Agreement;

(c) Whether or not the Central West Coal Company in the purchase of coal from certain code members for resale to various purchasers, as more fully set forth herein, participated in transactions which were in violation of Rule 1 of Section III of the Marketing Rules and Regulations by accepting and retaining discounts in excess of the maximum allowable discounts prescribed by the Division pursuant to the Order of the Director dated June 19, 1940 in General Docket No. 12, resulting in violations of paragraphs (a) and (e) of the Agreement:

(1) During the period January through July 1941 in the purchase and resale to various purchasers of approximately 51,385 tons of various sizes of coal produced by J. B. Williamson, a code member, Hopedale, Ohio, at his Marion Mine, Mine Index No. 92, Harrison County, Ohio, District No. 4, the registered distributor accepted and retained discounts in the amount of approximately $5,832.09 in excess of the maximum allowable discounts.

(2) During the period November 25, 1940, through July 31, 1941 in the purchase and resale to various purchasers of approximately 2935.4 tons of various sizes of coal produced by the Orchard Coal Company, a code member, Cambridge, Ohio, at its Orchard Mine, Mine Index No. 680, Guernsey County, Subdistrict No. 2, District No. 4, the registered distributor accepted and retained discounts of approximately $148.06 in excess of the maximum allowable discounts.

(3) On or about June 12, 1941 in the purchase and resale to various purchasers of approximately 97.45 tons of nut, pea and slack coal produced by the Kodak Coal Company, a code member, at its Musser Mine, Mine Index No. 2417, the registered distributor accepted and retained discounts of approximately $1.95 in excess of the maximum allowable discounts.

(d) Whether or not in the distribution of the coal described in paragraph (c) subparagraphs (1), (2) and (3) hereof, Central West Coal Company acted as Sales Agent on behalf of the several code members without there having been filed with the Statistical Bureau or Bureaus of the Division certified copies of all such sales agency contracts or certified copies of agreements modifying any such agency contracts, setting forth therein the basis for the Sales Agent retaining the amount of commissions which Central West Coal Company retained in said transactions, as required by Rules 4 (A) and 4 (B) and Rule 9 (a) of Section II of the Marketing Rules and Regulations, resulting in violations of said rules or any of them, and of paragraph (e) of the Agreement;

(e) Whether or not in the distribution of the coal described in paragraph (c) subparagraphs (1), (2) and (3) hereof, Central West Coal Company, acted as a Sales Agent on behalf of the several code members and retained commissions

in excess of the maximum allowable discounts which it could receive if it acted as a distributor, without there having been filed with the Division an application for permission to pay such commissions, or without having been granted such permission, resulting in violations of Rules 13 (A) and 13 (B) of Section II of the Marketing Rules and Regulations or either of said rules, and of paragraph (e) of the Agreement;

(f) Whether or not during the period January 2, 1941 through February 4, 1941, Central West Coal Company prepaid freight charges on 13 cars of ¾" x ⅜" washed and dried stoker coal produced by and shipped from the Tecumseh Coal Corporation, at its Tecumseh Mine, Mine Index No. 105, District No. 11, and sold to the Hoskins Coal and Dock Company, Chicago, Illinois, resulting in violations of Section 4 II (i) 3 of the Act, Part II (i) 3 of the Code, Rule 1 (J) of Section VII and Rule 3 of Section XIII of the Marketing Rules and Regulations and paragraphs (c) and (e) of the Agreement;

(g) Whether or not on or about January 11, 1941 Central West Coal Company purchased 1 ton of ½" x 0 slack coal at $1.80 less 12 cents and 49.2 tons of 1" x 1¼" lump coal at $2.35 less 20 cents, from the Dundee Coal Company, Sugar Creek, Ohio, a code member, produced at its Dundee Mine, Mine Index No. 1725, located in District No. 4, which coal was resold to the State Procurement Office, U. S. Treasury Department, Columbus, Ohio, of which total tonnage of 50.2 tons of coal 25.3 tons were consigned to a W. P. A. Project at 3rd and Park Avenue, Cleveland, Ohio, and 24.9 tons were consigned to a W. P. A. Project at Fulton and Dennison Avenue, Cleveland, Ohio, in which transactions the registered distributor physically handled such coal and resold it in less than carload lots, resulting in a violation of paragraph (d) of the Agreement;

(h) Whether or not during the period February 17, 1941 through June 18, 1941 Central West Coal Company sold approximately 485.15 tons of various sizes of coal produced by J. B. Williamson, Hopedale, Ohio, at his Marion Mine, Mine Index No. 92, to the Department of Highways, of the State of Ohio, pursuant to a guaranteed analysis, without filing with the Statistical Bureau or Bureaus of the Division and the District Board for the District in which the coal was produced a report of the analysis as used or a statement to the effect that a copy of such analysis has been properly filed with the Statistical Bureau or Bureaus of the Division and the District Board, resulting in violations of Rules 1, 2 and 5 of Section VIII of the Marketing Rules and Regulations and paragraph (e) of the Agreement;

(i) Whether or not in the transactions set forth in paragraph (h) above the Central West Coal Company allowed discounts to the purchaser in the amount of $158.96 because of alleged deficiencies in quality and preparation of the coal so sold, without filing with the Statistical Bureau or Bureaus of the Division and the District Board a copy of the analysis used as the basis for an adjustment of price, resulting in violations of Rule 1 of Section III and Rule 4 of Section VIII of the Marketing Rules and Regulations, and paragraphs (b) and (e) of the Agreement;

(j) Whether or not on or about August 6, 1941, Central West Coal Company entered a bid for the furnishing of approximately 9800 tons of 5" x 2" egg coal produced by the Starr-Jackson Mining Company, Starr, Ohio, at its Starr-Jackson Mine, Mine Index No. 130, Hocking County, Ohio, to the Quartermaster Corps, Chicago Quartermaster Depot, 1819 West Pershing Road, Chicago, Illinois, on the basis of a guaranteed analysis, without filing with the Statistical Bureau or Bureaus of the Division and the District Board for the District in which the coal was produced, a report of the analysis as used or a statement to the effect that a copy of such analysis has been properly filed with the Statistical Bureau or Bureaus of the Division and the District Board, resulting in violations of Rules 1, 2 and 5 of Section VIII of the Marketing Rules and Regulations and paragraph (e) of the Agreement;

(k) Whether or not on or about September 8, 1941, Central West Coal Company entered into a contract for the furnishing of the coal as set forth in paragraph (j) above, without filing a copy of this contract with the Statistical Bureau or Bureaus of the Division within fifteen (15) business days from the date of execution of such contract, resulting in violations of Rule 7 of Section VI of the Marketing Rules and Regulations and paragraph (e) of the Agreement;

(l) Whether or not during the period of November 13, 1940 through April 25, 1941, Central West Coal Company, acting as Sales Agent for the Kodak Coal Company, sold for rail shipment to various purchasers at Erie, Pennsylvania, approximately 3,877.5 tons of 2" nut, pea and slack coal, produced by the Kodak Coal Company, a code member, Clarion, Pennsylvania, at its Musser Mine, Mine Index No. 2417, District No. 1, whereas rail prices, temporary or final, had not been established for said producer until May 20, 1941 pursuant to a petition filed with the Division on or about April 3, 1941, resulting in the registered distributor participating in a violation of the Director's Order dated October 9, 1940 entered in General Docket No. 19 and in violation of paragraph (e) of the Agreement;

(m) Whether or not in the transactions described in paragraph (l) above, Central West Coal Company participated in a violation of Rule 9 (a) of Section II of the Marketing Rules and Regulations by accepting and retaining commissions of approximately $774, as sales agent for the Kodak Coal Company, although a certified copy of said contract of agency between the aforesaid parties was not on file with the Statistical Bureau for District No. 1, resulting in a violation of said rule, and of paragraph (e) of the Agreement;

(n) Whether or not during the period June 12 through July 31, 1941 Central West Coal Company acted as a sales agent on behalf of the Kodak Coal Company, Clarion County, Pennsylvania, in the sale to various purchasers of approximately 3,776 tons of 2" nut, pea and slack coal produced at the Musser Mine, Mine Index No. 2417, of the Kodak Coal Company, retaining commissions of approximately $367.12 in excess of the maximum discounts which it could receive if it purchased such coal as a distributor, without there having been filed with the Division an application for permission to pay such commissions and without having been granted such permission, resulting in violations of Rules 13 (A) and 13 (B) of Section II of the Marketing Rules and Regulations, or either of said rules and paragraph (e) of the Agreement;

(o) Whether or not the registration of Central West Coal Company should be revoked or suspended or other appropriate penalties should be imposed.

It is therefore ordered, That a hearing pursuant to § 304.14 of the Rules and Regulations for the Registration of Distributors, to determine whether or not the aforementioned Central West Coal Company, has committed violations in the respects heretofore described and whether or not the registration of said distributor should be revoked or suspended, or other appropriate penalties be imposed, be held on April 9, 1942, at 10 a. m., at a hearing room of the Bituminous Coal Division at Room 322, New Federal Building, Columbus, Ohio.

It is further ordered, That Travis Williams or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Central West Coal Company and to all persons and entities having an interest in such proceeding.

Notice is hereby given that answer setting forth the position of the aforementioned Central West Coal Company, with reference to the matters hereinbefore described, must be filed with the Bituminous Coal Division at its Washington Office or with any one of the Statistical Bureaus of the Division, within twenty (20) days after date of service hereof on the Central West Coal Company; and that failure to file an answer herein within such period, unless the presiding officer shall otherwise order, shall be deemed to be an admission by Central West Coal Company of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: March 12, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2173; Filed, March 13, 1942; 10:08 a. m.]

[Docket No. A-1289, Part II]

PETITION OF DISTRICT BOARD NO. 2 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE CLINTON NO. 1 MINE (STRIP), MINE INDEX NO. 2318, OF THE UNION COLLIERIES COMPANY

MEMORANDUM OPINION AND ORDER GRANTING TEMPORARY RELIEF

An original petition (Docket No. A-1289) was filed with the Bituminous Coal Division by District Board No. 2, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment of price classifications and minimum prices for certain coals produced in District No. 2 not theretofore classified and priced. The Clinton No. 1 Mine (strip), Mine Index No. 2318, of the Union Collieries Company, was included in that petition. District Board No. 3 filed a motion to sever that part of Docket No. A-1289 relating to the Clinton No. 1 Mine, and filed a petition of intervention in opposition to the relief requested for this mine and requested that no temporary relief be granted until after the holding of an informal conference. On March 2, 1942, an Order was entered herein severing that part of Docket No. A-1289 relating to the Clinton No. 1 Mine, setting the same up as Docket No. A-1289, Part II, and directing that a hearing be held in Docket No. A-1289, Part II, on March 31, 1942.

Pursuant to the provisions of § 301.106 of the 4 II (d) Rules, and after due notice to all interested persons, an informal conference was held on February 25, 1942, with respect to the prayer of the petitioner for the establishment of temporary price classifications and minimum prices for the coals produced at the Clinton No. 1 Mine, and with respect to the opposition of District Board No. 3 to the granting of such temporary relief. District Boards Nos. 2 and 3, and the Union Collieries Company participated in the informal conference. The record of the informal conference was submitted to the undersigned for consideration.

Information developed at the informal conference discloses that no protest or objection to the granting of the relief requested in the petition has been made or lodged with District Board 2. Counsel for District Board 3 stated at the conference that the purpose of filing the petition of intervention was to enable District Board 3 to obtain information with respect to the propriety of granting the relief requested for the Clinton No. 1 Mine. At the close of the informal conference, District Board 3 stated that it had no objection to the granting of temporary relief, did not think that a hearing was necessary and would amend its request for a hearing to request that the matter be held in suspense pending such time as any producers in the future might manifest an objection. It was stated by counsel for District Board 3 that in view of the information developed at the informal conference the intervener would not press for a formal hearing.

It appears from the record and I find that the price classifications and corresponding minimum prices proposed by District Board 2 for the coals produced at the Clinton No. 1 Mine (strip), Mine Index No. 2318, of the Union Collieries Company, located in District 2, annexed hereto in the schedules marked "Supplement R" and "Supplement T" and made a part hereof, are expressed in the terms of the symbols of and in conformity with the effective minimum prices for analogous and comparable coals established by the Director in General Docket No. 15 and revision thereof and supplements thereto established in appropriate proceedings under the Act, and, are proper and conform to the standards of sections 4 II (a) and (b) of the Act.

It appears from the record that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth, and that injury to the Union Collieries Company is imminent unless temporary relief should be granted. It further appears that the granting of the temporary relief prayed for will not prejudice any of the competitors of the Union Collieries Company, or any code members generally.

It appears that the price classifications and minimum prices set forth in schedules marked "Supplement R" and "Supplement T," annexed hereto and made a part hereof, should be temporarily established pending final disposition of the original petition.

It is, therefore, ordered, That pending final disposition of the above-entitled matter, temporary relief is granted as follows:. Commencing forthwith, the Schedules of Effective Minimum Prices for District No. 2 for All Shipments Except Truck and for Truck Shipments are supplemented to include the price classifications and minimum prices set forth in the schedules marked "Supplement R" and "Supplement T," annexed hereto and made a part hereof.

Nothing contained herein shall be deemed to constitute a ruling or expression of views concerning the final disposition of these proceedings or the nature of the relief which may hereafter be granted.

Dated: March 11, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2174; Filed, March 13, 1942; 10:08 a. m.]

[Docket No. A-1276]

PETITION OF W. M. CARDWELL FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE CARDWELL MINE (MINE INDEX NO. 751) IN DISTRICT NO. 13 FOR ALL SHIPMENTS EXCEPT TRUCK

ORDER DISMISSING PETITION

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was duly filed with this Division by the above-named party on January 16, 1942, and requested the establishment of price classifications and minimum prices for the coals of Mine Index No. 751 in Size Groups 12, 13, 17, 18, and 24 for all shipments except truck. Identical relief had been requested for the coals of this mine in a petition in Docket A-1258 filed by District Board No. 13 on January 5, 1942, and by an Order dated January 21, 1942, in Docket A-1258, the relief sought therein for the coals of Mine Index No. 751 was granted.

By a letter dated February 10, 1942, the original petitioner was advised that relief, identical to the relief sought for the coals of Mine Index No. 751 in the above-entitled matter, had been granted by the Order of January 21, 1942, in Docket A-1258 on the petition of District Board 13, and inquiry was made as to whether original petitioner wished to withdraw the petition in the above-entitled matter. No reply to this communication has been received and it appears that the original petitioner has no further interest in this matter. Accordingly, it appears advisable that the original petition should be dismissed.

Now, therefore, it is ordered, That the original petition in the above-entitled matter be, and it hereby is, dismissed without prejudice.

Dated: March 11, 1942.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6363]

IN RE APPLICATION OF HOOSIER BROADCASTING CO.

NOTICE OF HEARING

In re application of Fred C. Morgan, Harrison Eiteljorg, Roger A. Beane d/b as Hoosier Broadcasting Company (New), dated August 13, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Indianapolis, Indiana; operating assignment specified: Frequency, 810 kc.; power, 250 watts; hours of operation, daytime.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reasons:

1. To determine the character of the proposed program service.

2. To determine whether the operation of the proposed station, on the frequency 810 kilocycles would be an efficient use of that channel and consistent with good allocation practice.

3. To determine whether there are other assignments available which would permit the rendition of a local service by the applicant to Indianapolis, Indiana, and the areas contiguous thereto, on an unlimited time basis.

4. To determine whether granting of this application would tend toward a fair, efficient and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

5. To determine whether the proposed construction involves the use of any critical materials.

6. To determine the areas and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and populations.

7. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion, dated February 23, 1942, Mimeograph No. 58106).

8. To determine whether in view of the facts adduced under the foregoing issues public interest, convenience and necessity would be served through the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Fred C. Morgan, Harrison Eiteljorg, Roger A. Beane d/b as Hoosier Broadcasting Company, Att: Roger A. Beane, 29 West 38th Street, Indianapolis, Indiana.

Dated: March 11, 1942.

By the Commission.

[Docket No. 6364]

IN RE APPLICATION OF WKAL, INC.

NOTICE OF HEARING

In re application of WKAL, Incorporated (New), dated July 21, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Kalamazoo, Michigan; operating assignment specified: Frequency, 1,230 kc.; power, 250 watts; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reasons:

1. To determine whether the proposed station would provide primary service to the metropolitan district of Kalamazoo, Michigan, as contemplated by the Standards of Good Engineering Practice.

2. To determine whether the proposed construction involves the use of any critical materials.

3. To determine the areas and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and population.

4. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

5. To determine whether, in view of the facts adduced under the foregoing issues, public interest, convenience and necessity would be served by the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

WKAL, Incorporated, Att: Marvin J. Schaberg, P. O. Box 775, Kalamazoo, Michigan.

Dated at Washington, D. C., March 11, 1942.

FEDERAL POWER COMMISSION.

[Project No. 970]

IN THE MATTER OF GLACIER SILVER LEAD MINING COMPANY

NOTICE OF APPLICATION

MARCH 12, 1942.

Public notice is hereby given, pursuant to the provisions of the Federal Power Act (16 U.S.C. 791–825r) that Glacier Silver Lead Mining Company, of Libby, Montana, licensee for Project No. 970, has filed an application for surrender of license for the project, situated on Granite Creek, in Lincoln County, Montana. Any protest against the approval of this application or request for hearing thereon, with the reasons for such protest or request and the name and address of the party or parties so protesting or requesting, should be submitted before April 11, 1942, to the Federal Power Commission, at Washington, D. C.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 42-2176; Filed, March 13, 1942; 10:13 a. m.]

FEDERAL TRADE COMMISSION.

[Docket No. 4725]

IN THE MATTER OF KIMBLE GLASS COMPANY, A CORPORATION

COMPLAINT

The Federal Trade Commission having reason to believe that the party respondent named in the caption hereof, and hereinafter more particularly designated and described, since June 19, 1936, has violated and is now violating the provisions of section 2 (a) of the Clayton Act as amended by the Robinson-Patman Act, approved June 19, 1936 (U.S.C. Title 15, Section 13), hereby issues its complaint, stating its charges with respect thereto as follows:

PARAGRAPH 1. Respondent, Kimble Glass Company, is a corporation organized and existing under and by virtue of the laws of the State of Illinois, and has its office and principal place of business located in Vineland, New Jersey.

PAR. 2. Respondent is now, and has been since June 19, 1936, engaged in the business of manufacturing, distributing and selling glass tubing and test and control apparatus for the dairy industry. Respondent is the larger of two manufacturers of test and control dairy glassware doing business in the United States. Its sole competitor is the Wagner Glass Company with offices at 695 East 132d Street, New York, New York, which likewise distributes and sells in interstate commerce. In the course and conduct of its said business, respondent sells the aforesaid apparatus to purchasers located in the various states of the United States and in the District of Columbia and causes substantial quantities of said apparatus, when sold, to be shipped and transported from its place of business in the State of New Jersey across state lines to the respective purchasers thereof in each of the several states of the United States and in the District of Columbia.

Respondent employs no salesmen. It has no branch offices, nor does it maintain warehouses other than those located in Vineland, New Jersey. All orders for its dairy glassware are forwarded to it by its customers through the mail. Its method of shipping its products is the same to all customers, whether large or small. It will make shipments direct to its customers or to any of the several branches named by them, as well as drop shipments, whenever directed.

PAR. 3. Among those purchasers to whom respondent sells its merchandise are Cherry-Burrell Corporation, Chicago, Illinois; Creamery Package Manufacturing Company, Chicago, Illinois; Meyer-Blanke Company, St. Louis, Missouri; and Kennedy & Parsons Company, Omaha, Nebraska. The Creamery Package Manufacturing Company sells direct to consumers through its direct selling branches located in some eighteen cities throughout the United States. The Cherry-Burrell Corporation likewise maintains offices throughout the United States in some eighteen cities. Meyer-Blanke Company has seventeen offices, while Kennedy & Parsons Company has three branches. These buyers of respondent's merchandise are competitively engaged in commerce as commerce is defined in the Clayton Act with numerous wholesalers of respondent's merchandise.

PAR. 4. Respondent enters into contracts with the four mentioned buyers in which these buyers are designated as distributors. These contracts provide in part as follows:

Distributor is to stock at least 250 gross of Test Bottles and Pipettes and shall advise us semiannually, in writing, that this amount of stock is being maintained. When this condition is met, the Seller agrees to furnish articles listed in Part I of Seller's catalog at the following discounts:

	Percent
Orders less than 25 gross	25
25 to 49 gross	25–5
50 to 99 gross	25–10
100 gross or more	25–15

The Distributor agrees to wholesaler's plan of distribution attached which is a part of this agreement. The Seller reserves the right to ask for and receive the individual and total of all sales made by the Distributor to any wholesaler.

Wholesalers and large consumers buy direct from respondent and from distributors at prices reflecting the following discounts:

	Percent
Less than 1 gross	10
1 to 4 gross	15
5 to 9 gross	20
10 to 24 gross	25

Distributors accept blanket orders for 25 gross from large buyers and permit withdrawals as desired. Respondent likewise accepts blanket orders at maximum discounts from its distributors and permits the buyers to designate numerous shipments to various buyers to apply against the blanket order.

PAR. 5. Respondent interprets the contracts with the four mentioned distributors to mean the aggregate stocking by all of the various branches of such distributors, and it appears that none of these branches carries as much as 100 gross and several carry less than 12 gross each. The average size of the orders submitted by some of the favored purchasers is less than the average size of the orders submitted by other purchasers who are sold at no greater discounts than 25%. By the foregoing acts and practices the respondent discriminates in price between its small and large customers. The former can never secure better than a 25% discount, while the latter may obtain this discount regardless of the size of the individual order and greater discounts for larger orders. To illustrate: The respondent, Kimble Glass Company, sold cream test bottles, article 2085, at approximately the same time to Jensen Machinery and Dairy Supply Co., Inc., of Wichita, Kansas, and to Meyer-Blanke Company of St. Louis, Missouri. Drop shipments of less than 5 gross each were made for each buyer. The two named buyers compete for business of the same consumers. While the Wichita Company was granted a discount of 25%, the St. Louis Company received an additional 15%.

PAR. 6. The effect of the discriminations in price set forth herein has been and may be substantially to lessen competition between respondent and its sole competitor and to tend to create a monopoly in respondent in the sale of the merchandise referred to herein, and the effect has been and may be to tend to create a monopoly in such customers who are not charged the higher prices and to injure competition with such customers of respondent who receive the benefit of such discrimination.

PAR. 7. The aforesaid acts and practices of respondent constitute a violation of the provisions of section 2 (a) of the Clayton Act as amended by the Robinson-Patman Act, approved June 19, 1936 (U.S.C., Title 15, Section 13).

Wherefore, the premises considered, the Federal Trade Commission on this 9th day of March, A. D. 1942, here issues its complaint against said respondent.

NOTICE

Notice is hereby given you, Kimble Glass Company, respondent herein, that the 17th day of April, A. D. 1942, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

* * * * *

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure to find such facts to be true, and if in the judgment of the Commission such facts admitted constitute a violation of law or laws as charged in the complaint, to make and serve findings as to the facts and an order to cease and desist from such violations. Upon application in writing made contemporaneously with the filing of such answer, the respondent, in the discretion of the Commission, may be heard on brief, in oral argument, or both, solely on the question as to whether the facts so admitted constitute the violation or violations of law charged in the complaint.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and

its official seal to be hereto affixed, at Washington, D. C., this 9th day of March, A. D. 1942.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

FOREIGN-TRADE ZONES BOARD.

[Order No. 7]

IN THE MATTER OF THE REQUEST OF THE SECRETARY OF WAR TO SUSPEND FOREIGN-TRADE ZONE OPERATIONS IN A CERTAIN PART OF FOREIGN-TRADE ZONE NO. 1 AT STAPLETON, STATEN ISLAND, NEW YORK, DURING THE PERIOD OF ARMY OCCUPANCY

Pursuant to the authority contained in the Act of June 18, 1934 (48 Stat. 998; 19 U.S.C. 81-a–81-u), the Foreign-Trade Zones Board, at a meeting held February 26, 1942, adopted the following order which is promulgated for the information and guidance of all concerned:

The War Department having decided that a military necessity exists for the immediate occupancy of Piers Nos. 12, 13, 14, 15 and 16, and adjacent slips and land comprising a part of Foreign-Trade Zone No. 1, at Stapleton, Staten Island, New York, the Foreign-Trade Zones Board hereby approves the request of the Secretary of War to suspend foreign-trade zone operations within the said piers and on the said facilities during the period of military occupancy. Further, the Board agrees to suspend, during same time, all requirements for zone construction and improvements in the area and on the facilities affected.

The Board orders the City of New York, the Grantee, to maintain an office at the zone site and authorizes the continuance of operations now carried on in connection with the storing, sampling, and sale of Sumatra tobacco or any other foreign-trade zone activity which is adaptable to the area which has been exempted from the property acquired by the War Department.

The Grantee is further ordered to segregate this area and the structures thereon to comply with requirements of the Collector of Customs of the Port of New York.

The Grantee is authorized and directed to obtain suitable sites within the limits of the Port of New York wherein zone operations are to be carried on during the period of the present emergency, and upon approval of such sites by the Board, any area so approved will be deemed to be within Foreign-Trade Zone No. 1.

This order is effective February 23, 1942.

[SEAL] JESSE H. JONES, *Secretary of Commerce, Chairman, Foreign-Trade Zones Board.*

FEDERAL REGISTER

THE NATIONAL ARCHIVES — LITTERA SCRIPTA MANET — OF THE UNITED STATES — 1934

VOLUME 7 NUMBER 52

Washington, Tuesday, March 17, 1942

The President

EXECUTIVE ORDER

REORGANIZATION OF THE NAVY DEPARTMENT AND THE NAVAL SERVICE AFFECTING THE OFFICE OF THE CHIEF OF NAVAL OPERATIONS AND THE COMMANDER IN CHIEF, UNITED STATES FLEET

By virtue of the authority vested in me by Title I of the First War Powers Act, 1941, approved December 18, 1941 (Public Law 354, 77th Congress), and other applicable statutes, and as Commander in Chief of the Army and Navy and as President of the United States, it is hereby ordered as follows:

1. The duties of the Commander in Chief, United States Fleet, and the duties of the Chief of Naval Operations, may be combined and devolve upon one officer who shall have the title "Commander in Chief, United States Fleet, and Chief of Naval Operations", and who shall be the principal naval adviser to the President on the conduct of the War, and the principal naval adviser and executive to the Secretary of the Navy on the conduct of the activities of the Naval Establishment. While so serving he shall have the rank and title of Admiral and shall receive the pay and allowances provided by law for an officer serving in the grade of Admiral.

2. As Commander in Chief, United States Fleet, the officer holding the combined offices as herein provided shall have supreme command of the operating forces comprising the several fleets, seagoing forces, and sea frontier forces of the United States Navy and shall be directly responsible, under the general direction of the Secretary of the Navy, to the President therefor.

3. The staff of the Commander in Chief, United States Fleet, shall be composed of—

(a) A Chief of Staff, who shall while so serving have the rank, pay, and allowances of a Vice Admiral, and who, in the temporary absence or incapacity of the "Commander in Chief, United States Fleet and Chief of Naval Operations", shall act as Commander in Chief, United States Fleet;

(b) Such deputy and assistant chiefs of staff as may be necessary; and

(c) Such other officers as may be appropriate and necessary to enable the "Commander in Chief, United States Fleet, and Chief of Naval Operations" to perform as Commander in Chief, United States Fleet, the duties prescribed in Executive Order No. 8984[1] of December 18, 1941.

4. As Chief of Naval Operations, the officer holding the combined offices as herein provided shall be charged, under the direction of the Secretary of the Navy, with the preparation, readiness and logistic support of the operating forces comprising the several fleets, seagoing forces and sea frontier forces of the United States Navy, and with the coordination and direction of effort to this end of the bureaus and offices of the Navy Department except such offices (other than bureaus) as the Secretary of the Navy may specifically exempt. Duties as Chief of Naval Operations shall be contributory to the discharge of the paramount duties of Commander in Chief, United States Fleet.

5. The staff of the Chief of Naval Operations shall be composed of—

(a) A Vice Chief of Naval Operations, who shall while so serving have the rank, pay and allowances of a Vice Admiral. The Vice Chief of Naval Operations shall have all necessary authority for executing the plans and policies of the "Commander in Chief, United States Fleet, and Chief of Naval Operations" so far as pertains to the duties herein prescribed for the Chief of Naval Operations. In the temporary absence or incapacity of the "Commander in Chief, United States Fleet, and Chief of Naval Operations", he shall act as Chief of Naval Operations.

(b) An Assistant to the Chief of Naval Operations with the title of Sub Chief of Naval Operations, who shall have the rank of rear admiral and while so serving shall receive the pay and allowances of

EXECUTIVE ORDER

POWER SITE RESTORATION NO. 496. PARTIAL REVOCATION OF EXECUTIVE ORDER OF MARCH 27, 1913, CREATING POWER SITE RESERVE NO. 348, AND OF EXECUTIVE ORDER OF DECEMBER 20, 1916, CREATING POWER SITE RESERVE NO. 563

WYOMING

By virtue of the authority vested in me by section 1 of the act of June 25, 1910, c. 421, 36 Stat. 847, it is ordered as follows:

1. The Executive order of March 27, 1913, creating Power Site Reserve No. 348, is hereby revoked as to the following-described lands:

SIXTH PRINCIPAL MERIDIAN

T. 52 N., R. 102 W., that portion of lot 80 within secs. 2 and 3; sec. 3, lot 3.
T. 50 N., R. 104 W., sec. 7, lots 21, 45, and 46.
T. 50 N., R. 105 W., sec. 13, lots 1, 4, and 5.

2. The Executive order of December 20, 1916, creating Power Site Reserve No. 563, is hereby revoked as to the following-described lands:

SIXTH PRINCIPAL MERIDIAN

T. 53 N., R. 101 W.,
sec. 13, lots 3, and 4;
sec. 14, lots 4, and 5.

FRANKLIN D ROOSEVELT

THE WHITE HOUSE,
March 13, 1942.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

CHAPTER II—AGRICULTURAL MARKETING SERVICE, AGRICULTURAL MARKETING ADMINISTRATION

PART 204—POSTED STOCKYARDS AND LIVE POULTRY MARKETS

NOTICE RELATIVE TO TWIN CITY SALE YARDS, LEWISTON, IDAHO [1]

MARCH 13, 1942.

Whereas in accordance with the provisions of section 302 (b) of the Packers and Stockyards Act, 1921 (7 U.S.C. § 202 (b)), the Secretary of Agriculture posted the stockyard known as the Lewiston Livestock Commission Company, Lewiston, Idaho, as being subject to the provisions of said Act; and

Whereas it appears that said stockyard is now known as the Twin City Sale Yards, and is being operated by Andrew Nelson, doing business as the Twin City Sale Yards:

Therefore, it is ordered, That the notice of the posting of said stockyard be, and it hereby is, amended to show that the correct name of the stockyard is the Twin City Sale Yards, Lewiston, Idaho.

[SEAL] GROVER B. HILL,
Assistant Secretary of Agriculture.

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. 4399]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF HEROLIN COMPANY, INC., ET AL

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results:* § 3.6 (y) *Advertising falsely or misleadingly—Safety:* § 3.71 (e) *Neglecting, unfairly or deceptively, to make material disclosure—Safety:* § 3.96 (a) *Using misleading name—Goods—Nature:* § 3.96 (a) *Using misleading name—Goods—Qualities or properties.* In connection with offer, etc., of respondents' medicinal and cosmetic preparations, as below set forth, or any other similar preparations, and among other things, as in order set forth, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase in commerce, etc., of said medicinal and cosmetic preparations, which advertisements represent, directly or by implication, (a) that respondents' preparation "Original Herolin Beautifier Hair Dressing" penetrates to the roots of the hair; revives hair cells or causes hair to grow; furnishes necessary oils or nourishment to the hair; or prevents dandruff or other scalp ailments; (b) that respondent's preparation "Herolin Hair Gloss and Temple Oil" combines the properties of hair grower, brilliantine and pressing oil; promotes the growth of hair; or prevents hot combs or irons from burning the hair or scalp; (c) that respondents' preparation "Herolin Tetter Salve" will stop falling hair; possesses any therapeutic value in the treatment of dandruff in excess of softening dandruff scales and facilitating the removal thereof; or constitutes a cure for eczema, tetter or other skin infections or ailments due to systemic factors; (d) that respondents' preparation "Herolin Nayko Tablets" will relieve women from the pains suffered during the menstruation period; or will cure or relieve headaches, backaches, nausea, neuralgia or colds; (e) that respondents' preparation "Herolin Female Tonic" will cure, or have any therapeutic value in the treatment of, chronic functional irregularity of the female reproductive organs; or will relieve suppressed, painful or excessive menstruation; (f) that respondents' preparation "Herolin Moonbeam Pills" possesses any therapeutic value in the treatment of disorders of the liver; or constitutes a cure for sick headaches or nausea, or possesses any therapeutic value in the treatment thereof in excess of affording temporary relief when such conditions are due to constipation; (g) that respondents' preparation "Herolin Moonbeam Tonic" will correct or cure systemic disorders of the stomach, kidneys or liver; will cure constipation, or is a competent or effective treatment therefor in excess of furnishing temporary relief; or constitutes a cure for headaches, billiousness, dizziness or back pains, or possesses any therapeutic value in the treatment thereof in excess of affording temporary relief when such conditions are due to constipation; (h) that respondents' preparation "Herolin Croup Salve" constitutes a cure for head or chest colds, croup, or inflammation or congestion of the respiratory tract, or that it possesses any therapeutic value in the treatment thereof in excess of affording soothing temporary relief from the discomforts associated with such conditions; (i) that respondents' preparation "Herolin Blood Tonic" will build blood, or has any therapeutic value in the treatment of boils, pimples, sores, skin infections, dizziness or any troubles arising from disordered conditions of the blood stream or from poor circulation; or which advertisements use the words "Blood Tonic" as a part of the name of said preparation or otherwise represent that said preparation is a blood tonic; (j) that respondents' preparation "Herolin Healing Oil" is capable of penetrating the skin to the muscles or joints; or constitutes a cure or remedy or a competent or effective treatment for rheumatism, lumbago, muscle cramps, sore muscles, sprains, stiff joints, neuralgia or lame back; or which advertisements use the word "Healing" as a part of the name of said preparation or otherwise represent that said preparation possesses healing properties; or which advertisements (k) fail to reveal that the continued use of their said "Herolin Blood Tonic" may result in chronic mercury poisoning, and that said preparation should not be used by those having tuberculosis or goiter; or which advertisements (l) fail to contain a warning against the repeated application of their said "Herolin Healing Oil" to the same place; prohibited, subject to the provision, however, as respects said prohibitions (k) and (l) that such advertisements need contain only the statement, "Caution: Use Only As Directed", if and when the directions for use, wherever they appear on the label, in the labeling, or in both label and labeling, contain a warning to the above effect. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Herolin Company, Inc., et al., Docket 4399, March 9, 1942]

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results.* In connection with the offer, etc., in commerce, of respondents' so-called "curios" and "charms", including incense, powders, oils, lodestones, horseshoes and bones, or any other articles, and among other things, as in order set forth, representing

that said articles possess any mystic or supernatural powers; that they will bring to the wearer or user good luck, love, money, or success in love and marriage; or that they will charm or attract others; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Herolin Company, Inc., et al., Docket 4399, March 9, 1942]

§ 3.6 (a) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser — Producer status of dealer or seller—Chemists:* § 3.6 (a) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Producer status of dealer or seller—Laboratory:* § 3.6 (a) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Producer status of dealer or seller—Manufacturer.* In connection with offer, etc., in commerce, of respondents' medicinal and cosmetic preparations, and so-called curios and charms, and among other things, as in order set forth, (1) using the word "Chemists", or any other word of similar import, to designate or describe respondents' business, or otherwise representing that respondents are chemists, or that they own, control or operate a chemical laboratory; and (2) using the unqualified word "Manufacturer", or any other word of similar import, to designate or describe respondents' business, or otherwise representing that respondents manufacture all of the products sold by them; prohibited, subject to provision, however, as respects said second prohibition, that such provision shall not be construed to prohibit the use of such term when its application is expressly restricted to that portion of respondents' products which is exported to foreign countries and which is in fact manufactured by respondents. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Herolin Company, Inc., et al., Docket 4399, March 9, 1942]

§ 3.6 (i) *Advertising falsely or misleadingly—Free goods or service:* § 3.7 (e) *Offering deceptive inducements to purchase—Free goods.* In connection with offer, etc., in commerce, of respondents' medicinal and cosmetic preparations, and so-called curios and charms, and among other things, as in order set forth, using the word "free", or any other word of similar import, to designate or describe any articles of merchandise which are not in fact given free and without charge, or otherwise representing that any merchandise is given free or without charge when such is not the fact; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Herolin Company, Inc., et al., Docket 4399, March 9, 1942]

In the Matter of Herolin Company, Inc., and Bert H. Rubin, Individually and as President of Herolin Company, Inc.

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 9th day of March, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of respondents, testimony and other evidence taken before a trial examiner of the Commission theretofore duly designated by it, in support of the allegations of said complaint and in opposition thereto, stipulation entered into between the attorney for the Commission and the attorney for respondents, report of the trial examiner upon the evidence, and brief in support of the complaint (no brief having been filed by respondents and oral argument not having been requested), and the Commission having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondents, Herolin Company, Inc., a corporation, and its officers, and Bert H. Rubin, individually and as president of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of their medicinal and cosmetic preparations hereinafter named, or any other preparations of substantially similar composition or possessing substantially similar properties, whether sold under the same names or under any other names, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or by implication:

(a) That respondents' preparation "Original Herolin Beautifier Hair Dressing" penetrates to the roots of the hair; that it revives hair cells or causes hair to grow; that it furnishes necessary oils or nourishment to the hair; or that it prevents dandruff or other scalp ailments;

(b) That respondents' preparation "Herolin Hair Gloss and Temple Oil" combines the properties of hair grower, brilliantine and pressing oil; that it promotes the growth of hair; or that it prevents hot combs or irons from burning the hair or scalp;

(c) That respondents' preparation "Herolin Tetter Salve" will stop falling hair; that it possesses any therapeutic value in the treatment of dandruff in excess of softening dandruff scales and facilitating the removal thereof; or that it constitutes a cure for eczema, tetter or other skin infections or ailments due to systemic factors;

(d) That respondents' preparation "Herolin Nayko Tablets" will relieve women from the pains suffered during the menstruation period; or that it will cure or relieve headaches, backaches, nausea, neuralgia or colds;

(e) That respondents' preparation "Herolin Female Tonic" will cure, or have any therapeutic value in the treatment of, chronic functional irregularity of the female reproductive organs; or that it will relieve suppressed, painful or excessive menstruation;

(f) That respondents' preparation "Herolin Moonbeam Pills" possesses any therapeutic value in the treatment of disorders of the liver; or that it constitutes a cure for sick headaches or nausea, or possesses any therapeutic value in the treatment thereof in excess of affording temporary relief when such conditions are due to constipation;

(g) That respondents' preparation "Herolin Moonbeam Tonic" will correct or cure systemic disorders of the stomach, kidneys or liver; that it will cure constipation, or is a competent or effective treatment therefor in excess of furnishing temporary relief; or that it constitutes a cure for headaches, biliousness, dizziness or back pains, or possesses any therapeutic value in the treatment thereof in excess of affording temporary relief when such conditions are due to constipation;

(h) That respondents' preparation "Herolin Croup Salve" constitutes a cure for head or chest colds, croup, or inflammation or congestion of the respiratory tract, or that it possesses any therapeutic value in the treatment thereof in excess of affording soothing temporary relief from the discomforts associated with such conditions;

(i) That respondents' preparation "Herolin Blood Tonic" will build blood, or that it has any therapeutic value in the treatment of boils, pimples, sores, skin infections, dizziness or any troubles arising from disordered conditions of the blood stream or from poor circulation; or which advertisement uses the words "Blood Tonic" as a part of the name of said preparation or otherwise represents that said preparation is a blood tonic; or which advertisement fails to reveal that the continued use of said preparation may result in chronic mercury poisoning, and that said preparation should not be used by those having tuberculosis or goiter: *Provided, however*, That such advertisement need contain only the statement, "Caution: Use Only as Directed", if and when the directions for use, wherever they appear on the label, in the labeling, or in both label or labeling, contain a warning to the above effect;

(j) That respondents' preparation "Herolin Healing Oil" is capable of penetrating the skin to the muscles or joints; or that it constitutes a cure or remedy or a competent or effective treatment for rheumatism, lumbago, muscle cramps, sore muscles, sprains, stiff joints, neuralgia or lame back; or which advertisement uses the word "Healing" as a part of the name of said preparation or otherwise represents that said preparation possesses healing properties; or which advertisement fails to contain a warning against the repeated application of said preparation to the same place: *Provided, however*, That such advertisement need contain only the statement, "Caution: Use Only as Directed", if and when the directions for use, whether they appear on the label, in the labeling, or in both label and labeling, contain a warning to the above effect;

2. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said preparations, which advertisement contains any of the representations prohibited in paragraph 1 hereof, or which advertisement with respect to said preparations Herolin Blood Tonic and Herolin Healing Oil fails to comply with the affirmative requirements set forth in subparagraphs (i) and (j) above;

It is further ordered, That the respondents and their officers, agents, representatives and employees, as aforesaid, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondents' so-called "curios" and "charms", including incense, powders, oils, lodestones, horseshoes and bones, or any other articles, do forthwith cease and desist from:

Representing that said articles possess any mystic or supernatural powers; that they will bring to the wearer or user good luck, love, money, or success in love and marriage; or that they will charm or attract others;

It is further ordered, That the respondents and their officers, agents, representatives and employees, as aforesaid, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondents' medicinal and cosmetic preparations and so-called curios and charms, do forthwith cease and desist from:

1. Using the word "Chemists", or any other word of similar import, to designate or describe respondents' business, or otherwise representing that respondents are chemists, or that they own, control or operate a chemical laboratory;

2. Using the unqualified word "Manufacturer", or any other word of similar import, to designate or describe respondents' business, or otherwise representing that respondents manufacture all of the products sold by them; *Provided, however*, That this provision shall not be construed to prohibit the use of such term when its application is expressly restricted to that portion of respondents' products which is exported to foreign countries and which is in fact manufactured by respondents;

3. Using the word "free", or any other word of similar import, to designate or describe any articles of merchandise which are not in fact given free and without charge, or otherwise representing that any merchandise is given free or without charge when such is not the fact;

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

[Docket No. 4075]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF LOGAN-CACHE KNITTING MILLS

§ 3.69 (b) *Misrepresenting oneself and goods—Goods—Identity:* § 3.69 (b) *Misrepresenting oneself and goods—Goods—Source or origin—Maker:* § 3.96 (a) *Using misleading name—Goods—Identity:* § 3.96 (a) *Using misleading name—Goods—Source or origin—Maker.* In connection with offer, etc., in commerce, of respondent's knitted wear, and among other things, as in order set forth, using the word "Loganknit" or "Loganknits" to designate or describe respondent's products, or otherwise representing, directly or by implication, that respondent's products are "Loganknits" or are the products of the Logan Knitting Mills and Garment Company, of Logan, Utah; prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Logan-Cache Knitting Mills, Docket 4075, March 9, 1942]

§ 3.69 (a) *Misrepresenting oneself and goods—Business status, advantages or connections—Connections and arrangements with others:* § 3.69 (a) *Misrepresenting oneself and goods—Business status, advantages or connections—Identity.* In connection with offer, etc., in commerce, of respondent's knitted wear, and among other things, as in order set forth, representing, directly or indirectly, that respondent is the same company as the Logan Knitting Mills and Garment Company, of Logan, Utah, or that respondent is in any manner associated or connected with said company; prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b). [Cease and desist order, Logan-Cache Knitting Mills, Docket 4075, March 9, 1942]

§ 3.6 (a) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—History:* § 3.6 (a) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Reputation, success or standing.* In connection with offer, etc., in commerce of respondent's knitted wear, and among other things, as in order set forth, representing, directly or indirectly, that respondent was established in 1890, or that it is the "Pioneer Knitters of the West", or that respondent was organized or established at any time prior to 1935; prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Logan-Cache Knitting Mills, Docket 4075, March 9, 1942]

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, testimony and other evidence taken before a trial examiner of the Commission theretofore duly designated by it, in support of the allegations of said complaint and in opposition thereto, report of the trial examiner upon the evidence, and briefs in support of and in opposition to the complaint (oral argument not having been requested), and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Logan-Cache Knitting Mills, a corporation, and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of respondent's knitted wear in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the word "Loganknit" or "Loganknits" to designate or describe respondent's products, or otherwise representing, directly or by implication, that respondent's products are "Loganknits" or are the products of the Logan Knitting Mills and Garment Company, of Logan, Utah;

2. Representing, directly or indirectly, that respondent is the same company as said Logan Knitting Mills and Garment Company, or that respondent is in any manner associated or connected with said company;

3. Representing, directly or indirectly, that respondent was established in 1890, or that it is the "Pioneer Knitters of the West", or that respondent was organized or established at any time prior to 1935.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

[Docket No. 4555]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF FELDER BROTHERS, INC., ET AL.

§ 3.66 (a 7) *Misbranding or mislabeling—Composition:* § 3.69 (b) *Misrepresenting oneself and goods—Goods—Composition:* § 3.96 (a) *Using mislead-*

ing name—Goods—Composition. In connection with offer, etc., in commerce, of leather goods, imitation leather goods, novelties, and other similar products, (1) representing in any manner that products which are not manufactured wholly from the hide of an animal are leather or genuine leather; (2) using the words or legends "Genuine Leather Composition Barkhyde," "Composition Barkhyde" or the words "Barkhyde" or "leather," or any other word or words whose spelling or written appearance simulates or suggests the word "hide" or "leather" as descriptive of the composition of any products which are not made of leather, the hide of an animal; and (3) using the words "leather" or "hide" or any simulations thereof, in connection with or as descriptive of their products, made partly of leather and partly of other materials which simulate leather, unless that part which is leather and that part which simulates leather are clearly distinguished; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Felder Brothers, Inc., et al., Docket 4555, March 12, 1942]

In the Matter of Felder Brothers, Inc., a Corporation and Abraham Felder, David Felder and Louis Felder, Individually and as Officers of Felder Brothers, Inc.

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 12th day of March, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon complaint of the Commission, the answer of the respondents and a stipulation as to the facts entered into by counsel for respondents herein and counsel for the Commission which provides, among other things, that without further evidence or other intervening procedure, the Commission may issue and serve upon the respondents herein findings as to the facts and conclusion based thereon and an order disposing of the proceeding, and the Commission having made its findings as to the facts and conclusion that the said respondents have violated the provisions of the said Federal Trade Commission Act;

It is ordered, That the respondents, Felder Brothers, Inc., a corporation, its officers, representatives, agents and employees and Abraham Felder, David Felder and Louis Felder, as individuals, and as officers of Felder Brothers, Inc., their representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of leather goods, imitation leather goods, novelties and other similar products in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing in any manner that products which are not manufactured wholly from the hide of an animal are leather or genuine leather;

2. Using the words or legends "Genuine Leather Composition Barkhyde," "Composition Barkhyde" or the words "Barkhyde" or "leather," or any other word or words whose spelling or written appearance simulates or suggests the word "hide" or "leather" as descriptive of the composition of any products which are not made of leather, the hide of an animal;

3. Using the words "leather" or "hide" or any simulations thereof, in connection with or as descriptive of their products, made partly of leather and partly of other materials which simulate leather, unless that part which is leather and that part which simulates leather are clearly distinguished.

It is further ordered, That the respondents shall, within sixty days after the service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

[Docket No. 4599]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF PRATT FOOD COMPANY

§ 3.6 (t) *Advertising falsely or misleadingly — Qualities or properties of products:* § 3.6 (x) *Advertising falsely or misleadingly—Results.* In connection with offer, etc., of respondent's "Pratt's Inhalant" and "Pratt's Poultry Regulator" for chickens, or any other similar preparations, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase in commerce, etc., of said preparations, which advertisements represent, directly or through inference that respondent's "Pratt's Inhalant" (1) constitutes a competent or effective treatment for colds in fowl; (2) helps prevent serious respiratory diseases in chickens; (3) is a germicide or has antiseptic and healing properties; and (4) prevents serious outbreaks of disease in chickens; or which advertisements represent, directly or by implication, that respondent's "Pratt's Poultry Regulator" will start all hens producing more eggs within fifteen days or within any other period of time; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Pratt Food Company, Docket 4599, March 9, 1942]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 9th day of March, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission, upon the complaint of the Commission and the answer of respondent, in which answer respondent admits all the material allegations of fact set forth in said complaint and waives all interveining procedure and further hearing as to the said facts, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Pratt Food Company, a corporation, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of its medicinal preparations for chickens designated "Pratt's Inhalant" and "Pratt's Poultry Regulator," or any other preparations of substantially similar composition or possessing substantially similar properties, whether sold under the same names or under any other names, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement (a) by means of the United States mails or (b) by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or by implication:

(1) That respondent's preparation "Pratt's Inhalant" constitutes a competent or effective treatment for colds in fowl;

(2) That "Pratt's Inhalant" helps prevent serious respiratory diseases in chickens;

(3) That "Pratt's Inhalant" is a germicide or has antiseptic and healing properties;

(4) That "Pratt's Inhalant" prevents serious outbreaks of disease in chickens;

(5) That respondent's preparation "Pratt's Poultry Regulator" will start all hens producing more eggs within fifteen days or within any other period of time.

2. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said preparations, which advertisement contains any of the representations prohibited in paragraph 1 hereof.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

[Docket No. 4660]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF SAMUEL MARTIN, LTD.

§ 3.6 (a) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Foreign status, branches, etc.:* § 3.6 (cc) *Advertising falsely or misleadingly—Source or origin—Place—Foreign in general:* § 3.66 (a 15) *Misbranding or mislabeling—Foreign branches, plants or properties:* § 3.66 (k) *Misbranding or mislabeling—Source or origin—Place—Foreign, in general.* In connection with offer, etc. in commerce, of men's clothing and blankets, (1) using the word "London" in conjunction with respondent's name or in conjunction with any trade name used by respondent, or in any manner representing that the respondent's enterprise is a British corporation or an English concern; and (2) representing in any manner, directly or indirectly, that any merchandise sold and distributed by respondent is manufactured in the British Isles, unless the merchandise so described has been manufactured in the British Isles; prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Samuel Martin, Ltd., Docket 4660, March 9, 1942]

§ 3.6 (a) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Plant and equipment:* § 3.6 (a) *Advertising falsely or misleadingly—Business status, advantages or connections of advertiser—Producer status of dealer or seller—Manufacturer:* § 3.66 (e 15) *Misbranding or mislabeling—Plant and equipment:* § 3.66 (g) *Misbranding or mislabeling—Producer status of dealer or seller:* In connection with offer, etc., in commerce, of men's clothing and blankets (1) using the words "Factory, Leeds, England" or representing in any manner that the merchandise sold and distributed by respondent is manufactured by him, unless and until the respondent actually owns and operates or directly and absolutely controls the plant or factory in which such merchandise is manufactured; and (2) representing, directly or indirectly, that respondent operates a warehouse or other building in connection with his business for the storage of imported merchandise, unless such is the fact; prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Samuel Martin, Ltd., Docket 4660, March 9, 1942]

§ 3.6 (n) *Advertising falsely or misleadingly—Nature—Product:* § 3.66 (d) *Misbranding or mislabeling—Nature.* In connection with offer, etc., in commerce, of men's clothing and blankets, using the words "Imported Hudson Bay Blankets" and "Hudson Bay Blanket" or words of similar import in connection with and as descriptive of blankets sold and distributed by respondent, unless such blankets are the same as those sold and distributed by Hudson Bay Company, incorporated under the laws of England in 1670 with its principal place of business located in Vancouver, British Columbia; prohibited. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Samuel Martin, Ltd., Docket 4660, March 9, 1942]

In the Matter of Samuel Martin, Individually and Trading as Samuel Martin, Ltd.

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 9th day of March, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent, in which answer respondent admits all the material allegations of fact set forth in said complaint, and states that he waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Samuel Martin, individually and trading as Samuel Martin, Ltd., or trading under any other name, his representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of men's clothing and blankets in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the word "London" in conjunction with respondent's name or in conjunction with any trade name used by respondent, or in any manner representing that the respondent's enterprise is a British corporation or an English concern.

2. Representing in any manner, directly or indirectly, that any merchandise sold and distributed by respondent is manufactured in the British Isles, unless the merchandise so described has been manufactured in the British Isles.

3. Using the words "Factory, Leeds, England" or representing in any manner that the merchandise sold and distributed by respondent is manufactured by him, unless and until the respondent actually owns and operates or directly and absolutely controls the plant or factory in which such merchandise is manufactured.

4. Representing, directly or indirectly, that respondent operates a warehouse or other building in connection with his business for the storage of imported merchandise, unless such is the fact.

5. Using the words "Imported Hudson Bay Blankets" and "Hudson Bay Blanket" or words of similar import in connection with and as descriptive of blankets sold and distributed by respondent, unless such blankets are the same as those sold and distributed by Hudson Bay Company, incorporated under the laws of England in 1670 with its principal place of business located in Vancouver, British Columbia.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

[Docket No. 4664]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF OLANDO MANUFACTURERS

§ 3.66 (a7) *Misbranding or mislabeling—Composition:* § 3.71 (a) *Neglecting, unfairly or deceptively, to make material disclosure—Composition:* § 3.96 (a) *Using misleading name—Goods—Composition.* In connection with offer, etc., in commerce, of sweaters, (1) representing in any manner, or by any means, that respondents' products are composed of fibers or materials other than those of which such products are actually composed; (2) using the word "Kamelo", or any word or words of similar import or meaning, alone or in conjunction or connection with the picture of a camel, to describe, designate, or in any way refer to, any product which is not composed entirely of camel hair; and (3) advertising, offering for sale or selling fabrics, garments or other products composed in whole or in part of rayon, without disclosing the fact that such fabrics or products are composed of rayon; prohibited, subject to the provision, however, as respects said second prohibition, that in case of a product composed in part of camel hair and in part of other material, such as cotton or rayon, the words "Camel Hair" or "Kamelo", or other descriptive words, may be used to designate or describe the camel hair content when immediately accompanied by a word or words in equal size and conspicuousness accurately describing or designating each constituent fiber or material thereof; and subject to further provision, as respects said third prohibition, that when such fabrics or products are composed in part of rayon and in part of other materials, such fibers or materials, including the rayon, shall be named in the order of their predominance by weight, beginning with the largest single constituent. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Olando Manufacturers, Docket 4664, March 9, 1942]

In the Matter of Herbert Nebenzahl and Irving Nebenzahl, Individually, and Trading as Olando Manufacturers

At a regular session of the Federal Trade Commission, held at its office in

the City of Washington, D. C., on the 9th day of March, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondents, in which answer respondents admit all the material allegations of fact set forth in said complaint, and state that they waive all intervening procedure and further hearing as to the said facts, and the Commission having made its findings as to the facts and conclusion that said respondents have violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondents, Herbert Nebenzahl and Irving Nebenzahl, individually and trading as Olando Manufacturers, their employees, agents and representatives, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of sweaters or other garments in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing in any manner, or by any means, that respondents' products are composed of fibers or materials other than those of which such products are actually composed;

(2) Using the word "Kamelo", or any word or words of similar import or meaning, alone or in conjunction or connection with the picture of a camel, to describe, designate, or in any way refer to, any product which is not composed entirely of camel hair: *Provided, however*, That in the case of a product composed in part of camel hair and in part of other material, such as cotton or rayon, the words "Camel Hair" or "Kamelo", or other descriptive words, may be used to designate or describe the camel hair content when immediately accompanied by a word or words in equal size and conspicuousness accurately describing or designating each constituent fiber or material thereof;

(3) Advertising, offering for sale or selling fabrics, garments or other products composed in whole or in part of rayon, without disclosing the fact that such fabrics or products are composed of rayon, and when such fabrics or products are composed in part of rayon and in part of other materials, such fibers or materials, including the rayon, shall be named in the order of their predominance by weight, beginning with the largest single constituent.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary*.

TITLE 30—MINERAL RESOURCES

CHAPTER III—BITUMINOUS COAL DIVISION

[Docket No. A-1132]

PART 334—MINIMUM PRICE SCHEDULE, DISTRICT NO. 14

ORDER GRANTING RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 14 FOR REVISION OF THE EFFECTIVE PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS PRODUCED AT MINE INDEX NO. 511 OPERATED BY PARIS PURITY COAL CO., A CODE MEMBER IN DISTRICT NO. 14

A petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been filed with the Bituminous Coal Division by District Board 14, requesting a revision of the price classifications and minimum prices for the coals produced at the No. 6 Mine (Mine Index No. 511) of the Paris Purity Coal Company, a code member in District 14;

A petition of intervention having been filed by the Paris Purity Coal Company;

Depositions of deponents for both the petitioner and intervenor having been taken before Ira D. Oglesby, a United States Commissioner, at the office of the Circuit Court in Fort Smith, Arkansas;

A hearing in this matter having been held pursuant to Orders of the Director and Acting Director, and after notice to all interested persons, before Floyd McGown, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C., and all interested persons having been afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

All parties having waived the preparation and filing of a report by the Examiner, and the record thereupon having been submitted to the undersigned;

The undersigned having made Findings of Fact and Conclusions of Law and having rendered an Opinion, which are filed herewith;

Now, therefore, it is ordered, That § 334.5 (*Alphabetical list of code members*) in the Schedule of Effective Minimum Prices for District No. 14 for All Shipments Except Truck be, and it hereby is, amended, effective fifteen (15) days from the date hereof as follows:

1. By deleting therefrom the present price classifications for the coals produced by No. 6 Mine (Mine Index No. 511) of the Paris Purity Coal Co. in Size Groups 3, 6, 7, 8, 18, and 19.

2. By establishing the following price classifications for the coals produced by the No. 6 Mine (Mine Index No. 511) of the Paris Purity Coal Co. and by assigning the corresponding minimum prices thereto:

Size groups	4	6	7	8	9	10	11	13	17	18
Price classifications	I	J	J	J	J	G	F	D	A	L

It is further ordered, That § 334.24 (*General prices for shipment into all market areas*) in the Schedule of Effective Minimum Prices for District No. 14 for Truck Shipments be, and it hereby is, amended, effective fifteen (15) days from the date hereof, as follows:

1. By deleting therefrom the present effective minimum prices for the coals produced by No. 6 Mine (Mine Index No. 511) of the Paris Purity Coal Co. in Size Groups 3, 6, 7, 8, 18, and 19.

2. By establishing the following minimum prices for the coals produced by the No. 6 Mine (Mine Index No. 511) of the Paris Purity Coal Co.:

Size groups	4	6	7	8	9	10	11	13	17	18
Minimum prices	415	415	415	415	390	370	355	200	185	335

It is further ordered, That in all other respects the prayers for relief contained in the petition filed herein be, and they hereby are, denied.

Dated: March 13, 1942.

[SEAL] DAN H. WHEELER, *Acting Director*.

[F. R. Doc. 42-2248; Filed, March 16, 1942; 10:37 a. m.]

[Docket No. A-1231]

PART 339—MINIMUM PRICE SCHEDULE, DISTRICT NO. 19

ORDER GRANTING RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 19, FOR REVISION OF THE PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS PRODUCED AT MINE INDEX NOS. 7 AND 203, FOR SHIPMENT BY TRUCK, IN DISTRICT NO 19

A petition having been filed with the Bituminous Coal Division pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, by the Bituminous Coal Producers Board for District No. 19; the petition requesting a reduction in the effective minimum prices of coal produced for truck shipment by the Twin Creeks Mine and Elkol Mine in District 19, Subdistrict 1;

A hearing having been held in this matter on January 28, 1942, before D. C. McCurtain, a designated Examiner of the Division, at a hearing room of the Division in Cheyenne, Wyoming, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

The preparation and filing of a report by the Examiner having been waived and the record thereupon having been submitted to the Acting Director;

The Acting Director having made Findings of Fact and Conclusions of Law and having rendered an Opinion which are filed herewith;

Now, therefore, it is ordered, That effective fifteen (15) days from the date hereof § 339.21 (*General prices in cents per net ton for shipment into all market areas*) in the Schedule of Effective Minimum Prices for District No. 19 for Truck Shipments, be and the same is hereby amended by reducing the established minimum f. o. b. mine prices for the coal produced by the Twin Creeks Mine (Mine Index No. 203), operated by Mike Mecca, and the Elkol Mine (Mine Index No. 7), operated by the Kemmerer Coal Company, in Subdistrict 1 of District 19, for shipment by truck, as follows:

Size group	1	2	3	4	5	6	7	8	9	10	11	12	15	16	17
From: Prices	400	400	385	370	370	370	310	275	225	225	210	275	185	185	125
To: Prices	325	325	325	310	310	310	275	235	185	185	185	175	175	175	100

Dated: March 14, 1942.

[SEAL] DAN H. WHEELER, *Acting Director*.

TITLE 31—MONEY AND FINANCE: TREASURY

CHAPTER I—MONETARY OFFICES

PART 131—GENERAL LICENSES UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO

PUBLIC CIRCULAR NO. 17 UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO, RELATING TO TRANSACTIONS IN FOREIGN EXCHANGE, ETC.

MARCH 13, 1942.

General License No. 13[1] is hereby amended as follows:

(a) By deleting the word "Java" from subdivisions (a) and (b) of paragraph (1) thereof; and

(b) By deleting subdivisions (c) and (d) from paragraph (1) thereof.

(2) General License No. 15[2] is hereby amended as follows:

(a) By deleting the words "between the United States and the Netherlands East Indies and" from paragraph (1) thereof; and

(b) By deleting the words "such areas" from subdivisions (a) and (b) of paragraph (1) thereof and substituting therefor the words "the Netherlands West Indies".

(3) General License No. 20[3] is hereby amended by deleting the words "the Netherlands East Indies or" from the first paragraph thereof.

(4) General License No. 21[4] is hereby amended by deleting the words "the Netherlands East Indies or" from paragraph (1) thereof.

(5) For the purpose of administering the Order and complying with the provisions thereof, the Netherlands East Indies shall continue to be regarded as a part of the Netherlands and not as a part of the territory of any other blocked country.

(6) Attention is directed to the fact that, by reason of temporary control and occupation by the military, naval, and police forces and other authority of Japan, the Netherlands East Indies is no longer included within the generally licensed trade area as defined in General License No. 53.[5] General License No. 53 is hereby amended by deleting the words "the Netherlands East Indies" from subdivision (a) of paragraph (3) thereof. (Sec. 5 (b), 40 Stat. 415 and 966; sec. 2, 48 Stat. 1; 54 Stat. 179; Public, No. 354, 77th Congress; E.O. 8389, April 10, 1940, as amended by E.O. 8785, June 14, 1941, E.O. 8832, July 26, 1941, E.O. 8963, December 9, 1941, and E.O. 8998, December 26, 1941; Regulations, April 10, 1940, as amended June 14, 1941, and July 26, 1941)

E. H. FOLEY, Jr., *Acting Secretary of the Treasury*.

[F. R. Doc. 42-2233; Filed, March 14, 1942; 12:17 p. m.]

PART 132—GENERAL RULINGS UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO

GENERAL RULING NO. 6A, UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO, RELATING TO TRANSACTIONS IN FOREIGN EXCHANGE, ETC., AND SECTION 5 (b) OF THE TRADING WITH THE ENEMY ACT, AS AMENDED, BY THE FIRST WAR POWERS ACT

MARCH 13, 1942.

§ 132.6a *General Ruling No. 6A.* United States and foreign currency sent, mailed, imported or otherwise brought into the United States from any blocked country not within the generally licensed trade area, or from, by, or on behalf of any person whose name appears on "The Proclaimed List of Certain Blocked Nationals", and the receiving or holding in the United States of such currency so brought into the United States shall be subject to the provisions of General Rulings Nos. 5 and 6 in the same manner as if such currency were securities. (Sec. 5 (b), 40 Stat. 415 and 966; sec. 2, 48 Stat. 1; 54 Stat. 179; Public, No. 354, 77th Congress, 55 Stat. 838; E.O. 8389, April 10, 1940, as amended by E.O. 8785, June 14, 1941, E.O. 8832, July 26, 1941, E.O. 8963, December 9, 1941, and E.O. 8998, December 26, 1941; Regulations, April 10, 1940, as amended June 14, 1941, and July 26, 1941)

E. H. FOLEY, Jr., *Acting Secretary of the Treasury*.

TITLE 32—NATIONAL DEFENSE

CHAPTER VI—SELECTIVE SERVICE SYSTEM

[Amendment No. 19, 2d Edition]

PART 611—DUTY AND RESPONSIBILITY TO REGISTER

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 611,[1] in the following respects:

1. By adding a new subheading at the beginning of the table of contents and preceding §§ 611.1 to 611.5, inclusive, to read as follows: "*In General.*"

2. By changing the title of § 611.3 in the table of contents to read: "*Every male person entering the United States must register.*"

3. By deleting § 611.3 and substituting therefor the following:

§ 611.3 *Every male person entering the United States must register.* Every male citizen and every other male person, except a person within one of the categories specifically excepted by the provisions of § 611.13, who is within the age group of persons who have been required by the first or any subsequent proclamation of the President to present themselves for and submit to registration and who is not within one of the several States of the United States, the District of Columbia, Alaska, Hawaii, or Puerto Rico on the day fixed for registration of persons within such age groups shall present himself for and submit to registration before a local board when he thereafter returns to or for the first time enters any State of the United States, the District of Columbia, Alaska, Hawaii, or Puerto Rico. (54 Stat. 885; 50 U.S.C., Sup. 301-318, inclusive; E.O. 8545, 5 F.R. 3779)

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY, *Director*.

FEBRUARY 15, 1942.

[F. R. Doc. 42-2255; Filed, March 16, 1942; 11:12 a. m.]

[1] 6 F.R. 6841; 7 F.R. 855.

[1] 6 F.R. 2788, 6792.
[2] 6 F.R. 2789.
[3] 5 F.R. 2308; 6 F.R. 3349.
[4] 6 F.R. 2790.
[5] 6 F.R. 3946, 6792.

[Amendment No. 20, 2d Edition]

PART 611—DUTY AND RESPONSIBILITY TO REGISTER

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 611,[1] in the following respects:

1. By adding at the end of the table of contents two new subheadings and fourteen new sections as follows:

PROCEDURE FOR DETERMINING WHEN ALIEN IS RESIDING IN THE UNITED STATES

Sec.
611.21 What aliens may apply for a determination.
611.22 Determination by local board.
611.23 Appeal to Director of Selective Service from local board's determination.
611.24 Determination by Director of Selective Service.
611.25 Action of local board following determination by Director of Selective Service.
611.26 Alien's second or subsequent application for determination.
611.27 Effect of pending application.
611.28 Effect of determination.

ALIEN'S CERTIFICATE OF NONRESIDENCE

611.31 Care and custody of certificates.
611.32 Register of nonresident aliens.
611.33 The effect of failure to have certificate in personal possession.
611.34 Wrongful possession of, or making, altering, forging, or counterfeiting, certificate prohibited.
611.35 Issuing a duplicate of a lost, mislaid, stolen, or destroyed certificate.
611.36 Surrender of certificate before leaving the United States.

2. By adding the following eight new sections to this part:

PROCEDURE FOR DETERMINING WHEN ALIEN IS RESIDING IN THE UNITED STATES

§ 611.21 *What aliens may apply for determination.* (a) Within the time specified in paragraph (b) of this section, a nondeclarant alien who has entered or hereafter enters the United States in a manner prescribed by its laws may file with his local board (if he is registered) or with the local board where he is at the time located (if he is not registered) an Alien's Application for Determination of Residence (Form 302), requesting that the local board determine whether he is "a male person residing in the United States" within the meaning of section 2 and section 3 of the Selective Training and Service Act of 1940, as amended. An Alien's Personal History and Statement (Form 304) must be filed with such application.

(b) An Alien's Application for Determination of Residence (Form 302) must be filed within the following time:

(1) If a nondeclarant alien has entered the United States prior to February 16, 1942, in a manner prescribed by the laws of the United States and desires to have a determination made under the provisions of paragraph (a) of this section, he must file such application on or before May 16, 1942; or

(2) If a nondeclarant alien enters the United States on or after February 16, 1942, in a manner prescribed by the laws of the United States and desires to have a determination made under the provisions of paragraph (a) of this section, he must file such application within 3 months after the date of his entrance into the United States.*

*Issued under the authority contained in 54 Stat. 885; 50 U.S.C. Sup. 301–318, incl.; E.O. 8545, 5 F.R. 3779.

§ 611.22 *Determination by local board.* (a) As soon as possible after an alien who is entitled to do so files with the local board an Alien's Application for Determination of Residence (Form 302), together with an Alien's Personal History and Statement (Form 304), the local board shall determine whether such alien is "a male person residing in the United States" within the meaning of section 2 and section 3 of the Selective Training and Service Act of 1940, as amended.

(b) If the local board determines that such alien is "a male person residing in the United States" within the meaning of section 2 and section 3 of the Selective Training and Service Act of 1940, as amended, it shall mail to such alien a Notice of Determination of Alien's Residence (Form 305).

(c) If the local board determines that such alien is not "a male person residing in the United States" within the meaning of section 2 or section 3 of the Selective Training and Service Act of 1940, as amended, it shall also determine the period of time such alien may continue to remain in the United States without becoming "a male person residing in the United States," and the last day of any period thus determined shall be known as the expiration date.

(d) When the determination referred to in paragraph (c) of this section has been made by the local board, it shall (1) prepare an Alien's Certificate of Nonresidence (Form 303), recording thereon the expiration date; (2) notify the alien to report to the office of the local board; and (3) require the alien, when he reports, to sign the Alien's Certificate of Nonresidence (Form 303) in the presence of a member or the clerk of the local board. The member or the clerk of the local board in whose presence the alien signs the Alien's Certificate of Nonresidence (Form 303) shall then sign the certificate on behalf of the local board and shall deliver the certificate to the alien. If the alien has registered, he shall be required to surrender his Registration Certificate (Form 2) to the local board before such member or clerk delivers the Alien's Certificate of Nonresidence (Form 303) to him. If the alien has registered and delivers his Registration Certificate (Form 2) to the local board, such Registration Certificate (Form 2) and the Registration Card (Form 1) for the alien shall be canceled by marking across the faces thereof the words "Canceled—Nonresident Alien," and each such canceled Registration Certificate (Form 2) and such canceled Registration Card (Form 1) shall be retained in the files of the local board.*

§ 611.23 *Appeal to Director of Selective Service from local board's determination.* (a) At any time within 10 days after the local board mails to an alien a Notice of Determination of Alien's Residence (Form 305), such alien may appeal to the Director of Selective Service from the determination of the local board that he is "a male person residing in the United States" within the meaning of section 2 and section 3 of the Selective Training and Service Act of 1940, as amended. Such appeal may be taken by such alien by filing a signed written statement that he appeals from such determination or by signing and filing the statement of appeal on the Notice of Determination of Alien's Residence (Form 305). When such an appeal is filed by the alien, he may, at the same time, file such additional information as he wishes to call to the attention of the Director of Selective Service.

(b) The Director of Selective Service or the State Director of Selective Service may appeal to the Director of Selective Service at any time from any determination of the local board made under the provisions of § 611.22. Either the Director of Selective Service or the State Director of Selective Service may take such an appeal by filing with the local board a written statement that he appeals.

(c) When an appeal from a determination made by the local board under the provisions of § 611.22 is taken, the local board shall transmit the entire file of the alien, through the State Director of Selective Service, to the Director of Selective Service, retaining in its records only a copy of the letter of transmittal listing the items contained in the file which is forwarded.*

§ 611.24 *Determination by Director of Selective Service.* When an appeal has been taken under the provisions of § 611.23, the Director of Selective Service, upon receiving the file, shall determine whether the alien is "a male person residing in the United States" within the meaning of section 2 and section 3 of the Selective Training and Service Act of 1940, as amended. If he determines that the alien is not such "a male person residing in the United States," he shall also determine the period of time the alien may continue to remain in the United States without becoming such "a male person residing in the United States," and the last day of any period thus determined shall be known as the expiration date. He shall enter a record of each of his determinations upon the Alien's Application for Determination of Residence (Form 302) and return the file, through the State Director of Selective Service, to the local board.*

§ 611.25 *Action of local board following determination by Director of Selective Service.* (a) Immediately upon receipt of the file containing the determination made by the Director of Selective Service under the provisions of § 611.24, the local board shall:

(1) Prepare and mail to the alien a Notice of Determination of Alien's Residence (Form 305) if the Director of Selective Service has determined that such alien is "a male person residing in the United States" within the meaning of section 2 and section 3 of the Selective Training and Service Act of 1940, as amended; or

(2) Prepare and deliver to the alien, in the manner prescribed in paragraph (d) of § 611.22, an Alien's Certificate of Nonresidence (Form 303) if the Director of Selective Service has determined that such alien is not "a male person residing in the United States" within the meaning of section 2 or section 3 of the Selective Training and Service Act of 1940, as amended.*

§ 611.26 *Alien's second or subsequent application for determination.* (a) Any alien who has received an Alien's Certificate of Nonresidence (Form 303) under the provisions of § 611.22 or § 611.25 may again file with the local board issuing such certificate at any time before the expiration date of such certificate a new Alien's Application for Determination of Residence (Form 302), together with any information not previously presented to such local board which he believes will assist the local board to determine his status.

(b) The local board, upon receiving such a second or subsequent Alien's Application for Determination of Residence (Form 302), shall consider whether, in the light of all the facts then before it, such alien has in fact become "a male person residing in the United States" within the meaning of section 2 and section 3 of the Selective Training and Service Act of 1940, as amended. If it is determined that such alien has not become such "a male person residing in the United States," the local board shall also determine the period of time that such alien may thereafter remain in the United States without becoming such "a male person residing in the United States," and the last day of such period shall become the new expiration date.

(c) The determination of the local board upon such second or subsequent Alien's Application for Determination of Residence (Form 302) shall be subject to the same rights of appeal to the Director of Selective Service as a determination by the local board upon an original application. (*See* § 611.23.)

(d) When a local board makes a determination upon such a second or subsequent Alien's Application for Determination of Residence (Form 302), it shall take the same steps as it takes following an original determination upon such an application. (*See* § 611.22.) When an appeal is taken from a determination by a local board on such a second or subsequent Alien's Application for Determination of Residence (Form 302) and the Director of Selective Service makes a determination thereon, the local board shall take the same steps as it takes following an original determination on appeal, as provided in § 611.25.*

§ 611.27 *Effect of pending application.* When an alien is entitled to and does file an Alien's Application for Determination of Residence (Form 302), he is not required to present himself for and submit to registration during the period when such application is being considered by the local board; during the period within which an appeal may be taken from the determination of the local board to the Director of Selective Service; or, if an appeal is taken, during the period the Director of Selective Service is considering the appeal.*

§ 611.28 *Effect of determination.* (a) Every alien who is entitled to and does file an Alien's Application for Determination of Residence (Form 302) shall be "a male person residing in the United States" within the meaning of section 2 and section 3 of the Selective Training and Service Act of 1940, as amended, when:

(1) The local board has determined that he is such "a male person residing in the United States" and he does not take an appeal to the Director of Selective Service from such determination within the 10-day period in which he is permitted to do so.

(2) The Director of Selective Service has determined that he is such "a male person residing in the United States."

(3) Either the local board or the Director of Selective Service has determined that he is not such "a male person residing in the United States" and he remains in the United States after the expiration date: *Provided*, That when such alien files a second or subsequent Alien's Application for Determination of Residence (Form 302) before the expiration date, he shall not be considered to be such "a male person residing in the United States" either while such second or subsequent application for a determination is pending or during any further period for which a new Alien's Certificate of Nonresidence (Form 303) is issued as a result of the determination thereon.*

3. By adding the following six new sections to this part:

ALIEN'S CERTIFICATE OF NONRESIDENCE

§ 611.31 *Care and custody of certificates.* (a) The Director of Selective Service shall transmit to each State Director of Selective Service an adequate supply of Alien's Certificates of Nonresidence (Form 303). Each State Director of Selective Service shall give a receipt for the exact number of Alien's Certificates of Nonresidence (Form 303) received by him and shall be accountable for such number of certificates.

(b) The State Director of Selective Service shall distribute to the chairman of each local board in his State an adequate supply of Alien's Certificates of Nonresidence (Form 303). The chairman of each local board shall be charged with the care and custody of the Alien's Certificates of Nonresidence (Form 303) distributed to his local board, shall give a receipt to the State Director of Selective Service for the exact number of such certificates received by him, and shall be accountable for that number of certificates. The chairman of the local board shall guard against the loss or destruction of such certificates, shall not permit anyone to tamper with them, and shall warn all concerned against entrusting them to the custody of any unauthorized person.*

§ 611.32 *Register of nonresident aliens.* (a) The local board shall maintain a register of nonresident aliens showing the disposition made of each Alien's Certificate of Nonresidence (Form 303). No particular form is provided for such register. The certificates that are issued by the local board shall be numbered consecutively, and the register shall show the number and expiration date of the certificate and the name, address, and nationality of the person to whom it has been issued. The local board shall send to the State Director of Selective Service the name, address, and nationality of each person to whom it issues an Alien's Certificate of Nonresidence (Form 303), together with the number and expiration date placed upon such certificate by the local board. The letter of the local board transmitting this information to the State Director of Selective Service shall be in duplicate. If any Alien's Certificate of Nonresidence (Form 303) is spoiled, it shall be forwarded to the State Director of Selective Service, together with a letter of transmittal executed in duplicate. The State Director of Selective Service shall credit the local board for each certificate issued by the local board and for each spoiled certificate transmitted to him by the local board.

(b) The State Director of Selective Service shall maintain a register showing the names, addresses and nationalities of individuals to whom Alien's Certificates of Nonresidence (Form 303) have been issued in his State, the name or number of the local board issuing the certificates, and the number and expiration date of each individual certificate issued by each local board. The State Director of Selective Service shall forward to the Director of Selective Service the duplicate copy of each letter transmitting a spoiled certificate or reporting the issuance of a certificate by a local board.*

§ 611.33 *The effect of failure to have certificate in personal possession.* Every alien receiving an Alien's Certificate of Nonresidence (Form 303) under the provisions of paragraph (d) of § 611.22 must have such certificate in his personal possession at all times and, upon request, must exhibit it to any law-enforcement officer, any official of National Headquarters for Selective Service or of a State Headquarters for Selective Service, or any member of the local board or board of appeal. The failure of any such person to have such an Alien's Certificate of Nonresidence (Form 303) in his personal possession or to exhibit it upon the request of any officer, official, or board member authorized in this paragraph to make such request shall constitute a violation of these regulations. The failure of any alien to have an Alien's Certificate of Nonresidence (Form 303) in his personal possession shall be prima facie evidence that such a certificate has not been issued to him.*

§ 611.34 *Wrongful possession of, or making, altering, forging, or counterfeiting, certificate prohibited.* It shall be a violation of these regulations for any person to have in his possession an Alien's

[1] 6 F.R. 6341; 7 F.R. 855.

Certificate of Nonresidence (Form 303) issued to some other person, or to permit an Alien's Certificate of Nonresidence (Form 303) issued to him to be in the possession of any other person; or to falsely make, alter, forge, or counterfeit, or cause or procure to be falsely made, altered, forged, or counterfeited, or to willingly aid or assist another to falsely make, alter, forge, or counterfeit, any Alien's Certificate of Nonresidence (Form 303); or to utter or publish as true, or cause to be uttered or published as true, or have in his possession with the intent to utter or publish as true, any such false, altered, forged, or counterfeited Alien's Certificate of Nonresidence (Form 303); or to exhibit or present to any person any such false, altered, forged, or counterfeited Alien's Certificate of Nonresidence (Form 303), knowing the same to be false, forged, altered, or counterfeited.*

§ 611.35 *Issuing a duplicate of a lost, mislaid, stolen, or destroyed certificate.* The local board which issued an Alien's Certificate of Nonresidence (Form 303) may issue a duplicate certificate upon receiving satisfactory proof from and a sworn statement of the alien to whom it was issued that the original certificate has been lost, mislaid, stolen, or destroyed; that the alien has made a diligent search for the certificate; and that he has been unable to find it. Each such duplicate certificate shall be marked "Duplicate," and the fact that it has been issued shall be noted upon the sworn statement of the alien and placed in the alien's file.*

§ 611.36 *Surrender of certificate before leaving the United States.* (a) Every alien to whom an Alien's Certificate of Nonresidence (Form 303) has been issued shall surrender such certificate to an official of the Immigration and Naturalization Service of the Department of Justice at the place of departure before he leaves the United States. No male person who is within the age group of persons required by the first or any subsequent proclamation of the President to present themselves for and submit to registration and who has been in the United States for a period of more than 3 months shall leave or be permitted to leave the United States until he surrenders his Alien's Certificate of Nonresidence (Form 303), showing an expiration date on or subsequent to the date of his departure, or exhibits a Registration Certificate (Form 2), unless he is in one of the categories specifically set forth in subparagraphs (1), (2), (3), (4), or (5) of § 611.13.*

(b) The official of the Immigration and Naturalization Service of the Department of Justice will immediately forward each such Alien's Certificate of Nonresidence (Form 303) to the Director of Selective Service.

(c) Upon receipt of the Alien's Certificate of Nonresidence (Form 303) from an official of the Immigration and Naturalization Service of the Department of Justice, the Director of Selective Service shall mark across the face of such certificate "Canceled—Alien Departed" and shall transmit such canceled certificate to the issuing local board through the State Director of Selective Service. Both the State Director of Selective Service and the local board shall enter in their registers of nonresident aliens the date when the Alien's Certificate of Nonresidence (Form 303) was canceled by the Director of Selective Service.*

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

[Amendment No. 30, 2d Edition]

PART 611—DUTY AND RESPONSIBILITY TO REGISTER

As Director of Selective Service I hereby amend the Selective Service Regulations, Second Edition, Part 611,[1] in the following respects:

1. By adding a new section to the table of contents after § 611.28 as follows:

611.29 Director of Selective Service may cancel certain alien's Registration Cards.

2. By adding a new section to this part after § 611.28 as follows:

§ 611.29 *Director of Selective Service may cancel certain alien's Registration Cards.* (a) When the Director of Selective Service is satisfied that an alien who is not residing in the United States has inadvertently or erroneously registered, he may direct the local board to cancel such alien's registration upon the surrender to the local board of such alien's Registration Certificate (Form 2).

(b) When the Director of Selective Service directs a local board to cancel the registration of an alien, the local board shall mark across the face of the Registration Card (Form 1) "Canceled—Nonresident Alien—Request of Director" and shall file such canceled Registration Card (Form 1), together with the canceled Registration Certificate (Form 2) of such alien, in the records of the local board. (54 Stat. 885; 50 U.S.C., Supp. 301-318, inclusive; E.O. 8545, 5 F.R. 3779.)

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

[Amendment No. 21, 2d Edition]

PART 617—REGISTRATION CERTIFICATE

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 617,[1] in the following respects:

1. By deleting the present subheading at the beginning of the table of contents and preceding § 617.1 and substituting therefor the following: "*In General.*"

2. By adding a new section to the table of contents after § 617.1 as follows: "617.2 Wrongful possession of, or making, altering, forging, or counterfeiting, Registration Certificates prohibited."

3. By adding a new section to this part after § 617.1 reading as follows:

§ 617.2 *Wrongful possession of, or making, altering, forging, or counterfeiting, Registration Certificates prohibited.* It shall be a violation of these regulations for any person to have in his possession a Registration Certificate (Form 2) issued to some other person, or to permit a Registration Certificate (Form 2) issued to him to be in the possession of any other person; or to falsely make, alter, forge, or counterfeit, or cause or procure to be falsely made, altered, forged, or counterfeited, or to willingly aid or assist another to falsely make, alter, forge, or counterfeit, any Registration Certificate (Form 2); or to utter or publish as true, or cause to be uttered or published as true, or have in his possession with the intent to utter or publish as true, any such false, altered, forged, or counterfeited Registration Certificate (Form 2); or to exhibit or present to any person any such false, altered, forged, or counterfeited Registration Certificate (Form 2), knowing the same to be false, forged, altered, or counterfeited. (54 Stat. 885; 50 U.S.C., Sup. 301-318, inclusive; E.O. 8545, 5 F.R. 3779)

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

FEBRUARY 15, 1942.

[F. R. Doc. 42-2257; Filed, March 16, 1942; 11:13 a. m.]

[Amendment No. 35, 2d Edition]

PART 621—QUESTIONNAIRE AND OTHER INFORMATION TO BE USED IN CLASSIFYING REGISTRANTS

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 621,[1] in the following respects:

1. By adding a new subheading at the beginning of the table of contents and preceding §§ 621.1 to 621.9, inclusive, to read as follows: "*Questionnaire and General Information.*"

2. By adding at the end of the table of contents a new subheading and seven new sections as follows:

OCCUPATIONAL QUESTIONNAIRE

Sec.
621.11 Mailing occupational questionnaire.
621.12 Time allowed to return occupational questionnaire.
621.13 Correction and completion of inadequate occupational questionnaire.
621.14 Assistance in filling out occupational questionnaire.

[1] 6 F.R. 6841; 7 F.R. 855.
[1] 7 F.R. 395, 652.

[1] 6 F.R. 6606; F.R. 652.

Sec.
621.15 Local board action upon receipt of a completed occupational questionnaire.
621.16 Distribution of page numbered 1 and 2 of occupational questionnaire.
621.17 Use of information contained in occupational questionnaire.

3. By adding the following seven new sections to this part:

OCCUPATIONAL QUESTIONNAIRE

§ 621.11 *Mailing occupational questionnaire.* (a) The Director of Selective Service will determine the time when and the group of registrants to whom Selective Service Occupational Questionnaires (Form 311) shall be mailed. At the time fixed by the Director of Selective Service the local board shall mail a Selective Service Occupational Questionnaire (Form 311) to each registrant who is in the group specified by the Director of Selective Service.

(b) When a Selective Service Occupational Questionnaire (Form 311) is mailed to a registrant prior to his being listed in the Classification Record (Form 100), the date of mailing shall be noted on the List of Registrants (Form 3). After the Classification Record (Form 100) has been prepared, the date of mailing shall be noted thereon in one of the blank columns of the Insert Page (Form 100A).*

*Issued under the authority contained in 54 Stat. 885; 50 U.S.C., Sup. 301-318, inclusive; E.O. 8545, 5 F.R. 3779.

§ 621.12 *Time allowed to return occupational questionnaire.* (a) Unless the local board grants an extension of time, as explained below, the registrant shall complete the Selective Service Occupational Questionnaire (Form 311) and return it to his local board within 10 days from the date it is mailed to him.

(b) If the registrant has a valid reason, the local board may grant an extension of time for returning such form. Examples of valid reasons are:

Too sick to answer the Selective Service Occupational Questionnaire (Form 311).

Too far away to receive and return the Selective Service Occupational Questionnaire (Form 311) by mail within 10 days.*

§ 621.13 *Correction and completion of inadequate occupational questionnaire.* When needed information is omitted, material errors are made, or the answers show that the registrant failed to understand the questions, the local board shall return the Selective Service Occupation Questionnaire (Form 311) to the registrant, with instructions to correct and complete it before a specified date. The registrant shall correct and complete such form and return it to the local board before the specified date.*

§ 621.14 *Assistance in filling out occupational questionnaire.* A registrant who needs assistance in filling out his Selective Service Occupational Questionnaire (Form 311) may secure the help of his employer, his labor union, the United States Employment Service, or the advisory board for registrants. Local boards should direct any registrant requesting assistance to these agencies and should encourage all newspapers, broadcasting stations, and other avenues of publicity to give the widest possible notice to the fact that such agencies are available to assist registrants to properly complete their Selective Service Occupational Questionnaires (Form 311).*

§ 621.15 *Local board action upon receipt of a completed occupational questionnaire.* (a) When a completed Selective Service Occupational Questionnaire (Form 311) has been received from a registrant, the local board shall enter the date of receipt on the Classification Record (Form 100) in one of the blank columns of the Insert Page (Form 100A); shall separate the page numbered 1 and 2 from the page numbered 3 and 4; and shall retain and file the page numbered 3 and 4

(b) The page numbered 1 and 2 shall be torn in two along the perforation and the two portions distributed as provided in § 621.16.*

§ 621.16 *Distribution of page numbered 1 and 2 of occupational questionnaire.* (a) Before forwarding the two portions of page 1 and 2 of the Selective Service Occupational Questionnaire (Form 311), the local board shall prepare a Covering Memorandum for Occupational Questionnaire (Form 312) in quintuplicate.

(b) The top portion of the Selective Service Occupational Questionnaire (Form 311) shall be forwarded to the Director of Selective Service with the original and one copy of a Covering Memorandum for Occupational Questionnaire (Form 312).

(c) The bottom portion of the Selective Service Occupational Questionnaire (Form 311) shall be forwarded to the office of the United States Employment Service designated by the Director of Selective Service, together with a copy of the Covering Memorandum for Occupational Questionnaire (Form 312).

(d) A copy of the Covering Memorandum for Occupational Questionnaire (Form 312) shall be forwarded to the State Director of Selective Service and the remaining copy shall be filed in the records of the local board.*

§ 621.17 *Use of information contained in occupational questionnaire.* Information contained in the Selective Service Occupational Questionnaire (Form 311) may be considered in determining a registrant's classification.*

LEWIS B. HERSHEY,
Director.

[Amendment No. 22, 2d Edition]

PART 622—CLASSIFICATION

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 622,[1] by deleting § 622.42 and substituting therefor the following:

§ 622.42 *Class IV-B: Official deferred by law.* In Class IV-B shall be placed any registrant who is the Vice President of the United States, a Governor of a State, any other State official chosen by the voters of the entire State, a member of the Congress of the United States, a member of a State legislative body, a judge of a court of record of the United States or of a State; or who is a commissioned officer, warrant officer, pay clerk, or enlisted man in the Coast and Geodetic Survey or in the Public Health Service; or who is a cadet of the advanced course, senior division, of the Reserve Officers' Training Corps or the Naval Reserve Officers' Training Corps. (54 Stat. 885; 50 U.S.C., Sup. 301-318, inclusive; E.O. 8545, 5 F.R. 3779.)

Effective immediately upon the filing hereof with the Division of the FEDERAL REGISTER.

LEWIS B. HERSHEY,
Director.

FEBRUARY 15, 1942.

[F. R. Doc. 42-2258; Filed, March 16, 1942; 11:13 a. m.]

[Amendment No. 23, 2d Edition]

PART 622—CLASSIFICATION

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 622,[1] in the following respects:

1. By changing the title of § 622.43 in the table of contents to read: "Class IV-C: Neutral aliens requesting relief from training and service and aliens not acceptable to the armed forces."

2. By changing the designation of Class IV-C appearing in § 622.1 to read: "Class IV-C: Neutral aliens requesting relief from training and service and aliens not acceptable to the armed forces."

3. By deleting § 622.43 and substituting therefor the following:

§ 622.43 *Class IV-C: Neutral aliens requesting relief from training and service and aliens not acceptable to the armed forces.* (a) The classification of all registrants who were classified in Class IV-C under the regulations in effect prior to the adoption of this amendment shall be reopened and each such registrant shall be classified anew.

(b) When an alien registrant who is a citizen or subject of a neutral country (*see* § 601.2) prior to his induction into the land or naval forces of the United States files with his local board an original and one copy of an Application by Alien for Relief from Military Service (Form 301) completely filled out, signed, and sworn to, he shall be placed in Class IV-C; shall be relieved from liability for training and service under the Selective Training and Service Act of 1940, as amended; and shall thereafter be debarred from becoming a citizen of the United States. The local board shall forward the original of each Application by Alien for Relief from Military Service (Form 301) filed by such an alien to the State Director of Selective Service for

[1] 6 F.R. 6607, 6766; 7 F.R. 652.

[1] 6 F.R. 6607, 6766; 7 F.R. 652.

transmittal, through the Director of Selective Service, to the Immigration and Naturalization Service of the Department of Justice and shall retain the copy in the registrant's Cover Sheet (Form 53).

(c) The classification of an alien registrant who is now or hereafter classified in Class I–A, Class I–A–O, Class I–B, or Class I–B–O shall be changed to Class IV–C if the land or naval forces, when reviewing his Alien's Personal History and Statement (Form 304) under the procedure prescribed by §§ 623.71 to 623.76, inclusive, refuse to accept him for training and service under the Selective Training and Service Act of 1940, as amended.

(d) Any registrant who claims that he is not a national of the United States as defined in § 601.2 but is a citizen or subject of some other country must submit proof of such status to the local board in the form of a birth certificate, passport, entry permit, alien registration certificate, or other information required by the local board.

(e) If a registrant is a national of the United States as defined in § 601.2 but also claims that he is a citizen or subject of some other country, such claim shall be disregarded and he shall be classified as a national of the United States.

(f) If the local board is in doubt as to whether a registrant is a national of the United States as defined in § 601.2 or is a citizen or subject of some other country or is in doubt as to any other question involving the nationality of a registrant, it should request the advice of the Immigration and Naturalization Service of the Department of Justice by transmitting such request, through the State Director of Selective Service, to the Director of Selective Service. (54 Stat. 885; 50 U.S.C., Sup. 201–318, inclusive; E.O. 8545, 5 F.R. 3779)

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

FEBRUARY 15, 1942.

[F. R. Doc. 42–2259; Filed, March 16, 1942; 11:13 a. m.]

[Amendment No. 25, 2d Edition]

PART 623—CLASSIFICATION PROCEDURE

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 623,[1] in the following respects:

1. By deleting paragraphs (c), (f), and (g) of § 623.33 and substituting therefor the following:

§ 623.33 *Physical examination by examining physician.*

* * * * * *

(c) The physical examination should consist of observing the registrant while walking toward, standing before, and walking away from the examining physician. The registrant may be required to go through calisthenics to determine the mobility of joints or to furnish a bases for determination of his alertness, intelligence, understanding of commands, postural tensions, tendencies to incoordination, and tremors. If peculiarities are noted, simple questions should be asked in an effort to bring out replies bearing on the mental health and personality characteristics of the registrant. The examining dentist, or if he is not available the examining physician, will examine the mouth of the registrant. The examining physician will take blood from the registrant for a serological test. The blood specimen will be collected in a container furnished by the State health officer and will be forwarded to the State laboratory or other laboratory designated by the State Director of Selective Service, together with the accomplished form prescribed within the State for such purpose. If the report on the first serological test of the registrant is other than truly negative, the examining physican shall take additional blood for further serological tests until he is satisfied that the blood is truly negative, truly doubtful, or truly positive. Serological tests will be accomplished without expense to the Selective Service System, unless such expense is specifically authorized by the Director of Selective Service. No other laboratory procedures will be undertaken as a part of this physical examination.

* * * * * *

(f) The examining physician shall procure from the registrant the necessary information and shall complete Items 22 and 23 of the Report of Physical Examination and Induction (Form 221).

(g) The examining physician shall enter in Item 24 on the Report of Physical Examination and Induction (Form 221) the result of the serological tests as "Truly Negative," "Truly Doubtful," or "Truly Positive."

2. By adding to § 623.33 a new paragraph designated as (h) reading as follows:

§ 623.33 *Physical examination by examining physician.*

* * * * * *

(h) The examining physician, in Item 26 on the Report of Physical Examination and Induction (Form 221), shall complete the answers to both of the following questions:

(1) Do you find that the above-named registrant has any of the defects set forth in Part I of the List of Defects (Form 220)?

(2) Do you find that the above-named registrant has any of the defects set forth in Part II of the List of Defects (Form 220)?

If the examining physician's answer to either question (1) or question (2) is "Yes," he shall describe the defects in order of their significance. If the examining physician entertains a doubt as to whether he should answer "Yes" or "No" to either question (1) or question (2), his answer to such question shall be "No." (54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779)

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

FEBRUARY 24, 1942.

[F. R. Doc. 42–2261; Filed, March 16, 1942; 11:14 a. m.]

[Amendment No. 33, 2d Edition]

PART 623—CLASSIFICATION PROCEDURE

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 623,[1] by deleting paragraph (g) of § 623.51 and substituting therefor the following:

§ 623.51 *Procedure for classification after physical examination.*

* * * * * *

(g) As soon as the time in which the registrant may take an appeal has expired or, if an appeal is taken, as soon as the registrant's classification has been determined on appeal, the original and copies of the Report of Physical Examination and Induction (Form 221) of registrants classified under this section shall be distributed as follows:

(1) If the registrant has been classified in Class I–A, Class I–A–O, or Class IV–E, the original and all copies shall be placed in the registrant's Cover Sheet (Form 53).

(2) If the registrant is classified in Class I–B, Class I–B–O, Class IV–E–LS, or Class IV–F, the National Headquarters' Copy and the Surgeon General's Copy shall be transmitted to the State Director of Selective Service, who shall forward such copies to the Director of Selective Service, and the Armed Forces' Original and the Local Board's Copy shall be filed in the registrant's Cover Sheet (Form 53). (54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779)

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

MARCH 10, 1942.

[Amendment No. 24, 2d Edition]

PART 623—CLASSIFICATION PROCEDURE

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Par. 623,[1] in the following respects:

1. By adding at the end of the table of contents a new subheading and six new sections as follows:

[1] 6 F.R. 6611, 6643; 7 F.R. 663, 808.

ALIEN'S PERSONAL HISTORY AND STATEMENT

Sec.
623.71 Steps to be taken by registrant and local board.
623.72 Steps to be taken by State Director of Selective Service before action by armed forces.
623.73 Steps to be taken by armed forces.
623.74 Steps to be taken by State Director of Selective Service after action by armed forces.
623.75 Steps to be taken by local board after action by armed forces.
623.76 Alien's status while history and statement being considered.

2. By adding the following six new sections to this part:

ALIEN'S PERSONAL HISTORY AND STATEMENT

§ 623.71 *Steps to be taken by registrant and local board.* (a) When the local board, under the provisions of § 623.51, classifies a registrant who is not a national of the United States, as defined in section 601.2, in Class I–A, Class I–A–O, Class I–B, or Class I–B–O, the local board, without waiting to determine whether such registrant wishes to or does request a personal appearance or take an appeal, shall mail such registrant an Alien's Personal History and Statement (Form 304).

(b) Before an Alien's Personal History and Statement (Form 304) is mailed, it shall be prepared by filling in all blanks on page 1.

(c) Unless the local board, for good cause, grants an extension of time, the registrant shall complete and return his Alien's Personal History and Statement (Form 304) within 10 days after the date on which it is mailed to him.

(d) As soon as the local board receives a completed Alien's Personal History and Statement (Form 304) from a registrant, it shall make three complete copies thereof and shall immediately transmit the original and all three copies to the State Director of Selective Service.

(e) A record of each step taken by the local board in connection with each Alien's Personal History and Statement (Form 304) shall be entered in the blank columns of the Insert Page (Form 100A) of the Classification Record (Form 100).*

*Issued under the authority contained in 54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779.

§ 623.72 *Steps to be taken by State Director of Selective Service before action by armed forces.* The State Director of Selective Service, when he receives from a local board an original and three copies of an Alien's Personal History and Statement (Form 304), shall (1) enter an acknowledgment thereof upon the receipt attached to the State Headquarters Alien Record (Form 306), (2) mail such receipt to the local board, (3) enter the date of receipt thereof on the State Headquarters Alien Record (Form 306), (4) transmit the original and all three copies thereof to the Corps Area Commander (or to the representative of the Navy or Marine Corps), (5) enter the date of such transmittal upon the State Headquarters Alien Record (Form 306), and (6) file the State Headquarters Alien Record (Form 306) in an alphabetical file of pending alien cases.*

§ 623.73 *Steps to be taken by armed forces.* The Corps Area Commander (or representative of the Navy or Marine Corps) will endorse on the original and all three copies of the Alien's Personal History and Statement (Form 304) that such registrant either "is, if otherwise qualified," acceptable to the armed forces or "is not" acceptable to the armed forces, will retain the original and one copy thereof for the use of the armed forces, and will forward the two remaining copies to the State Director of Selective Service from whom they were originally received.*

§ 623.74 *Steps to be taken by State Director of Selective Service after action by armed forces.* (a) The State Director of Selective Service shall carefully check the two copies of the Alien's Personal History and Statement (Form 304) received by him from the Corps Area Commander (or representative of the Navy or Marine Corps) to make certain that the endorsement thereon shows whether the registrant "is, if otherwise qualified," or "is not" acceptable to the armed forces.

(b) The State Director of Selective Service shall then enter upon the State Headquarters Alien Record (Form 306) the date upon which the two copies of the Alien's Personal History and Statement (Form 304) were received from the Corps Area Commander (or representative of the Navy or Marine Corps) and shall also enter thereon whether such registrant was found to be "acceptable, if otherwise qualified," or "not acceptable" to the armed forces.

(c) The State Director of Selective Service shall then forward one copy of the Alien's Personal History and Statement (Form 304) to the local board from which it was originally received, shall forward the other copy to the Director of Selective Service, and shall enter on the State Headquarters Alien Record (Form 306) the date upon which each of such copies was so forwarded.*

§ 623.75 *Steps to be taken by local board after action by armed forces.* (a) When the local board receives from the State Director of Selective Service a copy of the Alien's Personal History and Statement (Form 304) which bears the endorsement of the armed forces showing that the registrant either "is, if otherwise qualified," or "is not" acceptable to the armed forces, it shall take the following action:

(1) Change the registrant's classification to Class IV–C, if the registrant "is not" acceptable to the armed forces; or

(2) Proceed in the same manner as in the case of any other registrant in the same classification, if the registrant "is, if otherwise qualified," acceptable to the armed forces.

(b) The local board should also:

(1) Prepare a Notice of Alien's Acceptability (Form 307) indicating that the armed forces have found either that the registrant "is, if otherwise qualified," acceptable or "is not" acceptable to the armed forces and mail such notice to the registrant; and

(2) Record the action of the armed forces and the date upon which it received the copy of the Alien's Personal History and Statement (Form 304) from the State Director of Selective Service with the endorsement of the armed forces thereon and the date it mailed the notice thereof to the registrant in the blank columns of the Insert Page (Form 100A) of the Classification Record (Form 100) and under "Minutes of Other Actions" on the back of the Selective Service Questionnaire (Form 40).*

§ 623.76 *Alien's status while history and statement being considered.* (a) No registrant to whom an Alien's Personal History and Statement (Form 304) is mailed shall be ordered to report for induction unless and until the armed forces endorse upon such Alien's Personal History and Statement (Form 304) that such alien "is, if otherwise qualified," acceptable to the armed forces.

(b) If such registrant requests an opportunity to appear in person before the local board, takes an appeal to the board of appeal, or requests a reopening and consideration anew of his classification after the time when the local board mails an Alien's Personal History and Statement (Form 304) to him, the local board shall permit such personal appearance, forward the appeal to the board of appeal, or determine whether the registrant's classification should be reopened and considered anew without regard to the fact that an Alien's Personal History and Statement (Form 304) has been mailed to such registrant. The time in which such alien must complete and return his Alien's Personal History and Statement (Form 304), as provided in § 623.71, shall not be extended by any such action.*

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

MARCH 10, 1942.

[Amendment No. 26, 2d Edition]

PART 626—REOPENING AND CONSIDERING ANEW REGISTRANT'S CLASSIFICATION

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 626,[1] by deleting paragraph (a) of § 626.2 and substituting therefor the following:

§ 626.2 *When registrant's classification may be reopened and considered anew.* (a) The local board may reopen and consider anew the classification of a registrant (1) upon the written request of the registrant, the government appeal agent, any person who claims to be a dependent of the registrant, or any interested party in a case involving occupational deferment, if such request is accompanied by written information presenting facts not considered when the

[1] 6 F.R. 6643; 7 F.R. 110, 653.

registrant was classified which, if true, would justify a change in the registrant's classification; or (2) upon its own motion; provided, in either event, the classification of a registrant shall not be reopened after the local board has mailed to such registrant an Order to Report for Induction (Form 150) unless the local board first specifically finds that there has been a change in the registrant's status resulting from circumstances over which the registrant had no control. 54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779)

* * * * *

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

[F. R. Doc. 42–2270; Filed, March 16, 1942; 11:18 a. m.]

[Amendment No. 37, 2d Edition]

PART 627—APPEAL TO BOARD OF APPEAL

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 627,[1] by deleting paragraphs (b) and (c) of § 627.2 and substituting therefor the following:

§ 627.2 *Who may appeal registrant's classification to board of appeal under certain circumstances.*

* * * * *

(b) The government appeal agent may take any appeal authorized under paragraph (a) of this section at any time prior to the date when the local board mails to the registrant an Order to Report for Induction (Form 150).

(c) The registrant, any person who claims to be a dependent of the registrant, or any person who has filed written evidence of the occupational necessity of the registrant may take an appeal authorized under paragraph (a) of this section at any time within 10 days after the date when the local board mails to the registrant a Notice of Classification (Form 57). At any time prior to the date that the local board mails to the registrant an Order to Report for Induction (Form 150), the local board may permit any such person to appeal, even though such 10-day period has elapsed, if it is satisfied that the failure of such person to appeal within the 10-day period was due to a lack of understanding of the right to appeal or to some cause beyond the control of such person. Unless the local board thereafter permits an appeal, the right of such persons to appeal shall expire at the end of the 10-day period. If such an extension of time to appeal is granted by the local board, a record thereof shall be entered on the Selective Service Questionnaire (Form 40) under the heading "Minutes of Other Actions." (54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779)

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

MARCH 10, 1942.

[F. R. Doc. 42–2271; Filed, March 16, 1942; 11:18 a. m.]

[Amendment No. 36, 2d Edition]

PART 627—APPEAL TO BOARD OF APPEAL

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 627,[1] in the following respects:

1. By deleting the present title of § 627.13 in the table of contents and substituting therefor the following:

Sec.
627.13 Local board to transmit record to the State Director of Selective Service.

2. By adding two new sections to the table of contents after § 627.13 as follows:

Sec.
627.14 State headquarter's record of appeals to board of appeal.
627.15 Action of the local board on a case returned by the State Director of Selective Service.

3. By deleting present § 627.13 and substituting therefor the following:

§ 627.13 *Local board to transmit record to the State Director of Selective Service.* (a) Immediately upon an appeal being taken to the board of appeal, the local board shall carefully check the registrant's file to make certain that all steps required by the regulations have been taken and the record is complete. If any facts considered by the local board do not appear in the written information in the file, the local board shall prepare and place in the file a written summary of such facts. In preparing such a summary the local board should be careful to avoid the expression of any opinion concerning information in the registrant's file and should refrain from including any argument in support of its decision.

(b) Immediately upon determining that all steps required by the regulations have been taken and that the record is complete, the local board shall transmit the file to the State Director of Selective Service.

(c) The local board shall enter in the Classification Record (Form 100) the date it transmits the registrant's file to the State Director of Selective Service.

4. By adding two new sections to this part after § 627.13 reading as follows:

§ 627.14 *State headquarter's record of appeals to board of appeal.* (a) When the file of a registrant is received from a local board pursuant to § 627.13, a record of such appeal shall be entered in the State Docket Book of Appeals (Form 104). Each board of appeal within the State shall have a separate page in the State Docket Book of Appeals (Form 104), and all appeals to such board of appeal shall be entered therein.

(b) The State Director of Selective Service will carefully check each file to determine whether all steps required by the regulations have been taken, whether the record is complete, and whether the information in the file is sufficient to enable the board of appeal to determine the registrant's classification. If any steps have been omitted by the local board, if the record is incomplete, or if the information is not sufficient to enable the board of appeal to determine the classification of the registrant, the State Director of Selective Service shall return the file to the local board with proper instructions. If the State Director of Selective Service returns the file to the local board, he shall enter in the State Docket Book of Appeals (Form 104) the date upon which the file was returned to the local board. If no steps have been omitted by the local board, the record is complete, and the information is sufficient to enable the board of appeal to determine the classification of the registrant, the State Director of Selective Service shall transmit the registrant's file to the proper board of appeal and shall note the date of such transmittal in the State Docket Book of Appeals (Form 104).

§ 627.15 *Action of the local board on a case returned by the State Director of Selective Service.* (a) The local board shall carry out the instructions on the State Director of Selective Service accompanying a registrant's file returned to it under the provisions of § 627.14.

(b) As soon as the instructions of the State Director of Selective Service have been carried out, the local board shall return the registrant's file to the State Director of Selective Service, unless as a result of the information received in carrying out the instructions it determines that the classification of the registrant should be changed, in which event it shall, on its own motion, follow the procedure set out in Part 626, and any further appeal shall be a new appeal from the new classification of the registrant by the local board.

(c) If the local board places the registrant in a new classification, the file of the registrant shall not be returned to the State Director of Selective Service but the local board shall report the action taken by it to the State Director of Selective Service. Upon receiving such report, the State Director of Selective Service shall note the local board's action in the State Docket Book of Appeals (Form 104), mark the case "Closed," and indicate the reason therefor in the "Remarks" column.

(d) If the registrant's file is returned to the State Director of Selective Service, he shall (1) enter the date the file is received in the State Docket Book of Appeals (Form 104); (2) again check the file; (3) transmit it to the board of appeal, if it is in proper form; and (4) note the date the file is transmitted to the board of appeal in the State Docket Book of Appeals (Form 104).

5. By deleting §§ 627.22, 627.23, and 627.27 and substituting therefor the following:

§ 627.22 *Transfer of appeal.* If the board of appeal, upon receiving the file of a registrant, determines that it does not have jurisdiction of the appeal or that it cannot act on the appeal for any other reason, it shall return the file to the State Director of Selective Service stating the reasons for such return. If the State Director of Selective Service determines that the board of appeal to which the file was originally forwarded does not have jurisdiction, he shall transmit the file to the board of appeal having jurisdiction. If the board of appeal to which the file was originally forwarded is unable to act for any reason and there is more than one board of appeal in the State, the State Director of Selective Service shall designate one of the other boards of appeal in the State to act upon the appeal and shall transmit the file to the designated board of appeal. If the board of appeal to which the file was originally forwarded is the only board of appeal in the State, the Director of Selective Service, upon the request of the State Director of Selective Service, shall designate a board of appeal in a neighboring State to act upon the appeal, and the State Director of Selective Service shall transmit the file to the designated board of appeal. The designated board of appeal shall act on the appeal in the same manner and make the same records as in the case of an appeal from a local board whose records it normally reviews, except that all entries and records will be made in red ink. The State Director of Selective Service shall advise the local board from which the appeal was taken when a file is referred to a board of appeal other than the one normally acting on appeals from such local board and shall state the reason why the file is not being reviewed by the board of appeal for the area in which such local board is located.

§ 627.23 *Preliminary review.* The board of appeal shall make a preliminary review of each registrant's file received on appeal. If it deems the record to be incomplete or the information in the file insufficient to enable it to determine the classification of the registrant, it shall return the file to the State Director of Selective Service with an explanation of the reason therefor. The State Director of Selective Service shall either return the file to the board of appeal with instructions to determine the appeal upon the record or he shall forward the file to the local board with such instructions as he deems necessary in order to complete the record or supply the information requested by the board of appeal. When the local board has carried out such instructions it shall return the file to the State Director of Selective Service. The State Director of Selective Service shall check the file to make certain his instructions have been carried out and shall then return the file to the board of appeal.

§ 627.27 *Record of decision on appeal.* (a) When the board of appeal makes its classification, it shall record its decision, showing the yes and no vote, upon the Selective Service Questionnaire (Form 40) and in the Docket Book of Board of Appeal (Form 102). The board of appeal shall then immediately forward the file to the State Director of Selective Service and mark the case "Closed" in the "Remarks" column of the Docket Book of Board of Appeal (Form 102).

(b) The State Director of Selective Service shall review the file to determine whether he desires to appeal to the President. If he determines to take an appeal to the President, he shall place a notice of such appeal in the registrant's file, shall advise the local board of the classification given the registrant by the board of appeal and of the fact that he has appealed to the President from such classification, and shall then forward the file to the Director of Selective Service. If he determines not to take an appeal to the President, he shall forward the file to the proper local board. In either event the board of appeal classification, together with the yes and no vote, and the action taken by the State Director of Selective Service shall be entered in the State Docket Book of Appeals (Form 104).

(c) When the State Director of Selective Service has advised the local board that he has apealed to the President, the local board shall mail the registrant, the government appeal agent, and the person who took the appeal to the board of appeal, if other than the registrant or the government appeal agent, either a Notice of Classification (Form 57) or a Notice of Continuance of Classification (Form 58), whichever is applicable, writing in on such form the words: "The State Director of Selective Service has appealed the board of appeal classification to the President." (54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779)

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

MARCH 10, 1942.

[Amendment No. 34, 2d Edition]

PART 629—PHYSICAL EXAMINATION BY THE ARMED FORCES

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 629,[1] by deleting paragraph (b) of § 629.22 and substituting therefor the following:

§ 629.22 *Records returned by examining station for the armed forces.*

* * * * *

(b) Each local board delivering men to an examining station for the armed forces will receive from the officer in charge of the examining station the original of the Physical Examination List (Form 151A) and the original and all copies of each man's Report of Physical Examination and Induction (Form 221), except when the Surgeon General's Copy is retained by the examining station of the armed forces under the provisions of paragraph (d) of § 629.31. (54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779)

* * * * *

Effective immediately upon the filing hereof with the Division of the Federal Register.

[Amendment No. 29, 2d Edition]

PART 629—PHYSICAL EXAMINATION BY THE ARMED FORCES

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 629,[1] in the following respects:

1. By adding a new subheading and a new section to the table of contents after § 629.31 as follows:

DISCONTINUANCE OF PHYSICAL EXAMINATION BY ARMED FORCES

629.41 Effective in State on order of the Director of Selective Service.

2. By adding a new subheading and a new section to this part after § 629.31 as follows:

DISCONTINUANCE OF PHYSICAL EXAMINATION BY ARMED FORCES

§ 629.41 *Effective in State on order of the Director of Selective Service.* The Director of Selective Service shall order the discontinuance of the procedure set forth in this part in each State as soon as arrangements have been made by the State Director of Selective Service for the forwarding of registrants to the induction station without having been previously physically examined by the armed forces under the provisions of this part. When such an order is issued by the Director of Selective Service covering a particular State, the registrants thereafter delivered by local boards in such State shall be delivered without the necessity of physical examination by the armed forces under the procedure set forth in this part. (54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779)

Effective immediately upon the filing hereof with the Division of the Federal Register.

PART 632—INDUCTION CALLS

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 632,[1] by deleting § 632.3 and substituting therefor the following:

§ 632.3 *Selection of men to fill induction call.* (a) When a call is received by a local board, the board shall immediately proceed to select a sufficient number of specified men to fill the call. The men specified in the call shall be selected in sequence of their order numbers, beginning with the smallest order number, except that (1) each specified man who has volunteered for induction shall be selected to fill the call before any specified man who has not volunteered shall be so selected; (2) a specified man to whom an Alien's Personal History and Statement (Form 304) has been mailed shall not be selected to fill the call unless and until the armed forces have endorsed upon such form that he "is, if otherwise qualified," acceptable to the armed forces; and (3) a specified man who, because of his physical or mental defects, was not accepted when previously forwarded to the armed forces shall not be selected to fill the call unless his defects have been remedied or waived in the manner provided in Part 661. (54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779)

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

FEBRUARY 24, 1942.

[Amendment No. 28, 2d Edition]

PART 633—DELIVERY AND INDUCTION

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 633,[2] in the following respects:

1. By deleting subparagraph (2) of paragraph (a) of § 633.5 and substituting therefor the following:

§ 633.5 *Records sent to induction station.*

* * * * *

(2) For each selected man:

The original and all three copies of the Report of Physical Examination and Induction (Form 221); and

The original and one copy of the Order to Report for Induction (Form 150) or, in the case of a man transferred for delivery, the original and one copy of the Order for Transferred Man to Report for Induction (Form 156).

* * * * *

2. By deleting paragraphs (b) and (c) of § 633.10 and substituting therefor the following:

§ 633.10 *Records returned by induction station commander.*

* * * * *

(b) Each local board delivering selected men to an induction station will receive from the induction station commander the following records:

(1) The original of each Order to Report for Induction (Form 150), or, in the case of a man transferred for delivery, the original of each Order for Transferred Man to Report for Induction (Form 156).

(2) The original Delivery List (Form 151).

(3) The National Headquarters' Copy and the Local Board's Copy of the Report of Physical Examination and Induction (Form 221).

(4) As to each man found not acceptable to the land or naval forces, in addition to the foregoing the Armed Forces' Original of the Report of Physical Examination and Induction (Form 221).

(c) The local board, upon receiving the National Headquarters' Copy and the Local Board's Copy, and, in the case of a man found "not acceptable," the Armed Forces' Original, of the Report of Physical Examination and Induction (Form 221) (1) shall complete the classification of the registrant in the manner provided in § 633.13 and enter a record of the registrant's classification in Section V of the Report of Physical Examination and Induction (Form 221); (2) shall check the National Headquarters' Copy and the Local Board's Copy, and, in the case of a man found "not acceptable," the Armed Forces' Original, of the Report of Physical Examination and Induction (Form 331) to make certain that they are complete in every detail (Section III is not completed if a registrant is found "not acceptable"); and (3) shall then forward the National Headquarters' Copy to the State Director of Selective Service and place the Local Board's Copy, and, in the case of a man found "not acceptable," the Armed Forces' Original, in the registrant's Cover Sheet (Form 53).

3. By deleting paragraph (e) of § 633.11 and substituting therefor the following:

§ 633.11 *Transferring men for delivery.*

* * * * *

(e) The man's own local board, upon receiving a Request for Transfer for Delivery (Form 154) approved by another local board, shall have no discretion but must immediately transfer him by preparing a Transfer of Registrant for Delivery (Form 155), in duplicate, filing the copy and mailing the original to the local board which has approved such request, together with the following papers:

(1) Copy of Order to Report for Induction (Form 150).

(2) The original and all three copies of the Report of Physical Examination and Induction (Form 221).

(3) In the event only that the man is a volunteer under 21 years of age who has been ordered to report for induction before his order number is reached or who, because of his age, has not been given an order number, there shall be forwarded also the written consent of his parents (or guardian), dated not more than 30 days before induction, or the statement prescribed in § 624.1.

* * * * *

(4) By deleting paragraph (b) of § 633.13 and substituting therefor the following:

§ 633.13 *Classification after man is inducted or is found not acceptable.*

* * * * *

(b) Upon receiving notice from the induction station that a selected man has not been accepted, the local board shall take the following action:

(1) If in (b) of Item 78 of the Report of Physical Examination and Induction (Form 221) it is indicated that the registrant will be physically and mentally qualified for general military service after satisfactory correction of the remediable defects set forth therein, the local board shall not change his classification but shall take the necessary steps for the correction of his remediable defects as outlined in Part 661.

(2) If in (c) of Item 78 of the Report of Physical Examination and Induction (Form 221) it is indicated that the registrant is physically qualified for limited military service only or if in (d) of Item 78 of such report it is indicated that the registrant will be physically qualified for limited military service after the satisfactory correction of the remediable defects set forth therein, the local board shall reopen the classification of the registrant and classify him in Class I–B or Class I–B–O.

(3) If in (e) or (f) of Item 78 of the Report of Physical Examination and Induction (Form 221) it is indicated that the registrant is physically, mentally, or otherwise disqualified for military service, the local board shall reopen the classification of the registrant and classify him in Class IV–F.

(54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R 3779)

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

MARCH 10, 1942.

[Amendment No. 38, 2d Edition]

PART 643—PAROLE

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 643,[3] by deleting paragraph (d) of § 643.5 and substituting therefor the following:

§ 643.5 *Classification and induction of persons paroled for induction into the land or naval forces of the United States.*

* * * * *

[1] 6 F.R. 6848.
[2] 6 F.R. 6849; 7 F.R. 202, 431, 506, 653, 654.
[3] 6 F.R. 6852.

(d) Upon receipt of a copy of such order, the local board shall proceed to order the registrant to report for induction in the same manner as in the case of any other registrant, except that at the time the registrant is ordered to report for induction a certified copy of the order suspending parole supervision shall be sent to the commanding officer of the induction station with a letter of explanation as provided in § 622.61 (5). Arrangements will be made by the proper prison officials for the release of the registrant so that he can comply with the order to report for induction. (54 Stat. 885; 50 U.S.C. Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779)

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

MARCH 10, 1942.

[Amendment No. 39, 2d Edition]

PART 651—DETERMINATION OF ACCEPTABILITY OF PERSONS FOR WORK OF NATIONAL IMPORTANCE UNDER CIVILIAN DIRECTION

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 651,[1] in the following respects:

1. By deleting § 651.1 and substituting therefor the following:

§ 651.1 *Selection of registrants for assignment to work of national importance.* Every registrant who is classified in Class IV–E (or in Class IV–E–LS if and when Class I–B and Class I–B–O registrants are ordered to report for induction), before he is assigned to work of national importance under civilian direction, shall be given a final-type physical examination for registrants in Class IV–E. Each such registrant shall be ordered to report for such examination when his order number is reached in the process of selecting Class I–A and Class I–A–O registrants (or Class I–B and Class I–B–O registrants if and when such registrants are being selected) to report for induction, provided his classification is not under consideration on appearance, reopening, or appeal, and the time in which he is entitled to request an appearance or take an appeal has expired.

2. By deleting paragraph (c) of § 651.2 and substituting therefor the following:

§ 651.2 *Ordering Class IV–E registrants to report for final-type physical examination.*

* * * * *

(c) The local board may grant a delay of the date when any registrant is to appear for final-type physical examination for registrants in Class IV–E when he is quarantined because of a communicable disease, is sick, has some temporary ailment, is awaiting an operation, or when he has some other good and sufficient reason for being unable to appear.

3. By deleting paragraphs (a) and (c) of § 651.21 and substituting therefor the following:

§ 651.21 *Class IV–E registrant to be examined under MR 1–9 by local board examining physician.* (a) The physical standards governing the final-type physical examination for registrants in Class IV–E (or Class IV–E–LS) shall be those applicable to physical examinations conducted by the medical board at the induction station of the armed forces, as set forth in MR 1–9.

* * * * *

(c) The local board examining physician shall fill in the Physical Examination Results in Section IV of the Report of Physical Examination and Induction (Form 221), and if he finds the registrant to be qualified for general service and has entered the registrant's name in (a) or (b) of Item 78 of Section IV, he shall fill out Section III of the Report of Physical Examination and Induction (Form 221).

* * * * *

4. By deleting paragraphs (a), (b), and (c) of § 651.31 and substituting therefor the following:

§ 651.31 *Action of local board following final-type physical examination of Class IV–E registrants.* (a) After the Report of Physical Examination and Induction (Form 221) has been returned from the examining physician, the following action shall be taken based upon the information contained in Item 78, Section IV, of such report:

(1) If in (a) of Item 78 it is indicated that the registrant is physically and mentally qualified for general service, he is acceptable for work of national importance under civilian direction, and he will be assigned to and delivered for work of national importance under civilian direction in the manner provided in Part 652.

(2) If in (b) of Item 78 it is indicated that the registrant will be physically and mentally qualified for general service after satisfactory correction of the remediable defects set forth therein, the local board shall not change his classification but shall take the necessary steps for the correction of his remediable defects as outlined in Part 661.

(3) If in (c) of Item 78 it is indicated that the registrant is physically qualified for limited service only or if in (d) of Item 78 it is indicated that the registrant will be physically qualified for limited service after the satisfactory correction of the remediable defects set forth therein, the local board shall reopen his classification and classify him in Class IV–E–LS.

(4) If in (e) or (f) of Item 78 it is indicated that the registrant is physically, mentally, or otherwise disqualified for service, the local board shall reopen his classification and classify him in Class IV–F.

(b) The local board shall complete Section V of the Report of Physical Examination and Induction (Form 221) by filling in the applicable items. It shall then check to make certain that all entries have been completed on the original of the Report of Physical Examination and Induction (Form 221) and that all such information has been correctly transcribed on the copies thereof.

(c) When the local board examining physician on final-type physical examination of a registrant in Class IV–E finds that the registrant is physically and mentally qualified for general service in work of national importance under civilian direction, or will be physically and mentally qualified for general service in work of national importance under civilian direction after correction of remediable defects, the original and all copies of the Report of Physical Examination and Induction (Form 221) will be retained by the local board in the registrant's Cover Sheet (Form 53) until the registrant is forwarded for work of national importance under civilian direction in the manner provided in Part 652.

* * * * *

(54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779)

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

MARCH 10, 1942.

[F. R. Doc. 42-2273; Filed, March 16, 1942; 11:19 a. m.]

PART 653—WORK OF NATIONAL IMPORTANCE UNDER CIVILIAN DIRECTION

[Amendment No. 40, 2d Edition]

As Director of Selective Service, I hereby amend the Selective Service Regulations, Second Edition, Part 653,[2] in the following respects:

1. By deleting paragraphs (c), (d), and (e) of § 653.11 and substituting therefor the following:

§ 653.11 *Reception at camps.*

* * * * *

(c) If the assignee indicates that his physical condition has changed since his final-type physical examination for registrants in Class IV–E, the camp physician shall examine him with reference thereto. If the assignee is not accepted for work of national importance, the camp director will indicate the reason therefor, and the assignee, pending instructions from the Director of Selective Service, will be retained in the camp or hospitalized where necessary.

(d) The camp director shall complete Item 79 of the Report of Physical Examination and Induction (Form 221), changing such parts thereof as may be required. The camp director shall retain the Armed Forces' Original of the Report of Physical Examination and Induction (Form 221) and shall forward the Surgeon General's Copy and the National Headquarters' Copy thereof to the Director of Selective Service.

[1] 7 F.R. 276, 654.
[2] 7 F.R. 247, 506, 654.

(e) Upon receiving notice that a registrant has been accepted for work of national importance, the local board shall not change his classification but shall note the fact of his acceptance for such work in the Classification Record (Form 100). Upon receiving notice that a registrant has been rejected for work of national importance, the local board shall take the action outlined in § 633.13 (b) except that the report of the camp physician shall be used in lieu of the report of the medical board of the armed forces and shall either retain the registrant in Class IV–E or change his classification to Class IV–E–LS or Class IV–F as the circumstances may require.

2. By deleting paragraph (f) of § 653.15 and substituting therefor the following:

§ 653.15 *Release for induction into the land or naval forces.*

* * * * *

(f) If the classification of the assignee is changed by the local board to Class I–A or Class I–A–O, arrangements will be made by the Director of Selective Service for the assignee to be delivered to his local board or to a local board of transfer for induction into the land or naval forces. Such assignee shall remain in camp until released by the Director of Selective Service. Such assignee shall be furnished with necessary Government Requests for Transportation (Standard Form No. 1030) and Government Request for Meals or Lodgings for Civilian Registrants (Form 256) for travel between the camp and his local board or a local board of transfer.

(54 Stat. 885; 50 U.S.C., Sup. 301–318, inclusive; E.O. 8545, 5 F.R. 3779)

Effective immediately upon the filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 1042—IMPORTS OF STRATEGIC MATERIALS

Amendment No. 3 to General Imports Order—M–63 To Conserve the Supply and Direct the Distribution of Designated Materials in Which Shortages Exist and Which Are Imported

Section 1042.1 (General Imports Order M–63[2]) is hereby amended to read as follows:

Whereas: War Requirements have created a shortage of the materials hereinafter set forth for defense, essential civilian and other uses; such materials are imported and due to the uncertainties of transportation in wartime the restrictions upon the disposition of such materials hereinafter set forth are necessary to prevent dispersion of such materials and to direct the distribution thereof in such manner as to satisfy war and essential civilian needs:

Now, therefore, it is hereby ordered, That:

§ 1042.1 *General Imports Order M–63*—(a) *Definitions.* For the purposes of this Order:

(1) "Strategic Material" means any material listed in List A.

(2) "Person" means any individual, partnership, association, business trust, corporation or any organized group of persons, whether or not incorporated.

(3) "Owner" of any material means any person who has any property interest in such material except a person whose interest is held solely as security for the payment of money.

(4) "Consignee" means the person to whom a strategic material is consigned at the time of importation.

(5) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). Release from the bonded custody of the United States Bureau of Customs shall, for the purpose of this Order, be deemed a transportation.

(6) "Place of Initial Storage" means any warehouse, yard, ground storage or other place to which the person making the entry or withdrawal from custody of the United States Bureau of Customs of strategic material imported after the effective date of this Order directs or has directed that such strategic material be transported from the port of entry to be held until disposed of pursuant to this Order.

(b) *Restrictions on importation of strategic materials.* After the effective date of this Order, no person, other than Metals Reserve Company, Defense Supplies Corporation and any other United States governmental department, agency or corporation, or any agent acting for such company, department, agency or corporation, shall, without the written authorization of the Director of Industry Operations, make any contract or other arrangement for the importing of any Strategic Material. Applications for authorization to contract or arrange for the import of strategic materials shall be made in duplicate on Form PD–222C. This prohibition shall not prevent the importing, under the restrictions hereinafter set forth, of strategic material by any person under any contract made before, or in existence on, the effective date of this Order.

(c) *Restrictions on disposition of imported strategic materials.* Except as hereinafter specifically provided in paragraph (d):

(1) *Restrictions upon owners and consignees.* No owner or consignee of any strategic material which is imported after the effective date of this Order shall in any way, directly or indirectly:

(i) Dispose of any interest in such strategic material;

(ii) Process or in any way change the physical condition of such strategic material;

(iii) Transfer possession, or cause or permit a transfer of possession, of such strategic material except to the port of entry and from the port of entry to the place of initial storage of such strategic material; or

(iv) Change, or cause or permit a change of, the location of such strategic material except to the port of entry and from the port of entry to the place of initial storage of such strategic material.

Provided: That a consignee of strategic material may dispose of his interest in such strategic material to the extent necessary to complete any commitment or contract made prior to the effective date of this Order. The person to whom he disposes of such interest shall be subject to all restrictions imposed upon owners by this Order.

(2) *Restrictions upon banks and persons similarly situated.* No bank or other person which, as agent, pledgee, beneficiary under a trust receipt, or otherwise, has possession of or any interest in any written instrument evidencing any interest in any strategic material imported after the effective date of this Order shall in any way, directly or indirectly, except to the extent necessary to permit a consignee to make a permissible disposition of strategic material in accordance with sub-paragraph (1) of this paragraph (c),

(i) Dispose of any such interest; or
(ii) Transfer possession, or cause or permit a transfer of possession of such instrument.

(d) *Permissible disposition of imported strategic materials*—(1) *Transfer to Governmental agency:* Nothing contained in this Order shall prohibit any person having any interest whether as owner, consignee or otherwise, in any strategic material imported after the effective date of this Order from disposing of, or making any arrangement to dispose of, any interest in such strategic material to Metals Reserve Company, Defense Supplies Corporation or any other United States governmental department, agency or corporation.

(2) *Authorization by Director of Industry Operations.* Notwithstanding the provisions of paragraph (c), an Owner of strategic material imported after the effective date of this Order or a bank or other Person having possession of or an interest in a written instrument evidencing an interest in such strategic material, may process such strategic material or may dispose of any interest in such strategic material or any such written instrument, or transfer possession or change the location thereof, or cause or permit such a transfer of possession or change of location, upon written authorization by the Director of Industry Operations. Any such person may make application in duplicate for such an authorization on Form PD–222A, which Form shall be addressed to War Production Board, Ref: M–63, Washington, D. C., (which will receive from the Collectors of Customs reports of all imports of strategic materials).

(3) *Exceptions.* The restrictions set forth in paragraph (c) shall not apply to any strategic material of which any United States governmental department, agency or corporation is the Owner at the time of importation, and shall not apply to any such strategic material after any United States governmental department, agency or corporation becomes the Owner thereof, and shall not apply to any strategic material purchased or otherwise acquired from any United States governmental department, agency or corporation.

(e) *Reports*—(1) *Reports to Federal Loan Agency.* Promptly after the issuance of this Order, every person other than any United States governmental department, agency or corporation, or any agent acting for any such department, agency or corporation, who has outstanding any order, contract or other arrangement for the importing of any strategic material or who has heretofore acquired for import any strategic material which has not physically arrived at the port of entry thereof when this Order becomes effective, shall report all relevant facts with respect to such strategic material to Federal Loan Agency, Ref: M–63, Washington, D. C. Such report shall be filed in duplicate; one copy will be transmitted to the War Production Board by Federal Loan Agency.

(2) Every person, other than any United States governmental department, agency or corporation, or any agent acting for any such department, agency, or corporation, who is authorized by the Director of Industry Operations under paragraph (b) hereof, to make any contract or other arrangement for the importing of any strategic material, shall promptly report all relevant facts with respect to any contract or other arrangement entered into pursuant to such authorization to Federal Loan Agency, Ref: M–63, Washington, D. C. Such report shall be filed in duplicate; one copy will be transmitted to the War Production Board by Federal Loan Agency.

(3) *Reports to Collectors of Customs.* No strategic material which is imported after the effective date of this Order, other than strategic materials imported by or for the account of Metals Reserve Company, Defense Supplies Corporation or any other United States Governmental department, agency or corporation, shall be entered for consumption or withdrawn from warehouse for consumption unless the person making the entry or withdrawal shall file with the entry or withdrawal a statement of proposed disposition on Form PD–222B. Such statement shall be filed in duplicate; both copies shall be transmitted by the Collector of Customs to the War Production Board, Ref: M–63, Washington, D. C.

(4) *Other Reports.* All persons having any interest, whether as owner or consignee or otherwise, in any strategic material imported after the effective date of this Order shall file such other reports as may be required from time to time by the War Production Board.

(f) *Violations.* Any person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(g) *Applicability of Priorities Regulation No. 1* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(h) *Effective date.* This Order shall take effect immediately, and shall continue in effect until revoked. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess, as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 14th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

LIST A—ATTACHED TO GENERAL IMPORTS ORDER M–63

The numbers listed after the following materials are commodity numbers taken from Schedule A, Statistical Classification of Imports of the Department of Commerce (issue of January 1, 1941). Materials are included in this List to the extent that they are covered by the commodity numbers listed below.

PART 1115—FUEL OIL

Limitation Order L-56 to Curtail the Consumption of Fuel Oil

Whereas fulfillment of requirements for the defense of the United States has created in certain areas a shortage in the supply of fuel oil for defense, private account and export, it is necessary in the public interest and to promote the defense of the United States to allocate the supply thereof in the manner and to the extent hereinafter in this Order provided,

Now, therefore, it is ordered, That:

§ 1115.1 *Limitation Order L-56*—(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Additional definitions.* For the purpose of this Order:

(1) "Supplier" means any person supplying Fuel Oil, directly or indirectly, to a Consumer.

(2) "Consumer" means any ultimate user of Fuel Oil including any Governmental corporation or agency.

(3) "Standby facilities" means equipment in serviceable operating condition designed to use a fuel other than Fuel Oil, except electricity, natural gas, or mixed natural and manufactured gas, and for the operation of which a supply of such fuel is available.

(4) "Fuel oil" means any liquid petroleum classified as grade No. 1, 2, 3, 4, 5, or 6, including Bunker "C" fuel oil, kerosene, range oil, gas oils, and any other liquid petroleum product used for the same purpose as the above designated grades.

(c) *Limitation on deliveries of fuel oil.* (1) No Supplier shall deliver to any Consumer in any area designated in List "A" who has Standby Facilities and no such Consumer shall accept delivery of Fuel Oil from any Supplier unless such Standby Facilities are being operated to take the place of such Consumer's Fuel-Oil-burning facilities to the greatest possible extent and to effect the maximum reduction in such Consumer's requirements for Fuel Oil.

(2) No Supplier shall deliver Fuel Oil to a Consumer in any area designated in List "A" and no such Consumer shall accept delivery of Fuel Oil from any Supplier for the operation of:

(i) New or additional equipment unless such equipment was installed prior to 30 days after the effective date of this Order, or unless, in the case of new construction, the equipment was specified in the construction contract, and the foundation under the main part of the structure in which the equipment is to be installed was completed prior to 30 days after the effective date of this Order; *Provided*, That the replacement of worn-out parts shall not be deemed to be the installation of new or additional equipment if the existing equipment is not adaptable to the use of other fuels; or

(ii) Facilities converted from other fuel to Fuel Oil unless such conversion has been completed prior to 10 days after the effective date of this Order;

Provided, That deliveries of Fuel Oil may be made by any Supplier to any Consumer for the operation of equipment or facilities specified in this paragraph in any case where such Consumer cannot use a fuel other than Fuel Oil, electricity, natural gas, or mixed natural and manufactured gas, either because any such substitute fuel is not available or because technical utilization factors prevent its use.

(d) *Conversion of fuel-oil-burning facilities.* The Director of Industry Operations, or other person designated by him, may from time to time examine and investigate the Fuel-Oil-burning facilities owned or operated by any Consumer for the purpose of determining whether such equipment can be converted to the use of a fuel other than Fuel Oil, electricity, natural gas, or mixed natural and manufactured gas. In making such investigation, the Director of Industry Operations, or his representative, shall take into consideration all facts and circumstances which may relate to the particular problem, including the availability of such other fuel. If it is found that the Fuel-Oil-burning facilities of any Consumer may be converted to the use of such other fuel, and that a supply of such fuel is available, without an unreasonable expenditure upon the part of the Consumer and without working any exceptional or unreasonable hardship upon such Consumer, then the Director of Industry Operations may, after notice sufficient to permit such conversion, forbid further deliveries of Fuel Oil for use in such facilities.

(e) *Exception.* Nothing in this Order shall be construed to apply to the delivery of Fuel Oil for use in internal combustion engines.

(f) *Directions as to deliveries.* The Director of Industry Operations may from time to time issue specific directions directing or forbidding deliveries of Fuel Oil to any Consumer.

(g) *Appeals.* Any Person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the Director of Industry Operations, by letter or telegram, setting forth the pertinent facts and the reasons he considers himself entitled to relief. The Director of Industry Operations may thereupon grant specific exemptions or take such other action as may be consistent with this Order. Unless otherwise directed, appeals shall be filed with the Director of Marketing, Office of Petroleum Coordinator for National Defense, Department of the Interior, Washington, D. C. Any such appeal involving a defense housing project shall be filed with the local Federal Housing Administration office which shall review such appeal and transmit it, together with specific recommendations, to the said Director of Marketing, or to his representative, for further proceedings.

(h) *Violations.* Any Person who wilfully violates any provision of this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under Section 35A of the Criminal Code (18 U.S.C. 80).

(i) *Reports and correspondence.* All reports required to be filed hereunder and all communications concerning this Order shall, unless otherwise directed, be addressed to: Office of Petroleum Coordinator, Washington, D. C., Ref.: L-56.

(j) *Effective date.* This Order shall take effect on the date of issuance and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 14th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

LIST "A"

Order L-56 shall apply in the following areas:

1. The States of Connecticut, Delaware, Florida, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and the District of Columbia.

2. The States of Oregon and Washington.

[F. R. Doc. 42-2235; Filed, March 14, 1942; 12:20 p. m.]

PART 1140—MOTOR VEHICLES

LIMITATION ORDER L-69

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of aluminum, cadmium, chromium, copper and nickel for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1140.1 *Limitation order L-69*—(a) *Definitions:*

(1) "Motor Vehicle" means any vehicle of four wheels or more designed for use on the highway and powered by an internal combustion engine, and any trailer designed exclusively for the transportation of property on the highway.

(2) "Bright Work" means any plating, coating, or other metal finish containing any aluminum, cadmium, chromium, copper or nickel.

(3) "Producer" means any individual, partnership, association, corporation, or other form of business enterprise engaged in the production of motor vehicles, or of chassis, bodies, cabs, accessories or replacement parts therefor.

(b) *General restrictions.* (1) No producer shall manufacture or use any bright work:

(i) In the exterior finish or trim of any motor vehicle or chassis therefor,

(ii) In the interior or exterior finish or trim of any body or cab for any motor vehicle, or

(iii) In the production of accessories for any motor vehicle or of replacement parts for any motor vehicle or for any chassis, body or cab therefor:

Provided, That nothing herein shall prohibit the manufacture or use of bright work in the production or use of ventilator window latches, external locks, cylinder caps and covers, external windshield wipers and arm and blade assemblies therefor, and body trim screws.

(2) No producer who, on the effective date of this Order, has in his possession or control any aluminum, cadmium, chromium, copper or nickel in any form shall:

(i) Sell or otherwise dispose of any thereof except as expressly permitted by the Director of Industry Operations, or to Defense Supplies Corporation, Metals Reserve Corporation or any other corporation organized under section 5 (d) of the Reconstruction Finance Corporation Act as amended, or any person acting as agent for such corporation; or

(ii) Use any thereof except in the manufacture of any other articles which such producer manufactured during the month of February 1942 and then only to the extent that such use is not prohibited by General Conservation Orders M-1-c, M-6-b, M-9-c and M-65-a as the same may be amended from time to time or any other orders of the Director of Priorities or of the Director of Industry Operations heretofore or hereafter issued curtailing the use of any such material or limiting the production of any such articles, provided that such producer's average use of such materials in the manufacture of such other articles in any month after February 1942, shall not exceed his daily use thereof in such manufacture during the month of February 1942.

(3) The prohibitions and restrictions contained in this Order shall not apply to the use of aluminum, cadmium, chromium, copper or nickel in the manufacture or use of bright work under a specific contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development, or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), if in any such case the use of such metals to the extent employed is required by the specifications of the prime contract.

(c) *Records.* All persons affected by this Order shall keep and preserve for not less than 2 years accurate and complete records concerning inventories, purchases, production and sales.

(d) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(e) *Reports.* All persons affected by this Order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time require.

(f) *Violations or false statements.* Any person who violates this Order or who willfully falsifies any records which he is required to keep by the terms of this Order, or otherwise willfully furnishes false information to the War Production Board may be deprived of priorities assistance or may be prohibited by the War Production Board from obtaining any further deliveries of materials subject to allocation. The War Production Board may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(g) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from nondefense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The War Production Board may thereupon take such action, if any, as it deems appropriate by the amendment of this Order or otherwise.

(h) *Communications.* All communications concerning this Order shall be addressed to War Production Board, Washington, D. C., Ref.: L-69.

(i) *Effective date.* This Order shall take effect upon the date of issuance hereof. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3rd Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 14th day of March, 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2236; Filed, March 14, 1942; 12:20 p. m.]

PART 941—MATERIAL AND EQUIPMENT ENTERING INTO FREIGHT CAR CONSTRUCTION INCLUDING RAILROAD, INDUSTRIAL, AND MINE FREIGHT CARS

Extension of General Preference Order No. P—8[1]

It is hereby ordered, That § 941.1 (General Preference Order P-8) issued June 18, 1941, as last extended by Extension of Preference Rating Order P-8, issued December 31, 1941, and all Preference Rating Certificates issued thereunder shall continue in effect until April 30, 1942, unless sooner revoked by the War Production Board. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3rd Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 16th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2285; Filed, March 16, 1942; 11:32 a. m.]

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

Priorities Regulation No. 8

§ 944.29 *Priorities Regulation 8*—(a) *Certain reporting requirements revoked.* Except as provided in paragraph (b) hereof, all orders heretofore issued which require any person to report upon any of the forms listed in Appendix A to this Regulation are hereby amended so as to revoke such requirements.

(b) *Exceptions to general rule.* The provisions of paragraph (a) hereof shall not apply to any of the orders listed in Appendix B to this Regulation.

(c) This Regulation shall take effect immediately. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 16th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 956—MATERIAL ENTERING INTO THE CONSTRUCTION OF SPECIFIED LOCOMOTIVES

Extension of Preference Rating Order No. P-20 [1]

It is hereby ordered, That § 956.1 (Preference Rating Order P-20), issued July 21, 1941, as last extended by Extension of Preference Rating Order No. P-20, issued December 31, 1941, and all Preference Rating Certificates issued thereunder, shall continue in effect until April 30, 1942, unless sooner revoked by the War Production Board. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 16th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2284; Filed, March 16, 1942; 11:32 a. m.]

PART 957—MATERIAL ENTERING INTO THE REPAIR AND REBUILDING OF STEAM, ELECTRIC, OR DIESEL LOCOMOTIVES WHETHER FOR RAILROAD, MINING, OR INDUSTRIAL USE

Extension of Preference Rating Order No. P-21

It is hereby ordered, That § 957.1 (Preference Rating Order P-21),[1] issued July 21, 1941, as last extended by Extension of Preference Rating Order No. P-21, issued December 31, 1941, and all Preference Rating Certificates issued thereunder, shall continue in effect until April 30, 1942, unless sooner revoked by the War Production Board. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 16th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2285; Filed, March 16, 1942; 11:32 a. m.]

PART 992—LAUNDRY EQUIPMENT

Supplementary General Limitation Order L-6-c [1]*—Further Restricting and Finally Prohibiting the Production of Domestic Laundry Equipment.*

In accordance with the provisions of § 992.1 (General Limitation Order L-6) which the following order supplements, *It is hereby ordered,* That:

§ 992.4 *Supplementary General Limitation Order L-6-c.*

* * * * *

(a) *Prohibition of production of domestic laundry equipment.* Effective April 16, 1942, no Class A or Class B manufacturer shall produce any domestic laundry equipment. Effective May 16, 1942, no Class C or Class D manufacturer shall produce any domestic laundry equipment.

(b) *Restrictions until dates of prohibition of production.* During the period beginning March 16, 1942, and ending April 15, 1942 inclusive:

(1) No Class A manufacturer shall produce more domestic laundry equipment than the greater of the following two limits:

(i) 11,700 units of such equipment, or
(ii) 90% of the monthly average of his Factory Sales of such equipment for the twelve months ending June 30, 1941.

(2) No Class B manufacturer shall produce more domestic laundry equipment than the greater of the following two limits:

(i) 5,625 units of such equipment, or
(ii) 97½% of the monthly average of his Factory Sales of such equipment for the twelve months ending June 30, 1941.

During the period beginning March 16, 1942 and ending May 15, 1942:

(1) No Class C manufacturer shall produce more domestic laundry equipment than the greater of the following two limits:

(i) 3,420 units of such equipment, or
(ii) Two times 112½% of the monthly average of Factory Sales of such equipment for the 12 months ending June 30, 1941.

(2) No Class D manufacturer shall produce more than two times 142½% of the monthly average of his Factory Sales of such equipment for the twelve months ending June 30, 1941.

(c) *Replacement parts.* Nothing in this order shall be construed to prohibit or limit the production of replacement parts for domestic laundry equipment.

(d) *Restrictions on inventory.* (1) Until otherwise ordered by the Director of Industry Operations no manufacturer shall sell, deliver, or otherwise transfer any part of the inventory of raw materials, semi-processed parts or finished parts which he holds for use in the production of domestic laundry equipment to any other person, or to any other department, division, or section of his concern not engaged in the production of domestic laundry equipment, except on the following conditions:

(i) Raw materials, semi-processed parts, and finished parts may be sold, delivered or otherwise transferred to other manufacturers of domestic laundry equipment for their use in the production of such equipment pursuant to the provisions of paragraph (b);

(ii) Raw materials, semi-processed parts, and finished parts may be sold, delivered or otherwise transferred in connection with the manufacture and sale of repair and maintenance parts for domestic laundry equipment;

(iii) Raw materials, semi-processed parts, and finished parts may be sold, delivered, or otherwise transferred to any person (including any other department, division, or section of a manufacturer's concern not engaged in the production of domestic laundry equipment) who is able to supply a preference rating of A-9 or higher;

(iv) Raw materials, semi-processed parts, and finished parts may be sold, delivered, or otherwise transferred to the Defense Supplies Corporation or other corporation, affiliate, or other form of enterprise under the control of the Reconstruction Finance Corporation:

Provided however, That nothing in this paragraph (d) shall be construed to permit any manufacturer to sell, deliver, or otherwise transfer, or any person to purchase, receive delivery of, or otherwise acquire any raw materials, semi-processed parts, or finished parts in contravention of the terms of any L or M order including amendments or supplements thereto, or other regulation of the War Production Board, now effective or effective prior to the date of any such sale, delivery, or other transfer.

(2) Each manufacturer shall file with the War Production Board on or before April 1, 1942, an estimate of the inventory of raw materials, by classes of materials, semi-processed parts, and finished parts, which will remain in his hands pursuant to this paragraph after he has completed his production of domestic laundry equipment pursuant to paragraph (b).

(e) *No interference with ordnance production.* No manufacturer shall divert materials, labor, or equipment from the production of war material to enable him to produce his production quota under paragraph (b) hereof.

(f) *Prohibition of acquisition of materials.* No manufacturer of domestic laundry equipment shall purchase, receive delivery of, or otherwise acquire any raw materials, semi-processed parts, or finished parts intended for the production of domestic laundry equipment in excess of quantities required to fulfill the production quotas specified in paragraph (b) hereof; no person shall sell, deliver, or otherwise transfer any such raw materials, semi-processed parts, or finished parts except as so permitted: *Provided however,* That deliveries of raw materials, semi-processed parts, or finished parts actually in transit to the manufacturer on the date of issue of this order may be delivered to the manufacturer.

(g) *Existing contracts.* Fulfillment of contracts in violation of this order is prohibited regardless of whether such order is entered into before or after the effective date of this order. No person shall be held liable for damages or penalties for any default under any contract or order, which shall result directly or indirectly from his compliance with the terms of this order.

(h) *Appeal.* Any manufacturer who considers that compliance with this order would work an exceptional or unreasonable hardship upon him, or would disrupt or impair a program of conversion to War production may appeal for relief to the Director of Industry Operations by means of a letter addressed to the Director of Industry Operations, Ref.: L-6-c, setting forth in such letter all facts pertinent to the appeal. The Director of Industry Operations may thereupon take such action as he deems appropriate. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 14th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2289; Filed, March 16, 1942; 11:35 a. m.]

[1] 6 F.R. 5533, 6407.

PART 1041—PRODUCTION, TRANSPORTATION, REFINING AND MARKETING OF PETROLEUM

Preference Rating Order No. P-98, Extended and Amended

§ 1041.1 *Preference Rating Order P-98.*[1] For the purpose of facilitating the acquisition of Material for the Production, Refining, Transportation and Marketing of Petroleum, preference ratings are hereby assigned to deliveries of necessary Material upon the terms hereinafter set forth:

(a) *Definitions.* (1) "Person means any individual, partnership, association, business trust corporation, governmental corporation or agency or any organized group of persons, whether incorporated or not.

(2) "Petroleum" means petroleum, petroleum products and associated hydrocarbons, including but not limited to natural gas.

(3) "Main Gas Trunk Line" means any pipeline and appurtenant structures carried as a "trunk line" on the books of an Operator in accordance with the regulations of any duly constituted public regulatory body or, where there is no duly constituted public regulatory body regulating the accounting procedures of the Operator carried as a "trunk line" on the books of an Operator for Federal Income Tax purposes.

(4) "Production" means the discovery, development and depletion of Petroleum Pools; the operation of any stationary gathering systems or surface connections for the conveyance of Petroleum (other than natural gas) to the first valve on the discharge side of the field shipping tank battery at which Petroleum is gauged; the operation of any facility for the processing of natural gas including but not limited to natural gasoline extraction plants, field pressure maintenance plants, repressuring plants, cycling plants, dehydration plants, or desulphurization plants; the operation of any natural gas connecting lines from a wellhead connection or from a Main Gas Trunk Line to or from such plants; and the operation of any stationary gathering systems or surface connections for the conveyance of natural gas to the point of connection with a Main Gas Trunk Line.

(5) "Refining" means the operation of a plant or plants, other than those specified in paragraph (a) (4), for the production of finished or unfinished Petroleum, including blending plants which blend neutral, bright-stocks and long residuum to finished S. A. E. grades.

(6) "Transportation" means (except in the case of natural gas) the operation of all Petroleum terminal and terminal storage facilities and the operation of all pipe lines for the transportation of Petroleum from the first valve on the discharge side of the field shipping tank battery where Petroleum is first gauged to any Refining facility, terminal or terminal storage facility and from any Refining facility to any terminal, terminal storage or Marketing facility.

(7) "Marketing" means the operation of all facilities (other than Petroleum terminal or terminal storage facilities or marine, rail, pipeline or truck facilities used to transport Petroleum) for distributing or dispensing Petroleum (excluding natural gas) including without limitation the operation of service stations, substations, bulk plants, warehouses, wholesale depots, or facilities operated by "consumer accounts".

(8) "Petroleum Enterprise" means any facility used in the Production, Refining, Transportation, or Marketing of Petroleum.

(9) "Operator" means any Person engaged in operating a Petroleum Enterprise.

(10) "Supplier" means any Person with whom a contract or purchase order has been placed for delivery of Material to the Operator or to another Supplier.

(11) "Material" means any commodity, equipment, accessories, parts, assemblies, or products of any kind.

(12) Subject to subparagraph (15), "Maintenance" means the upkeep of an Operator's property or equipment in a sound working condition with a minimum expenditure of Material.

(13) Subject to subparagraph (15), "Repair" means the restoration of an Operator's property or equipment to a sound working condition when such property or equipment has been rendered unsafe or unfit for further service by wear and tear, damage, destruction or failure of parts or similar causes.

(14) Subject to subparagraph (15), "Operating Supplies" means any Material (other than that used for Maintenance or Repair) which is essential to and consumed in the operation of a Petroleum Enterprise and which is generally charged to the operating expense account of an Operator: *Provided,* That the term "Operating Supplies" shall not include any of the following:

(i) Material (other than reagents, additives or compounding Material) which is physically incorporated in whole or in part into any product of an Operator;

(ii) any Material which is to be used as a fuel or lubricant;

(iii) any non-ferrous Material which is to be used as packaging supplies.

(15) The terms "Maintenance", "Repair" and "Operating Supplies" do not include any of the following:

(i) Material for the replacement of an item or part thereof where the replacement is carried on the Operator's books as a fixed asset;

(ii) Material for the improvement of an Operator's property or equipment through the replacement of Material in the existing installation, unless the property or equipment which is replaced is beyond economic Repair or has been rendered unusable by fire or other hazard or natural cause;

(iii) Material for additions to or expansion of an Operator's property or equipment;

(iv) Material which is of a type which could not be carried on the Operator's books under "Maintenance", "Repair", "Operating Supplies" or the equivalent in the Operator's established method of bookkeeping.

(16) Subject to subparagraph (17), "Alterations" means any change in the physical arrangement of any existing facility for the processing of natural gas including a natural gasoline extraction plant, field pressure maintenance plant, repressuring plant, cycling plant, dehydration plant, desulphurization plant, any existing facility used in Refining (other than blending plants), or any existing facility used in Transportation which is made for the purpose of increasing the operating efficiency of such facility and which does not involve an expenditure of more than $1,000 for Material.

(17) The term "Alterations" does not include any of the following:

(i) Material to be used as "Maintenance", "Repair", or "Operating Supplies";

(ii) Any change in the physical arrangements of an existing facility in

[1] 7 F.R. 278, 1495, 1721.

which the amount of Material necessary to effect a proper Alteration would ordinarily involve an expenditure of more than one thousand dollars or in which an ordinary Alteration in the facility has been subdivided for the purpose of making available to an Operator the provisions of subparagraph (16).

(18) "Exploratory Well" means any well located not less than two miles from any well capable of producing Petroleum.

(19) "Pool" means any underground accumulation of crude Petroleum or associated hydrocarbon substances, including but not limited to natural gas, constituting a single and separate reservoir or source of supply within a field, area, or horizon whether or not presently discovered or developed.

(20) "Office Supplies" means any Material to be used for "Maintenance" or "Repair" purposes or as "Operating Supplies" by an Operator for the purpose of carrying out home or branch office services incident to the conduct of a Petroleum Enterprise.

(21) "Automotive Equipment" means any specialized Material attached to an automobile or truck (but not including automobiles, trucks, motors, parts thereof, tires, or chassis) which material is necessary for containing, dispensing, measuring the movement of, or distributing Petroleum and is used for "Maintenance" or "Repair" purposes or as "Operating Supplies."

(b) *Assignment of preference ratings.* Subject to the terms of this Order, the following preference ratings are hereby assigned to deliveries of Material to an Operator and to his Suppliers.

(1) A–1–a to deliveries of Material, to an Operator engaged in the operation of a natural gasoline extraction plant, field pressure maintenance plant, repressuring plant, cycling plant, dehydration plant, desulphurization plant, or to an Operator engaged in Refining, which Material is to be used for the Repair of the Operator's property or equipment where there has been an actual breakdown or suspension of operations and the essential Material for effecting the Repair is not otherwise available.

(2) A–1–c to deliveries of that minimum quantity of Material to an Operator engaged in the operation of a natural gasoline extraction plant, field pressure maintenance plant, repressuring plant, cycling plant, dehydration plant, desulphurization plant, or to an Operator engaged in Refining, which Material is to be used for Maintenance and which is necessary to make reasonable advance provisions for averting an actual breakdown or suspension of operations.

(3) A–1–e to deliveries of Material, to an Operator engaged in Production, which Material is to be used exclusively for operations directly involved in the search for and discovery of a previously unknown Pool or part thereof by means of geological, geophysical or geochemical prospecting, including specialized Material attached to an automobile or truck (but not including automobiles, trucks, motors, parts thereof, tires, or chassis) and used for the physical function of carrying out geological, geophysical or geochemical prospecting.

(4) A–2 to deliveries of material,

(i) To an Operator engaged in Production or Refining, which Material is to be used exclusively for carrying out by means of an existing research laboratory investigations into more efficient or more effective methods of conducting Production or Refining Operations;

(ii) To an Operator engaged in Production, which Material is to be used exclusively for operations directly involved in the search for and discovery of a previously unknown Pool by means of the drilling and completion of an Exploratory Well, including but not limited to the drilling of "slim holes";

(iii) To an Operator engaged in Refining, which Material is required as Operation Supplies and consists of one or more of the following: acetone, activated alumina, activated silica gell, aluminum paste, aluminum powder, aluminum chloride, ammonia, carbon tetrachloride, chlorine, copper sulphate, cresyllic acid, dichlorethyl ether, diethanol amine, ethylene dichloride, foamite, glycerine, glycol, hydrochloric acid, hydroflouric acid, mercury, metal deactivator, including orthoeresol), methylbutyl ketone, methylethyl ketone, methyl alcohol, nitro benzene, phenol, phosphoric acid, potassium bichromate, sodium hypochlorite, toluene, triethanol amine, tripotassium phosphate, trisodium phosphate, and zinc chloride.

(iv) To an Operator engaged in the operation of any natural gasoline extraction plant, field pressure maintenance plant, repressuring plant, cycling plant, dehydration plant, or desulphurization plant, which Material is required as Operating Supplies and consists of one or more of the following: acetone, activated alumina, activated silica gell, aluminum paste, aluminum powder, aluminum chloride, ammonia, carbon tetrachloride, chlorine, copper sulphate, diethanol amine, ethylene dichloride, foamite, glycerine, hydrochloric acid, mercury, methyl alcohol nitro benzene, phenol, phosphoric acid, sodium hypochlorite, triethanol amine, tripotassium phosphate, trisodium phosphate, and zinc chloride.

(v) To an Operator engaged in Transportation, which Material is to be used for the Repair of the Operator's property or equipment where there has been an actual breakdown or suspension of operations and the essential Material for effecting the Repair is not otherwise available.

(5) A–8 to deliveries of material,

(i) To an Operator engaged in Production, Refining, or Transportation, which Material is to be used for the Maintenance or Repair of the Operator's property or equipment, or is to be used in effecting Alterations, or is required as Operating Supplies;

(ii) To an Operator engaged in Production, which Material is to be used for Production purposes, but excluding Material not otherwise provided for by this Order which is to be used by an Operator in the operation of any facility for the processing of natural gas.

(6) A–10 to deliveries of material,

(i) To an Operator engaged in Marketing, which Material is to be used for the Maintenance of Repair of the Operator's property or equipment or which is required as Operating Supplies.

(ii) To an Operator, which Material is to be used as Automotive Equipment or as Office Supplies.

(c) *Persons entitled to apply preference ratings.* The preference ratings hereby assigned may, in the manner and to the extent hereby authorized, be applied by:

(1) Any Operator

(2) Any Supplier of Material to the delivery of which a preference rating has been applied as provided in paragraph (e):

(d) *Restrictions on use of ratings*—(1) *Restrictions on Operator.* (i) The Operator may not apply a rating to obtain Material to the delivery of which any rating is hereby assigned unless such Material cannot otherwise be obtained without such rating on the date required to enable such Operator to fulfill the authorized purposes for which the rating is granted.

(ii) The Operator may not apply a rating to obtain scarce Material the use of which may be eliminated without serious loss of efficiency by substitution of less scarce material or by change of design.

(iii) The Operator may not apply a rating to obtain Material in greater quantities or on earlier dates than required to enable him to fulfill the authorized purposes for which the rating is granted.

(iv) The Operator may not apply a rating to obtain Material in excess of a minimum practicable inventory of such Material. Except as provided in paragraph (d) (2), such minimum practicable inventory shall in no event exceed a 90 day supply of Material to be used for the purpose for which the rating may be applied.

(v) The Operator may not apply a rating to obtain Material for any use which is restricted, prohibited or in any way limited by any Order issued by the Director of Industry Operations, other than Material to be used in conformity with the provisions of such Order.

(2) From time to time the Director of Industry Operations may determine that any Operator or class of Operators is exempt, in whole or in part, from the restrictions contained in paragraph (d) (1) (iv).

(3) *Restrictions on suppliers.* (i) No Supplier may apply a rating to obtain Material in greater quantities or on earlier dates than required to enable him to make on schedule a delivery rated hereunder or within the limitations of paragraph (d) (3) (ii) and (d) (3) (iii) below, to replace in his inventory Material so delivered. He shall not be deemed to require such Material if he can make his rated delivery and still retain a minimum practicable working inventory thereof; and if, in making such delivery, he reduces his inventory below such minimum, he may apply the rating only to the extent necessary to restore his inventory to such minimum.

(ii) A Supplier who supplies material which he has in whole or in part manufactured, processed, assembled, or otherwise physically changed may not apply a rating to restore his inventory to a practicable working minimum unless he applies the rating before completing the rated delivery which reduces his inventory below such minimum.

(iii) A Supplier who supplies material which he has not in whole or in part manufactured, processed, assembled, or otherwise physically changed may defer applications of a rating hereunder to purchase orders or contracts for such material to be placed by him until he can place a purchase order or contract for the minimum quantity procurable on his customary terms: *Provided*, That he shall not defer the application of any rating for more than three months after he becomes entitled to apply it.

(e) *Application of preference ratings.* (1) The Operator or any Supplier, in order to apply a preference rating assigned hereunder to deliveries to him, must endorse on all copies of each purchase order or contract which is covered by a rating assigned hereunder, a statement in the following form, signed manually or as provided in Priorities Regulation No. 7 (§ 944.27) by an official duly authorized for such purpose, specifying the rating assigned:

Preference Rating A– , is applied hereto under Preference Rating Order No. P–98, with the terms of which Order the undersigned is familiar. This rating may be extended only upon the terms of said Order.

Name of Operator or Supplier

By---

Signature of Duly Authorized Official

Such endorsement shall constitute a representation to the War Production Board and the Supplier or manufacturer with whom the purchase order or contract is placed that such purchase order or contract is duly rated in accordance herewith. Such Supplier or manufacturer shall be entitled to rely on such representation, unless he knows or has reason to believe it to be false. Any such purchase order or contract shall be restricted to material the delivery of which is rated in accordance herewith.

(2) In addition to the requirements of paragraph (e) (1), the Operator (but not a Supplier), in order to apply the preference ratings assigned by paragraphs (b) (1), (b) (2) (b) (3), (b) (4) (ii), (b) (4) (iii), (b) (4) (iv) and (b) (4) (v), must communicate with the Office of Petroleum Coordinator, Washington, D. C. Ref: P–98, supplying in detail the following information:

(i) Date of actual breakdown or suspension of operations (if applicable);

(ii) The equipment to be repaired and its operating importance (if applicable);

(iii) The Material, quantity and price thereof, necessary to effectuate the Repair or to initiate or maintain operations;

(iv) The supply of the necessary Material which the Operator has on hand or available; and

(v) The names and addresses of Suppliers from whom the Material is to be obtained and the earliest delivery dates assured on (a) an A–8 or lower rating, (b) an A–2 or higher rating by any such Supplier for delivery of the minimum necessary quantity of Material.

The Director of Industry Operations will notify the Operator whether, and to what extent, the application is approved. A copy of such notification shall be furnished by the Operator to any Supplier to evidence the proper rating granted pursuant to the provisions of this Order.

(3) In addition to the requirements of paragraph (e) (1), the Operator (but not a Supplier), in order to apply the preference rating assigned by paragraph (b) (5) (ii) must obtain the countersignature of the Director in Charge of a District Office of the Office of Petroleum Coordinator upon the purchase order or contract which such Operator has endorsed and signed pursuant to paragraph (e) (1).

(4) In addition to the requirements of paragraph (e) (i), the Operator (but not a Supplier), in order to apply the preference ratings assigned by paragraphs (b) (5) (i), (b) (6) (i) and (b) (6) (ii), must obtain the countersignature of the Director in Charge of a District Office of the Office of Petroleum Coordinator upon the purchase order or contract which such Operator has endorsed and signed pursuant to paragraph (e) (i), unless any individual item to be obtained under the ratings assigned by these paragraphs and to which a preference rating is to be applied has a cost to the Operator of $500 or less.

(f) *Restrictions on use of material obtained under a rating.* When an Operator has applied a rating authorized by this Order, he must use the Material delivered pursuant to the rating or an equivalent amount of Material for the purpose stated in his endorsement pursuant to paragraph (e). In no event shall any Operator use Material delivered to him pursuant to a preference rating assigned by this Order in violation of the provisions of any Conservation Order issued by the Director of Priorities.

(g) *Exception of Operators from Provisions of preference rating Orders Nos. P–43, P–46, and P–100.* No Operator engaged in operating a Petroleum Enterprise and covered by this Order shall be entitled to apply the preference rating assigned by Preference Rating Orders Nos. P–43, P–46, and P–100, and no such Operator shall be subject to the Provisions of such Orders.

(h) *Preference rating assistance other than that granted by the terms of this Order.* Any Operator engaged in operating a Petroleum Enterprise may request preference rating assistance for deliveries of Material to him by filing with the Office of Petroleum Coordinator applications for preference rating assistance on any appropriate preference rating or project rating application form issued pursuant to the authority of the Director of Industry Operations.

(i) *Records.* In addition to the records required to be kept under Priorities Regulation No. 1, the Operator and each Supplier placing or receiving any purchase order or contract rated hereunder shall each retain for a period of at least two years, for inspection by representatives of the War Production Board, endorsed copies of all such purchase orders or contracts, whether accepted or rejected, segregated from all other purchase orders or contracts, or filed in such manner that they can be readily segregated for such inspection.

(j) *Communications to Office of Petroleum Coordinator.* All reports which may be required to be filed hereunder and all communications concerning this Order shall, unless otherwise directed, be addressed to:

Office of Petroleum Coordinator
Washington, D. C. Ref: P–98.

(k) *Violations.* Any Person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (a) of the Criminal Code (18 U.S.C. 80).

(l) *Revocation or amendment.* This Order may be revoked or amended at any time as to any Operator or any Supplier. In the event of revocation, deliveries already rated pursuant to the provisions of this Order shall be completed in accordance with said rating, unless the rating has been specifically revoked with respect thereto. No additional applications of the rating to any other deliveries shall thereafter be made by any Operator or Supplier affected by such revocation.

(m) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision of this Order may be inconsistent therewith, in which case the provisions of this Order shall govern.

(n) *Effective date.* This Order shall take effect on the date of issuance and shall continue in effect until May 15, 1942. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong. 3d Sess., as amended by Public Law 89, 77th Cong., 1st Sess.)

Issued this 14th day of March, 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42–2282; Filed, March 16, 1942; 11:30 a. m.]

PART 1076—PLUMBING AND HEATING SIMPLIFICATION

Schedule IV—Cast Iron Soil Pipe and Fittings to Limitation Order No. L–42 [1]

§ 1076.5 *Schedule IV to Limitation Order No. L–42—(a) Definition.* For the purposes of this Schedule:

"Producer" means any person who manufactures, processes, fabricates or assembles cast iron soil pipe and fittings.

(b) *Simplified practices.* Pursuant to Limitation Order No. L–42 the following simplified practices are hereby established for cast iron soil pipe:

(1) Cast iron soil pipe, known commercially as "standard", shall continue at the same weight as heretofore produced.

(2) Cast iron soil pipe, known commercially as "medium", shall be discontinued.

(3) Cast iron soil pipe, known commercially as "extra heavy", shall be reduced in weight as follows:

Reduction per length	New weight per single hub length	New weight per double hub length
	Pounds	*Pounds*
2"—1 lb.	24	25
3"—2 lbs.	43	45
4"—3 lbs.	57	60
5"—4 lbs.	71	74
6"—5 lbs.	90	95
8"—10 lbs.	140	147
10"—15 lbs.	200	210
12"—25 lbs.	245	260
15"—25 lbs.	350	370

A variation of 5 percent under the specified weight will be permitted on individual lengths; no variation over will be permitted.

(4) Standard and extra heavy fittings may be produced as heretofore except that brass pipe plugs and brass trap screws shall be discontinued on cleanouts, ferrules, traps, test tees and other soil pipe fittings.

(c) *Effective date of simplified practices; exceptions.* On and after April 1, 1942, no cast iron soil pipe or fittings which do not conform to the standards established by paragraph (b) hereof shall be produced or delivered by any producer or accepted by any person from any such producer, except with the express permission of the Director of Industry Operations: *Provided, however,* That the foregoing shall not prohibit the delivery by any producer of such soil pipe or fittings as were in his stock in finished form on April 1, 1942, or which had, on said date, been cast, machined or otherwise processed in such manner that their manufacture in conformity with this Schedule would be impractical, nor the receipt of such soil pipe or fittings from such producer.

(d) *Records covering excepted soil pipe and fittings.* Each producer shall retain in his files records showing his inventory of excepted soil pipe and fittings (by types and sizes) as of April 1, 1942, and such records shall be kept readily available and open to audit and inspection by duly authorized representatives of the War Production Board. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561; E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 16th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1083—KAPOK

Amendment No. 1 to General Conservation Order M–85

Section 1083.1 (*General Conservation Order M–85* [1]) is hereby amended in the following respects:

1. Paragraph (c) (2) is amended by striking out the date, "March 31, 1942," wherever the same appears and inserting in lieu thereof the date, "April 30, 1942."

2. Paragraph (c) is further amended by adding thereto the following subparagraph:

(4) Orders placed by dealers with manufacturers, importers, or importing agents.

3. Paragraph (d) (7) is amended to read as follows:

(7) Stuffing for air tanks of boats, rafts, and lifesaving appliances in the minimum amounts prescribed by the regulations of the Bureau of Marine Inspection and Navigation, or any successor agency, which specifically require the use of kapok and permit the use of no other alternate materials.

This Amendment shall take effect immediately. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 16th day of March 1942.

J. E. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42–2261; Filed, March 16, 1942; 11:30 a. m.]

[1] 7 F.R. 784.

PART 1097—SHEARLINGS

Amendment No. 1 to General Conservation Order M–94

Section 1097.1 (*General Conservation Order M–94*) [1] is hereby amended in the following respects:

1. Paragraph (b) (1) is amended by striking out the words, "a Bradford wool count of 50 and up," in the last line thereof, and substituting therefor the words, "of 46's grade or higher."

2. Paragraph (d) is amended to read as follows:

(d) *Restrictions on pulled wool.* No person shall hereafter pull or cause to be pulled any wool from any freshly flayed or salted sheep skin or lamb skin when the wool is of such a length and type as to constitute a wool growth of 1" or less and of 46's grade or higher, except skins black or mottled with black, or so torn or damaged as to be unsuited for tanning purposes.

This Amendment shall take effect immediately. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong. 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 16th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42–2280; Filed, March 16, 1942; 11:30 a. m.]

PART 1112—OFFICE MACHINERY

General Limitation Order No. L–54–B

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain types of office machinery for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1112.3 *General Limitation Order L–54–B—(a) Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Manufacturer" means any person manufacturing office machinery, or attachments thereto, of the kinds listed in List A, to the extent that he is engaged in such manufacture, and shall include sales and distribution outlets controlled by said manufacturer.

(3) "New Office Machinery" means office machinery including attachments thereto, of the types listed in List A, which has not been delivered to any person acquiring it for use.

(b) *General restrictions.* On and after the date of issue of this order, regardless of the terms of any contract of sale, purchase, rental, or other commitment, or of any preference rating, no Manufacturer, wholesaler, distributor, retailer, or other dealer shall accept any purchase, rental or other order for new office machinery, or attachments thereto, as listed in List A, except a purchase, rental or other order rated A–9 or better on Preference Rating Certificate PD–1A or PD–3A, issued by the Director of Industry Operations; no Manufacturer, wholesaler, distributor, retailer, or other dealer shall sell, lend, lease, rent, deliver, or otherwise transfer any such new office machinery except to fill a purchase, rental or other order rated A–9 or better on Preference Rating Certificate PD–1A or PD–3A, issued by the Director of Industry Operations; and no person shall purchase, borrow, lease, rent, receive delivery of, or otherwise acquire any such new office machinery except pursuant to a purchase, rental or other order rated A–9 or better on Preference Rating Certificate PD–1A or PD–3A issued to him by the Director of Industry Operations.

(c) *Non-applicability to certain transactions.* The terms of paragraph (b) hereof shall not apply to the sale, purchase, rental, delivery, transfer, or receipt of any new office machinery built to customer's special specifications on which physical assembly was started prior to the date of issue of this order and which cannot be utilized by any other person entitled to employ a rating of A–9 or better as specified in paragraph (b) hereof.

(d) *Non-applicability to repair or maintenance of existing equipment.* The prohibitions of paragraph (b) hereof shall not be construed to restrict the delivery, in any manner, of parts to be used to repair or maintain existing equipment in operation.

(e) *Existing contracts.* Fulfilment of contracts in violation of this Order is prohibited regardless of whether such contracts are entered into before or after the effective date of this Order. No person shall be held liable for damages or penalties for default under any contract or order which shall result directly or indirectly from his compliance with the terms of this Order.

(f) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(g) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to:

War Production Board
Washington, D. C. Ref.: L–54–B

(h) *Appeals.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the Director of Industry Operations, Washington, D. C., Ref.: L–54–B setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Violations.* Any persons who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (a) of the Criminal Code (18 U.S.C. 60).

(j) *Records and reports.* All manufacturers, wholesalers, distributors, retailers and other dealers affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventory, production, and transfers of Office Machinery, as listed in List A.

All persons affected by this Order shall execute and file with the Office Machinery and Services Branch, Division of Industry Operations, War Production Board, such reports and questionnaires as said Branch shall from time to time request.

Effective date. This Order shall take effect at 12:01 A. M., Eastern War Time, March 15, 1942, and shall continue in effect until revoked by the Director of Industry Operations, subject to such changes and supplements thereto as shall be issued from time to time. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942; 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong. 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 14th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

LIST A

1. Accounting and bookkeeping machines.
2. Adding machines.
3. Addressing machines (including, but not not limited to, embossing machinery for plates).
4. Billing and continuous forms handling typewriters.
5. Billing and other forms writing machines (except autographic registers and manifolders).
6. Calculating and computing machines.
7. Dictating machines (including, but not limited to, transcribing and shaving machines.
8. Duplicating machines (including, but not limited to, ink ribbon, gelatin, offset, spirit, stencil, reproducing typewriter principle, and photographic types; but not including photostating machines).
9. Interoffice communication systems and machines.
10. Punched card tabulating and accounting machines.
11. Shorthand writing machines.
12. Time clock stamps and time recording machines.
13. Wide carriage (16-inch or wider) typewriters with special inbuilt features designed for statistical or accounting work.

[F. R. Doc. 42–2286; Filed, March 16, 1942; 11:32 a. m.]

PART 1141—MOTOR FUEL

Limitation Order L–70

The fulfillment of the requirements for the defense of the United States has created a shortage in the facilities for the transportation of petroleum which will result, in certain areas, in a shortage in the supply of Motor Fuel for defense, for private account and export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1141.1 *Limitation Order L–70—(a) Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Additional definitions.* (1) "Person" means any individual, partnership, association, business trust corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Motor Fuel" means liquid fuel, except Diesel fuel, used for the propulsion of motor vehicles or motor boats and shall include any liquid fuel to which Federal gasoline taxes apply except liquid fuel used for the propulsion of aircraft.

(3) "Service Station" means any place of business or part thereof, where Motor Fuel is delivered into the fuel supply tanks of mtor vehicles or motor boats.

(4) "Supplier" means any Person, other than a Service Station, who delivers Motor Fuel, directly or indirectly, for redelivery or for consumption.

(5) "Bulk Consumer" means any Person, who is an ultimate user of Motor Fuel, which such Person receives directly from a Supplier: *Provided,* That the term shall not include an ultimate user of Motor Fuel to the extent that such ultimate user resells or redelivers Motor Fuel delivered to him.

(6) "Curtailment Area" means the area specified in Exhibit "A."

(7) "Quota Month" means the month for which a quota is to be determined.

(8) "Base Gallonage" means one-third of the number of gallons of Motor Fuel actually delivered to any Service Station or Bulk Consumer during the period December 1, 1941—February 28, 1942, inclusive.

(9) "Seasonal Adjustment" means the difference between one-third of the number of gallons of Motor Fuel delivered to any Service Station or Bulk Consumer during the period December 1, 1940—February 28, 1941, inclusive, and the number of gallons of Motor Fuel delivered to such Service Station or Bulk Consumer during the month of 1941 corresponding to the Quota Month.

(10) "Normal Gallonage", subject to the adjustment provided in paragraph (e) hereof, means the gallonage represented by the Base Gallonage of any Service Station or Bulk Consumer to which has been added or subtracted the Seasonal Adjustment of such Service Station or Bulk Consumer: *Provided,* That in no case shall the Normal Gallonage of any Service Station be less than 75% of the gallonage actually delivered to such Service Station during the month of 1941 corresponding to the Quota Month.

(11) "Allowable Percentage" means that percentage specified in Exhibit "B".

(12) "Monthly Quota" means that amount of Motor Fuel which any Service

Station or Bulk Consumer in the Curtailment Area has the right to obtain from his Supplier or Suppliers during the Quota Month and shall be determined by multiplying the Normal Gallonage of such Service Station or Bulk Consumer by the Allowable Percentage: *Provided*, That the Monthly Quota of Bulk Consumers shall be the full quantity of Motor Fuel required for any of the preferential deliveries specified in paragraph (f) plus the Allowable Percentage of the difference between the adjusted Normal Gallonage and the quantity required for such preferential deliveries.

(13) "Curtailment Period" means the period during which this Order is in effect.

(c) *Limitation on shipment of motor fuel from the curtailment area.* No Supplier shall deliver or cause to be delivered, directly or indirectly, and no Person shall accept delivery of any Motor Fuel from any point within the Curtailment Area to any point in the United States outside the Curtailment Area: *Provided*, That this paragraph shall not apply to:

(1) The delivery of Motor Fuel from the Curtailment Area into contiguous areas for return delivery into the Curtailment Area;

(2) The return delivery into contiguous areas of Motor Fuel delivered into the Curtailment Area from such contiguous areas for return delivery;

(3) The delivery outside the Curtailment Area of benzol or of any Motor Fuel manufactured wholly from crude oil or natural gas produced within the Curtailment Area;

(4) Deliveries from bulk plants within the Curtailment Area to such points outside the Curtailment Area as were actually served by such bulk plants by tank truck during the period December 1, 1941–February 28, 1942, inclusive.

(d) *Limitation on delivery of motor fuel.* No Supplier shall deliver or cause to be delivered, directly or indirectly, in any month to any Service Station or Bulk Consumer within the Curtailment Area, and no such Service Station or Bulk Consumer shall accept delivery of any Motor Fuel in excess of the Monthly Quota of such Service Station or Bulk Consumer.

(e) *Adjustments of normal gallonage.* (1) The Normal Gallonage of any Service Station or Bulk Consumer shall be adjusted upward or downward by the Supplier or Suppliers of such Service Station or Bulk Consumer so that it shall represent the normal and expected volume of business at such Service Station or the normal and expected requirements for consumption by such Bulk Consumer during the Quota Month which would occur if there were no restrictions of deliveries. Such adjustments shall be made only in the following instances:

(i) In any case where deliveries to a Service Station or Bulk Consumer during any of the periods specified in subparagraphs (b) (8) or (b) (9) hereof were so abnormally large or small as to fail to reflect the seasonal variations normally expected at such Service Station or in such Bulk Consumer's current requirements for consumption for the Quota Month.

(ii) In any case where deliveries to a Service Station or Bulk Consumer during the periods specified in subparagraphs (b) (8) or (b) (9) hereof were such as to reflect an abnormal contraction or expansion in the volume of business for such Service Station or of the requirements for consumption by such Bulk Consumer.

(iii) In any case where any Service Station was not open for business or any Bulk Consumer had no requirements for current consumption during any or all of the period specified in subparagraphs (b) (8) or (b) (9) hereof.

(2) In the event that any Supplier has any reason to believe that any adustment of the Normal Gallonage of any Service Station or Bulk Consumer has been improperly made or denied by such Supplier or by any other Supplier supplied directly or indirectly by him, then such Supplier shall either withhold further deliveries until any excessive upward adjustment has been compensated or increase deliveries until any excessive adjustment has been compensated.

(f) *Preferential deliveries.* Suppliers and Service Stations shall deliver to any Bulk Consumer or other Person such Bulk Consumer's or Person's minimum necessary requirements of Motor Fuel for any of the following uses, upon presentation by the Bulk Consumer or other Person to the delivering Supplier of the following statement, manually signed by such Person or a responsible official of the Bulk Consumer duly designated for such purpose:

Motor Fuel delivered pursuant to this representation will be used only for purposes authorized in paragraph (f) of Limitation Order L–70, with the terms of which Order the undersigned is familiar.

Legal Name of Bulk Consumer or other Person
By

Signature of Duly Designated Official

Such statement shall constitute a representation to the Director of Industry Operations and to the Supplier of such Motor Fuel that such Motor Fuel is for such use, and such Supplier shall be entitled to rely upon such representation unless he knows or has reason to believe it to be false:

(1) The operation of vehicles and boats necessary for the public health and safety, including, among others, ambulances and vehicles operated by practicing physicians, surgeons, nurses, and veterinarians, and those engaged in civilian defense activities while the area is under martial law, enemy attack, or immediate threat of enemy attack.

(2) The operation of vehicles and boats owned or operated by or in the service of Federal, state or local governments.

(3) The operation of commercial vehicles so classified by law, including cabs, and the operation of commercial boats.

(4) The operation of commercial, industrial and agricultural machinery and equipment.

(5) The operation of school buses.

(g) *Replacement for Army and Navy deliveries.* Any Service Station which makes deliveries of Motor Fuel for official use in vehicles or boats owned or operated by the United States Army or the United States Navy, which deliveries are not a normal part of such Service Station's regular business, shall be entitled to replacement from his Supplier of the amount thereof and may accept delivery of such replacement in addition to the Monthly Quota for such Service Station.

(h) *Right to obtain deliveries.* (1) A Service Station or Bulk Consumer, who has been obtaining his supplies of Motor Fuel pursuant to a regular delivery schedule, shall have the right to obtain his Monthly Quota of Motor Fuel from the Supplier, or if more than one, then proportionately from the Suppliers who sold and delivered Motor Fuel to such Service Station or Bulk Consumer during the preceding month. If a Service Station or Bulk Consumer has received deliveries of Motor Fuel during the period of 12 calendar months immediately preceding the then current calendar month from more than one Supplier pursuant to no regular delivery schedule, then the said Service Station or Bulk Consumer shall have the right to obtain the amount of his Monthly Quota of Motor Fuel proportionately from all the Suppliers who delivered Motor Fuel to him during the said 12 month period.

(2) If any Supplier does not have a sufficient quantity of Motor Fuel to supply the demands of Service Stations or Bulk Consumers to the extent that he is obligated hereunder to supply such demands, then, if he has been obtaining his supplies of Motor Fuel pursuant to a regular delivery schedule, he shall have the right to obtain the amount of such deficiency from his Supplier, or if more than one, then proportionately from the Suppliers, who delivered Motor Fuel to him during the preceding month. If he has received deliveries of Motor Fuel during the period of 12 calendar months immediately preceding the then current calendar month pursuant to no regular delivery schedule, then he shall have the right to obtain the amount of such deficiency of Motor Fuel proportionately from all the Suppliers who delivered Motor Fuel to him during the said 12-month period.

(3) Every Supplier shall be obligated to deliver Motor Fuel to other Suppliers, Bulk Consumers and Service Stations as hereinabove provided.

(4) No Supplier shall be required by contract or otherwise to deliver Motor Fuel to any other Supplier in quantities greater than are required to enable such other Supplier to deliver the Monthly Quotas and such additional replacements as are provided for in paragraph (g) hereof of the Service Stations or Bulk Consumers supplied directly or indirectly by him.

(i) *Restrictions of deliveries to violators.* No Supplier shall deliver Motor Fuel to any other Supplier, Service Station or Bulk Consumer where such Supplier knows or has reason to believe that such other Supplier, Service Station or Bulk Consumer is in violation of the terms of this Order.

(j) *Methods of distribution.* Suppliers shall deliver to Service Stations or Bulk Consumers in such a manner, so far as practicable, as to allow an even flow of supplies over the entire month: *Provided*, That on the tenth and twentieth of any month in the Curtailment Period no more than one-third and two-thirds respectively of such Service Station's or Bulk Consumer's total Monthly Quota shall have been delivered to him. Service Stations shall make deliveries into the tanks of motor vehicles in such a manner as to allow for an even disbursing of their Monthly Quota.

(k) *Service station hours of distribution.* No Service Station within the Curtailment Area shall deliver to any Persons any Motor Fuel during more than 12 hours of any calendar day or during more than 72 hours of any calendar week: *Provided*, That this paragraph shall not apply in the case of deliveries made exclusively to motor vehicles and motor boats for the uses specified in paragraph (f).

(l) *Reports.* All Suppliers in the Curtailment Area shall file the following reports:

(1) On or before the 20th of the then Current Quota Month a statement on Form PD–368, of the anticipated total deliveries of Motor Fuel to be made to Suppliers, Service Stations and Bulk Consumers, including preferential deliveries, during such month.

(2) On or before the 20th day following the end of each Quota Month a statement, on Form PD–369, of the amount of Motor Fuel delivered in each state and in the District of Columbia during such month, stating separately, direct deliveries

(i) To Federal, state and local governments.

(ii) To Suppliers for direct delivery to Federal, state and local governments, and

(iii) To Service Stations and Bulk Consumers under their Monthly Quotas.

(m) *Records.* In addition to the records required to be kept under Priorities Regulation No. 1, as amended from time to time, each Supplier or other Person receiving any representation authorized herein, shall each retain for a period of at least two years, for inspection by representatives of the War Production Board, endorsed copies of all such representations filed in such manner that they can be readily segregated for such inspection. In addition, each Supplier shall keep, thus filed, and for such other purposes as may from time to time be prescribed by the Director of Industry Operations, for a period of at least two years, accurate and complete records of deliveries of Motor Fuel, the dates of actual deliveries, and the Person and states (or the District of Columbia) involved in each delivery.

(n) *Appeals.* Any Person affected by this Order who, after he has sought an adjustment from his Supplier pursuant to paragraph (e) hereof, still considers that compliance therewith would work an exceptional and unreasonable hardship upon him, may, if he is located in any area specified in subparagraph 1 of Exhibit "A" hereof, appeal to the District Director of Marketing, Office of Petroleum Coordinator for National Defense, 122 East 42nd Street, New York, New York, or, if located in any area specified in subparagraph 2 of Exhibit "A" hereof, appeal to the District Director of Marketing, Office of Petroleum Coordinator for National Defense, 855 Subway Terminal Building, Los Angeles, California, by letter, setting forth the pertinent facts and the reasons why he considers himself entitled to relief, including specifically a statement that he has been unable to obtain a satisfactory adjustment from his Supplier and giving all information required on Form PD–367. The District Director of Marketing shall promptly investigate and consider the matter and shall seek to bring about a voluntary settlement of the controversy in accordance with the provisions of this Order. In the event that no settlement can be reached, the District Director of Marketing shall forward the appeal and record thereon, together with his recommendation, to the Director of Marketing, Office of Petroleum Coordinator for National Defense, Washington, D. C., who shall consider the appeal and transmit it, together with his recommendations thereon, to the Director of Industry Operations, who may, thereupon, take such action as he may deem appropriate.

(o) *Directions as to deliveries.* The Director of Industry Operations may, from time to time, issue specific directions directing or forbidding deliveries of Motor Fuel.

(p) *Reports and correspondence.* All reports required to be filed hereunder and all communications concerning this Order shall, unless otherwise directed, be addressed to:

Office of Petroleum Coordinator,
Attn: Director of Marketing,
Washington, D. C. Ref.: L–70.

(q) *Violations.* Any Persons who wilfully violates any provision of this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under Section 35A of the Criminal Code (18 U.S.C. 80).

(r) *Effective date.* This Order shall take effect five days after the date of issuance and shall continue in effect until revoked by the Director of Industry Operations: *Provided, however*, That no Person shall deliver or accept delivery of any abnormally large quantities of Motor Fuel between the date of issuance and the effective date of this Order: *And provided further*, That if the effective date of this Order is not the first day of a month, the Monthly Quotas for such month shall be reduced proportionately. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.

Issued this 14th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

EXHIBIT "A"

Order L– shall apply in the following areas:

1. The States of Connecticut, Delaware, Florida east of the Apalachicola River, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and the District of Columbia.

2. The States of Oregon and Washington.

EXHIBIT "B"

Unless and until modified by the Director of Industry Operations the Allowable Percentage shall be 80%.

[F. R. Doc. 42–2287; Filed, March 16, 1942; 11:33 a. m.]

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1301—MACHINE TOOLS

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 67 [1]—NEW MACHINE TOOLS

Niagara Machine and Tool Works

A statement of the considerations involved in the issuance of this Amendment has been prepared and is issued simultaneously herewith.[2] New subparagraph (4) is added to § 1301.51 (a) and new subparagraph (e) (1) is added to § 1301.54 as set forth below. § 1301.56 is amended and § 1301.59a is added to read as set forth below:

§ 1301.51 *Maximum prices for new machine tools and extras.*

(a) • • •

• • • • • •

(4) Niagara Machine & Tool Works, Buffalo, New York. Notwithstanding any other provision of this paragraph (a), on and after March 10, 1942, regardless of the terms of any existing contract of sale or other commitment, the maximum price at which Niagara Machine & Tool Works may sell, offer to sell, deliver or transfer the machine tools set forth in subdivision (i) of this subparagraph (4), and the maximum price at which any person may buy, offer to buy, or accept delivery of said machine tools from Niagara Machine & Tool Works shall be the

[1] 7 F.R. 1337.

[2] The Statement of Considerations has been filed with the Division of the Federal Register.

price set opposite each such machine tool in said subdivision (i).

(i) Type of Machine Tool:	Maximum Price
#59 Single Crank Press	$4,732
#612–G Double Crank Press	10,693
#310 Power Squaring Shear	2,600

All other machine tools in the line represented by #59 Single Crank Press and #612–G Double Crank Press, respectively: Prices adjusted in conformance with the adjustment made for #59 Single Crank Press and #612–G Double Crank Press after such prices have been submitted to and approved in writing by the Office of Price Administration pursuant to § 1301.54 (e) (1). (Pub. Law 421, 77th Cong., 2nd Sess.)

* * * * *

§ 1301.54 *Records and reports.*

* * * * *

(e) (1) Niagara Machine & Tool Works, Buffalo, New York. On or before April 15, 1942, Niagara Machine & Tool Works shall submit to the Office of Price Administration a report on all other machine tools in the line represented by #59 Single Crank Press and #612–G Double Crank Press, respectively, setting forth a complete description of each machine tool in each such line, the list price of each such machine tool in effect on October 1, 1941, and the proposed new maximum price for each such machine tool. (Pub. Law 421, 77th Cong., 2nd Sess.)

* * * * *

§ 1301.56 *Enforcement.* (a) Persons violating any provision of this revised Price Schedule No. 67 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Revised Price Schedule No. 67 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the Office of Price Administration. (Pub. Law 421, 77th Cong., 2nd Sess.)

§ 1301.59a *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1301.51 (a) (4), 1301.54 (e) (1), 1301.56 and 1301.59a) to Revised Price Schedule No. 67 shall become effective March 16, 1942. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 13th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42–2196; Filed, March 13, 1942; 4:48 p. m.]

PART 1306—IRON AND STEEL

Correction to Amendment No. 1 to Revised Price Schedule No. 100[1]*—Cast Iron Soil Pipe and Fittings*

The date, April 1, 1941, appearing in § 1306.304 (b) is hereby corrected to read, April 1, 1942.

[1] 7 F.R. 1394, 1795.

§ 1306.308a *Effective dates of amendment.*

* * * * *

(b) Correction (§ 1306.304 (b)) to Amendment No. 1 to Revised Price Schedule No. 100 shall become effective March 7, 1942. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 14th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42–2239; Filed, March 14, 1942; 12:38 p. m.]

PART 1309—COPPER

AMENDMENT NO. 2 TO REVISED PRICE SCHEDULE NO. 20[1]—COPPER AND COPPER ALLOY SCRAP

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith.[2]

Section 1309.61 is amended to read as set forth below:

§ 1309.61 *Maximum prices for copper and copper alloy scrap.* (a) On and after February 27, 1942, regardless of the terms of any contract of sale or purchase or other commitment, no person shall sell, offer to sell, deliver, or transfer copper or copper alloy scrap to a consumer, and no consumer shall buy, offer to buy, or accept delivery of copper or copper alloy scrap at prices higher than the maximum prices set forth in Appendix A hereof incorporated herein as § 1309.69.

(b) *Conversion of railroad scrap.* The maximum prices established in § 1309.69 shall not apply to the sale, delivery, or transfer to a foundry, by a person owning, operating or maintaining rolling stock, of copper scrap and copper alloy scrap which result from such person's use of processing of castings or other articles of the type produced by the foundry, and which the foundry converts into castings or other articles of the type from which the scrap resulted: *Provided*, That:

(1) Such person delivers the scrap to the foundry, and the foundry returns an equivalent amount of castings or other articles of the type from which the scrap resulted, in accordance with the terms of a written agreement approved by the War Production Board.

(2) The foundry complies with the price limitations on non-ferrous castings set forth by the Price Administrator in a letter to all non-ferrous foundries, dated January 30, 1942, and files the affirmations of compliance requested by that letter. (Pub. Law 421, 77th Cong., 2nd Sess.)

§ 1309.68a *Effective dates of amendments.*

* * * * *

(b) Amendment No. 2 (§ 1309.61) to Revised Price Schedule No. 20 shall become effective February 27, 1942. (Pub. Law 421, 77th Cong., 2nd Sess.)

Issued this 13th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42–2200; Filed, March 14, 1942; 9:00 a. m.]

[2] The statement of considerations has been filed with the Division of the Federal Register.

PART 1315—RUBBER AND PRODUCTS AND MATERIAL OF WHICH RUBBER IS A COMPONENT PART

REVISED TIRE RATIONING REGULATIONS

Suspension Order No. 1

Silverstein's Tire and Battery Service, Inc., 25 Hudson Avenue, Albany, New York is a company engaged in selling tires at retail and subject to the provisions of the Tire Rationing Regulations dated December 30, 1941 (7 F.R. 257) and the Revised Tire Rationing Regulations dated February 19, 1942 (7 F.R. 1027), both issued by the Office of Price Administration. On March 3, 1942, written charges of violations of these Regulations were served on Silverstein's Tire and Battery Service, Inc., and on George Silverstein, president of the company. A hearing on these charges was held on March 7, 1942, in Albany, New York, at which time and place there appeared a duly authorized representative of the Office of Price Administration, and George Silverstein, and Silverstein's Tire and Battery Service, Inc., through said George Silverstein. All parties introduced their evidence pertaining to such charges. Such evidence having been duly considered,

It is hereby determined that: Silverstein's Tire and Battery Service, Inc., and George Silverstein have each wilfully violated the said Tire Rationing Regulations dated December 30, 1941 (7 F.R. 257) and the said Revised Tire Rationing Regulations dated February 19, 1942 (7 F.R. 1027) through sales of new rubber tires and new rubber tubes in a manner contrary to the provisions of said Regulations.

Because of the scarcity and critical importance of rubber and rubber products, these violations of the aforesaid Tire Rationing Regulations have resulted and will result in the diversion of new rubber tires from primary defense needs into non-essential uses, in a manner contrary to the public interest and detrimental to national defense. It further appears to the Acting Administrator, on the evidence before him, that further violations of these Rationing Regulations by Silverstein's Tire and Battery Service, Inc., and by George Silverstein are likely.

It is therefore hereby ordered:

§ 1315.11 *Suspension Order 1.* (a) During the period in which this Order shall be in effect, George Silverstein and Silverstein's Tire and Battery Service, Inc., its successors and assigns, shall accept no deliveries or transfers of, nor in any manner receive from any source, any new rubber tires or tubes.

(b) During the period in which this Order shall be in effect, George Silverstein and Silverstein's Tire and Battery Service, Inc., its successors and assigns, shall accept no purchase orders, nor enter into any contracts or commitments, for the sale or delivery of any new tires or tubes, nor in any manner sell, transfer or deliver any new rubber tires and tubes to consumers thereof, unless and until such consumers obtain proper authorization to receive the same under the Revised Tire Rationing Regulations (§§ 1315.151 to 1315.1199, inclusive).

(c) During the period in which this Order shall be in effect no person, firm or corporation shall sell, transfer, or in any manner deliver any new rubber tires or tubes to George Silverstein or Silverstein's Tire and Battery Service, Inc., its successors or assigns, regardless of whether such tires or tubes have been previously purchased and completely paid for.

(d) This Order shall take effect immediately and, unless sooner terminated, shall expire at midnight of June 30, 1942. (E.O. 8629, Jan. 7, 1941, 6 F.R. 191; E.O. 8734, Apr. 11, 1941, 6 F.R. 1917; E.O. 8875, Aug. 28, 1941, 6 F.R. 4483; E.O. 9024, Jan 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 567; O.P.M. Ord. M15, June 20, 1941, 6 F.R. 3060; O.P.M. Supp. Ord. M–15–c, Dec. 27, 1941, 6 F.R. 6792; W.P.B. Dir. No. 1, Jan. 24, 1942, 7 F.R. 562; O.P.A. Tire Rat. Reg., December 30, 1941; 7 F.R. 72; O.P.A. Tire Rat. Reg. Rev., Feb. 19, 1942,7 F.R. 1027; Sec. 2 (a) Public Law 671, 76th Cong., 3rd Sess., as amended Public Law 89, 77th Cong., 1st Sess.)

Issued this 13th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42–2196; Filed, March 13, 1942; 4:47 p. m.]

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

AMENDMENT NO. 2 TO REVISED TIRE RATIONING REGULATIONS[1]—TIRES AND TUBES, RETREADING AND RECAPPING OF TIRES, AND CAMELBACK

Two new sections, §§ 1315.805a and 1315.1199a, are added as set forth below:

Transfers and Deliveries of New Tires and Tubes, Retreaded or Recapped Tires, and Camelback

* * * * *

§ 1315.805a *Allotment of camelback to retreaders and recappers on and after March 17, 1942.* (a) Any person engaged in retreading or recapping tires who is not a maker of camelback and who owns or operates molds or curing tables capable of retreading simultaneously two or more tires 7.50–20 or larger may apply between March 17 and April 1, 1942 to the Board servicing the area in which his principal office is located for authorization to purchase 750 pounds of camelback for each such mold or curing table which he owns or operates.

(b) Any person engaged in retreading or recapping tires who is not a maker of camelback and who owns or operates molds or curing tables equipped with matrices which make possible the retreading or recapping of truck tires 5.50–17 and 30 x 5 or larger, but which cannot retread or recap tires 7.50–20 or larger, may apply between March 17 and April 1, 1942 to the Board servicing the area in which his principal office is located for authorization to purchase 300 pounds of camelback for each such mold or curing table which he owns or operates.

(c) An applicant for an allotment of camelback as provided for in paragraphs (a) and (b) of this section who has not previously applied for an initial allotment of camelback under § 1315.805, or who made such an application but was denied an allotment, shall fill out O. P. A. Form No. R–9, omitting item 11 and attaching to the Form a supplementary statement showing:

(1) The number of retreading or recapping machines which he possesses capable of retreading or recapping more than one tire at a time, and the location of each of these machines; and

(2) The number of molds or curing tables equipped with matrices which make possible the retreading or recapping of truck tires 5.50–17 and 30 x 5 or larger, and the location of each of these molds or curing tables.

An applicant who has previously filed an application for an initial allotment of camelback, and has secured an allotment on the basis of such application must file only the supplementary statement referred to immediately above, with the same Board with which he filed O. P. A. Form No. R–9. The supplementary statement shall have upon its face a certificatation signed by the applicant in the same language as the certification shown in item 12 of O. P. A. Form No. R–9.

(d) Upon receiving an application, between March 17 and April 1, 1942 by a retreader or recapper who is not a maker of camelback, for authorization to purchase an initial allotment of camelback, the Board shall satisfy itself that the applicant has properly executed his application including all the agreements therein contained and that all the facts stated in the application are true.

If the applicant was granted authorization to purchase an initial allotment of camelback on the basis of an application submitted on or before March 1, 1942, the Board may make the following additional allotments of camelback on O.P.A. Form No. R–10: 750 pounds of camelback for each mold or curing table listed in Part 1 of the supplementary statement, and 300 pounds of camelback for each mold or curing table listed in Part 2 of the supplementary statement.

If the applicant had not filed an application for an initial allotment of camelback on or before March 1, 1942, or if he filed such an application but was denied an allotment, the Board may authorize an allotment equal to the amount which the applicant would be entitled to purchase on the basis of his supplementary statement, minus an amount equal to the excess of the total number of pounds of camelback owned or controlled by the applicant as of midnight February 18, 1942, over the maximum number of pounds of camelback which the applicant was entitled to purchase as of March 1, 1942 (item 10 minus 9 of O.P.A. Form No. R–9). Where Item 9 exceeds Item 10, no subtraction shall be made nor shall an additional allotment be authorized for this difference.

If the Board determines that an application should be granted either wholly or in part, it shall note upon such application the amount of camelback which the applicant was authorized to purchase and the serial number of the certificate or certificates issued. After acting upon the application the Board shall notify the applicant of its decision. In cases where the Board authorizes an applicant to purchase an initial allotment of camelback, the Board shall immediately issue to such applicant a certificate on O. P. A. Form No. R–10.

(e) The provisions of paragraphs (d) to (g) inclusive, of § 1315.805 shall apply to the allotment of camelback authorized under this § 1315.805a.

§ 1315.1199a. *Effective dates of amendments.*

(a) * * *

(b) Amendment No. 2 (§§ 1315.805a, 1315.1199a) to Revised Tire Rationing Regulations shall become effective March 17, 1942. (Pub. Law 421, 77th Cong., 2d Sess. Jan. 30, 1942, OPM Supp. Order No. M–15c, WPB Directive No. 1, Sup. Directive No. 1B, 6 F.R. 6792; 7 F.R. 562,925)

Issued this 16th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42–2241; Filed, March 16, 1942; 9:23 a. m.]

PART 1316—COTTON TEXTILES

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 89[1]—BED LINENS

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith:[2]

Footnote 1 to Table II of § 1316.111 (c) is amended to read as follows and a new § 1316.110a is added as set forth below:

§ 1316.111 *Appendix A: Maximum prices for bed linens.*

* * * * *

(c) *Maximum price tables.*

* * * * *

Table II[1] *Base prices for bed linens.*

* * * * *

[1] The base price for bed linens differing in any dimensions from those listed herein shall be: (a) in the case of brown or bleached sheeting, the base price provided herein for such sheeting of the nearest inferior width; and (b)

[1] 7 F.R. 1375.

[2] The Statement of Considerations has been filed with the Division of the Federal Register.

in the case of sheets, pillow cases or bolster cases, the base price provided herein for the equivalent linear yardage of bleached sheeting of the same type and width, plus the applicable following amount:

	Per dozen
For Sheets 90" or more in length	$1.50
For Sheets less than 90" in length	1.25
For Pillow cases (Bolster cases) 54" or more in length	1.25
For Pillow cases less than 54" in length	0.75

§ 1316.110a *Effective dates of amendments.* (a) Amendment No. 1 (§ 1316.111 (c), § 1316.110a) to Revised Price Schedule No. 89 shall become effective March 16, 1942. (Pub. Law 421, 77th Cong. 2d Sess.)

Issued this 14th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42-2238; Filed, March 14, 1942; 12:38 p. m.]

PART 1335—CHEMICALS

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 98[1]—TITANIUM PIGMENTS

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith.[2]

Section 1335.759 is hereby amended by the addition of a new paragraph (e), and a new § 1335.758a is added as set forth below:

§ 1335.759 *Appendix A: Maximum prices for titanium pigments.*

* * * * *

(e) American Zirconium Corporation, a Maryland corporation with its principal office at St. Helena, Baltimore, Maryland, may sell, deliver or transfer the various grades of titanium dioxide, referred to in § 1335.759 (a) of Revised Price Schedule No. 98 at the maximum prices established therefor in paragraphs (a), (b), (c) and (d) of § 1335.759 of Revised Price Schedule No. 98, plus 1½ cents per pound. (Pub. Law 421, 77th Cong., 2d Sess.)

§ 1335.758a *Effective dates of amendment.* Amendment No. 1 (1335.759(e)) to Revised Price Schedule No. 98, shall become effective March 1, 1942 and shall remain in effect until May 2, 1942. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 13th day of March 1942.

JOHN E. HAMM,
Acting Price Administrator.

[F. R. Doc. 42-2199; Filed, March 14, 1942; 9:00 a. m.]

PART 1351—FOODS AND FOOD PRODUCTS

CORRECTION TO REVISED PRICE SCHEDULE NO. 91[1]—TEA

A statement of the considerations involved in the issuance of this Amendment has been prepared and is issued simultaneously herewith.[2]

Section 1351.257 was inadvertently repeated as the second appearance of § 1351.258. Accordingly, the section beginning § 1351.258 *Modification of the Schedule* is revoked.

§ 1351.260a *Effective dates of amendments.*

* * * * *

(b) Correction revoking the second appearance of § 1351.258 shall become effective March 13th, 1942.

Issued this 13th day of March 1942.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

AMENDMENT NO. 2 TO RATIONING ORDER NO. 2A—NEW PASSENGER AUTOMOBILE RATIONING REGULATIONS

A new section, § 1360.335 and a new paragraph (b) to § 1360.442,[1] are added, as set forth below:

§ 1360.335 *Sale or transfer of new passenger automobiles by certain persons serving in the armed forces.* (a) Notwithstanding any other provision of Rationing Orders No. 2 or 2 A, or of any amendments thereto heretofore adopted, any person falling within any of the following classes, may, upon compliance with the provisions of paragraphs (b) and (c) of this section, sell or transfer to any person any new passenger automobile owned by him for personal use:

(1) Any person who is serving with any branch of the armed forces of the United States.

(2) Any person who has received an order for induction into, or has been called for active duty with, any branch of the armed forces of the United States.

(3) Any person who has volunteered for, and taken his oath for service for, any branch of the armed forces of the United States.

(b) Any person who believes that he is eligible to transfer a particular new passenger automobile owned by him pursuant to paragraph (a) of this section may apply to the Local Rationing Board having jurisdiction over the area where the automobile is normally garaged or stationed and request a certificate authorizing him to transfer such automobile to a particular person. Request may be made by letter or other writing addressed to the Board and signed by the transferor, or his duly authorized agent, and shall contain:

(1) The name and address of the transferor.

(2) A description of the automobile to be transferred including make, model year, serial number, engine number and body type.

(3) The name and address of the person to whom the automobile is to be transferred.

(4) A statement of the facts required to establish the eligibility of the transferor pursuant to paragraph (a) of this section.

The application must be accompanied by an original letter or other writing setting forth the facts necessary to establish the transferor's eligibility pursuant to paragraph (a) of this section. Such writing must be signed by an Officer of the armed forces authorized to certify the status of the transferor or by a member of the Selective Service Board with which the transferor is registered.

(c) Upon being satisfied that the transferor is subject to its jurisdiction and that he is eligible pursuant to paragraph (a) of this section, the Board shall issue a certificate on Form R-202 stating that the person named as transferor is eligible to transfer the new passenger automobile to the person named as transferee. Prior to issuing the certificate the Board shall strike the words "Purchased on or before January 1, 1942" from the title of Certificate R-202, and at least two members of the Board shall initial such change of title. Except as herein provided, Certificate R-202 shall be filled in, executed and filed by the person required to do so pursuant to the instructions thereon contained. No certificate issued pursuant to this section shall be charged against the quota of the issuing Board.

§ 1360.442 *Effective dates of amendments*

* * * * *

(b) Amendment No. 2 (§ 1360.335) to Rationing Order No. 2 A shall become effective March 14, 1942, (Pub. Law 421, 77th Cong. 2d Sess. W. P. B. Directive No. 1 Supplementary Directive No. 1 A, 7 F.R. 562, 698, 1493)

Issued this 12th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

CHAPTER I—COAST GUARD

PART 6—ANCHORAGE REGULATIONS

REGULATIONS FOR THE CONTROL OF VESSELS IN THE TERRITORIAL WATERS OF THE UNITED STATES

Pursuant to the authority contained in section 1, Title II of the Espionage Act, approved June 15, 1917, 40 Stat. 220 (U.S.C. title 50, sec. 191), as amended by the Act of November 15, 1941 (Public Law 292, 77th Congress), and by virtue of the Proclamation and Executive Order issued June 27, 1940 (5 F.R. 2419) and November 1, 1941 (6 F.R. 5581), respectively, the regulations relating to the control of vessels in the territorial waters of the United States (5 F.R. 2442), as amended (6 F.R. 5221), are hereby further amended as follows:

Section 6.7 is amended to read as follows:

§ 6.7 *Clearance required for departure.* No vessel shall depart from any port or place in the United States, or from any port or place subject to the jurisdiction of the United States, on a voyage for which clearance by a customs officer of the United States is required or for which no such clearance is required because the vessel is exempted from making entry by section 441 (4) of the Tariff Act of 1930, 46 Stat. 712, as amended (U.S.C., Sup. V, title 19, sec. 1441 (4)), unless the principal customs officer in charge of the port of departure shall have been authorized by the Commandant of the Naval District in which such port is included, or his duly designated representative, to permit the departure.

FRANK KNOX,
Secretary of the Navy.

TITLE 36—PARKS AND FORESTS

CHAPTER I—NATIONAL PARK SERVICE

PART 5—NATIONAL CEMETERY REGULATIONS

AMENDMENT

§ 5.8 *Interment of members of families.* (a) The wives of both officers and enlisted men may be buried with their husbands in a national cemetery. The wife may be interred prior to the death and burial of her husband provided the officer or enlisted man gives assurance that regardless of whether or not he remarries he will eventually be buried in the adjacent grave site reserved for the purpose. In those cemeteries where lots are assigned to an individual, the burial of his minor children and unmarried adult daughters (this includes daughters who have never married, widows and divorcees) is permitted under the following conditions, provided there is room in the lot:

(1) That the fact of the interment shall be entered on the records of the cemetery, but the name shall not appear on any monument on the lot.

(2) That the grave shall be marked, if so desired, at private expense, only with a footstone sunk flush with the ground, not exceeding 10 by 20 inches at the top, with a suitable identifying inscription and dates of birth and death.

(3) That the written concurrence in the above conditions by the legal next of kin be forwarded to the Director of the National Park Service.

(b) No lots or grave sites will be assigned in advance of their actual requirement for burial purposes. (19 Stat. 99, 42 Stat. 21, 23, E.O. Nos. 6166 and 6228; 24 U.S.C. 278, 5 U.S.C. 132 note)

Approved: March 4, 1942.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. B-222]

IN THE MATTER OF FRED NOETH, REGISTERED DISTRIBUTOR, REGISTRATION NO. 6880

NOTICE OF AND ORDER FOR HEARING

The Bituminous Coal Division (the "Division") finds it necessary in the proper administration of the Bituminous Coal Act of 1937 (the "Act") and the Bituminous Coal Code (the "Code") promulgated thereunder to determine

A. Whether or not Fred Noeth, Registered Distributor, Registration No. 6880, (hereinafter sometimes referred to as the "Registered Distributor"), whose address is 2808 East 25th Street, Granite City, Illinois, has violated any provisions of the Act, the Code, and orders and regulations of the Division, including the Marketing Rules and Regulations, Rules and Regulations for the Registration of Distributors, and the Distributor's Agree-

[1] 7 F.R. 1392, 1836.
[2] The statement of consideration has been filed with the Division of the Federal Register.
[1] 7 F.R. 1378, 1387.
[1] 7 F.R. 1647.

ment (the "Agreement") dated October 14, 1940, and filed by Fred Noeth pursuant to Order of the Division dated June 19, 1940 in General Docket No. 12, and more particularly whether or not subsequent to September 30, 1940 said registered distributor:

1. During the period October 1, 1940, to January 31, 1941, both dates inclusive, accepted and retained discounts from the effective minimum prices of coal purchased for resale from various code member producers and resold, to Christ Noeth, an individual, doing business under the name and style of Noeth Ice and Coal Company, 2808 East 26th Street, Granite City, Illinois, a retailer, as follows:

(a) 355.51 net tons of 1½" screenings coal purchased from and produced by the Carbon Coal Company, R. F. D. #2, Collinsville, Illinois, a code member, at its Glen Carbon Mine, Mine Index No. 1042, located in District 10;

(b) 4651.25 net tons of lump, egg, nut, and 1½" screenings coal purchased from and produced by Sunset Hill Coal Company, R. F. D. #4, Edwardsville, Illinois, a code member, at its Sunset Hill Mine, Mine Index No. 1051, located in District 10;

(c) 2293.44 net tons of 1½" screenings coal purchased from and produced by Sugar Loaf Coal Corporation, R. F. D. #2, Collinsville, Illinois, a code member, at its Sugar Loaf Mine, Mine Index No. 1049, located in District 10;

although at the time of said transactions the registered distributor was under the control, financial or otherwise, of said Christ Noeth, resulting in violations of § 304.19 (c) of the Rules and Regulations for the Registration of Distributors and paragraph (h) of the Agreement.

2. Accepted and retained the discounts in the transactions referred to in paragraph A 1 hereof, notwithstanding no service of value was rendered to said code members in said transactions and although said transactions were entered into primarily for the purpose of unjustly enriching the registered distributor and, when except for the incidence of section 4 II (h) of the Act said Christ Noeth would have purchased such coal direct from said code members, resulting in violations of paragraph (g) of the Agreement.

3. Accepting and retaining distributor's discounts on the coal referred to in paragraph A 1 hereof, although such coal was not purchased for bona fide resale, resulting in violations of Paragraph (d) of the Agreement.

4. Accepted and retained discounts on the transactions referred to in paragraph A 1 hereof when said registered distributor was in fact or in effect an agency or instrumentality of said Christ Noeth, resulting in violations of section 4 II (i) 12 of the Act, Rule 12 of Section XIII of the Marketing Rules and Regulations and Paragraph (c) of the Agreement.

B. Whether or not the registered distributor, in the Application for Registration with the Bituminous Coal Division of the Department of the Interior as a Distributor of Bituminous Coal filed by said distributor with the Division on July 5, 1940, made false or misleading statements or failed to state material facts affecting said application as follows:

(1) Represented that during the year 1937 as a distributor (wholesaler) said registered distributor had obtained or purchased from the Sunset Hill Coal Corp., Edwardsville, Illinois, a producer, 7,350 net tons of bituminous coal, Truck Trade Coal Company, Inc., Edwardsville, Illinois, a producer, 4,750 net tons of bituminous coal, and P. H. Coal Company, Granite City, Illinois, a sales agent, 250 net tons of bituminous coal, (page 3 of said application)

(2) Represented that during the year 1938 as a distributor (wholesaler) said registered distributor had obtained or purchased 9,700, 8,600 and 300 net tons of bituminous coal from said parties, respectively, (page 4 of said application)

(3) Failed to state that no tonnage had been purchased or obtained by said distributor during the years 1937 and 1938 either as distributor, sales agent, retailer, dock operator, or otherwise, (pages 3 and 4 of said application) resulting in a violation of § 304.11 (c) 5 of the Rules and Regulations for the Registration of Distributors.

C. Whether or not the registration of said Fred Noeth should be revoked or suspended or other appropriate penalties should be imposed.

It is therefore ordered, That a hearing pursuant to § 304.14 of the Rules and Regulations for the Registration of Distributors, to determine whether or not the aforementioned Fred Noeth has committed violations in the respects heretofore described and whether or not the registration of said distributor should be revoked or suspended, or other appropriate penalties be imposed, be held on April 17, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Coronado Hotel, St. Louis, Missouri.

It is further ordered, That Joseph D. Dermody or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Fred Noeth and to all persons and entities having an interest in such proceeding.

Notice is hereby given that answer setting forth the position of the aforementioned Fred Noeth with reference to the matters hereinbefore described, must be filed with the Bituminous Coal Division at its Washington Office or with any one of the field offices of the Division, within twenty (20) days after date of service hereof on Fred Noeth and that failure to file an answer herein within such period, unless the presiding officer shall otherwise order, shall be deemed to be an admission by Fred Noeth of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: March 13, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2244; Filed, March 16, 1942; 10:36 a. m.]

[Docket Nos. A-289, A-337]

PETITIONS OF THE CITY OF CINCINNATI AND THE BOARD OF EDUCATION OF THE CITY SCHOOL DISTRICT OF THE CITY OF CINCINNATI FOR AN ORDER ESTABLISHING FREE ALONGSIDE PRICES AND OF THE COUNTY OF HAMILTON, OHIO, FOR THE ESTABLISHMENT OF FREE ALONGSIDE PRICES

MEMORANDUM OPINION AND ORDER REOPENING HEARING IN DOCKET NO. A-337, ORDER OF CONSOLIDATION AND ORDER POSTPONING HEARING

Pursuant to a motion filed by the City of Cincinnati (the "City") and the Board of Education of the City School District of the City of Cincinnati (the "Board"), the hearing in Docket No. A-289 was reopened by an Order dated February 9, 1942, for the reasons and to the extent set forth therein. The County of Hamilton (the "County") has filed a similar motion requesting that the proceeding in Docket No. A-337 be reopened for the same purposes and to the same extent.

As set forth in the Examiner's Report, which was adopted by the Director in his Opinion and Order of September 20, 1941 in Docket Nos. A-89, A-289, A-337, A-352, A-352a, A-539, and A-540, the City, the Board, and the County purchase their coals from the same source and under the same conditions. For these reasons, it appears that the motion of the County should be granted and that this matter should be consolidated with Docket No. A-289 for the purpose of such reopened hearing.

It is therefore ordered, That the proceeding in Docket No. A-337 only be, and the same hereby is, reopened for the same purposes and to the same extent as the proceeding in Docket No. A-289 has been reopened by Order therein dated February 9, 1942, and that Docket No. A-289 be consolidated with Docket No. A-337 for the purpose of such reopened hearing.

It is further ordered, That the consolidated hearing be postponed from March 16, 1942 to 10 o'clock in the forenoon of March 30, 1942. On such day, the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That in all other respects the Memorandum Opinion and Order Reopening the Hearing dated February 9, 1942, shall remain in full force and effect.

Dated: March 14, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2245; Filed March 16, 1942; 10:36 a. m.]

[Docket No. A-36 Part III]

PETITION OF DISTRICT BOARD NO. 11 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE DITNEY HILL MINE (MINE INDEX NO. 115) OF THE INGLE COAL COMPANY

MEMORANDUM OPINION AND ORDER EXTENDING TEMPORARY RELIEF

This proceeding was instituted upon the petition, as amended, filed with the Bituminous Coal Division on October 11, 1940, by District Board 11, pursuant to Section 4 II (d) of the Bituminous Coal Act of 1937. The Board in its petition requested the establishment of price classifications and minimum prices for the coals of the Ditney Hill Mine (Mine Index No. 115) of the Ingle Coal Company, a code member in District 11.

Pursuant to Orders of the Director and after notice to all interested persons, hearings in this matter were held on January 29, 1941, July 2, 1941, and September 18, 1941, before duly designated Examiners of the Division. All interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. District Board 11 appeared. The preparation and filing of the report by the Examiner was waived.

By Order, dated October 17, 1941, the Director established permanent price classifications for the coals of the Ditney Hill Mine. However, in view of the facts that the raw screenings produced at the Ditney Hill Mine appeared to be an inferior quality, that dedusting equipment had been installed on August 22, 1941, in an effort to enhance their marketability, and that the ability of this equipment to improve the quality of the screenings was still unknown, the Director found that, as a temporary measure, minimum prices for dry dedusted screenings in Size Groups Nos. 26 and 27 should be established for a period of 90 days from the date of the Order at prices 10 cents per ton less than the established minimum prices for the same sizes of coal produced in other mines producing Standard Fifth Vein coals. The Director stated that the purpose of this was to afford District Board 11 an opportunity to study the effect of the use of the dry dedusted screenings produced at the Ditney Hill Mine and determine whether it cares to propose new prices for those coals.

On December 29, 1941, District Board 11 filed a motion to extend the temporary relief granted in the Order of October 17, 1941. Thereafter, the Acting Director, by an Order dated January 14, 1942, amended the Order of October 17, 1941, by extending the temporary relief from a period of 90 days to a period of 150 days.

On March 5, 1942, District Board 11 filed a motion to extend this temporary relief for an additional 60 day period, alleging, *inter alia*, that because the method employed at the mine to dedust screenings has recently been changed, the District Board is of the opinion that the dry dedusted screenings currently being prepared are not representative of the product that will be produced under normal and efficient operation.

It appears to the undersigned that a reasonable showing of necessity has been made and that the relief requested should be granted. However, it should be noted that the relief herein is being granted with the understanding that it will probably constitute the last such extension of time during which the District Board shall have the opportunity to propose new prices for the coals in these size groups.

Now, therefore, it is ordered, That the Order granting relief entered herein on October 17, 1941, be and is hereby amended by striking therefrom the words "provided, however, that the prices established for Size Groups Nos. 26 and 27 shall be reduced 10 cents per ton for a period of not more than 150 days from the date of this Order" and substituting in lieu thereof the following: *Provided, however*, That the prices established for the Size Groups Nos. 26 and 27 shall be reduced 10 cents per ton for a period of not more than 210 days from October 17, 1941."

It is further ordered, That Supplement R, annexed to and made part of the Order dated October 17, 1941, be and it is hereby amended by striking therefrom the words, "Size Groups 26 and 27 shall be reduced 10 cents per ton for a period of 150 days only commening with the effective date of this Order" and by substituting in lieu thereof the following: "Size Groups 26 and 27 shall be reduced 10 cents per ton for a period of 210 days only commencing October 17, 1941."

Jurisdiction is hereby retained to enter any further Order with respect to said coals during or subsequent to said 210-day period beginning October 17, 1941.

Dated: March 14, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

Farm Security Administration.

DESIGNATION OF LOCALITIES IN COUNTIES IN WHICH LOANS, PURSUANT TO TITLE I OF THE BANKHEAD-JONES FARM TENANT ACT, MAY BE MADE

In accordance with the rules and regulations promulgated by the Secretary of Agriculture on July 1, 1941, loans made in the counties mentioned herein, under Title I of the Bankhead-Jones Farm Tenant Act, may be made within the localities herein described and designated. The value of the average farm unit of thirty acres and more in each of these localities has been determined in accordance with the provisions of the said rules and regulations. A description of the localities and the determination of value for each follow:

REGION II

Minnesota

Todd County: Locality I—Consisting of the townships of Staples, Villard, Moran, Fawn Lake, Turtle Creek, Little Elk, Bruce, and Burnhamville; the village of Burtrum; and the city of Staples, $3,232. Locality II—Consisting of the townships of Stowe Prairie, Bartlett, Bertha, Germania, Wykeham, Eagle Valley, Ward, Burleene, Iona, Long Prairie, Hartford, Leslie, Reynolds, Gordon, Little Sauk, Round Prairie, West Union, Kandota, Birchdale, and Grey Eagle; and the villages of Bertha, Browerville, Clarissa, Eagle Bend, Grey Eagle, Hewitt, Long Prairie, West Union, and Osakis, $4,475.

Wisconsin

Langlade County: Locality I—Consisting of the city of Antigo, and towns of Antigo, Neva and Price, $5,775. Locality II—Consisting of the towns of Ackley, Ainsworth, Elcho, Evergreen, Langlade, Norwood, Parrish, Peck, Polar, Rolling, Summit, Upham, Vilas, village of White Lake and town of Wolf River, $3,847.

REGION V

Alabama

Covington County: Locality I—Consisting of the precincts of Andalusia, Opp, Rose Hill, Copperas Head, Gantt, Straughns Schoolhouse, Williams, River Falls, and Bulah, $2,165. Locality II—Consisting of the precincts of Fairfield, Shirley, Loango, Watkins, Davis Shop, Florala, Hart, Westover, Red Level, Green Bay, George, Sanford, Carolina, and McRae, $1,540.

The purchase price limits previously established for the counties above-mentioned are hereby cancelled.

Approved March 7, 1942.

[SEAL] C. B. BALDWIN,
Administrator.

DEPARTMENT OF LABOR.

Wage and Hour Division.

NOTICE OF ISSUANCE OF SPECIAL CERTIFICATES FOR THE EMPLOYMENT OF LEARNERS UNDER THE FAIR LABOR STANDARDS ACT OF 1938

Notice is hereby given that Special Certificates authorizing the employment of learners at hourly wages lower than the minimum wage rate applicable under section 6 of the Act are issued under section 14 thereof, Part 522 of the Regulations issued thereunder (August 16, 1940, 5 F.R. 2862) and the Determination and Order or Regulation listed below and published in the FEDERAL REGISTER as here stated.

Apparel Learner Regulations, September 7, 1940 (5 F.R. 3591).

Men's Single Pants, Shirts and Allied Garments and Women's Apparel Industries, September 23, 1941 (6 F.R. 4839).

Artificial Flowers and Feathers Learner Regulations, October 24, 1940 (5 F.R. 4203).

Glove Findings and Determination of February 20, 1940, as amended by Administrative Order of September 20, 1940 (5 F.R. 3748).

Hosiery Learner Regulations, September 4, 1940 (5 F.R. 3530).

Independent Telephone Learner Regulations, September 27, 1940 (5 F.R. 3829).

Knitted Wear Learner Regulations, October 10, 1940 (5 F.R. 3982).

Millinery Learner Regulations, Custom Made and Popular Priced, August 29, 1940 (5 F.R. 3392, 3393).

Textile Learner Regulations, May 16, 1941 (6 F.R. 2446).

Woolen Learner Regulations, October 30, 1940 (5 F.R. 4302).

Notice of Amended Order for the Employment of Learners in the Cigar Manufacturing Industry, July 29, 1941 (6 F.R. 3753).

The employment of learners under these Certificates is limited to the terms and conditions as to the occupations, learning periods, minimum wage rates, et cetera, specified in the Determination and Order or Regulation for the industry designated above and indicated opposite the employer's name. These Certificates become effective March 16, 1942. The Certificates may be cancelled in the manner provided in the Regulations and as indicated in the Certificates. Any person aggrieved by the issuance of any of these Certificates may seek a review or reconsideration thereof.

NOTICE OF ISSUANCE OF SPECIAL CERTIFICATES FOR THE EMPLOYMENT OF LEARNERS UNDER THE FAIR LABOR STANDARDS ACT OF 1938

Notice is hereby given that Special Certificates authorizing the employment of learners at hourly wages lower than the minimum rate applicable under section 6 of the Act are issued under section 14 thereof and § 522.5 (b) of the Regulations issued thereunder (August 16, 1940, 5 F.R. 2862) to the employers listed below effective March 16, 1942.

The employment of learners under these Certificates is limited to the terms and conditions as designated opposite the employer's name. These Certificates are issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The Certificates may be cancelled in the manner provided for in the Regulations and as indicated on the Certificate. Any person aggrieved by the issuance of these Certificates may seek a review or reconsideration thereof.

[Administrative Order No. 143]

APPOINTMENT OF INDUSTRY COMMITTEE NO. 43 FOR THE BUTTON AND BUCKLE MANUFACTURING INDUSTRY

1. By virtue of and pursuant to the authority vested in me by the Fair Labor Standards Act of 1938, I, L. Metcalfe Walling, Administrator of the Wage and Hour Division, U. S. Department of Labor, do hereby appoint and convene for the Button and Buckle Manufacturing Industry (as such industry is defined in paragraph 2) an industry committee composed of the following representatives:

For the public. T. L. Norton, Chairman, Buffalo, New York; E. Wight Bakke, New Haven, Connecticut; David A. McCabe, Princeton, New Jersey; Clarence Updegraff, Iowa City, Iowa; Myrtle Brooke, Montevallo, Alabama.

For the employees. Martin Feldman, New York, New York; Lazare Teper, New York, New York; Edward Schultheis, Muscatine, Iowa; Joseph Platt, Rochester, New York; Boris Shishkin, Washington, D. C.

For the employers. N. O. Broderson, Rochester, New York; Moe Zwelbel, New York, New York; George Adey, Philadelphia, Pennsylvania; Charles C. Hagerman, Muscatine, Iowa; G. F. Holt, McKinney, Virginia.

Such representatives having been appointed with due regard to the geographical regions in which such industry is carried on.

2. For the purpose of this order the term "button and buckle manufacturing industry" means:

The manufacture of buttons, buckles, and slides, and the manufacture of blanks and parts for such articles from any material except metal, for use on apparel, but not including the manufacture of products covered by any definition of an industry in any administrative order heretofore issued.

3. The definition of the button and buckle manufacturing industry covers all occupations in the industry which are necessary to the production of the products covered by the definition, including clerical, maintenance, shipping and selling occupations: *Provided, however,* That where an employee covered by this definition is employed during the same workweek at two or more different minimum rates of pay, he shall be paid the highest of such rates for such workweek unless records concerning his employment are kept by his employer in accordance with applicable regulations of the Wage and Hour Division.

4. The industry committee herein created shall meet at 10:00 A. M. on March 26, 1942, in the College Room of the Hotel Astor, New York City, and, in accordance with the provisions of the Fair Labor Standards Act of 1938 and rules and regulations promulgated thereunder, shall proceed to investigate conditions in the industry and recommend to the Administrator minimum wage rates for all employees thereof who within the meaning of said Act are "engaged in commerce or in the production of goods for commerce," excepting employees exempted by virtue of the provisions of section 13 (a) and employers coming under the provisions of section 14.

Signed at Washington, D. C., this 14th day of March 1942.

L. METCALFE WALLING,
Administrator.

OFFICE OF THE ALIEN PROPERTY CUSTODIAN.

TEMPORARY DELEGATION OF AUTHORITY TO THE SECRETARY OF THE TREASURY

MEMORANDUM FOR THE SECRETARY OF THE TREASURY

MARCH 11, 1942.

There is hereby delegated to the Secretary of the Treasury all power and authority under sections 3 (a) and 5 (b) of the Trading with the Enemy Act, as amended, conferred upon me by the President by Executive Order dated March 11, 1942.[1] This delegation is temporary, pending the staffing and organization of the Office of the Alien Property Custodian, and shall continue until revoked in writing in whole or in part at any time by me. This delegation shall not be construed as a limitation upon my authority to exercise such power and authority at any time.

LEO CROWLEY,
Alien Property Custodian.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 5968]

APPLICATION OF REPORTER BROADCASTING CO. (KRBC), ABILENE, TEXAS, FOR CONSTRUCTION PERMIT

SUPPLEMENTAL ORDER

It is ordered, On the Commission's own motion this 12th day of March, 1942, that the notice of issues heretofore released on the application in Docket No. 5968 be, and it is hereby, supplemented, as follows:

1. To determine whether the proposed construction involves the use of any critical materials.

2. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

It is further ordered, That the present hearing date on the above-entitled application, namely, April 13, 1942, be, and it is hereby, retained.

By the Commission, Norman S. Case, Commissioner.

[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 6009]

APPLICATION OF CAMDEN BROADCASTING COMPANY, CAMDEN, NEW JERSEY, FOR CONSTRUCTION PERMIT

ORDER REOPENING HEARING

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of March 1942;

The Commission having under consideration the application of the Camden Broadcasting Company for construction permit (Docket No. 6009) and the proceedings held thereon; and

It appearing, That subsequent to the hearing held on said application, the Commission adopted a policy with respect to the granting of construction permits for new broadcast stations (see Commission's Memorandum Opinion, dated February 23, 1942, Mimeograph No. 58106), which necessarily involves the determination of matters not heretofore specified in the issues in the above-entitled matter;

It is, therefore, ordered, That the record in the above-entitled matter be, and it is hereby, reopened for further hearing on the following issues:

1. To determine whether the proposed construction involves the use of any critical materials.

2. To determine the areas and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and population.

3. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

4. To determine whether, in view of the facts shown on all of the issues, public interest, convenience, or necessity would be served by the granting of the above-entitled application.

By the Commission.

[Docket No. 6091]

APPLICATION OF DORMAN SCHAEFFER (NEW), KLAMATH FALLS, OREGON, FOR CONSTRUCTION PERMIT

ORDER REOPENING HEARING

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 10th day of March 1942;

The Commission having under consideration the application of Dorman Schaeffer for construction permit (Docket No. 6091) and the proceedings held thereon; and,

It appearing, that subsequent to the hearing held on said application, the Commission adopted a policy with respect to the granting of construction permits for new broadcast stations (see Commission's Memorandum Opinion, dated February 23, 1942, Mimeograph No. 58106), which necessarily involves the determination of matters not heretofore specified in the issues in the above-entitled matter;

It is, therefore, ordered, That the record in the above-entitled matter be, and it is hereby, reopened for further hearing on the following issues:

1. To determine whether the proposed construction involves the use of any critical materials.

2. To determine the areas and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and population.

3. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

4. To determine whether, in view of the facts shown on all of the issues, public interest, convenience, or necessity would be served by the granting of the above-entitled application.

[Docket No. 5994]

APPLICATION OF LINER'S BROADCASTING STATION, INC. (KMLB), MONROE, LOUISIANA, FOR CONSTRUCTION PERMIT

ORDER REOPENING HEARING

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of March 1942;

The Commission having under consideration the application of Liner's Broadcasting Station, Inc. (KMLB), Monroe, Louisiana, for construction permit (B3-P-2939; Docket No. 5994) and the proceedings held thereon; and

It appearing, That subsequent to the hearing held on said application, the Commission adopted a policy with respect to applications for changes in facilities of existing standard broadcast stations (see Commission's Memorandum Opinion, dated February 23, 1942, Mimeograph No. 58106), which necessarily involves the determination of matters not heretofore specified in the issues in the above-entitled matter;

It is, therefore, ordered, That the record in the above-entitled matter be, and it is hereby, reopened for further hearing, on the following issues:

1. To determine whether the proposed construction involves the use of any critical materials.

2. To determine what new areas and populations would receive primary service as a result of the proposed change in facilities, and what broadcast service is already available to such areas and populations.

3. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

4. To determine the areas and populations which may be expected to lose primary service from the operation of Station KMLB as proposed and what other broadcast service is available to these areas and populations.

5. To determine whether, in view of the facts shown on all of the issues, public interest, convenience or necessity would be served by the granting of the above-entitled application.

By the Commission.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 10th day of March 1942;

The Commission having under consideration the application of Texas Star Broadcasting Company for construction permit (Docket No. 6089) and the proceedings held thereon; and

It appearing, that subsequent to the hearing held on said application, the Commission adopted a policy with respect to the granting of construction permits for new broadcast stations (see Commission's Memorandum Opinion, dated February 23, 1942, Mimeograph No. 58106), which necessarily involves the determination of matters not heretofore specified in the issues in the above-entitled matter;

It is, therefore, ordered, That the record in the above-entitled matter be, and it is hereby, reopened for further hearing on the following issues:

1. To determine whether the proposed construction involves the use of any critical materials.

2. To determine the areas and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and population.

3. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

4. To determine whether, in view of the facts shown on all of the issues, public interest, convenience, or necessity would be served by the granting of the above-entitled application.

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

[Docket No. 6121]

IN RE APPLICATION OF WALKER AND DOWNING RADIO CORPORATION (WWSW) PITTSBURGH, PENNSYLVANIA, FOR CONSTRUCTION PERMIT

ORDER REOPENING HEARING

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 10th day of March 1942;

The Commission having under consideration the application of Walker and Downing Radio Corporation (WWSW) for construction permit (Docket No. 6121) and the proceedings held thereon; and

It appearing, that subsequent to the hearing held on said application, the Commission adopted a policy with respect to authorizations for changes in existing standard broadcast facilities (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106), which necessarily involves the determination of matters not heretofore specified in the issues in the above-entitled matter;

It is, therefore, ordered, That the record in the above-entitled matter be, and it is hereby, reopened for further hearing on the following issues:

1. To determine whether the proposed construction involves the use of any critical materials.

2. To determine what new areas and populations would receive primary service as a result of the proposed change in facilities and what broadcast service is already available to such areas and populations.

3. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

4. To determine whether, in view of the facts shown on all of the issues, public interest, convenience, or necessity would be served by the granting of the above-entitled application.

By the Commission.

[Docket No. 6022]

IN RE APPLICATION OF WHB BROADCASTING COMPANY, (WHB) KANSAS CITY, MISSOURI FOR CONSTRUCTION PERMIT

ORDER REOPENING HEARING

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 10th day of March 1942;

The Commission having under consideration the application of WHB Broadcasting Company for construction permit (Docket No. 6022) and the proceedings held thereon; and

It appearing, That subsequent to the hearing held on said application, the Commission adopted a policy with respect to the authorization of changes in existing standard broadcast transmitting facilities (see Commission's Memorandum Opinion, dated February 23, 1942, Mimeograph No. 58106) which necessarily involves the determination of matters not heretofore specified in the issues in the above-entitled matter;

It is, therefore, ordered, That the record in the above-entitled matter be, and it is hereby, reopened for further hearing on the following issues:

1. To determine whether the proposed construction involves the use of any critical materials.

2. To determine the areas and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and population.

3. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

4. To determine whether, in view of the facts shown on all of the issues, public interest, convenience, or necessity would be served by the granting of the above-entitled application.

FEDERAL POWER COMMISSION.

[Project No. 120]

IN THE MATTER OF SOUTHERN CALIFORNIA EDISON COMPANY LTD.

ORDER PERMITTING WITHDRAWAL OF APPLICATION AND TERMINATING PROCEEDINGS

MARCH 13, 1942

It appearing that:

(a) Pursuant to application therefor, the Commission on July 18, 1941, ordered that a rehearing be held on the Commission's May 20, 1941, order authorizing amendment of license for Project No. 120 held by Southern California Edison Company Ltd., and by subsequent orders the time for rehearing was postponed to July 13, 1942;

(b) The company, on January 5, 1942, filed a request for withdrawal of its application for rehearing and asked that the license for Project No. 120 be amended as previously ordered by the Commission;

It is ordered, That:

The request of Southern California Edison Company Ltd. for withdrawal of its application for rehearing is hereby granted, and proceedings in connection with said rehearing are hereby terminated.

By the Commission.

VOLUME 7 NUMBER 53

Washington, Wednesday, March 18, 1942

The President

EXECUTIVE ORDER

MODIFICATION OF EXECUTIVE ORDER NO. 8507 OF AUGUST 8, 1940, WITHDRAWING PUBLIC LANDS FOR USE OF THE WAR DEPARTMENT AS AN ANTI-AIRCRAFT FIRING RANGE

CALIFORNIA

By virtue of the authority vested in me by the act of July 9, 1918, 40 Stat. 845, 848 (U.S.C., title 10, sec. 1341), Executive Order No. 8507[1] of August 8, 1940, withdrawing certain public lands in the State of California for the use of the War Department as an anti-aircraft firing range, is hereby modified so as to eliminate from the effect thereof the following-described public lands, except for the main access road to the firing range crossing such lands, known, among other names, as the "Barstow Road", the "Cave Springs Road", the "Barstow-Bicycle Lake-Death Valley Road", "Road No. 1339", "Road No. 1355", and "Road No. 1356":

San Bernardino Meridian

EXECUTIVE ORDER

EXCLUDING CERTAIN LANDS FROM THE MANISTEE NATIONAL FOREST

MICHIGAN

By virtue of the authority vested in me by the act of June 4, 1897, 30 Stat. 11, 36 (U.S.C., title 16, sec. 473), and upon the recommendation of the Secretary of Agriculture, it is ordered that the following-described tract of land in Michigan be, and it is hereby, excluded from the Manistee National Forest:

Sections 2 and 3, and the east half of section 4, township 20 north, range 12 west of the Michigan Meridian.

PART 115—REGULATIONS FOR LOANS IN PUERTO RICO

Loan Limitation and Interest Rate

Section 115.5 of Title 6, Code of Federal Regulations, is amended to read as follows:

§ 115.5 *Loan limitation and interest rate.* No loan made to any borrower shall exceed $2,500, nor shall a loan be so made in any calendar year which, together with the unpaid principal of prior loans so made to such borrower in that year, shall exceed $2,500 in amount. No loan will be made for an amount less than $25. All loans will be made in multiples of $5. Notes will bear interest, from maturity until paid, at the rate of 4 percent per annum; and interest to the maturity at the same rate will be deducted at the time the loan is made. (Sec. 1, 50 Stat. 5; 12 U.S.C., Sup., 1020i. See also 52 Stat. 26; E.O. 9093, March 10, 1942.[1])

TITLE 7—AGRICULTURE

CHAPTER VIII—SUGAR AGENCY OF THE AGRICULTURAL CONSERVATION AND ADJUSTMENT ADMINISTRATION

PART 802—SUGAR DETERMINATIONS

DETERMINATION OF FAIR AND REASONABLE WAGE RATES FOR PERSONS EMPLOYED IN THE PRODUCTION AND CULTIVATION OF THE 1942 CROP OF SUGAR BEETS

Whereas section 301 (b) of the Sugar Act of 1937, as amended, provides, as one of the conditions for payment to producers of sugar beets and sugarcane as follows:

(b) That all persons employed on the farm in the production, cultivation, or harvesting of sugar beets or sugarcane with respect to which an application for payment is made shall have been paid in full for all such work, and shall have been paid wages therefor at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing; and in making such determinations the Secretary shall take into consideration the standards therefor formerly established by him under the Agricultural Adjustment Act, as amended, and the difference in conditions among various producing areas; *Provided, however,* That a payment which would be payable except for the foregoing provisions of this subsection may be made, as the Secretary may determine, in such manner that the laborer will receive an amount, insofar as such payment will suffice, equal to the amount of the accrued unpaid wages for such work, and that the producer will receive the remainder, if any, of such payment.

And whereas the Secretary of Agriculture, pursuant to a notice of hearing, dated January 2, 1942, held public hearings for the purpose of receiving evidence likely to be of assistance to him in determining fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of the 1942 crop of sugar beets.

Now, therefore, I, Claude R. Wickard, Secretary of Agriculture, after investigation and due consideration of the evidence obtained at the aforesaid hearings and all other information before me, do hereby make the following determination:

§ 802.14g *Fair and reasonable wage rates for persons employed in the production and cultivation of the 1942 crop of sugar beets.* Fair and reasonable wage rates for persons employed in the production and cultivation of the 1942 crop of sugar beets shall be as follows:

For any farm or part of a farm, which is covered by a separate labor agreement, from which sugar beets are contracted to be delivered to factories located in the following districts:

District I—Ohio, Michigan, Indiana, and Wisconsin: Blocking, thinning, and hoeing: $13.50 per acre or 45¢ per hour for blocking and thinning and 40¢ per hour for hoeing. If the above operations are performed by different persons on a piece rate basis, the rate for each operation shall be: Blocking and thinning: $9.75 per acre. First hoeing: $2.50 per acre. Second and each subsequent hoeing or weeding: $1.25 per acre.

District II—Minnesota and Iowa: Blocking, thinning, and hoeing: "Old method" or "hill drop" fields, $14.50 per acre. "Blocked" fields, $12.50 per acre. "Cross cultivated" fields, $11.50 per acre. Where the "old method" is used, if the operations are performed by different persons, the rate for each operation shall be: Blocking and thinning: $9.50 per acre. First hoeing, $3.00 per acre. Second and each subsequent hoeing or weeding: $2.00 per acre.

District III—Nebraska, Colorado, Kansas, and Southern Wyoming: Blocking and thinning: $9.50 per acre, or 45¢ per hour. First hoeing: $3.00 per acre, or 40¢ per hour. Second and each subsequent hoeing or weeding: $2.00 per acre, or 40¢ per hour.

District IV—South Dakota: Blocking and thinning: $10.50 per acre. First hoeing: $3.00 per acre. Second and each subsequent hoeing or weeding: $2.00 per acre.

District V—Southern and Eastern Montana, Northern Wyoming, and Western North Dakota: Blocking and thinning: $11.00 per acre. First hoeing: $3.00 per acre. Second and each subsequent hoeing or weeding: $2.00 per acre.

District VI—Western Montana: Blocking and thinning: $10.00 per acre. First hoeing: $3.50 per acre. Second and each subsequent hoeing or weeding: $2.50 per acre.

District VII—Northern Montana: Blocking and thinning: $10.00 per acre. First hoeing: $3.50 per acre. Second and each subsequent hoeing or weeding: $2.50 per acre.

District VIII—Utah, Idaho, and Oregon: Blocking and thinning: $9.50 per acre or 45¢ per hour. First hoeing: $2.50 per acre or 40¢ per hour. Second and each subsequent hoeing or weeding: $1.50 per acre or 40¢ per hour.

District IX—Washington: Blocking and thinning: $8.50 per acre or 45¢ per hour. First hoeing: $3.00 per acre or 40¢ per hour. Second and each subsequent hoeing or weeding: $2.50 per acre or 40¢ per hour.

District X—Southern California:[1] Blocking and thinning: $8.00 per acre or 40¢ per hour. First hoeing: $2.00 per acre or 35¢ per hour. Second and each subsequent hoeing or weeding: $1.50 per acre or 35¢ per hour.

District XI—Northern California:[2] Blocking and thinning: $9.00 per acre or 45¢ per hour. First hoeing: $2.50 per acre or 40¢ per hour. Second and each subsequent hoeing or weeding: $2.00 per acre or 40¢ per hour.

Provided, however, (a) That in districts for which only piece rates are specified herein, if employment upon the basis of an hourly rate is preferred, the fair and reasonable rate shall be the rate agreed upon between the producer and the laborer, provided such rate is approved by the State Committee as equivalent to the piece rate for such work specified herein;

(b) That in instances in which the use of special machine methods of planting and cultivation reduce the amount of labor required as compared with the method in common use in the area for the operations for which rates are specified herein, the fair and reasonable rate shall be the rate agreed upon between the producer and the laborer, provided such rate is approved by the State Committee as equivalent to the piece rate specified herein for the part of such work performed;

(c) That in districts for which a combined rate for blocking, thinning, hoeing and weeding is not specified herein, if the producer and the laborer agree in writing that the laborer is to receive the sum of the payments specified above upon a piece rate basis for blocking and thinning and the first and second hoeing, for all such work during the season regardless of the number of hoeings or weedings required, the payment of this amount will be deemed to meet the requirements of this determination of fair and reasonable wages for blocking, thinning, hoeing and weeding;

(d) That the foregoing shall not be construed to mean that a producer may qualify for payment who has not paid in full for all work in connection with the production, cultivation or harvesting of sugar beets the amount agreed upon between the producer and the laborer;

(e) That in addition to the foregoing, the producer shall furnish to the laborer, without charge, the perquisites customarily furnished by him, such as a house, garden plot, and similar incidentals; and

(f) That the producer shall not, through any subterfuge or device whatsoever, reduce the wage rates to laborers below those determined above.

Done at Washington, D. C., this 16th day of March 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

[F. R. Doc. 42-2327; Filed, March 17, 1942; 11:46 a. m.]

[1] Applicable to farms located in the following counties: Madera, Fresno, Tulare, Kings, Kern, San Luis Obispo, Santa Barbara, Ventura, Los Angeles, San Bernardino, Orange Riverside, San Diego, Imperial.

[2] Applicable (a) to farms located in counties in California other than those specified in footnote 1, and (b) to farms located outside California from which beets are contracted to be delivered to factories located in counties in California other than those specified in footnote 1.

TITLE 30—MINERAL RESOURCES

CHAPTER III—BITUMINOUS COAL DIVISION

[Docket No. A-1019]

PART 324—MINIMUM PRICE SCHEDULE, DISTRICT NO. 4

ORDER GRANTING PERMANENT RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD 4 FOR REVISION OF THE EFFECTIVE MINIMUM PRICES OF THE COALS OF CODE MEMBERS IN SUBDISTRICTS NOS. 3, 4, AND 6, OF DISTRICT NO. 4 FOR ALL SHIPMENTS EXCEPT TRUCK OF OFF-LINE RAILROAD FUEL INTO MARKET AREAS 15, 20, 21, AND 23

A petition having been filed with the Bituminous Coal Division on August 19, 1941, by District Board 4, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting that the Schedule of Effective Minimum Prices for District No. 4 for All Shipments Except Truck be amended by increasing the effective price classifications and minimum prices established for the coals of Subdistricts 3, 4, and 6 of District No. 4 by 10 cents per ton when shipped for off-line railroad fuel to destinations in Market Areas 15, 20, 21, and 23;

Petitions of intervention having been filed herein by District Boards 2 and 6;

Pursuant to an order of the Director, and after due notice to interested persons, a hearing in this matter having been held before a duly designated Examiner of the Division at a hearing room thereof in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

The preparation and filing of a report by the Examiner having been waived and the record of the proceeding having been submitted to the undersigned;

The undersigned having made Findings of Fact and Conclusions of Law and having rendered an Opinion in this matter which are filed herewith;

Now, therefore, it is ordered, That commencing fifteen (15) days from the date of this Order, § 324.11 (*Special prices—*(a) *Railroad fuel prices for all movements exclusive of lake cargo railroad fuel*) in the Schedule of Effective Minimum Prices for District 4 for All Shipments Except Truck be, and it hereby is, amended to include a note reading as follows: For shipments of off-line railroad fuel from Subdistricts 3, 4, and 6 to destinations in Market Areas 15, 20, 21, and 23, the prices shall be increased 10 cents per ton for all sizes.

It is further ordered, That the relief is granted to the extent set forth above and in all other respects is denied.

Dated: March 16, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2318; Filed, March 17, 1942; 10:48 p. m.]

[Docket No. A-885]

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

ORDER GRANTING RELIEF IN PART IN THE MATTER OF THE PETITION OF THE CONSUMERS' COUNSEL DIVISION FOR MODIFICATION OF THE SCHEDULE OF EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 8 TO PERMIT THE SALE OF COAL TO THE KEY CITY GAS COMPANY FOR USE IN ITS DUBUQUE, IOWA, PLANT AT THE MINIMUM F. O. B. MINE PRICE ESTABLISHED FOR FREE ALONGSIDE DELIVERY

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937 and Section 3 (a) of the Special River Price Instructions and Exceptions in the Schedule of Effective Minimum Prices for District No. 8 For All Shipments Except Truck, having been duly filed with the Bituminous Coal Division by the Consumers' Counsel Division,[1] on behalf of the Key City Gas Company, a consumer, requesting a modification of

[1] Now the Bituminous Coal Consumers' Counsel.

the District 8 Schedule so as to permit code members in that district to sell coals at free alongside prices to the Key City Gas Company for consumption at its plant at Dubuque, Iowa, and also seeking an amendment of said Schedule, to specifically provide that 45 cents per ton may be deducted on ⅜" x 0 screenings when shipped via the river to Dubuque, Iowa, for retort gas use;

Petitions of intervention having been filed by District Boards, 2, 8, and 11;

A hearing having been held on November 12, 1941, before a duly designated Examiner of the Division at a hearing room thereof in Washington, D. C., at which all interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

The parties having waived preparation and filing of the Examiner's report, the undersigned having made Findings of Fact and Conclusions of Law and having rendered an opinion in this matter which are filed herewith;

It is therefore ordered, That § 328.13 (*Special prices*—(b) *Prices for river (free alongside deliveries) and ex-river shipments*—(iii) *Special cases*) in the Schedule of Effective Minimum Prices for District No. 8 For All Shipments Except Truck be, and the same hereby is, amended by inserting the following note: Key City Gas Company (for consumption at its plant located at Dubuque, Iowa).

It is further ordered, That the request to amend said Schedule to specifically provide that 45 cents per ton may be deducted on ⅜" x 0 screenings shipped via river to Dubuque, Iowa, for retort gas use should be, and the same hereby is, denied.

It is further ordered, That, except as hereinabove provided, all prayers for relief be and they are hereby denied.

Dated: March 16, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

TITLE 32—NATIONAL DEFENSE

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER A—GENERAL PROVISIONS

PART 903—DELEGATIONS OF AUTHORITY

Amendment No. 1 to Regulation No. 1[1]

Paragraph (a) (1) of War Production Board Regulation No. 1 issued January 26, 1942 is hereby amended to read as follows:

§ 903.0 *Regulation No. 1.* (a) (1) The Director of the Division of Industry Operations, who shall be known as the Director of Industry Operations, shall perform the functions and exercise all the powers, authority and discretion conferred upon the President by section 2 (a) of the Act of June 29, 1940 (Pub. Law 671, 76th Cong.; 54 Stat. 676) as amended by the Act of May 31, 1941 (Pub. Law 89, 77th Cong.; 55 Stat. 236), including the power of the Chairman of the War Production Board under paragraph (e) of Directive No. 1[2] (903.1) to delegate to the Office of Price Administration additional powers with respect to the exercise of rationing control and to amend the delegation with respect thereto contained in said Directive No. 1. (E.O. 9024, Jan. 16, 1942, 7 F.R. 329, E.O. 9040, Jan. 24, 1942, 7 F.R. 567; Sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st sess.; W.P.B. Dir. No. 1, Jan. 24, 1942, 7 F.R. 562.)

* * * * *

Issued this 14th day of March 1942.

DONALD M. NELSON,
Chairman.

[F. R. Doc. 42-2302; Filed, March 16, 1942; 5:02 p. m.]

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 967—FORMALDEHYDE, PARAFORMALDEHYDE, HEXAMETHYLENETETRAMINE AND SYNTHETIC RESINS

Amendment No. 6 to General Preference Order No. M-25[1]

Section 967.1 (General Preference Order No. M-25) is hereby amended in the following particulars:

Present subparagraph (c) (4) is hereby amended to read as follows:

§ 967.1 *General Preference Order M-25.* (c) Directions with respect to residual supply.

* * * * *

(4) Deliveries of formaldehyde to persons who require the same for use in embalming and who, prior to delivery thereof, shall have certified to the deliveror:

(i) That the formaldehyde sought will be used for such purpose only, and

(ii) That the quantities sought, in any calendar quarter, together with all quantities on order for delivery to such persons during such calendar quarter, do not exceed one-quarter of the quantity of formaldehyde used by such persons for such purpose during the twelve-month period ended December 31, 1940.

are hereby assigned preference rating B-3. Calendar quarter shall mean the several three-month periods commencing January 1, April 1, July 1, and October 1.

A new subparagraph (c) (5) is hereby added to read as follows:

(5) Except as provided in paragraph (c) (4) of this section, deliveries of formaldehyde, paraformaldehyde or hexamethylenetetramine for all nondefense nonresin uses are hereby assigned preference rating B-4. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Congress, Third Session, as amended by Public Law 89, 77th Congress, First Session).

Issued this 16th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2306; Filed, March 16, 1942; 5:03 p. m.]

PART 1020—AUTOMATIC PHONOGRAPHS AND WEIGHING, AMUSEMENT AND GAMING MACHINES

Supplementary General Limitation Order L-21-a

In accordance with the provisions of § 1020.1 (General Limitation Order L-21) which the following Order supplements:

§ 1020.2 *Supplementary General Limitation Order L-21-a*—(a) *Further restrictions.* (1) During the period beginning March 1, 1942 and ending April 30, 1942, no manufacturer of automatic phonographs and no manufacturer of weighing or amusement machines shall produce any type of such equipment in an amount greater than three times 25% of the monthly average of such type equipment produced by him during the twelve months ending June 30, 1941. Effective May 1, 1942, no manufacturer of automatic phonographs and no manufacturer of weighing or amusement machines shall produce or assemble any such type equipment, or process, fabricate, work on or assemble any material or parts for use in the production of such equipment. The foregoing provisions shall supersede the provisions contained in the last sentence of subparagraph (b) (1) of Limitation Order L-21 for the period after February 28, 1942.

(2) From the effective date of this Order:

(i) no manufacturer of automatic phonographs, or weighing, amusement or gaming machines shall cut, stamp or otherwise shape or change the physical form of any copper, copper base alloy, nickel or stainless steel in the production of any such equipment or of any parts therefor;

(ii) no person shall commence the fabrication of any repair parts for gaming machines;

(iii) no manufacturer of automatic phonographs, or weighing, amusement or gaming machines shall receive or accept delivery of any raw materials, semi-processed materials, or finished parts not fully completed on the effective date of this Order for use in the production of any such equipment or of parts therefor;

(iv) no manufacturer of automatic phonographs or weighing, amusement or gaming machines, shall sell, transfer or deliver any part of his inventory of raw materials, semi-processed parts or finished parts which he holds for use in the production of such equipment except

(a) in connection with the manufacture or sale of such equipment to the extent that such manufacture or sale is not prohibited by the terms of this Order, of Order L-21, or of any other Order issued by the Director of Industry Operations or by the Director of Priorities, or to be issued hereafter by the Director of Industry Operations, limiting the use of any materials;

(b) to Defense Supplies Corporation, Metals Reserve Company, or any other Corporation organized under Section 5 (d) of the Reconstruction Finance Corporation Act as amended, or any person acting as agent for any such corporation;

(c) pursuant to specific authorization of the Director of Industry Operations.

(c) *Reports.* Each manufacturer of automatic phonographs or weighing, amusement or gaming machines shall file with the War Production Board within twenty-one days of the effective date of this Order, his inventory as of the effective date of this Order, of raw materials, semi-processed parts and finished parts for use in the production of such equipment.

(d) *Effective date.* This Order is to take effect on the date of its issuance and shall continue in effect until revoked. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public Law 671, 76th Congress, Third Session, as amended by Public Law 89, 77th Congress, First Session).

Issued this 16th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2305; Filed, March 16, 1942; 5:03 p. m.]

PART 1055—WOOL

Amendment No. 2 to Conservation Order No. M-73[1] *Curtailing the Use of Wool*

Section 1055.1 (Conservation Order No. M-73) is hereby further amended by adding thereto the following new paragraph:

(f) *Viscose rayon staple fiber for use on the worsted system.* (1) Each producer of viscose rayon staple fiber shall set aside each month such amount of his production of viscose rayon staple fiber as may be designated by the Director of Industry Operations for sale and delivery to or for the account of persons putting wool owned by them into process, or causing such wool to be put into process by others for their account, on the worsted system, as provided in subparagraph (2) of this paragraph.

(2) Each person putting wool owned by him into process, or causing such wool to be put into process by others for his account, on the worsted system, shall be eligible to purchase out of the viscose rayon staple fiber set aside by the producers thereof, pursuant to the terms of subparagraph (1) hereof, an amount of such viscose rayon staple fiber during the month of March, 1942, not to exceed 1% of his basic quarterly poundage: *Provided, however*, That no viscose rayon staple fiber so purchased shall be used in the manufacture of floor coverings. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3rd Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

This amendment shall take effect immediately.

Issued this 16th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2304; Filed, March 16, 1942; 5:02 p. m.]

[1] 7 F.R. 1570, 1854.

PART 1055—WOOL

Amendment No. 1 to Conservation Order No. M-73, as Amended and Extended to July 4, 1942, Curtailing the Use of Wool

Section 1055.1 (Conservation Order No. M-73, as Amended and Extended to July 4, 1942) is hereby further amended by adding thereto the following new paragraph:

(g) *Viscose rayon staple fiber for use on the worsted system.* (1) Each producer of viscose rayon staple fiber shall set aside each month such amount of his production of viscose rayon staple fiber as may be designated by the Director of Industry Operations for sale and delivery to or for the account of persons putting wool owned by them into process, or causing such wool to be put into process by others for their account, on the worsted system, as provided in subparagraph (2) of this paragraph.

(2) Each person putting wool owned by him into process, or causing such wool to be put into process by others for his account, on the worsted system, shall be eligible to purchase each month, out of the viscose rayon staple fiber set aside by the producers thereof, pursuant to the terms of subparagraph (1) hereof, an amount of such viscose rayon staple fiber not to exceed such percentage of his basic quarterly poundage as may from month to month be prescribed by the Director of Industry Operations: *Provided, however*, That no viscose rayon staple fiber so purchased shall be used in the manufacture of floor coverings.

(3) Each person eligible to purchase viscose rayon staple fiber set aside by the producers thereof, pursuant to the terms of subparagraph (1) hereof, shall place his order with the producers thereof on or before the first day of the month preceding the month in which delivery is to be made: *Provided, however*, That orders for delivery during the month of April shall be placed on or before March 21, 1942. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.).

This amendment shall take effect immediately.

Issued this 16th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations

[F. R. Doc. 42-2303; Filed, March 16, 1942; 5:02 p. m.]

[1] 7 F.R. 1570, 1854.

PART 1001—TIN

Conservation Order No. M-43-a (As amended March 17, 1942)

Section 1001.2 (Conservation Order M-43-a) as heretofore amended February 14, 1942, is hereby further amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Tin for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1001.2 *Conservation order M-43-a*—(a) *Prohibitions on use of tin in articles appearing on List A.* (1) Between January 1 and March 31, 1942, no person shall use in the manufacture of any item on List A more than 50% of the amount of tin used by him for such item during the corresponding calendar quarter of 1940.

(2) Effective April 1, 1942, no tin shall be used in the production of any item on List A.

(3) From and after the effective date of this Order, no person shall fabricate, assemble, melt, cast, extrude, roll, turn, spin, coat or process in any other way, or in any way change the form of or add or solder any metal to, any tin metal or tin-bearing material, for the purpose of making any units of items on List A, or parts thereof, unless such units or parts will be finished before April 1, 1942, and are completed within the 50% limitation imposed by sub-paragraph (a) (1) hereof.

(b) *Limitations on other uses of tin*—(1) *General restrictions.* From January 1 to April 1, 1942, no person shall use in the manufacture of any article which is not on List A more that 50% of the amount of tin used by him for such article during the corresponding calendar quarter of 1940, and beginning April 1, 1942, no person shall in any calendar quarter use in the manufacture of any article not on List A more than 40% of the amount of tin used by him for such article during the corresponding calendar quarter of 1940: *Provided, however*, That no person shall use tin in the manufacture of any article not on List A, where or beyond the extent to which the use of any substitute material is practical, and in addition, no person shall use virgin tin in the manufacture of any article not on List A, where or beyond the extent to which the use of secondary tin metal is practical. Each person shall fill orders for repair and replacement parts for

articles not on List A in preference to orders for complete articles whenever the provisions of this paragraph (b) (1) prevent him from doing both.

(2) *Special restrictions.* In addition to the restrictions contained in paragraph (a) and sub-paragraph (b) (1), from and after the effective date of this Order, no person shall, unless specifically authorized by the Director of Industry Operations;

(i) Manufacture or use any lead base alloy (other than solder) having a tin content of more than 12% by weight;

(ii) Manufacture or use any tin alloy (other than solder) having a tin content of more than 12% by weight;

(iii) Prior to May 1, 1942, manufacture or use any solder having a tin content of more than 38% by weight, and on and after May 1, 1942, manufacture or use any solder having a tin content of more than 30% by weight;

(iv) Manufacture any material having a tin content of more than 7½% by weight for use in collapsible tubes;

(v) Use any virgin tin in the manufacture or treating of type metal;

(vi) Manufacture or use any terne metal having a tin content of more than 15% by weight for the production of cans (as defined in Conservation Order M–81), or any terne metal having a tin content of more than 10% by weight for coating long ternes (as defined in Supplementary Order M–21–e).

(3) *Restrictions on manufacturing jewelers.* From and after February 14, 1942, no manufacturing jeweler shall for the purpose of manufacturing jewelry, emblems, insignia, personal ornaments, ornamental fittings, jewelry findings or jewelry chains, or any component parts thereof, fabricate, assemble, melt, cast, extrude, roll, turn, spin, coat or process in any other way, or in any way change the form of or add or solder any metal to, any tin metal or tin bearing material to which no other metal had been added or soldered by said date by any manufacturing jeweler: *Provided, however,* That any manufacturing jeweler who on or before April 1, 1942 files Form PD–229 with the War Production Board, Reference: M–43–a, may use before May 1, 1942 from tin to be set aside from his tin scrap and findings, or if these are insufficient, and to the extent these are insufficient, from his other inventory an amount of tin equal to three (3%) percent of the amount of tin used in jewelry by him during the year 1941.

(c) *Exceptions*—(1) *Exceptions to Paragraph (b) (1).* Where and to the extent the use of any substitute material is impracticable, the provisions, limitations and restrictions contained in paragraph (b) (1) shall not apply to the manufacture of any product which is being produced:

(i) For delivery under a contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States", (Lend-Lease Act) if in any such case the use of tin to the extent employed is required by the specifications of the prime contract; or

(ii) With the assistance of a preference rating order or certificate issued or extended to the manufacturer, which assigns any rating higher than A–2; or

(iii) For use as bearing metal with the assistance of a preference rating order or certificate issued or extended to the manufacturer, which assigns a rating of A–3 or higher.

(2) *Exceptions to paragraphs* (a) *and* (b). The prohibitions, limitations, and restrictions contained in paragraph (a) and (b), (except those contained in paragraph (b) (3)), shall not apply:

(i) To the manufacture of products required to comply with Safety Regulations issued under governmental authority if and to the extent that such regulations cannot be complied with by the use of substitute materials;

(ii) To tin plating, terne plating, hot tinning or electroplating, where and to the extent that the material so processed is to be used in the manufacture of cans (as defined in Conservation Order M–81) and subject to all the applicable provisions, limitations and restrictions of Supplementary Order M–21–e, Conservation Order M–81, and any other or further Order or direction of the Director of Industry Operations;

(iii) To the manufacture and use of tinned wire for the packaging of food for human consumption, where such wire will be in direct contact with the food packaged, but only to the extent that any substitute for tin is impracticable.

(iv) To the manufacture of health supplies as defined in Preference Rating Order P–29, as the same may be amended, to the extent a preference rating of A–10 or higher is assigned under said Order to deliveries of tin (excluding pure tin collapsible tubes for packaging) for the manufacture of any such supplies;

(v) To the use of secondary tin metal in plates and type metal for the printing, publishing and related service industries: *Provided,* That the amount of secondary metal so used by any person during any calendar quarter shall be limited to the amount used by him for such purposes during the corresponding calendar quarter of 1940;

(vi) To the use of solder or solder foil in the preparation and manufacture of printing plates: *Provided,* That the tin content of such solder and solder foil, respectively, shall be limited from the effective date of this Order to May 1, 1942, to 38% by weight, and on and after May 1, 1942, to 30% by weight; *And provided further,* That no person shall use more solder or solder foil for such purposes during any calendar quarter than the quantity, respectively, so used by him during the corresponding calendar quarter of 1940;

(vii) To the use of soft babbitt foil for the preparation of industrial metallic packings: *Provided,* That the tin content of such foil shall not exceed 1.5% by weight; *And provided further,* That no person shall use more soft babbitt foil for such purposes during any calendar quarter than the quantity so used by him during the corresponding calendar quarter of 1941;

(viii) To the manufacture of measuring, recording and control instruments, systems or equipment for use in industrial processes, such as pyrometers, flow meters, pressure gauges, gas analyzers and their associated control valves, but only to the extent that the use of any substitute material is impractical;

(ix) To the reuse of remelt bearing metal originating in the user's own plant: *Provided,* That no virgin tin or secondary tin shall be added thereto.

(d) *Prohibitions against sales or deliveries.* No person shall sell or deliver any tin or tin bearing material or products thereof in the form of raw materials, semi-processed materials, finished parts or sub-assemblies to any person if he knows or has reason to believe such material or any product thereof is to be used in violation of the terms of this Order.

(e) *Limitation on inventories.* No manufacturer shall receive delivery of tin, (including scrap), or products thereof, in the form of raw materials, semi-processed materials, finished parts or sub-assemblies nor shall he put into process any raw material, in quantities which in either case shall result in an inventory of such raw, semi-processed or finished material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the production of tin products by this Order.

(f) *Miscellaneous provisions.* (1) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(2) *Appeal.* Any person whose business is affected by this Order, and who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of tin conserved, or that compliance with this Order would disrupt or impair a program of defense work, may appeal to the War Production Board on Form PD–229, Reference M–43–a, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(3) *Applicability of Order.* The prohibitions and restrictions contained in this Order shall apply to the use of material in all items or articles hereafter manufactured irrespective of whether such items or articles are manufactured pursuant to a contract made prior or subsequent to the effective date hereof, or pursuant to a contract supported by a preference rating. Insofar as any other Order may have the effect of limiting or curtailing to a greater extent than herein provided, the use of tin in the production of any item or article, the limitations of such Order shall be observed.

(4) *Violations or false statements.* Any person who wilfully violates this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of materials subject to allocation, and such further action may be taken as is deemed appropriate, including the making of a recommendation for prosecution under Section 35A of the Criminal Code (18 U.S.C. 80).

(5) *Definitions.* For the purposes of this Order:

(i) "Tin" means tin metal or the tin content of any tin bearing material whether or not such material is first converted into tin metal, either imported from foreign sources, or produced domestically from foreign or domestic ores, scrap or residues.

(ii) "Lead Base Alloy" means any alloy containing 50% or more of lead metal by weight.

(iii) "Tin Alloy" means any alloy containing 1.5% or more of tin metal by weight;

(iv) "Manufacture" means to fabricate, assemble, melt, cast, extrude, roll, turn, spin, produce, coat, or process in any other way, but does not include installation of a finished product for the ultimate consumer on the consumer's premises, or the processing of tin ore or scrap into pig or ingot metal.

(v) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of or under common control with or available for the use of such person

(vi) An "Item on List A" means to a particular Manufacturer, all products made by him and described by the same detailed classification contained on List A; and, where the Manufacturer sells parts, it means all component parts of products described by the same detailed classification.

(vii) An "Article" means to a particular Manufacturer, all finished products made by him which are not on List A, used by the ultimate consumer for the same purpose; and where the Manufacturer sells parts, it means all component parts of products used by the ultimate consumer for the same purpose.

(viii) "Manufacturing Jeweler" means any Manufacturer of jewelry, emblems, insignia, personal ornaments, ornamental fittings, jewelry findings or jewelry chains or any component parts thereof.

(ix) "Use" means both (1) the act of putting tin into process in the manufacture of any item or article and (2) the act of completing the manufacture of any such item or article. (Where a person is limited to a percentage of the material used in a base period, this limitation applies respectively to (1) the amount of material put into process during the base period and (2) the total amount of material contained in a completed item or article, multiplied by the number of such items or articles completed during the base period. Each restriction must be applied separately.)

(x) "Put into Process" means the first change by a Manufacturer in the form of material from that form in which it is received by him.

(g) *Effective date.* This Order shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong. 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 17th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

List A for Order M–43–a

The use of tin in items listed below and in all component parts thereof is prohibited except to the extent permitted by the foregoing Conservation Order.

Advertising Specialties.
Art Objects.
Automobile Body Solder.
Band and other Musical Instruments (except for maintenance and repair of pipe organs for religious and educational institutions).
Beverage Dispensing Units & Parts thereof including pipe (except for maintenance and repair of existing units, and only where and to the extent that used tin pipe in an amount equal in tin content to the tin required, is returned by the customer to the supplier).
Britannia Metal.
Broom Wire.
Buckles.
Buttons.
Chimes and Bells.
Emblems and Insignia.
Fasteners: Eyelets, Spiral Binders, Office & Industrial Staples, Book Match Clips, Paper Clips, Zippers, Dress Hooks.
Foil—except for: (1) Condensers, (2) Electrotyping and Moulding Lead in Printing Trade, (3) X-Ray Supplies and (4) Dental Use.
Galvanizing.
Household Furnishings & Equipment.
Jewelry.
Kitchen Equipment (including cutlery and tableware), except articles for food preparation.
Novelties, Souvenirs and Trophies.
Ornaments and Ornamental Fittings.
Pewter and Pewter Holloware.
Plating or Coating for Decorative Purposes.
Powder (decorative).
Refrigerator Trays and Shelves.
Seals and Labels (except meat seals).
Slot, Game and Vending Machines.
Coated Paper.
Oxide in Enamelware as an Opacifier.
Toys.

[F. R. Doc. 42–2329; Filed, March 17, 1942; 11:54 a. m.]

PART 1040—VENDING MACHINES

Supplementary Limitation Order L–27–a

In accordance with the provisions of § 1040.1 (General Limitation Order L–27) which the following Order supplements,

§ 1040.2 *Supplementary Limitation Order L–27–a*—(a) *Restrictions After April 30, 1942.* (1) Except as provided in subparagraphs (a) (2) and (a) (4), no manufacturer of vending machines shall, after April 30, 1942, process, fabricate, work on or assemble any materials for use in the manufacture of vending machines, nor shall any manufacturer of vending machines manufacture or assemble any vending machines after that date.

(2) The restrictions contained in subparagraph (a) (1) shall not apply to the manufacture of vending machines which are used to vend sanitary napkins for women. During the three months' period beginning May 1, 1942 and ending July 31, 1942, and for each three months' period thereafter, each manufacturer of vending machines may use in the manufacture of such vending machines used to vend sanitary napkins for women:

(i) three times 50% of the monthly average of iron and steel used by him in the manufacture of such vending machines used to vend sanitary napkins for women during the twelve months ending June 30, 1941, and

(ii) three times 25% of the monthly average of metals other than iron, steel, or prohibited metals used by him in the manufacture of such vending machines used to vend sanitary napkins during the twelve months ending June 30, 1941.

(3) No manufacturer of vending machines shall use any prohibited metals or alnico magnets in the manufacture of any vending machines pursuant to subparagraph (a) (2) after April 30, 1942.

(4) The restrictions contained in subparagraphs (a) (1), (a) (2) and (a) (3) shall not apply to the manufacture of repair and replacement parts for vending machines. During the three months' period beginning May 1, 1942 and ending July 31, 1942, and for each three months' period thereafter, each manufacturer of vending machines may use in the manufacture of repair and replacement parts for vending machines three times 100% of the monthly average of iron, steel, prohibited metals and other metals used by him in the manufacture of such repair and replacement parts for vending machines during the twelve months ending June 30, 1941. For the purposes of this subparagraph, "repair and replacement parts" shall mean such parts as are essentially required for the restoration of vending machines to a sound operating condition when such equipment has been rendered unfit or unsafe for use through wear, tear, damage or destruction of parts or other similar causes. It shall not include the substitution of equipment of greater capacity than the equipment which is replaced.

(b) *Acceleration of April, 1942 quotas.* From the effective date of this Order, the restrictions contained in subparagraph (b) (2) of Limitation Order L–27

shall not prevent any manufacturer of vending machines from accelerating his rate of production during the month of March, 1942, in order to produce all or any part of the quota of vending machines that he is permitted to produce during the month of April, 1942, in lieu of producing such vending machines during the month of April, 1942.

(c) *Communications.* All appeals and other communications concerning this Order shall be addressed to the War Production Board, Washington, D. C., Ref: L–27–a.

(d) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.).

Issued this 17th day of March, 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42–2331; Filed, March 17, 1942; 11:54 a. m.]

PART 1112—OFFICE MACHINERY

Interpretation No. 1 of General Limitation Order No. L–54[1]

The following official interpretation of the meaning of the term "typewriter" is hereby issued by the Director of Industry Operations:

The term shall not include billing and continuous forms handling typewriters; Braille typewriters; toy typewriters; wide-carriage (18-inch or wider) typewriters with special inbuilt features designed for statistical or accounting work; shorthand writing machines; telegraphically controlled typewriting machines; linotype machines; or monotype machines. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 17th day of March, 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42–2328; Filed, March 17, 1942; 11:54 a. m.]

PART 1112—OFFICE MACHINERY

Conversion Order No. L–54–a

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of typewriters for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1112.2 *Conversion Order L–54–a*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Manufacturer" means any person manufacturing typewriters, to the extent that he is engaged in such manufacture, and shall include sales and distribution outlets controlled by said Manufacturer.

(3) "Dealer" means any wholesaler, retailer or other distributor of typewriters other than sales and distribution outlets controlled by a Manufacturer.

(4) "Typewriter", unless expressly otherwise stated, includes nonportable typewriters, (including noiseless and electric types) and portable typewriters, and unless expressly otherwise stated, refers only to new typewriters. The term shall not include billing and continuous forms handling typewriters; wide carriage (18 inches or wider) typewriters designed for statistical or accounting work; shorthand writing machines, telegraphically controlled typewriters; braille typewriters; toy typewriters; linotype machines or monotype machines. The term "new typewriter" means any typewriter which has not been delivered to any person acquiring it for use, but does not include rebuilt typewriters. The term "used typewriter" means any typewriter which at any time has been delivered to any person acquiring it for use, and includes rebuilt typewriters.

(5) "Sets of Parts" means typewriter parts fabricated at plants in the United States and shipped to foreign countries for assembly into typewriters.

(b) *General restrictions.* No manufacturer shall hereafter manufacture typewriters in greater numbers than specifically authorized here or from time to time hereafter by the Director of Industry Operations; and no person shall hereafter distribute, or receive delivery of, new or used typewriters in any manner other than as specifically authorized here or from time to time hereafter by the Director of Industry Operations or any governmental agency authorized by the Chairman of the War Production Board to regulate the distribution of new or used typewriters.

(c) *Authorized production quotas*—(1) *Quotas from March 15, 1942 to June 30, 1942.* During the period commencing March 15, 1942, and ending May 31, 1942, and the month of June 1942, respectively, each manufacturer shall manufacture quantities of non-portable and portable typewriters, or parts therefor (not including sets of parts for export), not in excess of the following percentages of the average monthly number of non-portable and portable typewriters (not including parts therefor or sets of parts for export) respectively, billed to customers by such manufacturer during the calendar year 1941:

Name of manufacturer	March 15–May 31, 1942,	June 1942
	Non-portable production	
	Percent	*Percent*
Underwood Elliott Fisher Co.	2½ times 75	53
Remington Rand, Inc.	2½ times 75	53
Royal Typewriter Company, Inc.	2½ times 75	53
L. C. Smith & Corona Typewriters, Inc.	2½ times 75	53
International Business Machines Corp.	2½ times 75	53
Woodstock Typewriter Co.	2½ times 90	75
	Portable production	
	Percent	*Percent*
Underwood Elliott Fisher Co.	2½ times 36	11
Remington Rand, Inc.	2½ times 36	11
Royal Typewriter Co., Inc.	2½ times 36	11
L. C. Smith & Corona Typewriters, Inc.	2½ times 36	11

Provided, however, That any manufacturer who does not produce his quota of non-portable or portable typewriters, including parts therefor, during the quota period March 15 to May 31, 1942, may exceed production quotas for subsequent periods to produce a quantity of non-portable or portable typewriters, or parts therefor, as the case may be, equal to the amount of such deficiency.

(2) *Sets of parts for export.* Each manufacturer may produce for export during the period commencing March 15, 1942, and ending May 31, 1942, and the month of June, 1942, respectively, a number of sets of parts for non-portable and portable typewriters, not in excess of the following percentages of the average monthly number of sets of parts for non-portable and portable typewriters, respectively, shipped from his factories during 1941:

Name of manufacturer	March 15–May 31, 1942,	June 1942
	Non-portable production	
	Percent	*Percent*
Underwood Elliott Fisher Co.	2½ times 75	53
Remington Rand, Inc.	2½ times 75	53
Royal Typewriter Company, Inc.	2½ times 75	53
L. C. Smith & Corona Typewriters, Inc.	2½ times 75	53
International Business Machines Corp.	2½ times 75	53
Woodstock Typewriter Co.	2½ times 90	75
	Portable production	
	Percent	*Percent*
Underwood Elliott Fisher Co.	1½ times 36	11
Remington Rand, Inc.	1½ times 36	11
Royal Typewriter Company, Inc.	1½ times 36	11
L. C. Smith & Corona Typewriters, Inc.	1½ times 36	11

The right to produce and export any such sets of parts shall not be construed to authorize the export of such sets unless export licenses can be secured.

[1] 7 F.R. 1755, 1794.

Provided, however, That any manufacturer who is unable to ascertain the physical quantity of sets of parts for non-portable or portable typewriters which he shipped from factories during 1941 may produce for export a dollar value of such non-portable or portable sets of parts not in excess of the abovementioned percentages of the average monthly dollar value of sets of parts for non-portable or portable typewriters, respectively, shipped from his factories during 1941.

The quantity of sets of parts for non-portable and portable typewriters so produced shall be over and above the production quotas for non-portable and portable typewriters. No manufacturer so producing and exporting sets of parts shall, directly or indirectly, import any typewriters into the United States.

(3) *Distribution among models and types.* No manufacturer shall produce, in any production quota period, a percentage of noiseless typewriters to total non-portable typewriter production in excess of the percentage which the quantity of noiseless typewriters billed to his customers in 1941 is of all non-portable typewriters billed to his customers in 1941.

Unless expressly otherwise authorized by the Director of Industry Operations, manufacturers shall produce their production quotas of portable typewriters in accordance with specifications of the Army or Navy of the United States.

(d) *Restrictions not applicable to replacement parts: distribution of replacement parts.* The restrictions upon the production of portable and non-portable typewriters and parts therefor shall not be construed to limit the production of parts to be used to service and repair typewriters: *Provided, however,* That no manufacturer shall produce parts in excess of quantities required to maintain a minimum practicable working inventory of such service and repair parts.

During the balance of the calendar year 1942 each manufacturer whose practice has been to sell parts to persons engaged in the servicing or repair of typewriters shall make available to persons engaged in the servicing or repair of typewriters, and willing and able to meet regularly established prices and terms of sale or payment, a supply of maintenance and repair parts not to exceed 150% of the dollar value of sales by such manufacturer to such person during the calendar year 1941, or if such person was not engaged in such servicing or repair during 1941, a reasonable supply. Deliveries of such maintenance and repair parts shall be apportioned throughout the year. No person servicing or repairing typewriters shall maintan a stock of such parts in excess of the minimum practicable working inventory.

(e) *Revocation of General Limitation Order L–54*[1] General Limitation Order L–54, and all amendments thereto and interpretations thereof, are hereby revoked: *Provided, however,* That all deliveries expressly authorized thereunder by the Director of Industry Operations may be completed.

(f) *Distribution of typewriters by manufacturers*—(1) *Distribution of non-portable typewriters.* On and after the date of issuance of this order, regardless of the terms of any contract of sale or purchase or other commitment, or of any preference rating, each manufacturer shall distribute his production and stock of new non-portable typewriters as follows:

(i) Each manufacturer shall, in each quota period, make available to the Army of the United States, including the War Department, a quantity of new non-portable typewriters equal to 48.9 per centum of his production for such quota period.

(ii) Each manufacturer shall, in each quota period, make available to the Navy of the United States, including the Navy Department, a quantity of new non-portable typewriters equal to 19.6 per centum of his production for such quota period.

(iii) Unless expressly otherwise authorized by the Director of Industry Operations, the quantities to be made available to the Army and Navy of the United States shall be cumulative, and shall be held available until such time as required by the Army or Navy, as the case may be.

(iv) Each manufacturer shall set aside, to be distributed in accordance with express authorizations of the Director of Industry Operations, a quantity of new non-portable typewriters equal to his stocks of new non-portable typewriters on the date of issue of this order plus 31.5 per centum of his production in each production quota period.

(2) *Distribution of portable typewriters.* On and after the date of issuance of this order, regardless of the terms of any contract of sale or purchase or other commitment, or of any preference rating, no manufacturer of portable typewriters shall deliver any of his stocks of new portable typewriters or of his future production thereof except to the Army or Navy, unless expressly otherwise authorized by the Director of Industry Operations.

(g) *Distribution of typewriters by persons other than manufacturers.* In accordance with the terms of Supplementary Directive 10, stocks of new non-portable and portable typewriters now in the hands of dealers, and all imports of new typewriters, are made available to the Office of Price Administration for rationing; and no dealer shall deliver any such typewriters except in accordance with such rules, regulations and authorizations as may be issued by the Office of Price Administration.

Provided, however, That any dealer, other than a manufacturer, may deliver new typewriters in stock to any manufacturer willing to accept the same. Such typewriters shall, however, remain subject to rationing rules, regulations and authorizations of the Office of Price Administration.

Provided, further, That any dealer may deliver a new typewriter to the Army or Navy of the United States and replace any such delivery, by presenting a copy of the purchase order, dated on or after the date of issue of this order, to the Manufacturer making the delivered brand. Manufacturers shall deliver typewriters at regularly established prices and terms of sale or payment to dealers upon presentation of such purchase orders, and shall reduce correspondingly the number of typewriters required under paragraph (f) to be made available to the Army or the Navy, as the case may be.

(h) *Persons entitled to receive new typewriters.* (1) *Persons other than United States agencies and exporters.* In accordance with the terms of Supplementary Directive ID, persons other than agencies of the United States, and governmental agencies or other persons acquiring new typewriters for export may purchase, accept, or otherwise receive delivery of new typewriters only as authorized by the Office of Price Administration.

(2) *Army and Navy.* Without further authorization, the Army of the United States, including the War Department, may acquire, during the period March 15, to May 31, 1942, 27,908 new portable typewriters, and 53,319 new non-portable typewriters; during June 1942, 3,409 new portable typewriters and 15,172 new non-portable typewriters; and during each month thereafter until further notice, 3,409 new portable typewriters and 15,172 new non-portable typewriters. Without further authorization the Navy of the United States, including the Navy Department, may acquire, during the period March 15 to May 31, 1942, 7,855 new portable typewriters and 21,373 new non-portable typewriters; during June 1942, 959 new portable typewriters and 6,081 new non-portable typewriters; and during each month thereafter until further notice, 959 new portable typewriters and 6,081 new non-portable typewriters.

Quotas not taken up by the Army or Navy during any quota period may be carried over and acquired in subsequent periods.

(3) *Exporters.* (i) *Lend-lease.* Any agency of the United States government acquiring new typewriters to be delivered to, or for the account of the government of any country, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act) shall purchase, accept delivery of, or otherwise acquire new typewriters only upon express authorization of the Director of Industry Operations. Manufacturers and dealers shall deliver new typewriters to any such agency upon the presentation of an authorization signed by the Director of Industry Operations. Any dealer may receive any new typewriter to fill any such order from any manufacturer producing such typewriters, and manufacturers shall deliver typewriters to such dealers upon the presentation of any such authorization.

[1] 7 F.R. 1755, 1794, and Interpretation No. 1, *supra.*

(ii) *Other than lend-lease.* No governmental agency or other person acquiring new typewriters for export shall purchase, accept delivery of, or otherwise receive new typewriters except upon express authorization of the Director of Industry Operations. Any person desiring to acquire a new typewriter for export from the United States must first apply to the Office of Export Control, Board of Economic Warfare, Washington, D. C. for an Export License. If the Office of Export Control recommends that an Export License be issued to the applicant, the War Production Board will be notified, and an authorization, on Form PD-365, to acquire a new typewriter may be issued to the applicant or to a person designated by the Board of Economic Warfare for his account. Upon presentation of said Form PD-365, duly signed, any Manufacturer or Dealer is authorized to deliver a new typewriter. Any dealer may receive any typewriter to fill any such order from any Manufacturer producing such typewriters, and manufacturers shall deliver typewriters to dealers upon the receipt of any such authorizations on Form PD-365.

(4) *Other Government agencies.* Except as specified in paragraphs (2) and (3), above, no agency of the United States may purchase new typewriters except the Procurement Division of the Treasury Department. Once each month the Director of Industry Operations shall expressly authorize said Procurement Division to acquire specific quantities and brands of new typewriters and said Procurement Division shall distribute such new typewriters to such agencies of the United States government (other than the Army, the Navy, and agencies acquiring new typewriters for export) and in such quantities, and brands, as the Director of Industry Operations shall authorize. Any such agency which believes it will require such new typewriters during any month shall file, on or before the 25th day of the month preceding, Form PD-366 with the Procurement Division of the Treasury Department which shall forward all such forms to the Director of Industry Operations. The Director of Industry Operations shall thereupon authorize said Procurement Division to acquire and distribute such quantities of new typewriters as, in his opinion, shall be necessary or appropriate in the public interest and to promote the national defense. No such agency shall request a new typewriter unless, to the best of its knowledge, such typewriter and all other typewriters possessed by the agency will be actually employed during the succeeding month.

(j) *Existing contracts.* Fulfillment of contracts in violation of this order is prohibited regardless of whether such contracts are entered into before or after the effective date of this order. No person shall be held liable for damages or penalties for default under any contract or order which shall result directly or indirectly from his compliance with the terms of this order.

(j) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(k) *Appeals.* Any manufacturer affected by this order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in his community, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense work, may apply for relief by addressing a letter directed to the Director of Industry Operations, Social Security Building, Washington, D. C., setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(l) *Records.* All manufacturers and dealers affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventory, production, and sales of typewriters.

(m) *Reports.* All persons affected by this order shall execute and file with the Office Machinery and Services Branch, Division of Industry Operations, War Production Board, such reports and questionnaires as said branch shall from time to time request.

(n) *Communications to War Production Board.* All reports required to be filed hereunder, all communications concerning this Order, and all applications directly to the Division of Industry Operations, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: L-54-A.

(o) *Effective date.* This order shall take effect upon the date of the issue thereof and shall continue in effect until revoked by the Director of Industry Operations, subject to such changes and supplements thereof as shall be issued from time to time. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess).

Issued this 17th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2330; Filed March 17, 1942; 11:55 a. m.]

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

ORDER AMENDING ENFORCEMENT SECTIONS OF CERTAIN REVISED PRICE SCHEDULES

A statement of the considerations involved in the issuance of this Order has been prepared and is issued simultaneously herewith.[1]

[1] The statement of considerations has been filed with the Division of the Federal Register.

Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, including section 201 (d) thereof, it is hereby ordered that the respective enforcement sections of Revised Price Schedules, listed in paragraph (b), are amended to read as follows:

(a) *Enforcement.* (1) Persons violating any provision of this Revised Price Schedule No. ------ are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(2) Persons who have evidence of any violation of this Revised Price Schedule No. ------ or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

(b) The applicable section number and schedule number is to be inserted for each Revised Price Schedule as follows: the section number should precede the headnote of the section and the schedule number should appear in the text at the spaces indicated. The respective section number and schedule number are as follows:

Sec.	Revised Price Schedule No.	Sec.	Revised Price Schedule No.
1301.5	1	1330.57	55
1302.6	2	1315.57	56
1303.6	3	1352.9	57
1304.10	4	1354.6	58
1306.6	6	1353.7	59
1307.7	7	1334.57	60
1308.6	8	1314.57	61
1314.8	9	1358.6	62

PART 1334—SUGAR

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 16 [1]—RAW CANE SUGARS

A statement of the considerations involved in the issuance of this Amendment has been prepared and is issued simultaneously herewith.[2]

Two new sections, §§ 1334.8a and 1334.13, are added as set forth below:

§ 1334.13 *Temporary exception for raw cane sugars from foreign countries other than Cuba.* (a) There shall be excepted from the provisions of § 1334.9 (a) (1) and (a) (2) of Revised Price Schedule No. 16 raw cane sugars from foreign countries other than Cuba: *Provided*, such sugars:

(1) Are delivered to United States Atlantic ports north of Cape Hatteras;

(2) Are purchased by a refiner or by any person for resale to a refiner for Lend-Lease purposes at prices not in excess of the maximum prices established therefor by this § 1334.13;

(3) When refined, or an equivalent amount of refined sugar, raw value, are offered to the Federal Surplus Commodities Corporation for Lend-Lease purposes or are used to fulfill such an offer previously accepted by the Federal Surplus Commodities Corporation for Lend-Lease purposes.

(b) The maximum prices per pound for such raw cane sugars from foreign countries other than Cuba of 96 degrees polarization cost and freight basis, not including duty, shall be as follows (duty and excise tax shall be for refiner's account):

(1) United States Atlantic ports north of Cape Hatteras to and including New York, 2.8025 cents.

(2) United States Atlantic ports north of New York, 2.8225 cents. (Pub. Law 421, 77th Cong. 2d Sess.)

§ 1334.8a *Effective dates of amendments.* (a) Amendment No. 1 (1334.13) to Revised Price Schedule No. 16 shall become effective on March 17, 1942 and shall, unless earlier revoked or extended, expire at twelve o'clock midnight June 20, 1942. (Pub. Law 421, 77th Cong. 2d Sess.)

Issued this 17th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

PART 1349—ELECTRICAL GENERATION, TRANSMISSION, CONVERSION AND DISTRIBUTION APPARATUS

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 82 [1]—WIRE, CABLE AND CABLE ACCESSORIES

A statement of the considerations involved in the issuance of this Amendment has been prepared and is issued simultaneously herewith.[2]

Sections 1349.1 (a), 1349.4, 1349.5, 1349.7 (a) (14), 1349.7 (a) (17), 1349.10 and 1349.11 are amended to read as set forth below. Two new paragraphs (h) and (i) are added to § 1349.8 and two new §§ 1349a and 1349.12, are added as set forth below:

§ 1349.1 *Maximum prices for wire, cable and cable accessories.* (a) On and after January 29, 1942, regardless of any contract, agreement, lease or other obligation, no manufacturer shall sell or deliver wire, cable or cable accessories and no person shall buy or receive from a manufacturer wire, cable or cable accessories in the course of trade or business at prices higher than the maximum prices set forth in Appendices A, B and C hereof, incorporated herein as §§ 1349.10 to 1349.12, inclusive; and no manufacturer or other person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of wire, cable or cable accessories to a purchaser if prior to January 29, 1942 such wire, cable or cable accessories had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

§ 1349.4 *Records and reports.* (a) Every manufacturer of wire, cable or cable accessories making any sale after January 29, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such sale, showing (1) the date thereof, (2) the name and address of the buyer, (3) the price on the date of sale, (4) the net price received, and (5) the quantity and description of the wire, cable or cable accessories sold.

(b) Every person rolling bars into rods or drawing wire therefrom, after January 29, 1942, for a manufacturer of wire, cable or cable accessories, where bars or rods are furnished by such manufacturer shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such transaction, showing (1) the date thereof, (2) the name and address of the manufacturer for whom the operation was performed, (3) the net charge, and (4) description of the size, quality and quantity of wire drawn or bars rolled.

(c) On or before February 20, 1942, every manufacturer of wire, cable or cable accessories shall file with the Office of Price Administration, Washington, D. C., if it has not already done so, price lists and discount sheets setting forth prices and all extra charges, discounts and allowances applicable on October 15, 1941 to wire, cable and cable accessories offered for sale by such manufacturer. Every such manufacturer shall file with the Office of Price Administration, Washington, D. C., any price lists or discount sheets issued subsequent to October 15, 1941, immediately after issuance.

(d) On or before April 6, 1942 every manufacturer of wire, cable or cable accessories shall file with the Office of Price Administration, Washington, D. C., a statement of each standard estimating procedure in use on October 15, 1941, together with a general list of the products for which each such standard estimating procedure is used and an illustrative computation under each.

(e) Manufacturers wishing to establish price sheets for wire, cable or cable accessories developed subsequent to October 15, 1941, or sold on or before October 15, 1941, without listing in price sheets shall submit to the Office of Price Administration, Washington, D. C., not less than ten days before the proposed date of issuance of such price sheets, a report on such wire, cable or cable accessories. Such report shall contain copies of the price sheets proposed to be issued, a description of the products covered, price and cost estimate sheets, and any other material relevant to the determination of prices listed in such price sheets.

(f) Manufacturers wishing to use a new standard estimating procedure not in use on or before March 17, 1942, shall submit a report to the Office of Price Administration, Washington, D. C., not less than ten days before the proposed use of such new standard estimating procedure. Such report shall contain a statement of such proposed standard estimating procedure, a general list of the products for which it is to be used, an illustrative computation thereunder, a statement of the reasons for its adoption, and any other material relevant to the selection of such new standard estimating procedure. Manufacturers using standard estimating procedures prior to March 17, 1942, but not on or before October 15, 1941, shall submit a report to the Office of Price Administration, Washington, D. C., on or before April 6, 1942. Such report shall contain the information hereinbefore required in connection with new standard estimating procedures.

(g) If the maximum prices for wire, cable or cable accessories are to be determined in accordance with the provisions of Appendix C hereof, incorporated herein as § 1349.12, the manufacturer shall submit to the Office of Price Administration, Washington, D. C., the specifications of such wire, cable or cable accessories, the proposed price, price and cost estimate sheets, the proposed billing date, a statement that no standard estimating procedure is applicable and the reasons therefor, and a statement, where applicable, of differentials in the cost of material used in substitution for materials no longer available, all certified by an authorized

[1] 7 F.R. 1358.
[2] The statement of considerations has been filed with the Division of the Federal Register.

agent having knowledge of the facts. Such information shall be submitted by mail postmarked not less than twenty days before the proposed date of billing of such wire, cable or cable accessories, and such price shall be deemed approved unless an objection is received from the Office of Price Administration before such proposed billing date.

(h) Persons affected by Revised Price Schedule No. 82 shall submit such other reports, including periodic profit and loss statements and balance sheets, to the Office of Price Administration, as it may from time to time require, either in addition to or in substitution for the reports herein provided for.

§ 1349.5 *Enforcement.* (a) Persons violating any provision of this Revised Price Schedule, No. 82 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Revised Price Schedule No. 82 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1349.7 *Products subject to Revised Price Schedule No. 82.* The term: (a) "wire, cable and cable accessories" means:

* * * * *

Any copper, copperclad or copper alloy wire or assembly or wires used for conducting electricity, including the following types:

* * * * *

(14) *Special purpose communication, control or signal wire and cable* which shall include single or multiple conductors, rubber, cotton or synthetic insulated whether or not saturated with a weather resistant compound and with or without a fibrous or metallic protective covering.

* * * * *

(17) *Flexible cord and cord sets—Flexible cords* which shall include single and multiple conductor wires consisting of flexible stranded bare wire, insulated with impregnated cotton, impregnated asbestos, rubber compounds or synthetics and finished with fibrous coverings, rubber or synthetic jackets suitable for use in the wiring of electric fixtures and as power supply for portable electrical appliances. *Cord sets* which shall include any item or assembly of items of flexible cords cut to specified length or cut and equipped with soldered ends, eyelets, plugs, switches, or other similar appurtenances for use with electrical appliances or other electrical apparatus. Specifically included are battery cables and wiring harnesses such as used in automobiles, tanks or airplanes.

§ 1349.8 *Definitions.* When used in Revised Price Schedule No. 82 the term:

* * * * *

(h) "Standard estimating procedure" means any general method or formula used by a manufacturer for determining prices of wire, cable or cable accessories not listed in price sheets which utilizes the manufacturer's knowledge and experience in the manufacture of the same or similar products.

(i) "Developmental contract" or "developmental subcontract" means any contract or arrangement whereby a manufacturer agrees to produce one or more samples of wire, cable or cable accessories pending the selection of a product or the accumulation of sufficient manufacturing experience to permit the setting of a price for such product, or both, but shall not include an order for production of such product in quantity at a fixed price.

§ 1349.10 *Appendix A: Maximum prices for wire, cable and cable accessories listed in price sheets.* (a) For all types of wire, cable and cable accessories listed in § 1349.7 hereof, except solid copper Weatherproof Wire, the prices of which can be determined from prices listed or methods of computation provided in price sheets in effect on October 15, 1941, maximum prices shall be the net prices of the manufacturer thereof on October 15, 1941. Maximum prices for any such wire, cable or cable accesosries containing lead shall be the prices provided in the preceding sentence plus an amount equal to the number of pounds of lead contained on any such wire, cable or cable accesories multiplied by $0.00325.

(b) Maximum prices for solid copper Weatherproof Wire shall be computed in applying the terms and conditions contained in each manufacturer's price list in effect on October 15, 1941, to a base price of 17.5 cents per pound for solid soft drawn, weatherproof copper wire and cable, shipped in less than carload lots.

(c) Price sheets may be established for wire, cable or cable accessories developed subsequent to October 15, 1941, or sold on or before October 15, 1941, without listing in price sheets. Maximum prices for such wire, cable and cable accessories shall be the prices listed in such new price sheets after such sheets have been submitted to and approved in writing by the Office of Price Administration pursuant to § 1349.4 (e).

§ 1349.11 *Appendix B: Maximum prices for wire, cable and cable accessories priced in accordance with standard estimating procedures.* For all wire, cable and cable accessories not covered by Appendix A, incorporated herein as § 1349.10:

(a) for which a standard estimating procedure or formula was in effect on or before October 15, 1941, maximum prices shall be the net prices the manufacturer thereof would have charged on October 15, 1941, if such prices had been calculated upon labor and materials costs existing on such date and by the use of such standard estimating procedure or formula.

(b) for which a standard estimating procedure was not in effect on or before October 15, 1941, but for which a standard estimating procedure has been submitted to and approved in writing by the Office of Price Administration pursuant to § 1349.4 (f), maximum prices shall be the net prices calculated by the use of such estimating procedure.

Maximum prices for any such wire, cable or cable accessories containing lead shall be the prices provided above plus an amount equal to the number of pounds of lead contained on any such wire, cable or cable accessories multiplied by $0.00325.

§ 1349.12 *Appendix C: Maximum prices for wire, cable and cable accessories not covered by §§ 1349.10 or 1349.11. Appendices A or B.* For all wire, cable and cable accessories not covered by Appendices A or B, incorporated herein as §§ 1349.10 and 1349.11, maximum prices shall be the prices the manufacturer thereof would have charged on October 15, 1941, employing experience acquired by him subsequent to such date in manufacturing the same or similar products, and adjusted to reflect differentials in the cost of materials used in substitution for materials no longer available. Such prices shall not become effective until submitted to and approved by the Office of Price Administration pursuant to § 1349.4 (g): *Provided*, That nothing in Revised Price Schedule No. 82 shall be construed as setting maximum prices for any wire, cable or cable accessories manufactured pursuant to a developmental contract with any agency of the United States or pursuant to a developmental subcontract authorized by an agency of the United States.

§ 1349.9a *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1349.1 (a), 1349.4, 1349.5, 1349.7 (a) (14), 1349.7 (a) (17), 1349.8 (h), 1349.8 (i), 1349.9a, 1349.10, 1349.11, 1349.12) to Revised Price Schedule No. 82 shall become effective March 17, 1942. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 16th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

AMENDMENT NO. 2 TO REVISED PRICE SCHEDULE NO. 85 [1]—NEW PASSENGER AUTOMOBILES

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith.[2]

§ 1360.51 (b) is amended to read as follows:

§ 1360.51 *Maximum wholesale price for new passenger automobiles.*

* * * * *

(b) In the event that the automobile is without equipment which was standard on October 15, 1941, the maximum prices shall be reduced by the wholesale value of the equipment removed. This provision shall not apply to the Ford Motor Company.

* * * * *

§ 1360.60a *Effective dates of amendments.*

* * * * *

(b) Amendment No. 2 (§ 1360.51 (b), 1360.60a (b)) to Revised Price Schedule No. 85 shall be effective as of February 2, 1942.

(Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 16th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

TITLE 35—PANAMA CANAL

CHAPTER I—CANAL ZONE REGULATIONS

PART 28—PHOTOGRAPHING

By virtue of and pursuant to the authority vested in me by section 15 of title 2 of the Canal Zone Code, as added by the Act of Congress of December 12, 1941 (Pub. No. 836—77th Congress), and having, in the interests of the protection of the Panama Canal and Canal Zone, determined that the parts or features of the Panama Canal and the areas, objects, installations, or structures within the Canal Zone, which are hereinafter described or enumerated, require protection against the general dissemination of information relative thereto, I hereby prescribe the following regulations, effective March 10, 1942:

Sec.

28.1 Areas, objects, or structures, photographing, etc., of which is prohibited.
28.2 Areas within which photographing, etc., is prohibited.
28.3 Areas within which possession of cameras is prohibited.
28.4 Exception as to certain areas and personnel.
28.5 Exception as to activities in course of official duties.
28.6 Punishment for violations.

§ 28.1 *Areas, objects, or structures, photographing, etc., of which is prohibited.* No person shall make any photograph, sketch, drawing, map, or graphical representation of any of the following areas, objects, installations, or structures within the Canal Zone, without first obtaining the permission of the Governor of The Panama Canal, and promptly submitting the product obtained to the Governor for such action as he may deem necessary:

(a) Bridges, highway or railroad; underpasses; trestles; or approaches thereto.

(b) Any Canal Zone area from the air or from Panama Railroad coaches, cars, or other rolling equipment.

(c) Coaling plants or appurtenant docks, cranes, structures or installations.

(d) Cold storage plants; food storage or processing plants.

(e) Camps, concentration or detention, or quarantine stations.

(f) Cranes, floating, stiff-leg or locomotive.

(g) Dams or appurtenant spillways, structures or installations.

(h) Docks, piers, wharves, quays, or appurtenant structures or installations.

(i) Dredges.

(j) Dry docks, or appurtenant structures or installations.

(k) Explosives, magazines or dumps.

(l) Ferries, ferry ramps, slips or landward approaches.

(m) Gravel plants or appurtenant structures or installations.

(n) Locks, completed or under construction, or appurtenant control houses, gates, dams, walls, excavations, structures, installations or areas.

(o) Oil, fuel, or gasoline storage tanks or appurtenant pipe lines, pumping plants, farms, areas, structures or installations.

(p) Power plants, hydro-electric, Diesel-electric or steam-electric or appurtenant structures, installations or areas.

(q) Quarries, or appurtenant structures, installations, areas, crushers or hoppers.

(r) Railroad terminals, yards, or locomotives.

(s) Ships, vessels, or any floating craft of any nature.

(t) Shops, of Mechanical Division, Dredging Division, Municipal Engineering Division, Motor Transportation Division, or appurtenant structures, installations or areas.

(u) Storehouses, storage yards, supply dumps, or warehouses.

(v) Signal stations, or appurtenant structures, or installations.

(w) Electrical substations, transformers, switching stations, or appurtenant structures, installations, indoor or outdoor.

(x) Tunnels.

(y) Water tanks, reservoirs, filter plants, pumping plants, intakes, pipe lines, or appurtenant installations, structures.

(z) Military or Naval reservations, posts, camps, stations, depots, forts, fortifications, storehouses, fuel oil tanks, air bases, air fields, landing fields, antiaircraft or searchlight positions, fire control or aircraft warning positions, radio stations, radio direction finder stations, ammunition storage depots, dumps, magazines, section bases, submarine bases, roads or trails, or any other places occupied by military or naval forces, whether temporarily or otherwise, or any appurtenant structures, installations or equipment, or any area adjacent to any of the above.

(aa) Any object, installation, structure, material or equipment of any branch of the military or naval services which is the property of, or is being used by the U. S. Army or U. S. Navy, wheresoever located and whether serviceable or unserviceable; any aircraft, airplane or seaplane, whether in flight, on the ground, on the water, or at anchorage; any areas, objects or structures damaged or destroyed as a result of military, naval, or air action by enemy or friendly troops; any camouflage, artificial or natural, wherever located; any movements of troops or equipment, whether by air, land, or water, or whether in combat or otherwise.

(bb) Any extensive area within the Canal Zone which shows the topography of such area.

(cc) Any port, port area, anchorage basin, canal channel, approach to the canal channel, mine field, beach or shoreline.

(dd) Any area, object, structure or installation that is posted by authority of the Governor with signs prohibiting the photographing thereof.

(ee) Any airraid shelter or other shelter for the protection of military or naval personnel or material in case of attack.*

*§§ 28.1 to 28.6, inclusive, issued under the authority contained in sec. 15, Canal Zone Code, Pub. Law 336, 77th Cong.

§ 28.2 *Areas within which photographing, etc., is prohibited.* No person shall make any photograph, sketch, drawing, map or graphical representation within or upon any of the following areas, objects, installations, or structures in the Canal Zone, without first obtaining the permission of the Governor of The Panama Canal, and promptly submitting the product obtained to the Governor for such action as he may deem necessary:

(a) On board any ship, vessel or other floating craft of any nature in Canal Zone waters.

(b) The airspace above the Canal Zone.

(c) Dam and spillway areas.

(d) Oil storage areas.

(e) Shop areas of Mechanical Division, Dredging Division, Municipal Engineering Division, Motor Transportation Division.

(f) Lock areas for existing locks and for those locks under construction.

(g) Docks and pier areas.

(h) Any area containing any object, structure, or installation included in § 28.1 of the regulations in this part that is enclosed by a fence; or any area posted by authority of the Governor with signs prohibiting photographing therein.

(i) Any military or naval reservation, post, camp, station, depot, fort, fortification, air base, air field, landing field, antiaircraft or searchlight position, fire control or aircraft warning position, radio station, radio direction finder station, ammunition storage depot, dump, magazine, section base, submarine base, railroad track or right of way, or any other area exclusively assigned or used for military or naval operations.

(j) Any waters, port areas, anchorage basin, canal channel, approach to the canal channel, or mine field of or in the Panama Canal.

(k) On board any train, coach, car or other rolling equipment of the Panama Railroad Company.*

§ 28.3 *Areas within which possession of cameras is prohibited.* No person shall have any camera in his possession within any of the following areas in the Canal Zone, without first obtaining the permission of the Governor of The Panama Canal:

(a) (1) On board any vessel in transit through the Panama Canal. (See paragraph (b) of this section.)

(2) The airspace above the Canal Zone. (See paragraph (c) of this section.)

(3) Any dam or spillway area.

(4) Oil storage areas.

(5) Shop areas of the Mechanical Division and Dredging Division.

(6) Locks areas for existing locks and for those under construction.

(7) Dock areas at Cristobal and Balboa, except on those piers and docks used for passenger embarcation and when camera is being carried by or for a bona fide passenger in actual transit to or from his ship at such dock or pier.

(8) Any military or naval reservation, post, camp, station, depot, fort, fortification, air base, air field, landing field, anti-aircraft or searchlight position, fire control or aircraft warning position, gun emplacement, battery, defense work or position, signal tower or station, military fortification, radio station, radio direction finder station, ammunition storage depot, dump, magazine, section base, submarine base, any other area exclusively assigned or used for military or naval operations, or any of the islands at the Pacific entrance to the Canal.

(b) Referring to subparagraph (1) of this paragraph, all persons on board any vessel destined for transit through the Panama Canal shall, prior to the beginning of such transit, or, if embarking in the Canal Zone, immediately upon embarcation, deliver to the master of the vessel any and all cameras in the possession of such persons; such cameras to be, as required by Executive Order No. 8332, March 25, 1940, 5 F.R. 1185, retained by the master in his possession, in a secure and inaccessible place, until the disembarcation of the original possessors thereof or until the transit is completed, and this item shall not apply to possession and keeping of cameras by masters of vessels as herein provided.

(c) Referring to subparagraph (2) of this paragraph, all persons on board any aircraft destined for navigation into, within, or through the airspace above the Canal Zone shall, before the aircraft takes off from the last point of landing prior to entry into the airspace above the Canal Zone, deliver to the commander or person in responsible charge of the aircraft any and all cameras in the possession of such persons; such cameras to be, as required by Executive Order No. 8251, September 12, 1939, 35 CFR 5.18a to 5.18i, sealed prior to taking off from the last point of landing prior to entry into the airspace above the Canal Zone and to remain under seal while within the said airspace, and this item shall not apply to possession and keeping of such cameras by the commander or person in responsible charge of such aircraft.*

§ 28.4 *Exception as to certain areas and personnel.* None of the provisions of these regulations shall be construed to prohibit:

(a) The possession of cameras in any area by army, navy, or civilian personnel on duty at or employed in such area and habitually residing therein, or by the bona fide guests of any of the foregoing; or

(b) The commanding officer or person in charge of areas where the possession of cameras is generally prohibited, or their representatives, from temporarily receiving for deposit and safeguarding cameras of any person living on or visiting such areas; or

(c) The taking of photographs of or within military or naval reservations, or other areas exclusively assigned or used for military or naval operations by persons lawfully in possession of cameras within such areas under the provisions of these regulations: *Provided*, That such photographs do not include any military or naval equipment or installations, or any structures, supplies, troops, camouflage, or other thing of military value or any extensive area within such areas: *And provided further*, That the product obtained shall be submitted promptly to the Governor or to the Commanding Officer of the military or naval reservation or other area upon which it was taken or where the taker resides if he is in the military or naval service or employed by either service, for such action as may be deemed necessary.*

§ 28.5 *Exception as to activities in course of official duties.* None of the provisions of these regulations shall apply to activities of the kind covered by these regulations which are conducted or performed by persons in the service or employ of the United States in the course of their official duties or which may be specifically authorized by or under the direction of the Commanding General, Panama Canal Department, or other competent military or naval authority to be conducted or performed.*

§ 28.6 *Punishment for violations.* Any person who shall violate any of the regulations established hereby shall be punishable, as provided in section 15 of title 2, Canal Zone Code, as added as aforesaid, by a fine of not more than $1,000, or by imprisonment in jail for not more than one year, or by both.*

J. C. MEHAFFEY,
Acting Governor.

Notices

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. B-227]

IN THE MATTER OF ALBERT M. BOEHMAN AND JOSEPH J. BOEHMAN, INDIVIDUALLY AND AS CO-PARTNERS, DOING BUSINESS UNDER THE NAME AND STYLE OF BOEHMAN BROTHERS, CODE MEMBER DEFENDANTS

NOTICE OF AND ORDER FOR HEARING

A complaint dated March 2, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, having been duly filed on March 4, 1942, by Bituminous Coal Producers Board for District No. 11, a district board, complainant, with the Bituminous Coal Division alleging wilful violation by the defendant of the Bituminous Coal Code or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on April 22, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Superior Court Room, Knox Circuit Court, Vincennes, Indiana.

It is further ordered, That Joseph D. Dermody or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said defendants and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Bituminous Coal Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the defendants; and that any defendant failing to file an answer within such period, unless otherwise ordered, shall be deemed to have admitted the allegations of the complaint herein and to have consented to the entry of an appropriate order on the basis of the facts alleged.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging wilful violation by the above named defendant of the Bituminous Coal Code or rules and regulations thereunder as follows:

That the said defendants, whose addresses are Ferdinand, Indiana, and whose code membership became effective as of September 16, 1939, wilfully violated

(a) Section 4 II (e) of the Act and Part II (e) of the Code

1. By selling to Cecil Elliot, French Lick, Indiana, during the period October 1, 1940 to August 18, 1941, both dates inclusive, approximately 500 tons of 1¼" lump coal (Size Group No. 6) produced at their Boehman No. 2 Mine, Mine Index No. 592, located in Spencer County, Indiana, in District No. 11, at a price of $2.00 per ton f. o. b. the mine, and approximately 50 tons of 1¼" x 0 screenings (Size Group No. 14) produced at said mine, at prices ranging from 45 cents to 50 cents per ton f. o. b. the mine, whereas the effective minimum prices for such coal was $2.20 per net ton f. o. b. the mine for the 1¼" lump coal (Size Group No. 6) and $1.40 per net ton f. o. b. the mine for the 1¼" screenings (Size Group No. 14), as set forth in the Schedule of Effective Minimum Prices for District No. 11, for Truck Shipments.

2. By selling to Edward Brockman, 158 Mill Street, Jasper, Indiana, during the period October 1, 1940 to August 31, 1941, both dates inclusive, approximately 1400 tons of 1¼" lump coal (Size Group No. 6) produced at said mine at prices ranging from $1.75 to $2.00 per ton f. o. b. the mine, whereas, the effective minimum price was $2.20 per net ton f. o. b. the mine, as set forth in the Schedule of Effective Minimum Prices for District No. 11 for Truck Shipments.

(b) Sections 4 II (e) and 4 II (i) 6 of the Act, Part II (e) and II (i) 6 of the Code, and Rule 6 of Section XIII of the Marketing Rules and Regulations, by gratuitously giving to Cecil Elliot, French Lick, Indiana, approximately 20 tons of 1¼" x 0 screenings (Size Group No. 14), whereas such transaction constituted an allowance not extended to all purchasers under like terms, conditions or circumstances.

(c) Orders No. 296 dated September 23, 1940, No. 307 dated December 11, 1940 and No. 312 dated February 24, 1941, of the Division, during the period October 1, 1940 to August 18, 1941, both dates inclusive, by failing to file and maintain tickets, sales slips, invoices, memoranda and records and data.

(d) Order No. 310 dated December 16, 1940, of the Division, by failing to file reports covering production and mine operations of their said Boehman No. 2 Mine, Mine Index No. 592, for the calendar year 1940.

Notice is also hereby given that if it shall be determined that the code member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the code member in the Code or directing the code member to cease and desist from violating the Code and regulations made thereunder.

Dated: March 13, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2312; Filed, March 17, 1942; 10:46 a. m.]

[Docket No. A-1298 Part II]

PETITION OF DISTRICT BOARD NO. 9 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF MINE INDEX NO. 266 AND FOR A CHANGE IN SHIPPING POINT FOR THE COALS OF MINE INDEX NO. 984, IN DISTRICT NO. 9, FOR ALL SHIPMENTS EXCEPT TRUCK, PURSUANT TO SECTION 4 II (d) OF THE BITUMINOUS COAL ACT OF 1937

ORDER POSTPONING HEARING

The original petitioner having moved that the hearing in the above-entitled matter, heretofore scheduled for March 18, 1942, be postponed, and having shown good cause why said motion should be granted;

Now, therefore, it is ordered, That the hearing in the above-entitled matter be and it hereby is postponed from March 18, 1942, until 10 o'clock in the forenoon of March 31, 1942, at the place and before the officers heretofore designated.

Dated: March 16, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2313; Filed, March 17, 1942; 10:46 a. m.]

[General Docket No. 12]

IN THE MATTER OF PRESCRIBING DUE AND REASONABLE MAXIMUM DISCOUNTS OF PRICE ALLOWANCES BY CODE MEMBERS TO "DISTRIBUTORS" UNDER SECTION 4, PART II (h) OF THE BITUMINOUS COAL ACT OF 1937, AND ESTABLISHING RULES AND REGULATIONS FOR THE MAINTENANCE AND OBSERVANCE BY DISTRIBUTORS IN THE RESALE OF COAL, OF THE PRICES AND MARKETING RULES AND REGULATIONS PROVIDED BY SECTION 4 OF THE ACT; AND IN RE PETITION OF BITUMINOUS COAL PRODUCERS BOARD FOR DISTRICT NO. 10, FOR ORDER MODIFYING SCHEDULE OF MAXIMUM DISCOUNTS THAT MAY BE ALLOWED TO REGISTERED DISTRIBUTORS ON COAL OF DISTRICT NO. 10 MINES RESOLD TO THE WABASH RAILWAY COMPANY

ORDER APPROVING AND ADOPTING PROPOSED FINDINGS OF FACT AND PROPOSED CONCLUSIONS OF LAW OF THE EXAMINER AND DENYING RELIEF

A petition, pursuant to the reservation by the Division of jurisdiction in the Order dated June 19, 1940, in General Docket No. 12, to entertain proceedings to modify and of the determinations made therein, having been filed with the Bituminous Coal Division by District Board 10, requesting that General Docket No. 12 be reopened, and requesting that the rules and regulations prescribing the maximum discount per net ton that may be made to registered distributors from established minimum prices on coal which they purchase for resale and resell in not less than cargo or railroad carload lots to the Wabash Railway Company be modified and that such maximum discount be established at 5 cents per net ton for all sizes, whether shipped from on-line or off-line mines; or in the alternative, that such maximum discount be made uniform without regard to whether the coal is shipped from on-line or off-line mines;

Pursuant to Orders of the Director, and after notice to all interested persons, a hearing having been held in this matter on August 26, 1941, before W. A. Shipman, a duly designated Examiner of the Bituminous Coal Division, at a hearing room of the Division in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard;

The Examiner, W. A. Shipman, having made and filed his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation in this matter, dated January 27, 1942, recommending that the relief prayed for by District Board 10 in this matter be denied;

An opportunity having been afforded to all parties to file exceptions thereto and supporting briefs, and no such exceptions and supporting briefs having been filed;

The undersigned having determined that the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

Now, therefore, it is ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner be, and they hereby are, approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

It is further ordered, That relief prayed for by District Board 10 in this proceeding be, and the same hereby is, denied.

Dated: March 14, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[Docket No. A-1269]

PETITION OF DISTRICT BOARD NO. 4 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 4

[Docket No. A-1269 Part II]

PETITION OF DISTRICT BOARD NO. 4 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CHILCOTE'S MINE, MINE INDEX NO. 960, OF CHILCOTE COAL CO., LEE MINE, MINE INDEX NO. 2757, OF C. M. FARNSWORTH, RADFORD COAL CO. MINE, MINE INDEX NO. 1307, OF RADFORD BROTHERS, D. A. THOMAS MINE, MINE INDEX NO. 1317, OF D. A. THOMAS, FAIRVIEW MINE, MINE INDEX NO. 1902, OF J. E. WITCHEY (FAIRVIEW COAL CO.), CENTERTOWN COAL CO. MINE, MINE INDEX NO. 1932, OF CENTERTOWN COAL CO., TRACY MINE, MINE INDEX NO. 1318, OF JAMES E. TRACY, VITKO BROS. MINE, MINE INDEX NO. 2998, OF THE T. C. HUTSON COAL COMPANY AND BELLAIRE NO. 2 MINE, MINE INDEX NO. 177, OF THE BELLAIRE COAL CO., KEYSTONE NO. 1 MINE OF LAWRENCE WILLIAMS (KEY-

STONE COAL CO.), AND DARWIN COAL CO. MINE OF PAUL STRAWSER, (DARWIN COAL CO.) IN DISTRICT NO. 4

MEMORANDUM OPINION AND ORDER SEVERING DOCKET NO. A–1269 PART II FROM DOCKET NO. A–1269, ORDER GRANTING IN PART TEMPORARY RELIEF IN DOCKET NO. A–1269 PART II, AND NOTICE OF AND ORDER FOR HEARING IN DOCKET NO. A–1269 PART II

The original petition in the above-entitled matter, which was filed with this Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requested the issuance of orders establishing temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 4.

As was found in an Order issued today in Docket No. A–1269, a reasonable showing of necessity has been made for the granting of the relief prayed for by the petitioner, except as to the coals of Chilcote's Mine, Mine Index No. 960, of Chilcote Coal Co., Lee Mine, Mine Index No. 2757, of C. M. Farnsworth, Radford Coal Co. Mine, Mine Index No. 1307, of Radford Brothers, D. A. Thomas Mine, Mine Index No. 1317, of D. A. Thomas, Fairview Mine, Mine Index No. 1902, of J. E. Witchey (Fairview Coal Co.), Centertown Coal Co. Mine, Mine Index No. 1932, of Centertown Coal Co., Tracy Mine, Mine Index No. 1318, of James E. Tracy, Vitko Bros. Mine, Mine Index No. 2998, of T. C. Hutson Coal Company, and Bellaire No. 2 Mine, Mine Index No. 177, of the Bellaire Coal Co., for all shipments except truck, and Keystone No. 1 Mine of Lawrence Williams (Keystone Coal Co.), and Darwin Coal Co. Mine of Paul Strawser (Darwin Coal Co.) for all shipments except truck and truck shipments. With respect to the establishment of permanent price classifications and minimum prices for the above-mentioned coals, it appears that a hearing should be held.

The petition proposes that price classifications and minimum prices be made effective from two shipping points for the coals of Mine Index Nos. 960, 2757, 1307, 1317, and 1902 for all shipments except truck. While it appears that an adequate showing of necessity has been made for the granting of temporary relief, establishing temporary price classifications and minimum prices for the coals of the above-named mines for all shipments except truck from one shipping point, it appears that the original petitioner has not set forth sufficient facts to warrant making such price classifications and minimum prices effective from additional shipping points for the coals of these mines for all shipments except truck, without a hearing. The shipping points hereinafter temporarily assigned to the coals of such mines for all shipments except truck are those which appear to be the nearer to such mines and appropriate, therefore, for the granting of temporary relief.

The petition also proposes the establishment of price classifications and minimum prices for the coals of Mine Index Nos. 1932 and 1318 for rail shipments from Eastern, Ohio, on the New York Central Railroad and from White Rock (Cars Run), Ohio, on the Chesapeake and Ohio Railroad, respectively. From the records of the Division it does not appear that there are such rail shipping points in Ohio, and consequently, that no coal freight rates have been established for shipments therefrom. It does not appear that the original petitioner has set forth sufficient facts to warrant the establishment of the requested price classifications and minimum prices for the coals of the said mines for rail shipments from the above-mentioned points, without a hearing.

The petition also proposes that the price classifications and minimum prices effective for the coals of the Bellaire No. 2 Mine, Mine Index No. 177, of the Bellaire Coal Co., for rail shipments from Cadiz, Ohio, on the Pennsylvania Railroad, also be made effective for such shipments from Jewett, Ohio, on the Wheeling and Lake Erie Railroad. It appears that the original petitioner has not set forth sufficient facts to warrant the establishment of the requested prices for the coals of the said mine, without a hearing.

The petition also proposes the establishment of price classifications and minimum prices for the coals of Mine Index No. 2998 for all shipments except truck from Lowellville, Ohio, on the Baltimore & Ohio Railroad. From the records in this Division it appears that no coal freight rates have been established for shipments from Lowellville, via any railroad, that Lowellville, Ohio, is located at a very considerable distance from the said mine, and that the original petitioner has not set forth sufficient facts to warrant making the proposed price classifications and minimum prices effective from Lowellville, Ohio, on the Baltimore & Ohio Railroad, without a hearing.

Finally, the petition also proposes the establishment of price classifications and minimum prices for the coals of the Keystone No. 1 Mine of Lawrence Williams (Keystone Coal Co.) and Darwin Coal Co. Mine of Paul Strawser (Darwin Coal Co.), produced in each instance from both a deep and a strip mine. The price classifications and minimum prices proposed are, however, similar, in some instances, to those heretofore established for District No. 4 deep mine coals and, in other instances, similar to those heretofore established for District No. 4 strip mine coals, but the petition does not allege any facts in support of the proposal to establish the same price classifications and minimum prices for both the deep and strip mine coals which are produced by each code member. It appears, therefore, that no relief should be granted as to such coals without a hearing.

Now, therefore, it is ordered, That the portion of Docket No. A–1269 relating to the coals of Chilcote's Mine, Mine Index No. 960, of Chilcote Coal Co., Lee Mine, Mine Index No. 2757, of C. M. Farnsworth, Radford Coal Co. Mine, Mine Index No. 1307, of Radford Brothers, D. A. Thomas Mine, Mine Index No. 1317, of D. A. Thomas, Fairview Mine, Mine Index No. 1902, of J. E. Witchey (Fairview Coal Co.), Centertown Coal Co. Mine, Mine Index No. 1932, of Centertown Coal Co., Tracy Mine, Mine Index No. 1318, of James E. Tracy, Vitko Bros. Mine, Mine Index No. 2998 of T. C. Hutson Coal Company, Bellaire No. 2 Mine, Mine Index No. 177, of the Bellaire Coal Co., Keystone No. 1 Mine of Lawrence Williams, and Darwin Coal Co. Mine of Paul Strawser (Darwin Coal Co.) be, and it hereby is, severed from the remainder of Docket No. A–1269 and designated as Docket No. A–1269 Part II.

It is further ordered, That a hearing in Docket No. A–1269 Part II under the applicable provisions of said Act and the rules of the Division be held on April 10, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Charles O. Fowler or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit to the Division proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before April 3, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 4 for the establishment of price classifications and minimum prices for the coals of Chilcote's mine, Mine Index No. 960, of Chilcote Coal Co., Lee Mine, Mine Index No. 2757, of C. M. Farnsworth, Radford Coal Co. Mine, Mine Index No. 1307, of Radford Brothers, D. A. Thomas Mine, Mine Index No. 1317, of D. A. Thomas, Fairview Mine, Mine Index No. 1902, of J. E. Witchey (Fairview Coal Co.), Centertown Coal Co. Mine, Mine Index No. 1932, of Centertown Coal Co., Tracy Mine, Mine Index No. 1318, of James E. Tracy, Vitko Bros. Mine, Mine Index No. 2998 of T. C. Hutson Coal Company, Bellaire No. 2 Mine, Mine Index No. 177, of the Bellaire Coal Co., Keystone No. 1 Mine of Lawrence Williams, and Darwin Coal Co. Mine of Paul Strawser (Darwin Coal Co.) be, and it hereby is, severed from the remainder of Docket No. A–1269 and designated as Docket No. A–1269 Part II.

It is further ordered, That a hearing in Docket No. A–1269 Part II under the applicable provisions of said Act and the rules of the Division be held on April 10, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Charles O. Fowler or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit to the Division proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before April 3, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 4 for the establishment of price classifications and minimum prices for the coals of Chilcote's mine, Mine Index No. 960, of Chilcote Coal Co., Lee Mine, Mine Index No. 2757, of C. M. Farnsworth, Radford Coal Co. Mine, Mine Index No. 1307, of Radford Brothers, D. A. Thomas Mine, Mine Index No. 1317, of D. A. Thomas, Fairview Mine, Mine Index No. 1902, of J. E. Witchey (Fairview Coal Co.), Centertown Coal Co. Mine, Mine Index No. 1932, of Centertown Coal Co., Tracy Mine, Mine Index No. 1318, of James E. Tracy, Vitko Bros. Mine, Mine Index No. 2998, of T. C. Hutson Coal Company, and Bellaire No. 2 Mine, Mine Index No. 177, of the Bellaire Coal Co. for all shipments except truck and Keystone No. 1 Mine of Lawrence Williams (Keystone Coal Co.) and the Darwin Coal Co. Mine of Paul Strawser (Darwin Coal Co.)

It is further ordered, That pending final disposition of Docket No. A–1269 Part II, temporary relief is granted as follows: Commencing forthwith, the Schedule of Effective Minimum Prices for District No. 4, For All Shipments Except Truck, is supplemented to include the price classifications and minimum prices set forth in the schedule marked "Supplement R" annexed hereto and hereby made a part hereof.[1]

Notice is hereby given that applications to stay, terminate or modify the temporary relief granted herein may be filed pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to Section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: March 14, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[Docket No. 1742–FD]

IN THE MATTER OF HERBERT JONES, DOING BUSINESS UNDER THE TRADE NAME OF MACON COUNTY COAL COMPANY, DEFENDANT

MEMORANDUM ORDER APPROVING AND ADOPTING, WITH MODIFICATIONS, THE PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW, AND RECOMMENDATION OF THE EXAMINER, AND ORDER OF DISMISSAL

A complaint, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, was filed with the Bituminous Coal Division on June 17, 1941, by the Bituminous Coal Producers Board for District No. 15, alleging that Herbert Jones, doing business under the trade name of Macon County Coal Company, a code member in District No. 15, had wilfully violated the provisions of the Bituminous Coal Code or rules and regulations thereunder and praying that the Division either cancel and revoke the defendant's code membership or, in its discretion, direct the defendant to cease and desist from violations of the Code and rules and regulations thereunder.

A hearing in this matter was held before Charles O. Fowler, a duly designated Examiner of the Division, at a hearing room thereof, in Macon, Missouri, on October 22, 1941.

The Examiner made and entered his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation in this matter on January 20, 1942, in which it was recommended that an order be entered dismissing the complaint against the defendant.

An opportunity was afforded to all parties to file exceptions thereto and supporting briefs, but no such exceptions or supporting briefs have been filed.

The undersigned has determined after a consideration of the record that the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner, as modified herein, should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

The essential facts developed in this proceeding are as follows:

The defendant, on September 28, 1940, pursuant to a bill of sale of that date, sold to the City of Macon, Missouri, 4,000 tons of 1¼" x ¼" screenings at $1.00 per ton f. o. b. his Mine No. 68. The coal at that time was stored in a field at the mine and remained there until October 1, 1940 At various times during the period from October 1, 1940, to May 20, 1941, the City of Macon removed, in trucks hired by it, 3,987.33 tons of this coal, for which it paid the defendant at the rate of $1.00 per ton. The effective minimum price for the said coal was $1.70 per ton f. o. b. the mine, as set forth in the Schedule of Effective Minimum Prices for District No. 15, For Truck Shipments.

The Examiner found that since there was a valid sale and transfer of title to the coal on September 28, 1940, there was no violation of the Code by the defendant because minimum prices did not become effective until October 1, 1940. He also found that "No sale and delivery prior to that date can be a violation of the Act."

While I agree that there was a valid sale and transfer of title to the coal on September 28, 1940, I cannot agree that there was a delivery of the coal on that date within the meaning of the Act. Section 4 II (e) of the Bituminous Coal Act of 1937 provides, *inter alia*, as follows:

> No coal subject to the provisions of this section shall be sold or delivered or offered for sale at a price below the minimum or above the maximum therefor established by the Commission, and the sale or delivery or offer for sale of coal at a price below such minimum or above such maximum shall constitute a violation of the code: *Provided*, That the provisions of this paragraph shall not apply to a lawful and bona fide written contract entered into prior to June 16, 1933.
>
> * * * * *
>
> From and after the date of approval of this Act, until prices shall have been established pursuant to subsections (a) and (b) of part II of this section, no contract for the sale of coal shall be made providing for delivery for a period longer than thirty days from the making of the contract.

"Delivery" of coal is specifically set forth as one of three separate and distinct acts which are prohibited by the terms of section 4 II (e) of the Act as violations of the Code. The delivery contemplated by the framers of the Act was clearly an actual delivery or physical removal of the coal; at least the release of control over it by the producer. This was not present here.

The inference is strong that the transaction between the defendant and the City of Macon was entered into on September 28, 1940, for the purpose of selling the coal at a price below that which would be the effective minimum price after September 30, 1940. The device used by the defendant failed to comply with the provisions of the Act, and the delivery of the coal subsequent to establishment of effective minimum prices was a violation of section 4 II (e) of the Act. Such practices, if allowed, would defeat the purposes of the Act by allowing large quantities of coal to be sold for later delivery, without regard to prices established at the time of delivery.

However, notwithstanding my conclusion that the defendant's conduct here was in violation of section 4 II (e) of the Act, I am of the opinion that the complaint should be dismissed, because the complaint (as well as the Notice of and Order for Hearing) charged the defendant with violating the Act only in connection with the "sale" of the coal to the City of Macon, although the provisions of section 4 II (e) make either the sale or "delivery" of coal at a price below the applicable minimum price a violation of the Act. While the "delivery" of the coal was subsequent to October 1, 1940, the "sale" of the coal was prior thereto, consequently the violation charged has not been sustained.

Now, therefore, it is ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner, as modified herein, be and the same are hereby approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned:

It is further ordered, That the complaint against the defendant herein, Herbert Jones, doing business as the Macon County Coal Company, be and the same hereby is dismissed.

Dated: March 16, 1942.

DEPARTMENT OF AGRICULTURE.

Sugar Agency of the Agricultural Conservation and Adjustment Administration.

SUGAR CROP WAGE RATES AND PRICES, VIRGIN ISLANDS

NOTICE OF HEARING AND DESIGNATION OF PRESIDING OFFICERS

Pursuant to the authority contained in subsections (b) and (d) of section 301, and section 511 of the Sugar Act of 1937 (Public, No. 414, 75th Congress), as amended, notice is hereby given that a public hearing will be held at Christiansted, St. Croix, Virgin Islands, in the Municipal Council Hall, on March 26, 1942, at 9:30 a. m.

The purpose of such hearing is to receive evidence likely to be of assistance to the Secretary of Agriculture in determining (1), pursuant to the provisions of subsection (b) of section 301 of the said act, fair and reasonable wage rates to be paid in the Virgin Islands to persons employed, in connection with the harvesting of the 1942 crop and any planting or cultivating work for subsequent crops which may be performed during the calendar year 1942, on farms with respect to which applications for payment under the act are made, and (2), pursuant to the provisions of subsection (d) of section 301 of the said act, fair and reasonable prices for the 1942 crop of sugarcane to be paid, under either purchase or toll agreements, by persons who, as producers, apply for payments under the said act; and to receive evidence likely to be of assistance to the Secretary of Agriculture in making recommendations, pursuant to the provisions of section 511 of the said act, with respect to the terms and conditions of contracts between producers and processors of sugarcane.

Such hearing, after being called to order at the time and place mentioned above, may, for convenience, be adjourned to such other place in the same city as the presiding officers may designate and may be continued from day to day within the discretion of the presiding officers.

Joshua Bernhardt, J. Bernard Frisbie, Alcides Zeno, Jose Capo Caballero, and Davis D. Slappey, are hereby designated as presiding officers to conduct, either jointly or severally, the foregoing hearing.

Done at Washington, D. C., this 16th day of March 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD, *Secretary of Agriculture.*

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6225]

IN RE APPLICATION OF THE MCKEESPORT BROADCASTING CO., INC.

NOTICE OF HEARING

In re application of The McKeesport Broadcasting Company, Inc. (New), dated September 23, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, McKeesport, Pa.; operating assignment specified: Frequency, 730 kc.; power, 1 kw. day; hours of operation, daytime.

You are hereby notified that the Commission has examined the above-described application and has designated the matter for hearing for the following reasons:

1. To determine whether the proposed station would provide primary service to the metropolitan district of Pittsburgh, Pa., as contemplated by the Standards of Good Engineering Practice;

2. To determine whether the proposed construction involves the use of any critical materials;

3. To determine the areas and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and populations.

4. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (See Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

5. To determine whether the operation of the station as proposed would be consistent with the Standards of Good Engineering Practice, particularly as to the population residing within the "blanket area" (250 mv/m contour).

6. To determine whether in view of the matters shown under all of the issues, the granting of this application would serve public interest, convenience and necessity.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

The McKeesport Broadcasting Company, Inc., c/o Paul W. Norton, 507 Locust Street, McKeesport, Pennsylvania.

Dated at Washington, D. C., March 13, 1942.

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

[F. R. Doc. 42-2307; Filed, March 17, 1942; 10:11 a. m.]

[Docket No. 6220]

IN RE APPLICATION OF HERMAN RADNER, DEARBORN, MICHIGAN, FOR CONSTRUCTION PERMIT

ORDER RETAINING PRESENT HEARING DATE

It is ordered, On the Commission's own motion this 12th day of March, 1942, that the notice of issues heretofore released on the application in Docket No. 6220 be, and it is hereby, supplemented, as follows:

1. To determine whether the proposed construction involves the use of any critical materials.

2. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

It is further ordered, That the present hearing date on the above-entitled application, namely, April 6, 1942, be and it is hereby, retained.

By the Commission, Norman S. Case, Commissioner.

[Docket No. 6282]

IN THE MATTER OF INVESTIGATION OF RATES OF R. C. A. COMMUNICATIONS, INC., FOR GOVERNMENT DIRECT RADIOTELEGRAPH TRANSMISSION SERVICE

ORDER FOR INVESTIGATION

At a session of the Federal Communications Commission, held at its offices in Washington, D. C. on the 10th day of March 1942:

It appearing, that R. C. A. Communications, Inc., has filed a new Tariff, designated as F.C.C. No. 51, effective March 3, 1942, establishing rates, charges, classifications, regulations and practices for and in connection with Direct Radiotelegraph Transmisison Service available to the United States Government only; and

It further appearing, that the rates, charges, classifications, regulations and practices for and in connection with such service made available by such Tariff F. C. C. No. 51 may be unjust, unreasonable or otherwise unlawful;

It is ordered, That an investigation be, and the same is hereby, instituted into the lawfulness of rates, charges, classifications, regulations, practices and services of R. C. A. Communications, Inc. for and in connection with direct radiotelegraph transmission service, as such service is defined in its Tariff F.C.C. No. 51;

It is further ordered, That R. C. A. Communications, Inc. be, and the same is hereby, made respondent to this proceeding, and said respondent shall show cause why its rates for such direct radiotelegraph transmission service should not be reduced, and shall file its verified answer to this order on or before 15 days from the date of service of this order;

It is further ordered, That any department of the United States Government interested in direct radiotelegraph transmission service may intervene and participate in this proceeding; and that a copy of this order be served upon the Department of Justice; and

It is further ordered, That this proceeding be, and the same is hereby, assigned for hearing at 10:00 a. m., beginning on the 6th day of May 1942, at the offices of the Federal Communications Commission, in Washington, D. C.

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

[F. R. Doc. 42-2309; Filed, March 17, 1942; 10:11 a. m.]

[Docket No. 6266]

NOTICE OF HEARING

In re application of Ralph W. S. Bonnett, (New) dated October 23, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Sandusky, Ohio; operating assignment specified: Frequency, 1,450 kc.; power, 250 watts; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above-described application and has designated the matter for hearing for the following reasons:

1. To determine applicant's qualifications to construct and operate the proposed station.

2. To determine the character of the proposed program service.

3. To determine whether the proposed construction involves the use of any critical materials.

4. To determine the areas and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and populations.

5. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

6. To determine the extent of any interference which would result from the simultaneous operation of the station proposed herein and station WHLS.

7. To determine the areas and populations which may be expected to lose primary service, particularly from station WHLS, should this application be granted; and what broadcast service is available to these areas and populations.

8. To determine whether the granting of this application would tend toward a fair, efficient, and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

9. To determine whether in view of the matters shown under all of the issues the granting of this application would serve public interest, convenience, and necessity.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Ralph W. S. Bonnett, 1320 F Street NW., Washington, D. C.

Dated at Washington, D. C., March 14, 1942.

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

[F. R. Doc. 42-2310; Filed, March 17, 1942; 10:12 a. m.]

[Docket No. 6267]

NOTICE OF HEARING

In re application of Indiana Broadcasting Corporation (WIBC), dated September 23, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Indianapolis, Indiana; operating assignment specified: Frequency, 1,070 kc.; power, 5 kw.* night; 10 kw. day (DA*); hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reasons:

1. To determine the extent of any interference which Station WIBC operating as proposed may cause to the service of Station CBA, Sackville, N. B. (Appendix II, Table I, NARBA).

2. To determine the extent of any interference which would result from the simultaneous operation of Station WIBC as proposed and Station WINK during daytime hours.

3. To determine the areas and populations which may be expected to lose primary service during daytime hours, particularly from Station WINK, should Station WIBC operate as proposed, and what other broadcast service is available to those areas and populations.

4. To determine whether the proposed construction involves the use of any critical materials.

5. To determine what new areas and populations would receive primary service as a result of the proposed change in facilities and what broadcast service is already available to such areas and populations.

6. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

7. To determine whether the granting of this application would tend toward a fair, efficient, and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

8. To determine whether in view of the facts adduced under all of the issues the granting of the application would serve public interest, convenience and necessity.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Indiana Broadcasting Corporation, Radio Station WIBC, 350 N. Meridian Street, Indianapolis, Indiana.

Dated at Washington, D. C., March 14, 1942.

By the Commission.

FEDERAL POWER COMMISSION.

[Docket Nos. G-200, G-207]

CITY OF DETROIT, MICHIGAN, AND COUNTY OF WAYNE, MICHIGAN, V. PANHANDLE EASTERN PIPE LINE COMPANY AND MICHIGAN GAS TRANSMISSION CORPORATION; AND IN THE MATTER OF PANHANDLE EASTERN PIPE LINE COMPANY AND MICHIGAN GAS TRANSMISSION CORPORATION

ORDER DENYING PETITION FOR A 120-DAY POSTPONEMENT AND FIXING DATE OF HEARING

MARCH 16, 1942.

Upon petition filed February 28, 1942, by Panhandle Eastern Pipe Line Company and Michigan Gas Transmission Corporation, Defendants, for a continuance of the hearing in this proceeding for a period of not less than 120 days; and

It appearing that:

(a) The City of Detroit, Michigan, and County of Wayne, Michigan, Complainants, and Michigan Consolidated Gas Company, Intervener, have objected to the said petition for continuance;

(b) Subsequent to the filing of the said petition for continuance, the hearing was recessed by the Commission's Examiner to reconvene on March 18, 1942;

(c) No good cause exists for a 120-day postponement of the hearing;

The Commission *orders* that:

(A) The said petition for a continuance of 120 days be and it is hereby denied;

(B) The hearing in this proceeding, heretofore set for March 18, 1942, be postponed to March 30, 1942, at 9:45 a. m., in the Commission's hearing room, 1357 K Street NW., Washington, D. C.

By the Commission.

EXECUTIVE ORDER

WITHDRAWING PUBLIC LANDS IN AID OF LEGISLATION

CALIFORNIA

By virtue of the authority vested in me by the act of June 25, 1910, c. 421, 36 Stat. 847, as amended by the act of August 24, 1912, c. 369, 37 Stat. 497 (U.S.C., title 43, secs. 141–143), it is ordered that, subject to valid existing rights, the following-described public lands be, and they are hereby, temporarily withdrawn from settlement, location, sale, or entry, in aid of legislation:

SAN BERNARDINO MERIDIAN

T. 6 S., R. 22 E., sec. 31, NE¼, that part of the NE¼SE¼ lying north of the north line of State Highway Route No. 64;
containing approximately 163.64 acres.

This order supersedes as to the above-described land the withdrawal made by Executive Order No. 6910 of November 26, 1934, as amended.

CHAPTER I—CIVIL AERONAUTICS BOARD

[Amendments 40–10, Civil Air Regs.]

PART 40—AIR CARRIER OPERATING CERTIFICATION

REQUIREMENT FOR FULL FEATHERING PROPELLERS POSTPONED IN CERTAIN CASES

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 13th day of March 1942.

Acting pursuant to the authority vested in it by the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a), 601 and 604 (a) of said Act, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under, said Act, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective March 13, 1942, Part 40 of the Civil Air Regulations is amended as follows:

1. By striking the words "July 1, 1942," as they appear in § 40.2320 and inserting in lieu thereof the words "January 1, 1943,".

2. By striking the words "July 1, 1942," as they appear in § 40.2330 and inserting in lieu thereof the words "January 1, 1943,".

3. By striking the words "July 1, 1942," as they appear in § 40.2500 and inserting in lieu thereof the words "January 1, 1943,".

4. By striking the words "July 1, 1942," they appear in § 40.3320 and inserting in lieu thereof the words "January 1, 1943,".

By the Civil Aeronautics Board.

[SEAL] DARWIN CHARLES BROWN,
Secretary.

TITLE 30—MINERAL RESOURCES

CHAPTER III—BITUMINOUS COAL DIVISION

[Docket No. A–1226]

PART 321—MINIMUM PRICE SCHEDULE, DISTRICT NO. 1

ORDER AMENDING ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 1

An Order Granting Temporary Relief and Conditionally Providing for Final Relief was issued in the above-entitled matter on January 13, 1942, 7 F.R. 537, establishing price classifications and minimum prices for the coals of certain mines in District No. 1, including the establishment of price classifications and minimum prices for the coals of the Leland No. 1 Mine (Mine Index No. 272) of John D. Walker, a code member in District No. 1, for all shipments except truck and for truck shipments.

The original petitioner in the above-entitled matter filed an amendment to its petition alleging that the price classifications and minimum prices which it originally proposed for the Leland No. 1 Mine, Mine Index No. 272, were in error, and requesting that the Classification for the coals of this mine in Size Group 5 for all shipments except truck be changed from "B" to "C" and that the minimum price for such coals in Size Group 5 for truck shipments be changed from $2.20 to $2.15 per ton.

It appears that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth, that no pleadings in opposition to the said amendment to the original petition have been filed with the Division in the above-entitled matter, and that the following action is necessary in order to effectuate the purposes of the Act.

Now, therefore, it is ordered, That Supplements R and T in the said Order Granting Temporary Relief and Conditionally Providing for Final Relief dated January 13, 1942, in the above-entitled matter be, and they hereby are, amended, by revoking the price classification and minimum price established therein for the coals of the Leland No. 1 Mine (Mine Index No. 272) in Size Group 5 for all shipments except truck and for truck shipments;

It is further ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 321.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 321.24 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

It is further ordered, That in all other respects the said order of January 13, 1942, be, and it hereby is, continued in full force and effect until otherwise ordered.

Dated: March 4, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[Docket No. A–1036]

PART 323—MINIMUM PRICE SCHEDULE, DISTRICT NO. 3

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 3 FOR PERMISSION TO USE ADDITIONAL LOADING POINTS FOR RAIL SHIPMENTS FROM CERTAIN MINES IN DISTRICT NO. 3

This proceeding was instituted upon a petition filed with the Bituminous Coal Division by District Board No. 3, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

The original petition dated August 29, 1941, sought additional loading points for a number of mines in District No. 3. By a Motion to Delete filed on October 3, 1941, the District Board withdrew its request for additional loading points for all the mines except the Coombs Mine, Mine Index No. 614, of Guy A. Hall (Hall Coal Company).

District Boards 2 and 6 intervened but did not appear at the hearing.

Pursuant to appropriate orders, a hearing was held in this matter on October 21, 1941, before William H. Shipman, a duly designated Examiner of the Division at a hearing room thereof in Washington, D. C. All interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. District Board 3 and Guy A. Hall (Hall Coal Company) appeared through A. J. Kidwell, his sales agent. At the hearing District Board 3 made a motion to dismiss the petition. However, a representative on behalf of Guy A. Hall (Hall Coal Com-

pany) was present and objected, stating that he, on behalf of Hall Coal Company, desired to be heard. District Board 3 stated that it had no objection so long as it was understood that the case was not being presented by the District Board, and thereupon withdrew its objection and withdrew its Motion to Dismiss.

At the conclusion of the hearing all parties waived the preparation and filing of a report by the Examiner and the record in the proceeding was thereupon submitted to the undersigned who has considered the record herein.

Guy A. Hall (Hall Coal Company), a code member, operates the Coombs Mine, Mine Index No. 614. The mine has loading facilities on the Monongahela Railroad at Morgantown, West Virginia, about four and one-half miles distant from the mine.[1] It seeks a loading point on the Baltimore & Ohio Railroad, which is across the Monongahela River from the mine. Guy A. Hall (Hall Coal Company) introduced the testimony of but one witness, A. J. Kidwell, Secretary of the Blain Coal Company, sales agent for Guy A. Hall (Hall Coal Company), who testified in support of the requested relief.

In support of the relief, it was testified that the requested loading point on the Baltimore & Ohio is no farther from the Coombs Mine than is its present loading point on the Monongahela Railroad from the mine. No claim was made that the additional loading point was necessary in order to insure continued operation of the Coombs Mine. It was frankly admitted that the additional loading point was sought in order to open up new markets for Guy A. Hall (Hall Coal Company). The witness was unable to state what consumers he believed could be reached if coal were loaded for shipment on the Baltimore & Ohio except to indicate that certain consumers could be reached which are not reached by the Monongahela, and that in the event some commercial traffic was shipped over the Baltimore & Ohio, the mine would be in a position to get railroad fuel business from the Baltimore & Ohio. Under these circumstances, the undersigned is of the opinion that it is proper to assign to the Coombs Mine of Guy A. Hall (Hall Coal Company) an additional loading point which will be on the Baltimore & Ohio Railroad at Morgantown, West Virginia. (Shipments from this loading point will be governed by the applicable rates assigned to Freight Origin Group No. 53.)

Now, therefore, it is ordered, That effective fifteen (15) days from the date hereof § 323.6 (*Alphabetical list of code members*) in the Schedule of Effective Minimum Prices for District No. 3 For All Shipments Except Truck be, and it hereby is, amended in accordance with Supplement R attached hereto and made a part hereof.

Dated: March 7, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[1] Some of the coal produced at the Coombs Mine is sold for shipment by truck.

DISTRICT NO. 3

NOTE: The material contained in this supplement is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 323, Minimum Price Schedule for District No. 3 and supplements thereto.

§ 323.6 *Alphabetical list of code members*—Supplement R

PART 323—MINIMUM PRICE SCHEDULE, DISTRICT NO. 3

ORDER OF CONSOLIDATION AND ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF BITUMINOUS COAL PRODUCERS BOARD FOR DISTRICT NO. 3 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 3, AND IN THE MATTER OF THE PETITION OF BITUMINOUS COAL PRODUCERS BOARD FOR DISTRICT NO. 3 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 3

Original petitions having been duly filed with this Division by the above-named party, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 3; and

It appearing that the above-entitled matters raise similar and related issues; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with this Division in the above-entitled matters; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That the above-entitled matters be, and the same hereby are, consolidated.

It is further ordered, That, pending final disposition of the above-entitled matters, temporary relief be, and the same hereby is, granted as follows: Commencing forthwith, § 323.6 (*Alphabetical list of code members*) is amended by adding thereto Supplement R-I, § 323.8 (*Special prices*—(b) *Railroad fuel prices for all movements except via lakes*) is amended by adding thereto Supplement R-II, § 323.8 (*Special prices*—(c) *Railroad fuel prices for movement via all lakes—all ports*) is amended by adding thereto Supplement R-III, and § 323.23 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petitions in the above-entitled matters, and applications to stay, terminate, or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless otherwise ordered.

Dated: March 7, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

TEMPORARY AND CONDITIONALLY FINAL EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 3

NOTE: The material contained in these supplements is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 323, Minimum Price Schedule for District No. 3 and supplements thereto.

[Docket No. A–1199]

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 8 FOR A REVISION OF THE MINIMUM PRICES OF THE COALS OF CERTAIN MINES IN BREATHITT COUNTY, KENTUCKY, SUBDISTRICT NO. 3 IN DISTRICT NO 8, FOR TRUCK SHIPMENTS

This proceeding was instituted upon a petition filed with Bituminous Coal Division by District Board No. 8, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The Board in its original and amended petition proposed certain decreases in the effective minimum prices heretofore established for the mines of certain code member producers in the Breathitt County, Kentucky, Hazard Subdistrict of District No. 8. In accordance with an Order of the Acting Director dated December 19, 1941, and after notice to all interested parties, a hearing was held before Joseph A. Huston, a duly designated examiner of the Division, at a hearing room of the Division at Washington, D. C. All interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard.

Petitioner, District Board 8, and the Bituminous Coal Consumers Counsel appeared. The preparation and filing of a report by the Examiner was waived and the record was thereupon submitted to the undersigned.

The petition of District Board 8 herein requested a revision of the price classifications and effective minimum prices for truck shipments for the coals produced at seven mines located in Breathitt County, Kentucky, Hazard Subdistrict.

The testimony of the representative of the District Board 8 shows that minimum prices were originally established for the coals in question. However, it appears that the classifications and minimum prices heretofore established do not properly reflect the relative value of the coals and are not in proper coordination with other coals produced in District No. 8. It appears that the minimum prices of coals of these mines do not correspond with the prices established for other mines located in the same county and seam. The effect of the changes proposed would be to establish for the mines listed the proper prices applicable to the coals from the seam and subdistrict in which such mines are actually producing.

The change will result in decreasing the price for coals in Size Groups 1, 2, 3, 6, 7, and 8 by 10 cents per ton. In Size Group 4 the decrease will be 20 cents per ton and in Size Group 5, 15 cents per ton. Such proposed prices will result in the establishment of a uniform level of prices for analogous and comparable coals produced for truck shipments from other mines in this county.

Upon the basis of the uncontroverted evidence, I find that the classifications and minimum prices as well as the seam designations shown in the schedule hereto attached for the coals specified therein are proper and should be established; that such classifications and minimum prices conform in all respects to those heretofore established for comparable coals in District No. 8 and will preserve the fair competitive opportunities for the producers of said coal.

Now, therefore, it is ordered, That commencing fifteen (15) days from the date hereof, § 328.34 (*General prices for high volatile coals in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

Dated: March 7, 1942.

[SEAL] DAN H. WHEELER, *Acting Director.*

[Docket No. A–1086]

PART 321—MINIMUM PRICE SCHEDULE, DISTRICT NO. 1

ORDER IN PART GRANTING AND IN PART DENYING RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE MIXING OF THE COALS OF MINE INDEX NOS. 14 AND 15 AND FOR THE REVISION OF THE PRICE CLASSIFICATIONS AND MINIMUM PRICES ESTABLISHED FOR THE COALS OF MINE INDEX NOS. 90, 194, 1122, AND 3106 IN DISTRICT NO. 1

A petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been filed with the Bituminous Coal Division by District Board 1, requesting the following relief:

1. The establishment of price classifications and minimum prices for a mixture of the coals in Size Group 5 of the Apple No. 1 Mine (Mine Index No. 14) and the Apple No. 2 Mine (Mine Index No. 15) of the Apple Coal Company (Howard Apple);

2. The change of the seam designation and the revision of the price classifications and minimum prices established for the coals, in Size Groups 3, 4, and 5, of the Bonner Mine (Mine Index No. 1122) of H. C. Bonner;

3. The change of the subdistrict number listed for the coals of the Duckworth Mine (Mine Index No. 3106) of R. S. Duckworth; and

4. The revision of the price classifications and minimum prices established for the coals, in Size Groups 4 and 5, of the Hamler Mine (Mine Index No. 194) of the Hamler Coal Mining Company and the Cherry Run Mine (Mine Index No. 90) of the Superior Cherry Run Coal Corporation;

A petition of intervention having been filed by District Board 2;

A hearing in this matter having been held on November 18, 1941, before W. A. Shipman, a duly designated Examiner of the Division at a hearing room thereof in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

The preparation and filing of a report by the Examiner having been waived and the record in the proceeding having thereupon been submitted to the undersigned;

The undersigned having made Findings of Fact and Conclusions of Law and having rendered an Opinion in this matter, which are filed herewith;

Now, therefore, it is ordered, That § 321.7 (*Alphabetical list of code members*) in the Schedule of Effective Minimum Prices for District No. 1 for All Shipments Except Truck and § 321.24 (*General prices*) in the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments be, and they hereby are, amended, effective fifteen (15) days from the date hereof, as follows:

1. By appending the note set forth in Supplement R annexed hereto and made a part hereof, establishing the price classifications to be applied to a mixture of the coals produced at the Apple Nos. 1 and 2 Mines (Mine Index Nos. 14 and 15, respectively) of the Apple Coal Company (Howard Apple).

2. By establishing, in lieu of the present seam designation and present effective price classifications and minimum prices in Size Groups 3, 4, and 5, inclusive, for the coals produced at the Bonner Mine (Mine Index No. 1122), of H. C. Bonner, in Subdistrict 6, the seam designation and the price classifications and minimum prices in Size Groups 3, 4, and 5, set forth in Supplements R and T annexed hereto and made a part hereof

3. By establishing, in lieu of the present subdistrict designation for the coals produced at the Duckworth Mine (Mine Index No. 3106) of R. S. Duckworth, the subdistrict designation set forth in Supplement T, annexed hereto and made a part hereof.

It is further ordered, That in all other respects the prayers for relief contained in the petition filed herein be, and they hereby are, denied.

Dated: March 7, 1942.

[SEAL] DAN H. WHEELER, *Acting Director.*

[Docket No. A–1309]

PART 335—MINIMUM PRICE SCHEDULE, DISTRICT NO. 15

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 15 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 15

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 15; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention with respect to the matters involved in such relief having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 335.5 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 335.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

The original petition contains a footnote indicating that the coals of Mine Index No. 1197, operated by code member L. G. McDonald, were classified and priced in Docket No. A–368, but that the mine was erroneously identified as being located in Dade County, Missouri, although actually located in Cedar County, Missouri. However, the records of the Division disclose that Mine Index No. 1197 has been closed down and that the mine in Cedar County, Missouri now operated by code member McDonald is a new mine, that it should be assigned a mine index number and that the same price classifications and minimum prices should be established for its coals as were established in Docket No. A–368 for the coals of Mine Index No. 1197. Accordingly, "Supplement T" hereto sets forth those price classifications and minimum prices opposite the mine designated as the McDonald #2 Mine, Mine Index No. 1427.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

No relief is granted herein concerning the coals of Mine Index No. [illegible] of M. K. Phears, Mine Index No. 164 of the R. & R. Coal Co., Mine Index No. 1587 of Pearson & Son and Mine Index No. 1579 of James Trent for the reasons set forth in the memorandum opinion and order severing that portion of Docket No. A–1309 relating to such coals from the remainder of the docket, designating such portion Docket No. A–1309 Part II, granting temporary relief therein and scheduling Docket No. A–1309 Part II for hearing.

Dated: March 9, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

TITLE 32—NATIONAL DEFENSE

CHAPTER IX—WAR PRODUCTION BOARD

SUBCHAPTER B—DIVISION OF INDUSTRY OPERATIONS

PART 1015—CELLOPHANE AND SIMILAR TRANSPARENT MATERIALS DERIVED FROM CELLULOSE

Amendment No. 3 to Limitation Order L–20 [1]

Section 1015.1 (*Limitation Order L–20*) is hereby amended in the following particulars:

Subparagraph (b) (3) is hereby amended to read as follows:

(3) Textiles, including but not limited to hosiery, men's shirts and haberdashery, men's, women's and children's underwear, infants' wear, garters, suspenders, girdles, elastic goods, shoe laces, dolls' clothes, lingerie, sweaters, household goods (such as sheets, pillow cases, towels, dish and wash cloths, table linen, doilies, curtains), bedspreads, blankets, narrow fabrics, bolt and piece goods, notions, threads, yarn, polishing and dust cloths, lace, sanitary belts, ribbons and hair bows, cotton batting, string, and twine; but not including bandages, sanitary swabs, and typewriter ribbons.

Subparagraph (b) (6) is hereby amended to read as follows:

(6) Paper and paper products, including but not limited to books and periodicals, labels, tags, index cards, advertising and display material, carbon paper, facial tissues, stationery, greeting cards, playing cards, matchbook covers, school supplies, fly paper, mats, punch boards, fibre waste baskets, jig-saw puzzles, lunch accessories (such as napkins, table cloths, plates and cups) and specialty papers; but not including scotch tape.

A new subparagraph (b) (25) is hereby added to read as follows:

(25) Drug products, chemicals and antiseptics, except where used as a protection for the product itself.

Paragraph (g) is hereby amended to read as follows:

(g) *Exemption of waste material.* Nothing in this Order contained shall prohibit the sale or delivery of off-grade or waste Cellophane or Similar Transparent Materials Derived From Cellulose (known as roll end trim and rejected or defective rolls and sheets): *Provided, however*, That Producers and Suppliers of Cellophane or Similar Transparent Materials Derived From Cellulose shall report by the 10th day of each month the quantities of such material sold or delivered.

Paragraph (j) is hereby amended to read as follows:

(j) *Effective date.* This Order shall take effect immediately and shall continue in effect until revoked. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6880; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

This Order shall take effect immediately. Issued this 17th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[1] 6 F.R. 5730; 7 F.R. 222, 1023.

[F. R. Doc. 42-2343; Filed, March 17, 1942; 5:28 p. m.]

PART 1062—METALLIC LICENSE PLATES

General Limitation Order L–32

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of metal for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1062.1 *General Limitation Order L–32*—(a) *Definitions.* For the purposes of this Order:

(1) "Governmental unit" means any State, Territory or possession of the United States, the District of Columbia, and any political, administrative or governmental division, subdivison, corporation or agency of any of the foregoing or of the United States, including—by way of example and not of limitation—counties, townships, cities, towns, villages and special governmental districts of every kind.

(2) "Metallic license plate" means any type of plate, tag, emblem, insignia or marker which is or may be used by a governmental unit to evidence licensing or registration of any kind and for any purpose, into the physical composition of which metal, whether ferrous or nonferrous, is incorporated to the extent of five percent (5%) or more, by weight, of the finished item.

(3) "Licensing year" means any twelve month period which has been established as the unit of time during which there shall be in effect the licensing or registration evidenced by a metallic license plate.

(b) *General restrictions.* Notwithstanding the provisions of any contract or of any federal, state or local statute or regulation, no governmental unit shall issue or use at any time metallic license plates greater in quantity than is specially authorized herein or from time to time hereafter by the Director of Industry Operations.

(c) *Permitted uses.* (1) A governmental unit may issue or use metallic license plates to the extent that, as of the date of the issuance of this Order, the cutting and stamping of the metal for the manufacture of such plates has been completed.

(2) In addition, a governmental unit may, during each licensing year which begins after December 31, 1941, issue or use metallic license plates licensing or registering any thing or activity, in total quantities not exceeding ten percent (10%), by weight, of the metallic license plates which it issued or used

during the corresponding licensing year ending after June 30, 1941, and before July 1, 1942, to license or register that same type of thing or activity: *Provided*, That metallic license plates may be thus issued or used for the following purposes and under the following conditions only:

(i) As replacement plates, that is, for the purpose of replacing metallic license plates which have been issued and which have thereafter been lost or destroyed.

(ii) To new licensees or registrants, that is, to persons who have not used or had issued to them during the licensing year immediately preceding that for which application is made, a metallic license plate licensing or registering the same thing or activity for which application for licensing or registration is made.

(iii) In the case of the licensing or registering of any type of vehicle or instrumentality of transportation, in the form of "date tabs", in sizes not exceeding four square inches in area, to be attached to metallic license plates already issued so as to change the effective dates of those plates.

(d) *Records.* All persons or agencies affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production, sales, issuance and use of metallic license plates. Similarly, records shall be kept concerning inventories, use and disposition of all sheet metal on hand, as of the date of the issuance of this Order, for the production of metallic license plates.

(e) *Audit and inspection.* All records required to be kept by this Order shall upon request be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* All persons and agencies affected by this Order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(g) *Violations or false statements.* Any person who violates this Order or who wilfully falsifies any records which he is required to keep by the terms of this Order, or otherwise wilfully furnishes false information to the War Production Board, may be deprived of priorities assistance or may be prohibited by the War Production Board from obtaining any further deliveries of materials subject to allocation. The War Production Board may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Appeals.* Where compliance with this Order will work an exceptional and unreasonable hardship upon any Governmental Unit, the duly authorized officials of that Governmental Unit may appeal to the War Production Board, Washington, D. C., setting forth the pertinent facts and the reasons why relief is sought. The War Production Board may thereupon take such action as it deems appropriate.

(i) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(j) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this Order shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C., Ref.: [illegible]-32.

(k) *Effective date.* This Order shall take effect upon the date of the issuance thereof and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 16, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 18th day of March, 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2360; Filed, March 18, 1942; 11:14 a. m.]

PART 1133—MOLYBDENUM

General Preference Order No. M-110

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Molybdenum for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1133.1 *General Preference Order M-110*—(a) *Definition.* (1) "Molybdenum" means and includes:

(i) Ores and concentrates containing Molybdenum (commercially recognized), and Molybdenum compounds for further purification or refining;

(ii) The element Molybdenum in pure form, ferromolybdenum, and all chemical or other combinations of the element Molybdenum with other materials in manufactured or semi-manufactured form, prepared either for further processing or for other purposes;

(iii) All scrap or secondary material containing commercially recoverable Molybdenum as defined in (i) and (ii) above, excluding Molybdenum-bearing iron and steel scrap.

(b) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(c) *Restrictions on deliveries*—(1) *Allocations.* Hereafter no person shall make or accept delivery of Molybdenum unless specifically authorized by the Director of Industry Operations. The Director will from time to time allocate the supply of Molybdenum and specifically direct the manner and quantities in which deliveries to particular persons and for particular uses shall be made or withheld. The Director may also, in his discretion, require any person seeking to place a purchase order for Molybdenum to place the same with one or more particular suppliers. Such allocations and directions will be made primarily to insure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made in the discretion of the Director of Industry Operations without regard to any preference ratings assigned to particular contracts or purchase orders.

(2) *Reports.* Unless otherwise ordered by the Director of Industry Operations, no person shall be entitled to receive an allocation of Molybdenum unless, not later than the 20th day of the month next preceding the month in which delivery is desired, he shall have filed with the War Production Board reports on Forms PD-358 and PD-359, and an application for Molybdenum on Form PD-360, or in any case, on such other form as the War Production Board may from time to time prescribe, and in addition, shall have filed with any supplier with whom he may place a purchase order for Molybdenum, a copy of Form PD-360: *Provided, however*, That, subject to all the other provisions, restrictions and limitations of this Order and until further order by the Director of Industry Operations, any person may receive deliveries during any calendar month up to but not exceeding an aggregate of 50 pounds contained Molybdenum for consumption in the manufacture of nonmetallic products, without filing the reports required by this paragraph. Failure by any person to file an application and reports in the manner and on the date required by this paragraph may be construed as notice to the Director of Industry Operations and to all suppliers of Molybdenum that such person does not desire an allocation of Molybdenum during the period to which the same would have been applicable.

(d) *Violations or false statements.* Any person who wilfully violates this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of materials subject to allocation, and such further action may be taken as is deemed appropriate, including the making of a recommendation for prosecution under section 35A of the Criminal Code (18 U.S.C. 80).

(e) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to the War Production Board, Washington, D. C., Reference: M-110.

(f) *Effective dates.* This order shall take effect immediately upon its issuance, and unless sooner terminated by direction of the Director of Industry Operations, shall expire on the 31st day of December, 1942. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 18th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2359; Filed, March 18, 1942; 11:14 a. m.]

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1306—IRON AND STEEL

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 6 [1]—IRON AND STEEL PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith.[2]

Section 1306.10 (i) is hereby amended by adding a new additional proviso, and a new § 1306.9a is added as set forth below:

§ 1306.10 *Appendix A: Domestic and export ceiling prices for sales by producers of iron and steel products.*

• • • • •

(i) • • • *Provided further*, That the discount or allowance to be made on bale tie low carbon Bessemer or basic manufacturers' wire, when sold to recognized manufacturers of bale ties, shall be not less than 40 cents per cwt, off the base price for such wire. Customary quantity discounts and other terms of payment shall also be continued without diminution or extra charge.

§ 1306.9a *Effective date of amendments.* (a) Amendment No. 1 (§§ 1306.10 (i) and 1306.9a) shall become effective March 17, 1942. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 16th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42-2342; Filed, March 17, 1942; 5:10 p. m.]

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPER AND PAPER PRODUCTS

AMENDMENT NO. 2 TO REVISED PRICE SCHEDULE NO. 30 [3]—WASTEPAPER

A Statement of the Considerations involved in the issuance of this Amendment has been prepared and is issued simultaneously herewith.[4]

Section 1347.6, footnotes 4, 5 and 8 to § 1347.10, and the last paragraph of § 1347.10 (b) are amended to read as follows:

§ 1347.6 *Enforcement.* (a) Persons violating any provision of this Revised Price Schedule No. 30 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Revised Price Schedule No. 30 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

• • • • •

§ 1347.10 *Appendix A: Maximum Prices for Wastepaper*

• • • • •

[4] All prices established by this Schedule shall be for wastepaper f. o. b. freight cars, trucks, or barges at the point of shipment or, in case of exports, f. a. s. the vessel at the port of export. Sales may be made on a delivered basis, but such sales must be made at prices not in excess of the maximum f. o. b. point of shipment prices established by this Schedule, plus the appropriate transportation allowances set forth in paragraph (b) below, or, in appropriate cases, the allowance set forth in (a) of this footnote. In the case of exports, in appropriate cases, the allowance set forth in (b) of this footnote may be added to the maximum price, in addition to any costs incurred by the seller incident to movement beyond the point of shipment.

• • • • •

[5] "No. 1 Mixed Paper" shall consist of clean, dry sorted wastepaper free from objectionable papers and foreign materials and packed in machine compressed bales, and shall include, without in any way limiting the generality of the foregoing, wastepaper sometimes described as super-mixed, repacked mixed, dry goods waste, department store waste, printer's waste, container manila, print manila, and so forth: *Provided, however*, That if any one or more of the aforementioned requirements of this definition are absent, then the wastepaper may not be sold at a price in excess of $12.00 per short ton.

• • • • •

[8] "Old Corrugated Containers" shall consist of clean, dry sorted corrugated or solid fibre containers of kraft or any other paper substance free from foreign materials, mixed and objectionable papers and packed in machine compressed bales: *Provided, however*, That if any one or more of the aforementioned requirements of this definition are absent, then the wastepaper may not be sold at a price in excess of $18.00 per short ton.

• • • • •

(b) • • •

All sales of wastepaper to a consumer shall be invoiced. The invoice shall state as separate items the grade name, origin and destination of the wastepaper, and, if delivered in the seller's vehicle, or by vehicle owned or controlled by the seller, the mileage and the charge for such service. All wastepaper sold shall be designated by the appropriate grade name provided by the Schedule.

§ 1347.9a *Effective dates of amendments.*

• • • • •

(b) Amendment No. 2 (§ 1347.6, footnotes 4, 5, 8; and the last paragraph of § 1347.10 (b)) to Revised Price Schedule No. 30 shall become effective March 23, 1942. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 17th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42-2358; Filed, March 18, 1942; 10:47 a. m.]

PART 1351—FOODS AND FOOD PRODUCTS

AMENDMENT NO. 2 TO REVISED PRICE SCHEDULE NO. 91 [5]—TEA

A statement of the considerations involved in the issuance of this Amendment has been prepared and is issued simultaneously herewith.[6]

Paragraph (b), one item therein, and paragraph (f) of § 1351.261 are amended to read as set forth below:

§ 1351.261 *Appendix A: Maximum prices for tea.*

• • • • •

(b) The maximum prices for tea shall be as follows:

JAVA AND SUMATRA	Cents per pound ex dock New York City		
	Common	*Medium*	*Fine*
• • •	•	•	•
Orange Pekoe	41¼	44¼	51
• • •	•	•	•

(f) Any person making a sale of tea of ten chests or less may add to the maximum price for that sale an amount which shall not exceed ten per cent of such maximum price.

• • • • •

§ 1351.260a *Effective dates of amendments.*

• • • • •

(c) Amendment No. 2 (§ 1351.261 (b), (f)) to Revised Price Schedule No. 91 shall become effective March 18, 1942. Until such date, Revised Price Schedule No. 91 continues in effect as if not amended by Amendment No. 2. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 16th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42-2341; Filed, March 17, 1942; 5:09 p. m.]

PART 1367—FERTILIZERS

MAXIMUM PRICE REGULATION NO. 108—NITRATE OF SODA, SULPHATE OF AMMONIA AND CYANAMID

In the judgment of the Price Administrator the prices of nitrate of soda, sulphate of ammonia and cyanamid have risen and are threatening further to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of nitrate of soda, sulphate of ammonia and

[1] 7 F.R. 1215.

[2] The Statement of Considerations has been filed with the Division of the Federal Register.

[3] 7 F.R. 1260, 1601.

[4] Filed with the Division of the Federal Register.

[5] 7 F.R. 1378, 1857.

cyanamid prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this Regulation has been prepared and is issued simultaneously herewith.[1]

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[2] issued by the Office of Price Administration, Maximum Price Regulation No. 108 is hereby issued.

§ 1367.21 *Maximum prices for nitrate of soda, sulphate of ammonia and cyanamid.* On and after March 23, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver nitrate of soda, sulphate of ammonia or cyanamid in quantities of 250 pounds or more at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1367.30; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of nitrate of soda, sulphate of ammonia, or cyanamid to a purchaser if prior to March 23, 1942 such nitrate of soda, sulphate of ammonia or cyanamid had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.*

*§§ 1367.21 to 1367.30, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1367.22 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1367.30) may be charged, demanded, paid or offered.*

§ 1367.23 *Conditional agreements.* No seller of nitrate of soda, sulphate of ammonia or cyanamid shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1367.30, in the event that this Maximum Price Regulation No. 108 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment (or for adjustment or for exception) has been duly filed, and such petition requires extension consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may, grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment (or for adjustment or exception, as the case may be). Requests for such an exception may be included in the aforesaid petition for amendment (or for adjustment or for exception).*

§ 1367.24 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 108 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to nitrate of soda, sulphate of ammonia, or cyanamid, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or by the making of excessive charges for trucking or otherwise.*

§ 1367.25 *Records and reports.* (a) Every person (including an agent or dealer making a sale of nitrate of soda, sulphate or ammonia or cyanamid in quantities of 250 pounds or more in the course of trade or business or otherwise dealing therein, to a consumer after March 23, 1942 shall keep for inspection by the Office of Price Administration for a period of not less than two years, complete and accurate records of each such sale, showing the date thereof; the name and address of the buyer, of the person (including an agent or dealer) making the sale, and the kind or brand of the nitrate of soda, sulphate of ammonia or cyanamid; the quantity and grade sold; the bags or containers in which delivered; the price charged or received therefor including transportation expenses; the terms of payment (time, cash, etc.); and the method and conditions of delivery.*

§ 1367.26 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 108 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages, provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 108 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.*

§ 1367.27 *Petitions for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 108 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.*

§ 1367.28 *Definitions.* (a) When used in this Maximum Price Regulation No. 108 the term:

(1) "Person" includes an individual, corporation, partnership, association, or other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Producer" means a person who manufactures nitrate of soda, sulphate of ammonia or cyanamid.

(3) "Importer" means a person who imports from a foreign country for resale in this country nitrate of soda, sulphate of ammonia or cyanamid.

(4) "Primary jobber" means a person such as The Barret Division of Allied Chemical and Dye Corporation who purchases sulphate of ammonia from a producer for resale to others than consumers.

(5) "Mixer" means a person who purchases nitrate of soda, sulphate of ammonia or cyanamid from a producer, importer, or primary jobber for resale to dealers or consumers.

(6) "Dealer" means a person who purchases nitrate of soda, sulphate of ammonia or cyanamid from a person other than a producer, importer or primary jobber for resale to consumers.

(7) "Agent" means a person who acts on behalf of another person in making sales of nitrate of soda, sulphate of ammonia and cyanamid.

(8) "Consumer" means a person who purchases nitrate of soda, sulphate of ammonia or cyanamid for use in aiding the growth of crops or plants (and not for resale).

(9) "Shipping Point" means a point of distribution maintained by a producer, importer, or primary jobber from which actual shipment is made.

(10) "Nitrate of Soda" means the various grades of commercial sodium nitrate when sold or marketed as an aid to the growth of plants or crops.

(11) "Sulphate of Ammonia" means the various grades of ammonium sulphate when sold or marketed as an aid to the growth of plants or crops.

(12) "Cyanamid" means the various grades of calcium cyanamid when sold or marketed as an aid to the growth of plants or crops.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.*

§ 1367.29 *Effective date.* This Maximum Price Regulation No. 108 (§§ 1367.21 to 1367.30, inclusive) shall become effective March 23, 1942.*

§ 1367.30 *Appendix A: Maximum prices for nitrate of soda, sulphate of ammonia and cyanamid.*—(a) *Nitrate of soda*—(1) *Cash sales by mixers, directly or through agents, to consumers.* The maximum price for cash sales of nitrate of soda by a mixer or his agent to consumers for use as fertilizer shall be:

(i) The price paid by such mixer to the producer or importer of such nitrate of soda, *plus*

(ii) The amount equal to the actual transportation expenses incurred by such mixer, *plus*

(iii) The cost of tax tags, if any, and the attaching thereof paid by such mixer, *plus*

(iv) $4.00 per two thousand pounds or $0.20 per hundred pounds.

(2) *Cash sales by mixers to dealers.* The maximum price for cash sales of nitrate of soda by a mixer to dealers shall be:

(i) The price paid by such mixer to the producer or importer of such nitrate of soda, *plus*

(ii) The amount equal to the actual transportation expenses incurred by such mixer, *plus*

(iii) The cost of tax tags, if any, and the attaching thereof paid by such mixer, *plus*

(iv) $4.00 per two thousand pounds or $0.20 per hundred pounds, *plus*

(v) $1.50 per two thousand pounds or $0.075 per one hundred pounds when such sulphate of ammonia is purchased in bulk, and resold in bags or other containers by such mixer, *plus*

(vi) The cost of bags or other containers for such sulphate of ammonia, when such sulphate of ammonia is bagged by such mixer, *plus*

(v) The cost of bags or other containers for such sulphate of ammonia, when such sulphate of ammonia is bagged by such mixer, *plus*

(vi) The cost of tax tags, if any, and the attaching thereof paid by such mixer.

(3) *Cash sales by dealers.* The maximum price for cash sales of sulphate of ammonia by a dealer to consumers for use as fertilizer shall be:

(i) The price paid by such dealer, *plus*

(ii) An amount equal to the actual transportation expenses incurred by such dealer, *plus*

(iii) $2.00 per two thousand pounds or $0.10 per hundred pounds, *plus*

(iv) The cost of bags or other containers for such sulphate of ammonia, if not included in the price paid by such dealer.

(4) *Credit sales.* (i) In the case of credit sales of sulphate of ammonia by mixers and dealers, charges for credit no more onerous than those in effect during the year 1941 may be added to the maximum prices established by subparagraphs (1), (2), and (3) above.

(c) *Cyanamid*—(1) *Cash sales by mixers, directly or through agents, to consumers.* The maximum prices for cash sales of cyanamid by a mixer or his agent to consumers for use as fertilizer shall be:

(i) The price paid by such mixer to the producer or importer of such cyanamid, *plus*

(ii) An amount equal to the actual transportation expenses incurred by such mixer, *plus*

(iii) The cost of tax tags, if any, and the attaching thereof by such mixer, *plus*

(iv) $4.00 per two thousand pounds or $0.20 per hundred pounds.

(2) *Cash sales by mixers to dealers.* The maximum price for cash sales of cyanamid by a mixer or his agents to dealers shall be:

(i) The price paid by such mixer to the producer or importer of such cyanamid, *plus*

(ii) The amount equal to the actual transportation expenses incurred by such mixer, *plus*

(iii) The cost of tax tags, if any, and the attaching thereof paid by such mixer, *plus*

(iv) $2.00 per two thousand pounds or $0.10 per hundred pounds.

(3) *Cash sales by dealers.* The maximum price for cash sales of cyanamid by a dealer to consumers for use as fertilizer shall be

(i) The price paid by such dealer, *plus*

(ii) An amount equal to the actual transportation expenses incurred by such dealer, *plus*

(iii) $2.00 per two thousand pounds or $0.10 per hundred pounds.

(4) *Credit sales.* (i) In the case of credit sales of cyanamid by mixers and dealers, charges for credit no more onerous than those in effect during the year 1941 may be added to the maximum prices established by suparagraphs (1), (2) and (3) above.

(d) *Territory.* Nothing in this Maximum Price Regulation No. 108 shall apply or be deemed to apply to sales of nitrate of soda, sulphate of ammonia or cyanamid in the states of Washington, Oregon, California, Montana, Wyoming, Idaho, Nevada, Utah, Colorado, and Arizona.*

Issued this 17th day of March 1942.

JOHN E. HAMM,
Acting Price Administrator.

PART 1304—IRON AND STEEL SCRAP

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 4[1]—IRON AND STEEL SCRAP

A statement of the considerations involved in the issuance of this Amendment has been prepared and is issued simultaneously herewith.[2]

Sections 1304.6, 1304.13 (c) (3) and 1304.14 (a) are amended to read as follows; § 1304.13 (d) (3) including exceptions 1 to 8 is redesignated as § 1304.13 (d) (4) and amended to read as follows; Two new paragraphs, § 1304.13 (d) (3) and § 1304.15 (b) (3) are added and a new section 1304.12A is added; as set forth below:

§ 1304.6 *Commissions.* No commission shall be payable hereunder, except by a consumer to a broker for brokerage services rendered to the consumer. In the event that a consumer shall employ a broker to purchase iron and steel scrap, such consumer may pay such broker a commission not exceeding 50 cents per gross ton. No commission shall be payable unless (a) the broker guarantees the quality and delivery of an agreed tonnage of scrap; (b) the scrap is purchased by the consumer at a price not higher than the maximum applicable herein; (c) the broker sells the scrap to the consumer at the same price at which he purchased it; (d) the broker does not split or divide the commission, in whole or in part, with the seller or sellers of the scrap, with another broker or subbroker, or with the consumer, and (e) the commission is shown as a separate item on the invoice. No commission shall be payable to a person for scrap which he prepares.

§ 1304.13 *Appendix A: Maximum prices for iron and steel scrap other than railroad scrap.*

* * * * *

(c) *Maximum shipping point prices.*

* * * * * *

(3) *Established charges.* (i) The transportation charges or switching charges used in computing shipping point prices need not reflect any rise in rates which became effective after March 14, 1942;

---

[1] The statement of considerations has been filed with the Division of the Federal Register.

[2] 7 F.R. 971.

[1] 7 F.R. 1207.

[2] The Statement of Considerations has been filed with the Division of the Federal Register.

(ii) No charge shall be deemed an established charge within the meaning of Price Schedule No. 4 unless it has been the basis of actual movement of scrap to the most favorable basing point during the calendar year 1941.

* * * * *

(d) *Maximum prices delivered to the plant of a consumer.*

* * * * *

(3) For the purpose of computing maximum delivered prices under this paragraph, any increase in transportation charges resulting from a rise in rates which became effective after March 14, 1942 may be included only if shown as a separate item on the invoice.

(4) In no case, however, shall the delivered price exceed the price listed in paragraph (a) for the basing point nearest, in terms of established transportation charges, to the consumer's plant, by more than $1.00 plus any increase in the transportation charge from shipping point to point of delivery resulting from a rise in rates which became effective after March 14, 1942, with the following exceptions:

Exception 1. For consumers having St. Louis as their nearest basing point the delivered price may not exceed the St. Louis basing point price by more than $1.50 plus any increase in transportation charges mentioned in (d) (3) above: *Provided*, That the delivered price of scrap shipped to such consumers from shipping points in Arkansas may not exceed the St. Louis basing point price by more than two dollars plus any increase in transportation charges mentioned in (d) (3) above. For consumers whose nearest basing points are Detroit, Birmingham and Alabama City, respectively, the delivered price may not exceed by more than two dollars plus any increase in transportation charges mentioned in (d) (3) above, the price at their respective basing points.

Exception 2. In the case of machine shop turnings or related grades of turnings, as defined herein, delivered to electric furnace producers of ferro alloys, and in the case of chemical borings delivered to chemical users thereof, the delivered price shall not be limited to one dollar etc., in excess of the price at the basing point nearest the consumer's plant.

Exception 3. "Remote Scrap" means all the kinds and grades of iron and steel scrap referred to in § 1304.13, Appendix A, and having a shipping point and a point of origin within the states of Montana, Idaho, Wyoming, Nevada, Arizona, New Mexico, Texas, Oklahoma, Florida, Oregon, Utah, North Dakota, South Dakota and Washington. Colorado scrap shall be remote scrap for Colorado consumers only.

(i) The delivered price of remote scrap may exceed by more than $1.00 but not more than $5.00 the price at the basing plant nearest the consumer's plant: *Provided*, That immediately upon delivery of such scrap, the consumer files with the Office of Price Administration, Washington, D. C., (a) a fully detailed statement under oath setting forth the name and address of the seller, the shipping point of the scrap, the grade, quantity and price at shipping point, delivered price, the mode of transportation employed and the transportation charges from the shipping point to the point of delivery, and (b) certified copies of all bills of lading covering the shipment of such scrap from the remote shipping point to the point of delivery.

(ii) Where the delivery price of remote scrap would exceed by more than $5.00 the price at the basing point nearest the consumer's plant, the consumer may not purchase or accept delivery of such scrap until his application to the Office of Price Administration, Washington, D. C., for permission to absorb the additional transportation charges necessary to secure such scrap has been approved. Applications by consumers must be under oath and fully detailed, setting forth the name and address of the seller, point of shipment of the scrap, the grade, quantity and price at shipping point, proposed delivered prices, the mode of transportation to be employed, and the transportation charges from the shipping point to the consumer's plant. The application must also contain a statement by the consumer of its need for, and its willingness to accept, such scrap at the price quoted.

Immediately upon delivery of such scrap, the consumer must comply with the filing requirements of paragraph (i) (a) above.

Exception 4. Where scrap is shipped by vessel from Duluth, Minnesota, or Superior, Wisconsin, to consumers located in Buffalo, New York, Elyria, Ohio, Cleveland, Ohio, Saginaw, Michigan, Detroit, Michigan, or Chicago, Illinois, the delivered price shall not be limited to one dollar etc., in excess of the basing point nearest the consumer's plant.

Exception 5. In computing the delivered price of Billet, Bloom and Forge Crops originating in and shipped from the Pittsburgh Basing Point, the maximum transportation charges which may be added to the shipping point price shall be $2.65.

Exception 6. The delivered price of Low Phos. and Sulphur Punchings and Plate Scrap, Low Phos. and Sulphur Bar Crops and Smaller, Alloy Free Low Phos. and Sulphur Turnings, and First Cut Heavy Axle and Forge Turnings produced in industrial plants in the State of Michigan and shipped directly to consumers located in or nearest, in terms of established transportation charges, to the Buffalo, N. Y., Pittsburgh, Brackenridge, or Midland, Pa., basing point, shall not exceed by more than $3.00 plus any increase in transportation charges mentioned in (d) (3) above the price at the basing point nearest the consumer's plant.

Exception 7. Where scrap is shipped from a New England shipping point, the maximum transportation charges which may be added to the shipping point price shall be $6.65 per gross ton.

Exception 8. Where the shipping point price of scrap is computed from water rates, and water movement is not available the year round, consumers who can establish that they did receive delivery of such scrap by water within $1.00 of the price at their nearest basing point between April 15 and November 15, 1941, may pay the shipping point price plus all-rail transportation charges from the shipping point to the point of delivery whenever water movement is not available.

Exception 9. Where scrap is shipped pursuant to an allocation order issued by the War Production Board, the delivered price shall not be limited to $1.00 etc., in excess of the price at the basing point nearest the consumer's plant: *Provided, however*, That in all such cases, the most economical transportation facilities must be employed. For example, but not by way of limitation:

(i) If vessel or rail-vessel or vessel-rail facilities are available from shipping point to point of delivery, and use of such facilities will result in lower transportation charges than all-rail movement, the maximum transportation charges which may be added to the shipping point price may not exceed the charges which would apply if the cheapest available facility were employed;

(ii) Where the most economical method available involves rail movement, the rail transportation charges must be computed on the basis of the rates for the highest minimum carload weight.

§ 1304.14 *Appendix B: Maximum prices for iron and steel scrap originating from railroads*—(a) *Scrap originating from railroads—operating in a basing point named below* (all prices given below are per gross ton). The scrap is at its point of delivery to the consumer when it has arrived for unloading at the plant of the consumer. Where used in this appendix, the term "transportation charges" means the established charges for transporting the scrap to the point of delivery by the mode of transportation employed. The term "transportation charges" shall include any increase in transportation charges resulting from a rise in rates which became effective after March 14, 1942; and where specific amounts of allowable transportation charges are mentioned, there may be superadded thereto 6% of such allowable charge. In no case shall the maximum delivered price include any charge or cost incurred in unloading the scrap at the point of delivery or in subsequent handling.

* * * * *

§ 1304.15 *Appendix C: Maximum prices for cast iron scrap other than railroad scrap.* (All the prices given below are per gross ton).

* * * * *

(b) *Maximum price delivered to a consumer.*

* * * * *

(3) For the purpose of computing maximum delivered prices under this paragraph, any increase in transportation charges resulting from a rise in rates which became effective after March 14, 1942 may be included.

§ 1304.12a *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1304.6, 1304.12a, 1304.13 (c) (3), (d) (3), (d) (4), 1304.14 (a), 1304.15 (b) (3)) to Revised Price Schedule No. 4 shall become effective March 18, 1942.

(Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 18th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42-2345; Filed, March 18, 1942; 9:39 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

CHAPTER I—GENERAL LAND OFFICE

[Circular No. 1503]

PART 79—TIMBER [1]

AMENDMENT OF THE REGULATIONS GOVERNING SMALL SALES OF TIMBER IN ALASKA, SO AS TO REQUIRE THE ISSUANCE OF PERMITS IN ADVANCE OF CUTTING OF TIMBER; OFFICERS IN CHARGE OF CUTTING

In order to prevent the cutting of timber on public lands in Alaska under small sales applications, authorized by 43 CFR 79.15–79.33, until permits authorizing such cutting have been issued, the regulations are hereby amended as stated below.

Section 79.20 is amended to read:

§ 79.20 *Action by register on application.* Upon receipt of an application for timber on land from which it may properly be cut, with the required deposit, the register will give it a serial number and note a reference thereto on his tract book. He will acknowledge receipt of the application and advise the applicant that no timber may be cut until receipt of a permit from the officer in charge of timber cutting operations in Alaska. If the required deposit does not accompany the application, or the land is embraced in an entry or selection or is not of the character described in § 79.16, from which timber may be cut, he will suspend action on the application and call on the applicant to make the required payment, or to amend the application as the case may be.

When the application is proper the register will promptly forward it through the office of the General Land Office Coordinator for Alaska, to the officer or examiner, as the case may be, in charge of timber cutting in Alaska. The application will be accompanied with the statement indicating that the records of the District Land Office do not show any objection to the cutting of the timber applied for.

Section 79.21, paragraph (c) is amended to read as follows:

[1] These regulations are issued under the authority contained in sec. 11, 30 Stat. 414; 48 U.S.C. 421.

§ 79.21 *Conditions precedent to cutting and removal of timber.*

* * * * *

(c) After he has received from the officer in charge of timber cutting operations in Alaska a permit authorizing the cutting of the timber applied for.

* * * * *

Section 79.24 is amended by adding thereto the following:

§ 79.24 *Issuance of permit.* * * * Where conditions warrant the officer in charge will reject the application, stating his reasons for such action. The officer will insert in all permits issued by him such conditions and provisions respecting the cutting and removal of the timber as in his opinion are required by the public interests. Any person who is adversely affected by the action taken on his application may secure a review thereof by making request therefor to the Commissioner of the General Land Office. The officer in charge will make a report in triplicate showing all permits issued and all applications rejected, transmitting the original to the Commissioner of the General Land Office, the duplicate to the Register, and the triplicate to the General Land Office Coordinator for Alaska.

Supervision of Alaska timber sales hereafter will be had through such officers or examiners as may be designated by the Commissioner of the General Land Office. Accordingly the following changes in the regulations will be made:

In § 79.25 (*Field examination and appraisal of timber*), the words "officer or examiner, as the case may be," will be substituted for the word "agent."

In § 79.26 (*Removal of timber*), the words "officer or examiner, as the case may be," will be substituted for the words "special agent."

In § 79.27 (*Payment*), paragraph one, the words "officer or examiner, as the case may be," will be substituted for the words "special agent" and paragraph two will be amended to read as follows:

The register will advise the officer in charge as to all moneys received in connection with applications to purchase timber giving the serial numbers of the cases and other necessary information. The moneys will be held as "unearned" pending receipt of a report from such officer. The officer in charge will account to the register for all moneys received by him or by the examiners, and he will advise the register when moneys on deposit should be covered into the Treasury or returned.

Section 79.28 will be amended to read as follows:

§ 79.28 *Final action.* After necessary action by the register and by the officer in charge, the application and related papers will be forwarded by the register to the General Land Office, through the General Land Office Coordinator for Alaska.

In § 79.31 (*Revocation of permit*), the words "officer or examiner, as the case may be," will be substituted for the words "special agent."

FRED W. JOHNSON,
Commissioner.

Approved: March 7, 1942.

OSCAR L. CHAPMAN,
Assistant Secretary.

TITLE 50—WILDLIFE

CHAPTER I—FISH AND WILDLIFE SERVICE

PART 29—PLAINS REGION NATIONAL WILDLIFE REFUGES

SAND LAKE NATIONAL WILDLIFE REFUGE, SOUTH DAKOTA

Pursuant to the provisions of section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1222; 16 U.S.C. 715i), as amended, the administration of which was transferred to the Secretary of the Interior on July 1, 1939, in accordance with Reorganization Plan No. II [1] (53 Stat. 1431), the following is hereby ordered:

§ 29.800 *Sand Lake National Wildlife Refuge, South Dakota; fishing.* Noncommercial fishing is permitted in Sand Lake National Wildlife Refuge, South Dakota, from May 15 to September 15, inclusive, of each year from 6 a. m. to 6 p. m. in the waters specified herein, in accordance with the provisions of the regulations dated December 19, 1940, for the administration of national wildlife refuges under the jurisdiction of the Fish and Wildlife Service, and subject to the following conditions and restrictions:

(a) *Waters open to fishing.* The waters of the James River in the Hecla Recreation Area in the NW¼NE¼ sec. 29, T. 128 N., R. 61 W., shall be open to fishing.

(b) *State fishing laws.* Any person who fishes within the refuge must comply with the applicable fishing laws and regulations of the State of South Dakota. Fishing shall be by hook and line only, as defined by State law.

(c) *Fishing licenses and permits.* Any person who fishes within the refuge shall be in possession of a valid fishing license issued by the South Dakota Game and Fish Commission, if such license is required. This license shall serve as a Federal permit for fishing in the specified waters of the refuge and must be carried on the person of the licensee while so fishing. The license must be exhibited upon the request of any representative of the South Dakota Game and Fish

[1] 4 F.R. 2731.

Commission or of the Fish and Wildlife Service.

(d) *Routes of travel.* Persons entering the refuge for the purpose of fishing shall follow such routes of travel as may be designated by suitable posting by the officer in charge of the refuge.

(e) *Use of boats.* The use of boats or floating devices of any description is prohibited on all waters of the refuge except for official purposes.

OSCAR L. CHAPMAN,
Assistant Secretary of the Interior.

[Docket No. 1508-FD]

IN THE MATTER OF THE APPLICATION OF INDIANA COALS CORPORATION FOR PROVISIONAL APPROVAL AS A MARKETING AGENCY

ORDER OF THE ACTING DIRECTOR SUSPENDING CERTAIN CONDITIONS IN PRIOR ORDER

By Order of May 27, 1941, the Director, pursuant to and in accordance with Section 12 of the Bituminous Coal Act of 1937, having provisionally approved Indiana Coals Corporation, the applicant, as a "marketing agency," subject to specified conditions designed to insure that the operations of applicant would not circumvent the standards of Section 12 and the over-all objectives of the Act;

On December 17, 1941, the applicant having filed a motion to suspend for six months the operation of Conditions 2 and 4 of the Order of Provisional Approval, which are concerned with subagents' commissions and discounts allowed to registered distributors or registered farmers' cooperatives, in order that applicant might effect contracts covering sufficient tonnage to permit the functioning of the marketing agency;

The Acting Director in a Memorandum Opinion and Order, dated December 24, 1941, having granted the motion for the suspension of the operation of said Conditions 2 and 4 for a period of 90 days and denying applicant's request for a longer suspension, and having reserved jurisdiction, if in the Acting Director's opinion such action would be deemed advisable, to order applicant to show cause at the end of the 90-day period from the start of the applicant's operating and functioning as a marketing agency why the operation of Conditions 2 and 4 should be further suspended, and for the purpose of imposing any further condition that might be found necessary, and further concluding that unless applicant is organized and functioning as a marketing agency within 90 days from December 24, 1941, the provisional approval granted applicant should be withdrawn and revoked 90 days from December 24, 1941;

The applicant, on March 6, 1942, having filed a supplemental motion reciting, *inter alia,* that the applicant has proceeded with its organization, has caused due meetings of its Board of Directors and stockholders to be held, has negotiated and has in process of negotiation contracts with subscribers, all of which are set forth in an exhibit attached to said supplemental motion, has issued its initial classification and Price Schedule No. 1, which was filed with the Bituminous Coal Division under date of February 12, 1942, and thereafter submitted supplemental statements and data in support of said price schedule,[1] but that it will be unable to be in full operation by March 24, 1942, and, therefore, will not have been able to operate a sufficient length of time to present any facts upon which applicant and the Director may judge the effect of Items 2 and 4 as applied to applicant;

The supplemental motion praying that the operations of Items 2 and 4 of the Order of Provisional Approval be suspended for a period of six months from March 24, 1942, and that thereafter the Director order applicant to show cause why the operation of said Items 2 and 4 should be further suspended, and that the Order of Provisional Approval, dated May 27, 1941, be not withdrawn and that the revocation of said Order be extended for a period of 90 days from March 24, 1942, and under the conditions set forth in the Memorandum Opinion and Order dated December 24, 1941;

It appearing to the Acting Director that no immediate harm will result from a brief suspension of those conditions;

It is concluded that the prayer of applicant should be granted to the extent that the operation of Conditions 2 and 4 set forth in the Order granting provisional approval dated May 27, 1941, be suspended for a period of 90 days from March 24, 1942, and that the applicant's request for a longer period of suspension should be denied.

It is further concluded that thereafter the director may order applicant to show cause why the operation of said Items 2 and 4 should be further suspended.

It is further concluded that the provisional approval to applicant, heretofore granted by Order of the Director dated May 27, 1941, be not withdrawn and that the revocation of said Order be extended for a period of 90 days from March 24, 1942, subject to all the conditions set forth in the earlier orders issued in this proceeding.

And it is so ordered.

Dated: March 17, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2353; Filed, March 18, 1942; 10:14 a. m.]

[1] The operation of price schedule has been suspended for the time being upon direction of the Acting Director.

[General Docket No. 23]

IN THE MATTER OF THE MARKETING RULES AND REGULATIONS INCIDENTAL TO THE SALE AND DISTRIBUTION OF COAL BY CODE MEMBERS AS ESTABLISHED BY THE DIVISION FOR DISTRICTS 1 TO 20, INCLUSIVE, 22 AND 23; AND IN RE THE PROPOSAL TO REVIEW AND REVISE THE MARKETING RULES AND REGULATIONS AS ESTABLISHED BY THE DIVISION

AN ORDER APPROVING AND ADOPTING, WITH MODIFICATION, PROPOSED FINDINGS OF FACT AND CONCLUSIONS OF LAW OF THE EXAMINER AND REVISING AND MODIFYING THE MARKETING RULES AND REGULATIONS

The Director of the Bituminous Coal Division having instituted a proceeding, pursuant to the provisions of the last sentence of section 4 II (b) of the Bituminous Coal Act of 1937, to receive evidence relating to the reasonableness and necessity of revising those portions of the Marketing Rules and Regulations[1] relating to the payment of interest on overdue accounts;

A hearing having been duly held in this proceeding before Edward J. Hayes, a duly designated Examiner of the Division, at Washington, D. C., on September 30, 1941; District Boards 1, 2, 3, 4, 6, 7, 8, 9, 10, 11, 15, 18 and 22; the City of Chicago, the American Coal Distributors Association, The National Fuel Credit Association, several code members and one registered distributor intervened. Bituminous Coal Consumers' Counsel filed a notice of appearance.

The Examiner having made and entered his Report, Proposed Findings of Fact, Conclusions of Law and Recommendations, dated December 19, 1941;

District Board 11, the Bituminous Coal Consumers' Counsel, and the City of Chicago, all parties to this proceeding, having in due time filed exceptions to the Report of the Examiner and supporting Briefs;

The undersigned having carefully considered the entire record in this proceeding, and upon the basis thereof, having rendered Findings of Fact, Conclusions of Law and an Opinion, which are filed herewith;

Now, therefore, it is ordered, That the Proposed Findings of Fact, Conclusions of Law and Recommendations of the Examiner be and are hereby adopted, except that his recommended revision of Rule 1 (I) of Section VII be modified to include (1) a provision that the waiver of interest charges not exceeding fifty (50¢) cents is permissible only when the amount of such interest is computed on the total shipments of coal to any one buyer during any one month, and not upon the amount of an individual invoice and (2) to exclude the provision excepting the City of Detroit from the 10 day grace provision.

[1] The Marketing Rules and Regulations Incidental to the Sale and Distribution of Coal were established to take effect concurrently with the establishment of effective minimum prices in General Docket No. 15. These rules and regulations were later revised, in part, in Dockets Nos. A-3 and A-375 and General Docket No. A-20.

It is ordered, That effective April 1, 1942, the Marketing Rules and Regulations established in General Docket No. 15 be and the same hereby are revised and amended to read as follows:

A. *Rule 1 (I) of Section VII.* Unless payment of an account for the sale of coal is received by the seller within ten (10) days after the due date of such an account as provided in these Marketing Rules and Regulations, the seller shall charge and the buyer shall pay interest from and after the due date of the account at the rate of not less than five (5%) per centum per annum on the invoice price of the coal sold: *Provided, however,* That no interest need be charged on the account by the seller and unless such interest exceeds fifty (50¢) cents on the total purchases for any one month, except where an account remains unpaid thirty (30) days after the due date thereof interest must be charged from the due date, regardless of the amount of such interest; *And provided further,* That in the case of sales made to Federal, State or Local Governments, or any agency thereof, interest need not be paid at a rate in excess of, but shall be paid at a rate of not less than that prescribed by applicable statutes or rules as the maximum rate of interest governing such payments, where that prescribed maximum is less than five (5%) per centum per annum.

B. *Rule 1 (J) of Section VII.* Transportation charges on all-rail shipments or on ex-river shipments of coal from the lifting point shall not be paid by a Code Member, his Sales Agent, or a Distributor, except to prepay stations as published in current railway tariffs or on shipments to the United States Government, States or political subdivisions thereof, and except as authorized in the minimum price schedules or in paragraph 1 of Section 4 II (i) of the Act. Where the transportation charges are thus prepaid, the amount thereof shall, immediately upon receipt of the freight bill or notice of sight draft payment, be invoiced to the buyer for immediate payment, and unless payment for such transportation charges on shipments to prepay stations is received by the seller within ten (10) days from the date of the invoice, the seller shall charge and the buyer shall pay interest at the rate of five (5%) per centum per annum from the due date commencing on the day following the date payment is due, except as otherwise provided in the minimum price schedules.

C. *Rule 1 (K) of Section VII.* Except as provided in Section X of these Marketing Rules and Regulations, no Code Member, his Sales Agent, or a Distributor, shall accept as payment in full for any account for the sale of coal any amount which is less than the applicable invoice price for the quantity of coal involved plus any interest charges on the unpaid balance of the invoice price as required under Rule 1 (I) of this Section: *Provided,* That a Code Member, his Sales Agent, or a Distributor may enter into a bona fide general creditors' composition with other creditors of a defaulting purchaser. A copy of such creditors' composition shall be filed with the Statistical Bureau or Bureaus within ten (10) business days from the date of the making hereof. No provision of this rule is intended to prohibit the interim acceptance of a partial payment of an account, pending its final payment with all interest due.

D. *Rule 2 of Section V and Rule 8 of Section VI.* The following subsection (e) is to be added to these Rules:

(e) If the price herein is not paid on the date of payment (including the ten (10) day grace period) specified in Rule 1 of Section VII of the Marketing Rules and Regulations established by the Bituminous Coal Division of the United States Department of the Interior, the seller shall charge and the buyer shall pay interest as required in the aforesaid Rule 1 of Section VII, commencing on the day following the date payment is due. Only the receipt of a remittance by the seller shall be deemed to constitute payment of the account, as provided in these Marketing Rules and Regulations.

Dated: March 16, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

DEPARTMENT OF LABOR.

Division of Public Contracts.

IN THE MATTER OF AN EXTENSION OF THE DETERMINATION OF THE PREVAILING MINIMUM WAGE IN THE AIRCRAFT MANUFACTURING INDUSTRY

NOTICE OF OPPORTUNITY TO SHOW CAUSE

Notice is hereby given to all interested parties that they have until April 1, 1942, to show cause why the Secretary's decision of December 14, 1938 (3 F.R. 3044) in the matter of the determination of the prevailing minimum wages in the Aircraft Manufacturing Industry, as amended on October 18, 1941 (6 F.R. 5342) should not be further amended by the substitution of the following definition for the industry:

The Aircraft Manufacturing Industry is that industry which manufactures airplanes and gliders, aircraft-type engines, aircraft propellers, parts and accessories for the above mentioned products, and specialized aircraft servicing equipment.

Expressly excluded from the scope of the definition are such commodities as:

Fabricated textile products. Fabric covers (including engine warming covers); parachutes; safety belts; tow targets; and wind socks.

Pyrotechnics. Cartridges for engine starters; and flares and signals.

Electrical and radio equipment. Batteries, electric wire and cable; intercommunication equipment; landing and navigation lights; lighting systems; radios; and radio compasses.

Rubber products. Rubber de-icing equipment; flotation gear; life preserv-

ers and life rafts; bonded rubber mountings and vibration dampers; rubber utilities; and tires and tubes.

Machine shop products and machinery. Bearings; bolts, nuts, rivets, screws, and washers; gas refueling systems (including refueling pumps); gears and sprockets; piston rings; springs; and wire rope.

Miscellaneous products. Cameras; fire extinguishers; first aid equipment; gaskets; instruments; lavatory equipment; and lighter-than-air craft.

The effect of the proposed amendment will be to broaden the scope of the minimum wage determination for the industry to include such products as the following:

Light commercial aircraft;

Engines and propellers for light commercial aircraft;

Parts and accessories for light commercial aircraft and their engines and propellers;

Gliders; and

Specialized servicing equipment for ground use.

The prevailing minimum wage for the Aircraft Manufacturing Industry, as determined by the Secretary of Labor, is 50 cents an hour or $20.00 per week of 40 hours, arrived at either upon a time or piece work basis. The determination further provides that apprentices may be employed at lower rates if their employment conforms to the standards of the Federal Committee on Apprenticeship.

The proposed extension is based upon evidence received by this Department which indicates (1) that the majority of the plants manufacturing light commercial aircraft for which data are available have a minimum wage of not less than 50 cents per hour; (2) that the predominant number of wage earners manufacturing light commercial aircraft are employed in plants having a minimum wage of not less than 50 cents per hour; (3) that gliders are manufactured by processes and at wages similar to or identical with those in the production of light commercial aircraft; (4) that parts and accessories for light commercial aircraft are usually made either by the manufacturer of the aircraft, or by the manufacturer of parts and accessories for military and heavy transport aircraft; and (5) that specialized servicing equipment for ground use is normally manufactured by the same firms which manufacture products already subject to the determination.

All briefs or telegraphic communications should be addressed to the Administrator, Division of Public Contracts, U. S. Department of Labor, Washington, D. C. They will be considered if they are received on or before April 1, 1942. No form for the brief is prescribed, but an original and four copies must be submitted.

Dated: March 17, 1942.

L. METCALFE WALLING,
Administrator.

NOTICE OF CANCELLATION OF SPECIAL CERTIFICATE FOR THE EMPLOYMENT OF LEARNERS IN THE HOSIERY INDUSTRY

Notice is hereby given that the special certificates for the employment of learners, namely (1) certificate dated October 14, 1940, authorizing the employment of learners not to exceed at any one time five per cent of the total number of factory workers (excluding office and sales personnel) employed in the plant, and (2) certificate dated October 21, 1940, authorizing the employment of sixty additional learners issued to the Sport-Wear Hosiery Mills, of Etowah, Tennessee, has been ordered cancelled as of the first date of violation because of violations of its terms.

The order of cancellation shall not become effective and enforceable until after the expiration of a fifteen-day period following the date on which this notice appears in the FEDERAL REGISTER. During this time petitions for reconsideration or review may be filed by any directly interested and aggrieved party pursuant to § 522.13 of the Regulations. If a petition is properly filed, the effective date of the order of cancellation shall be postponed until final action is taken on the petition.

Signed at City of New York this 17th day of March 1942.

ALEX G. NORDHOLM,
Duly Authorized Representative of the Administrator.

CIVIL SERVICE COMMISSION.

CONDITION OF THE APPORTIONMENT AT CLOSE OF BUSINESS SATURDAY, MARCH 14, 1942

Important. The apportioned classified Civil Service includes central offices physically located in Washington, D. C., or elsewhere. Positions in local post offices, customs districts and other field services outside of the District of Columbia which are subject to the Civil Service Act are filled almost wholly by persons who are local residents of the general community in which the vacancies exist. It should be noted and understood that so long as a person occupies, by original appointment, a position in the apportioned service, the charge for his appointment continues to run against his state of original residence. Certifications of eligibles are first made from states which are in arrears.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-453]

IN THE MATTER OF ENGINEERS PUBLIC SERVICE COMPANY, THE WESTERN PUBLIC SERVICE COMPANY, A MARYLAND CORPORATION, AND THE WESTERN PUBLIC SERVICE COMPANY, A DELAWARE CORPORATION

ORDER RECONVENING HEARING AND DIRECTING CLOSING OF THE RECORD

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 13th day of March, A. D. 1942.

The Commission by its order of December 29, 1941, having granted or permitted to become effective various applications and declarations but having reserved jurisdiction as to a certain declaration by Engineers Public Service Company, a registered holding company, as to the acquisition and retirement by it of not to exceed 35,000 shares of its preferred stock, said acquisition to be made initially by an invitation for tenders and thereafter by purchases on the open market; and

The Commission being of the opinion that the record herein should be closed after opportunity given both to said Engineers Public Service Company and to counsel for the Public Utilities Division of the Commission to adduce additional evidence, if they be so advised:

It is ordered, That the hearing in these proceedings be reconvened at the Offices of the Securities and Exchange Commission, Penn Athletic Club Building, 18th and Locust Sts., Philadelphia, Pennsylvania, at 10:00 a. m. on March 20, 1942;

It is further ordered, That Richard Townsend, the previously designated trial examiner, or any other officer or officers of the Commission designated by it for that purpose, shall preside in the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice;

It is further ordered, That said officer or officers give to Engineers Public Service Company and to counsel for the Public Utilities Division at such time and place the opportunity to adduce further evidence if they or either of them be so advised. If no evidence is introduced, or upon the completion of the taking of evidence, the trial examiner is directed to close the record;

It is further ordered, That without limiting the scope of the issues presented by the declaration of Engineers Public Service Company, particular attention will be directed at the reconvened hearing to the following matter:

(1) Whether Engineers Public Service Company should be permitted to acquire all or any part of the 35,000 shares of its preferred stock?

Notice of such reconvened hearing is hereby given to said declarant and to any other person whose participation in such proceedings may be in the public interest or for the protection of investors or consumers.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

[File No. 7-644]

IN THE MATTER OF APPLICATION BY THE CINCINNATI STOCK EXCHANGE FOR PERMISSION TO EXTEND UNLISTED TRADING PRIVILEGES TO STANDARD BRANDS, INC., COMMON STOCK, NO PAR VALUE

ORDER SETTING HEARING ON APPLICATION FOR PERMISSION TO EXTEND UNLISTED TRADING PRIVILEGES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania on the 12th day of March, A. D. 1942.

The Cincinnati Stock Exchange, pursuant to section 12 (f) of the Securities Exchange Act of 1934, and Rule X-12F-1 promulgated thereunder, having made application to the Commission for permission to extend unlisted trading privileges to the above-mentioned security; and

The Commission deeming it necessary for the protection of investors that a hearing be held in this matter at which all interested persons be given an opportunity to be heard;

It is ordered, That the matter be set down for hearing at 10 a. m. on Thursday, April 2, 1942, in the Cleveland Regional Office of the Securities and Exchange Commission, 1370 Ontario Street, Cleveland, Ohio, and continue thereafter at such times and places as the Commission or its officer herein designated shall determine, and that general notice thereof be given; and

It is further ordered, That C. J. Odenweller, Jr., an officer of the Commission, be and he hereby is designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

[File No. 4-38]

IN THE MATTER OF INTERNATIONAL UTILITIES CORPORATION, DOMINION GAS AND ELECTRIC COMPANY, GENERAL WATER GAS & ELECTRIC COMPANY, AND SECURITIES CORPORATION GENERAL

NOTICE OF AND ORDER RECONVENING HEARING

At a regular session of the Securities and Exchange Commission; held at its office in the City of Philadelphia, Pennsylvania, on the 13th day of March, A. D. 1942.

The Commission having issued, on August 23, 1941, its Order to Show Cause addressed to the parties abovenamed directing, among other things, that a hearing be held on September 16, 1941, at which hearing the said parties should show cause why the Commission should not enter an order pursuant to sections 12 (f) and 13 (e) of the Public Utility Holding Company Act of 1935 prohibiting the said parties from making any payment, directly or indirectly, to or on account of P. M. Chandler for or on account of certain salary contracts, or otherwise; and

The hearing aforesaid having been duly convened on September 16, 1941, and the same having been continued from time to time and on February 10, 1942, having been continued subject to the call of the Trial Examiner; and

The Commission having been advised that General Water Gas & Electric Company by action of its Board of Directors presently proposes to pay to P. M. Chandler the sum of $12,500 as and for a complete settlement of his claims under a certain employment contract dated June 21, 1941, and it appearing that such proposed payment may bear a direct relation to the issues involved in the above-entitled proceeding; and

It further appearing to the Commission that the hearing aforesaid should be reconvened in order that all interested parties may be heard with respect to the proposed payment aforesaid and in order that the Commission may determine what action if any may be appropriate with respect thereto:

It is hereby ordered, That the hearing aforesaid be reconvened at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated by the hearing room clerk at 10:00 a. m., on March 19, 1942, at which hearing the parties aforesaid and any other interested parties will be given an opportunity to be heard with respect to the proposed payment aforesaid.

It is further ordered, That without limiting the scope of issues presented by the proposed action aforesaid, particular at-

tention will be directed at said hearing to the following questions: (1) whether the proposed payment aforesaid will tend to circumvent the provisions of sections 12 (f) and 13 (e) of the Act, and (2) whether the proposed payment aforesaid will be detrimental to the public interest or the interest of investors or consumers.

Notice of such hearing is hereby given to the respondents above-named and P. M. Chandler and to any other person whose participation in these proceedings may be in the public interest.

It is further ordered, That the Secretary of the Commission shall serve notice of the entry of this order by mailing a copy thereof by registered mail to the respondents aforesaid and to P. M. Chandler and that notice shall be given to all other persons by publication thereof in the FEDERAL REGISTER.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 42-2336; Filed, March 17, 1942; 4:05 p. m.]

[File No. 70-512]

IN THE MATTER OF CITIES SERVICE COMPANY

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of March, A. D. 1942.

A declaration having been filed with this Commission by the above named party pursuant to section 12 (c) of the Public Utility Holding Company Act of 1935 and Rule U-42 thereunder; and

The said declaration concerning the following:

Cities Service Company, a registered holding company, proposes to expend not in excess of $5,000,000 in the acquisition of its outstanding 5% Debentures not held by affiliates during the 12-month period next following the date of any such order as the Commission might issue herein approving such proposal. Said acquisitions would be made (1) in the open market, either through brokers or dealers on securities exchanges or in the over-the-counter market, or (2) in private sales not solicited by the applicant and at prices not exceeding the current offering prices on the New York Curb Exchange at the time of such acquisition. No fees or commissions would be paid in connection with such acquisitions except the usual brokerage or dealers' commissions.

As of February 28, 1942 there were outstanding $149,441,828 principal amount of said Debentures, which mature in 1950, 1958, 1963, 1966, and 1968 in varying amounts. Net working capital balance of the company as of the same date amounted to approximately $27,253,000. As of December 31, 1940 the company had outstanding preferred and preference stocks in an aggregate par amount of $59,000,000, on which there were dividends in arrears aggregating $30,385,000.

The company estimates that on the basis of present market prices, such expenditures of $5,000,000 would enable it to acquire approximately $6,500,000 principal amount of said Debentures, resulting in an annual interest saving of $325,000 and a reduction in annual sinking fund requirements with respect thereto.

It appearing to the Commission that it is appropriate and in the public interest and the interest of investors that a hearing be held with respect to such declaration and that said declaration shall not become effective except pursuant to further order of the Commission:

It is ordered, That a hearing on such matter under the applicable provisions of the Public Utility Holding Company Act of 1935 be held on April 3, 1942 at 10:00 A. M. at the offices of the Securities and Exchange Commission 18th and Locust Streets Philadelphia Pa. On such day the hearing room clerk in room 318 will advise as to the room in which such hearing shall be held. At such hearing cause shall be shown why the aforesaid declaration shall become effective;

It is further ordered, That Richard Townsend, or any other officer or officers of the Commission designated by the Commission for that purpose, shall preside at the hearing in such matter. The officer so designated to preside at the hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act, and to a trial examiner under the Commission's Rules of Practice;

It is further ordered, That, without limiting the scope of the issues presented by the aforesaid declaration, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed acquisition by Cities Service Company of its 5% Debentures is in the public interest and the interest of investors.

2. Whether the methods proposed for such acquisitions of debentures are appropriate and in the public interest and the interest of investors.

3. Whether it is necessary or appropriate to impose any other terms or conditions in the public interest or for the protection of investors.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 42-2337; Filed, March 17, 1942; 4:05 p. m.]

[File No. 70-510]

IN THE MATTER OF ST. LOUIS COUNTY WATER COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania on the 12th day of March 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by St. Louis County Water Company, a subsidiary of Commonwealth Utilities Corporation, a registered holding company and a subsidiary of The United Gas Improvement Company, also a registered holding company; and

Notice is further given that any interested person may, not later than March 26, 1942, at 5:30 P. M., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the proposed transactions, which may be summarized as follows:

The issue and sale of $927,000 principal amount of First Mortgage Bonds, 3⅜% Series, maturing March 1, 1962, to The Prudential Insurance Company of America at a price of 103¾% plus accrued interest from March 1, 1942 to the closing date; the proceeds to be used to pay outstanding bank loans ($550,000), to reimburse the treasury of the declarant for capital expenditures, to provide funds for plant expansion, and for other corporate purposes; and

The reduction of the interest rate from 4% to 3⅜%, effective June 1, 1942, on the declarant's First Mortgage Bonds, 4% Series due June 1, 1955, presently outstanding and held by The Prudential Insurance Company of America in the principal amount of $3,523,000; the extension of the maturity date of said Bonds from June 1, 1955, to March 1, 1962; the revision of the redemption prices of said Bonds and the revision of certain provisions of the Indenture securing said Bonds and the modification of certain terms and provisions of the Indenture applicable to its First Mortgage Bonds, 3¼% Series due June 1, 1959, presently outstanding and held by The Prudential Insurance Company of America in the amount of $975,000; such modifications and revisions are to be set forth in a Second Supplemental Indenture, to be dated as of March 1, 1942, which is to be filed as an amendment.

Sections 6 and 7 of the Act are designated as being applicable to the proposed transactions.

By the Commission.

[SEAL] FRANCIS P. BRASSOR, *Secretary.*

[F. R. Doc. 42-2338; Filed, March 17, 1942; 4:06 p. m.]

[File No. 70-509]

IN THE MATTER OF NORTHERN STATES POWER COMPANY (MINN.) AND PEOPLES NATURAL GAS COMPANY (DEL.)

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 12th day of March A. D. 1942.

Notice is hereby given that a joint declaration and application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named parties.

Notice is further given that any interested person may, not later than March 27, 1942, at 5:30 P. M., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration and application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt the transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia, Pa.

All interested persons are referred to said declaration and application, which is on file in the office of said Commission, for a statement of the transaction therein proposed, which is summarized below:

Peoples Natural Gas Company (Delaware), a wholly owned subsidiary of Northern Natural Gas Company, a registered holding company, owns and operates certain properties used for the distribution of natural gas within the City of St. Paul, Minnesota under temporary permits and licenses from the City which, it is stated, expired on February 22, 1942 and are not renewable. The original cost of such property is stated at $132,550 with an allocated accrued depreciation reserve of $17,538. Northern States Power Company (Minnesota) proposes to acquire such property for a nominal consideration of $1.00 and as additional consideration will undertake to deliver gas for Peoples Natural Gas Company (Delaware), which is under contractual obligation to sell natural gas to certain industrial users.

By the Commission.

VOLUME 7 NUMBER 55

Washington, Friday, March 20, 1942

The President

EXECUTIVE ORDER 9102

ESTABLISHING THE WAR RELOCATION AUTHORITY IN THE EXECUTIVE OFFICE OF THE PRESIDENT AND DEFINING ITS FUNCTIONS AND DUTIES

By virtue of the authority vested in me by the Constitution and statutes of the United States, as President of the United States and Commander in Chief of the Army and Navy, and in order to provide for the removal from designated areas of persons whose removal is necessary in the interests of national security, it is ordered as follows:

1. There is established in the Office for Emergency Management of the Executive Office of the President the War Relocation Authority, at the head of which shall be a Director appointed by and responsible to the President.

2. The Director of the War Relocation Authority is authorized and directed to formulate and effectuate a program for the removal, from the areas designated from time to time by the Secretary of War or appropriate military commander under the authority of Executive Order No. 9066[1] of February 19, 1942, of the persons or classes of persons designated under such Executive Order, and for their relocation, maintenance, and supervision.

3. In effectuating such program the Director shall have authority to—

(a) Accomplish all necessary evacuation not undertaken by the Secretary of War or appropriate military commander, provide for the relocation of such persons in appropriate places, provide for their needs in such manner as may be appropriate, and supervise their activities.

(b) Provide, insofar as feasible and desirable, for the employment of such persons at useful work in industry, commerce, agriculture, or public projects, prescribe the terms and conditions of such public employment, and safeguard the public interest in the private employment of such persons.

(c) Secure the cooperation, assistance, or services of any governmental agency.

(d) Prescribe regulations necessary or desirable to promote effective execution of such program, and, as a means of coordinating evacuation and relocation activities, consult with the Secretary of War with respect to regulations issued and measures taken by him.

(e) Make such delegations of authority as he may deem necessary.

(f) Employ necessary personnel, and make such expenditures, including the making of loans and grants and the purchase of real property, as may be necessary, within the limits of such funds as may be made available to the Authority.

4. The Director shall consult with the United States Employment Service and other agencies on employment and other problems incident to activities under this order.

5. The Director shall cooperate with the Alien Property Custodian appointed pursuant to Executive Order No. 9095[2] of March 11, 1942, in formulating policies to govern the custody, management, and disposal by the Alien Property Custodian of property belonging to foreign nationals removed under this order or under Executive Order No. 9066 of February 19, 1942; and may assist all other persons removed under either of such Executive Orders in the management and disposal of their property.

6. Departments and agencies of the United States are directed to cooperate with and assist the Director in his activities hereunder. The Departments of War and Justice, under the direction of the Secretary of War and the Attorney General, respectively, shall insofar as consistent with the national interest provide such protective, police and investigational services as the Director shall find necessary in connection with activities under this order.

7. There is established within the War Relocation Authority the War Relocation Work Corps. The Director shall provide, by general regulations, for the

enlistment in such Corps, for the duration of the present war, of persons removed under this order or under Executive Order No. 9066 of February 19, 1942, and shall prescribe the terms and conditions of the work to be performed by such Corps, and the compensation to be paid.

8. There is established within the War Relocation Authority a Liaison Committee on War Relocation, which shall consist of the Secretary of War, the Secretary of the Treasury, the Attorney General, the Secretary of Agriculture, the Secretary of Labor, the Federal Security Administrator, the Director of Civilian Defense, and the Alien Property Custodian, or their deputies, and such other persons or agencies as the Director may designate. The Liaison Committee shall meet at the call of the Director and shall assist him in his duties.

9. The Director shall keep the President informed with regard to the progress made in carrying out this order, and perform such related duties as the President may from time to time assign to him.

10. In order to avoid duplication of evacuation activities under this order and Executive Order No. 9066 of February 19, 1942, the Director shall not undertake any evacuation activities within military areas designated under said Executive Order No. 9066, without the prior approval of the Secretary of War or the appropriate military commander.

11. This order does not limit the authority granted in Executive Order No. 9072[1] of December 12, 1941; Executive Order No. 9066 of February 19, 1942; Executive Order No. 9095 of March 11, 1942; Executive Proclamation No. 2525[2] of December 7, 1941; Executive Proclamation No. 2526[3] of December 8, 1941; Executive Proclamation No. 2527[4] of December 8, 1941; Executive Proclamation No. 2533[5] of December 29, 1941; or Executive Proclamation No. 2537[6] of January 14, 1942; nor does it limit the functions of the Federal Bureau of Investigation.

EXECUTIVE ORDER 9103

PROVIDING UNIFORM CONTROL OVER THE PUBLICATION AND USE OF FEDERAL STATISTICAL INFORMATION WHICH WOULD GIVE AID AND COMFORT TO THE ENEMY

By virtue of the authority vested in me by Title I of the First War Powers Act, 1941 (Public Law 354, 77th Congress, 1st Session) approved December 18, 1941; and in order to prevent the publication by Government agencies of statistical information which would lend aid or comfort to the enemy, and at the same time to make available to appropriate Federal officials such information as may be withheld from general publication during the war, it is hereby ordered as follows:

1. The Director of the Bureau of the Budget shall maintain a continuous surveillance of governmental publication of statistical data and shall determine in any instance whether the publication of statistical data by any Government agency would be in accordance with governmental policy designed to guard against the unauthorized disclosure of vital information as such policy is formulated by appropriate authority.

2. Statistical data ordinarily released to the public but withheld from general publication during the war shall be released to authorized users in Federal agencies in such manner and under such rules and regulations as the Director of the Bureau of the Budget may prescribe. This section shall not apply to munitions data classified by the Departments of War or Navy or the War Production Board as "secret."

TITLE 12—BANKS AND BANKING

Chapter II—Board of Governors of the Federal Reserve System

PART 201—DISCOUNTS FOR AND ADVANCES TO MEMBER BANKS BY FEDERAL RESERVE BANKS

Section 201.2 (b) is amended, effective March 20, 1942, to read as follows:

§ 201.2 *Advances to member banks.*

* * * * *

(b) *Advances on Government obligations.* Any Federal Reserve Bank may make advances, under authority of section 13 of the Federal Reserve Act, to any of its member banks for periods not exceeding ninety days[1] on the promissory note of such member bank secured by direct obligations of the United States, and for periods not exceeding fifteen days on the promissory note of such member bank secured (1) by the deposit or pledge of debentures or other such obligations of Federal Intermediate Credit Banks having maturities of not exceeding six months from the date of the advance, or (2) by the deposit or pledge of Federal Farm Mortgage Corporation bonds issued under the Federal Farm Mortgage Corporation Act and guaranteed both as to principal and interest by the United States, or (3) by the deposit or pledge of Home Owners' Loan Corporation bonds issued under the provisions of subsection (c) of section 4 of the Home Owners' Loan Act of 1933, as amended, and guaranteed both as to principal and interest by the United States. (Sec. 3, 48 Stat. 163, sec. 3, 40 Stat. 234, 42 Stat. 821, sec. 204, 49 Stat. 705, sec. 11 (i), 38 Stat. 262, sec. 402, 42 Stat. 1478, 1479, 45 Stat. 975, 46 Stat. 162, sec. 403, 42 Stat. 1479, sec. 9, 48 Stat. 180, sec. 16 (a), 48 Stat. 348, sec. 7 (a), 48 Stat. 646, 39 Stat. 753, sec. 5, 40 Stat. 235, 39 Stat. 754, sec. 404, 42 Stat. 1479, sec. 5, 47 Stat. 160, sec 10, 40 Stat, 239, sec. 505 (b), 48 Stat. 1263; 12 U.S.C. 301, 330, 12 U.S.C., Sup. 347b, 12 U.S.C. 248 (i), 343, 347, 361, 372, 373, 348-349, 351, 352, 374, 371)

Board of Governors of the Federal Reserve System.

[SEAL] S. R. CARPENTER,
Assistant Secretary.

[F. R. Doc. 42-2368; Filed, March 19, 1942; 9:37 a. m.]

[1] The eighth paragraph of section 13 of the Federal Reserve Act authorizes advances to member banks for periods not exceeding fifteen days secured by bonds, notes, certificates of indebtedness, or Treasury bills of the United States. However, the last paragraph of section 13 authorizes any Federal Reserve Bank to make advances for periods not exceeding ninety days "to any individual, partnership or corporation" on the promissory notes of such individual, partnership or corporation secured by "direct obligations of the United States"; and the term "corporation" includes an incorporated bank.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 239—FORMS, SECURITIES ACT OF 1933

AMENDMENT TO THE INSTRUCTION BOOK FOR FORM A-2

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Act of 1933, particularly sections 7, 10 and 19 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out the functions vested in it by said Act, hereby amends the Instructions as to Prospectuses for Employees' Savings, Profit Sharing or Pension Plans in the Instruction Book for Form A-2 to read as follows:

III. INSTRUCTIONS AS TO PROSPECTUSES FOR EMPLOYEES' SAVINGS, PROFIT SHARING OR PENSION PLANS

1. These instructions shall apply to prospectuses for shares of stock of an issuer in which funds of a savings, profit sharing, or pension plan for employees of the issuer are to be invested, if the prospectuses prepared in accordance herewith are sent or given only to employees of the issuer who have previously received a prospectus for registered interests or participations in the plan and for registered shares of stock of the issuer, and who have become members of the plan prior to receipt of a prospectus prepared in accordance herewith.

2. Any prospectus which is used as specified in instruction 1 above need contain only the following information:

(a) Such information (other than financial statements) in regard to the plan and the administration thereof and in regard to the issuer of the underlying stock and its subsidiaries as may be necessary to bring up to date the corresponding information furnished to members of the plan in previous prospectuses.

(b) Financial statements of the plan, corresponding to those included in previous prospectuses, for each fiscal year after the last fiscal year for which financial statements of the plan were furnished to members of the plan in previous prospectuses.

(c) Financial statements of the issuer of the underlying stock and its subsidiaries, corresponding to those included in previous prospectuses, for each fiscal year after the last fiscal year for which financial statements of the issuer and its subsidiaries were furnished to members of the plan in previous prospectuses.

3. The financial statements specified in instruction 2 above may be omitted from any prospectus used as specified in instruction 1 above, if—

(a) The fiscal year of the issuer of the underlying stock has ended within 90 days

prior to the date when it is desired to distribute the prospectus to members of the plan.

(b) The prospectus contains or is accompanied by financial statements (which need not be certified) substantially meeting the requirements of instruction 2.

(c) Within 120 days after the close of the fiscal year the financial statements omitted from the prospectus pursuant to this instruction are made conveniently available to all members of the plan at their respective places of employment.

(d) There is set forth in conspicuous print on the first page of the prospectus a statement as to the manner in which, and the approximate date on which, the financial statements will be made available to members of the plan pursuant to paragraph (c) of this instruction.

Effective March 19, 1942.

By the Commission.

Chapter I—Monetary Offices, Department of the Treasury

PART 132—GENERAL RULINGS UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO

GENERAL RULING NO. 11 UNDER EXECUTIVE ORDER NO. 8389, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO, RELATING TO FOREIGN FUNDS CONTROL

MARCH 18, 1942.

§ 132.11 *General Ruling No. 11.* (a) No license or other authorization now outstanding or hereafter issued, unless expressly referring to this general ruling, shall be deemed to authorize any transaction which, directly or indirectly, involves any trade or communication with an enemy national.

(b) As used in this general ruling and in any other rulings, licenses, instructions, etc.:

(1) The term "enemy national" shall mean the following:

(i) The Government of any country against which the United States has declared war (Germany, Italy and Japan) and the Governments of Bulgaria, Hungary and Rumania and any agent, instrumentality or representative of the foregoing Governments, or other person acting therefor, wherever situated (including the accredited representatives of other Governments to the extent, and only to the extent, that they are actually representing the interests of the Governments of Germany, Italy and Japan and Bulgaria, Hungary and Rumania); and

(ii) The government of any other blocked country having its seat within enemy territory, and any agent, instrumentality, or representative thereof, or other person acting therefor, actually situated within enemy territory; and

(iii) Any individual within enemy territory and any partnership, association, corporation or other organization to the extent that it is actually situated within enemy territory; and

(iv) Any person whose name appears on The Proclaimed List of Certain Blocked Nationals and any other person acting therefor.

(2) The term "enemy territory" shall mean the following:

(i) The territory of Germany, Italy and Japan; and

(ii) The territory controlled or occupied by the military, naval or police forces or other authority of Germany, Italy or Japan.

The territory so controlled or occupied shall be deemed to be the territory of Albania; Austria; that portion of Belgium within continental Europe; Bulgaria; that portion of Burma occupied by Japan; that portion of China occupied by Japan; Czechoslovakia; Danzig; that portion of Denmark within continental Europe; Estonia; that portion of France within continental Europe occupied by Germany or Italy; French Indo-China; Greece; Hong Kong; Hungary; Latvia; Lithuania; Luxembourg; British Malaya; that portion of the Netherlands within continental Europe; that portion of the Netherlands East Indies occupied by Japan; Norway; that portion of the Philippine Islands occupied by Japan; Poland; Rumania; San Marino; Thailand; that portion of the Union of Soviet Socialist Republics occupied by Germany; Yugoslavia; and any other territory controlled or occupied by Germany, Italy or Japan.

(3) The term "The Proclaimed List of Certain Blocked Nationals" shall mean "The Proclaimed List of Certain Blocked Nationals" as amended and supplemented, promulgated pursuant to the President's Proclamation of July 17, 1941.

(4) The term "trade or communication with an enemy national" shall mean the sending, taking, bringing, transportation, importation, exportation, or transmission of, or the attempt to send, take, bring, transport, import, export or transmit

(i) Any letter, writing, paper, telegram, cablegram, wireless message, telephone message or other communication of any nature whatsoever, or

(ii) Any property of any nature whatsoever, including any goods, wares, merchandise, securities, currency, stamps, coin, bullion, money, checks, drafts, proxies, powers of attorney, evidences of ownership, evidences of indebtedness, evidences of property, or contracts

directly or indirectly to or from an enemy national after March 18, 1942.

(c) This general ruling shall not be deemed to affect any outstanding specific license in so far as such license expressly authorizes any transaction which involves trade or communication with any person whose name appears on The Proclaimed List of Certain Blocked Nationals.

(d) Any transaction prohibited by section 3 (a) of the Trading with the enemy Act, as amended, is licensed thereunder unless such transaction is prohibited pursuant to section 5 (b) of that Act and not licensed by the Secretary of the Treasury. In this connection, attention is directed to the General License under section 3 (a) of the Trading with the enemy Act, issued by the President on December 13, 1941. (Sec. 5 (b), 40 Stat. 415 and 966; Sec. 2, 48 Stat. 1; 54 Stat. 179; Pub., No. 354, 77th Cong., 55 Stat. 838; E.O. 8389, Apr. 10, 1940, as amended by E.O. 8785, June 14, 1941, E.O. 8832, July 26, 1941, E.O. 8963, Dec. 9, 1941, and E.O. 8998, Dec. 26, 1941; Regs., Apr. 10, 1940, as amended June 14, 1941, and July 26, 1941)

PART 1032—DIRECT-CONSUMPTION SUGAR

INTERPRETATION NO. 1 OF GENERAL PREFERENCE ORDER NO. M-55, AS AMENDED JANUARY 24, 1942

The following official interpretation is hereby issued by the Director of Industry Operations with respect to § 1032.1, *General Preference Order M-55*,[1] as amended January 24, 1942.

Paragraph (a) of General Preference Order No. M-55 incorporates, by reference, the provisions of Priorities Regulation No. 1 (Part 944) to the extent that they are not inconsistent with the Order. § 944.14 of Priorities Regulation No. 1 provides, in part, that no person shall accept delivery of any material if his inventory of such material is, or will by virtue of such acceptance become, in excess of a practicable minimum working inventory. Consequently, the quantity of sugar which may be accepted under subparagraphs (d) (5) (vii), (viii), (ix), and (x), by any person is restricted by the application of the practicable minimum working inventory provision of Priorities Regulation No. 1 to the persons specified in said subparagraphs.

The provisions of General Preference Order No. M-55 do not prevent any receiver from transferring, without charge to his quota, the right to receive sugar due him from a distributor under any contract for future delivery executed prior to December 13, 1941, provided he has not accepted and does not accept actual or constructive delivery of such sugar and provided ultimate delivery is made in accordance with the Order. It is not material whether the cost of such sugar is billed by the distributor to the receiver who held the contract for future delivery or to the ultimate purchaser.

Issued this 19th day of March 1942. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

J. S. KNOWLSON, *Director of Industry Operations.*

PART 1034—TUNG OIL

AMENDMENT NO. 2 TO GENERAL PREFERENCE ORDER NO. M-57 TO CONSERVE THE SUPPLY AND DIRECT THE DISTRIBUTION OF TUNG OIL

Section 1034.1, as amended (*General Preference Order M-57*)[1] is hereby amended as follows:

Present paragraph (c) is hereby amended to read as follows:

(c) *Restrictions on use of tung oil.* After the effective date of this Order no person shall use or process any Tung Oil, except upon the following categories of orders:

(1) Defense orders having preference ratings of A-2 or better.

(2) Orders placed by Defense Supplies Corporation.

(3) Orders for the manufacture of can linings for cans to contain food products for human consumption.

(4) Orders for the manufacture of outside can coatings where wood oil is essential to withstand normal food processing.

(5) Orders for uses to comply with Underwriters' Regulations, Health, Sanitary or Safety Regulations or laws issued by Government authority, provided the pertinent provisions of such laws or regulations were in effect both on December 1, 1941, and on the date of such use and specifically require the use of Tung Oil or a product required specifically to be made from Tung Oil. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

This Order shall take effect immediately. Issued this 19th day of March 1942.

J. S. KNOWLSON, *Director of Industry Operations.*

40" 48/40 4.25 yd.

should read as follows:

40" 44/40 4.25 yd.

Chapter XI—Office of Price Administration

PART 1336—RADIO, X-RAY AND COMMUNICATION APPARATUS

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 84[1]—RADIO RECEIVER AND PHONOGRAPH PARTS

A statement of considerations involved in the issuance of this Amendment has been prepared and issued simultaneously herewith.[2]

Paragraph (a) of § 1336.101 is hereby amended to read as follows and a new § 1336.110a is added, as set forth below:

§ 1336.101 *Maximum prices for radio receiving sets and phonograph parts.*

* * * * * *

(a) *Parts sold and offered for sale between July 15, 1941, and October 15, 1941.* The maximum price, exclusive of federal excise tax, for any part offered during the period between July 15, 1941, and October 15, 1941, inclusive, for sale during such period, shall be the highest net price f. o. b. seller's point of shipment and exclusive of federal excise tax at which such part was billed by the manufacturer for delivery during such period, or if there was no such billing, the highest net price, exclusive of federal excise tax, at any time quoted in writing by the manufacturer for a delivery during such period to the same person or a person of the same general class, except that

(1) The maximum price for the basic record changer (Model No. 201) manufactured by General Instruments Corporation shall be $9.40.

* * * * * *

§ 1336.110a *Effective dates of amendments.* (a) Amendment No. 1 (§ 1336.101 (a)) to Revised Price Schedule No. 84 shall become effective March 20, 1942. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 18th day of March 1942.

JOHN E. HAMM, *Acting Administrator.*

[F. R. Doc. 42-2366; Filed, March 19, 1942; 9:22 a. m.]

PART 1340—FUEL

TEMPORARY MAXIMUM PRICE REGULATION NO. 11—MOTOR FUEL SOLD AT SERVICE STATIONS IN THE CURTAILMENT AREA

In the judgment of the Acting Price Administrator it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942 to establish temporarily as the maximum prices for motor fuel sold at service stations in the Curtailment Area the prices prevailing with respect thereto within five days prior to the issuance of this Regulation.

Therefore, under the authority vested in the Acting Price Administrator by the Emergency Price Control Act of 1942, and in accordance with the Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Temporary Maximum Price Regulation No. 11 is hereby issued.

§ 1340.171 *Maximum prices for motor fuel sold at service stations in the curtailment area.* On and after March 23, 1942, to and including 12 o'clock midnight on May 21, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver motor fuel at service stations in the curtailment area at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1340.181;

[1] 7 F.R. 581, 1106.
[2] 7 F.R. 182, 1024.
[1] 7 F.R. 1362.
[2] Filed with the Division of the Federal Register.
[1] 7 F.R. 971.

and no person shall agree, offer, solicit or attempt to sell or deliver motor fuel at service stations in the Curtailment Area at prices higher than the maximum prices.*

*§§ 1340.171 to 1340.182, inclusive, issued pursuant to Pub. Law 421, 77th Cong., 2d Sess.

§ 1340.172 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1340.181) may be charged, demanded, paid or offered.*

§ 1340.173 *Conditional agreements.* No seller of motor fuel at service stations in the curtailment area shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1340.181, in the event that this Temporary Maximum Price Regulation No. 11 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment under § 1340.178 has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment.*

§ 1340.174 *Evasion.* The price limitations set forth in this Temporary Maximum Price Regulation No. 11 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to motor fuel sold at service stations in the curtailment area, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade undertanding, or otherwise.*

§ 1340.175 *Posting of prices.* Every person selling motor fuel at a service station in the curtailment area in the course of trade or business, or otherwise dealing therein, shall post conspicuously the maximum prices established by Temporary Maximum Price Regulation No. 11 for each grade of motor fuel sold at that service station. Such maximum price posting shall be marked "Maximum Prices" in letters at least five inches in height, and shall indicate the maximum price for each grade of motor fuel in figures no smaller than those in which the selling price at the pump is posted.*

§ 1340.176 *Records and reports.* Every person making sales of motor fuel after March 23, 1942, at a service station in the curtailment area in the course of trade or business, or otherwise dealing therein, shall keep such records for inspection and submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1340.177 *Enforcement.* (a) Persons violating any provision of this Temporary Maximum Price Regulation No. 11 are subject to the criminal penalties and civil enforcement actions provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Temporary Maximum Price Regulation No. 11 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.*

§ 1340.178 *Petitions for amendment.* Persons seeking any modification of this Temporary Maximum Price Regulation No. 11 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.*

§ 1340.179 *Replacement by regulation.* This Temporary Maximum Price Regulation No. 11 may be replaced by a permanent maximum price regulation or order issued under the Emergency Price Control Act of 1942, which upon issuance shall have the effect of revoking this Temporary Maximum Price Regulation No. 11.*

§ 1340.180 *Definitions.* (a) When used in this Temporary Maximum Price Regulation No. 11, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Motor fuel" means liquid fuel, except Diesel fuel, used for the propulsion of motor vehicles or motor boats and shall include any liquid fuel to which Federal gasoline taxes apply except liquid fuel used for the propulsion of aircraft.

(3) "Service station" means any place of business or part thereof, where motor fuel is delivered into the fuel supply tanks of motor vehicles or motor boats.

(4) "Curtailment area" means the States of Oregon, Washington, Connecticut, Delaware, Florida east of the Apalachicola River, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and the District of Columbia.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.*

§ 1340.181 *Appendix A: Maximum prices for motor fuel sold at service stations in the curtailment area.* (a) The maximum price for each grade of motor fuel at each service station in the curtailment area shall be no higher than the price posted at such service station for each grade of motor fuel at the close of business or at eleven o'clock at night on March 13, 1942.

(b) Where the maximum price for any grade of motor fuel at a service station in the curtailment area cannot be determined under (a) above, the maximum price shall not be in excess of the price charged on the last sale of such motor fuel made prior to March 13, 1942 at the same service station, provided such sale was made after January 13, 1942.

(c) Where the maximum price for any grade of motor fuel at a service station in the curtailment area cannot be determined under (a) or (b) above, sellers may establish a temporary maximum price, which must be equal to or lower than the maximum price for that grade of motor fuel for other service stations in the locality, if any, which shall be submitted to the Office of Price Administration within ten days after the establishment of such price for approval or disapproval.*

§ 1340.182 *Effective period.* Temporary Maximum Price Regulation No. 11 (§§ 1340.171 to 1340.182, inclusive) shall become effective March 23, 1942, and shall, unless earlier revoked or replaced, expire at twelve o'clock midnight on May 21, 1942.

Issued this 18th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42-2364; Filed, March 18, 1942; 5:07 p. m.]

PART 1351—FOODS AND FOOD PRODUCTS

ORDER NO. 1 UNDER REVISED PRICE SCHEDULE NO. 91[1]—TEA

For reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, it is hereby ordered:

§ 1351.351 *Order No. 1 under Revised Price Schedule No. 91.* (a) Eppens, Smith Company, Warren and Washington Streets, New York and Elway Food Products Corp., 22 Hudson Street, New York may sell and deliver, and agree, offer, solicit and attempt to sell and deliver, the kinds, grades and quantities of tea set forth in paragraph (b), at prices not in excess of those stated therein, and the persons named therein as the buyers may buy and receive, and agree, offer, solicit and attempt to buy and receive, such kinds, grades and quantities of tea at such prices from Eppens, Smith Company and Elway Food Products Corp., respectively.

(b) The prices listed below shall be the maximum prices at which each of the sellers listed may deliver the kind, grade and quality of tea named.

(1) The following prices apply to Eppens, Smith Company:

Chapter XVI—Office of Censorship

[Regulation No. 1]

PART 1804—POSTAL CENSORSHIP REGULATIONS

HANDLING OF PUBLICATIONS CONTAINING SCIENTIFIC, TECHNICAL, OR PROFESSIONAL DATA

Sec.
1804.1 License necessary for export.
1804.2 Application for license.
1804.3 Questionnaire and affidavits.
1804.4 Review of publication material.
1804.5 Issuance of license.
1804.6 Declaration of content.
1804.7 Correspondence.
1804.8 Who shall make application.

§ 1804.1 *License necessary for export.* Effective April 1, 1942, publications devoted in whole or in part to scientific, technical, or professional data which may contain information, the transmission of which to foreign countries may be inimical to the military interests of the United States, will be licensed prior to export. Before a license will be granted, the conditions set forth in §§ 1804.2 to 1804.6 inclusive, must be complied with.*

*§§ 1804.1 to 1804.8, inclusive, issued under the authority contained in E.O. 8985, 6 F.R. 6625.

§ 1804.2 *Application for license.* Applications for licenses shall be made to the Technical Data License Division, Office of Export Control, Board of Economic Warfare on forms provided by and available at that Agency. A separate application must be made for each license, and a separate license will be required for each issue of each publication. The application will show the name of the publisher, the name of the publication, the period covered by the particular issue, and names of the countries to which export is to be made. With each application there shall be submitted two copies of the publication in galley proof or other copy.*

§ 1804.3 *Questionnaire and affidavits.* With the initial application for a license a Censorship questionnaire shall be filed on forms provided by and available at the Technical Data License Division. This questionnaire will show complete information concerning the publisher, including the nationality of all officials and a list of all enemy alien employees. At the time the initial application is made, each publisher will be required to designate from one to three employees to be charged with supervising the wrapping of the publication. Accompanying the questionnaire will be an affidavit of each such employee showing that he is an American citizen or, if not a citizen, that he has been approved by the Chief Postal Censor, length of time employed by the applicant, and that the employee has never been, and is not now, connected with any organization advocating the overthrow of the United States Government by force or violence. Each employee making such affidavit shall furnish three specimens of his signature. Accompanying the questionnaire there will also be an affidavit of the employer which will show the length of time the employees mentioned above have been employed, and that investigation has shown that none is or has been connected with any organization advocating the overthrow of the United States Government by force or violence, and that each such employee is loyal and trustworthy. This affidavit must be signed by a responsible officer of the applicant.*

§ 1804.4 *Review of publication material.* Upon receipt of each application for a license, the Technical Data License Division, Office of Export Control, Board of Economic Warfare, will review the copies of the publication submitted for objectionable subject matter from the viewpoint of Censorship Requirements and Regulations and national security. Every effort will be made to notify applicants of approval or other decision within forty-eight hours of receipt of the material. If certain portions are not approved for export, such portions will be suitably marked and the material returned to the applicant. The material may then be resubmitted on the same application form for further examination after deletion of the marked portions. Upon final approval of the material, the Technical Data License Division will recommend to the Office of Censorship that a license be granted. Ordinarily, such license will issue immediately thereafter.*

§ 1804.5 *Issuance of license.* A license from the Office of Censorship, when granted, will authorize the publisher to export the designated number of copies of the particular issue of the publication to the foreign countries specified therein. The license will not be transferable, and will be subject to revocation without notice. The possession of the license will not relieve the holder of the necessity of obtaining any other permit or license that may be required by any other Governmental Agency. The license will be granted on the express condition that

each copy of the publication mailed thereunder corresponds in every respect to the copy submitted to and approved by the Technical Data License Division, and on the further condition that the wrapping of all copies for export will be under the supervision of one of the employees designated in the questionnaire.*

§ 1804.6 *Declaration of content.* As soon as the license from the Office of Censorship is granted, the publisher may then release the issue for export subject to the following conditions. Copies for foreign shipment shall be securely wrapped without open ends. A Declaration of Content shall be affixed to the outer cover of each package for export, which Declaration shall show the number of copies, the name of the publisher, the name of the publication, the destination, and the license number. The Declaration shall further state that none of the copies are addressed to persons in enemy or enemy-occupied territory and that the material in the package corresponds in every respect to that approved by the Office of Censorship for which a license with a designated number has been granted. The Declaration shall further state that the package has been wrapped under the supervision of a designated employee of the publisher and that it does not contain any additional enclosures, writings, or other extraneous material. The Declaration shall be signed by the employee under whose supervision it was wrapped and whose name is shown thereon, such employee to be one of those previously designated by the publisher and whose signature is on file in the Office of Censorship. The package may then be posted in the usual manner.*

§ 1804.7 *Correspondence.* All correspondence concerning the approval, disapproval, deletions, or corrections of the material in the publication shall be directed to the Technical Data License Division, Office of Export Control, Board of Economic Warfare, Washington, D. C.*

§ 1804.8 *Who shall make application.* Initially, each publisher considered by the Board of Economic Warfare as coming within the provisions of § 1804.1 will be sent a separate letter enclosing blank forms of the application, questionnaire, and affidavits. It shall be the duty, however, of any other publisher engaged in publishing periodicals containing scientific, technical, or professional data to make application for a license prior to exporting such periodicals. After April 1, 1942, no publication coming within the provisions of § 1804.1 will be cleared for export by the Office of Censorship unless a license has been obtained and all the requirements of §§ 1804.5 and 1804.6 have been complied with.*

PART 1805—COMMUNICATIONS RULINGS

COMMUNICATIONS RULING NO. 1

By virtue of the authority vested in me by Executive Order No. 8985 (F. R. Doc. 41-9600) and T. D. 50536 (F. R. Doc. 41-9799):

§ 1805.1 *Communications Ruling No. 1.* (a) The sending or transmitting out of the United States in the ordinary course of the mail of any letter or other writing, book, or other paper, or through any public telegraph or cable service of any telegram, cablegram or wireless message of any communication is permitted, provided that both of the following conditions are satisfied:

(1) Such communication complies with all regulations issued by the Office of Censorship; and

(2) Such communication is not addressed to or intended for, or to be delivered, directly or indirectly, to an enemy national.

(b) Nothing contained in this Ruling shall be deemed to limit the authority of the Office of Censorship to cause to be censored in its absolute discretion, communication by mail, cable, radio or other means of transmission passing between the United States and any foreign country. All communications permitted by this Ruling shall be subject to censorship as fully as if this Ruling had not been issued.

(c) As used in this Ruling the term "United States" and the term "person" shall have the meaning prescribed in Executive Order No. 8389, as amended,[1] and the term "enemy national" shall have the meaning prescribed in General Ruling No. 11, issued by the Secretary of the Treasury thereunder.

(d) This Ruling may be amended or modified at any time; and the right is reserved to exclude from the operation hereof, or from the privileges hereby conferred, and to restrict the applicability hereof with respect to, particular persons or communications or classes thereof. (Sec. 3, 40 Stat. 412, as amended, and sec. 303, 55 Stat. 838; E.O. 8985, 6 F.R. 6625; T.D. 50536, 6 F.R. 6807)

[OCD Regulations 1]

PART 1901—LOANS OF EQUIPMENT AND SUPPLIES TO CIVIL AUTHORITIES

By virtue of the authority vested in me by Executive Order No. 8757 dated May 20, 1941, and Executive Order No. 9088 dated March 6, 1942, and pursuant to section 1 of the Act approved January 27, 1942, and in accordance with Article 13 of Executive Order No. 9088 dated March 6, 1942, authorizing the Director of Civilian Defense to make and issue such rules, regulations and orders as he may deem necessary or desirable to carry out the purposes of the aforementioned Act of January 27, 1942, the following regulations are hereby made and issued:

Sec.
1901.1 General program.
1901.2 Definitions.
1901.3 Certificate and Agreement of civil authority of borrowing community.
1901.4 Duties of Regional Directors.
1901.5 Appointment and tenure of State and local property officers.
1901.6 Bonding of property officers.
1901.7 Distribution of civilian defense property.
1901.8 Duties of State property officers.
1901.9 Duties of local property officers.
1901.10 Operating instructions.

§ 1901.1 *General program.* (a) The Director of Civilian Defense will from time to time make available to localities of the United States, its territories and possessions, equipment and supplies for the protection of persons and property from bombing attacks, sabotage and other war hazards.

(b) Such equipment and supplies will be made available by loans to communities within the States, which communities may in turn distribute, under the direction of the local defense council, the equipment and supplies to responsible and qualified individuals or organizations, all in accordance with regulations issued by the Director of Civilian Defense.

(c) Each borrowing community will designate a local property officer who will act as custodian of the property and will be responsible therefor to the Officer of Civilian Defense. State property officers are to be appointed to maintain records with respect to all property loaned in their respective States or areas, and property may, in certain instances, be delivered to the communities through such State property officers. State property officers and local property officers will deal with and distribute the property only in the manner prescribed by the Director of Civilian Defense.

(d) Regional Directors of the Office of Civilian Defense are to supervise the activities of State property officers and local property officers.

(e) The equipment and supplies shall at all times be at the disposition of the United States Government, and the United States Government shall retain its full rights as owner, lessee or borrower, as the case may be, of such property. To such extent as may be practicable, all such supplies and equipment shall at all times be clearly and distinctly marked as the property of, or under the control of, the United States Government, Office of Civilian Defense.

(f) The regulations in this part governing such loans are part of the agreement of each community receiving such a loan, and in addition should serve as a guide to State and local property officers in the performance of their duties.*

*§§ 1901.1 to 1901.10, inclusive, issued under the authority contained in Pub. Law 415, 77th Cong., 2d Sess.; E.O. 8757, 6 F.R. 2617, and E.O. 9088, 7 F.R. 1775.

§ 1901.2 *Definitions.* (a) "Civil authority" means any State or community, as hereinafter defined, or any duly elected or appointed official, agent, board, commission or other body of persons duly authorized to act on behalf of any State or community.

(b) "State" means any State or territory or possession of the United States, and, in addition, means any area designated by the Director of Civilian Defense as a special area for purposes of these regulations.

(c) "Community" means any municipality, town or village, or any other political subdivision of any State, or any area designated by the Director of Civilian Defense as a community for purposes of these regulations.

(d) "Chief executive officer" means the mayor of a community or other person or body exercising paramount local executive power.

(e) "Local defense council" means the body duly appointed by the duly authorized appointive authority to be responsible for civilian defense in the community.

(f) "Director of Civilian Defense" means the Director of the Office of Civilian Defense appointed by the President of the United States.

(g) "Federal law" means the "Act to provide protection of persons and property from bombing attacks in the United States, and for other purposes" approved January 27, 1942, and acts supplemental thereto relating to the Office of Civilian Defense, and Executive Orders issued pursuant to such acts or relating to the Office of Civilian Defense.

(h) "Property" means equipment and supplies belonging to, or under the control of, the Office of Civilian Defense.

(i) "Accountability" devolves upon any person who is required to maintain records and a property account with respect to property, whether or not in the custody of such person, and is discharged by the maintenance of proper records and accounts and by the production of proper receipts for all property received by such person but no longer in his custody.

(j) "Responsibility" devolves upon any person who has custody of property or the duty to supervise others having such custody, and is discharged by the exercise of good faith and due care in the performance of all specified duties.*

§ 1901.3 *Certificate and Agreement of civil authority of borrowing community.* Each community to which a loan of property is to be made by the Director of Civilian Defense, shall, prior to the making of such loan, furnish to the Office of Civilian Defense a Certificate and Agreement, on OCD Form Number 501, duly executed by its chief executive officer, as the civil authority of the community duly authorized to act in such respect, which Certificate and Agreement shall include, among other things, a certification that the community is in need of, but unable to provide, the property therein specified, an agreement on behalf of the community as to the maintenance, use, distribution and return of the property, and a certification as to the appointment, by the duly authorized appointive authority, of a designated local property officer as the agent of the community authorized to receive the property on behalf of the community and to perform the duties prescribed with respect thereto by the Director of Civilian Defense. Each local property officer shall agree, on OCD Form Number 501, to comply with all rules, regulations, orders, and instructions of the Director of Civilian Defense. Such Certificates and Agreements shall be executed in duplicate, one copy to be filed with the Office of Civilian Defense, Washington, D. C., and one copy with the Regional Director.*

§ 1901.4 *Duties of Regional Directors.* Regional Directors of the Office of Civilian Defense, appointed by the Director of Civilian Defense, will supervise the activities of State property officers and local property officers with the view of assuring compliance with rules, regulations, orders and instructions of the Director of Civilian Defense. Regional Directors are authorized to take such steps as may be deemed by them to be desirable to supervise the arrangements made by State property officers and local property officers with respect to the storage, handling, maintaining, protecting, delivering and returning of all property and the maintaining and filing of proper reports, records and accounts with respect thereto, and in particular with respect to the distribution of property in the communities in accordance with the provisions of § 1901.7; and they shall from time to time make inspections for such purpose.*

§ 1901.5 *Appointment and tenure of State and local property officers.* (a) As a condition precedent to the making of any loan to a community in any State, the Governor of such State shall duly appoint a State property officer. In the event that an area is designated as a special area by the Director of Civilian Defense, a State property officer thereof shall, as a condition precedent to a loan to any community therein, be duly appointed by the Governor of the State in which the largest city in such area is located, and in such case the State property officer for the State or States in which such special area is located shall have no duties or accountability with respect to the said special area. The duties and obligations of each State property officer shall be as set forth in these regulations or as otherwise prescribed by the Director of Civilian Defense. Each State property officer shall hold office during the pleasure of the appointing Governor. Appointments of State property officers shall be on OCD Form Number 500, executed in duplicate, one copy to be filed with the Office of Civilian Defense, Washington, D. C., and one copy with the Regional Director; each State property officer shall agree thereon to comply with all rules, regulations, orders and instructions of the Director of Civilian Defense.

(b) As a condition precedent to the making of any loan to a community, the duly authorized appointive authority of such community shall duly appoint a local property officer to serve as the authorized agent of the community to receive such loan upon such terms and conditions as shall be prescribed by the Director of Civilian Defense. The duties and obligations of each local property officer shall be as set forth in these regulations or as otherwise prescribed by the Director of Civilian Defense. Each local property officer shall hold office during the pleasure of the local appointive authority.*

§ 1901.6 *Bonding of property officers.* (a) The Office of Civilian Defense, Washington, D. C., requires State property officers to be bonded in the amount of $10,000 to the Federal Government, and the obligation for the premium thereon shall be assumed by the State property officer or by the State designating any such State property officer.

(b) The Office of Civilian Defense, Washington, D. C., requires local property officers to be bonded to the Federal Government, in the amount of $10,000 in communities whose population is 200,000 or more, and $5,000 in other communities, and the obligation for the premium thereon shall be assumed by the local property officer or by the community for which the local property officer has been designated.

(c) Each such bond shall be executed on OCD Form Number 502 and by such corporate surety as shall be acceptable to the Director of Civilian Defense.

(d) Bonds of State and local property officers shall be executed in triplicate, two copies to be filed with the Office of Civilian Defense, Washington, D. C., and one copy to be filed with the Regional Director.*

§ 1901.7 *Distribution of civilian defense property.* Each local property officer shall distribute the property received by him, as the authorized agent of his community, to responsible and qualified individuals or organizations in his community or the territory adjacent thereto, in such amounts and in such manner as the local defense council shall deem advisable in order to comply with the requirements of Federal law, including the requirement that such property shall be distributed for the adequate protection of persons and property from bombing attacks, sabotage or other war hazards: *Provided, however,* That such distribution shall at all times be subject to and in accordance with such rules, regulations, orders and instructions as the Director of Civilian Defense may make with respect thereto. Each local property officer shall obtain from each individual or organization to whom any property is distributed, whether for further distribution or for their own use, as well as from any transferee of such property, a duly executed OCD Form Number 519, which shall constitute a receipt for the property and an agreement with respect to the protection, maintenance, use and return thereof in accordance with all rules, regulations, orders and instructions of the Director of Civilian Defense.*

§ 1901.8 *Duties of State property officers.* The duties of each State property officer are to:

(a) Receive all property shipped to him by the Office of Civilian Defense for communities within his State or area, and cause such property to be delivered forthwith and without delay to the local property officers of the respective communities, in such amounts and manner as shall be specified in any order or instruction issued by the Office of Civilian Defense, Washington, D. C.

(b) Maintain an adequate record of all property delivered to him and all property delivered to local property officers within his State or area, and preserve all receipts for such property.

(c) Prepare and submit to the Office of Civilian Defense, Washington, D. C., and to his Regional Director, reports and information in such form and manner as required by them, respectively, as to the location, custody, condition and status of all property in his State or area.

(d) Supervise the examination and checking of all property shipped to or by him.

(e) Supervise the storage and handling of all property in his custody, and make arrangements so that such property may be inspected at any time by the representatives of the Office of Civilian Defense.

(f) Make arrangements, satisfactory to the Office of Civilian Defense, Washington, D. C., adequately to store, handle, maintain, protect, deliver and return all property in his custody, and provide suitable facilities, at the expense of his State, for the proper storage, handling, protection, delivery and return of all such property: *Provided, however,* That he is not required to obtain fire, burglary or other insurance with respect to any property.

(g) Make arrangements, satisfactory to the Office of Civilian Defense, Washington, D. C., for the prompt return of any property received by him (unless lost, destroyed or consumed in the course of its use in accordance herewith and proper report of adjustment with respect thereto has been filed with and approved by the Office of Civilian Defense) and in his custody if and when recalled for any reason whatsoever by the Office of Civilian Defense, Washington, D. C., and cause such property forthwith and without delay to be expeditiously transported and delivered to or upon the order of the Office of Civilian Defense, Washington, D. C.: *Provided, however,* That any reasonable expense incident to the return of such property will be borne by the Office of Civilian Defense upon the presentation of duly verified vouchers.

(h) Be accountable to the Office of Civilian Defense for all property within his State or area.

(i) Be responsible to the Office of Civilian Defense for the performance of his duties, including the storing, handling, maintaining, protecting, delivering and returning of all property received by him or his agents until such property shall have been delivered by him to and received by local property officers in accordance with rules, regulations, orders and instructions of the Director of Civilian Defense.

(j) Perform such other duties as may be necessary in administering his office, or as shall be prescribed by the Director of Civilian Defense.

State property officers may appoint agents to assist in the performance of their duties, but shall be responsible for the acts or omissions of such agents.*

§ 1901.9 *Duties of local property officers.* The duties of each local property officer are to:

(a) Receive all property loaned to his community by the Office of Civilian Defense and shipped to him, as the agent of his community, by the Office of Civilian Defense or by or on behalf of the State property officer, and cause such property to be distributed forthwith and without delay in accordance with § 1901.7 and any other rules, regulations, orders or instructions of the Director of Civilian Defense.

(b) Maintain an adequate record of all property delivered to him or for his account, and of all property distributed by him, directly or indirectly, to individuals or organizations within his community or in territory adjacent thereto, and preserve all receipts for such property.

(c) Prepare and submit reports and information, in such form and manner as required by his State property officer or the Office of Civilian Defense, Washington, D. C., or his Regional Director as to the location, custody, condition, and status of all property loaned to his community.

(d) Supervise the examination and checking of all property shipped to or by him.

(e) Supervise the storage and handling of all property in his custody, and make arrangements so that such property may be inspected at any time by representatives of the Office of Civilian Defense.

(f) Pursuant to the agreement of his community contained in OCD Form Number 501, make arrangements satisfactory to the Office of Civilian Defense, Washington, D. C., adequately to store, handle, maintain, protect, deliver and return all property in his custody, and supervise the furnishing of suitable facilities and the making of suitable arrangements for the proper storage, handling, maintenance, protection, distribution and return of all property loaned to his community but in the custody of others: *Provided, however,* That he is not required to obtain fire, burglary or other insurance with respect to any property.

(g) Ascertain, as a condition precedent to the distribution by him of any property, that the individuals or organizations to whom the property is to be distributed, either by him or by individuals or organizations to whom he in the first instance shall have distributed, have arranged for and provided suitable facilities as specified in paragraph (f) of this section.

(h) Ascertain, before distributing any fire fighting pumping units, that the community, pursuant to its Agreement contained in OCD Form No. 501, has provided an appropriate vehicle on which said pumps and equipment will be mounted at the expense of the community, to assure the mobility of such equipment.

(i) Obtain from all individuals or organizations in his community to whom any property is distributed, whether for further distribution or for their own use, as well as any transferee of such property, a receipt and agreement as provided in § 1901.7.

(j) Make arrangements satisfactory to the Office of Civilian Defense, Washington, D. C., for the prompt return of all property loaned to his community (unless lost, destroyed or consumed in the course of its use in accordance herewith and proper report of adjustment with respect thereto has been filed with and approved by the Office of Civilian Defense) if and when recalled for any reason whatsoever by the Office of Civilian Defense, Washington, D. C., and cause such property forthwith and without delay to be expeditiously transported and delivered to or upon the order of the Office of Civilian Defense, Washington, D. C.: *Provided, however,* That any reasonable expense incident to the return of such property will be borne by the Office of Civilian Defense upon the presentation of duly verified vouchers.

(k) Be responsible to the Office of Civilian Defense for the performance of his duties, including (1) the storing, handling, maintaining protecting, delivering and returning of all property received by him or his agents until such property shall have been distributed by him to and received by individuals or organizations in accordance with rules, regulations, orders and instructions of the Director of Civilian Defense, and (2) the supervising of the performance of the duties of distributees to whom custody of property is to be or has been so transferred.

(l) Initiate and transmit Reports of Adjustment (on OCD Form 518) when required by rules, regulations, orders or instructions of the Director of Civilian Defense.

(m) Perform such other duties as may be necessary in administering his office, or as shall be prescribed by the Director of Civilian Defense.

Local property officers may appoint agents to assist in the performance of their duties, but shall be responsible for the acts or omissions of such agents.*

§ 1901.10 *Operating instructions.* The Office of Civilian Defense, Washington, D. C., will from time to time issue instructions to State and local property officers relating to procedures and forms for use in performance of their duties.*

[SEAL] JAMES M. LANDIS,
Director of Civilian Defense.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Navy

PART 6—ANCHORAGE REGULATIONS

REGULATIONS FOR THE CONTROL OF VESSELS IN THE TERRITORIAL WATERS OF THE UNITED STATES

Pursuant to the authority contained in section 1, Title II of the Espionage Act approved June 15, 1917, 40 Stat. 220 (U.S.C. title 50, sec. 191), as amended by the Act of November 15, 1941 (Pub. Law 292, 77th Cong.), and by virtue of the Proclamation and Executive Order issued June 27, 1940 (5 F.R. 2419), and November 1, 1941 (6 F.R. 5581), respectively, the Regulations relating to the control of vessels in the territorial waters of the United States (5 F.R. 2442), issued by the Secretary of the Treasury and approved by the President on June 27, 1940, as amended on October 7, 1941 (6 F.R. 5221), are hereby further amended as follows:

Paragraph (a) of § 6.6, *Special authorization for licenses,* etc., is changed to read as follows:

§ 6.6 *Special authorization for licenses.* (a) Except with respect to the departure of a vessel for which a departure permit is required by § 6.7, or in case of emergency missions to save life or property in distress, no vessel shall depart from the local waters of the United States, its territories or possessions, to a point or place outside of said waters or on the high seas unless the owner, agent, or master of such vessel shall first obtain from the captain of the port in whose jurisdiction the vessel is to depart a license authorizing such departure. The term "local waters," as used in this paragraph and in paragraph (b) of this section, embraces all territorial waters of the United States, its territories and possessions, such as rivers, harbors, bays, sounds, roadsteads, inlets and other arms of the sea between projections of land, and the Great Lakes, but does not include any portion of the high seas below the shore-line along the coasts of the United States, its territories or possessions, or outside the arms of the sea between projections of land, even though within the traditional three-mile limit. Subject to the provisions of paragraph (c) of this section, the captain of the port will issue a license to depart from local waters only in the following cases:

(1) Where the vessel is regularly (or seasonably) employed as a means of livelihood outside of local waters, or on the high seas, such as for fishing, transporting passengers or freight for hire, or for any other legitimate business: *Provided,* That the master, operator, or person in charge of such vessel is a citizen of the United States, or at least fifty percentum of the personnel complement of said vessel are not aliens: *Provided further,* That no departure license shall be granted to any vessel having an enemy alien on board, either in the capacity of master, operator, person in charge, member of the crew or passenger.

(2) Where it is necessary for the vessel to depart from local waters, or from territorial waters outside of local waters, for the purpose of transportation of the vessel under its own power to a permanent location within local waters at some distant point: *Provided,* That if such transportation will involve passage through, or arrival within, waters under the jurisdiction of another captain, or other captains of the port, the captain of the port issuing the license shall send appropriate notification thereof to the captain of the port in each of whose jurisdictions the vessel will proceed and arrive at final destination: *Provided further,* That no departure license shall be granted to any such vessel having an enemy alien on board, either in the capacity of master, operator, person in charge, member of the crew or passenger.

Before making the finding required by paragraph (c) of this section and issuing a departure license under the provisions of this paragraph, the captain of the port shall cause an inspection to be made of the vessel involved and such other investigation as may be deemed necessary, and shall, prior to the departure of said vessel, require every person on board to meet the identification requirements of § 6.4 (b).

Paragraph (b) of § 6.6, *Special authorization for licenses,* etc., is changed to read as follows:

(b) Except (1) with respect to the departure of a vessel for which a departure permit is required by § 6.7, (2) or for which a departure license is required by paragraph (a) of this section, (3) or in case the vessel is included in a general license issued by the Commandant, with the approval of the Secretary of the Navy, under paragraph (d) of this section, (4) or in case of emergency missions to save life or property in distress, no vessel shall move in local waters of the United States, its territories or possessions, unless the owner, agent, or master of such vessel shall first obtain from the captain of the port in whose jurisdiction the vessel is to move a license authorizing such movement. No license will be issued to a vessel, other than a common carrier primarily engaged in the transportation of passengers for hire over regularly scheduled routes, which has, or intends to have, an enemy alien, as hereinafter defined, on board in any capacity. The captain of the port may, in his discretion and in appropriate cases, issue one license covering the requirements of this paragraph and paragraph (a) of this section. Each license issued by the captain of the port under this paragraph shall contain a condition that such license will not be valid and will cease and determine if the vessel to which it pertains, other than a common carrier primarily engaged in the transportation of passengers for hire over regularly scheduled routes, has on board an enemy alien in any capacity, or that, if the vessel is a common carrier primarily engaged in the transportation of passengers for hire over regularly scheduled routes and has an enemy alien on board, and such enemy alien has not complied with all applicable travel regulations of the Attorney General, or other proper federal authority. For the purposes of this section, the term "enemy alien" shall include the following:

(1) All aliens of the age of 14 years or older who were or are natives, citizens, or subjects of Germany, Italy, or Japan.

(2) All aliens of the age of 14 years or older who at present are stateless, but who at the time they became stateless were citizens or subjects of Germany, Italy, or Japan.

The term "enemy alien", for the purposes of this section, shall not include the following:

(3) Former German, Italian, or Japanese citizens or subjects who, before December 7, 1941, in the case of former Japanese citizens or subjects, and before December 8, 1941, in the case of former German or Italian citizens or subjects became and are citizens or subjects of any nation other than Germany, Italy, or Japan.

(4) Austrians or Austrian-Hungarians (Austro-Hungarians) or Koreans who registered as such under the Alien-Registration Act of 1940, provided that such persons have not at any time voluntarily become German, Italian, or Japanese citizens or subjects.

But nothing contained in subparagraphs (3) and (4) of this section shall be construed as limiting in any manner the authority of the captain of the port under the last clause of § 6.4 (a) with respect to any person described in subparagraphs (3) or (4) of this section, or any other person, if such action is deemed warranted in any case.

FRANK KNOX,
Secretary of the Navy.

Approved:

FRANKLIN D ROOSEVELT
THE WHITE HOUSE, *March 17, 1942*

[F. R. Doc. 42-2387; Filed, March 19, 1942; 11:54 a. m.]

PART 9—GENERAL LICENSES FOR MOVEMENTS OF VESSELS WITHIN, OR DEPARTURE FROM, TERRITORIAL WATERS

By virtue of the authority vested in me by § 6.6 (d) of this chapter (6 F.R. 5222), and in accordance with the provisions of § 9.1 (c) (1) (6 F.R. 5342), I hereby find that the continuance in force of General License No. 1 (§ 9.1 *General License No. 1*), with respect to the territorial waters of the United States other than local waters, as hereinafter defined, would be inimical to the interests of national defense and of the safety and protection of vessels or the territorial waters, and accordingly said General License No. 1 (§ 9.1 *General License No. 1*), as amended on December 24, 1941 (7 F.R. 43), is hereby further amended as follows:

The introductory paragraph is changed to read as follows:

§ 9.1 *General License No. 1.* A general license is hereby granted to all vessels, exclusive of those covered by § 6.7 of this chapter, which are now in, or which may hereafter enter, local waters of the United States, its territories or possessions, to move within, but not to depart from, the local waters of the United States, its territories or possessions. The term "local waters", as herein used, embraces all territorial waters of the United States such as rivers, harbors, bays, sounds, roadsteads, inlets and other arms of the sea between projections of land, and the Great Lakes, but does not include any portion of the high seas along the coasts of the United States or outside the arms of the sea between projections of land, even though within the traditional three-mile limit. This license shall not apply to the following:

* * * * *

Paragraph (b) is cancelled and the following substituted therefor:

(b) The waters of the State of Rhode Island commonly known as the West Passage of Narragansett Bay and the Sakonnet River.

A new paragraph (c) is added to read as follows:

(c) Any vessel, which is not a common-carrier, primarily engaged in the transportation of passengers for hire over regularly scheduled routes, that has on board an enemy alien, as defined in § 6.6 (b) of this chapter (6 F.R. 5221), either in the capacity of master, operator, person in charge, member of the crew or passenger: *Provided*, That in the case of a common carrier primarily engaged in the transportation of passengers for hire over regularly established routes, the enemy alien on board shall have complied with all applicable travel regulations of the Attorney General, or other proper federal authority.

The present paragraph (c) is changed to (d).

In all other respects, said General License No. 1 shall remain in full force and effect.

R. R. WAESCHE,
Rear Admiral, U. S. Coast Guard.

Approved:

FRANK KNOX,
Secretary of the Navy.

TITLE 46—SHIPPING

Chapter III—War Shipping Administration

[General Order No. 5]

PART 320—PACIFIC COAST MARITIME INDUSTRY BOARD

Whereas by Executive Order 9054, dated February 7, 1942, the President established the War Shipping Administration in order to assure the most effective utilization of the Shipping of the United States for the successful prosecution of the war; and

Whereas it is essential in order to achieve the objectives of the said Executive Order that the loading and discharging of vessels proceed with the maximum possible degree of efficiency.

Now, therefore, by virtue of the power vested in me by the aforesaid Executive Order, *it is hereby Ordered*, That

§ 320.1 *Creation of Pacific Coast Maritime Industry Board.* There is hereby created a Pacific Coast Maritime Industry Board (hereinafter referred to as the Board) as an agency of and within the War Shipping Administration.*

*§§ 320.1 to 320.7, inclusive, issued under authority contained in E.O. 9054, 7 F.R. 837.

§ 320.2 *Membership.* The Board shall consist of five members: A Chairman, (and a Vice-Chairman to act in his absence), two representatives of the owners, operators, or agents on the Pacific Coast, and two representatives of the longshore unions on the Pacific Coast.

(a) *Chairman.* The Chairman shall be appointed by the Administrator.

(b) *Employer and union representatives and alternates.* The representatives of the employers and the unions shall be appointed by the Administrator. He may also designate two employer alternates and four union alternates. The four union alternates shall be divided equally by the A. F. of L. and C. I. O. unions. In matters arising in ports in which the A. F. of L. unions represent the stevedores for collective bargaining purposes, the two A. F. of L. alternates shall, at the request of the Chairman, serve on the Board as the Union representatives. The Administrator may at any time revoke such employment or designation as representative or alternate and make a new appointment or designation.

(c) *Vice-Chairman.* The Vice-Chairman shall be selected by the Chairman with the approval of the Administrator, and will act as Chairman in the absence of the Chairman and shall have full power granted to the Chairman.*

§ 320.3 *Delegation of power.* Subject to such directives as may be issued and such policies as may be determined by the Administrator, the Board shall have all the power vested in the Administrator by Executive Order of the President, (No. 9054), dated February 7, 1942, to coordinate the efforts of the employer and employee groups on the Pacific Coast for the purpose of increasing efficiency in loading and discharging vessels in that area.*

§ 320.4 *Consultation with Pacific Coast Director of Administration.* The Board shall consult with the Pacific Coast Director of the War Shipping Administration with regard to matters that effect efficiency in the Longshore Industry as well as with regard to matters that affect efficiency in the Marine and Longshore Industries jointly.*

§ 320.5 *Surveys.* The Board shall from time to time conduct surveys of the loading and discharging of vessels on the Pacific Coast for the purpose of recommending to the Administrator and to the Industry (employer and employee groups alike) measures to increase the efficiency thereof; to devise methods to increase efficiency and also ways and means to waive collective bargaining agreements and any rights therein of either party to such agreements if the Board determines such waiver to be in the interest of the war effort.*

§ 320.6 *Rules and regulations.* The Board shall have power to promulgate rules and regulations appropriate for the performance of its duties.*

§ 320.7 *Reports to Administrator.* The Board shall from time to time report to the Administrator on its activities hereunder and on the status of the efficiency of ship loading and discharging operations on the Pacific Coast, insofar as such operations are related to the prosecution of the war effort.*

By Order of the War Shipping Administration.

[SEAL] W. C. PEET, JR.,
Secretary.

Notices

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. B-231]

IN THE MATTER OF OSCAR VAAL, ALSO KNOWN AS OSCAR B. VAAL, CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

A complaint dated March 5, 1942, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on March 9, 1942, by Bituminous Coal Producers Board for District No. 11, a District Board, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Oscar Vaal, also known as Oscar B. Vaal, (the "Code member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on April 23, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Superior Court Room of Knox Circuit Court, Vincennes, Indiana.

It is further ordered, That J. D. Dermody or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code member in the Code or directing the Code member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging wilful violations by the above named Code member as follows: That said Code member, whose address is St. Meinrad, Indiana, and whose code membership became effective as of August 31, 1938,

1. Subsequent to September 30, 1940 sold to various purchasers approximately 325.185 tons of 1¼" x 0 slack coal produced by said Code member at his Vaal Mine, Mine Index No. 622, located in Harrison Township, Spencer County, Indiana, District No. 11, at the price of 55 cents per net ton f. o. b. said mine, whereas such coal is classified as Size Group No. 14 and is priced at $1.40 per net ton f. o. b. said mine in the Schedule of Effective Minimum Prices for District No. 11 For Truck Shipments, resulting in violations of the effective minimum prices established for such coal;

2. During the period October 1, 1940 to October 27, 1941, both dates inclusive, failed to file and maintain tickets, sales slips, invoices, other memoranda and records, and data as required by Order No. 296, dated September 23, 1940, Order No. 297, dated October 22, 1940, Order No. 307, dated December 11, 1940, and Order No. 312, dated February 24, 1941, resulting in violations of said Orders.

Dated: March 18, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2375; Filed, March 19, 1942; 10:28 a. m.]

[Order No. 337]

AN ORDER DIRECTING CODE MEMBERS TO FILE DUPLICATE COPIES OF SALES AGENCY CONTRACTS AND OF AMENDMENTS TO SALES AGENCY CONTRACTS, MADE AND ENTERED INTO ON AND AFTER APRIL 1, 1942.

Pursuant to the provisions of sections 4 II (a) and 10 (a) of the Bituminous Coal Act of 1937,

It is ordered, That certified copies of all contracts appointing sales agents or sub-sales agents, entered into on or after April 1, 1942, and of all amendments of existing contracts which may be made on or after April 1, 1942, and which are required to be filed pursuant to the provisions of Rule 4 of section II of the Marketing Rules and Regulations, be filed in duplicate with the statistical bureau of the Division for the district in which the mine or mines of the code member principal may be located.

Dated: March 18, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2376; Filed, March 19, 1942; 10:28 a. m.]

[Dockets Nos. 506-FD, 524-FD, 606-FD, 1163-FD, 1188-FD, 1323-FD, 1462-FD]

APPLICATION OF PUBLIC SERVICE COMPANY OF INDIANA FOR EXEMPTION UNDER SECTION 4-A OF THE BITUMINOUS COAL ACT OF 1937

ORDER OF THE ACTING DIRECTOR

The Acting Director of the Bituminous Coal Division entered an Order, dated January 21, 1942, in the above-entitled proceedings, providing that the applications for exemption heretofore filed by Public Service Company of Indiana in Dockets Nos. 506-FD, 524-FD, 606-FD, 1163-FD, 1188-FD, 1323-FD, and 1462-FD be denied, effective as soon as temporary or final minimum prices are established for the mines concerning which such applications for exemption were filed, but in no event later than sixty (60) days from January 21, 1942.

The aforesaid Order further stated that it is expected that District Board 11 will promptly apply for the establishment of minimum prices for the mines in question.

On March 10, 1942, District Board 11 filed with the Bituminous Coal Division a Statement of Facts which set forth that the District Board has designated a committee to consider the matter of minimum prices for said coals and to submit a recommendation to the District Board, and that it is now in the process of securing data and information with respect to the coals produced from the mines in question, but, due to delay occasioned by other urgent matters and by operating difficulties recently encountered at the mines, it appears impossible at this time to secure the samples and analyses which were to be used as a basis for the proposal of minimum prices for said coals, and to make available the results to the committee and the District Board in sufficient time to enable the District Board to propose to the Division by March 22, 1942, minimum prices for said coals. It is the District Board's opinion that a minimum period of 30 days will be required for it to propose said prices in addition to the 60-day period from January 21, 1942 provided in the Order of January 21, 1942, and it recommends that the Order of the Acting Director of that date, entered in the above-entitled proceedings, be modified by providing that the applications of the Public Service Company of Indiana for exemption under Section 4-A of the Bituminous Coal Act of 1937 shall be denied not later than 120 days rather than 60 days from the date of said Order.

It appears, therefore, that because of the conditions set forth, an extension of time should be granted but not to exceed 30 additional days.

Now, therefore, it is ordered, That the Order of the Acting Director, dated January 21, 1942, be, and it hereby is, modified to the extent that the applications for exemption heretofore filed by Public Service Company of Indiana in Dockets Nos. 506-FD, 524-FD, 606-FD, 1163-FD, 1188-FD, 1323-FD, and 1462-FD be, and they hereby are, denied, effective as soon as temporary minimum prices are established for the mines concerning which such applications for exemption were filed, but in no event later than 90 days from January 21, 1942.

Dated: March 18, 1942.

[SEAL] *DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2377; Filed, March 19, 1942; 10:28 a. m.]

[Docket No. B-222]

IN THE MATTER OF FRED NORTH, REGISTERED DISTRIBUTOR, REGISTRATION NO. 6880

NOTICE OF AND ORDER FOR HEARING

Correction

Paragraph (a) appearing in the first column of page 2110 of the issue for Tuesday, March 17, 1942, should read as follows:

(a) 355.1 net tons of 1½" screenings coal purchased from and produced by the Carbon Coal Company, R. F. D. #2, Collinsville, Illinois, a code member, at its Glen Carbon Mine, Mine Index No. 1042, located in District 10;

DEPARTMENT OF LABOR.

Division of Public Contracts.

IN THE MATTER OF THE DETERMINATION OF THE PREVAILING MINIMUM WAGES IN THE CANE SUGAR REFINING AND BEET SUGAR MANUFACTURING INDUSTRIES

NOTICE OF HEARING

All interested parties are hereby notified that a hearing will be held before the Public Contracts Board in Room 3229, Department of Labor Building, Washington, D. C., commencing at 10 a. m., on Tuesday, April 7, 1942, to take testimony and receive evidence upon which findings of fact and recommendations shall be made by the Board to assist the Secretary of Labor in determining the prevailing minimum wages in the Cane Sugar Refining and Beet Sugar Manufacturing Industries pursuant to the provisions of section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U. S. C. Sup. III 35), otherwise known as the Walsh-Healey Public Contracts Act.

The Cane Sugar Refining and Beet Sugar Manufacturing Industries have been defined as follows:

1. "The Cane Sugar Refining Industry is that industry which is engaged in the refining of raw cane sugar."

2. "The Beet Sugar Manufacturing Industry is that industry which is engaged in the manufacture of sugar from sugar beets."

A tabulation of wage schedules voluntarily submitted by members of the Cane Sugar Refining Industry, at the request of a committee made up of management and labor representatives, and tabulated by the Research Section of the Division of Public Contracts, Department of Labor, will be submitted in evidence at the hearing. Similar data were obtained from members of the Beet Sugar Manufacturing Industry through the cooperation of the United States Beet Sugar Association and the Farmers' and Manufacturers' Beet Sugar Association. Copies of these wage tabulations may be had on application to the Administrator, Division of Public Contracts, Washington, D. C. Any additional data indicating wage changes that may have occurred since the period covered by the tabulated schedules (October 1941) will also be received, as well as evidence for the purpose of determining what provision, if any, should be made in the prevailing minimum wage determination for the employment of apprentices and learners.

At the hearing an opportunity to be heard, either in person or by duly appointed representatives, will be given to persons engaged in the above named industries, either as employers or as employees, to groups of such persons, and to others within the discretion of the Board. Briefs or telegraphic communications may be filed with the Administrator, Division of Public Contracts, Department of Labor, and they should be received on or before the hearing date. No form for the brief is prescribed but an original and four copies must be submitted.

The entire record will be considered by the Secretary of Labor before the wage determination is made.

Dated: March 19, 1942.

WM. R. MCCOMB,
Assistant Administrator.

FEDERAL POWER COMMISSION.

[Docket No. G-228]

IN THE MATTER OF BORDER PIPE LINE COMPANY (DELAWARE)

ORDER POSTPONING HEARING

MARCH 17, 1942.

Upon motion filed March 13, 1942, by applicant, Border Pipe Line Company (Delaware), for continuance of the Hearing set in the above-entitled matter;

It appearing to the Commission that: Good cause has been shown for the postponement of the date of hearing herein;

The Commission *orders* that: The hearing in this proceeding, heretofore set to commence on March 30, 1942, be and it is hereby postponed to April 6, 1942, at the same time and place as heretofore fixed.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-513]

IN THE MATTER OF PANHANDLE EASTERN PIPE LINE COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 17th day of March 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Panhandle Eastern Pipe Line Company, a subsidiary of Columbia Oil & Gasoline Corporation, in turn a subsidiary of Columbia Gas & Electric Corporation, a registered holding company and, in turn, a subsidiary of The United Corporation, also a registered holding company; and

Notice is further given that any interested person may, not later than March 26, 1942 at 5:30 P. M., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Declarant proposes to commence on or about April 1, 1942 to acquire and redeem shares of its 5.60% Cumulative Preferred Stock in amounts required for the years 1942 and 1943 by the sinking fund provisions contained in the Certificate relating to said Preferred Stock, whereunder $100,000 is to be deposited on April 1, 1942 in a segregated account and a sum sufficient to redeem not more than 3½% of the largest par amount at any time outstanding (presently $525,000) on April 1, 1943.

The declarant may anticipate, at any time or from time to time, all or any part of the sinking fund payments due annually on April 1 (a) by delivering to the sinking fund shares of the said Preferred Stock which have been purchased or otherwise acquired, or (b) by redeeming shares of said Preferred Stock at $108.00 per share, plus accrued dividends; the number of shares of said Preferred Stock acquired in anticipation of sinking fund payments is to be limited to the amount necessary to satisfy the next succeeding payment.

Any acquisitions are to be in compliance with the restrictions contained in declarant's Mortgage and Deed of Trust dated November 1, 1940, as supplemented on January 1, 1942, restricting, among other things, the acquisition and retirement of any stock to the amount of surplus earned since January 1, 1940, plus $1,500,000. As provided in the Certificate relating to said Preferred Stock, no acquisition will be made while there is default in dividends except with the consent of the holders of the majority of said Preferred Stock. According to the declaration, no acquisition will be made from affiliates or associate companies except when shares of said Preferred Stock are called by lot for redemption; no acquisition of said Preferred Stock will be made from any Principal Underwriter during the period of distribution thereof; and all purchases are to be made at the best price obtainable but not to exceed the sinking fund redemption price ($105.00 per share), and all purchases in the open market are to be made only through or from licensed brokers and dealers.

To the extent that shares of said Preferred Stock acquired will be insufficient to meet the requirements of said sinking fund, then the moneys remaining in said sinking fund will be applied to the redemption of shares of said Preferred Stock, to be selected by lot, at the sinking fund redemption price ($105.00 per share) as provided by the Certificate relating to said Preferred Stock.

Section 12 of the Act and Rule U-42 promulgated thereunder are designated as being applicable to the proposed transactions.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

[File No. 37-28]

IN THE MATTER OF ATLANTIC UTILITY SERVICE CORPORATION

ORDER POSTPONING DATE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 17th day of March, A. D. 1942.

The Commission having on January 29, 1942, issued its Notice of Filing and Order for Hearing pursuant to section 13 of the Public Utility Holding Company Act of 1935 in the above entitled matter and said order having set the date for the hearing therein on February 17, 1942; and

Said date of hearing having been postponed at the requests of the several parties in the matter, by subsequent orders of the Commission, to March 19, 1942; and

Atlantic Utility Service Corporation having now requested that said date of hearing be further postponed subject to call upon 15 days notice by Counsel for the Commission or Counsel for Atlantic Utility Service Corporation; and

The Commission being of the opinion that said request should not appropriately be granted but that a postponement of fifteen days from said hearing date of March 19, 1942, may appropriately be granted:

It is ordered, That the date of the hearing in this matter be and is hereby postponed to April 3, 1942, at 10 a. m. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated by the hearing room clerk in room 318, before the officer of the Commission previously designated herein.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

[File No. 70-477]

IN THE MATTER OF LOUISVILLE GAS AND ELECTRIC COMPANY (KY.); LOUISVILLE TRANSMISSION CORPORATION (KY.); AND LOUISVILLE TRANSMISSION CORPORATION (IND.)

SUPPLEMENTAL FINDINGS AND ORDER

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 18th day of March, A. D. 1942.

The Commission having made findings and entered an order herein on March 3, 1942, granting the application, as amended, and permitting the declaration, as amended, to become effective forthwith, except that no findings were made in regard to the price to the Louisville Transmission Corporation (Kentucky), spread and distribution thereof and redemption prices applicable to the First Mortgage Sinking Fund Bonds due March 1, 1967, to be issued and sold by said Corporation, and the Commission having reserved jurisdiction in said order in regard thereto;

An amendment to said application and declaration having been filed as provided in Rule U-50 (c), specifying the proposals which had been received for the purchase of said Bonds pursuant to the invitation of competitive bids therefor, and stating that Louisville Transmission Corporation (Kentucky) had accepted a bid from The Northwestern Mutual Life Insurance Company of 100% for the Bonds bearing coupons of 3⅛%, said bonds to be redeemable initially at 101½% in the case of redemption for sinking fund purposes or in case of redemption after a merger of Louisville Transmission Corporation (Kentucky) and Louisville Gas and Electric Company (Kentucky), and otherwise at 103½%, said redemption prices diminishing thereafter at the rate of 1/25 of the initial premium on March 1, 1943, and by an additional 1/25 of the initial premium on each March 1, thereafter;

The Commission having examined the record and making no adverse findings under section 7 (d) of the Public Utility Holding Company Act of 1935 in regard to the price to the issuer and redemption prices applicable to said Bonds, and there being no spread as the purchaser is not reselling said Bonds to the public;

It is ordered, That said application, as amended, be and it is hereby granted and said declaration, as amended, be and it is hereby permitted to become effective forthwith in regard to the price to the issuer and redemption prices applicable to said Bonds subject, however, to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] FRANCIS P. BRASSOR,
Secretary.

PROCLAMATION 2541

FOURTH REGISTRATION DAY

BY THE PRESIDENT OF THE UNITED STATES
A PROCLAMATION

WHEREAS the Selective Training and Service Act of 1940 (54 Stat. 885), as amended by the Act of December 20, 1941 (Public Law 360, 77th Cong., 55 Stat. 844), contains, in part, the following provisions:

SEC. 2. Except as otherwise provided in this Act, it shall be the duty of every male citizen of the United States, and of every other male person residing in the United States, who, on the day or days fixed for the first or any subsequent registration, is between the ages of eighteen and sixty-five, to present himself for and submit to registration at such time or times and place or places, and in such manner and in such age group or groups, as shall be determined by rules and regulations prescribed hereunder.

* * * * *

SEC. 5. (a) Commissioned officers, warrant officers, pay clerks, and enlisted men of the Regular Army, the Navy, the Marine Corps, the Coast Guard, the Coast and Geodetic Survey, the Public Health Service, the federally recognized active National Guard, the Officers' Reserve Corps, the Regular Army Reserve, the Enlisted Reserve Corps, the Naval Reserve, and the Marine Corps Reserve; cadets, United States Military Academy; midshipmen, United States Naval Academy; cadets, United States Coast Guard Academy; men who have been accepted for admittance (commencing with the academic year next succeeding such acceptance) to the United States Military Academy as cadets, to the United States Naval Academy as midshipmen, or to the United States Coast Guard Academy as cadets, but only during the continuance of such acceptance; cadets of the advanced course, senior division, Reserve Officers' Training Corps or Naval Reserve Officers' Training Corps; and diplomatic representatives, technical attaches of foreign embassies and legations, consuls general, consuls, vice consuls, and consular agents of foreign countries, and persons in other categories to be specified by the President, residing in the United States, who are not citizens of the United States, and who have not declared their intention to become citizens of the United States, shall not be required to be registered under section 2 and shall be relieved from liability for training and service under section 3 (b).

* * * * *

SEC. 10. (a) The President is authorized—

(1) to prescribe the necessary rules and regulations to carry out the provisions of this Act;

* * * * *

(4) to utilize the services of any or all departments and any and all officers or agents of the United States and to accept the services of all officers and agents of the several States, Territories, and the District of Columbia and subdivisions thereof in the execution of this Act;

* * * * *

SEC. 14. (a) Every person shall be deemed to have notice of the requirements of this Act upon publication by the President of a proclamation or other public notice fixing a time for any registration under section 2.

WHEREAS section 208 of the Coast Guard Auxiliary and Reserve Act of 1941, approved February 19, 1941 (Public Law 8, 77th Cong., 55 Stat. 9), provides, in part, as follows:

Members of the [Coast Guard] Reserve, other than temporary members as provided for in section 207 hereof, shall receive the same exemption from registration and liability for training and service as members of the Naval Reserve * * *;

WHEREAS the first registration under the Selective Training and Service Act of 1940 took place in the continental United States October 16, 1940, in the Territory of Hawaii on October 26, 1940, in Puerto Rico on November 20, 1940, and in the Territory of Alaska on January 22, 1941, pursuant to proclamations issued by me on September 16, 1940, October 1, 1940, October 8, 1940, and November 12, 1940, respectively;

WHEREAS the second registration under the Selective Training and Service Act of 1940 took place in the United States, the Territories of Alaska and Hawaii, and in Puerto Rico on July 1, 1941, pursuant to proclamation issued by me on May 26, 1941;

WHEREAS the third registration under the Selective Training and Service Act of 1940, as amended, took place in the United States, the Territories of

Alaska and Hawaii, and in Puerto Rico, on February 16, 1942, pursuant to proclamation issued by me on January 5, 1942;

WHEREAS a state of war now exists between the United States of America and the Empire of Japan, Germany, and Italy;

WHEREAS this and other registrations under the Selective Training and Service Act of 1940 and the amendments thereto will be required to insure victory, final and complete, over the enemies of the United States:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, acting under and by virtue of the authority vested in me by the Selective Training and Service Act of 1940, as amended, do proclaim the following:

1. Pursuant to the Selective Training and Service Act of 1940, as amended, the registration of male citizens of the United States and other male persons who were born on or after April 28, 1877, and on or before February 16, 1897, shall take place in the United States and the Territories of Alaska and Hawaii, and in Puerto Rico on Monday, the 27th day of April, 1942, between the hours of 7:00 a. m. and 9:00 p. m.

2. (a) Every male citizen of the United States, and every other male person residing in the continental United States or in the Territory of Alaska or in the Territory of Hawaii or in Puerto Rico, other than persons excepted by Section 5 (a) of the Selective Training and Service Act of 1940, as amended, and by Section 208 of the Coast Guard Auxiliary and Reserve Act of 1941, is required to and shall on April 27, 1942, present himself for and submit to registration before a duly designated registration official or selective service local board having jurisdiction in the area in which he has his permanent home or in which he may happen to be on that day if such male citizen or other male person on February 16, 1942, had attained the forty-fifth aniversary of the day of his birth and on April 27, 1942, has not attained the sixty-fifth anniversary of the day of his birth, and has not heretofore been registered under the Selective Training and Service Act of 1940, as amended, and the regulations thereunder; Provided, That the duty of any person to present himself for and submit to registration in accordance with any previous proclamation issued under said Act shall not be affected by this proclamation.

(b) A person subject to registration may be registered before the day set herein for his registration if arrangements therefor are made by the local board under rules and regulations prescribed by the Director of Selective Service. Whenever such arrangements are made, public notice thereof will be given by the local board.

(c) A person subject to registration may be registered after the day fixed for his registration in case he is prevented from registering on that day by circumstances beyond his control or because he is not present in continental United States or the Territory of Alaska or the Territory of Hawaii, or Puerto Rico on that day. If he is not in the continental United States or the Territory of Alaska or the Territory of Hawaii, or Puerto Rico on the day fixed for his registration but subsequently enters any of such places, he shall as soon as possible after such entrance present himself for and submit to registration before a duly designated registration official or selective service local board. If he is in the continental United States or in the Territory of Alaska or the Territory of Hawaii, or Puerto Rico on the day fixed for his registration but because of circumstances beyond his control is unable to present himself for and submit to registration on that day, he shall do so as soon as possible after the cause for such inability ceases to exist.

3. The registration under this proclamation shall be in accordance with the Selective Service Regulations governing registration. Every person subject to registration is required to familiarize himself with such regulations and to comply therewith.

4. I call upon the Governor of each of the several States and the Territories of Alaska and Hawaii, and of Puerto Rico, and the Board of Commissioners of the District of Columbia, and all officers and agents of the United States and all officers and agents of the several States, Territories, Puerto Rico, and the District of Columbia, and political subdivisions thereof, and all local boards and agents thereof appointed under the provisions of the Selective Training and Service Act of 1940, as amended, or the Selective Service Regulations prescribed thereunder, to do and perform all acts and services necessary to accomplish effective and complete registration.

5. In order that there may be full cooperation in carrying into effect the purposes of the Selective Training and Service Act of 1940, as amended, I urge all employers and Government agencies of all kinds—Federal, State, territorial, and local—to give those under their charge sufficient time in which to fulfill the obligations of registration incumbent upon them under the said Act and this proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 19th day of March, in the year of our Lord nineteen hundred and forty-two and of the Independence of the United States the one hundred and sixty-sixth.

[SEAL] FRANKLIN D ROOSEVELT

By the President:

SUMNER WELLES,
Acting Secretary of State.

[F. R. Doc. 42-2430; Filed, March 20, 1942; 11:42 a. m.]

Rules, Regulations, Orders

TITLE 7—AGRICULTURE

Chapter VII—Agricultural Adjustment Agency, Agricultural Conservation and Adjustment Administration

[Wheat 507, Sup. 4]

PART 728—WHEAT

REGULATIONS PERTAINING TO WHEAT MARKETING QUOTAS FOR THE 1941 CROP OF WHEAT

By virtue of the authority vested in the Secretary of Agriculture by Title III of the Agricultural Adjustment Act of 1938 (Public Law No. 430, 75th Congress, approved February 16, 1938, 52 Stat. 31, 7 U.S.C. 1940 ed. 1301 *et seq.*), as amended, and Public Law No. 74, 77th Congress, approved May 26, 1941, 55 Stat. 203, as amended by Public Law No. 384, 77th Congress, approved December 26, 1941, the regulations pertaining to wheat marketing quotas for the 1941 crop of wheat [1] (form Wheat 507), prescribed May 31, 1941, as amended on July 15 and September 8, 1941 and January 9, 1942, are hereby further amended as follows:

Section 728.256 is amended by adding the following two new paragraphs:

§ 728.256 *Storage of the farm marketing excess.*

* * * * * *

(e) *Underplanting the farm acreage allotment for a subsequent crop.* Any producer who stored wheat of the 1941 crop in accordance with paragraph (b) or (c) of this section and who is a wheat producer in 1942 or any subsequent year may remove from storage an amount of the wheat so stored equal to the normal production of the number of acres by which the acreage planted to wheat on any farm on which he is a wheat producer in 1942 or such subsequent year is less than the farm acreage allotment therefor: *Provided, however,* That, in case there are other wheat producers on the farm who are similarly situated, the amount of wheat which may be removed from storage on account of the underplanting on the farm shall be apportioned among them in accordance with their agreement or, in the absence thereof, as they are entitled to share in the wheat crop, but no producer shall be entitled to a share therein which is greater than the amount of his stored excess wheat of the 1941 crop. The acreage planted to wheat for the purpose of this paragraph shall mean the acreage seeded to wheat plus the acreage of volunteer, or "self-seeded," wheat which is not disposed of in accordance with instructions of the Agricultural Adjustment Agency (formerly the Agricultural Adjustment Administration) of the Agricultural Conservation and Adjustment Administration and any wheat seeded in a mixture which, in accordance with instructions of said Agency of said Administration, is classified as acreage of wheat. A wheat producer in 1942 or in any subsequent year shall mean, for the purposes of this paragraph, any person who, at the end of the wheat-seeding season for the area in which the farm is situated, was entitled to share in the wheat crop which was or could have been seeded on the farm.

(f) *Producing a subsequent crop which is less than the normal production of the farm acreage allotment.* Any producer who stores wheat of the 1941 crop in accordance with paragraph (b) or (c) of this section and who is a wheat producer in 1942 or any subsequent year may remove from storage an amount of the wheat so stored equal to the amount by which the normal production of the farm acreage allotment for any farm on which he is a wheat producer in 1942 or such subsequent year exceeds the total amount of wheat produced on such farm in that year, less the amount of any wheat authorized to be removed from storage, or which could have been authorized to be removed from storage, in connection with the farm on account of underplanting the farm acreage allotment in that year under paragraph (e) of this section: *Provided, however,* That, in cases where there are other wheat producers on the farm who are similarly situated, the amount of wheat which may be removed from storage under this paragraph shall be apportioned among them in accordance with their agreement or, in the absence thereof, as they are entitled to share in the wheat crop harvested on the farm, but no producer shall be entitled to a share therein which is greater than the amount of his stored excess wheat of the 1941 crop. (Par. 6)

Done at Washington, D. C., this 20th day of March 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter VI—Organized Reserves

PART 64—ENLISTED RESERVE CORPS

SUSPENSION OF ENLISTMENTS AND REENLISTMENTS IN THE ENLISTED RESERVE CORPS WITH CERTAIN EXCEPTIONS [1]

§ 64.5 *Enlistments.* Enlistment and reenlistments in the Enlisted Reserve Corps are suspended with the following exceptions:

* * * * * *

(e) (1) The enlistment in the grade of Private in the Enlisted Reserve Corps and assignment to the Enlisted Section, Office of the Chief Signal Officer, of personnel qualified to pursue instruction in the following courses and who have made an Army General Classification Test Score as indicated, is authorized. The age limit will be that as prescribed by existing Army Regulations for enlistment.

Radio Electrician (174) AGCTS 120 and high school physics.
Radio Operator (177) AGCTS 110, Signal Corps Code Aptitude Test 50.
Telegraph Printer Operator (237) AGCTS 110, type 20 words per minute.
Instrument Repairman (097) AGCTS 110.
Telegraph Printer Maintenance Man (239) AGCTS 120 and evidence of mechanical aptitude, such as high school manual training course.
Switchboard Installer (232) AGCTS 110.
Cable Splicer (039) AGCTS 110.
Lineman (238) AGCTS 100.

The Chief Signal Officer is authorized to change the above qualifications and Army General Classification Test Score at any time it becomes necessary in order to meet the demands of the service and training requirements.

(2) The facilities of the recruiting services will be used to assist in the procurement of the above personnel. All applicants will be instructed by the recruiting service to report at their own expense to the officer in charge of any civilian school training Signal Corps personnel. It will be the responsibility of this officer to give the Army General Classification Test to all applicants and to determine from this test and other personal qualifications those eligible for enlistment.

(3) Personnel so enlisted will be deferred from active duty until the scheduled date of completion of this course; however, the time spent on an inactive status shall not exceed six (6) months except in case of a reservist whose progress and ability indicates the desirability of additional advanced training, in which case an additional period of deferment of not to exceed three (3) months in duration to allow the reservist time to complete this advanced training, may be authorized. He shall upon recommendation of the Chief Signal Officer, be ordered to active duty and sent to a Signal Corps Replacement Training Center or Signal Corps unit. In the event that a student leaves the school or fails to make reasonable progress he may be ordered to active duty without delay and assigned as indicated above. (39 Stat. 195; 41 Stat. 780; 44 Stat. 705; 10 U.S.C. 421, 423–427) [Letter AGO March 15, 1942, AG 341 (3–6–42) RP–A]

[SEAL] J. A. ULIO,
Major General,
The Adjutant General.

PART 64—ENLISTED RESERVE CORPS

SUSPENSION OF ENLISTMENTS AND REENLISTMENTS IN THE ENLISTED RESERVE CORPS WITH CERTAIN EXCEPTIONS [1]

§ 64.5 *Enlistments.* Enlistment and reenlistments in the Enlisted Reserve

[1] 6 F.R. 5165; 7 F.R. 213, 738.

Corps are suspended with the following exceptions:

* * * * *

(f) (1) Enlistments as private, Air Corps Enlisted Reserve Corps, of—

(i) Students now enrolled in courses of pilot training being conducted by the Civil Aeronautics Administration, who meet the requirements for appointment as aviation cadets, U. S. Army.

(ii) Applicants for enrollment in such pilot training who meet the requirements for appointment as aviation cadet, U. S. Army.

(iii) Applicants for enrollment in courses for technicians who meet the requirements for admission to the Air Corps technical schools.

(2) Persons so enlisted in the Air Corps Enlisted Reserve Corps who successfully complete the required course of instruction will be called to active service at the termination of the course, or at such time thereafter as determined by the Chief of the Army Air Forces, provided that the total period of inactive service in the Enlisted Reserve Corps does not exceed 6 months, or 1 year in the case of individuals whose progress during the first 6-month period has been such as to warrant advanced pilot and instrument training.

(3) Persons so enlisted in the Air Corps Enlisted Reserve Corps failing to make adequate progress in the course of instruction in which enrolled will be called to active service without delay for assignment to duty as directed by the Chief of the Army Air Forces: *Provided*, That men not liable for military service under the Selective Training and Service Act of 1940 will remain in an inactive status until reaching the age of liability for service under said act, unless they shall otherwise elect. (39 Stat. 195; 41 Stat. 780; 44 Stat. 705; 10 U.S.C. 421, 423–427) [Cir. 204, W.D., Sept. 30, 1941, as amended by Cir. 75, W.D., March 13, 1942]

Chapter VII—Personnel

PART 71—ENLISTMENT IN THE REGULAR ARMY

SUSPENSION OF CERTAIN REGULATIONS PERTAINING TO EXAMINATION AND ENLISTMENT, WITH EXCEPTIONS

§ 71.22 *Physical examination of applicants for enlistment.* (a) Except for men enlisted in the Army Air Forces with a view to their appointment as aviation cadets and men enlisted in the Enlisted Reserve Corps, all men enlisted in the Army of the United States will, prior to their enlistment, appear before a board of officers and undergo the same examination as is required in the case of the induction of a Selective Service registrant. This will require applicants for enlistment to be accepted for enlistment only at recruiting stations which lack complete examination facilities and be actually enlisted at recruiting and induction stations. So much of §§ 71.1 to 71.18, inclusive, as conflicts with the above is suspended.

(b) The physical examination of aviation cadets will be as prescribed in War Department instructions and § 74.3 of this title, and those for the Enlisted Reserve Corps will be as prescribed in Part 64, Chapter VI, of this title. (41 Stat. 765; 10 U.S.C. 42) [Cir. 73, W. D., March 12, 1942]

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices

PART 130—REGULATIONS RELATING TO TRANSACTIONS IN FOREIGN EXCHANGE, TRANSFERS OF CREDIT, PAYMENTS, AND THE EXPORT OR WITHDRAWAL OF COIN, BULLION, AND CURRENCY; AND TO REPORTS OF FOREIGN PROPERTY INTERESTS IN THE UNITED STATES

SPECIAL REGULATION NO. 1 UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED,[1] AND SECTION 5 (b) OF THE TRADING WITH THE ENEMY ACT, AS AMENDED BY THE FIRST WAR POWERS ACT, 1941, RELATING TO TRANSACTIONS IN SPECIAL BLOCKED PROPERTY

MARCH 18, 1942.

By virtue of the authority vested in the Federal Reserve Bank of San Francisco, Fiscal Agent of the United States, pursuant to section 5 (b) of the Trading with the Enemy Act as amended by the First War Powers Act, by virtue of the authority vested in such bank by the Commanding General of the Western Defense Command and Fourth Army, and by virtue of all other authority vested in such bank, the following special regulations are hereby prescribed:

§ 130.8 *Transactions in special blocked property.* (a) The acquisition, disposition or transfer of, or other dealing in, or exercising any right, power, or privilege with respect to, any property hereafter designated as Special Blocked Property is prohibited except as authorized by license expressly referring to this section.

(b) Applications for any such license may be filed on Form TFE–1 by any person with the nearest office of the Federal Reserve Bank of San Francisco. Such applications should set forth (1) the interest, if any, of the applicant in the property; (2) the details of the transaction for which a license is requested including the terms of any proposed settlement; (3) the manner in which the interest of the evacuee national in the property is being protected; and (4) whether or not the evacuee national is in agreement with the proposed settlement.

(c) As used in this section and in any ruling, license, instruction, etc.:

(1) The term "evacuee national" shall mean any Japanese, German or Italian alien, or any person of Japanese ancestry, resident on or since December 7, 1941 in Military Area No. 1 or in specified zones in other Military Areas prescribed in or pursuant to public proclamations issued by Lieutenant General J. L. DeWitt, Commanding General of the Western Defense Command and Fourth Army. For the purpose of this regulation all evacuee nationals are nationals of a foreign country.

(2) The term "Special Blocked Property" shall mean property in which an evacuee national has an interest and which has been designated as Special Blocked Property by the Federal Reserve Bank of San Francisco in one or more of the following ways:

(i) There is posted on or reasonably near such property an official Federal Reserve Bank of San Francisco notice that such property is Special Blocked Property.

(ii) The person holding such property or having possession or custody thereof has been notified by the Federal Reserve Bank of San Francisco that such property is Special Blocked Property.

(iii) One or more persons having an interest in such property have been notified by the Federal Reserve Bank of San Francisco that such property is Special Blocked Property. (Sec. 5 (b), 40 Stat. 415 and 966; Sec. 2, 48 Stat. 1; 54 Stat. 179; Pub. No. 354, 77th Cong.; E.O. 8389, Apr. 10, 1940, as amended by E.O. 8785, June 14, 1941, E.O. 8832, July 26, 1941, E.O. 8963, Dec. 9, 1941, E.O. 8998, Dec. 26, 1941, E.O. 9066, Feb. 19, 1942, 7 F.R. 1407, E.O. 9095, Mar. 11, 1942, 7 F.R. 1971)

Federal Reserve Bank of San Francisco
(Fiscal Agent of the United States).

[SEAL] WILLIAM A. DAY,
President.

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[No. 57]

ORDER PRESCRIBING FORMS

By virtue of the Selective Training and Service Act of 1940 (54 Stat. 885) and the authority vested in me by the rules and regulations prescribed by the President thereunder and more particularly the provisions of section 605.51 of the Selective Service Regulations, I hereby prescribe the following change in DSS forms:

Addition of a new form designated as DSS Form 311, entitled "Selective Service Occupational Questionnaire,"[1] effective immediately upon the filing hereof with the Division of the Federal Register.

The foregoing addition shall, effective immediately upon the filing hereof with the Division of the Federal Register, become a part of the Selective Service Regulations.

LEWIS B. HERSHEY,
Director.

PART 1032—COCOANUT OIL, BABASSU OIL, PALM KERNEL OIL AND OTHER HIGH LAURIC ACID OILS

The fulfillment of requirements for the defense of the United States, has created a shortage in the supply of Cocoanut Oil, Babassu Oil, Palm Kernel Oil and other high lauric acid oils as herein defined for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1032.1 *General Preference Order M–60*—(a) *Definitions.* For the purposes of this Order:

(1) "High Lauric Acid Oils" means Cocoanut Oil, Babassu Oil, Palm Kernel Oil and all other oils having a lauric acid content of thirty-five percent (35%) or higher, whether crude, refined, bleached or deodorized.

(2) "Inventory" of a person with respect to high lauric acid oils means:

(i) The high lauric acid oil content of copra and other seeds and nuts from which high lauric acid oils are obtained;

(ii) High lauric acid oils, whether crude, refined, bleached or deodorized;

(iii) The high lauric acid oil content of all mixtures and blends of which such oils are a part;

(iv) The high lauric acid oil equivalent of all fatty acids and acidulated soapstocks and of all mixtures and blends of such fatty acids and acidulated soapstocks;

(v) All material as aforesaid to or in which such person has any title or equity of redemption or which he has purchased for future delivery;

(vi) The inventory, as above defined, of affiliates and subsidiaries of such person.

(3) "Inventory Quota" of a person means twenty-five percent (25%) of a person's inventory on the inventory date. In the event that through circumstances beyond the control of such person any material in a person's inventory for which a contract of purchase existed on the inventory date is in whole or in part not delivered to such person, his inventory quota as of such date shall be adjusted accordingly.

(4) "Inventory Date" means the close of business on the day prior to the date of issuance of this Order.

(b) *Restrictions on use*—(1) *Prohibitions on use.* Hereafter, except as provided by paragraph (b) (3) hereof, the use or consumption by any person of high lauric acid oils in the following manufactures, processes or uses is prohibited:

(i) Any manufacture, process or use in which Glycerine is not produced;

(ii) Any manufacture or process in which Glycerine is produced where the amount of Glycerine (whether free or combined) remaining in the product exceeds one and five-tenths percent (1.5%) calculated on an anhydrous soap basis or where the remainder of the Glycerine is not at least ninety percent (90%) recovered.

(2) *Curtailment of amount of use.* No person shall hereafter in any calendar month beginning with March, 1942 saponify, or put in the process of saponification, any high lauric acid oils or any fatty acids derived in whole or in part from such oils in a quantity, in terms of oil or of oil equivalent, in excess of seventy-five percent (75%) of one-twelfth of such oils or fatty acids saponified or put in the process of saponification by him in 1941.

(3) *Permitted uses for a limited period.* During March, 1942 each person may use or consume high lauric acid oils in any manufacture, process or use in an amount not exceeding one hundred percent (100%) of one-twelfth of his use or consumption of such oils in such manufacture, process or use in 1941, and during each of the months April and May, 1942 each person may use or consume such oils in any manufacture, process or use in an amount not exceeding fifty percent (50%) of one-twelfth of his use and consumption of such oils in such manufacture, process or use in 1941: *Provided however*, That the uses permitted by this paragraph (b) (3) shall not include the manufacture of any margarine, shortening or cooking fat, the further use of such oils in the manufacture of such products being hereafter prohibited.

(4) *Reports of unusable oils.* Any high lauric acid oils at any time remaining in the hands of any person which by reason of any of the provisions of this paragraph (b) may not be used or consumed by him shall be reported to the War Production Board, Washington, D. C., Ref: M–60, for disposition.

(c) *Restrictions on processing.* No Person shall hereafter process or change the condition of any high lauric acid oils in preparation for any manufacture or use permitted by this order except to the extent necessary for such preparation and then only in such quantities as may be necessary to meet his normal production schedule or, if such oils are to be manufactured or used by another person, then the normal production schedule of such other person, in so far as either such schedule is not in violation of paragraph (b) (3) hereof.

(d) *Withholdings of high lauric acid oils.* (1) Every person who on the inventory date has an inventory in an amount in the aggregate in excess of 30,000 lbs., by weight of oil or oil content or equivalent, shall set aside his inventory quota and shall continue to hold such quota subject to the direction of the Director of Industry Operations. The quotas of all such persons shall provide the source for the allocation of high lauric acid oils to the extent that the Director of Industry Operations may determine that substitutes for such oils cannot be found and that the use of such oils is indispensable and essential for defense purposes; and such quotas shall also constitute a reserve supply of such oils.

(2) The inventory quota so directed to be set aside shall, in so far as possible, be composed of crude whole oils. Such quota shall be used, put in process, sold or delivered only upon express instruction of the Director of Industry Operations, except that this paragraph (d) (2) shall not be construed to prevent the crushing of copra or other seeds or nuts nor to prevent changing the condition of the oils so set aside to the extent necessary to prevent deterioration while carried in inventory.

(3) On or before April 15, 1942 every person subject to the terms of paragraph (d) (1) hereof and every person who on the inventory date had in his possession or under his control in excess of 30,000 lbs. of high lauric acid oils including, in terms of high lauric acid oil content, any copra or other nuts or seeds, mixtures, blends, fatty acids and acidulated soapstocks, but whether or not owned or under contract of purchase, shall report to the War Production Board on Form PD–354, listing among other things such person's inventory as of the inventory date, the composition thereof, the amount of such person's inventory quota and the form in which held, and in case of material which

[1] 6 F.R. 5090.

on the inventory date was not owned by such person or was under contract of sale to another, the name of the owner or vendee thereof.

(e) *Restrictions on sales and deliveries.* No person shall sell or, directly or indirectly deliver, or cause to be delivered, any high lauric acid oils for any use prohibited by paragraph (b) hereof nor for any use in greater quantities than are permitted by paragraph (b) (3) hereof nor in violation of paragraph (d) hereof, and no person shall accept deliveries of any high lauric acid oils for any prohibited use or for any greater quantities or proportions than for permitted consumption.

(f) *Miscellaneous provisions.* (1) *Applicability of Priorities Regulation No. 1.* This Order, and all transactions affected thereby, are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(2) *Intra-company transactions.* The prohibitions or restrictions contained in this Order, with respect to deliveries shall, in the absence of a contrary direction, apply not only to deliveries to other persons including affiliates and subsidiaries, but also to deliveries from one branch, division, or section, of a single enterprise, to another branch, division, or section, of the same or any other enterprise owned or controlled by the same person.

(3) *Violations.* Any person affected by this Order, who violates any of its provisions, or a provision of any other Order, direction, or regulation issued by the Director of Industry Operations, may be prohibited by the Director from making or receiving further deliveries of high lauric acid oils, or of any other material subject to allocation, or he may be subjected to any other or further action which the Director may deem appropriate.

(4) *Appeals.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of high lauric acid oils or of Glycerine conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board, Washington, D. C., Reference: M-60, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(5) *Effective date.* This Order shall take effect immediately and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 20th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

F. R. Doc. 42-2429; Filed, March 20, 1942; 11:39 a. m.]

PART 1036—PALM OIL

GENERAL PREFERENCE ORDER M-59 TO CONSERVE THE SUPPLY AND DIRECT THE DISTRIBUTION OF PALM OIL

The national defense requirements for Palm oil and products made therefrom having created a shortage of the supply thereof for defense, for private account, and for export, and it being necessary in the public interest and to promote the national defense to allocate the supply thereof in the manner and to the extent hereinafter in this Order provided;

Now, therefore, it is hereby ordered, That:

§ 1036.1 *General Preference Order M-59—*(a) *General restrictions on use effective April 1, 1942.* On and after April 1, 1942, except as specifically authorized by the Director of Industry Operations, no person shall use or consume Palm oil except in the following manufactures or processes:

(1) The manufacture of tin plate, terne plate, long terne plate, steel sheets, steel strip and black plate;

(2) Any manufacturing process in which Glycerine is produced where the amount of Glycerine (whether free or combined) remaining in the product does not exceed one and five-tenths percent (1.5%) calculated on an anhydrous soap basis and where the remainder of the Glycerine is at least ninety percent (90%) recovered.

(b) *Use restrictions for March.* No person shall in March, 1942 use or consume Palm oil in any manufacture, process or use other than those described in paragraphs (a) (1) and (2) hereof in an amount in excess of one hundred percent (100%) of one-twelfth of the Palm oil used by him in any such manufacture or use during the calendar year 1941.

(c) *Restrictions on processing.* No person shall hereafter put in process or change the condition of any Palm oil in preparation for any manufacture, process or use permitted by this Order except to the extent necessary for such preparation and then only in such quantities as may be necessary to meet his normal production schedule or, if such Palm oil is to be manufactured or used by another person, then the normal production schedule of such other person, in so far as such schedule is not in violation of paragraph (b) hereof.

(d) *Creation of reserve.* (1) Every person who on the inventory date has an inventory of Palm oil in an amount in the aggregate in excess of 30,000 lbs. shall set aside his inventory quota of Palm oil, such quota in so far as possible to consist of crude whole oil. Such quota shall be used, put in process, sold or delivered only upon express instruction of the Director of Industry Operations, except that this paragraph (d) (1) shall not be construed to prevent changing the condition of the oil so set aside to the extent necessary to prevent deterioration while carried in inventory. The quotas of all such persons shall provide the source for the allocation of Palm oil to the extent that the Director of Industry Operations may determine that substitutes for Palm oil cannot be found and that the use of Palm oil is indispensable and essential for defense purposes; and such quotas shall also constitute a reserve supply of Palm oil.

(2) On or before April 15, 1942 every person who or whose affiliates and subsidiaries on the inventory date had possession of or under control in excess of 30,000 lbs. of Palm oil, whether or not owned or under contract of purchase, shall report to the War Production Board on Form PD-355, listing among other things inventory as of the inventory date, the composition thereof, the amount of the inventory quota and the form in which held, and in case of material which on the inventory date was not owned or was under contract of sale to another, the name of the owner or vendee thereof.

(e) *Restrictions on sales and deliveries.* No person shall on and after April 1, 1942 sell or deliver any Palm oil to any other person, except a dealer or a person using such oil in the manufactures, processes or uses set out in paragraph (a) hereof, except as may be specifically authorized by the Director of Industry Operations, and no person shall prior to April 1, 1942 knowingly deliver any such oil to any other person for use in greater quantities or proportions than are specified in paragraph (b) hereof.

(f) *Miscellaneous provisions—*(1) *Definitions.* For the purposes of this Order:

(i) "Palm Oil" means all oils of any grade or description, heretofore known or sold as Palm oil, whether crude, refined, bleached or deodorized.

(ii) "Dealer" shall mean any person who imports, buys, sells, and/or distributes Palm oil.

(iii) "Inventory" of a person shall include all Palm oil to or in which such person has any title or equity of redemption or which he has purchased for future delivery, as well as the inventory, as so defined, of affiliates and subsidiaries of such person.

(iv) "Inventory Quota" of a person means twenty percent (20%) of such person's inventory of Palm oil as of the inventory date. In the event that through circumstances beyond the control of such person any material in a person's inventory for which a contract of purchase existed on the inventory date is in whole or in part not delivered to such person, his inventory quota as of such date shall be adjusted accordingly.

(v) "Inventory Date" means the close of business on the day prior to the date of issuance of this Order.

(2) *Applicability of Priorities Regulation No. 1.* This Order, and all transactions affected thereby, are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(3) *Intra-company transactions.* The prohibitions or restrictions contained in this Order, with respect to deliveries shall, in the absence of a contrary direction, apply not only to deliveries to other persons including affiliates and subsidiaries, but also to deliveries from one branch, division, or section, of a single enterprise, to another branch, division, or section, of the same or any other enterprise owned or controlled by the same person.

(4) *Violations.* Any person affected by this Order, who violates any of its provisions, or a provision of any other Order, direction, or regulation issued by the Director of Industry Operations, may be prohibited by the Director from making or receiving further deliveries of Palm oil, or of any other material subject to allocation, or he may be subjected to any other or further action which the Director may deem appropriate.

(5) *Appeals.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of Palm oil conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board, Washington, D. C., Reference: M-59, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate and that the use of Palm oil is indispensable and essential for defense purposes; and such quotas shall also constitute a reserve supply of Palm oil.

(6) *Effective date.* This Order shall take effect immediately and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 20th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

[F. R. Doc. 42-2426; Filed, March 20, 1942; 11:38 a. m.]

PART 1099—BEDS, SPRINGS AND MATTRESSES

GENERAL LIMITATION ORDER L-49

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1099.1 *General Limitation Order L-49—*(a) *Definitions.* For the purposes of this Order;

(1) "Group I Products" means the following; bunks, berths and beds in which the aggregate weight of iron and steel (exclusive of that contained in the springs) is 25 per cent or more of the total weight of the complete bunk, berth or bed exclusive of the springs.

(2) "Group II Products" means the following: coil, flat, box and fabric bed springs (whether or not they are integral parts of the beds or other sleeping equipment); innerspring mattresses and pads; metal folding cots, roll-away cots; sanitary couches and day beds; studio couches, sofa beds and lounges designed primarily for sleeping purposes; and all other articles of sleeping equipment not included in Group I Products, except bunks, berths and beds in which the aggregate weight of iron and steel (exclusive of that contained in the springs) is less than 25 per cent of the total weight of the complete bunk, berth or bed, exclusive of the springs.

(3) "Base Period" means the twelve months ending June 30, 1941.

(4) "Iron and Steel Used" means the aggregate weight of iron and steel contained in the finished Group I and Group II Products manufactured.

(5) "Class A Manufacturer" means any manufacturer of Group I or Group II Products whose iron and steel used during the base period was 500 tons or more.

(6) "Class B Manufacturer" means any manufacturer of Group I or Group II Products whose iron and steel used during the base period was greater than 100 tons but less than 500 tons.

(7) "Class C Manufacturer" means any manufacturer of Group I or Group II Products whose iron and steel used during the base period was 100 tons or less.

(b) *General restrictions.* During the period of three months beginning with the first day of the first calendar month following the date of issuance of this Order

(1) No Class A Manufacturer shall use more iron and steel in his aggregate production of

(i) Group I Products than 10 per cent of the iron and steel used by him in the aggregate production of such products during the base period; and

(ii) Group II Products than 16¼ per cent of the iron and steel used by him in the aggregate production of such products during the base period.

(2) No Class B Manufacturer shall use more iron and steel in his aggregate production of

(i) Group I Products than 12½ per cent of the iron and steel used by him in the aggregate production of such products during the base period; and

(ii) Group II Products than 18¾ per cent of the iron and steel used by him in the aggregate production of such products during the base period.

(3) No Class C Manufacturer shall use more iron and steel in his aggregate production of

(i) Group I Products than 15 per cent of the iron and steel used by him in the aggregate production of such products during the base period; and

(ii) Group II Products than 21¼ per cent of the iron and steel used by him in the aggregate production of such products during the base period.

(4) The foregoing restrictions shall not apply to the production of Group I or Group II Products for the following purposes:

(i) In fulfillment of a specific order of, or contract with, the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, Civilian Aeronautics Authority, the National Advisory Commission for Aeronautics, Office of Scientific Research and Development and any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act); or

(ii) When such production is designed primarily for use in a hospital or sanitorium.

(c) *Avoidance of excessive inventories.* No manufacturer of Group I or Group II Products shall accumulate for use in the manufacture of such products inventories of raw materials, semi-processed materials, or finished parts in quantities in excess of the minimum amount necessary to maintain production of Group I and Group II Products at the rates permitted by this Order.

(d) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each manufacturer to whom this Order applies shall file with the War Production Board Form PD-356 within thirty days of the effective date of this Order, and Form PD-357 fifteen days after the expiration of each period of three months covered by this Order, and such other reports and questionnaires as said Board shall from time to time request.

(g) *Violations.* Any person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an excep-

tional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Applicability of other orders.* Insofar as any other Order issued, or to be issued hereafter, limits or may limit the use of any material in the production of Group I and Group II Products to a greater extent than the limits imposed by this Order, the restrictions in such other Order shall govern unless otherwise specified therein.

(j) *Application of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Communications.* All reports to be filed, appeals and other communications concerning this Order should be addressed to the War Production Board, Washington, D. C., Ref: L-49.

(l) *Effective date.* This Order shall take effect on the date of its issuance and shall continue in effect until revoked. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong. 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 20th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

Chapter XI—Office of Price Administration

PART 1355—LEAD

CORRECTION TO REVISED PRICE SCHEDULE NO. 70[1] LEAD SCRAP

The word "primary" inadvertently appears for the word "secondary" in § 1355.65 (a) (2) (iii). It is accordingly corrected to read "secondary".

This correction shall become effective the 19th day of March 1942. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 19th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

TITLE 45—PUBLIC WELFARE

Chapter II—Civilian Conservation Corps

PART 203—ENROLLMENT, DISCHARGE, HOSPITALIZATION, DEATH AND BURIAL OF ENROLLEES[1]

§ 203.10 *Allotments and deposits.*

* * * * *

(b) *Amounts.* The State Selecting agency in selecting men for enrollment will note on the certificate of selection the amount of the allotment and the name of the beneficiary, and/or the amount of the deposit required to be made by each enrollee. Except for enrollees enrolled under the Indian quota, those outside the continental limits of the United States under the administration of the Departments of Agriculture and the Interior, and as provided in (c) below, at the time of enrollment and effective with February, 1942, pay, junior enrollees with dependents will be required to make an allotment and/or deposit of $10.00 and $8.00, respectively. No change will be made as to the amounts of deposits of veterans. Junior enrollees without dependents will make deposits in the amount of $18.00 per month. Selection is made contingent on such an allotment and/or a deposit.

(c) *Ten exempted enrollees per company.* The compulsory monthly deposit of $8.00 will not be required of the ten exempted enrollees per company, if married, and if married subsequent to making a compulsory deposit they may be authorized to withdraw amount on deposit at the time of marriage.

(d) *Changes or termination.*

* * * * *

(4) Subsequent to enrollment the company commander, upon request of a junior enrollee may authorize the increase of an allotment from the cash payment made to the enrollee for his personal use in camp, or may authorize an increase in the approved deposit from the cash payment, without reference to the State selecting agency. In no case however will the $8.00 deposit uniformly prescribed for junior enrollees with dependents be reduced either for the purpose of increasing an allotment or for any other purpose.

* * * * *

(h) *Prorata of allotments and deposits.* In the event that the enrollee is not entitled to a full month's pay, the allotment, the deposit, and the cash payment will be prorated in even dollars as set forth below :

Day	Cash	Deposit	Allottee
1	$1.00		
2	2.00		
3	3.00		
4	4.00		
5	5.00		
6	2.00	$2.00	$2.00
7	3.00	2.00	2.00
8	3.00	2.00	3.00
9	4.00	2.00	3.00
10	4.00	3.00	3.00
11	4.00	3.00	4.00
12	$5.00	$3.00	$4.00
13	5.00	4.00	4.00
14	5.00	4.00	5.00
15	6.00	4.00	5.00
16	7.00	4.00	5.00
17	7.00	4.00	6.00
18	7.00	5.00	6.00
19	8.00	5.00	6.00
20	8.00	5.00	7.00
21	8.00	6.00	7.00
22	9.00	6.00	7.00
23	9.00	6.00	8.00
24	10.00	6.00	8.00
25	10.00	7.00	8.00
26	10.00	7.00	9.00
27	11.00	7.00	9.00
28	11.00	8.00	9.00
29	11.00	8.00	10.00
30	12.00	8.00	10.00

When enrollees are paid at $36.00 or $45.00 rate the cash allowance will be increased accordingly.

* * * * *

(k) *Deposits.* Junior enrollees with dependents will be required by the State selecting agency to make from their basic monthly pay an allotment in the amount of $10.00 per month and a deposit in the amount of $8.00 per month, effective with February, 1942, pay (see (b) above). This will result in the following pay schedules for junior enrollees with dependents:

Monthly distribution of pay to—	Monthly pay rate—		
	$30	$36	$45
Enrollees in cash	$12.00	$18.00	$27.00
Allottees	10.00	10.00	10.00
Deposit account	8.00	8.00	8.00

[1] § 203.10 (b), (c), (d), (h), and (k) is amended.

(50 Stat. 319; 16 U.S.C. Chapter 3A) [Par. 36, C.C.C. Regs., W.D., Dec. 1, 1937, as amended by C 88½, Feb. 20, 1942]

Notices

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. B-234]

IN THE MATTER OF RALPH GOGEL, CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

A complaint dated March 5, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on March 9, 1942, by Bituminous Coal Producers Board for District No. 11, a District Board, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Ralph Gogel, a code member in District No. 11, (the "Code member"), of the Bitumincus Coal Code (the "Code"), or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on April 23, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Superior Court Room, Knox Circuit Court, Vincennes, Indiana.

It is further ordered, That Joseph D. Dermody or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code member in the Code or directing the Code member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging wilful violations by the above named Code member as follows:

That Ralph Gogel, St. Meinrad, Indiana, whose code membership became effective as of April 26, 1941, operator of the Gogel Mine, Mine Index No. 1283, located in Spencer County, Indiana, District No. 11, wilfully violated section 4 II (e) of the Bituminous Coal Act of 1937 and Part II (e) of the Bituminous Coal Code:

(1) during the period from July 11, 1941, to September 11, 1941, both dates inclusive, by offering to sell to Bernard Knott, Dale, Indiana, 240 tons of 1½" or 1¼" lump coal (Size Group No. 6) produced at said mine at a price of $2.00 per net ton f. o. b. said mine, whereas the effective minimum price established for coals included in Size Group No. 6 produced at said mine is $2.20 per net ton f. o. b. said mine as set forth in the Supplement annexed to and made a part of Order dated May 20, 1941, granting temporary and conditionally final relief in Docket No. A-831;

(2) during the period from July 11, 1941, to September 11, 1941, both dates inclusive, by selling to said Bernard Knott approximately 68.8 tons of 1½" or 1¼" lump coal (Size Group No. 6) produced at said mine at a price of $2.00 per net ton f. o b. said mine, whereas the effective minimum price established for coals included in Size Group No. 6 produced at said mine is $2.20 per net ton f. o. b. said mine as set forth in the aforesaid Supplement;

(3) during the period May 20, 1941, to September 20, 1941, both dates inclusive, by selling to Luther S. Howard, French Lick, Indiana, an undetermined quantity of 1½" x 0 or 1¼" x 0 screenings (Size Group No. 14) produced at said mine at a price of 50 cents per net ton f. o. b. said mine, whereas the effective minimum price established for coals included in Size Group No. 14 produced at said mine is $1.40 per net ton f. o. b. said mine as set forth in the aforesaid Supplement;

(4) during the month of September 1941 by selling to Carl Rhodes, Dale, Indiana, approximately 38 tons of 1¼" lump coal (Size Group No. 6) produced at said mine at a price of $2.125 per net ton f. o. b. said mine, whereas the effective minimum price established for coals included in Size Group No. 6 produced at said mine is $2.20 per net ton f. o. b. said mine as set forth in the aforesaid Supplement.

Dated: March 19, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2411; Filed, March 20, 1942; 10:23 a. m.]

[Docket No. B-228]

IN THE MATTER OF H. J. DOBSON, CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

A complaint dated March 5, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on March 9, 1942, by Bituminous Coal Producers Board for District No. 11, a district board, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by H. J. Dobson (the "Code member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on April 23, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Superior Court Room, Knox Circuit Court, Vincennes, Indiana.

It is further ordered, That Joseph D. Dermody or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code member in the Code or directing the Code member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said com-

plainant, alleging wilful violations by the above named Code member as follows:

That said code member, whose address is 1229 16th Street, Bedford, Indiana, and whose code membership became effective as of April 8, 1940:

1. During the period, February 8 to February 28, 1941, both dates inclusive, sold to various purchasers approximately 173.495 tons of 1¼" x 0 screenings (Size Group No. 14), produced at his Dobson and Sims Mine, Mine Index No. 409, located in Martin County, Indiana, in District No. 11, at prices of $1.00 to $1.35 per net ton, f. o. b. said mine, the effective minimum price for said coal being $1.55 per net ton, f. o. b. said mine, as contained in the Schedule of Effective Minimum Prices for District No. 11 for Truck Shipments, resulting in violation of Section 4 II (e) of the Act and Part II (e) of the Code.

2. During the period subsequent to January 1, 1941, said code member failed to maintain and file tickets, sales slips, invoices, memoranda, records, and data, as required by Order of the Division No. 307, dated December 11, 1940, resulting in violation of the Code and regulations thereunder.

Dated: March 19, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[F. R. Doc. 42-2412; Filed, March 20, 1942; 10:23 a. m.]

[Docket No. B-230]

IN THE MATTER OF RAY A. COLLINS, INDIVIDUALLY, AND AS SURVIVING PARTNER OF THE FORMER PARTNERSHIP DOING BUSINESS UNDER THE NAME AND STYLE OF RAMSAY-COLLINS FUEL COMPANY (RAMSAY COLLINS FUEL COMPANY), CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

A complaint dated February 25, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on March 2, 1942, by Bituminous Coal Producers Board for District No. 12, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Ramsey Collins Fuel Company (the "Code member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on April 27, 1942, at 10 a m., at a hearing room of the Bituminous Coal Division at the State Capitol Building, Des Moines, Iowa.

It is further ordered, That Joseph D. Dermody or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code member has willfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code member in the Code or directing the Code member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging wilful violations by the above named Code member as follows:

That the code member, whose address is 307 South C. Street, Oskaloosa, Iowa, during the period from February 13, 1941, to February 19, 1941, both dates inclusive, sold and delivered to the Des Moines Electric Light Company at its plant located at Des Moines, Iowa, 280.25 tons of screenings produced at its mine, Mine Index No. 49, at the delivered price of $2.42 per net ton, whereas the effective minimum delivered price for said coal was $2.54 per net ton, resulting in wilful violations of section 4 II (e) of the Act and Part II (e) of the Code.

Dated: March 19, 1942.

[SEAL] DAN H. WHEELER,
Acting Director,

[Docket No. B-199]

IN THE MATTER OF GRIFFITH-CONSUMERS COAL COMPANY, REGISTERED DISTRIBUTOR, REGISTRATION NO. 1874

NOTICE OF AND ORDER FOR HEARING

The Bituminous Coal Division finds it necessary in the proper administration of the Bituminous Coal Act of 1937 (the "Act") and the Bituminous Coal Code (the "Code") promulgated thereunder, to determine

A. Whether or not Griffith-Consumers Coal Company, Registered Distributor, Registration No. 1874 (hereinafter sometimes referred to as the "Registered Distributor"), whose address is 1413 New York Ave. NW., Washington, D. C., has violated any provisions of the Act, the Code, and Orders and Regulations of the Division, including the Marketing Rules and Regulations, Rules and Regulations for Registration of Distributors, and the Distributor's Agreement (the "Agreement") dated July 26, 1939, executed and filed by Griffith-Consumers Coal Company pursuant to Order of the National Bituminous Coal Commission dated March 24, 1939, in Docket No. 12, which was adopted as an Order of the Bituminous Coal Division on July 1, 1939, and, more particularly, whether or not subsequent to September 30, 1940 said Registered Distributor

1. During the period October 1, 1940 to November 22, 1941, both dates inclusive, purchased coal produced at the Winding Gulf No. 1 Mine (Mine Index No. 205) and the Winding Gulf No. 2 Mine (Mine Index No. 208) of the Winding Gulf Collieries and the Slab Fork Mine (Mine Index No. 168) of the Slab Fork Coal Company, code members in District No. 7, from the Smokeless Fuel Company, sales agent for said code members, and resold said coal to various purchasers in Washington, D. C., hereinafter set forth, and prepaid the transportation and freight charges thereon, resulting in violations of Rule 1 (J) of Section VII, and Rule 3 of section XIII of the Marketing Rules and Regulations, Section 4 II (i) 3 of the Act, Part II (i) 3 of the Code and Paragraphs (c) and (e) of its Distributor's Agreement:

2. During the period February 24, 1941 to November 22, 1941, both dates inclusive, failed to furnish or cause to be furnished to the Division copies of all invoices rendered by it to the aforesaid purchasers of the above-mentioned coal, resulting in violations of Sections II and III of Order No. 313, dated February 24, 1941, and paragraphs (e) and (f) of the Agreement;

3. During the period from October 1, 1940 to November 22, 1941, both dates inclusive, physically handled the coal resold by it to various purchasers as set forth in paragraph 1, and received, accepted and retained discounts thereon, resulting in violations of paragraphs (d) and (e) of its Agreement and participation in violations of Rule 1 of Section III of the Marketing Rules and Regulations.

B. Whether or not the registration of said Griffith-Consumers Coal Company should be revoked or suspended or other appropriate penalties should be imposed.

It is therefore ordered, That a hearing pursuant to § 304.14 of the Rules and Regulations for the Registration of Distributors to determine whether or not the said Griffith-Consumers Coal Company has committed violations in the respects heretofore described and to determine whether or not the registration of said distributor should be revoked or suspended or other appropriate penalties be imposed, be held on April 20, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at Room 442, National Labor Relations Board, Washington, D. C.

It is further ordered, That W. A. Shipman, or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearings or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Griffith-Consumers Coal Company and to all persons and entities having an interest in such proceeding.

Notice is hereby given that answer setting forth the position of the aforementioned Griffith-Consumers Coal Company, with reference to the matters hereinbefore described, must be filed with the Bituminous Coal Division at its Washington Office or with any one of the field offices of the Division, within twenty (20) days after date of service hereof on the Griffith-Consumers Coal Company; and that failure to file an answer herein within such period, unless the presiding officer shall otherwise order, shall be deemed to be an admission by Griffith-Consumers Coal Company of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: March 19, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[Docket No. B-213]

IN THE MATTER OF THOMAS B. BLEAKNEY, AN INDIVIDUAL, CODE MEMBER, DEFENDANT

ORDER POSTPONING HEARING

The above-entitled matter having heretofore scheduled for hearing on March 25, 1942, at 10 a. m., at a hearing room of the Bituminous Coal Division, at Room 203, Post Office Building, Altoona, Pennsylvania, pursuant to Notice of and Order for Hearing dated February 21, 1942; and the place of said hearing having been changed to the Community Room of the Altoona City Hall, Altoona, Pennsylvania, by Order of the Acting Director dated March 5, 1942; and

The defendant having requested that said hearing be postponed, and good cause therefor having been shown;

Now, therefore, it is ordered, That the hearing in the above-entitled matter be and the same hereby is postponed from 10 a. m. on March 25, 1942, to 10 a. m. on March 30, 1942, at a hearing room of the Bituminous Coal Division at the Community Room of the City Hall, Altoona, Pennsylvania, before the officer or officers previously designated to preside at said hearing.

Dated: March 19, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[Docket No. 1666-FD]

IN THE MATTER OF W. H. WARNER & COMPANY, INC., REGISTERED DISTRIBUTOR, REGISTRATION NO. 9432, RESPONDENT

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION, AND ORDER DISMISSING CHARGES

This proceeding was instituted by the Bituminous Coal Division pursuant to the provisions of the Bituminous Coal Act of 1937 in order to determine (a) whether the respondent, W. H. Warner & Company, Inc., a registered distributor (Registration No. 9432), 570 Union Commerce Building, Cleveland, Ohio, has violated any provisions of the Act, the Marketing Rules and Regulations, the Rules and Regulations for the Registration of Distributors, and the Distributor's Agreement (the "Agreement"), executed July 20, 1939, by respondent; and (b) whether the registration of said respondent as a distributor should be revoked or suspended, or other appropriate penalties should be imposed.

The Notice of and Order for Hearing, dated July 28, 1941, charged that the respondent, during the months of October, November, and December, 1940, purchased 10,520.40 tons of ¾" slack coal produced by certain named producers from the Costanzo Coal Mining Company ("Costanzo") and resold and delivered the same to the Ohio Edison Company ("Edison") at Toronto, Ohio, at a price below the effective minimum price established therefor; and that the respondent, in addition, failed to add at least the actual transportation charges from the respective mines at which the coal was produced to the point from which all such charges were assumed and directly paid by Edison.

The respondent filed an answer denying the purchase from Costanzo or sale during the period in question of any coal which "was to come" from any of the producers named in the Notice of and Order for Hearing. The answer admitted that the respondent purchased from Costanzo during said period large quantities of ¾" deep mine coal produced at the Costanzo and Richland Mines, at a discount of five cents below the effective minimum price of $1.45, and delivered and resold such coal to Edison at Toronto, Ohio, at the said effective minimum price, which included 15 cents transportation charges.

The answer did not deny the origin of the coal as alleged in the Notice of and Order for Hearing, but asserted that if any coal from mines other than the Costanzo and Richland Mines was delivered for the respondent's account to Edison during the period in question, it was not in compliance with orders of the respondent and without its knowledge and consent, and that the notices of shipment of said coal showed it was produced at the Costanzo and Richland Mines, having river-loading facilities.

Pursuant to the Notice of and Order for Hearing, and after due notice to interested persons, a hearing in this matter was held from September 11 to 13, 1941, before W. A. Cuff, a duly designated Examiner of the Division, at a hearing room thereof in Cleveland, Ohio. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard.

The respondent appeared.

At the conclusion of the Division's case, the Examiner on the ground of failure of proof, purported to sustain a motion to dismiss made orally by the respondent, stating that "This hearing is accordingly dismissed." A proceeding which has been instituted before the Division can be dismissed only by or pursuant to an order of the Director or Acting Director. The Order of the Acting Director designating Examiner Cuff to preside at the hearing in this matter and setting a time and place therefor, granted and delegated unto the Examiner certain powers in the conduct of the hearing but in no manner, either expressly or impliedly, bestowed upon the Examiner the authority to dismiss the proceeding. The Examiner possessed only such authority as the Order of the Acting Director bestowed upon him and, therefore, the Examiner was without authority to dismiss the proceeding.

However, it seems appropriate to regard this ruling of the Examiner as a recommendation by the Examiner that the proceeding be dismissed and I am so regarding it. In addition, however, I have considered the record herein and upon the basis thereof I hereby make the following findings of fact, conclusions of law, and Order:

The evidence referred to two ¾" slack coals: (1) the coal in question ("truck coal"), originating at the mines of the producers listed in the Notice of and Order for Hearing and priced in the Schedule of Effective Minimum Prices for District No. 6 for Truck Shipments at $1.90 per net ton f. o. b. the mine plus trucking charges, and (2) coal produced at the Costanzo and Richland Mines of Wheeling Valley Coal Corporation ("river coal") and priced in the Schedule of Effective Minimum Prices for District No. 6 for All Shipments Except Truck at $1.45 per net ton, including river transportation charges.

It was established by the uncontroverted evidence that during the period specified in the Notice of and Order for Hearing the respondent purchased from Costanzo 10,664.14 tons of ¾" slack coal, produced at the mines of the ten producers listed in the Notice of and Order for Hearing, at $1.45 per net ton, including barge transportation charges, minus a distributor's discount of five cents. This coal was transported by barge to Toronto, Ohio, where it was delivered to Edison at $1.45 per net ton f. a. s. This coal, priced for truck shipments at $1.90 per net ton f. o. b. the mine, and not priced for river shipments, was substituted by Costanzo on orders placed with it by the respondent for coals of the Costanzo and Richland Mines, priced for shipment by river to Toronto, Ohio, at $1.45 per net ton f. a. s.

There is no substantial evidence to indicate that the respondent knew that coal which it was actually purchasing from Costanzo and reselling to Edison was the truck coal rather than the river coal. Indeed, there is evidence to indicate that Costanzo substituted the truck coal on the respondent's orders for river coal, without the respondent's authorization, approval or knowledge. The witness McElroy, Costanzo's traffic manager, on cross-examination identified orders given by the respondent to Costanzo during the period in question, calling for an aggregate of 60,000 tons of ¾" slack coal from the Costanzo and Richland Mines, and Costanzo's acknowledgments thereof. Andrew Carnegie, superintendent of production for Edison, testified that Edison had not ordered any truck coal from the respondent since 1930, and that it was its belief, based on the shipping invoices received by it, that the coal purchased from the respondent during the three last months of 1940 was not truck coal.

It appears that the respondent had neither intention to substitute truck coal on orders for river coal nor knowledge that this was being done. While the mere failure of a distributor to comply with the requirements of the Act, Division Orders, the Marketing Rules and Regulations, or the Agreement is sufficient to invoke the penalties provided by § 304.14 of the Rules and Regulations for the Registration of Distributors, no specific showing of knowledge of such failure to comply or intention not to comply being necessary, the undersigned finds that on the present record insufficient evidence appears to warrant revoking or suspending the registration of the respondent as a registered distributor. The proceeding should therefore be dismissed.

Now, therefore, it is ordered, That this proceeding and the allegations contained in the Notice of and Order for Hearing herein, be, and they are hereby dismissed.

Dated: March 19, 1942.

[Docket No. 5097]

APPLICATION OF EDWARD E. REEDER (NEW)

NOTICE OF HEARING

Application dated July 16, 1940, for construction permit; class of service, broadcast; class of station, broadcast; location, Seattle, Washington; operating assignment specified: Frequency, 1,600 kc.; power, 250 watts; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reasons:

1. To determine whether the proposed construction involves the use of any critical materials.

2. To determine the areas and populations which would receive primary service from the operation of the station proposed herein and what other broadcast service is available to these areas and populations.

3. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials. (See Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

4. To determine whether the proposed station would render primary service to (a) the business districts, (b) the residential districts, (c) the metropolitan district of Seattle, Washington, as contemplated by the Standards of Good Engineering Practice.

5. To determine whether the operation as proposed herein would preclude the most efficient use of the frequency 1,600 kilocycles.

6. To determine whether the operation of the station as proposed herein is consistent with the Standards of Good Engineering Practice, particularly with reference to Section 1, footnote 4, thereof.

7. To determine the availability of a transmitter site in the Seattle, Washington area which would comply with the Standards of Good Engineering Practice.

8. To determine whether in view of the facts adduced under the foregoing issues, public interest, convenience, and necessity would be served by the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Edward E. Reeder, 1627 Belmont Avenue, Seattle, Washington.

Dated at Washington, D. C., March 17, 1942.

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

[Docket No. 6108]

APPLICATION OF NASHVILLE RADIO CORP. (NEW)

NOTICE OF HEARING

Application dated October 11, 1940, for construction permit; class of service, broadcast; class of station, broadcast; location, Nashville, Tennessee; operating assignment specified: Frequency, 1,450 kc.; power, 250 watts; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for a consolidated hearing with the applications of Andrew L. Todd, Docket No. 6269, and Minor E. Bragg & Robert C. Lipscomb, d/b as Murfreesboro Broadcasting Company, Docket No. 6270, for the following reasons:

1. To determine the qualifications of the applicant, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the character of the proposed program service.

3. To determine whether the proposed construction involves the use of any critical materials.

4. To determine the areas and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and populations.

5. To determine whether granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

6. To determine whether granting of this application would tend toward a fair, efficient and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

7. To determine the availability of transmitter site in the Nashville, Tennessee area which would meet the requirements of the Standards of Good Engineering Practice.

8. To determine whether the proposed station would provide primary service to (a) the business district, (b) the residential districts, and (c) the metropolitan district of Nashville, Tennessee as contemplated by Standards of Good Engineering Practice.

9. To determine whether public interest, convenience and necessity would be served through the granting of this application, the application of Murfreesboro Broadcasting Company, Docket No. 6270, and the application of Andrew L. Todd, Docket No. 6269, or any of them.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Nashville Radio Corporation, c/o E. B. Stahlman, Jr., 1100 Broadway, Nashville, Tennessee.

Dated at Washington, D. C., March 17, 1942.

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

[Docket No. 6265]

APPLICATION OF MCKEESPORT RADIO CO. (NEW)

NOTICE OF HEARING

Application dated April 28, 1941, for construction permit, class of service, broadcast; class of station, broadcast; location, McKeesport, Pa., operating assignment specified: frequency, 1,360 kc.; power, 1 kw.; hours of operation, daytime.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reasons:

1. To determine whether the proposed construction involves the use of any critical materials.

2. To determine the areas and populations which would receive primary service from the proposed station and what broadcast service is already available to such areas and populations.

3. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

4. To determine whether the proposed station would provide primary service to the metropolitan district of Pittsburgh as contemplated by the Standards of Good Engineering Practice.

5. To determine the availability of a transmitter site in the McKeesport, Pennsylvania, area which would satisfy the requirements of the Standards of Good Engineering Practice.

6. To determine whether there are other assignments available which would permit operation during daytime hours only in accordance with the Standards of Good Engineering Practice.

7. To determine whether in view of the matters shown under all of the issues, the granting of this application would serve public interest, convenience, and necessity.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

McKeesport Radio Company, Attention: David B. Labowitz, 307 Fifth Avenue, McKeesport, Pennsylvania.

Dated at Washington, D. C. March 16, 1942.

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

APPLICATION OF ANDREW L. TODD (NEW)

NOTICE OF HEARING

In re application dated November 10, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Murfreesboro, Tennessee; operating assignment specified: Frequency, 1,450 kc.; power, 250 watts; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for a consolidated hearing with the applications of Nashville Radio Corporation, Docket No. 6108, and Minor E. Bragg & Robert C. Lipscomb, d/b as Murfreesboro Broadcasting Company, Docket No. 6270, for the following reasons:

1. To determine applicant's qualifications to construct and operate the proposed station.

2. To determine the character of the proposed program service.

3. To determine whether the proposed construction involves the use of any critical materials.

4. To determine the areas and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and populations.

5. To determine whether granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's memorandum opinion dated February 23, 1942, Mimeograph #58106).

6. To determine whether granting of this application would tend toward a fair, efficient and equitable distribution of radio service as contemplated by Section 307 (b) of the Communications Act of 1934, as amended.

7. To determine whether public interest, convenience and necessity would be served through the granting of this application, the application of Murfreesboro Broadcasting Company, Docket No. 6270, and the application of Nashville Radio Corporation, Docket No. 6108, or any of them.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Andrew L. Todd, West Main Street, Murfreesboro, Tennessee.

Dated at Washington, D. C., March 17, 1942.

By the Commission.

[Docket No. 6270]

IN RE APPLICATION OF MINOR E. BRAGG & ROBERT C. LIPSCOMB, D/B AS MURFREESBORO BROADCASTING COMPANY (NEW)

NOTICE OF HEARING

In re application dated November 12, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Murfreesboro, Tennessee; operating assignment specified: Frequency, 1,450 kc.; power, 250 watts; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for a consolidated hearing with the applications of Nashville Radio Corporation, Docket No. 6108, and Andrew L. Todd, Docket No. 6269, for the following reasons:

1. To determine applicants' qualifications to construct and operate the proposed station.

2. To determine the character of the proposed program service.

3. To determine whether the proposed construction involves the use of any critical materials.

4. To determine the areas and populations which would receive primary service for the proposed station, and what broadcast service is already available to such areas and populations.

5. To determine whether granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

6. To determine whether granting of this application would tend toward a fair, efficient and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

7. To determine whether public interest, convenience and necessity would be served through the granting of this application, the application of Andrew L. Todd, Docket No. 6269, the application of Nashville Radio Corporation, Docket No. 6108, or any of them.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Minor E. Bragg & Robert C. Lipscomb, d/b as Murfreesboro Broadcasting Company, Attention: Minor E. Bragg, 110 East Main Street, Murfreesboro, Tennessee.

Dated at Washington, D. C. March 17, 1942.

By the Commission.

[F. R. Doc. 42-2400; Filed, March 19, 1942; 12:25 p. m.]

[Docket No. 6271]

IN RE APPLICATION OF WILLIAM L. KLEIN (NEW)

NOTICE OF HEARING

In re application dated, August 8, 1941; for, construction permit; class of service, broadcast; class of station, broadcast; location, Oak Park, Illinois; operating assignment specified: frequency, 1,490

kc.; power, 250 watts; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reasons:

1. To determine the extent of any interference which would result from the simultaneous operation of the proposed station and Stations WHIP and WDAN.

2. To determine the areas and populations which would be deprived of primary service, particularly from Stations WHIP and WDAN, as a result of the operation of the proposed station, and what other broadcast service is available to these areas and populations.

3. To determine the availability of a transmitter site in the Oak Park, Illinois, area which would comply with the Standards of Good Engineering Practice in all respects.

4. To determine whether the proposed station would provide primary service to the metropolitan district of Chicago as contemplated by the Standards of Good Engineering Practice.

5. To determine whether the proposed construction involves the use of any critical materials.

6. To determine the areas and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and populations.

7. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

8. To determine whether the granting of this application would tend toward a fair, efficient, and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

9. To determine whether in view of the facts adduced under the foregoing issues, public interest, convenience and necessity would be served through the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's adress is as follows:

William L. Klein, 201 N. Wells Street, Chicago, Illinois.

Dated at Washington, D. C., March 16, 1942.

By the Commission,

[SEAL] T. J. SLOWIE, *Secretary.*

[F. R. Doc. 42-2401; Filed, March 19, 1942; 12:25 p. m.]

[Docket No. 6272]

IN RE APPLICATION OF CHAMBERSBURG BROADCASTING CO. (NEW)

NOTICE OF HEARING

In re application dated September 2, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Chambersburg, Pennsylvania; operating assignment specified: Frequency, 1,340 kc.; power, 250 watts; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reasons:

1. To determine whether the applicant, its officers, directors and stockholders are qualified in all respects to construct and operate the proposed station.

2. To determine the identity, residence, experience and familiarity with the needs of the population to which it is proposed to render a local broadcast service, of the persons having ultimate control of the applicant.

3. To determine the character of the proposed program service.
